U.S. SEIZES MONTGOMERY-WARD

DEATH OF MRS. FANNIE WILLIAMS; 77

Mrs. A. A. Williams, 77, died at her home on west Twelfth street at 4:35 yesterday afternoon, after an illness of several weeks. She was the widow of A. A. Williams, who died here in February, 1943. Her maiden name was Fannie Ann Curtis.

Deceased had been a resident of Cisco for 25 years, was a good woman and a devout member of the Baptist church. She was born in Georgia, March 9, 1867.

The funeral will be held at First Baptist church at 3 o'clock tomorrow afternoon, with Rev. Cooper Waters officiating. Burial will be in Oakwood cemetery, in charge of Green funeral home.

Pallbearers: Clyde Karkalits, Homer Bible, Earl O'Brien, O. L. Doherty, Nute Hart and Algie Skiles. Honorary pallbearers: All friends of the family.

The immediate survivors include two sons and six daughters, as follows: J. P. Williams, Denver City, Tex.; Buren Williams, Wilson, Tex.; Mrs. Wallace Ramsey, Carlsbad, N. M.; Mrs. J. T. Townsend, Knott, Tex.; Mrs. G. L. Thacker, Pear Valley, Tex.; Mrs. W. D. Smith, Brownwood; Mrs. H. B. Smith, McCamey; Mrs. Homer Smith, Eastland. A sister, Mrs. Lillie Armstrong, lives in Cisco, and a brother, D. W. Curtis, lives at Nimrod. There are also several half brothers and sisters, as well as a number of grand and great grandchildren.

CISCO MARINE WRITES FROM OVER SEAS

The Daily Press is in receipt of a letter from Corp. Clifford W. Doggett, serving with the Marines overseas, in which the Cisco boy said he was receiving the Daily Press regularly and thoroughly enjoying it.

He enclosed a new address and said: "Being overseas, I always look forward to receiving the Cisco paper, for through it I am able to keep in touch with friends and events, which are of the highest interest to me. In the past delivery of the paper has been very regular and I hope it will continue to be so."

ON THE WAR PATH—With number of Jap scalps to his credit already, PFC. Richard Banasua, Apache Indian, is oldest man from service standpoint in 1st Cavalry Division in Admiralty Islands. With cavalry for 22 years, he hails from Brackettsville, Tex.

FEW BONDS PURCHASED IN CISCO

As made clear in a statement in yesterday's Daily Press by Cyrus B. Frost, Eastland County War Bond chairman, the county as a whole is way behind in subscribing the April quota of \$51,400.

In his statement Mr. Frost emphasized that less than one-half of the quota had been raised and said that unless every town in the county and every citizen does his part before Saturday night, the county will fail to do its duty, and fail miserably.

R. L. Ponsler, Cisco chairman for the war bond drive, is also worried for fear that this city, which so far has never failed in its bond-buying duty, will fall far short this time.

The Daily Press contacted the First National Bank this afternoon and was told that bonds sold this month total but \$4,887.50, while L. H. McCrea, postmaster, announced bond sales of but \$3,168.75. K. N. Greer of the Palace theater, where bonds may also be purchased, could not be contacted.

In short, Cisco seems to have invested but \$8,056.25 in bonds this month.

This sort of response to the government's call will not get the job done, and Saturday is the last day of grace.

LIONS CLUB ENJOY MUSIC AT LUNCHEON

The Lions club enjoyed a program of music supplied by local talent at their luncheon yesterday when Ray Judia with his saxophone, Travis Parmer with his bull fiddle and Mrs. L. E. Hall at the piano played various popular selections.

A. R. Westfall served as tail-waiter, collecting numerous fines for infractions or alleged infractions of regulations.

The following were announced as delegates to attend the district Lions convention in Ft. Worth next Tuesday and Wednesday: L. W. Seymour, W. H. LaRoque, N. C. Huston, C. J. Turner and Harry Schmidt. Alternate delegates are O. L. Stamey, C. M. Nevill, Jack Anderson, Chas. S. Sandier and George Downie.

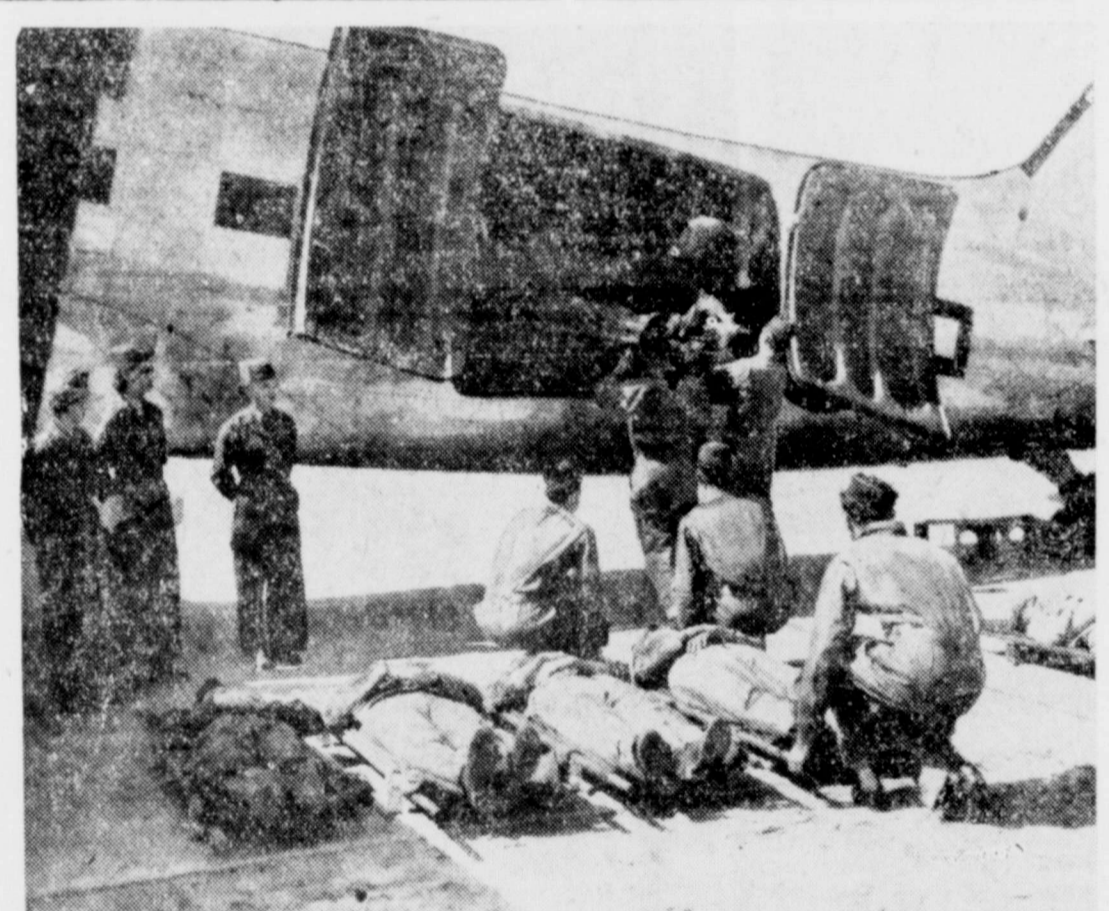

Following the meeting the board of directors voted to cooperate with Cisco Junior college in sponsoring a community program some time in May, the date and other details to be decided upon later.

OPA RULING

WASHINGTON, April 27.—Housewives will be required to pay only twelve red points a pound for creamery butter during May and June, four points less than now, but the values of choice meat cuts will be slightly higher, the Office of Price Administration announced last night. A new ration chart, effective from Sunday, April 30, through June 30, provides a four-point per pound cut for butter and margarine, a 50 per cent reduction in lamb and mutton values, a one-point increase for most steaks and roasts, and little or no change in values for veal, pork, lard and salad and cooking oils. Point values for farm and country butter will be sliced to eight points per pound from twelve, and for process butter, to four points from six.

OIL FIELD SUBSIDIES

WASHINGTON, April 27.—Transportation subsidies for certain oil fields in Wyoming to refining cities in the Middle West have been established by the Defense Supplies Corporation, Representative Barrett of Wyoming said today.

FUTURE LEADERS

KANSAS CITY, April 27.—The future leaders of the Methodist church will come from among its 1,300 chaplains who know what it is to lie in a foxhole under withering machinegun fire, says D. Stewart Patterson, of Washington.

BROTHERHOOD MEETING

There will be a meeting of the Brotherhood at East Cisco Baptist church tonight, following supper to be served by the women of the church. Men of the Brotherhood will meet at the church at 5 o'clock this afternoon for yard and other improvement work. It has been made clear, however, that the food will not be placed before the men until after the work schedule has been completed.

DALLAS, April 27.—The Texas Democratic Party's stand on the Negro vote question will probably be announced soon after May 1, County Chairman Sanders said today after he was notified that the committee of lawyers named by State Chairman George Butler to study the situation had been requested to submit a report by that time.

RED PROGRESS

LONDON, April 27.—Powerful Russian forces have launched a new offensive in northeastern Romania, Berlin reported today, and Moscow said the Sevastopol siege army had captured a network of trenches in which Red marines defended the city two years ago.

The German High Command reported the second Red army offensive in two days on the southern front in a communique which said troops supported by tanks and battle planes swung over to the attack north of Iasi in an attempt to break through toward the Galati gap.

Despite stubborn resistance by German and Romanian forces, the Nazi communique said, the Russians wedged into the Axis positions at some points. It claimed in the customary propaganda wording that "local penetrations were sealed off."

Berlin also said other Red Army assault forces continued heavy attacks in the lower Dnestr valley southeast of Iasi, where earlier Axis reports indicated the Russians were storming westward toward the Bessarabian stronghold of Chisinau and rolling up the extreme southern flank of the Axis defenses.

DALLAS, April 27.—Members of the Texas Association of Osteopathic Physicians and Surgeons returned to their homes today after electing officers and picking Galveston as their next convention city. Dr. Robert E. Morgan of Dallas was named president.

HOLLANDIA IN HANDS AMERICANS

NEW GUINEA, April 27.—American troops are thought to have completed the conquest of Hollandia's three airfields, thus giving the Allies new aerial bases within striking distance of the Palau Islands and also the Philippines.

The rapid American thrusts, which tightened the Allied hold on northern New Guinea, came after Australian forces sealed the southern front with the capture of Madang, one of the best harbors along the entire coast.

Possession of Hollandia's airfields gave the Allies new bases 800 miles below the strategic Palau Islands in the western Carolines, and within 1200 miles of Davao at the southern tip of the Philippines.

A message from Gen. MacArthur's headquarters said veteran American jungle troops which started from Humboldt Bay seized two of Hollandia's airfields—Cyclops and Sentan—Tuesday. Another U. S. force, striking from Tanahmerah, reached the edge of Hollandia airfield the same day, and it was presumed it had fallen by now.

As the American forces brought the immediate campaign in northern New Guinea to a rapid and successful climax, Australian troops completed their drive through jungles approximately 400 miles to the south to seize Madang and its airbase.

The Australians met only light rear guard opposition when they entered Madang Monday, and found indications that the main body of Japanese had evacuated the seaport about a month ago.

Capture of Madang, which had been held by the enemy since December 1942, and the northern conquests brought further pressure on Weiwak, Japan's last big base in British New Guinea.

GOVERNMENT TAKES OVER BILLION DOLLAR PLANT AFTER SOLDIERS EJECT THE MANAGER

CHICAGO, April 27.—Two soldiers of the Army detail which seized the Montgomery Ward & Co. Chicago plant forcibly ejected Sewell L. Avery, 69, company chairman, today from his own offices which he refused to yield to authority even of President Roosevelt.

The troopers carried Avery bodily out of the administration building.

Attorney General Biddle today took command of the legal ramifications after government seizure, with the aid of army troops, of the Chicago facilities of Montgomery Ward & Co.

Biddle arrived by plane shortly after 4 a. m., accompanied by Hugh B. Cox, assistant solicitor general.

Biddle reportedly conferred at an early breakfast with Wayne C. Taylor, undersecretary of commerce, who Wednesday took charge of Ward's under authority of the secretary of commerce acting at President Roosevelt's direction and with support of the secretary of war after Sewell L. Avery, chairman of Montgomery Ward, twice refused to accept legality of the seizure proceedings.

The attorney general, Taylor and Ugo Carusi, executive assistant to Biddle, arrived at the Ward plant about 7:45 a. m. Biddle complimented some of the girl employees on their bright and early arrival at work as he went to Avery's suite of offices on the eighth floor.

Soldiers with bayoneted rifles patrolled the administration building offices and the entrance to the retail store, shooing out reporters, although a company spokesman said press quarters would be made available later. Maj. J. R.

CHICAGO.—Lt. Ludwig Pincura, "hero" of the Army's "capture" of the Montgomery Ward & Co. Chicago plant, taken over for operation by the government, was asked today if he ever had envisioned himself as custodian of a billion-dollar enterprise.

The lieutenant sighed a loud negative and added: "But at least I can tell my grandchildren that I fought in the 'Battle of Montgomery Ward.'"

Weber of the 6th Service Command was in charge of the detail of some 35 soldiers, a token force which Taylor said Wednesday simply emphasized the fact that the United States Government had taken charge.

Taylor also declared business would proceed as usual, except that Avery's voice no longer would be recognized. Only the Chicago properties were involved.

There was no immediate word from Avery or company counsel on Ward's next step although it was speculated the company might make some court move.

Printed notices, signed by Secretary of Commerce Jones and stating that all Ward's Chicago properties now are under federal government control, were posted in the building.

The dispatching of troops to the plant late Wednesday climaxed the government's third effort during the day to carry out President Roosevelt's directive, issued when the company failed to comply with his and a WLB order to extend an expired contract with a CIO union.

Twice during the day officials of the department of commerce and the attorney general's office took steps to take possession of the plant but on both occasions they failed when Avery refused to recognize their authority, contending that the seizure was illegal. He had advised Roosevelt, in a telegram, that the company was not engaged in war work and seizure by any federal official would be unconstitutional.

WRIGHT FLEW GIANT PLANE; 73 YEARS OLD

DAYTON, Ohio, April 27.—Griming happily, Orville Wright, 73, co-inventor of the airplane, handled the controls of an airplane for the first time in 25 years Wednesday when he had a 50-minute flight over Dayton in the Lockheed Constellation. After

the flight he sighed "it was wonderful." He last piloted a plane in 1919.

Wright's flight in the new 57-passenger transport which set a new transcontinental record a week ago, highlighted the plane's arrival here for the Army's accelerated service testing of the plane.

Back on the ground, Wright grinned broadly. "I enjoyed every minute," he said. "I guess I ran the whole plane for a minute but I let the machine take care of itself. I always said airplanes would fly themselves if you let them alone."

RESTORING MONEY STANDARDS.

It seems like old times to find people discussing the Gold Standard again, and financiers not only in this country, but throughout the world, planning to restore it. When the government experts of 34 nations agree on a broad policy to establish an international fund of \$8,000,000,000, for gold-based stabilization, it reveals more common sense and unity than this poor old world has shown about anything for some time.

However, it is reassuring to find even Russia, in spite of her usual aloofness, adhering to this plan, and thereby increasing its chance of success. It will be an interesting novelty to find the ruble circulating in the world markets, as apparently it will soon be doing. Present plans will naturally require an international conference to establish the principle and work out the details of the plan, but the general outlines seem fairly clear.

The German situation will naturally be difficult to handle for some time, especially if Germany devalues its own money as it did after the last war. There is no indication yet of German adherence to the plan. But it will have to come sooner or later, to prevent a reckless Nazi post-war finance policy interfering with constructive efforts elsewhere.

HAVE A HEART!

The feminine sex is in process of re-appraisal. Where are the delicate, sensitive women of yore, who would faint at the drop of a handkerchief, whose place was in the home, whose ways were the ways of quietness and peace?

You're most likely to find them now practicing on a rifle range, or outside of town somewhere testing cannon for the army, or in a bomber plant throwing propellers around. Then there are the sturdy WACS, and WAVES and SPARS, and so on.

And it's all right, sister and daughter and grandma—it's perfectly all right. The men found this sturdy feminine trend rather hard to assimilate at first, but everybody's getting used to it. Sure, it's revolutionary; but as men slowly regain their calmness, there seems to be a sort of method in it. Females have long been running everything in the insect world, and it may be that they are destined to do likewise in the world of human beings.

But as men slowly reconcile themselves to their inevitable destiny, they may still want to make an occasional appeal to the stronger sex. "Please, ladies," they may say, "don't be too rough with us."

Sauce for the Goose—

Christian Science Monitor: Propaganda made by the Social Security Board for the Wagner-Murray-Dingell bill calling for compulsory sickness insurance has led to substantial questioning. There is a federal law which bars federal agencies from using their funds to promote legislation. The Social Security Board is so well aware of this that recently it disallowed an expenditure of \$94.50 by the Unemployment Compensation Commission of Montana because it had spent that sum for 10,000 pamphlets opposing the Wagner-Murray-Dingell bill.

While the Social Security Board may have been entirely justified in this ruling, its prohibition of adverse propaganda contrasts with its own energetic policy of promoting the disputed legislation. The board has, in fact, become

probably the most influential sponsor of socialist medicine. Its efforts to influence opinion have become so great as to create ripples within the system.

In particular, the board has addressed itself to organized labor. It has sent speakers to labor conventions who have advocated the Wagner-Murray-Dingell bill, and has broadcast to the labor press literature favoring its legislative proposals. Throughout it has urged "action now." The Social Security Board should unmistakably confine itself to the nonpropaganda policy it imposes upon its own branches.

Mr. Baruch said that if the program worked out "I am prepared to put most of my fortune into it—I believe in it."

The Wilbur committee, which was financed by Baruch, suggested special investigation should be made of the value of personal contact between physician and patient, including investigation of the psychic effect of the "laying on of hands."

Recommended also was research in osteopathy, chiropractic, which treats the alignment of the spine, and naturopathy, which deals with massage, air, herbs and the like.

BARUCH GIVES MILLION FOR SICK SOLDIERS

NEW YORK, April 27.—Bernard M. Baruch yesterday gave \$1,000,000 to extend the oldest branch of the healing arts, physical medicine.

Simultaneously the Baruch Committee on Physical Medicine, headed by Dr. Ray Lyman Wilbur of Stanford University, recommended a nation-wide, scientific boost of this art, particularly for returning soldiers.

The committee defined physical medicine as use of light, heat, water, cold, electricity, massage, manipulation, exercise, spas, climatology and hydrology, the latter specializing in baths, sprays and the like.

"I am convinced," Baruch said, "that returning men and women now in the armed services will need the advantages of physical medicine, and I feel this program will help restore discharged soldiers to normal physical and men-

NOW SHE SHOPS "CASH AND CARRY" Without Painful Backache Many sufferers relieve nagging backache quickly since they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the strong acids and waste out of the blood. They help most people pass about 3 quarts a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pain, leg pain, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness. Frequent or constant passages with stinging and burning sometimes show there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Dean's Tonic, used successfully by millions for over 40 years. They give happy relief and will help the 15 million of kidney trouble sufferers get water from your blood. Ask Dean's Tonic.
