### CISCO GAVE 20 GALLONS OF BLOOD

Cisco people supplied 160 pints or 20 gallons of good West Texas blood to the Red Cross mobile unit in Eastland yesterday, says Rev. Leslie Seymour, who has served as chairman of the Cisco committee in charge of arrangements.

The official staff with the unit spoke words of high praise for the efficient and orderly manner which the donors presented themselves and for their fine spirit of cooperation.

The mobile unit, made possible by the D. A. R. organizations in Texas, will make a return engagement to this county in about 10 or 12 weeks. Those who registered for this first trip and were not taken will be given first opportunity next time.

Cisco women who helped in various capacities at the center are Mrs. Homer Slicker, Mrs. Paul Poe, Mrs. D. Ball, Mrs. E. T. Thomas, Mrs. B. E. Morehart, Mrs. C. E. Hailey, Mrs. J. E. Elkins, Mrs. W. W. Wallace, Mrs. Edward Lee, Mrs. J. E. Caffrey, Mrs. J. J. Porter, Mrs. Ed Aycock, Mrs. H. J. McArdle, Mrs. Sam Kimmell, Mrs. Frank Pierce, Mrs. T. C. Williams, Mrs. Edith Rainbolt, Mrs. A. R. Westfall, Mrs. Alex Spears, Mrs. Monroe Sweeney, Mrs. Geo. P. Fee, Mrs. George Christie, Mrs. D. J. Gorman, Mrs. A. E. Jamison, Mrs. Edgar Muller, Mrs. W. C. McDaniel, Mrs. J. R. Wright, Mrs. Frank Bond, Mrs. O. C. Lomax, Mrs. Mary Hayes, Mrs. J. J. Tableman and Mrs. Austin Flint.

The D. A. R., the American Legion Auxiliary and the board of managers for the Service Men's club are groups who accepted special responsibility in assisting R. N. Cluck, superintendent of the schools of Cisco, was chairman of the transportation committee.

### SAVAGE TO BE INSTALLED AS PASTOR SUNDAY

O. L. Savage will be officially installed as pastor of the First Presbyterian church at the 11 o'clock hour Sunday morning. A commission recently appointed by the Fort Worth presbytery will be here to conduct the services.

At the same time, George W. Downie will be installed as an elder of the Cisco church. Mr. Downie was ordained and became a Presbyterian elder in 1913, at St. Stephen's Presbyterian church, Winnipeg, Canada.

The visiting commission will consist of Rev. Frank Crown, Ellsylviler, Rev. Tom W. Curry and Elder E. E. Farhenkamp, Fort Worth. Mr. Curry will deliver the sermon, his subject to be "Upon This Foundation."

Mr. Savage said there would be no evening services at his church, since he would attend an adjourned session of presbytery at 5 o'clock Sunday afternoon, at Throckmorton.

**ANZIO BAPTIZING.**  
ANZIO BEACHHEAD, April 28.—Thirty veteran American infantrymen were baptized in the cold surf of Anzio beachhead on the eve of their return to front-line fox holes. Chaplains said it was the largest ceremony of its kind in this war theater.

**FERGUSON FOR GOVERNOR.**  
AUSTIN, April 28.—Gov. Coke Stevenson was even on opponents yesterday when a new one announced and one previously announced withdrew. A. M. Ferguson of Howe, Grayson county, brother of Ex-Gov. James E. Ferguson, paid his \$100 and became a candidate for governor, while Russell F. Wolters of Houston withdrew.

### EASTLAND COUNTY ON THE SPOT

Cyrus B. Frost, Eastland county war bond chairman, in a telephone conversation with the Daily Press this morning, made the following statement relative to the county's April quota of \$51,400, which is dragging shamefully and can not be secured by the Saturday night deadline except through strenuous effort on the part of citizens:

"On December 31, 1943, the five banks of the county had on deposit \$7,493,200.03 cents.

"During January and February, 1944, we floated the Fourth War Loan of \$750,000 in this county.

"On April 13, 1944, we had on deposit in the county \$8,241,872.78.

"This shows that notwithstanding we bought bonds in the amount of \$750,000 in January and February, our bank deposits NOW exceed those of December 31, 1943, by \$748,672.75.

"Which means that our April war bond quota of \$51,400 is ONLY SIX-TENTHS OF 1 PERCENT OF OUR PRESENT BANK DEPOSITS, and yet the quota seems in danger of going by default.

"Unless Cisco, Ranger and Eastland each subscribe about \$15,000 by Saturday night, it will fail.

"We have not failed since Pearl Harbor and, as good Americans, should not countenance failure now."

**TEMPORARY INJUNCTION.**  
CHICAGO, April 28.—A temporary injunction today restrained Montgomery Ward officials from further interference with government operation of the firm's Chicago properties, but Chairman Sewell Avery predicted that executives and employees would continue to furnish "practically 100 per cent resistance" to efforts of "amateurs" to run the billion-dollar business.

**DOODLING TARS**—Canadian sailors, who ship on the corvettes and destroyer-escorts that protect convoys sailing northern route to Europe laden with precious war supplies, decorate their boat with artistic crests.

### GOOD SINGING MAY BE HEARD HERE SUNDAY

First Baptist church will be host Sunday afternoon to a singing convention, the program to start promptly at 1:30 o'clock, says Don Rupe.

Plans made indicate that this will be the most outstanding singing event held in Cisco in a long time, a number of high class quartets from out of town having promised to be present. Among these are quartets from Abilene, Breckenridge, Ranger and Eastland, as well as the First Baptist quartet.

Both old and new gospel song books will be used, said Mr. Rupe and the people of Cisco and this area are urged to turn out and participate in the services.

### PLENTY OF BLOOD.

MOSCOW, April 28.—Tass, official Soviet news agency, hails Yuri Kurshinsky, a Moscow railroad man, as the world's champion blood donor, with 141 donations totaling more than sixty liters (127 pints). Second among the thousands who have given their blood for use in transfusions or to make plasma was a nurse, Vera Lizneva, with 128 donations.

**COUNTRY HOME**—Puffing contentedly on his pipe, Brig. Gen. Hanford McNider, former Minister to Canada, enjoys view from porch of his Admiralty Islands home.

### CRUDE OIL PRODUCTION.

AUSTIN, April 28.—Texas slacked its production of petroleum during March, while the nation's output increased over February production, the University of Texas Bureau of Business Research reports. Production in Texas averaged 1,868,900 barrels daily, a drop of more than 30,000 barrels daily from February, the report indicated. March production, however, was nearly 500,000 barrels above the 1,392,650 barrels daily produced in March a year ago. The nation's production during March was 4,391,000 barrels daily, compared to 4,284,000 in February and 3,898,750 in March, 1943.

### BARNHILL IS MISSING IN ACTION

Staff Sgt. O. C. Barnhill, waist gunner in a B-24 Liberator bomber and son of Mr. and Mrs. S. O. Barnhill of Cisco, is reported missing in action in Italy, according to a message received here yesterday from his wife who lives in Houston and is engaged there in defense activity.

Sergeant Barnhill was with the 15th air force and had completed his 22nd mission April 2, the date of the last letter received by his family here. The name of the plane to which he was assigned was "Piqua Boudalier." He had been attached to another bomber, named by the crew, "No Time for Love," until about the middle of March, when that plane was lost, the crew saving themselves by bailing out.

Barnhill, 26 years of age and born in Cisco, enlisted August 19, 1942 and had been stationed successively at the following places: Mineral Wells, Wichita Falls, Denver, St. Louis, Miami Beach, Puerto Rico, Ft. Meyers in Florida, Salt Lake City, Tucson, Alamogordo and again at Miami Beach from which place he flew to Brazil Nov. 26, 1943, thence to North Africa and on to Italy in December, where he has been stationed since.

Two brothers of the missing man are in the navy. Wayne Barnhill stationed in California and Carroll Barnhill in the Southwest Pacific.

Mrs. O. C. Barnhill (formerly Miss Ban Whisenand) is expected to arrive in Cisco from Houston tonight.

### OFFICIAL CYCLONE WRITER LOOKS AHEAD

"It has been 51 years since the memorable Cisco cyclone of April 28, 1893," said R. W. Mancill today.

"On the 50th anniversary a year ago I gave quite a long writeup of the historic event and named those I could recall who were here then and still resided here. The list contained 57 names. During the year only three included in that list have passed on—J. M. Williamson, Joe Lovelady and W. P. Puley.

"Even though I was very, very young at that time, I well remember that we had a better season in the ground the morning after the twister's visit than we now have, a very hard rain having fallen during the storm.

"In passing I will say that I expect to give a complete story of the great wind on its 60th anniversary—if I am here. If not, it shall be up to Charlie Fee or Bob Porter to cover the story. However, I will do my best to be present and on the job. Thank you. R. W. MANCILL."

### SUMMERS WARNS.

WASHINGTON, April 28.—Representative Hutton Summers of Texas told the house yesterday that forces in this country are trying to speed the "natural adjustment" of the white and Negro races and in so doing are defeating their own objectives and taking the country toward a "serious crisis" in race relationships.

### SOME 50 MILLION PEOPLE IN ISLES ARE VIRTUALLY QUARANTINED FROM OUTER WORLD

LONDON, April 28.—Britain, base for the biggest sea and air-borne invasion ever planned, moved nearer "D Day" today with the imposition of a ban on all travel overseas and continuing German air raids on what Nazi broadcasts said were ships massing in English ports.

Some 50,000,000 persons in the British Isles virtually were quarantined from the rest of the world at midnight last night, when all but a handful directly involved in preparations for the invasion were forbidden to leave the country.

Their only link with the outside world was tightly-censored communications and ships and planes heavy with military cargo and soldiers moving toward the points from which they will pour across the water into western Europe.

The ban on travel abroad was announced nearly a week ago, but those who previously had received exit permits were permitted to leave up until midnight last night. Henceforth, only those involved on the most urgent government business which cannot be postponed will be allowed to go overseas.

Foreign diplomats, with the exception of those from the United States and Russia, previously had been forbidden to leave the country, send diplomatic pouches abroad without prior censorship or communicate with governments in code.

The official Nazi DNB agency reported that German bombers in "considerable strength" last night continued their attacks on "enemy ship concentrations, important targets and harbor installations along the English southwest coast."

Every night during the past week, the Germans have sent planes scudding along the east, south and west coasts. Red flares have been dropped, presumably to help reconnaissance photographers.

Previous Nazi reports had asserted that the Allies were massing in British waters the largest concentration of shipping since Dunkerque, presumably for the impending invasion.

However, the scale of the German attacks fell far below the scale of those by the RAF on the French invasion coast in the spring and summer of 1940, when a Nazi landing in Britain was believed imminent. The Germans also have confined their efforts to night, whereas the RAF attacked concentrations of barges and ships along the channel coast around the clock.

King George VI paid his second visit to invasion troops within three days yesterday, reviewing ceremonial parades and holding inspections over a wide area of the country.

NEW GUINEA.—Allied sights were set in the direction of the Philippines today after American forces put into operation the three strategic Hollandia airdromes on the north coast of New Guinea within 1,000 miles of southern Mindanao Island.

The fall of the main Hollandia airstrip and the fact that this field along with the previously captured Cyclops and Sentani airdromes had already been put in operation was announced in an official communique from headquarters of General MacArthur.

The swift seizure of the airstrips appreciably advanced MacArthur's campaign to return to the Philippines. The general already had declared his intention to effect an early return to the islands formerly under his command and the seizure of the vital bases in the Netherlands New Guinea marked a significant step in that direction.

Although it was not immediately disclosed what type of American craft were already using the three big Hollandia fields, the communique revealed a heavy strike by Liberator bombers against the Jap-held Jeffman airdrome 670 miles to the northwest.

"The operation can now be regarded as completed," said MacArthur, disclosing that the Hollandia fields had been put to use by the Allies only six days after the start of the greatest amphibious campaign in the Southwest Pacific.

### SPECIAL PRAYER SERVICES CISCO, D-DAY

It was unanimously voted Wednesday night at First Baptist church prayer meeting that on D-day, or the day the Allied forces launch their long-awaited invasion of Europe, a special

prayer service will be held at the church at 8 p. m. of that day.

"The purpose of the service," says Rev. Cooper Waters, pastor, will be to earnestly ask God's protection of our fighting men in the invasion and to invoke His blessings upon what we feel is a righteous cause."

All those who wish to participate in this important season of prayer, Mr. Waters added, are urged to be present the evening of the official announcement by the government—whenever that may be.

## MACARTHUR, FIGHTER.

While some people were "kidding" Gen. Douglas Mac Arthur, and others were damning him, he calmly went out and pushed the American invasion 500 miles nearer to Japan. The General can talk—and how! Yet he is not primarily a talker. He merely knows the English language, and uses it as a strong weapon of offense. He doesn't have to pack a pistol or trail a sword. When he has a big job to do, he does it simply with a pair of gloves. And maybe an extra brushing of his uniform.

It was reassuring and inspiring when the news came the other day that the General, in a big triphibian operation had suddenly shoved our offensive war in the Pacific so far north. The neatness and sang-froid of that job was symbolized by one little comment that came over the wires along with the big story. "He wore his customary braid-covered peaked hat, and carried his gloves."

## ENDING TOOTHACHE.

Drink yourself out of the toothache. This suggestion, not yet practicable, may be realized in the future if a recent experiment succeeds.

The idea is to treat with fluorine the water supply of Newburg, N. Y. That city of 22,000 gets its water from Washington Lake, into which fluorine is to be fed in the proportion of one quart to 1,000,000 parts of water. Fluorine is supposed to halt tooth decay. Certain places, whose water supply contains fluorine, naturally, have much less decay than others less fortunate.

This discovery was made years ago by Dr. H. Trendley Dean of the United States Public Health Service. In 1930 he compared tooth decay in Monmouth and Galesburg, Ill., cities with a fluorine water supply, with the adjacent cities of Macomb and Quincy which did not enjoy this advantage. The fluorine towns made a far better showing.

Naturally the idea followed, why leave this to chance? As fluorine in minute quantities is harmless, why not add it to public water systems and see if tooth decay is not arrested? Hence the Newburg experiment, which is to continue for 10 years, constantly comparing the results with those of Kingston, N. Y., a city of about the same size and lying 32 miles north, whose water will not be touched.

## TURKS DENY NAZIS.

Turkey, after a prolonged spell of fence-sitting, admits that the Allies are going to win the war. Not that she comes right out with it. But there is silent acknowledgement of such a conviction in the Turks' final decision to stop sending chrome to Germany and let the Allies have it. Chrome is a rather scarce material ordinarily used in dyeing, but valuable now as an alloy for hardening steel, armor plate and other war materials. Turkey happens to have the most available supply.

The Turks' sympathy has been with the Allies all along, and they have special bonds with Britain. But their experience in the last war has taught them to be canny. Even with their close English ties, they would not venture to antagonize the Germans in such matter unless they were sure that the Allies were strong enough to protect them from German vengeance.

## GALLUP THINKS FARMERS COLD TO DEMOCRATS

PRINCETON, N. J., April 28.—If when November rolls around President Roosevelt is the Democratic presidential candidate and the war appears to be in its final stages in Europe, one of the major jobs facing Democratic party generals will be that of winning the vote of a majority of the nation's farmers, says George Gallup in his latest poll.

As of today, on the basis of a survey covering farm areas from coast to coast, 38 per cent of those with opinions say they prefer Gov. Thomas E. Dewey, 42 per cent President Roosevelt, when asked to choose between the two most popular candidates of rank and file Democrats and Republicans.

Here is the actual vote as recorded in the survey, exclusive of the 12 per cent who say they have no opinion.

**Farmers.**  
Choose Roosevelt 42%  
Choose Dewey 58%  
First evidences of defection from the ranks of Roosevelt supporters were found among farmers as far back as 1936. The rate of defection in recent years among all farmers, especially those outside the Democratic South, is emphasized by the trend of sentiment as shown in the table below. This table compares the per-

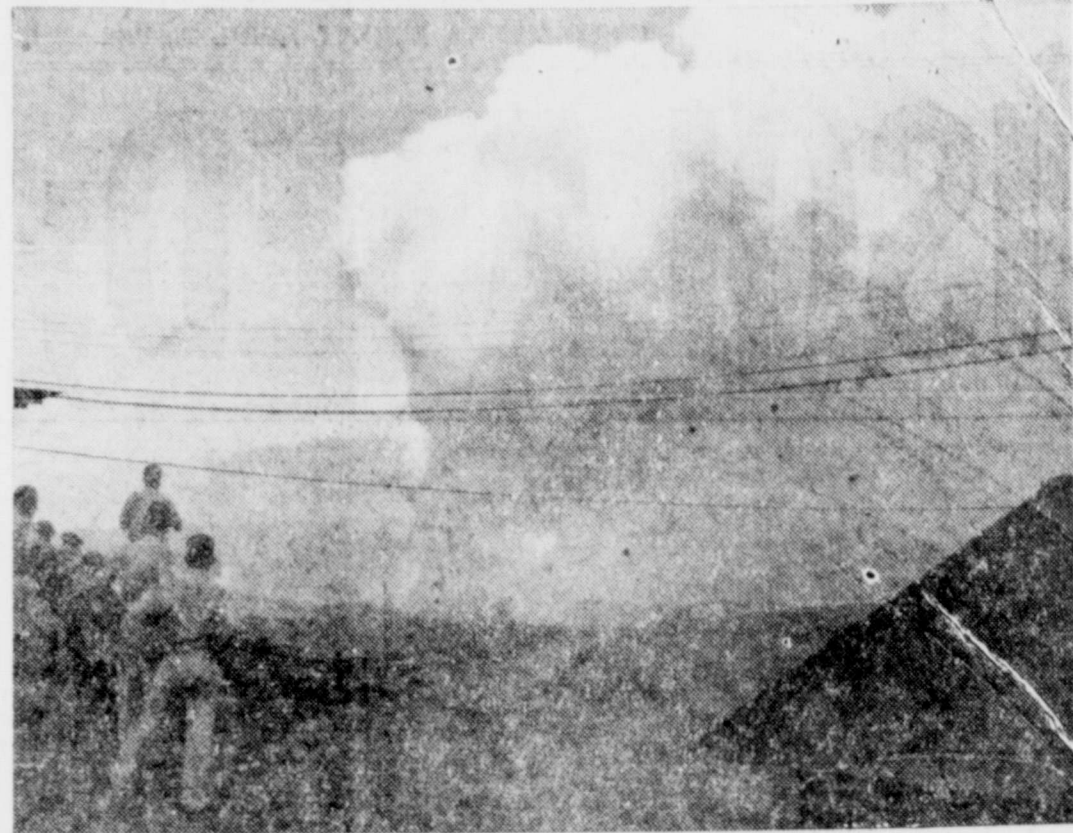

centage of Roosevelt's vote among farmers in 1940 with his strength as shown last August and today, when farmers were asked to choose between the President and Governor Dewey:

**Roosevelt Farm Vote.**

ministration is handling things, the farmers mentioned four things frequently. First, they said they disliked the government's extravagance and muddled finances. Second, they said they disliked "incompetent and dictatorial management of home affairs," the red tape, es-

pecially in connection with the farm program. Third, they said they disliked the Administration's coddling of labor. Fourth, they said the government's farm program is ineffective, that farm prices are too low in relation to costs.

WINGS OVER CHINA—Striking over the heart of China en route to Hong Kong, where they will drop their deadly cargo, are U. S. Liberator bombers. Increased American air activity in area is forcing Jap planes to come out of hiding and fight.

PEACEFUL NOW—Men of First U. S. (dismounted) Cavalry kneel in prayer during services held near Lorengau on Manus Island in the Admiralty group. ## DID YOU GIVE?

Did you give your precious life blood to save the life of some wounded soldier? Men have given their lives through the ages past in order that others might live more abundantly. They shed their blood and died. Now, you can give your precious blood and still live. Some other soldier can use that blood and yet, you still live. That is a victory for modern science and medicine.

Lets do our part to prepare for the invasion, now so eminent.

IF YOU HAVE THE CERTIFICATE... WE HAVE THE TIRES

GOOD YEAR TIRES

### GOOD YEAR TIRES ARE STILL THE BEST TIRES MADE!

Facing facts, you need tires. Facing facts, we've got them. Not the husky, mile-eating Goodyears we had before the war, but the best tires made today. They're good looking, (just like the pre-war Goodyear DeLuxe) and with good-going over paved roads, at Victory speeds, they'll go a long way. So, bring your certificates to Goodyear and get the most miles for your money under existing conditions.

WAR TENSION INDECISION ANXIETY IRRITATION OVERWORK

**Coffee is Ideal for FRAZZLED NERVES**

Relax when you are nervous and jittery. Relax with a cup of delicious, wholesome Admiration Coffee. Coffee soothes the nerves and increases physical strength and output. Nervous tension is frequently induced not by physical ailments but by sheer fatigue alone. Here coffee is a great aid, for it assists the muscles in eliminating the poisons of fatigue. It makes you feel better immediately. And you actually are better too! This in itself is enough to earn for a fine coffee like Admiration its widespread popularity. But for us, its roasters, it isn't enough. We insist on buying only the choicest, most expensive coffees for the Admiration brand. These then must be so blended and roasted that the richness, flavor, and room-filling aroma of Admiration never vary from package to package. Your first and your fiftieth pound taste alike. They taste like no other coffee money can buy. Why not get a pound and see?
