REDS START MARCH TO BERLIN

CLYDE GARRETT ENTERS CONGRESS RACE

The Eastland county friends of former Congressman Clyde L. Garrett of Eastland have authorized the Daily Press to announce that he is a candidate for congress, subject to the action of the Democratic primary.

Mr. Garrett served in congress two terms—from 1937 to 1941, Congress being in session in 1940.

CLYDE L. GARRETT.

passing war legislation, Garrett did not return to make a campaign—he stayed on the job. He was defeated by a very small majority.

At Request of Friends.

Since 1941 he has been engaged in public relations work in Washington. He has been associated with the office of Jesse Jones, secretary of commerce, and in the executive office of the president. In performing his important wartime duties, he frequently contacted the president, the vice president, members of the cabinet, members of the house of representatives and the senate, ambassadors of the United Nations and the personnel of the various foreign embassies in Washington.

Mr. Garrett entered the race for congress at the urgent request of his many friends in the 12-county district who feel that his long experience, his ability and intimate and highly practical knowledge of national and international affairs qualify him to act more ably and efficiently in these most momentous days in the nation's history.

GORMAN MAN ARRESTED ON DEATH CHARGE

J. T. Hamrick of Gorman has been arrested on a charge of murder and is being held at Carlsbad, N. M., until the arrival of John Hart, Eastland county sheriff, who left for Carlsbad Saturday morning.

The charge against the Eastland county man—an oil field worker and about 35 years old—grew out of the death Wednesday night at Tallulah, La., of Lt. Col. Roy Mitchell, 43, former American Airlines executive, but who recently returned from ATC duty in India.

Sheriff Hart said his investigation disclosed that deceased was struck over the head with a heavy instrument during a fight at a party held in a Gorman home, and the complaint filed with J. T. Chapman, justice of the peace at Gorman, fixed the date of the affair as about June 8.

Funeral services for Mitchell were held at Tallulah Friday, he having died in a hospital at Jackson, La., following a brain operation to relieve concussion.

MRS. PARKER DIED AT LOGGICAL HOSPITAL

Mrs. Willie Frances Parker, 68, wife of J. E. Parker, 1609 D avenue, died Friday afternoon at Graham Sanitarium after an illness of three days. The family moved here from Lubbock about six years ago.

Thomas funeral home has charge of the body and funeral arrangements will not be completed until word has been received from sons serving in the U. S. navy. Rev. Cooper Waters will conduct the funeral.

Mrs. Parker was born September 22, 1876, in Mississippi, and was married to Mr. Parker, July 20, 1904, at Groesbeck, Tex. Before her marriage she was Miss Willie Frances Johnson. She was a member of the Baptist church at Teague.

Survivors in addition to the husband are five daughters and three sons, as follows: Mrs. E. Hooks, Cisco; Mrs. Robert Clark, Mrs. A. B. Lewis, San Angelo; Mrs. R. A. Whitaker, San Francisco; Mrs. W. K. Cooper, Lubbock; sons, D. T. Parker, Pampa; George L. Parker and W. L. Fielder, U. S. navy; L. N. Johnson of Clyde is a brother and Mrs. Laura Simmons of Electra is a sister. There are also ten grandchildren and three great grandchildren.

CISCO LEGION WILL CHOOSE NEW OFFICERS

John William Butts Post, American Legion, will meet at the Hut Monday night for the election of officers. Places to be filled include those of post commander, vice commander, adjutant, service officer and chaplain.

At present the office of vice commander is vacant. Sim Ledford was post commander, but when he moved to Abilene some several months ago, J. T. Eggen, then vice commander, automatically became commander, which left the office of vice commander vacant.

J. T. Eggen, J. R. Wright, Rex Moore, Billy Huestis, Doc Cabaness, Leon McPherson and H. N. Lyle, who are classed as active members of the local post, urge all members to be present Monday night and take a hand in the selection of post officials.

UNION SERVICES TO START NEXT SUNDAY

Plans have been completed for the usual Sunday evening lawn services sponsored each summer by the Christian, the Methodist and the Presbyterian churches, to begin next Sunday (8 o'clock) and continue through July and August, meeting on the Methodist lawn.

George Boyd has been chosen as president of the committee in charge, with George Downie as secretary and Guy Ward as treasurer.

Joe Clements, R. W. Merket and C. R. West are the committee on arrangements.

S. H. Nance, H. C. Henderson and L. A. Warren will have charge of the ushers.

The music will be under the direction of Ernest Hittson and Miss Ella Andrus.

YANKS RAID ROMANIA.

LONDON, June 24.—Berlin radio declared that U. S. heavy bombers attacked Romanian oil centers Saturday.

GOING INTO HOUSEKEEPING—Members of advance contingent of WACs on New Guinea, these girls set their barracks in order while waiting for other members of outfit to join them. Taking it easy with a magazine while the other girls work is T/4 Minnie Holben.

WELL-EARNED REST—Yanks in France haven't had much time lately to do anything but the grim job of killing Nazis. But here, a group of GIs gets a few moments to relax. PFC Jerry Casillo of Buffalo, N. Y., cleans his rifle, while most of the other boys try to catch a few winks.

A. B. CLOUD LOST LEG IN RAIL WRECK

A. B. Cloud, well known Cisco man, and fireman on a Katy equipment train, lost a leg and received other injuries late Friday when the equipment train collided with a Houston-bound Katy passenger train between Bastrop and Dunston.

There was a street rumor in Cisco late Saturday that Mr. Cloud had died at an army hospital at Camp Swift, where he was taken for treatment, but the rumor could not be verified.

Mrs. Cloud, the wife, left Friday night for Camp Swift to be with her husband.

J. E. Chennault, fireman on the passenger train, was instantly killed when the trains collided and several other Katy employees were injured, it is said.

EDITOR FEELS BLALOCK OUGHT TO GET OUT

MARSHALL, June 24.—Myron G. Blalock, national Democratic committeeman, said he has "no comment" regarding a request from Editor Henry Humphrey of the Texarkana Gazette that he resign as national Democratic chairman for Texas or as national committeeman for the pro-Roosevelt group.

Humphrey's message to Blalock said, in part:

"... differences between Texas Democrats and New Deal bolters being irreconcilable, manifestly it is impossible for you to serve as national committeeman for both groups. Your resignation from one or the other is indicated."

HAPPY DAY—Joyously welcoming Allied soldiers, group of freed French at small cafe in Normandy toast the RAF, now taking off from nearby fields. Happy expression on face of villagers shows their feelings at seeing the tri-color again waving over their town.

BIBLE SCHOOL A SUCCESS.

The union daily vacation Bible school at the First Christian church, participated in by the Methodist, Presbyterian and Christian churches, had a very fine beginning and large enrollment this past week. It will continue each afternoon this week from 4 to 6 o'clock. Many who were not able to attend the past week are expected to enroll for the last week. The school will close with the meeting of Friday afternoon.

DEWEY IS IT, BUT NO ENTHUSIASM

WASHINGTON, June 24.—Administration and other Democratic politicians watch the Republican convention with more interest than they'll confess. What's done at Chicago will influence their own calculations on foreign and domestic policy, political strategy. Here's the Chicago picture as it shapes up now: Republican motif is harmony and dispatch. Plans call for adoption of a platform agreeable to all without serious bickering; nomination of Dewey first ballot; nomination of a vice presidential candidate, still undetermined, on first ballot; hearing Dewey deliver his acceptance speech Thursday night; hurrying home to get to work in the precincts.

Tents of the opposition to Dewey are already being folded. The New Yorker's position will be cinched with Sunday night caucuses of Pennsylvania and Texas delegations (both big states will plump into the Dewey column) and Monday morning caucus of California, which is expected to show Dewey the delegation's favorite. Chicago reports evident lack of Dewey enthusiasm in some quarters, but no leader dares raise his head to organize opposition, so well have Dewey lieutenants played their cards.

Only important question still unanswered as convention assemblies is vice presidential nomination. Dewey's first choice is Warren of California. Warren has been unusually resistant and his friends say he really means it. But he'll be subjected to heavy pressure. Best guess is that he'll accept, ultimately.

Republican leaders face convention in sober, serious mood. War developments overshadow their deliberation. They show no over-optimism about November, realize a tough fight is ahead. Political development most encouraging to Republicans is revolt against Roosevelt in Texas, Mississippi, South Carolina. Leaders count the effect as of now largely psychological, a notification to voters elsewhere that Solid South (basis of Democratic victory in year out strength) is full of resentments against New Deal philosophy. Realists, however, do not count on Republicans carrying any Solid South states. Only hope is that electoral college tangle will cause confusion redounding to their benefit.

Demand by Sen. Lucas that Oliver Lyttelton, British production minister, be fired from the Churchill cabinet for his remarks on Pearl Harbor, is taken here to mean that the Administration wants no further cracks from the British before election. Some Capitol observers think that Churchill may no longer feel re-election of President Roosevelt is essential to the Allied cause. Others go farther, believe the British might even prefer a Republican—on the theory that Roosevelt would have a hostile congress.

BROTHERHOOD PICNIC.

The Brotherhood of First Baptist church will have its regular monthly meeting at Lake Cisco park Tuesday evening at 7 o'clock, with each member bringing his own steak, plate and cutlery. The Brotherhood will furnish the bread and soft drinks, and the member will cook his own steak. Following the fellowship program a business meeting will be held.

CHERBOURG MAY FALL TODAY; M'ARTHUR AIRMEN HIT JAPS 600 MILES FROM PHILIPPINES

MOSCOW, June 24.—Red armies, clamping a siege are two thirds of the way around the White Russia fortress of Vitebsk, drove toward a junction today in the first phase of a Soviet summer offensive on the same route that another Russian Army took to Berlin 164 years ago.

The enemy's last reinforcements radiating from Vitebsk were cut yesterday in the first 24 hours of the offensive, which carried through powerful fortifications both northwest and southeast of the city and liberated more than 150 towns and villages.

Three secondary roads running southwest from Vitebsk remained in German hands, but these were being pounded by scores of Soviet planes and guns and appeared in imminent peril of being cut by the converging Russian armies seeking to encircle the fortress.

The offensive set in motion the third phase of the master plan agreed upon by President Roosevelt, Prime Minister Churchill and Premier Stalin at Teheran for defeat of Germany and brought Adolf Hitler's fortress under attack simultaneously from the east, west and south.

LONDON.—American shock troops broke through the main German defenses outside Cherbourg today and drove within a little more than a mile of the city limits, a front dispatch filed at 8 a. m. reported, adding that the fall of the city was considered imminent.

German troops were surrendering by the hundreds, and during the night they offered very little artillery and small arms fire to impede the American advance to heights overlooking the city, where resistance was slight.

The rate of the enemy surrender, coupled with the failure to react to the breaching of the Cherbourg defense perimeter, indicated the rapid deteriorating of German morale and ability to defend the fortress Cherbourg much longer.

One newspaper correspondent said: "The city can hardly hold out through Sunday."

The German High Command said that fierce hand to hand fighting for Cherbourg developed yesterday and last night, and the Americans captured several strongholds "to advance further toward the fortress."

"Fighting for Cherbourg now is raging between the defensive belt and the town," the German Transoceanic News Agency reported. "The Americans have succeeded in piercing the outer defense chain of the town at three points."

PEARL HARBOR.—The Japanese faced the most critical stage of the Pacific war today with five of their aircraft carriers disabled—at least two of them probably sunk—as powerful U. S. forces prepared to launch attacks on Japan itself.

Adding to the destruction inflicted by U. S. forces Monday, Admiral Chester W. Nimitz disclosed that one of Japan's largest and newest aircraft carriers, of the 20,000-ton Shokaku class, probably was sunk Sunday by an American submarine which sent three torpedoes into the flattop.

The new carrier brought to 15 the number of enemy warships sunk or damaged in two days of action between U. S. Pacific forces and the Japanese in the Western Pacific.

While Japan was drawing its forces together in anticipation of new blows from B-29 Super-Fortresses or Vice Admiral Marc A. Mitscher's Task Force 58, Gen. Douglas MacArthur's Southwest Pacific air force delivered another stinging attack on enemy shipping off the western end of Dutch New Guinea, 600 miles from the Philippines.

Mitchell medium bombers, in the third heavy strike in a week on the Scrong area, sank or damaged six Japanese ships and three barges Thursday, MacArthur announced. All but one—a 3000-ton freighter—definitely were sunk, and the big merchantman was listed as "sunk or damaged."

ROME.—American armored forces drove six miles through German mountain positions inland from the Tyrrhenian Sea and captured Roccastrada, threatening the flank of Nazi forces fighting a strong delaying action around Lake Trasimeno to the east, it was announced today.

The seizure of Roccastrada by the American forces pushing up Highway 73 opened the way to key road junction of Siena, 23 miles to the north and only 32 miles below Florence, the next major objective of the Italian campaign.

Another column of the American units on the left wing of the Allied Fifth Army struck up the coastal highway to the gates of Follonica, 12 miles west of Giuncarico and 55 miles below Pisa, anchor of the next German defense line across the peninsula.

The Nazis were putting up stubborn resistance against the British Eighth Army on either side of Lake Trasimeno in the region of Chiusi, which had changed hands a number of times, and above Perugia to the east.

MAKE CANDIDATES SHOW COLOR.

It is time for the citizens of the United States to realize they are approaching the MOST CRITICAL NATIONAL ELECTION IN THE HISTORY OF THIS NATION.

Basic principles are involved which affect the continuation of our constitutional form of government. They are in no way connected with Republican or Democratic partisan issues.

The war American young men are fighting is non-partisan, their main thought being to put down ruthless aggressors and maintain the most wholesome form of government the world has ever seen. If, while doing this they can enlarge the liberties of others, well and good. But no sober, practical-minded soldier believes for an instant that we can extend the American way of life to all the small nations of the earth and guarantee them overnight the same liberties and freedom we have enjoyed for so long under the Stars and Stripes and our free-enterprise system. Only the ambitious professional politician is making this claim and holding out this lure for votes as election time nears.

For more than a decade, Republican and Democratic politicians here at home have been promoting so-called "emergency measures" which have bit by bit been restricting the individual in many phases of his daily life. The necessities of war have accelerated this movement, and now it is becoming more evident each day that many bureaucrats in both parties, who have gained a liking for government controls exercised over the individual, are "processing" the people through publicity and propaganda and UTOPIAN PROPOSALS AT GOVERNMENT EXPENSE, to extend centralized government control permanently or as far as possible into the postwar era.

Anyone who wants to read, can see a deadly parallel between this sugar-coated process and the one which engulfed European peoples and made them slaves to an official aristocracy. How often do you hear a candidate for political office come out and unequivocally praise the United States, its constitutional form of government, the liberties its people enjoy, the luxuries and necessities that have been delivered to them by our industries in a measure exceeding that enjoyed by any other nation? Too many candidates for public office assume that our philosophy of government and private enterprise have outlived their usefulness; that they must be curbed, changed and controlled; that government must become the dominant factor in our daily lives and that we must ape the teachings of some foreign nation that has brought nothing but misery and disaster to its people.

This process must be reversed. The people must demand men in public office who are proud of the American system. Men who do not give it lip service one minute and in the next breath propose measures that would restrict individual opportunity.

The United States was built on the principle of a government being best which governs least; on the principle that public officials are the servants, not the masters of the people; on the principle that government confine itself to the functions of governing and not enter into activities which compete with the livelihood of the citizens which it taxes. These are basic ideals. They are what our boys are fighting for. Labor loses its independence when government goes into business. The business man loses his independence. The boy in school loses his future opportunity. When the government becomes the master, the people become the slaves.

These are fundamental issues on which every candidate for public office on any party ticket should be forced to express himself. In a hundred ways, warning flags are flying to arouse our people to the inroads that are being attempted on American liberty. As war measures, we will accept any hardships and restrictions necessary to bring victory. But now, as never before, we must safeguard our future by rejection proposals and candidates that insidiously undermine the ground on which individual liberty and opportunity stand in this nation. You can't accept state socialism, even in small doses, and retain your independence. In the coming postwar era, our people must be the master not the servants of our government. Never in our history was this issue of such paramount importance as in the coming election.

Garrett--

(From Page ONE)

Garrett declares in announcing his candidacy, "is the most important object of our people. To this end if elected, I pledge my wholehearted support."

Garrett not only has a broad knowledge of the weighty problems facing the nation during war, but he also intimately and sympathetically understands the innermost personal feelings, desires and anxiety of the millions of Americans who have loved ones serving in the armed forces. His only two sons—Lieut. Carl Garrett, a veteran of eighteen months' duty, somewhere in the southwest Pacific with the navy; and Sgt. Clyde Garrett, Jr., of the army air forces—were serving their country. Both volunteered.

Veterans' Hospital.

"Those who win the war, those who are risking their lives and enduring unbelievable hardships

as they engage in combat with our enemies deserve our full consideration," Garrett stated. He favors for our veterans prompt and adequate provision for their hospitalization and medical attention, completion of education or vocational training, government loan at 2 or 3 per cent interest to purchase or improve homes, farms or business establishments, and every assistance in securing desired and suitable employment. Garrett believes that our fighting sons should be re-hired, by former employers, after discharge from service, and that service men should be given first consideration in all post-war employment. He also advocates that suitable provision be made for recuperation of veterans near their homes and relatives and that well-equipped clinics and hospitals be made available to every section of the nation. He believes in decentralizing veterans' hospitals after the war;

that instead of a dozen huge hospitals for wounded veterans, with thousands of beds each, several hundred smaller establishments should be built as clinical and recuperative centers for the expected vast number of casualties. These 100 to 300-bed hospitals could be scattered about the country, roughly in proportion to the number of soldiers from each section, making it possible for all sections of the country, except the most sparsely populated, to be fifty or seventy-five miles from a well-equipped hospital. After specialized treatment for the critically wounded cases and for less seriously wounded, the veterans would be transferred to the smaller hospitals in their home locality. The advantage and satisfaction to the veteran and the convenience and consolation to relatives and friends, of being near home, cannot be overestimated. For the lower-income people, visits to wounded loved ones would be impossible unless a plan like this is adopted, because of travel expense involved. As beds in these hospitals are vacated, either through recovery or death of veterans, the hospital will become available to the community.

For Old Age Pensions.

Increasing the old-age pension is another objective of Garrett who states that the \$30 per month payment, the amount voted by the people, should be the very minimum. He favors removing unnecessary and unreasonable red tape and all discrimination against old people, believing that every applicant should be treated fairly and alike. He emphasizes that the plight of these old-age pensioners is today similar to that of the fixed income groups—the cost of living has already increased more than 25 per cent, but the pension checks remain low.

"Though I favor an adequate pension for the aged," Mr. Garrett stated, "I am unalterably opposed to 'pensioning congressmen' after they retire or are defeated as provided by a bill recently passed by congress. (It having passed the house without a dissenting vote), authorizing the payment of more than \$350 per month for life, for those serving long terms. Both of our senators voted against this bill—I voted against a similar bill while I was in congress. I think congress acted wisely in repealing this law.

Durable Peace.

"Furthermore," Garrett asserts "the winning of a just and durable peace is as important as winning the war itself. Only by preventing another World War in future years can we spare another generation of young Americans the horror, suffering and death which the present generation is enduring to preserve freedom and the American way of life."

"When such a peace is achieved," Garrett states, "it can be preserved best by a strong association of peace-loving nations, through the promotion of closer and friendlier relations among nations and by maintaining a navy as great or greater than any on the face of the earth, together with a mighty army and air force. We must never again be unprepared," Garrett declares, "but must always be ready to defend our freedom."

Jobs for Veterans.

For employment after victory, Garrett favors permanent and worthwhile projects of lasting benefit — such as a carefully-planned nation-wide system of highways; hard-surfaced farm-to-market highways; and an extensive soil conservation and flood control program; aid to towns and municipalities in providing adequate water supply and sanitation, and assisting school districts in improving and constructing necessary buildings. Such projects would provide employment for the veteran, war worker and others.

Low-Income Groups.

He advocates rendering immediate aid to the distressed low and fixed income groups — school teachers, office workers, clerks, etc., whose earnings continue to remain at near pre-war levels while the cost of living has increased tremendously. Garrett points out that this is a deplorable

situation and that some provision should be made to alleviate the pressure which is now bearing heavily upon millions of Americans who are living in a "borderland between subsistence and privation" in these low and fixed income groups.

Surplus War Materials.

Regarding surplus war materials, Garrett advocates that immediate steps should be taken to avoid the mistake made following World War I when such surpluses were acquired by a few speculators — this should not be permitted again. The acquisition of such surpluses and dumping them on the market would be calculated to upset our national economy and also increase government competition with private business.

"I believe," he said, "that our farmers, stockmen, states, counties, and cities should be given the preference in purchasing such material as they can use, and that this material along with idle government-owned war plants should be sold to the highest bidder rather than at private sale to those having political influence. Furthermore, that these materials may be purchased in the states without having to go to Washington to obtain them."

Select Own Doctors.

Mr. Garrett is opposed to legislation now pending in congress providing for the raising of 3 1/2 billion dollars annually, from payrolls mostly, to provide medical care by the government, which would destroy the effectiveness of medical care in the United States. This legislation proposes to place in the hands of one man, the power and authority to hire doctors at fixed salaries to provide medical service; to designate which doctors may be specialists; to determine the number of individuals for whom any one physician may provide service; to determine arbitrarily what hospitals or clinics may provide services for patients.

Medical attention and hospitalization should, of course, be made available to and placed in the reach of every one. In fact, both are now available under the American Hospital association's Blue Cross plan for voluntary group hospitalization. I believe that our people desire that medical care for their sick be provided by their doctor—not by bureaucrats or politicians.

Boards and Bureaus.

He advocates the abolition of all unnecessary Boards and Bureaus and insists that operation of those retained be strictly confined to the law and constitution.

"In the present emergency," Garrett points out, "it is necessary to have some bureaus. However, at the earliest practicable date, we must abolish them and return to our status prior to the war. If bureaucracy continues to grow and thrive after the war, our nation is doomed. Let us put the bureaucrats on notice NOW that their positions are not permanent."

Garrett stands for equality and uniformity of freight rates and will support and work for legislation as will achieve a fair adjustment. He favors reducing subsidies to the minimum and instead give an honest and fair price to the farmer, stockman, dairyman and oil man for what they produce.

Rural Homes.

"To encourage the improving

and building of rural homes, where farmers have sufficient equity in their land to adequately secure a loan — when funds are not available through other sources," Garrett says, "I favor government credit to farmers and producers, from one to three thousand dollars, on a long-term basis and at a low-rate of interest—2 or 3 per cent. Such a program would not only encourage living on the farms but would provide additional employment after victory."

the last year of which he was president of the county judges' and commissioners' association of Texas.

"I want to thank the people of the 17th district for their great interest in my candidacy," Garrett

said. "I am basing my candidacy on the pledge of rendering the highest type service to my constituents, to my country, and to be gallant fighting men. Your support and influence in my behalf will be deeply appreciated."

Times Are Changing Fast---

... and so are governments, religions, economic principles and even human nature, whether we like it or not. Likewise, revolutionary changes have taken place in the field of land titles. In the old days most titles were simple and good, but today the records are voluminous and the changing times have clouded many titles. So don't buy real estate without knowing something about the title and always insist on a dependable abstract.
