COUNTY MADE ASSAULT CASE BOND QUOTA BE TRIED IN BY SQUEEZE 88TH COURT

In a telephone talk with Judge Cyrus Frost, county war bond chairman, this afternoon, that gentleman stated that Eastland county secured its April quota of \$51,400 "by the skin of its teeth."

Detailed statement of purchases by towns and communities will be announced as soon as employer-employee deductions are received from the Dallas office, Judge Frost said.

The May quota is also \$51,400 and the county chairman feels that all citizens should get busy and buy their war bonds at the earliest possible moment, in order to avoid the narrow escape from default experienced last month.

Mrs. Ateline Tickner of Cisco has been indicted by a grand jury of the 88th district court for an alleged assault on Winona Simpkins, 15, granddaughter of Mrs. Lula Huntington, and will be given a hearing before Judge B. W. Patterson at this term of court, said Earl Connor, Jr., district attorney this morning. Mrs. Tickner is at liberty under \$1,000 bond.

According to evidence given to the grand jury, the assault was committed with a hammer in front of Cisco high school, about two weeks ago, the Simpkins girl having been called from her classroom. She was struck in the head several times, it is alleged, and was taken to a hospital for treatment.

Her present physical condition is not known to the prosecuting attorney, but he will come to Cisco to obtain a statement from her preceding the court hearing.

METHODISTS TO START REVIVAL MONDAY NIGHT

Rev. Seba Kirkpatrick, pastor of the Twelfth-st. Methodist church, announces that Rev. W. H. Cole will preach at that church Sunday, morning and evening.

Monday night at 8 o'clock Rev. Durwood Fleming, Eastland Methodist pastor, will begin a revival at the Twelfth-st. church that will continue through May 14, evenings only. The visitor, by the way, has been selected as the platform speaker for the assembly of the North West Texas conference, to be held in Abilene in June.

Mr. Kirkpatrick extends an invitation to the public to hear the Eastland minister and a special invitation to all young people.

MAY PENSION CHECKS ARE IN THE MAILS

AUSTIN, May 5.—May checks are in the mail for 175,929 old age assistance recipients in Texas.

Payments average \$21.23, the same as April and total \$3,735,276.61.

A total of \$113,827 is being distributed in an average check of \$24.36 to blind assistance recipients.

A total of \$221,556 is being paid to 10,487 dependent children families in an average grant of \$21.13. This represents an increase of 524 families, representing 1,072 children, over the March rolls.

PRECINCT CONVENTIONS AT 2 P.M., SATURDAY

Cisco Democrats will meet in precinct convention at 2 o'clock Saturday afternoon, it is announced, instead of at 3 o'clock, as first announced.

The 2 o'clock hour seems to be the law, hence the change. Westsiders will meet at city hall and Eastsiders at the W. R. Huestis service station, 719 D avenue.

The precinct conventions pick delegates to the county convention, which meets at 2 o'clock Tuesday afternoon at the courthouse in Eastland. Resolutions that might be presented to the conventions for adoption should be prepared in advance, it is stated, in order to conserve time.

CISCO PASTOR RECEIVES THEOLOGY DEGREE

One hundred and ten graduates, in addition to 42 graduates of the School of Religious Education, received their degrees from Southwestern Baptist Theological Seminary, at Fort Worth this morning.

Included in the list was Rev. Cooper Waters, pastor of Cisco First Baptist church, who received a degree as master of theology.

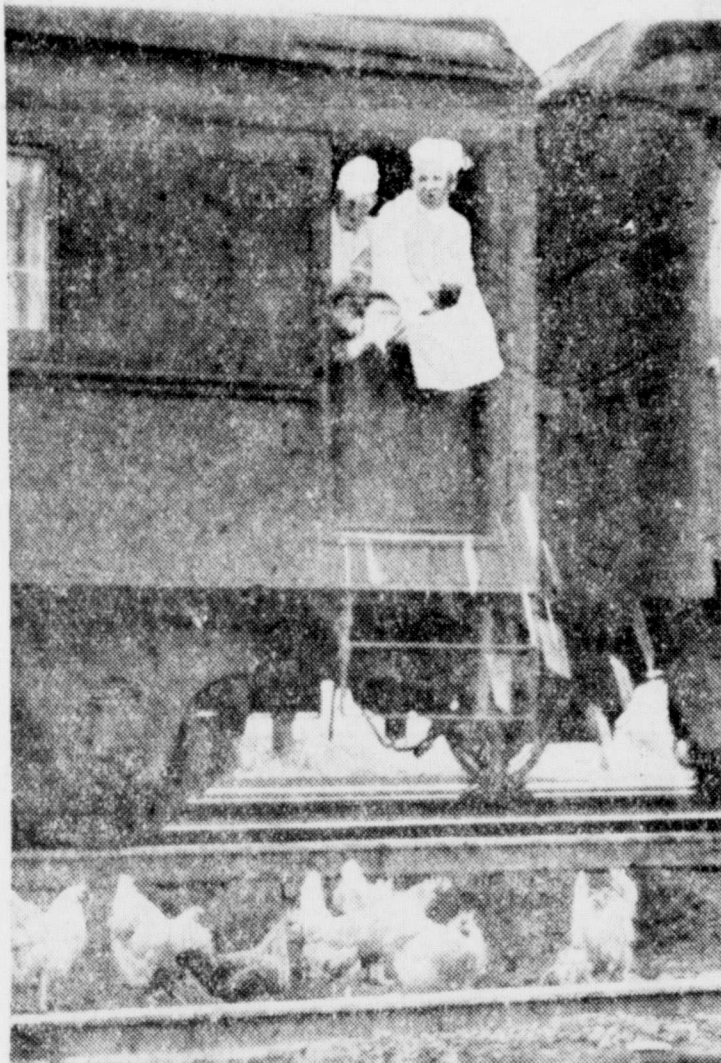

It was the thirty-seventh annual commencement of the seminary at Fort Worth this morning, dressed by Prof. Solon B. Cousins, DD., head of the Bible department at the University of Richmond.

BROWN TO CAMP ROBINSON.

Pvt. Alvis Ray Brown, son of Mr. and Mrs. N. E. Brown, 510 west Fifth street, has departed for Camp Robinson, Ark., after having visited his parents the past three weeks. Brown served overseas with the army for four and one-half years. He was stationed at Wheeler Field, Hawaii, at the time Pearl Harbor was bombed, and since has been stationed in Australia, New Guinea and other south Pacific islands. Private Brown's father, who has been employed on a defense project in Pasco, Wash., was home to visit with his son, and has now gone to New Orleans to accept similar work. Miss Maxine Brown of Dallas also spent a few days at home with her brother and parents.

PARTISANS PREPARE—Young Yugoslav Partisan fires British rifle under supervision of instructor at Malta. He is one of many who came to British isle to recuperate from battle wounds and is making good use of time.

SATURDAY CONVENTIONS MAY BE HOT SPOTS

FORT WORTH, May 5.—Tarrant county voters who oppose sending a delegation instructed for Roosevelt to the national Democratic convention were urged today to turn out in force and take control of the precinct conventions Saturday in order to defeat the pro-instruction forces.

In a letter signed by Rice Tilley, leader in the anti-instruction movement voters were warned. "Hitler came to power in Germany through his control of what we in this country call the precinct conventions. The strength of your vote at a precinct convention is said to be equal to that of 1,000 votes cast at a regular election."

In a section of the letter labeled "Procedure," Tilley said. "The chairman or any member may call for the election of a chairman or secretary to preside, or if you do not think he is favorable to your plans, you should elect one of your own group chairman."

WARD CANNOT FIRE WORKERS U. S. ASSERTS

CHICAGO, May 5.—Employees of the government-controlled Montgomery Ward & Co. Chicago properties, under new regulations contained in a federal poster, may not be dismissed by company officials without government approval.

The new rules posted in the big mail order house were disclosed yesterday after the arrest of a company official as he was removing one of the placards. They set forth that dismissals of employees since the government took control April 26 were voided and none would be valid without approval of federal officials in charge of the facilities.

PLANTS MAY CLOSE.

DETROIT, May 5.—Suspension of production in feeder plants of the Ford Motor Company of Canada was reported imminent today because of a strike which already has made 15,000 workers idle at the Windsor plant. Work stoppages continued in 16 Detroit war plants with nearly 9,500 employees idle, but a walkout of 1,300 workers was concluded at two Republic Aircraft plants which had been closed for nine days.

METHODISTS AT KC BACK WAR BY ONE VOTE

KANSAS CITY, Mo., May 5.—By a one-vote margin, Methodism's 8,000,000 members stood behind the nation's war efforts.

The General Conference of the church, by a vote announced last night, tossed overboard a majority report from the committee on the state of the church which would have sent its love to both its 1,000,000 soldiers and to its 600 conscientious objectors in a continuation of the church's pacifistic stand of four years ago.

The clergy approved the substitution of the minority report, backed by leading laymen and educators of the church, by a one-vote margin, 170 to 169, with one minister failing to vote and another's ballot invalid.

The laity voted overwhelmingly in favor of the change, their vote being 203 and 121 against the substitution motion. By legislative process of the conference, both groups had to approve.

KIAWANIS CLUB FILES PROTEST WITH CONGRESS

FT. WORTH, May 5.—A resolution condemning seizure of the Montgomery Ward & Co. properties in Chicago went to members of congress today after being adopted by the Fort Worth Kiwanis club.

Signed by the club's officers, directors, and public affairs committee members, the resolution called upon congress for "immediate and unequivocal restoration of the Constitution and the Bill of Rights." It said action in the Montgomery Ward case tended to weaken confidence of the people in the government and its elected officials.

GOOD-WILL AMBASSADORS.

R. N. Cluck and Charles J. Turner, accompanied by a group of Cisco students, today visited the schools at May, Rising Star, Cross Plains, Baird and Putnam in the interest of Cisco Junior College. Programs were presented at the various schools by Misses Jimmie Starkey, Charleen McCowen, Nita Whitlock, Veda Faye Ramsower, Marilyn Shertzer, Doris Jamison and Bonnie Jean Wilson.

SCATTERED BANDS GIVE UP IN MANY CASES; STIFFER RESISTANCE IN SOME AREAS

NEW GUINEA, May 5.—Japanese troops trapped by two more surprise American landings on the north coast of Dutch New Guinea were rounded up in droves today by United States forces speeding mopping up operations in the Hollandia area.

The additional landings cut escape routes over which the Japs sought to flee American forces already in the coastal sector.

The American infantrymen went ashore in the Hollandia area where large numbers of United States troops perfected landings on April 22 which resulted in the capture of three strategic airstrips.

The landings were carried out at Torare Bay, 12 miles northwest of Hollandia, and at Demta, 16 miles northwest of Tanahmerah Bay.

Scattered bands of trapped Niponese were reported to be giving themselves up to American patrols without a fight.

The landing at Demta, coastal termination of the overland escape route from the Hollandia area, was carried out without opposition, an official communique said. Two Japs caught in the area were killed.

Headquarters said that Japs, trapped by the hundreds when they fled into the jungles after the original landings, were surrendering in groups of 20 to 30.

An indication that the Japs are planning stiffer resistance on New Guinea was found by reconnaissance planes which discovered that the enemy is reinforcing air bases in the Schouten Islands. Reinforcements of Jap naval planes were observed in the islands at the northern extremity of Geelvink Bay, west of Hollandia.

In the New Ireland sector, naval patrols, presumably surface ships, sank an enemy barge and damaged a coastal vessel off New Hanover and Solomon's night-flying bombers pounded Panapai, Kavieng and other targets to the west.

American Mitchell bombers slashed at Jap airdrome facilities on Wakde Island. They destroyed two parked Jap planes and caused fires in fuel dumps, supply areas and among buildings.

Liberator and Havoc bombers blasted the enemy airfields in the Wewak area of British New Guinea. In all, 183 tons of explosives were dropped.

MOSCOW.—Large forces of Soviet bombers sent tons of bombs crashing down on German and Romanian troops jammed into Sevastopol Wednesday night, a Russian communique reported last night, in what may be a prelude to the final Red army assault on the Crimean stronghold.

Many artillery batteries were silenced by the rain of bombs, and 10 big fires were started among military dumps and in the railway junction area. A number of explosions, including two large ones, were observed.

"Heavy losses" were inflicted on the enemy, the communique said. All planes returned safely from the attack, the 13th major raid carried out by the Red air force on the central and southern fronts in 16 nights.

Russian planes also bombed enemy troop concentrations on the Stanislawow front southeast of Lwow in Old Poland, shooting down 12 enemy aircraft in combat. The Germans attacked on a number of sectors on this front, but everywhere were thrown back to their initial positions with a total loss of nearly 800 men.

LONDON.—American and British bombers battled through murky clouds and rain squalls to give German anti-invasion defenses their 19th daily dose of explosives today in a four-way smash at the rocket gun coast and rail hubs in France.

Lt. Gen. James H. Doolittle's Eighth Air Force Liberators led the weather-constricted bombing parade against Europe with a dawn attack on the Pas de Calais. All of the 100 or so heavy bombers and Mustang fighter escort returned safely from the attack, the fifth on the French invasion coast in five days.

The German air force again failed to challenge the Liberators or the lighter bombers which struck at the inland rail centers of Cambrai, Valenciennes and Somain, France.

CEYLON.—Lt. Gen. Joseph W. Stilwell's Chinese-American troops have captured Inkangahtawng, a Japanese strong point 13 miles northwest of Kamaing, in North Central Burma.

Renewing their drive down the western Mogaung Valley, the Allied forces drove the Japanese from Inkangahtawng and pushed the front lines a half mile below the town in the advance toward Kamaing, 12 miles north of Mogaung, on the Mandalay-Myitkyina railroad.

POWERFUL MR. PETRILLO.

Apparently James C. Petrillo, president of the American Federation of Musicians, isn't yet entirely out of the woods with a license for complete domination of American music. The head of the National War Labor Board recently ordered him and some of his associates to appear and show reasons why penalties should not be imposed on them for refusing to call off strikes of musicians in Chicago and Minneapolis. The strikes had developed in spite of the "no strike" pledges given by organized labor after Pearl Harbor.

These strikes, it should be observed, were called by Mr. Petrillo's union to compel the employment of additional union musicians as "pancake turners," meaning the men whose artistic work consists in "putting on and off the transcription records for turn-tables."

To such a lamentable plight has come one of the greatest of the fine arts. Will this costly nonsense ever be swept away, and music freed and restored to its natural place in a civilized world? Will the War Labor Board remove its gloves and handle Mr. Petrillo as energetically as it did Montgomery Ward?

Labor unions have their proper place in modern civilization, but surely that place is being strangely misunderstood and perverted when the essential freedom of private business and the fine arts is interfered with.

BATTLE FOR THE WORLD.

The Russians, even while still cleaning up their job at Sevastopol, are reported as "geared for the Berlin Drive." They marshal and re-group their forces and turn west to smash the Nazis literally where they live.

Meanwhile the British-American armies, still in England, are poised and putting the last touches on their approaching drive across the Channel to hit Berlin from the west, which may be unleashed any minute, together with a huge push from the Naples area toward Rome. The two Allies will aim to crush Germany between them. It may be a fierce but friendly competition to see which gets to Berlin first.

Fortunately the Allies of the East and those of the West at last seem to understand each other, and will be joined in friendship as well as strategy. There is no more of the standing off and ignoring or "needling" each other, such as caused alarm a short time ago. Whatever the inner differences were, they seem to be patched up. It would have been desirable indeed if in this great and possibly final struggle between freedom and tyranny, minor differences were allowed to prevail.

The most important thing in the world just now is for the Russians, British and Americans to stand together and win the decision.

WORLD'S CHAMPION COAL MINER

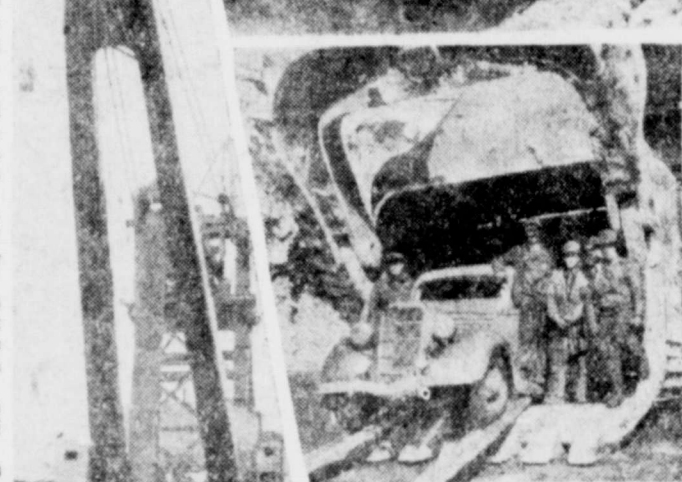

THE world's largest shovel, just put into operation in eastern Ohio, will uncover 1,000,000 tons extra of bituminous coal this year to help meet the unprecedented war demands for power and energy. To open up the coal bed the shovel will remove about 12,000,000 tons of earth that now overlies the coal to a depth of forty to one hundred feet. The scoop of the shovel can be thrust 120 feet into the air and could rip off the top floor of an average eight story building.

The inside of its giant dipper is as large as a regular nine by twelve foot living room. The scoop will dig enough to fill one-half of a railway car with every bite.

The traveling speed of the shovel on its eight caterpillars is three-fourths of a mile an hour. After this 1600 ton "miner" brings daylight to the coal for the first time in a hundred million years, the top of the coal seam is cleaned first by bulldozers and then by rotary brushes that are similar to street sweepers.

Ordinary sized scoop shovels next remove the coal and load it into mammoth trucks. It is carted then from the "open cut" mine to a tippie, or coal laundry, where the coal is cleaned, sized and loaded into railway cars for shipment.

Top right: The regular size steam shovel is dwarfed in comparison to this giant. Lower right: An automobile and five men standing in the mouth of the scoop give an idea of its size.

BETTER BABIES MAKE BETTER CITIZENS This store joins the nation in celebrating "Better Baby Week," to the end that we may learn more of how to properly care for them and the ills to which they are heir. The babies of today are the citizens of the future. HYATT'S GROCERY & MARKET Cisco's Independent Grocer WE DELIVER. PHONE 118.

WESTERN AUTO ASSOCIATE STORE

I wish to take this opportunity to express to the people of the Cisco Trade Area my appreciation for their friendship and patronage during the past three and a half years. For good and sufficient reasons I have sold the store to D. W. Diserens.
 The Western Auto Associate Store policy — "every item guaranteed to give satisfaction or money refunded, and at greater value than you can get elsewhere" — will be maintained by Mr. Diserens, the new owner.

GET PROPER BALANCE Into the Family's Daily Meals

—AND COOK THEM ELECTRICALLY

It's easy to get. There's your family with beautiful, healthy-looking "strong" construction of the brain, back, feet. We need now, more than ever before, strong healthy bodies, good eyes, strong teeth, steady nerves and clear heads. This calls for well-balanced meals, with vitamins and other nutrients. This calls for cooking your meals in their juices electrically, which besides "boosting" your family's health, gives you more time to work and plan for victory.
