CISCO, TEXAS, WEDNESDAY, JUNE 14, 1944.

NUMBER 290

YANK TANKS CRUSH NAZI LINES

VERSATILE CISCOAN BUSY AT ENGLISH POST

From an air force service command in England comes the following news relative to a Ciscoan: "Pvt. John E. Borders, Cisco, Tex., is a member of the special service section in this strategic air depot, where battle-damaged Eighth air force bombers are repaired. Among other duties, Borders has organized courses in Spanish and German and plans other language classes to broaden the background of the men serving here.

The unit of which Borders is a member organizes recreational, athletic, amusement and intellectual programs ranging from baseball to after-duty lecture courses; it also arranges for Yanks to visit English homes. Before entering the army in April, 1943, Borders was in newspaper circulation work.

"His wife, Mrs. Pauline Borders and their son John, who was born after his father arrived in England, live at 1109 West Sixth street, Cisco. Private Borders' brother William is a technical sergeant with an anti-aircraft unit in New Guinea."

MRS. COOPER FOR COUNTY TREASURER

The name of Mrs. Frances Cooper has been placed in the Daily Press political announcement column as a candidate for the office of treasurer of Eastland county. In a brief statement Mrs. Cooper said:

"I take this opportunity of placing my name before the public as a candidate for county treasurer. I appreciate your past courtesies and hope to be your next county treasurer. I will make a more extended announcement later."

RUMPER PEACH CROP.

AUSTIN, June 14.—The United States department of agriculture predicts Texas peach production will be 1,554,000 bushels, more than 650,000 bushels larger than the crop last year. Although an average crop was indicated for the state as a whole, production this year is confined largely to eastern and north central counties. Late freezes damaged peaches in other areas.

Mrs. A. J. Olson has as guests this week her daughter Mrs. D. E. Franklin and daughters Carole and Paulena of Wichita Falls.

CHAPLAIN'S AIDE—Former selector and conscientious objector, Lew Ayres is now chaplain's aide with Yank forces in New Guinea. He says he hopes to study for ministry after war.

TALENTED TEXAN EARNS UNUSUAL TITLE

From headquarters, European theater of operations, comes the following news concerning Worth H. Ford of Moran:

"Because of his 'know-how' with tools, Corp. Worth H. Ford of Moran, Tex., has become known as the mechanical chaplain of his U. S. army engineer unit stationed in Great Britain.

"Corporal Ford works in the regimental motor pool, where his construction of many inventions and gadgets of various kinds have saved many hours of toil and solved problems that baffled his fellow mechanics. His forte is the designing of tools and parts which are unique and cannot be repaired or replaced."

The talented Texan was born and reared south of Cisco and attended Romney and Cisco schools. His parents, Mr. and Mrs. Doc Ford and his wife, Mrs. Mae Ford, reside in Cisco. He is 26 years of age.

LIONS ENJOY WAR PICTURE AT LUNCHEON

Lions enjoyed a war picture today through the courtesy of Lion C. B. Shaw and David Franklin of the Humble company. The picture was entitled, "Fighting Men in a Baptism of Fire."

Other visitors at the club were Rev. Cooper Waters, Rev. Vernon G. Miles and Joe Trussell. Owing to lack of time these visitors did not speak.

The picture showed some of the terrible scenes of ordeals being experienced by our fighting men on the European front. One man at the club remarked at the close of the program that anyone seeing this picture should have no trouble in making up his mind to buy as many war bonds as his means would permit.

PUBLIC WELFARE PAYMENT \$4,070,735.20

AUSTIN, June 14.—Old age assistance rolls lost 736 recipients during May, leaving 175,196 persons to receive in June \$3,729,187.20 in an average payment of \$21.29.

The blind rolls, showing very little change from month to month, numbers 4,685 recipients for June payments, an increase of 13 over May, and calls for distribution of \$114,024 in an average check of \$24.34.

Aid to dependent children rolls gained 419 families and 608 children during May, bringing the June rolls to 10,806 families with \$3,622,524.00 in an average payment of \$21.06.

RADIO SERVICE INCOME.

WASHINGTON, June 14.—The federal communications commission reports that broadcasting stations received a service income of \$46,481,397 in 1943, an increase of more than 50 per cent over 1942.

GREYHOUND INCOME.

CHICAGO, June 14.—The Greyhound Corporation reported today a consolidated net income for the three months ended March 31, 1944, amounting to \$2,042,658, equivalent to 72 cents a common share and comparable to \$1,941,405, or 68 cents a share, for the first quarter of 1943.

REPATRIATED PATRIOTS—Although they have all done their share and a good deal more for their country, these 15 Yanks voluntarily purchased \$4000 worth of war bonds with part of pay they received after returning on the Gripsholm. Here, Capt. Nile C. Schau delivers bonds at Halloran General Hospital, New York.

SETS RECORD—Carrying full field pack, PFC Ruben Meyer, 31-year-old Chicagoan, set new Army national record for 25-mile hike. He did distance in 4 hours, 34 minutes, 21 seconds. Photo shows him crossing finish line at Camp Polk, La., where he is with 9th armored division. He was

GOING FOR A RIDE—WPE Chief Donald M. Nelson takes a ride in cab of an engine that hauls concrete buckets from mixers to placement cranes on recent tour of TVA's Fontana dam in western North Carolina. The War Production Board chairman donned engineer's cap for ride.

1,500 YANKEE BOMBERS HIT NAZI TARGETS

ALLIED EXPEDITIONARY FORCE, June 14.—A force of around 1,000 Fortresses and Liberator bombers split up today and attacked the oil refinery at Emmerich, Germany, and German air bases and bridges in France and Belgium. The assaults extended the simultaneous bombing of the battle area and the German homeland around the clock.

The American force aggregating upward of 1,500 bombers and fighters attacked, among other targets, the Le Bourget and Creil air fields at Paris, Estampes-Mondesir and Chateaudun in France; Brussels-Melstroeck and Eindhoven in Belgium.

Meanwhile another American heavy bomber force, the German radio said, surged up from Italy for an attack on Hitler's Europe which underwent heavy attacks from the south in the Munich area both Tuesday and Tuesday night.

EXPECTS HUGE OIL DEMANDS BY US. ARMY

HOUSTON, June 14.—Southwestern oil men heard their industry praised today for its vast-scale contribution to the nation's war machinery, but they were challenged by one of their leaders to lend themselves in the years ahead to a task of almost equal importance.

Assembled for the annual spring meeting of the Southwestern District of the American Petroleum Institute, Division of Production, the oil operators were told that by the end of 1944 the Army may demand as much as two million barrels of petroleum products daily.

ALLIED FORCE NOW DEEP IN FRANCE, SAID

PORT BOU, Spain, June 14.—Border reports today say Allies are landing commandos and rangers, equipped with jeeps, light tanks and antitank guns, on air fields prepared by French partisans deep within France.

The reports mentioned Plateau Milleveches, about 45 miles southeast of Limoges and about 80 miles southwest of Vichy, as one place where jeeps and light tanks had been put down.

OADIS M'GOUGH WOUNDED IN ACTION, ITALY

Pfc. Oadis G. McGough, son of Mrs. Dee Peugh, 706 east Eighth street, has been wounded in action, the mother has been informed. Private McGough, 21, is with the 88th infantry division in Italy and has been awarded the Purple Heart. His wife lives at Madisonville, Tex.

Mrs. Dee Peugh has two other sons and a son-in-law with the armed forces. Pvt. Mark McGough is a prisoner of the Japs in the Philippines, Tech Sgt. D. J. McGough is at Laredo and Pvt. James L. Montgomery is in Italy.

HUGE CROP OF TEXAS BABIES THIS YEAR

AUSTIN, June 14.—Texas is producing a bumper crop of war babies.

UNEXPECTED THRUST BY ALLIES CAPTURED TOWNS OF CAUMONT, VILLERS BOGAGE; HARD FIGHT

LONDON, June 14.—Allied tanks and infantry broke through the center of the German line today and captured Caumont and Villers Bocage in a sudden thrust 20 miles inland that outflanked and imperiled the enemy strongholds of St. Lo, Tilly-Sur-Seulles and Caen.

The Nazi Transocean News Agency said Tilly "is not in German hands"—evidently a tacit acknowledgement that the Allies had captured that stronghold 12 miles west of Caen. German counter-attacks—the most violent yet hurled against the beachhead—that penetrated American-held Montebourg and Carentan and threatened the British hold on Troarn, five miles east of Caen, were being "held or broken up" Allied headquarters announced.

Montebourg, 14 miles southeast of Cherbourg, changed hands at least three times in fierce fighting during the past 24 hours, a spokesman said, but Carentan "definitely" was in American hands.

Radio Vichy broadcast a report that "important Allied shipping movements" had been observed in the Bay of Biscay near the Franco-Spanish border, but added that "it is too early to say whether this is a feint or a prelude to an attack."

The broadcast followed release of a message from Gen. Dwight D. Eisenhower, supreme Allied invasion commander, to President Roosevelt promising that he would blast other "openings" in Hitler's European fortress.

Lt. Gen. Kurt Dittmar, German army commentator, also warned in a broadcast over Radio Berlin that Germany must "expect other large scale landings," since the forces so far landed in Normandy constituted "only part of the huge troops concentrated on the British Isles."

The surprise Allied thrust between St. Lo and Caen was disclosed in Eisenhower's 17th communique of the invasion. Armored forces struck south against the enemy's flank west of embattled Tilly-Sur-Seulles "with great effect," and reached Caumont, 13 miles east southeast of St. Lo, and 20 miles southwest of Caen, despite "vigorous reaction on the part of the enemy," the communique said.

An official spokesman subsequently disclosed that Caumont had been captured, and a front dispatch from Edward Gilling, Exchange Telegraph correspondent, said that British armored forces entered Villers Bocage, seven miles to the east and 14 miles southwest of Caen, at 10 o'clock this morning.

SAN FRANCISCO.—Twin blows by an American Naval task force and land-based bombers have sunk or damaged 37 Japanese ships and cost the enemy 141 planes, it was disclosed today, while Allied ground forces in Burma and western China scored new gains in their two-way drive to reopen the overland supply route from India to China's embattled armies.

A powerful carrier force that struck into the Mariana Islands on the eastern approaches to the Philippines and Tokyo Saturday, Sunday and Monday broke radio silence to report that its planes sank 13 enemy ships, including four warships, and wrecked 141 Japanese planes, most of them in aerial combat.

Sixteen other vessels, among them nine warships, also were damaged in the attacks, which ranged over Tinian, Saipan, Guam and Rota, two enemy convoys were caught in nearby waters. Fifteen American planes and 15 men were lost.

MOSCOW.—The Red Army struck northeast across the waist of the Karelian Isthmus toward Lake Ladoga today, methodically smashing the eastern half of Finland's already-breached outer defense line.

While other columns pushed up the main highways and railways toward Viipuri, Finland's third city 40 miles to the northwest, Gen. Leonid A. Govorov temporarily shifted the main weight of his four-day-old offensive to the northeast in an attempt to complete the destruction of the enemy line.

The Russians captured five towns in advances of up to six miles on a 10-mile front in their new drive yesterday. Among them were Steklyannaya, 12 miles from Lake Ladoga and 16 miles northeast of the Gulf of Finland, and Siirannyaki, six miles northeast of Kivennapa and about 40 miles southeast of Viipuri.

NAPLES.—American and British armored columns punched into the hastily-established German line in the hills bordering the Etruscan plain above Rome and advanced two miles or more in the heaviest fighting since the fall of the capital 10 days ago.

American infantrymen and tanks on the west flank of the Fifth Army line cracked through the Nazi defenses thrown up across the junction of the coastal road and Highway 74 southeast of Orbetello, and advanced two miles into the flat plains stretching eastward to Lake Bolsena.

THE CISCO DAILY PRESS

(Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937.)

Entered as Second Class Matter December 11, 1934, at the post office at Cisco, Texas, under Act of March 8, 1937.

A. B. O'FLAHERTY, Publisher and General Manager.

Published daily except Saturday and Monday at Cisco, Eastland county, Texas, by Free Press Publishing Corporation, incorporated under the laws of Texas. Editorial and publication offices at 304-306 D Avenue, Cisco, Texas.

National advertising representative: Texas Daily Press League, Dallas, Texas.

SUBSCRIPTION RATES: \$2 per year (six months \$1.50) by mail (outside Cisco) in Eastland, Stephens, Shackelford and Callahan counties, Texas; outside above-mentioned counties \$3.50, \$5.00 in U. S. outside of Texas.

Per year in advance (Cisco) \$5.00 Per week, by carrier boy 12c

GREATEST TEAM ON EARTH.

All that arm-chair strategy gone down the drain! All that "They can't go in here, they've got to go in there." All that "No second front" stuff. All that fury over Churchill's small pickled Spanish sardine which grew overnight into a fat red herring. All that wrath about Roosevelt and de Gaulle, letting the Nazis think they could hold France by confusion, and evaporating into thin air when Gen. Dwight Eisenhower and de Gaulle sat down together and agreed.

Where did the Allied forces go in? Where they had planned. Where will they go next? According to schedule. When will the Russian drive start? At the moment long set. Did the Powers know their business? They certainly did.

Why not let the generals get a little credit for knowing what they are doing? How about a little less amateur strategy and putting a little more steam into doing our own chores ourselves? Sure, it's fine for Americans to think things out. But when it comes down to the last stages of winning a war, it takes teamwork. The generals will do their job if we do ours.

It is an honorable part we take. Who made the casings that held the shells that knocked out that German pillbox? Who polished the valves for those airplane tanks? Who gave the blood that saved that soldier? We worked out improvements in laboratories?

It's great to do the job well now. Great to tell the grandchildren later.

UNOBSERVANT CITIZENS.

Where do some people keep themselves? According to a Gallup poll, 27,000,000 Americans, almost one person in every five, did not know that the Japanese had taken the Philippines, and more than half the population did not know that the United States had never belonged to the League of Nations.

It might be interesting to have a Gallup poll on the number of people who know their way to their mouths, or enough to come in out of the rain. Or whether they can read, or whether they want to.

EASTERNMOST OUTPOST.

June 17, Bunker Hill Day, will be celebrated elsewhere than in the United States. Iceland on that day begins its career as an independent republic. For 563 years it has been under Danish rule. The yoke has not been hard; but like many good Americans, the Icelanders prefer to govern themselves. Since 1918 they have been practically independent. Some looked to Denmark only by having the same king. Even this slight bond seems too much, especially in view of Denmark's conquest by the Germans; so Iceland will have no connection with any country whatever.

Americans should have special sympathy with Iceland, because it is one of the earliest popularly ruled countries. Its parliament dates back to 930 A. D., and in 1930 its 1,000th anniversary was celebrated. The recent occupation of the island by our soldiers has made both countries better acquainted with each other. As the easternmost outpost of the Western Hemisphere (a fact recently determined by the geographer Stefansson), Iceland will always be watched by Americans with friendly eyes.

Our Merchant Marine

Phantom Decks

Tankers because they ride so low when loaded, until this war never transported deck cargoes.

Today, through so-called PHANTOM DECKS American tankers can carry not only assembled or boxed airplanes but also the fuel to fly them.

Supporting the cargo well above the regular deck, 'phantom decks' are welded frames made to fit each type of cargo.

In this way, planes, trucks, and PT boats are made fast, out of the way and safe from heavy seas. A Tanker's phantom deck carried the PT Boat which MacArthur later used to escape from the Philippines.

AMERICAN MERCHANT MARINE INSTITUTE, NEW YORK

LOOKING AHEAD

BY GEORGE S. BENSON President, Harding College, Searcy, Arkansas

King Cotton.

Sitting on a throne, holding economic sway over 13 million loyal subjects, King Cotton was a liberal and lovable old character. Playing the part of a pensioner, however, he has not protected his future very well. Abnormal circumstances call for emergency measures, of course, but King Cotton deserves to rule instead of pass the hat and his friends should work to promote him.

People who know even a little about cotton as an industry want that crop to rule southern agriculture for several years after the war, at least. They have a good reason that is patriotic and unselfish. Cotton normally provides more jobs than any other industry and work is essential to national prosperity. A cotton depression could blast this whole nation's post-war hopes.

The "Parity" Plan.

"How," you may ask, "can a single industry get in enough trouble to bring on a depression?" Answer: Simply by losing its markets. Normally, be it remembered, half the cotton raised in America is sold abroad. But Brazil, China, India and Russia, coming cotton countries, are taking our foreign markets by selling for less. They plant their best level lands to cotton and produce it cheaply.

The U. S. has plenty of rich, level land too but foreigners understand us because our price is phony; pegged to a one-mule crop on a ruffy hillside, worn out with 100 years of cotton, will pay Government invented "parity price" trying to help the grower buy as much with a bale of cotton now

as in the five years before World War I, then to prop the sham price, loaned 90 per cent on cotton security.

Cotton's Arch Enemy.

The result is well known. The government took America's cotton but the foreigners took America's customers and, unless we can get them back after the war, we will never sell half as much cotton as we are raising now. Even the home market is in danger. New fibres like rayon are cheaper already than the best of cotton and scientists are improving them every day. Nothing can save the U. S. cotton business after the war but ability to sell successfully in world markets.

Frozen acreage has run its course. Price subsidy will have served its purpose before the war is over. Dependence is business suicide to any farmer. I am convinced that the Southern planter's wisdom and Yankee ingenuity can be relied upon to put King Cotton back in power where he can create wealth, pay good wages and laugh at Asia and South America.

Back in Competition.

For more than a century it has been an excellent thing for this country to have cotton in the South, spread out over 11 million acres of land, employing 13 million people. These people buy a lot of what other American farmers grow and sell half of their own production to Europeans. Thinking of post-war jobs, the South and its cotton is still a pleasant prospect.

Three things need prompt government action: (1) Encourage planting cotton on land where a crop is possible, where it can be chopped (perhaps even picked) by machinery. (2) Get ready to meet any price named anywhere in world trade. (3) Sell that hard-earned fibre. Uncle Sam would look pretty silly after the war holding a shirt-tail full of cotton in a rayon shirt.

THIS IS A \$500,000,000 HOLE IN THE GROUND

THROUGH this opening into a high hill in West Virginia, one of America's richest treasures is now being drawn into daylight. Over fifty miles of railroad track will be required behind the hole in the hill to lap its vastness.

More than 1,500 miners working for the next hundred years will be needed to wrest all of the carbon from its hideaway where it has lain untouched since it was a pasture for dinosaurs millions of years ago. It will be a bigger excavating job than digging the entire Panama Canal, the Birmingham Coal Institute states. At present wage rates the miners, engineers and others who

do the job will eventually get over \$400,000,000 in pay.

As the storehouse of energy that lies beyond this small opening in the ground is mined and harnessed to machines, it can produce over 10,000,000 horsepower-hours every working day for the next century. Now the energy that is starting to be claimed from beneath the hill that houses it is vitally needed for power and materials to build tanks for dinosaurs, ships, ammunition and drugs such as the sulphur.

This \$500,000,000 hole in the ground is the portal or entrance to one of America's largest bituminous coal mines.

Patriotism Separates Pastor, Parsonage Partner and Parish

PALL RIVER, Mass.—North Methodist Church of this city recently contributed both the man in its pulpit and the lady in its parsonage to the war effort. On the same day that the Rev. Raymond T. Matheson, 29, received his commission as a First Lieutenant in the Army Chaplains Corps, his wife, Elizabeth Rowell Matheson, formerly of Haverill, Mass., was sworn in as a Private in the WAC. Chaplain Matheson was brought up in Lawrence, Mass., and educated at Boston University.

So far as is known this is the first instance of a minister and his wife joining the colors at the same time. He is now in Chaplains School at Harvard University. She is in Fort Oglethorpe, Ga.

MRS. W. R. HUESTIS HOSTESS TO GROUP.
 Mrs. W. R. Huestis was hostess when group one of First Christian church council met in her home Tuesday afternoon. The hostess opened the meeting with prayer by Mrs. G. W. Troxell. Mrs. C. R. West brought an interesting devotional from the Book of James and also brought an article, "Foreign Missions Go Forward in War Times," from World Call magazine. Mrs. Huestis presided over a short business period in which routine business was transacted.

A social hour followed and refreshments of ice cream and cake were passed to Mrs. George Atkins, Mrs. Sam Kimmell, Mrs. C. R. West, Mrs. Fred Steffey, Mrs. G. W. Troxell, Mrs. Lloyd Surles, Mrs. Rex W. Moore and Mrs. Huestis.

MISSION PROGRAM ON "MID-AMERICA."
 Circle four was in charge of the mission program held by women's missionary union in the lower auditorium of First Baptist church Tuesday afternoon. Mrs. C. A. Williams, mission program chairman, was in charge and opened the meeting with group singing, followed by prayer. Mrs. W. I. Ghormley brought the devotional using Psalm 96 as a scripture basis. Others taking part were Mrs. H. B. Hensley and Mrs. Wm. Isenhower.

A chain of prayers for the mission work in mid-America and for the revival services closed the meeting.

MRS. O. C. LOMAX HOSTESS TO CIRCLE.
 Circle four of First Methodist women's society of christian service met Tuesday afternoon in the home of Mrs. O. C. Lomax. In the absence of Mrs. W. A. Cox, program chairman, Mrs. Leslie W. Seymour was leader of the afternoon program. Mrs. S. H. Nance brought the devotional on "The Need of Prayer for a War-torn World" and closed with a poem

by Louise M. Campbell. A round table discussion on the "General Welfare of Our People" was directed by Mrs. Seymour.

Mrs. John Shertzer, a visitor, made announcements pertaining to the work of the society. Mrs. J. J. Porter conducted the business session. Minutes were read by Mrs. O. C. Lomax and Mrs. Wm. Joyner gave the treasurer's report.

During the social hour the hostess passed refreshment plates to Mrs. J. J. Porter, Mrs. Leslie W. Seymour, Mrs. M. E. Frye, Mrs. S. H. Nance, Mrs. Floyd Harrelson, Mrs. John Shertzer, Mrs. Wm. Joyner and Rev. Leslie W. Seymour.

MRS. JOE WILSON CIRCLE HOSTESS.
 Mrs. Joe Wilson was hostess Tuesday afternoon to members of circle three of First Methodist women's society of christian service. Mrs. C. E. Paul was in charge and directed the program in the absence of Mrs. Wm. H. Cole, who is out of the city. Sentimental prayers by the group opened the devotional period, following which Mrs. Paul brought two articles, "The Shadow of the Cross," discussing the picture by William Holman Hunt and "Scripture and Science."

A short business session was held in which minutes of previous meeting were read by the hostess. Other routine business was transacted and the meeting closed with the Lord's prayer.

A social hour was held and a visitor, Mrs. Ernie Wilson of Coleman, was welcomed. Refreshments of ice cream and cake were passed by the hostess.

NEWCOMER—By way of a change from pictures of war and devastation here's a photo of screen newcomer Barbara Hale. She's what her press agent calls the heavenly part of movie "Heavenly Days" in which she has role.

Times Are Changing Fast--
 ... and so are governments, religions, economic principles and even human nature, whether we like it or not. Likewise, revolutionary changes have taken place in the field of land titles. In the old days most titles were simple and good, but today the records are voluminous and the changing times have clouded many titles. So don't buy real estate without knowing something about the title and always insist on a dependable abstract.

BUY WAR BONDS

"The children are having fun. They are going to toast weenies over the fire in the back yard. They wanted me to drive them to the river but they didn't murmur when I explained we were saving gasoline for the war effort."

Did you know that—

Fighter planes need some 100 gallons of high octane gasoline every hour; heavy bombers, more than 200 gallons?

Gasoline Powers the Attack
 ... Don't Waste a Drop.

HUMBLE
 OIL & REFINING COMPANY

Serving your essential war time needs today to hasten your motoring pleasures of tomorrow.

HUMBLE

FARM BUILDINGS AND EQUIPMENT
 You Need for Full Production

BROODERS
 The portable 200 chick brooder house shown in illustration is built and constructed so you can use it as a small brooding house for approximately 30 hens.

HOG HOUSES
 The "A" type Hog House shown in illustration is built of heavy, fire-resistant material, easily cleaned and easily moved. Also it is economical to build.

EQUIPMENT
 Lumber built farm equipment, such as self loaders, feed racks, etc., are economical, durable, and easy to use. They are available in your right size. Quick and simple to build, they increase your farm production income.

INSULATION AND REPAIRS
 Insulation is easy to install yourself. It is available in rolls in the winter—keeps heat in the summer. We have the quality Insulation in concrete blocks and egg production from providing evenly heated quarters.

★ Your job of getting top production, and most farmers are doing it short-handed, requires time-saving, labor saving equipment as well as good chicken buildings.

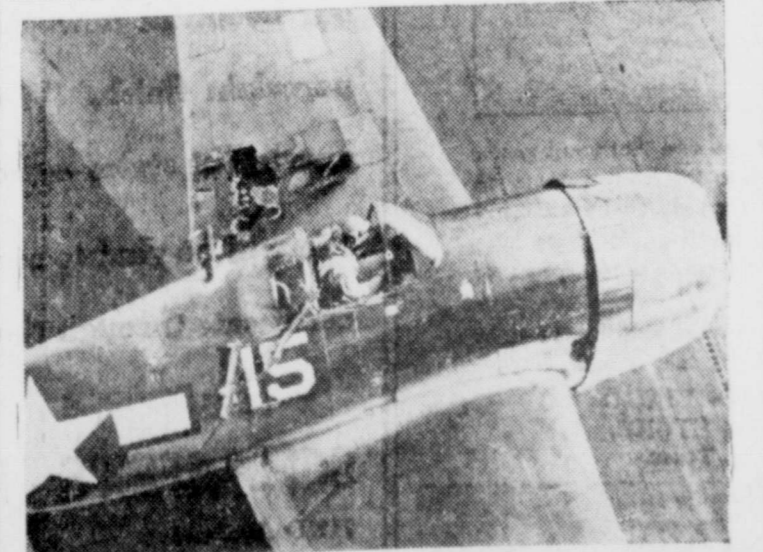

We are ready to help you in every possible way, with ideas, plans and materials. Build the equipment you need now and make necessary repairs before they grow serious.

No Cash Needed

Rockwell Bros. & Company.

PRETTY AND PERT—Both those terms refer to Agnes Weyrauch, right, Acme Newspictures copygirl chosen "Miss Copygirl of 1944," to reign at American Newspaper Guild annual Page One ball, in New York, June 10. Title gives her \$400 fur coat. Comedian Milton Berle, all snarled up in copy, at left.

REGARDLESS OF ACK-ACK—More than anti-aircraft fire is needed to stop Navy pilots from getting through. Here flier returns to flat-top with ack-ack holes in wing of his scorched Hellcat. Radio antennae posts behind cockpit are shattered. (U. S. Navy Photo.)

If you could see what's happening over there

Big things are happening over there. And big things are moving faster here. War needs the wires more and more every day.

So if you are making a Long Distance call over war-busy circuits, the operator may say—"Please limit your call to 5 minutes."

That's to help more calls get through during rush periods.

SOUTHWESTERN BELL TELEPHONE CO.

BRIEFLY TOLD

Hugh Ledford of the navy, former Cisco high school student, who is visiting his parents, Mr. and Mrs. Sam Ledford in Abilene, visited here Saturday night and Sunday accompanied by his friend C. E. Packer of Abilene also an ex-Ciscoan.

Born, to Mr. and Mrs. Weldon

Gall Bladder Sufferers Told to Avoid CONSTIPATION

Try Hot Water and Kruschen Salts Before Breakfast for 5 Days

In a glass of hot water put one teaspoonful of Kruschen Salts and drink about half an hour before breakfast. In 15 to 20 minutes later follow with your usual breakfast cup of hot coffee or tea. Usually within an hour you get prompt and effective relief and should begin to feel bright and refreshed again. Be sure to follow the simple easy directions.

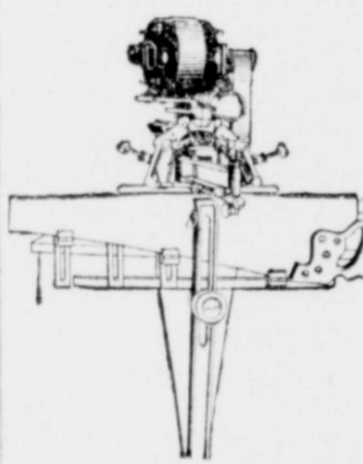

Now keep this up for 5 straight days—just see if you too don't discover why thousands have found hot water and Kruschen Salts so beneficial in relieving that "dull" constipated "out-of-sorts" headachy feeling. Get Kruschen Salts today—all drug stores. Over 25 million bottles sold in the past 100 years—it must be good.

EVERY INVASION STARTS IN A FREIGHT YARD!

It is in the freight yards of the American Railroads that the supplies for every invasion start rolling. It is here that car after car is loaded with cargoes of deadly weapons, foods and supplies to keep the Yanks fighting.

In the high tide of invasion, both from the east and the west... more men will go into action. The problem of keeping them supplied

and equipped will double and triple. And carrying these materials to our troops will become a bigger job every day for the railroads.

You can count on the Texas and Pacific to do the FIRST job FIRST—to expedite troop movements and to rush essential war shipments. And then—we will do our best to serve, to the best of our ability, all civilians who must travel.

Not Rationed

LOOK AHEAD

to winter heating needs

Under rationing regulations you're more likely to find during these summer months the new gas heating equipment you need for next winter's comfort.

This is because OPA certificates for the purchase of gas room heaters are issued on a monthly quota basis to those who can qualify. During summer months there are fewer applications for these certificates. So you're more likely to secure one now when the equipment is also available. Floor furnaces are ration free.
