

THE CISCO DAILY PRESS

COMBINED WITH CISCO DAILY NEWS AND CISCO AMERICAN AND ROUND-UP, NOVEMBER 1, 1937

CISCO—One of the healthiest areas in U.S.A., with a countryside devoted to blooded cattle, hogs, sheep, peanuts, cotton, fruits, feeds, poultry, gas, oil; two railroads; Bankhead highway; huge concrete swimming pool; bass and crappie fishing.

CISCO—1,614 ft. above sea; Lake Cisco—three miles long, 87 ft. deep at Williamson hollow concrete dam; fish hatchery; 127 blocks paving; A-1 high school; Junior college; natural gas, electric and ice plants; home of The Boss Walloper work glove.

VOLUME XXIV.

CISCO, TEXAS, FRIDAY, MAY 19, 1944.

NUMBER 182.

US. TAKES BIG WADKE AIR BASE

GRISSOM OF BIGGEST SWIM-HUMBLE CO. MING POOL TO AT ROTARY OPEN SUNDAY

W. P. Guinn arranged the program at the Rotary club yesterday, introducing L. E. Grissom, chief oil dispatcher for the Humble company, and A. E. Pecore, assistant chief engineer for Humble, both of Houston. Mr. Grissom was the chief speaker at the luncheon. Other guests and visitors were C. W. Gue, W. D. Madley, J. E. Caffrey, Bill Russell, Dudley Lee, W. E. Berry, Paul Fowler and Jesse Warren.

In addition to the main speaker, former Rotarian Dudley Lee, naval electrician's mate and home from overseas service, spoke a few words, as did Mr. Pecore and Mr. Caffrey. J. E. Hays reported over 100 percent meetings.

Mr. Grissom began his talk by saying that "History is usually a funeral of nations," and that at the beginning of this war it looked like the United States might follow the usual, since we were so unprepared in every way, especially in organization for transportation of oil—one of the most vital necessities of all products, because no wheels of naval warfare, airplane engines nor tanks could move without fuel oil or gasoline.

While seeking to avoid statistics, Mr. Grissom did quote many figures to show the giant task of getting such huge quantities of fuel to the points where it was to be used.

He showed the vast millions of barrels of oil that must move every day and showed how this giant task was met. He said this oil supply was carried by tank cars and by pipe lines; that by their cooperative power the task had been met and was still being met.

Discussing from his subject of oil transportation, the speaker took occasion to say that there was time enough in all our lives to be friendly to each other and to seek and enjoy the finer things of life. He then closed by quoting some gems of literature and wholesome truths.

MANY CALLED BUT ONLY A DOZEN ANSWER

Notwithstanding repeated calls for more workers at the Red Cross rooms in the Reynolds building, only a dozen Cisco women responded yesterday. Surgical dressings completed totaled 309 2x2s and 308 4x8s.

Those engaged in the light work from 1 until 5 o'clock yesterday were Mrs. C. A. Williams, Bob Latimer, Ed Aycock, E. H. Hester, J. A. Jensen, H. J. McArdle, R. C. McCarter, Jack Anderson, O. G. Lawson, Don McEachern, W. D. Hazel, Willie Bogan Dunn.

The swimming pool at Lake Cisco has been given a thorough cleaning and everything is in readiness for its opening Sunday, said Manager Monroe Sweeney this afternoon.

The task of cleaning the great pool was performed by members of the Cisco fire department and high school football boys and it is now filled with pure water, with a small but continuous stream of fresh water passing through the big concrete tank.

The buildings at Cisco's recreation center have been rehabilitated and are now in tiptop condition and the skating rink and other entertainment features will be opened to the public at an early date.

Manager Sweeney, long recognized as a weather prognosticator, says Texans have an unusually hot summer ahead of them, but that all locals who will keep cool and in good condition physically by swimming in Cisco's modern pool regularly.

DEATH OF FORMER CISCO BOY IS ANNOUNCED

The war department has announced the death of Staff Sgt. William E. Barnhill, son of Mr. and Mrs. Will Barnhill, former Ciscoans but now residents of Stanton. The news was received in Cisco by the young man's aunt, Mrs. Gene Watson.

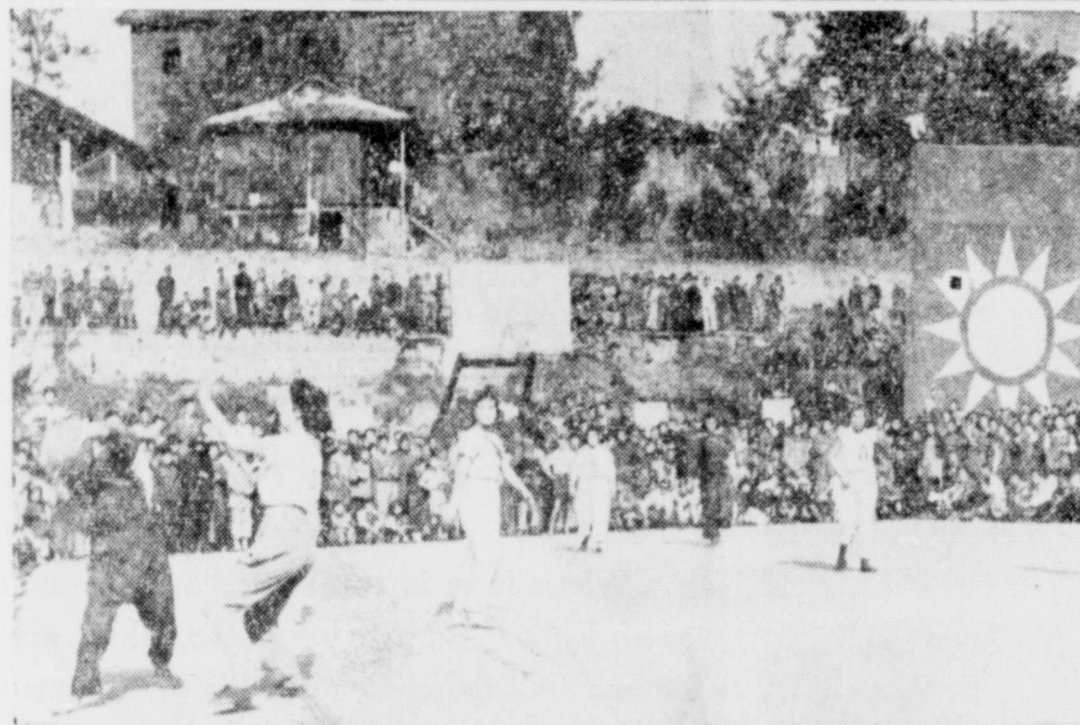

Sergeant Barnhill, 24, was born in Cottonwood, Callahan county, but the parents later moved to Cisco and the son attended school here. He was a second cousin of S. O. Barnhill of Cisco.

The young man was a member of the air corps and the family are of the opinion he lost his life somewhere in the Mediterranean area. The war department previously announced him as missing in action.

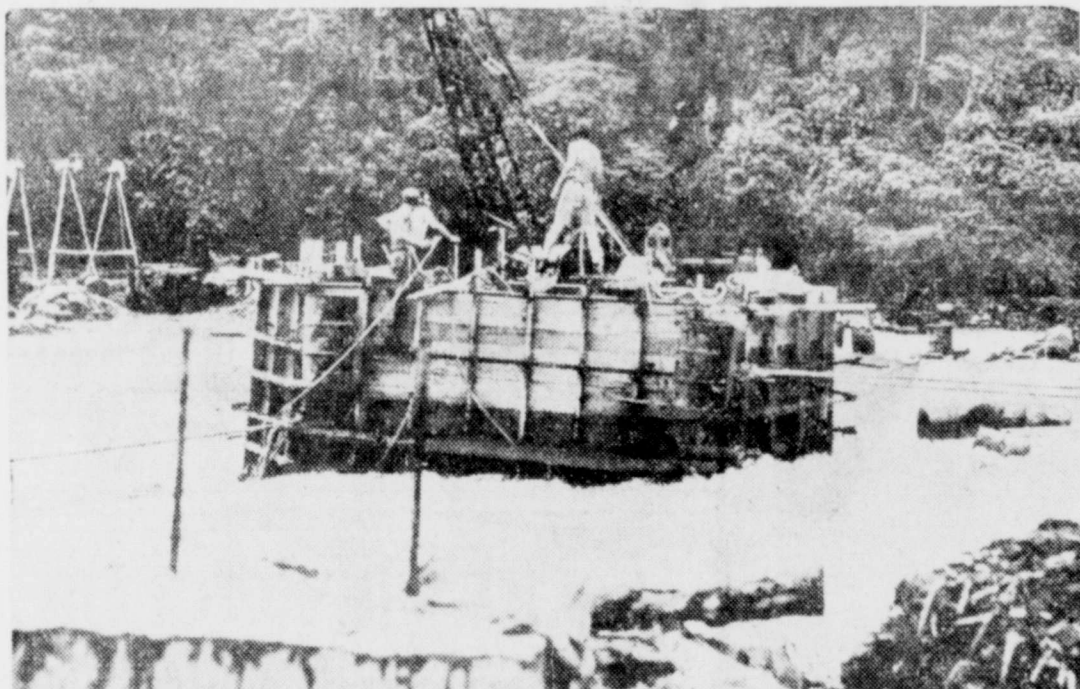

PTA SETS RECORD.

AUSTIN, May 19.—Membership in the Texas Congress of Parents and Teachers reached a new record of 163,206, an increase of 27,000 over last year, Mrs. Jack M. Little of Dallas, state president, announced. The national organization has 3,054,950, or 442,605 more than a year ago, the report added.

Rev. Leslie Seymour was guest speaker for the Ranger Lions club at the Ghoslin hotel in that city Thursday noon.

FOR HEALTH'S SAKE—Warm spring weather has come to China and group of modern-minded Chinese girls come out for brisk game of basketball on outdoor court in Chungking. Interested spectators crowd the sidelines to watch girls heave balls into baskets.

BRIDGE RIVER—Army engineers are successfully tackling fast flowing currents of New Guinea rivers. Photo shows construction and alignment of main support of bridge spanning one of them. Breakwater has been completed and steel cables attached. (U. S. Army Signal Corps Photo.)

CISCO YOUNG MAN TAKES TO SEA LIKE DUCK

Second Lieut. George Meglasson, formerly with the Daily Press as bookkeeper, has been transferred from the anti-aircraft artillery service to the army overseas transportation service and is now operating regularly in and out of Brooklyn, N. Y.

Meglasson, a typical landlubber, who had never focused a larger body of water than Lake Cisco before he joined the service, wrote his mother, Mrs. Cora E. Meglasson, recently that he had not been seasick in the slightest and was having the time of his life.

RANGER C. OF C. BANQUET A BIG SUCCESS

Ranger's annual chamber of commerce banquet of last night was a thorough success in the opinion of those who attended from Cisco.

David Pickeral, superintendent of the Premier Oil company and president of the civic body, presided. Judge L. R. Pearson presented the principal speaker, Jeff Williams, Chichasha, Okla., lawyer, and Mayor J. J. Kelly welcomed the 125 guests.

Mr. Williams speech was an unusually good one, it is said. His topic was "Keep Your Balance During the War."

Those present from Cisco included Judge and Mrs. F. D. Wright, Mayor and Mrs. Edward Lee and P. R. Warwick.

MISSION ACCOMPLISHED—It's a long flight back to home base S/Sgt. Alvin G. Riston of Green Bay, Wis., (left) and Kenneth L. Redick of Tonawanda, N. Y., sprawl out in drafty tail of their B-24, as soon as they are out of range of Jap night fighters which failed to stop raid on Truk. (7th Army Air Force Photo.)

CHEAP POLITICS.

WASHINGTON, May 19.—Representative Sam M. Russell of Stephenville, Texas, member of the house judiciary committee, took the floor in the House to attack the antipoll tax bill and to praise the action of senators from

the southern states for their successful fight in the senate that defeated adoption of the cloture rule and thereby forced shelving of the bill. Russell argued that the bill is so clearly unconstitutional that those who support it must know that it is purely a political measure.

SAYS ICKES IS CAUSE OF OIL BLACK MARKET

NEW YORK, May 19.—James A. Moffet, retired oil company executive, today placed the responsibility for "creation and growth" of the black markets in gasoline and oil squarely on Petroleum Administrator Ickes and OPA Director Bowles.

Moffet, who blasted Ickes as "an impossible person to work with," declared that the oil industry and individual companies had nothing to do with the formation of the black market. He urged that the Petroleum Administration for War and the OPA be removed from any operation of the industry.

WOMAN FINDS WAY TO START PARTY HUBBUB

AUSTIN, May 19.—Pro-Roosevelt Democrats took their fight against an uninstruced Texas delegation in the National Convention to court today with a petition of Mrs. Jane Y. McCallum of Austin for access to State Executive Committee data.

A nine-page legal document outlines Mrs. McCallum's complaint. As a member of the executive committee, it said, she had three times called on Chas. E. Simons, executive committee secretary, to permit her to examine reports from the county conventions, and that Simons had refused. The petition said she feared Simons would tamper with the voting strength of the various counties and asserted he had delegated to himself powers that belong to the committee. It complained that letters asking an uninstruced delegation were sent out on committee stationery.

BROGDON FUNERAL AT ROMNEY CHURCH

Funeral services for the late W. L. Brogdon were held at the Methodist church at Romney at 4:30 this afternoon, with burial in the Romney cemetery. Rev. Seba Kirkpatrick of Twelfth-st. Methodist church, Cisco, officiated at the funeral and Thomas (funeral home of this city was in charge of the burial.

Friends from practically every portion of the county were present for the last rites, thus testifying to the high esteem in which deceased was held by all with whom he had come in contact during his more than 60 years' residence in the county. Mr. Brogdon, as stated in yesterday's paper, died suddenly at his home near Romney at 10:15 o'clock Thursday morning. He was born in Alabama and was nearing his 82d birthday, his birth date being August 22, 1862.

Those serving as pallbearers were Ernie Rich, Ernest Parkinson, Homer Sims, Brice Webb, T. E. Clark and Herman Harrelson.

DIES STILL FIGHTS.

JASPER, May 19.—Representative Dies of Texas, who recently announced his decision not to seek re-election, says he is "going to give the people of the United States a clear picture of what has been going on in Washington," between June 1 and 15.

SHEEP POUR IN.

FT. WORTH, May 19.—Marketing of sheep and lambs here may reach the unprecedented figure of 500,000 for May, putting between \$3,500,000 and \$4,000,000 into the pockets of Texas sheepmen, livestock commission merchants estimated today.

POSSESSION OF WADKE GIVES US ADEQUATE AIR COVERAGE OVER ALL DUTCH NEW GUINEA

SOUTHWEST PACIFIC, May 19.—Capture of the big Wakde air base by American invasion forces in a 125-mile amphibious jump from Hollandia presages the re-conquest of all Dutch New Guinea, whose western tip lies only 650 miles from the Philippines, Gen. MacArthur announced today.

The invaders already were spreading out east and west of the Wakde area along the Dutch New Guinea coast against what MacArthur described as "only trifling opposition."

American seaborne troops, covered by a naval and air bombardment, seized Wakde Island, 1250 miles southeast of the Philippines, nearby Insoemanai Island and the adjacent Toem area of the north coast of Dutch New Guinea Thursday in a surprise landing that quickly overwhelmed negligible enemy resistance.

"Possession of the Wakde airbase will give us adequate air coverage over all Dutch New Guinea and the success of the operation presages the re-conquest of the entire province," MacArthur said in a communique disclosing the seventh, eighth and ninth American leap-frog landings along the New Guinea coast in the past month.

U. S. Army Engineers already were believed readying the captured Wakde air base for the new offensive operations implied by MacArthur. Its coral-surfaced runways extends 470 feet and could be lengthened easily to 7000 feet, recent reconnaissance photographs revealed.

Not only will Allied planes be able to cover all Dutch New Guinea's 151,000 square miles from Wakde, but they also will be within easy bombing range of the Palu Islands, 695 miles to the north and the main east defense outpost of the Philippines.

NAPLES.—The Allies smashed to within striking distance of Itri and Piedmonte today in twin drives that threatened to turn both the northern and southern anchors of the Adolf Hitler Line, last formidable barrier on the roads to Rome.

Thrusting to within 70 miles of Rome, American troops reached the outskirts of Itri, one of the main southern anchors of the Hitler Line, in an advance of nearly five miles along the main coastal road from newly-captured Formia.

The Eighth Army, swiftly exploiting its capture of Cassino on Via Casilina, drove to within a mile and a half of Piedmonte, northern anchor of the Hitler Line, and neared Aquino, another stronghold in the defense belt.

Gen. Alexander said the two Allied armies were pressing the enemy "vigorously back against the Adolf Hitler Line" as the Rome-bound offensive went into its second week as much as 17 miles beyond its jumping-off points in some sectors.

SOUTHEAST ASIA HEADQUARTERS, KANDY, Ceylon.—Allied troops fought their way into the outskirts of Myitkyina today and official sources revealed that all avenues of escape or reinforcement have been closed to the Japanese garrison.

Cornered remnants of the Japanese 18th division, the conquerors of Singapore, were reported falling back slowly into the streets of the city under increasingly heavy attack by American and Chinese infantrymen.

A communique said air-borne reinforcements were landing continuously on the airdrome two miles south of Myitkyina to join in the final assault on the base, the main enemy position in northern Burma and the terminus of the Burma railway line from Rangoon and Mandalay.

LABOR NABOBS JOCKEY WITH UNCLE SAMMIE

DETROIT, May 19.—Members of the American Federation of Labor teamsters union were back on the job today after staging a short-lived general strike which officials said would have tied up Detroit war plants inside 48 hours.

Forty-five thousand members of the union were called out late yesterday as the Detroit area's vital armament industries struggled to recover from three weeks of labor strife. An estimated 10,000 truckers left their cabs when the

call came and it was estimated that 85 per cent of their loads was war materials.

A truce in the dispute was announced at a War Labor Board hearing by members of the AFL Truckers Council. The AFL agreed to maintain the status quo of the dispute, which hinged on whether it or a rival CIO union should control drivers employed by a soft-drink distributor, until another WLB meeting next Wednesday.

RANGER BOY KILLED.

Mrs. A. L. Shoemaker of Ranger has received word that her son, Pvt. Ruby Shoemaker, with an air corps engineer unit in North Africa, has been killed. Deceased's wife resides in Eastland.

RESCUED FROM THE JAPS—Honorable Nipponese evidently make no distinctions between old and young, when it comes to treatment of prisoners. Weary and emaciated bodies of mission-aries, rescued when Allied forces took Dutch New Guinea, bear testimony to agonies suffered at hands of Japs.

THE CISCO DAILY PRESS

(Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937).

Per week, by carrier boy 12c

DROPPING PN.

The label "Psychoneurotic," "PN" for short, has been definitely dropped by the army from records of men rejected. Too many people regarded it as a disgrace. Employers hesitated to hire a man with this label, fearing he might at any time break out into dangerous insanity. The facts are quite otherwise, and the label now bears simply the words "Not suited for military service."

The beautiful, high-mettled saddle horse, exquisitely trained for his proper work, is completely unfitted to pull the heavy loads a perchero moves easily. The bird dog, trained to point, to retrieve, might become hysterical in a team of Eskimo huskies. A fine violinist wasn't much good at digging in the days of WPA. Forced to dig beyond his strength, or to injure his hands, he might make trouble. But violinist, saddle horse, bird dog, are good in the right places.

Brilliantly successful workers in some fields are apt to have sensitive nervous systems which are "not suited for military service." The army has made a wise change. Hopeful also is the statement that "war study of nervous and mental ills will enable the next generation to build a better race of men."

THE LAND OF MIRACLES.

If Kit Carson and his colleagues of the wilderness could look upon the nation they explored not so many years ago, they would think indeed that many miracles had come to pass in America. They would see miracles where we of today see nothing.

In Kit Carson's day, distance was a mountainous obstacle to be traversed painfully on foot. The journey sometimes took months. Now, airliners and express trains have made the mountain into a molehill. When a housewife in the Middle East wants a dish of fresh strawberries or a crab cocktail or fish for dinner, she has but to go to the nearest grocery store. If Kit Carson wanted them, he had to walk a few thousand miles to Maine or California.

The fact that nearly 8,000 carloads of fruit and vegetables were shipped by express to all parts of the country during 1943, is no miracle to contemporary consumers. But to the pioneers of a hundred years ago who were acquainted with nothing more speedy than a horse, the spectacle of a modern refrigerated express car loaded with delicacies rolling at sixty miles an hour across deserts and mountains, would have been overwhelming — the work of gods from another world.

The miracle of refrigerated express is not a creation of super men, but merely the work of the American business men. It is only one of thousands of miracles that make the United States a good place to live. During the next hundred years, thousands more such miracles will be created by the same kind of men—providing this country remains a land in which men are free to create miracles.

November, 1923

(From Files of Cisco Daily News)

EASTLAND, Nov. 3 (Midnight)—The jury trying the case of Bob Mohler for the murder of Hugh Maples, reached a verdict at midnight, and assessed his penalty at death. There were only about fifteen persons in the court room when the jury returned its verdict.

After two successive mistrials the case of L. J. Starkey, charged with murder in connection with the slaying of E. D. (Pet) Brown at his road camp near Cisco last May will come up Monday in the Brown county courts at Brownwood. The case was transferred to Brown county after two juries in Eastland county had failed to agree and it was decided it would be impossible to try the case in this immediate neighborhood. Interest here is running high, the murdered man having been one of Cisco's most popular citizens.

Motion of Mayor J. M. Williamson that members of the Rotary and Lions clubs consider themselves a special pep squad and go to the Cisco-Abilene game in a body to root for the Lobos, was adopted unanimously at the joint meeting of Rotarians and Lions Thursday. Rev. Bascomb Watts, Methodist pastor, made an eloquent address to the clubs on "Hometown Loyalty." Many ex-college men are on the rosters of the two clubs and some classy noise is expected when they turn loose together. A. D. Anderson promised use of a truck for the

occasion. Another truck will be secured and the two will be used as platforms for the Rotary-Lions pep squad.

Up to November 1st, two thousand and sixty-six names had been signed in the tourist registration book which was placed at the mouth of Lake Cisco dam September 19th under direction of the city commission. The book shows names from practically every important city in Texas, and Kentucky, Oklahoma, Tennessee, Georgia, Missouri, Pennsylvania, Ohio, New York, Maine, Louisiana, California and Oregon are also represented.

The Doll Buggy Parade which was scheduled to take place at 10:30 a. m., November 10th has been changed to start at 1:30 p. m., November 10th. The parade will start at the Flag Pole and march north on Main street to Fifth street. Mrs. R. A. McCurdy is chairman of this event.

LOOKING AHEAD
BY GEORGE S. BENSON
President Harding College
Sevier, Arkansas

Voodoo Statistics.
During my boyhood I knew one typical ante-bellum Negro, a picturesque character born 50 years, you might say, after his time. It was said of him that, with solemn Congo River ritual, he named one of his seldom-used pockets "The World." Promptly then he had his wife sew up the empty pocket. After that, when a fellow worker

asked him for a crew of to-be-kept be could truthfully say, "I ain't got a bit's chewin' in The World."

This is not a pointless story. It describes an interesting philosophy, now in general use, notably by the Office of Price Administration. When the powers of this bureau find it impossible to stabilize a price (as they sometimes do) they promptly sew up the outlet with a so-called "line limitation," shift the trade to another store with somewhat fancier prices and call it a deterioration of quality; not a price boost — never!

The Magic Twist.

It's uncanny. People pay more for what they get although prices stay the same at all points of sale. Just consider the case of Mrs. Effie Stone, proprietress of Effie's Store, Inc. Nobody has ever called Effie a novice. She runs a sort of general store at the edge of a farming town and stocks some apparel, mostly cheap, working garments for farm families

and mill people. Woolen skirts at \$4 and ladies' suits at \$20 are for Effie's quality trade.

But now the store is out of woolen skirts entirely. Effie can buy them at about \$4.50 wholesale, and could sell them for \$6 and show a profit but it's not legal if OPA rules are law. The trouble is that Effie sold no skirts above \$4 for several years, including the months that OPA has since designated as a "base period." By doing this she automatically fixed her own ceiling price. The OPA's MRP rule No. 330 caught her.

High-Brow Humbug

Nobody is fooled. Effie's highest allowable price for skirts is \$4 and she can't get any more \$4 skirts to sell. Her customers would pay more, in fact they are paying more. They still like the kind of clothes they wore during the famous "base period." But they are buying elsewhere, paying \$8.50 for skirts in shops just opening; that have no "base pe-

riod," or in big stores with higher "ceilings" upheld by more costly lines.

The very same sport skirts Effie used to sell at \$4, the very

same brand, can be sold legally by Ye Smart Shoppe at higher prices than they'd dare name if Effie was still a competitor. But Effie is out. She has lost her skirt

business and her suit line is just ready to die the same death. She is not alone either. She has shopped around a bit with a merchant's instinct and has found dealers in other lines tangled up in the same red tape.

Who Said Scandal?

A few days ago Effie went to the shoe section of a basement store to buy some cheap oxfords to work in; no luck! She found no soft shoes at low prices. She asked why and the salesman repeated her own \$4-skirt story in other words. But later, at a fancy foot-wear salon she paid satinslipper prices for what used to be

called cheap shoes. Even the dealer did not get rich on the transaction either.

Choking competition does help Mr. and Mrs. Consumer. Truly Effie's prices have not advanced, neither are her competitors' prices any higher, but the cost of living climbs anyway. Price Administrator Bowles has called quality deterioration a national scandal, and I believe it has something there — but there are indications that the fault with OPA regulations which are glad to believe OPA is taking steps to correct.

SHARE THE RIDE—Scarcity of automobiles doesn't bother K. T. Stevens and Peter Van Eyck. Working on a film together, they get around the Columbia lot in Hollywood on a share-a-ride motor bike

TASTE OF RATIIONS—Gun crew on escort carrier samples new canned rations during extra alert. Converted from merchant vessels, boats are known as baby flat-tops

MRS. BRUNKENHOFER GROUP HOSTESS.

Group three of First Christian church council met Tuesday afternoon with Mrs. I. A. Brunkenhofer at her home in Humbletown. The meeting opened with prayer by Mrs. J. S. Stockard who also brought the devotional. Mrs. O. H. Knight, of Temple, mother of the hostess, was presented in a report of the state con-

This unusual wrap-around coat of black nubby wool is lined with the same chamois gold wool that accents its coachman's guffs and turned-back closing.

vention of the Christian church which met recently in Waco. A social hour followed and refreshments were passed to Mrs. J. E. Elkins, Mrs. Roy Fonville, Mrs. W. C. Hogue, Mrs. O. H. Knight, Mrs. C. B. Powell, Mrs. J. S. Stockard, Mrs. W. R. Winston and Mrs. Brunkenhofer. Next meeting will be held in the home of Mrs. W. C. Hogue, 2104 Humbletown.

AUXILIARY CIRCLE AT CHURCH TUESDAY.

Circle three of First Presbyterian auxiliary met in the primary department room of the church Tuesday afternoon for business session, following a general meeting for Bible study which, was directed by Mrs. S. E. Hittson.

Miss Willie Word, chairman, was in charge and opened the meeting with prayer by Mrs. W. L. Jones. Minutes of previous meeting were read by Mrs. Frank Bond. Plans were made for improving buildings at Presbyterian encampment grounds at Lake Cisco. Routine business was trans-

acted after which the meeting closed with prayer. Those present were Mrs. Frank Bond, Mrs. J. E. Coleman, Mrs. Willie Bogan Dunn, Mrs. C. H. Poe, Mrs. S. E. Hittson, Mrs. B. S. Huey, Mrs. W. L. Jones, Mrs. Leith Morris, Mrs. W. F. Watson and Miss Willie Word.

MRS. HOWELL SLEDGE HOSTESS TO CIRCLE.

Mrs. Howell Sledge was hostess in her home Tuesday when circle five of First Baptist WMU met for regular meeting. Mrs. E. J. Poe, chairman, opened the meeting with prayer by Mrs. H. B. Hensley and minutes were read by Mrs. W. C. Clements. After a short period of business an interesting Bible lesson was directed by Mrs. Milton Sargent. All members present took part in the discussions.

Refreshments were passed to Mrs. W. C. Clements, Mrs. H. B. Hensley, Mrs. E. J. Poe, Mrs. Milton Sargent, Mrs. Sledge and a visitor, Mrs. Clifford Thomas.

AUXILIARY CIRCLE ONE IN BUSINESS MEETING.

Following a Bible lesson of the auxiliary, members of auxiliary

LIGHT MAKES MIGHT!

Good sight becomes increasingly important as the nation's war activities press onward. In factories, in offices, in homes... eyes are being called upon for millions of seeing tasks, for everyone has a job to do during war-time.

A light bulb, in all its many designs, is power, flowing through countless miles of wire to wherever there's a job to be done. And light will be the power behind tomorrow's blazing world.

Coffee - Flight Companion of Airline Pilots

... and on American Airlines it's Admiration Coffee

In midflight pilots like passengers on American Airlines frequently enjoy the delightful pick-up of a cup of Admiration coffee. Typical of many, Chief Pilot A. Bull Fitzgerald, ace pilot and transoceanic flyer, finds that Admiration postpones fatigue, brightens up the senses, and adds much to the enjoyment of each trip. He never refuses a cup when offered—and often calls for one when it isn't!

During off hours one of Captain Fitzgerald's hobbies is to relax with his baby daughter. Another is to relax and talk shop with his five brothers, all flyers—for he's a member of the Famous Flying Fitzgerald Family. Of course it's a safe bet there's a steaming cup of rich-flavored Admiration close at hand as he pursues his hobbies. It's a habit all American Airline pilots soon learn—and enjoy.

The Southwest's Favorite!

For generations Admiration's room-providing aroma, delicate, lingering flavor, and wholesome, satisfying goodness have retained the loyalty of thousands. Daughters have inherited the habit from mothers. Buy a pound today. Compare it with your old brand. You'll immediately join the fine old family tradition.
