MRS. H. R. GARRETT DIED IN GEORGIA HOME

Mrs. H. R. Garrett, former Cisco and wife of Major H. R. Garrett, instructor at Riverside Military Academy, Gainesville, Ga., died at their home there Saturday morning, following an emergency operation Friday night. That was the gist of telegrams received in Cisco Saturday by Rev. J. R. Wright and O. L. Stamey. The telegram also said "we are going to Birmingham," which was taken to indicate that Mrs. Garrett would be buried at Birmingham, Ala., the home of her mother. The Garretts were popular residents of Cisco for about 15 years, until Major Garrett became connected with Riverside Academy a year and a half ago. During their residence here, Mr. Garrett was attached to the Cisco public schools and Junior college. They were members of First Christian church and Mrs. Garrett was especially active in church circles and was greatly beloved by all who knew her. Deceased is survived by her husband and three children—Mrs. G. Roy Heffrin, an instructor at Sheppard Flying Field; Jack Garrett, 17, and Dorothy Jo, 11, of Gainesville.

TEXAS GOVERNOR WANTS THE FACTS

DALLAS, June 10. — Leonard M. Brin, who announced his resignation as regional director of the President's Committee on Fair Employment Practices, was enroute to Washington today, W. Don Ellinger, FEPC field examiner, said. Brin, who announced yesterday his resignation "for personal reasons" would be effective June 20, said policy questions posed by Gov. Coke R. Stevenson on FEPC operations in Texas "must be referred to the committee in Washington." In a letter to Brin Stevenson asked by what authority FEPC conducted activities in Texas; what was the scope of its operations; and the objective sought; whether purpose of the activities included violation of any of the segregation laws of the state and whether it was the purpose to "establish policies which are in violation of state laws?" In Washington, Malcom Ross, chairman of the committee, said he would not attempt to answer Stevenson's letter, which neither he nor Brin had received yesterday but that his comment in respect to press reports was: "X X X the committee neither in its purpose nor in its activities does violation to any VALID laws of any state, nor has it established any policies contrary to such laws."

ROME WOMEN CENSURED BY CHURCH HEADS

VATICAN CITY, June 10. — Pastors of various churches in Rome have denounced what was described as the scandal of girls and women abandoning themselves audaciously to foreign soldiers, the semi-official Vatican news said. The reference to "foreign soldiers" was vague but it was understood it meant American, as Italian girls and women had kept aloof from the Germans. Most observers believed the denunciation related to the gay reception accorded the doughboys Sunday night and Monday when everyone in the capital declared a Roman holiday.

U. S. PLANES BOMB JAPS AND HELP CHINESE

CHUNGKING, June 10.—American fighters ranging over a wide area in support of the embattled Chinese attacked Japanese positions in Hupeh and Honan Provinces, and Liberator bombers in a sweep of the south China coast sank a 1,700-ton enemy freighter and seriously damaged a 2,700-ton vessel. Along the Yangtze river rocket-firing P-40s struck military installations, warehouses and factory districts in Shasi, Japanese Hupeh base. P-40s on the Honan front flew strafing missions along the Yellow river, shooting up enemy cavalry concentrations in the area from Nanyang to Lushan.

LAWYER HONORED.

FT. WORTH, June 10. — Fort Worthers who gathered at First Presbyterian church yesterday to pay final tribute to William A. Hanger, 74, who died Thursday, heard him described as "a rugged individualist, a man of strong opinions who lived according to the dictates of his conscience."

WAR BOND PREMIERE AT PALACE, JUNE 28

People of the Cisco area will have a chance to help win the war and at the same time enjoy themselves, says K. N. Greer, chairman of the local motion picture exhibitors' campaign for the Fifth War Loan drive and manager Palace theater. On June 28 the Palace will hold "War Bond Premiere," with the "Story of Dr. Wassell" as part of its contribution to the drive. Admission to the picture (its first showing here) will be by war bond only. The "War Bond Premiere," which has a feature motion picture exhibitor cooperation in seat drives, is one of the top bonding devices yet hit upon. According to Mr. Greer, the premiere is expected to draw capacity crowds from Cisco and this trade area. The details were worked out in conjunction with R. L. Bondler, local war bond sales chairman, and will be announced through the Daily Press soon. Tickets are now available at the special war bond premiere booth in the lobby of Palace theater and may be had by purchasers of bonds between June 12 and June 28.

STAMEY FUNERAL TODAY.

The body of Henry T. Stamey, brother of O. L. Stamey, who died in California Wednesday, did not arrive in Cisco at noon Saturday, as had been expected, and the funeral was postponed until 3 o'clock this afternoon. It will be held at Thomas funeral chapel, after which the remains will be conveyed to Sipe Springs for burial.

CUT YOUR GRASS.

Grass and weeds are becoming rank all over the city, said O. Gustafson, city fire marshal, Saturday, and it will be wise and nice for property owners to cut them before they dry out. Aside from protection to property, grass and weeds detract from the city's general appearance and always propagate the deadly mosquito.

SHACKELFORD DRYS WON.

There have been many inquiries concerning the outcome of the recent beer election in Shackelford county and the final figures show that the drys were victorious by a majority of 367. The total vote was 1,193, the wets being outvoted in each of the ten precincts.

OHIO RACE STRIKE WAS DAMAGING

WASHINGTON, June 10.—Army estimates that more than 300 vital airplane engines were lost in this week's wildcat strike at Wright Aeronautical Corp. plant at Leokland, O. Four-day shutdown arose over assignment of seven Negroes to assembly line formerly manned exclusively by white workers. At the peak 15,000 were idle. Food requirements of occupied areas, coupled with domestic feed scarcity, point to shortages next year, possibly more stringent rationing. War Food Administration foresees cut in production of cattle, hogs, poultry and eggs in 1945, due to feed situation. Under present procedure, events leading up to a possible second seizure of Montgomery Ward's Chicago properties could reach their climax about the time the Republican National Convention meets in that city—which would give delegates a topic for considerable conversation.

REDS CAPTURE ANOTHER HILL IN ROMANIA

LONDON, June 10.—A Finnish message quoted by DNB in a Berlin broadcast, said the Russians launched a general offensive, supported by heavy artillery barrages and strong tank formations, on the Karpatz isthmus north of Leningrad Friday. "The attacks, which were launched at various points, were frustrated except for some minor breaches of local importance," the report said. Moscow announced Saturday that Soviet troops had crumpled a localized German attack northwest of Tarnopol in old Poland as Red Army preparations for a new Eastern Front offensive brought more indications of uneasiness in Germany and among the Axis Balkan satellites. The war bulletin said Soviet units also have taken another height north of Iasi in Romania, wiping out more than a company of the enemy. The Nazi radio commentator Ernst von Hammer, who described the fighting around Iasi Thursday as a new Soviet offensive, reversed himself Friday and declared that the actions there had "petered out somewhat."

AMERICAN COLUMN IS BATTLING TOWARD VITAL CHERBOURG; EXPECT TO REACH CITY FIRST

ALLIED HEADQUARTERS, LONDON, June 10.—Allied invasion armies in Normandy have linked their beachheads along a front of nearly 60 miles, captured the coastal stronghold of Isigny and are fighting within 17 miles of Cherbourg. American tanks and infantry made a dramatic junction with the British on their left flank west of Bayeux yesterday while another American column to the northwest was battling its way along the main coastal highway from Ste. Mere-Eglise toward Cherbourg, 20 miles distant. The Yanks say they have first call on that city. Isigny lies half-way between Bayeux and Ste. Mere-Eglise, and is the junction of the coastal highway and several secondary roads. By seizing it, the Americans tightened their siege arc around Carentan, six miles to the west and the hinge of the German's crumbling defenses. The German radio said the Americans had launched a "major attack" in the Carentan area. British and Canadian forces, steadily expanding their hold on the eastern and central sectors of the bridgeheads, captured Ste. Croix, nearly seven miles southeast of Bayeux on the highway to the vicinity of Conde-Sur-Seulles, four miles southeast of Mayeux. Despite the steady Allied gains, however, German resistance was mounting and Gen. Dwight D. Eisenhower reported in his ninth communique that "continuous fighting was raging in many sectors. German panzers and infantry probed constantly into the Allied lines. The communique said British and Canadian forces on the approaches to Caen, the enemy's principal stronghold, repulsed heavy enemy panzer and infantry counter-attacks early yesterday, but front dispatches disclosed that enemy tanks temporarily wedged into the Canadians' outer lines. Front dispatches said the German 21st Panzer Division was assembling in the Caen region, while the 12 SS Panzer Division was moving into positions west of Bayeux and south of the Bayeux-Caen railway. American Thunderbolt fighter-bomber pilots returning from Normandy told of miles-long German supply convoys clogging the roads leading to the battlefield from the south and east. One Thunderbolt formation left a 10-mile trail of blasted and smoking German trucks on a Normandy road. Gen. Bernard Montgomery, commander of the Allied expeditionary force, now is "with his men in France," another war correspondent revealed. NAPLES.—Allied troops, plunging forward 14 miles in a single day, have captured Tuscania, 50 miles northwest of Rome, it was announced as the Fifth and Eighth Armies pounded in pursuit of battered German forces withdrawing along the entire Italian front. Lt. Gen Mark Clark's troops had spurred 50 miles across the plains north of Rome in five days, and the inability of the hard hit German 14th Army to make a stand now laid open the Nazi flank to attack by the Eighth Army. Racing on 14 miles from the Tarquinia-Vetralla line, the Fifth Army seized Tuscania, while across the Apennines in the Adriatic sector the German retreat gained momentum under the impact of an Eighth Army assault. The advancing Allies crossed the Foro river and occupied the battered and burning villages of Filetto, two miles west of Orsonga, and Miglianico, northwest of Tollo. At the same time it was reported officially that the Hermann Goering Division of the 10th Army now had been "reduced in number to a strength comparable to that with which it straggled back from Sicily." The German withdrawal on the Adriatic front apparently was at a more moderate pace, with contact maintained all along the line. The Nazis abandoned the highly defensible fortress of Orsonga, perched atop a cliff, without a fight. NEW GUINEA.—Taking the biggest toll of Japanese warships in months, American airpower has smashed another apparent attempt to aid hard pressed imperial troops on Biak Island, headquarters announced Saturday. Mitchell bombers, diving to mast height, sank four Japanese destroyers with 1,000-pound bombs, damaged a fifth and drove off a cruiser and another destroyer. The action occurred Thursday off Manokwari, Dutch New Guinea, as the Japanese task force was proceeding eastward across Geelvink Bay toward Biak, 150 miles distant.

SWIMMING.

This is the time of year when everybody within reach of a lake or stream should get out and swim at least once a

week. And those who can't swim should learn before they get any older. Ciscoans, with a mammoth concrete pool fed by Lake Cisco right at their elbows, are extremely fortunate in this respect and more of them should take advantage of it, at least to the extent of steering their young folk in the right direction.

The safety factor is, right now, one of the main arguments for a human being turning himself into a fish. One of the most striking lessons along this line is the fate of so many soldiers lost at sea from sunken ships because they couldn't swim well. But the lives lost likewise at home, in streams, ponds and lakes, are far too many. And swimming is surprisingly easy to learn when it is once tackled in earnest. A novice should be able to get started in a few days, and then gradually strengthen and perfect himself. It is also one of the most healthful of all sports, when prac-

ticed in clean water and not continued to the point of exhaustion.

A large part of this sport is mental. It is a great satisfaction to earth-bound people to discover that they can live and move safely in a new element, almost as different from walking as if they were in another world. And if it puts them into rapport with the fishes and clams, for a while, there's no harm in that.

A BOLD MAN.

What is wrong with the French leader, Gen. de Gaulle? And why do many leaders outside of France fear to yield him the authority he wants? He is evidently a strong and able man, but some Americans seem to be doubtful about supporting him.

There is an old saying that may have some bearing on

the case. A wise man laid down this principle: "Be bold, be bold, be bold—but not too bold." The French leader seems to be a man of one idea who thrusts straight ahead, takes no advice from anybody and wants his own way with no compromise. Apparently he is much like certain Americans, which may account for their dislike of de Gaulle.

The crooks, like the "poor," are always with us. James Russell Lowell wrote 70 years ago of "public scandals, private frauds, crime flaunting scot-free while the mob applaud." But we have less applause for the crooks now.

It is said that men don't want their old jobs back after the war. They all want other jobs that are pleasanter or more interesting or pay better. And where does that leave everybody?

This is the one that counts!

"... Ask the Joes in the front lines!"

THEY KNOW. Every G. I. Joe knows. "This is the big show. This is the pay-off. This is the one that counts. "Sure, we're going to take 'em. But it's going to cost us plenty... thousands and thousands of lives

"... Ask that kid on the stretcher!"

... billions and billions of dollars. "That's the price we must pay for a decent world—a world in which we and our children can live in peace. We G.I.'s will furnish the bodies. Will you furnish the dough?"

"... Ask those who bury our dead."

...and it's going to cost us plenty!

NOBODY needs to tell you that the fighting in this war is reaching a crisis. But we've got to realize also that we face a similar crisis in financing the war. Make no mistake! The 5th War Loan is beyond question the biggest, most vitally important financial effort of this whole war! We can't afford to fail. Now is the time for every American, soldier and

civilian, to go all-out. Buy double the extra Bonds you bought last time!

And here are 5 More reasons for buying Extra Bonds in the 5th!

- 1. War Bonds are the best, the safest investment in the world!
2. War Bonds return you \$4 for every \$3 in 10 years.
3. War Bonds help keep prices down.
4. War Bonds will help win the Peace by increasing purchasing power after the War.
5. War Bonds mean education for your children, security for you, funds for retirement.

Times Are Changing Fast--

... and so are governments, religions, economic principles and even human nature, whether we like it or not. Likewise, revolutionary changes have taken place in the field of land titles. In the old days most titles were simple and good, but today the records are voluminous and the changing times have clouded many titles. So don't buy real estate without knowing something about the title and always insist on a dependable abstract.
