COMBINED WITH CISCO DAILY NEWS AND CISCO AMERICAN AND ROUND-UP, NOVEMBER 1, 1937

CISCO—One of the healthiest areas in U.S.A., with a countryside devoted to blooded cattle, hogs, sheep, peanuts, cotton, fruits, feeds, poultry, gas, oil; two railroads; Bankhead highway; huge concrete swimming pool; bass and crappie fishing.

VOLUME XXIV.

CISCO, TEXAS, TUESDAY, JUNE 6, 1944.

NUMBER 194

## DASH INTO FRANCE A SUCCESS

### STAR, GORMAN SON OF LATE CROWD CISCO WILEY HITT- IN MAY DRIVE SON A MARINE VISITORS EN- JOY BIG FRESH WATER POOL

Cisco Daily Press: The quota for Eastland county for the month of May was \$51,400 and to date sales in the amount of \$52,076.93 have been reported to this office. This does not include the employer-employee deductions which do not come direct to this office. Sales broken down are as follows:

Eastland	\$14,443.75
Ranger	12,263.63
Cisco	9,233.70
Rising Star	8,394.25
Gorman	7,996.25
Carbon	956.25
Olden	209.25
Desdemona	22.20
Okra	15.30
Scranton	8.70
Pioneer	8.25
Dothan	2.50
Nimrod	1.90

It will be noted that Rising Star moved into fourth place in the May drive. They are to be congratulated for this strong position and we know that it will be especially heartening to the boys from that section when they read the good record of the work done by Rising Star in the May drive.

There will be no quota for the months of June and July, as all sales for these two months will be credited to the Fifth War Loan Drive, a breakdown of which will be found in a later article in this paper.

### VERY KINDLY YOURS, CYRUS B. FRONZ, Eastland County Chairman. FORMER CISCO YOUNG MAN A JAP PRISONER

The first message since last December from Lt. A. W. Balfanz, a prisoner of the Japanese, was received recently by his mother, Mrs. Lee Balfanz of Abilene. The mother is a sister of Mrs. C. A. Farquhar of Cisco and widow of the late A. W. Balfanz, former Cisco contractor and builder and partner of W. W. Johnston, who was buried here a few weeks ago. Lieutenant Balfanz, a pursuit pilot, was taken prisoner with the fall of Corregidor. He was an outstanding football player at Abilene high school in 1932 and 1933 and attended the University of Texas three years, entering the service in 1940.

The telegram thanked his mother for a package containing coffee, sugar and concentrated foods, which had been received in good condition. He also said he had received several letters from friends and relatives and closed with the words: "Do not worry."

HEY, LOOK, MOM!—Leo Righetti, 17, of San Jose, Cal., prep school shortstop, proudly shows his mom his contract as he became property of the New York Yankees baseball team. He's signed up to play with Yank farm club at Newark, N. J.

The Clayton Weekly News of Clayton, N. M., carried an article relative to a Cisco-born boy, Marine Pvt. Wiley C. Hittson, son of Mrs. Frances Hittson of Des Moines, N. M., and the late Wiley Hittson, native of Cisco and a veteran of World War I, who died about five years ago in New Mexico and was returned to Cisco for burial. The Marine is a nephew of Mrs. G. M. Stephenson and Ernest Hittson of Cisco. The article:

Camp Elliott, San Diego — Marine Private Wiley Chandler Hittson, son of Mrs. Frances Hittson of Des Moines, N. M., has been graduated from the Infantry and Browning automatic rifle section school at training center here. Graduates of this school have completed through training with the B.A.R., M-1 Garand, and Carbine rifles, hand grenades, anti-tank grenades and are exceptionally well versed in the use of the bayonet and knives for jungle warfare.

Private Hittson, born July 18, 1923 at Cisco, Texas, attended Des Moines high school. He was employed at the Drug-Y Ranch, near Des Moines, before enlisting in the Marine Corps January 18, 1944, at Santa Fe, N. M.

### CISCOAN ENTERS FERRYING COMMAND

The public relations office, ferrying division, air transport command, Nashville, Tenn., informs the Daily Press that Harold M. Stephenson, son of Dr. and Mrs. G. M. Stephenson, Cisco, was appointed flight officer in the army air forces on June 3, when he completed the officers' candidate unit course at the Nashville base. The Ciscoan was awarded pilot's wings at an early morning ceremony which took place before the entire military personnel of the 20th ferrying group, officers of the air forces, air transport command and state and local dignitaries. As a ferry pilot Stephenson will help maintain a steady flow of combat aircraft from American factories to fighting fronts. Ferry pilots fly more than 100 different types of military planes, in all climates and all weathers, to every corner of the earth.

The young man, 26 years of age, started flying about four years ago, taking his first training at John Tarleton College. He was an instructor at Coleman air field for some time.

According to previously announced plans, the First Christian church has been open to the public today that all who wanted to do so might slip in and kneel in silent prayer for the men of our invasion forces. Tonight at 8 o'clock we will hold a special prayer meeting for these men and the success of their undertaking. The public is cordially invited to join in this special prayer meeting, says Rev. J. R. Wright, pastor.

### THE GREAT ADOLPH.

LONDON, June 6.—The military correspondent of Reuter's News Agency reported that Adolf Hitler is taking personal command of all German anti-invasion operations. Hitler is surrounded by his staff, including four field marshals, and is believed to have moved his headquarters to some place in northern France.

Sunday was one of the best days at Lake Cisco swimming pool in the past two years, said J. Monroe Sweeney, manager, this morning.

And the most satisfying feature, Mr. Sweeney added, "was that visitors from distant points in the state, like Bowie, Bartlett, Austin, Dallas and Fort Worth, were all apparently satisfied with our set-up at the lake, with many openly stating they were pleased and that they hoped to return again during the season."

Fishing at Lake Cisco has been very good the past week, too, and a large number of non-resident fishermen camped at the lake reported a bountiful supply of bream and channel cat.

### APPEAL MADE FOR WORKERS BY RED CROSS

Mrs. Austin Flint, who has charge of surgical dressings work at the local Red Cross rooms each Thursday afternoon, issues the following appeal to Cisco women:

"Now that D day is here and the European invasion well under way, many women will be in prayer for the safety of our boys and success of our forces.

"All workers on the home front will feel a desire to return to work with renewed zeal. America must be ready with many surgical dressings and Cisco must be ready with her part.

"Cisco women have done a remarkable job in making their quota of surgical dressings in the past, yet our present quota is far behind schedule now because only a few have responded of late. If you wish to spend Wednesday and Thursday afternoons in silent prayer—and also in a vital effort for our soldiers—make an effort to be with us tomorrow and the next day.

"It is patriotic work of the highest type and nothing could be of more service to our wounded men, of which we will undoubtedly have many."

### FIRST BAPTIST CHURCH.

All members of the First Baptist church are called to special prayer this evening at 8 o'clock at the church in the interest of the European invasion which started in the early hours of this morning. All Christians of the town and any others who desire to attend are cordially invited to join us in this hour of special prayer, says Rev. Cooper Waters, pastor.

### FIRST CHRISTIAN CHURCH.

According to previously announced plans, the First Christian church has been open to the public today that all who wanted to do so might slip in and kneel in silent prayer for the men of our invasion forces. Tonight at 8 o'clock we will hold a special prayer meeting for these men and the success of their undertaking. The public is cordially invited to join in this special prayer meeting, says Rev. J. R. Wright, pastor.

LONDON, June 6.—The military correspondent of Reuter's News Agency reported that Adolf Hitler is taking personal command of all German anti-invasion operations. Hitler is surrounded by his staff, including four field marshals, and is believed to have moved his headquarters to some place in northern France.

PAUL STARK SEELEY Gladys Gilbert Studio

BOSTON, Mass., June 6.—While holding military might essential to the victory of allied nations over the anti-Christ claims of injustice and intolerance, The Christian Science Board of Directors yesterday told the annual meeting of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, that freedom is essentially a spiritual gift "to be realized only through spiritual understanding and attainment."

Before an audience of several thousand Christian Scientists, the Directors cited the universal determination to win the peace as advance evidence of a world-wide realization that "righteous victory under arms will not suffice to guarantee freedom to mankind."

Freedom from want and fear, freedom in worship and speech, the Directors stated, constitute much more than a political slogan or governmental ideology. "For our great Way-shower, Christ Jesus, proclaimed centuries ago that freedom accords with God's will and law; furthermore he gave simple, clear direction for the attainment of full freedom for the individual, and through the individual for all humanity.

"In other words, although it is desirable, yes, it is necessary, that the allied nations win the war against the anti-Christ claims of human will and personal domination, of greed, cruelty, injustice and intolerance, yet that righteous victory under arms will not suffice to guarantee freedom to mankind." That the world is coming to realize this fact was seen by the Directors in the careful consideration being given throughout the world to winning the peace, "that is, making world peace so secure that other wars will be precluded. Let our prayers for our dear ones who are in service, our prayers for our church, our nation, and for all mankind, find consistent expression in our everyday lives. Let us see that the triumph of Truth over error with us is a sure sign that the victory of good over all evil is assured, and that the kingdom of God is at hand."

Announcement was made by the Directors of the appointment of Paul Stark Seeley, of Cambridge, Massachusetts, as President of The Mother Church for the ensuing year, succeeding Mrs. Daisette D. S. McKenzie.

Tracing the growth of the Christian Science movement from the time of the creation of the original edifice of The Mother Church, 50 years next December, to the present day, the new President revealed an increase in the number of branch Christian Science churches from less than 100 a half century ago, located in two countries, to nearly 2,900 today located in 54 countries.

"The problems we face are great, but God is greater, far greater," the new President affirmed. "His hold upon the universe is not shaken. The ideas with which every one of humanity's problems, individual or collective, will be solved existed before the problem appeared, for as the prophet assures us, 'that which is to be hath already been.' We fear no problems at home or abroad. As the children of Almighty God we accept their challenge as a demand that we use more confidently the power of all-knowing Mind which is ever at hand to reveal every step of the way out of the thralldom of earth into the freedom of God's heaven."

The report of the Camp Welfare Activities showed that 2,000 War Relief Committees in Christian Science branch churches and societies in the United States and Canada are sending clothing in considerable quantities to Great Britain, Russia, Malta and Greece, and that 145 Wartime Officiating Ministers are at work in the field for the movement, along with 428 volunteer Christian Science War-time Workers.

### PROGRESS IN ITALY CONTINUES

NAPLES.—Fifth Army forces drove steadily beyond liberated Rome today, some units plunging as much as five miles out from the historic Tiber river against what was officially termed "only weak resistance."

"The battle to destroy the enemy continues without pause," said a communique.

Lieutenant General Clark's troops have crossed or reached the Tiber all the way from Rome to the sea and enemy divisions still in the flatlands below the city are in desperate straits.

In the coastal area alone well over 2,000 Germans apparently will be unable to scramble out of the Allied net because all Tiber bridges from Rome to the sea either have been blown up or captured.

In still-jubilant Rome, however, 11 crossings remain intact, and the Fifth Army poured across in a constant stream to chase the Germans fleeing northward in disorder.

The Allied air forces gave the German columns no rest. In the area immediately north of Rome Monday more than 375 of their vehicles were destroyed or damaged by fighter-bombers. Heavy bombers meanwhile pounded northern Italy rail lines.

### COUNTY ADDS 46 TO U. S. ARMED FORCES

Eastland county selective service board submits the following list of men now in the army, navy, marine or coast guard service: Cisco—Joseph W. Stevens, Louis E. Lorenz, Lester VanCleave, Buford P. Hageman, Willie Dee Martin, Andrew Martinez, Harlan H. Calloway.

Carbon—Gene E. Scott, Wm. J. Eakin, Wm. C. Murphy. Gorman — Thos. F. Graham, Billy J. Sims, Jack W. Smith. Ranger—Will H. Bragg, Ames C. Peck, Melvin Rouiston, Raymond D. Briscoe, Wm. R. Rainbolt, Winfred N. Miller, Alwyn J. Williams, Royce L. Wheat, Chas. W. Deaton, Wilford W. Simpson, Felton McGraw, Abner Wright, Willie Rodgers, B. D. Yancey, Calvin E. Long, John C. Foreman, Jack I. Cogburn.

Desdemona — Wm. A. Clark, Travis R. Wilcoxson. Eastland—Frank M. Bryant, James D. Griffin, Terrell E. Harbin, Gordon Seabourn, Cecil Sylvester, Hardy Carroll, Orville Reed, Billy J. Parrish, Odin D. Bennett.

Rising Star—Edward Willson, Julian S. Harvey, Thomas W. Busbee, Robt. L. Stewart. Nimrod—Grover W. Duke.

WELL—HOW CAN IT BE? CINCINNATI, June 6.—Production of finished airplane engines at the \$155,000,000 Wright Aeronautical Corporation plant at Lockland stopped today. At least 12,000 of 35,000 employees were idle after the transfer of seven Negro workers from the north shop to the center shop. Officials of the company and United Auto Workers (CIO) said they were unable to find acknowledged leadership in what they agreed was a protest against mixing Negro and white workers.

### 4,000-SHIP ARMADA, ESCORTED BY 11,000 FIGHTING PLANES, BLAZE WAY TO D-DAY VICTORY

SUPREME HEADQUARTERS, ALLIED EXPEDITIONARY FORCES, LONDON, June 6.—Allied armies, transported by a mighty armada of more than 4000 ships and protected by 11,000 planes stormed northern France today, and in mid-afternoon the Berlin radio admitted that the invaders had succeeded in sending landing barges into two estuaries that are behind the Atlantic Wall.

An hour after first of the American, British and Canadian invasion forces hit the beaches, the Allies had won complete mastery of the skies over the landing area. Correspondents who flew over the invasion zone saw troops splashing ashore against little resistance.

By midday air-borne landings behind the German lines were reported successful. Nazi shore batteries had been largely silenced, and amphibious forces still were swarming ashore at numerous points.

The German DNB news agency said this afternoon that Allied landing barges had pushed into the estuaries of the Orne and Vire rivers in the coastal stretches between Cherbourg and Le Havre "in the rear of the Atlantic Wall"—the vaunted defense line that Hitler hoped would keep invaders off the soil of Germany.

Nazi broadcasters also acknowledged that Allied tanks had cut several kilometers inland between the towns of Caen and Isigny, and admitted Allied penetrations ranging up to 10 miles.

(The British radio said that at least two beachheads had been secured and that "Allied formations are advancing inland.")

Some six hours after the first waves of American, British and Canadian assault forces landed by sea and air on the Normandy Peninsula, Prime Minister Churchill told Commons that the invasion was proceeding "according to plan."

"Obstacles which were constructed in the sea have not proved so difficult as was apprehended," Churchill said. "The fire of shore batteries had been largely quelled. Obviously enjoying his resumption of the role of the great war reporter, Churchill added:

"I cannot, of course, commit myself to any particular details as reports are coming in rapid succession. So far, the commanders who are engaged have reported that everything is proceeding according to plan—and what a plan!"

Commander of the army group now storming France was revealed to be Gen. Sir Bernard L. Montgomery, "Monty of El Alamein," who led the famed British Eighth Army all the way from the approaches to Alexander, Egypt, to southern Italy. His command included American, British and Canadian troops.

German news agency said Allied shock forces and paratroops landed along the north coast of the Normandy Peninsula—which juts out from France some 90 to 110 miles below the English coast—all the way from the Cherbourg area at the northern tip to Le Havre at the mouth of the Seine, 110 miles northwest of Paris.

MOSCOW.—Russian armies are said to be massing and preparing to perform their part of the joint Allied task of crushing Germany with a blow from the east, combined with General Eisenhower's invasion from the west and General Alexander's thrust up the Italian peninsula. The invasion of northwest France was the "second front," for which the Russians had called for almost three years.

SPOT OF TEA—Wounded and exhausted German prisoner joins his British captor, left, in a cup of tea and a cigarette, after bitter fighting at Cassino, Italy. British 8th Army made many German prisoners during widespread offensive on Italian front.

### PICTURE SHOWS CISCO MARINE AT HIS WORK

The Daily Press has received an official U. S. Marine Corps photo of Marine Private W. H. Robinson, 24, husband of Mrs. Verna Mae Glidewell Robinson, 704 west Fourth street, Cisco. The picture is a large one and shows the Marine student cook in the kitchen at Camp Matthews, Calif., preparing stewed tomatoes for hungry Marines at that Marine Corps rifle instruction camp.

The photo has been added to the Daily Press picture gallery and may be seen by family and friends.

"GET YOUR LIFE! TAKE CARE OF MY FORD!"

DR. DON J. CRAIN, Colorado State Veterinarian, Denver, Colorado

As millions of Ford owners know, Ford cars are reliable. They last a long time. They cost very little to run and maintain. They are fast and powerful and count on them, and they keep their good looks for years. That is why so many Ford owners today are saying, "Sure glad I've got a Ford!"

NEWS NOTE—700 million gallons of water a day are pumped by the Ford power house at the Page plant— as much as is used by Detroit, Cincinnati and Washington combined.

30,000,000 CARS AND TRUCKS HAVE BEEN BUILT BY FORD

BOWLING ALLEYS AIR - CONDITIONED

Two large cooling units have been installed at the Eastland County Bowling Center, thus insuring summer comfort at this popular recreation spot, where four standard ABC alleys are always clean and trim.

Monday, Tuesday, Wednesday, Thursday and Friday the alleys open at 12 m. Saturday at 10 a. m. and Sunday at 2 p. m.

Make Bowling a recreation habit.
