NAZIS THINK INVASION IS NEAR

SADLER, HAYNIE ENTERTAINED AT CISCO ROTARY GOOD SCORES AT INDIVIDUAL CONTEST

Rotarian Harley Sadler of Sweetwater, here this week with his always popular tent show, and John J. Haynie of the U. S. ski forces and home from Wisconsin on furlough, featured the program at yesterday's Rotary lunch and were introduced by Dr. E. L. Graham in his usual inimitable way.

J. E. Hays announced another 100 percent attendance for Cisco Rotarians. It was decided to hold next week's meeting on Friday because of the blood donor program set for next Thursday.

President Lonnie Shockley failed to find any delegates to go to the district conference at Lubbock next week.

Harley Sadler, veteran showman who has visited the Cisco Rotary club on many occasions, announced his topic as "Tolerance," which he said was an important quality in community and national life and, during the war and post-war period, much of it would be needed to tide over the difficulties that must of necessity come.

It is fine, he stated, that our country allows for criticism of our national leaders, but in doing so we must realize that it is often unjust because we do not always have all the facts at hand that enable us to judge the actions of these leaders.

"We must think that while we may be short some sugar, tires or gasoline, some other person is short a son—all as a result of war," he said. All sorrows are personal and while we fret at our inconveniences, others have much greater suffering in comparison. "Warriors and other service club members, as well as churches, can do much to aid in these times of stress. We should be glad that our own country has much that others do not have."

He told the old story of the man who wondered about what kind of neighbors he would have in his new home, but was told that some neighbors would usually reflect his own qualities of citizenship.

Sadler said: "Do not find fault unless you have worn the shoes of the man you criticize."

Dr. Graham then introduced Mr. Haynie, cornet soloist, saying that as a neighbor he was often annoyed with Haynie's practice on his horn, but now he was glad to present him as a musician who no longer worried his neighbors with his early practice but as a finished performer who brought gladness with his music. Haynie's program was encored and complimented at the close of the program.

What might be termed an individual high-score bowling contest was inaugurated Tuesday night at the local alleys and will continue indefinitely, says C. C. Cutting, manager. Games will be played each Tuesday night and anybody can enter. Mr. Cutting stated:

There were 18 entrants at the opener and the four topnotchers and their averages are as follows:

Franz Essl, Jr.	196
C. E. Paul	183
Pete Nance	182 2-3
Francis Urban	182

It will be noted that Pete Nance lacked one pin of equalling Dr. Paul, who won second place.

Under the plan adopted, all entrants are assessed a certain sum and, after deduction of bowling charges, the remainder of the jackpot is distributed among the four high men, according to position.

For instance, Essl received \$2.50 in cash, Paul \$2 and Nance and Urban \$1.35 each.

MEN WIN FROM WOMEN BY A SMALL MARGIN

Smitty's Conocos, of the Men's Bowling league won three straight games from Carmichael Grocery, champions of the Women's league, at the local alleys Wednesday night. Notwithstanding they lost all three games, the women kept on their toes throughout the evening and were only "nosed out" in two of the games. The galleries were packed and jammed with spectators and a large proportion of the latter rooted for the ladies consistently. Scores:

Carmichael Grocery—	
Patsy Allen	169—173—169
Mrs. B. Reames	145—117—187
Mrs. D. McCallum	188—167—177
Mrs. F. Triplet	159—138—158

CHARACTER LACKING.

AUSTIN, April 21.—Reading, writing and arithmetic have been oversold and character development under sold to school pupils, Dr. L. W. Tiresman of the U. S. Office of Education today told an inter-American conference at the University of Texas. Dr. Tiresman opposed forcing Latin-American courses into schools, but favored weaving Latin-American culture into studies.

WOMAN'S TOUCH—Employees at Aeronca Aircraft company's Middletown, O., plant set fire to cracked-up plane to demonstrate proper method of extinguishing fire. Putting out the flame is part of their duty as members of auxiliary plant firemen.

NEW GUINEA GODDESS—This alluring lovely does good job of reminding Yanks to take atabrine tablets. She also succeeds in perplexing natives of Sidor, New Guinea, who just can't seem to figure out the white man and his ways.

THIS IS OUTRAGEOUS!

FT. WORTH, April 21.—Whiskey was being sold at \$12.50 a short quart from a room in a downtown hotel, L. A. Wilder, agent for the State Liquor Control Board, said in County Court at Law No. 2 when a defendant pleaded guilty to violating the liquor law. He stated that 18 short quarts were confiscated from the hotel guest's room. A fine of \$100 was assessed.

BURIED AT MORAN.

MORAN, April 21.—The funeral of Marshall C. Dorsey, 36, son of Mr. and Mrs. Joe Dorsey of Moran, was held here Tuesday at the Church of Christ, with Elder Cole Jackson officiating. Born near Moran, deceased died in Phoenix, Ariz., April 14, where he had lived for the past five years.

NEW LIBRARY BOOKS.

Mrs. W. L. Jones, librarian, submits the following list of new books that may be found at the Cisco public library: Dragonwyck, Victoria Grandolet, Winter Wheat, Strange Fruit, What Became of Anna Bolton? House of Cobwebs, Under Cover, Changes of China, Also the Hills, Journey in the Dark, The Walsh Girls, Here Is Your War, Taps for Private Tussie, Flint, by Charles Norris; Long, Long Ago, The Lost Weekend, The Road, to Teheran, Poirot Loses a Client, Peril at End House, The Laughing Fox, The Big Rock Candy Mountain, The Apostle, by Sholem Ash.

MAMA LLAMA PRESENTS—Joe, two feet high and weighing 15 pounds, is offspring of Dolly, Peruvian Llama at London Zoo. Attendants are almost as enthusiastic as Dolly about the new calf.

LARGE HAIL SOME WIND HIT COUNTY

A hail, wind and rainstorm struck Ranger at about 7:30 o'clock last night and it was said by a representative of the Ranger Times at noon today that hardly a house in the city escaped damage from the large hailstones that deluged the city over a period estimated at thirty minutes.

There seems to have been comparatively little wind damage, but the downpour of stones left roof and window pane damage everywhere. Not one of the eight Ranger churches escaped heavy damage to roofs and windows.

One insurance agency told the Times that at 9:30 o'clock this morning 125 damage claims had been filed with the agency and that they were still coming in as fast as he could record them. It was said to have been the worst hail storm in the history of Ranger.

There was considerable hail damage at Eastland, but nothing like the Ranger property loss.

Cisco Gas Corporation reported two of its oil rigs blown down. One was east of Cisco on the highway and the other about seven miles northeast of Cisco. The roofs of two houses at the booster plant, five miles east of Cisco, were destroyed by hail, and damage to the Consolidated Gasoline Co. plant at Eastland is said to have been around \$2,000.

Frank Bond of the Cisco Gas Corporation, who lives near the booster plant, today exhibited a dozen hailstones he picked up after the storm had passed, each about the size of baseballs. The ground was covered with stones of that size, Mr. Bond stated. O. L. Duckett, who also lives near the booster plant, reported a badly damaged roof. Wind was strong in that area, too.

M. H. Roberts of Scranton said this morning that no rain fell there, but that the wind was quite strong. A large empty oil tank on the May Sprawls farm was blown away and wrecked and some fruit trees were blown down. A barn to the west of Scranton was blown away.

G. P. Mitcham reported considerable wind damage at his headquarters ranch, nine miles northwest of Cisco. A windcharger tower was destroyed, the roofs of several houses completely wrecked and a big barn was damaged. "It was a cyclone, all right," said Mr. Mitcham, "but it did not get low enough to work the havoc it might have."

While unusually large hail fell in certain areas of the city of Cisco, the city was very fortunate in that the wind did not strike here with damaging force and the hail, though large, was widely scattered, with comparatively little damage. Connie Davis, E. P. Crawford and George Boyd, local insurance agents, had no figures on property damage within the city.

J. O. Skiles, 400 I avenue, reported a heavy fall of large hail at his home. One stone was picked up and placed in the ice box. When measured this morning it was about seven inches in circumference, or the size of a baseball.

Mrs. Les Jenkins in Humbletown picked up several unusually large hailstones. One, after being carried in the house and rinsed off, measured eight and a half inches. Wind blew down a large poplar tree in the Jenkins yard.

Rex Moore, who lives at 1900 H avenue, reported some wind

BERLIN SAYS ROYAL NAVY, WITH LARGE UNITS OF U. S., FRENCH AND ITALIAN FLEETS GATHERING

LONDON, April 21.—The German radio said today that the greatest concentration of shipping since the Dunkerque evacuation has been assembled in British waters, presumably for an invasion of western Europe.

The Royal Navy is being concentrated in home waters, along with units of the American, French and Italian fleets, the broadcast said.

"Troops are leaving London," it added. "Every day now, troop trains are leaving London stations taking men to ports."

Another Berlin broadcast said the Germans across the channel and North Sea have concluded all "preparations to counter the invasion" with all defenses ready for the enemy. Reinforcements of crack SS Elite Guards, considerably more disciplined and much better equipped than other line troops, have reinforced German garrisons in the Atlantic wall defenses, the Stockholm newspaper Tidningen reported from Berlin.

More than 300,000 men now stand ready to repel any Allied invasion, Berlin sources said.

European reports indicated that all was not well behind Hitler's invasion defenses, however.

A Swedish Agency dispatch from Oslo said a small vessel—obviously an ammunition ship—blew up opposite the so-called fortress quay at Bergen on the west coast of Norway and destroyed a number of buildings in a military area near the shore, including Haakon's Hall, one of Norway's oldest historic monuments.

The explosions, presumably touched off by saboteurs, killed at least 43 persons and injured hundreds of others. A tugboat was blown out of the water onto a pier and fires raged uncontrolled for several hours.

Another Swedish Telegraph Agency dispatch, this one from Copenhagen, said Gestapo agents had arrested hundreds of Danish patriots in a surprise round-up that covered the entire country. Practically the entire executive of the Conservative Youth Organization was taken into custody.

MOSCOW.—The German command hurled hordes of tanks and tens of thousands of infantrymen today against Soviet forces massing in Estonia and old Poland for spring and summer offensives, but the Russians held firm and were reported officially to be "slaughtering" the attackers.

The increasingly heavy German "preventive" attacks indicated that Red armies may be preparing to strike next in the Narva sector of Estonia in the Baltic states and on the Stanislawow front in the Carpathians as soon as they complete the liberation of Sevastopol, last Nazi toehold in the Crimea.

The German stand in Sevastopol, Russia's biggest naval base, was believed in its final hours as two Russian armies slowly pressed the doomed garrison back through the streets of the city. Soviet planes blockading the approaches to the port in 24 hours alone sank an enemy destroyer and four transports totalling 15,000 tons, some of them loaded to capacity with fleeing German and Romanian troops.

CHUNGKING.—American war prisoners in Japan are being used as coolies to perform heavy, dirty work on the waterfronts.

Japanese live in constant dread of aerial attack, which they fully expect in 1944.

Strict blackouts are enforced nightly in Tokyo, Kobe, Yokohama and other cities.

Strict censorship withholds all news of Japanese military reverses from the people.

This, in part, was the picture of Japan given by an alert, intelligent Chinese girl who has just arrived in Chungking after a difficult round trip to Japan.

She said the Japanese are convinced their home islands will be attacked from the air this year.

"Friends all advised me to leave Japan before spring," she said. "One girl, a member of a prominent Japanese family, said: 'We're afraid the same thing will happen to Tokyo that's happening to Berlin.'"

LIONS IN MEXICO.

MEXICO CITY, April 21.—A flag ceremony during which the national anthems of 13 countries represented were played marked the opening of the Lions club convention yesterday.

FIFTH WAR LOAN.

WASHINGTON, April 21.—Secretary Morgenthau will open the \$16,000,000,000 Fifth War Loan with a radio broadcast from Texarkana, Texas, June 12. The campaign, to extend through July 8, will seek to raise a minimum of \$6,000,000,000 from individuals.

EYES AND EARS.

Says Paul W. White, director of public affairs for the Columbia Broadcasting System: "The basic difference between newspaper and radio presentation of the news is that we have only a front page—the listeners must accept our judgment as to what is news. They can't turn the pages and see what is inside."

It is an illuminating view of the general news situation. The American people are probably the most news-hungry people on earth. Like the ancient Athenians, they are always seeking to learn "some new things." Modern radio broadcasting contributes notably to that end. But the wonderful development of radio so far has been limited, as far as news is concerned.

It can provide the headline news and the "spot news." But only when big events are brewing, and people are listening particularly to learn what is occurring at the moment, can radio voices give anything approaching a full presentation. Their news technique confines them to the invisible front page and headlines.

The newspaper, coming a little later, presents the full picture. It is more accurate, more complete, more discriminating, and it gives the passing scene to the eye in permanent form.

JAPAN'S NEW ALLY.

The Japanese can do big things, too. They are now changing the course of China's Yellow River to shorten their defense lines by 500 miles.

It is a job on the same scale as relocating the Columbia or the Missouri, with this difference: the Yellow River is used to it. It builds up great banks of fertile mud, and every now and then breaks through them to make a new course. The dwellers along its course are lucky if in such a chance millions are not drowned. It has repeatedly changed its channel of its own accord, and in 1938 was artificially diverted by the Chinese, who blew up the dikes and turned the Yellow River into the smaller Hual, which flows into the sea north of Shanghai. This was a military measure, drowning many Japanese soldiers and leaving others on the wrong side of the river from their mechanized equipment.

Now the Japanese are resorting to a weapon as old as irrigation. Like the Germans in Holland, they are using floods to relieve the strain on their war-weary soldiers.

(Files of Cisco Round-Up.)

The meeting advertised for last Sunday night at the City Hall, for the purpose of bringing the people together in a general mass meeting to discuss the welfare of the city, and for the purpose of getting the Chamber of Commerce upon a more substantial basis, was a great success, both in a better understanding and enthusiasm displayed for the welfare of the city. The committee having the program in hand, by some peculiar coincidence, was not present. From various causes nearly every member was out of town on private matters, and the program was carried out by Mr. John H. Garner. From the enthusiasm shown for Cisco, and the liberal responses made in a financial way, those not informed would have thought the original plans had not miscarried. With Miss Harris at the piano the proceedings were opened with a song by the audience. The invocation was delivered by Dr. Baten, pastor of the Baptist church. Short talks were made by the three ministers, Revs. A. E. Baten, W. P. Leslie, and Umphrey Lee and B. W. Patterson. All spoke on the material progress of Cisco, and the relation of the Chamber of Commerce to the church.

working force of three or four employees. This change becomes effective July 1.

For about three months the First Baptist church has had up the matter of securing the services of Dr. J. Frank Norris for a revival meeting. Several problems had to be solved. A place had to be secured, a building had to be provided. Then the time when Dr. Norris could come was to be considered. The first two problems were finally solved, and the last was taken care of when it was learned that Dr. Norris would begin the meeting on Monday, June 22. The pastor here has written to the pastor within this district association, and they will assist in the circulation of the announcements. They will

ask their town papers to publish notices regarding the meeting. The vacant lot directly in front of the City Hall is the place selected for the tabernacle which will be erected within the next few days. If any one should feel that the time agreed upon is not the most suitable, he should know that it happens to be the only time in which Dr. Norris could hold the meeting. Let all Christians in Cisco pray that the meetings to begin here on Monday, June 23, will be marked by great spirituality on the part of the church members, and many conversions from the ranks of the unsaved. A. E. Baten, Pastor.

Holy Smokes! by Raleigh

THE STORY OF TOBACCO

"TOBACCO GOES TO WAR"

FIRST SOLDIERS TO USE TOBACCO WERE AMERICAN INDIAN BRAVES. CENTURIES BEFORE COLUMBUS THEY SMOKED A LONG-STEMMED TOMAHAWK WAR PIPE BEFORE BATTLE.

WITH THE THIRTY YEARS WAR, BEGUN IN 1618, SMOKING BECAME UNIVERSAL AMONG THE SOLDIERY OF EUROPE.

NAPOLEON'S FIRST ATTEMPT TO SMOKE WAS HIS LAST. THE SMOKE WENT THE WRONG WAY AFTER WARPS HE STUCK TO SNUFF, CONSUMING SEVEN POUNDS PER MONTH!

IN WORLD WAR ONE, GENERAL PERSHING STRESSED THE IMPORTANCE OF TOBACCO. HE CABLED: "WE MUST HAVE THOUSANDS OF TONS OF IT WITHOUT DELAY."

THE PRESENT WAR HAS BROUGHT AN ENORMOUSLY INCREASED CONSUMPTION OF TOBACCO. ESTIMATED CONSUMPTION FOR 1944, BY U.S. ARMED FORCES ALONE, IS 36,300,000 PACKAGES OF CIGARETTES AND 500,000,000 CIGARETTES.

A QUIET BUSINESS CONFERENCE

By RUBE GOLDBERG

IT'S HARD TO TALK OVER BIG BUSINESS MATTERS HERE IN MY OFFICE. THERE ARE TOO MANY INTERRUPTIONS. LET'S GO UP TO MY HOUSE FOR A NICE, QUIET CONFERENCE.

SURE, THIS DEAL IS IMPORTANT.

NOW, MY IDEA IS TO BUILD A RAILROAD FROM HAWAII TO NEW ZEALAND.

OO, DADDY, I JUST GOT SOUTH AFRICA ON THE RADIO.

NOW, AS I WAS SAYING, WE MUST START OPERATIONS WITH \$15,000,000 IN CASH.

COME IN HERE, DADDY AND FIX MY FIRE ENGINE.

THE MAN IS HERE TO CLEAN THE RUG. YOU'VE GOT TO HELP HIM CARRY IT OUT.

OUR NEXT BIG PROBLEM IS -

NOW, AS I WAS SAYING, HAWAII IS THE NATURAL GATEWAY TO CHINA.

WE CAN HAVE A NICE QUIET BUSINESS TALK WITHOUT BEING DISTURBED.

Somewhere In The Pacific - A Navy flyer plummets his dive bomber in near vertical descent briefly racing his own bomb toward targets such as this Jap cruiser our flyers bombed, burned and sank off the Marshall Islands.

Acting under strict military censorship, Nash-Kelvinator became one of the world's largest manufacturers of bomb fuses, producing three types for Navy bombers ranging from 100 pounds up to Atoil-Buster size. Manufacture of these bomb fuses has been proceeding along with the company's mass production of 2000 HP aircraft engines, hydromatic propellers, propeller governors, and large scale manufacture of essential parts for jeeps, seeps, tanks and trucks, and parts for submarines and ships.

The bomb fuses, none of which have been seen by the public, have established an outstanding record in the Pacific. Larger size Navy bombs carry two of these propeller-type fuses to make doubly sure a bomb will explode - one in the nose and one in the tail. None of these bombs has ever been known to fall on the target a "dud".

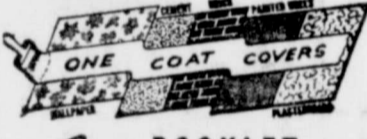

Foretelling bad news for the Japs, bomb fuses of this type have secretly been in mass production since March, 1942, it was recently disclosed in a Navy approved statement announcing completion of the big contract "on schedule".

INVASION NEARS.

Many think the invasion from England may come most any day. They have held that the Allies were awaiting such time as Russia could regain her lost territory and be ready to actually invade Germany at the same moment as forces from England.

If that be correct, it would seem that the moment has almost arrived, since the Reds are already knocking at the door of Eastern Germany.

Let's stand ready to give all-out support.

Here's how you can use

COFFEE AS AN AID IN REDUCING

Plenty of Exercise

That's taken for granted. Right. But drink Admission in the course of your exercise. Admission picks you up, postpones fatigue, and supplies extra energy with which to carry on your activities. You'll find you tire less easily, have much more strength, and feel better.

Moderate Eating

To be sure. Many authorities maintain most excessive weight comes from over-eating. Admission Coffee drunk with your meals will increase the flow of gastric juices in the stomach, thus facilitating better digestion. Its energy-giving goodness also will give you a quick satisfaction, reducing the desire for a large amount of food.

Frequent Recreation

Recreation is good for the spirit as well as the body. When people have little else to think of or do—they eat. And in weight reduction the idea is to stay away from food as much as possible. Thus as you pause in your recreation and others suggest food—make yours a cup of Admission Coffee. Its flavor and aroma will give you as much enjoyment as food gives others.

Watch Weight

This is most important, for you can thereby control your eating and progress. Quick loss of weight, authorities agree, is not healthy. Gradual loss is better. It's the least bothersome too. An occasional cup of Admission in place of an in-between meal snack is ideal, for it satisfies the desire for food, yet supplies practically no weight-building food values.

Admission Coffee Picks You Up

It's the pick-up in coffee that makes it the universal beverage of good cheer. Coffee postpones fatigue. It relaxes, brightens the perception... all the senses... and increases physical strength. When you add to this the delightful flavor and richness of a blend like Admission... well, weight reducing isn't such a task as it might appear.
