## VISITING MINISTER TALKED AT LUNCHEON

New officers were in charge of the Lions luncheon and business meeting today when Dr. Glenn Maxwell of the Presbyterian church at Lake Cisco was introduced by Rev. O. L. Savage as the speaker for the program. Jack Anderson had charge of the program.

At the beginning of the meeting, Jay Garrett, assistant treasurer, who overpowered by some members and handcuffed to a radiator during his attempt to impose dues on recalcitrant members.

President Carlos J. Turner presided, it being his first time to sit at the head of the club since his inauguration last week.

Dr. Maxwell spoke on Pan-American relations with the United States, comparing them with that of other countries, especially Germany, to our disadvantage. The speaker spent some years in Brazil as a missionary for his church and is able to get a perspective of the Latin races of the South American continent. He understands their viewpoint in trade and good neighbor relations.

Speaking of blunders made by our country, he said that we usually went with a high hand and the usual snap of the Yankee trader everywhere, whereas the German representative first learned to speak the language and then lived among them, trying to lose his individuality as a foreigner and endeavoring to take on the personality of a native; while on the other hand, our former representatives did not even speak the Spanish language but had to have an interpreter.

But, thanks to our more recent efforts and study, this has been changed and we are weaning these Latins away from their German friends and bringing them gradually to an understanding of our ways and ideals. They are losing their fears and distaste for our brusque manners, while we are learning to trade in their own patient way.

Members expressed their appreciation for the talk of Dr. Maxwell and also for the presentation of the program by Mr. Savage.

## GREAT MINISTER BE HEARD OVER RADIO

Dr. George W. Truett, venerable and beloved pastor of Dallas First Baptist church for the past forty-seven years and past-president of the Southern Baptist Convention and the Baptist World Alliance, will be heard in a series of transcribed sermons over station WFAA every Sunday morning 7:30 to 8 o'clock, says S. F. Lowe,

DR. GEO. W. TRUETT,

chairman radio committee, Atlanta, Ga. Mr. Lowe reminds that Dr. Truett has been the outstanding preacher of the South for more than a generation, and now that he is sick, the people everywhere are fortunate in having this rare privilege of hearing him by radio.

## CISCOANS URGED TO ACT, QUICK

Cisco Fifth War Loan Bond sales to and including July 4 total \$136,382.25, or \$28,217.75 less than the city's quota of \$164,600.

Of the \$28,217.75 yet to be sold, \$17,500 MUST be Series E bonds.

Citizens are urged to get busy at once and make up this comparatively small deficit, in order that Cisco may be on the right side of the bond ledger by Saturday noon, when the drive officially closes.

**Local Sales.**  
First Nat. Bank ..... \$100,182.25  
Palace Theater ..... 8,800.00  
Postoffice ..... 6,000.00  
Allocations ..... 21,400.00

\$136,382.25

**Chairmen Speak.**  
Cyrus B. Frost, county chairman, and R. L. Ponsler, Cisco chairman, this morning submitted the following joint statement:

"The Series E Bond is the most popular of all government issues that has been offered to the public during World War No. 2. It matures in ten years and for every three dollars put in you receive four dollars in return. This is the equivalent of about three percent straight interest. No other issue bears this high rate of interest. Should you need your money that you have put in these bonds, you can cash them sixty days after date of purchase. These bonds are in denomination of \$25 to \$1,000 and any one person may purchase during the calendar year 1944 up to \$5,000 maturity value, which would be \$3,750 cost price. Each member of the family may own and hold the full amount.

"Many citizens have not bought bonds yet in this drive and many citizens who have purchased, we feel sure, are able to increase their purchases manifold. The bonds are a good investment; they are safe and it is patriotic to buy them.

"All day yesterday, July 4, the morning papers tell us, our soldiers in Normandy, from dawn until dark, advanced under the most concentrated artillery fire ever recorded in the history of war. Many of them gave their lives that we may be free and in order to perpetuate here the American way of life.

"As good citizens let's wipe this deficit out before noon Saturday, demonstrating our love and helpfulness to those who survive and will continue to fight on, and as a memorial to our dead on the far-flung fighting fronts throughout the world."

**TRUETT NEAR DEATH.**

DALLAS, July 5.—The condition of Dr. George W. Truett, 77, pastor of the First Baptist church of Dallas, described as critical for more than a week, was unchanged today. Friends said no hope is held for his recovery.

**HOLIDAY DEATH TOLL.**

CHICAGO, July 5.—The death toll as result of July 4 holiday was 439 throughout the nation. Of these 140 lost their lives by drowning.

**STIMSON VISITS POPE.**

ROME, July 5.—Pope Pius XII received Secretary of War Stimson in audience today. Stimson entered Rome Tuesday aboard the first train to run into the capital since it fell to the Allies, and was greeted at a colorful ceremony.

NO CHEAP VICTORIES—The price of even a small victory is high and can hardly be computed for a major campaign like the battle for Saipan. Here, Marines pay their last respects to comrades who died in the fierce struggle for the key base in the Marianas. (U. S. Marine Corps Photo.)

LA BELLE FRANCE, or at least that part of it where Allies and Nazis are fighting it out, is shell shattered, eerie and gutted. Here, bleak ghostliness stalks the town of St. Jacques De Nehou as Allied troops march through to Barneville and Carteret.

## SHIRLEY COMMISSION MAN VISITED CISCO

J. R. Welch of the hog division sales department of Shirley Commission company, Fort Worth, has returned home after spending a few days in Cisco.

The Fort Worthian, a friend of George W. Wilcox and W. D. Brecheen of this city, is a great lover of fox hounds and was disappointed in not being able to take part in a bobcat or fox chase while on vacation; but it was impossible to arrange the hunt because of the dry weather.

Nevertheless, he enjoyed his visit and expects to return this fall for a longer stay. Welch is one of the live members of the Shirley sales department and visited with a large number of cattle and hog men of this area while here.

**GLORY BE!**

FT. WORTH, July 5.—Gene Williams hit golf's jackpot at Cedar Crest Country club yesterday by aing the 217-yard third hole. There were four witnesses—George Vann, Johnny Horton, Levi Lynch and Frank Martin. All bagged par threes.

MARINES DO IT AGAIN—Groping through smoke filled rooms in the barracks at Parris Island, Marine firemen rescued these five one-week old kittens. Getting first aid from a Pharmacists Mate and Hospital Apprentice the cats will no doubt enjoy their full nine lives. (U. S. Marine Corps Photo.)

## 168 BBLs. OIL IN 4 HOURS

The Nellie B. League No. 2, a Lone Star property and located 9 miles northwest of Cisco on the Moran-Albany highway, has been drilled deeper and yesterday made 168 barrels of crude oil in four hours, the Daily Press is informed.

Groove & Rose are the drilling contractors and the present depth of the well is about 3,975 feet.

The Nellie B. League No. 2 was drilled in as a gasser in October, 1929.

## SAM RUSSELL SAYS HE'S ON CIO BLACKLIST

STEPHENVILLE, July 5.—Out in the farm-dominated Seventeenth congressional district of Texas, which stretches over twelve counties between Mineral Wells and Sweetwater, the CIO political active committee is going to be a top campaign issue in the race of Representative Sam Russell of Stephenville for a third term in congress.

Opposed by three aspirants, two of them already politically known and the other a surprising dark horse entry, Russell charges he has been blacklisted by Sidney Hillman's CIO purge committee and that a whispering campaign has been launched against him.

His two top opponents, R. M. Wagstaff of Abilene and Clyde Garrett of Eastland, assert they know nothing of any CIO interest in the race, pointing to scarcity of labor vote in a district which is 60 percent rural in its population.

The fourth man in the race is Joe E. Fitzgerald, Stephenville farmer and nurseryman.

Russell is said to have incurred the wrath of organized labor by his sponsorship of legislation calling for a forty-eight-hour week for the duration and of a bill making it treasonable to formulate or direct a strike in a defense or war industry.

## WICHITA GOES AFTER VETERAN HOSPITAL

WASHINGTON, July 5.—Construction of at least one new veterans' hospital in Texas was assured when Brig. Gen. Frank T. Hines, veterans' administrator, announced a hospital building program to cost approximately \$70,000,000. Locations for the one or more hospitals to be built in the areas believed favored are the Gulf Coast section, probably near Houston, and the west central section probably near Wichita Falls.

Wichita Falls leaders, including Representative Ed Grossett, have been urging construction of a veterans' hospital near the city for some time and representations on its behalf have been made to the Federal Board of Hospitalization, which selects all sites for veterans' administration institutions.

## FALL OF KOWEL WILL ELIMINATE THE LAST AXIS STRONGHOLD EAST OF THE BUG RIVER

LONDON, July 5.—German forces have evacuated the Kowel sector of old Poland, 175 miles southeast of Warsaw, Nazi broadcasts said today, setting the stage for a Soviet pincers assault on the Polish capital.

Kowel, 120 miles across the pre-1939 Polish border on the Kiev-Warsaw railway, had been three-quarters encircled by the Russians since last winter, but there had been no recent reports of a new Soviet assault on the stronghold.

Ernest von Hammer, Nazi DNB News Agency military commentator said the Germans evacuated the "Kowel salient" south of the Priepet Marshes unobserved by the Russians "in order to take up new positions and enable the Germans to husband their forces and form more mobile reserves."

The fall of Kowel would eliminate the last German stronghold east of the Bug river, 1939 Russian-Polish border, on the south-central invasion route to Warsaw and Berlin at a time when other Red armies were rolling down the north-central route beyond Minsk.

PEARL HARBOR.—The campaign to wrest Saipan from the Japanese entered the final phase today as new strikes were reported against the Bonin and Volcano Islands, 650 miles from Tokyo, by a powerful U. S. task force which sank or damaged six enemy ships, including four destroyers, and knocked out 104 planes.

(A Japanese communique, broadcast by Tokyo Radio and reported by FCC, acknowledged that "powerful" American forces, supported by tanks, planes and warships, steadily was penetrating the Japanese positions on Saipan and said "confused fighting is taking place here and there.")

U. S. Marines, driving up the west coast of Saipan, captured Garapan, the first Japanese city to fall to Americans in the Pacific, and Tanapag Harbor while other ground forces advanced along a line all the way to the east coast to squeeze the enemy into a nine square mile area at the northern tip of the island.

ALLIED SUPREME HEADQUARTERS.—The American First Army, capturing 17 villages in a general advance along its 25-mile offensive front, drove to within a mile of the German communications center of La Haye-Du Puits today and sent patrols plunging into the outskirts.

At the eastern end of the 1100-square-mile Allied beachhead, British and Canadian troops tightened their assault arc around Caen astride the main Cherbourg-Paris railway and highway with the occupation of Fontaine, three miles to the southwest. The Germans still were holding tenaciously to the eastern end of the Carpiquet-Caen airfield, however, and fierce fighting was under way there.

The latest American advances brought Lt. Gen. Omar N. Bradley's troops to within less than two miles of La Haye on three sides and at last reports they were closing in on the stronghold slowly but steadily in the face of withering cross-fire from machine-guns, mortars and light artillery.

One American column advanced to within a mile north-east of La Haye and captured Hill 95, the third height on a semi-circle around the town to fall since the start of the American offensive. The village of La Fleche on the north-west edge of the hill also was taken.

(A front report broadcast by the London radio said the Americans also were within one mile of La Haye from the west and northwest.)

## NEGROES DID NOT VOTE IN GA. PRIMARY

ATLANTA, Ga., July 5.—Negroes laid the basis for a court test of the Georgia white primary when they were refused permission to participate.

They contented themselves with token efforts and left the polls without incident when the man-

agers informed them their names were not on the lists.

C. A. Scott, president of the Citizens Democratic Club of Fulton (Atlanta) County, and A. T. Walden, leader of the State Association of Democratic Clubs, both representing organizations composed of Negroes, made unsuccessful attempts to vote in Tuesday's primary.

Walden, who is an Atlanta lawyer, announced that he planned immediately to seek a court test of the Georgia primary regulation.

Similar unsuccessful efforts were made by Negroes to vote in Albany, Augusta and other cities in the state.

## COALITION.

(By SAMUEL PETTINGILL.)

The Axis is a coalition. Germany and Japan. Its opposition is a coalition, Britain, Russia, United States, China.

Nothing but a coalition can beat a coalition. The New Deal party is a coalition. Its opposition is, in fact, a coalition.

It was a coalition that beat the Court-packing bill. Neither the Republicans nor Democrats could beat it alone. A coalition beat the equally dangerous reorganization bill of 1938.

Every constructive act of Congress in recent years has been passed by a coalition. Every curbing of executive usurpation, of bureaucratic tyranny; every recapture of legislative power previously voted away owes its accomplishment only to a coalition.

The New Deal party is a minority party. When its opposition is divided, it wins; when its opposition is united, it loses.

The patriotic Democrats and Republicans in Congress understand this very well. They work together on most of the big issues.

Will the voters and party leaders of the two old parties be equally realistic? Or, will they divide their strength these next few months on muddy-shibboleths, and a flea-bitten bloody shirt?

In particular, will the Republicans snatch defeat from the jaws of victory by beating yesterday's cracked drums?

At Gettysburg there is a spring. It is said that wounded and exhausted men, Johnny Reb and Yank, met there at night and by common consent, drank from the same spring. When the calm of night and the peace of God fell over Little Round Top and Pickett's trampled wheat fields, these Americans forgot they were foes and remembered they were brothers. They did not inquire how their grandfathers had voted for presidents long dead.

We need a Gettysburg spring today in the arena of politics. There is one. It flows from the rock of the Republic, the Constitution of the United States!

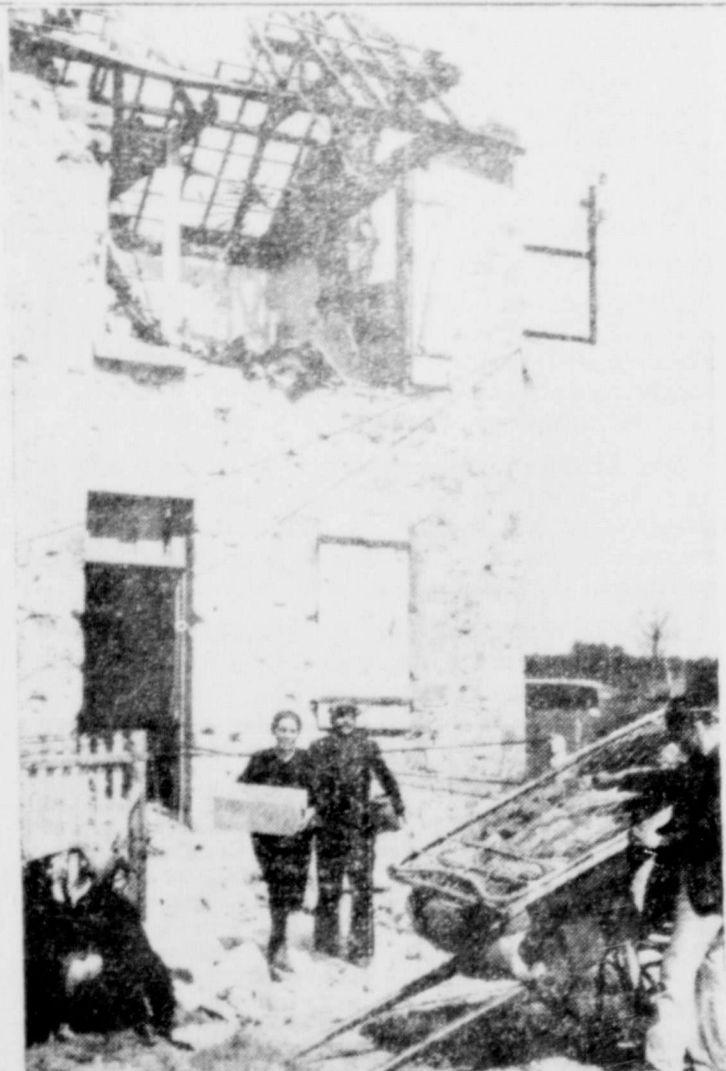

What else matters today on this side of the oceans that wash our shores? If we recapture constitutional government, we can build again from the wreck of war. If we do not, America becomes a "polyglot boarding-house" filled with European ideologies. We will gossamer to the demands of the all powerful state.

What then can patriots do? They can do what they have done on the battlefield. They can form what is in fact an American coalition; what is in fact a Constitutional party. They can support Constitutional Democrats in some districts and states; Constitutional Republicans in other districts and states.

Then we can have a Constitutional Congress next session. We will need it. Some day the war will end; perhaps this year. When that day comes we must rid America of makers from the blight of taxes, and the future of our children from the burden of debt.

The New Deal party intends to future controls on us from now on—permanently. It intends to Europeanize the United States.

Only a coalition can stop it.

MOVING OUT—With their country a battleground, the French people are learning that winning liberty once it has been relinquished is a difficult and bloody task. This scene, multiplied scores of times on the Normandy peninsula shows a family tearfully preparing to leave its ruined home in Carentan.

## OTHER EDITORS

### Pressure Groups.

By Robert Quillen. Like a clanish family, all Americans are one when attacked by a foreign enemy. But at all times they are divided into numerous religious, racial and economic groups, and the things they do are doubly difficult to understand if this division is forgotten.

Group conflict is not a new thing in our country. Before the Revolution, when Patrick Henry and Paul Revere were boys, the people were divided into social and economic classes, and religion

and politics worked together as partners.

The common people were Congregationalists or Presbyterians for the most part, and the Presbyterians were considered plain low-down. In fact, Tory officials and social leaders declared that Presbyterian churches were hotbeds of rebellion and their members all disloyal to the King. (They were, in short, patriots.)

The most important minority groups have from ten to twenty million adherents, and any one of them could be the deciding factor in a class national election. Therefore politicians, in their secret conferences make deliberate

plans to please the Catholic vote or Negro vote or Labor vote or farm vote, etc.

Fortunately, the members of no group actually vote as a unit. Party loyalties and private interests cross all group lines. The majority of our people are Americans before they are anything else.

But in recent years, since organized groups learned their power, there has been a growing tendency to vote as groups—to think first of group interest, and last, if ever, of national interest.

These several organized groups have been able to force the government to form policies and make laws for their special benefit.

This does no harm if the laws are just and beneficial, but all experience has shown that men cannot possess great power without abusing it and benefitting themselves at the expense of others. Moreover, when lawmakers act to please a threatening group—that is, act in fear, they act without regard for the welfare of the whole people.

In short, government by and for organized groups is not government by and for the people. It destroys the very thing that made us great. And we had better remind ourselves of that ancient truth: United we stand; divided we fall.

## Our Merchant Marine

### Safety at Sea

Although America entered the war with a Merchant Marine acknowledged to be the safest in the world, early losses through enemy action were heavy.

With added naval protection and the development of innumerable safety devices, merchant seamen casualties steadily dropped.

Liferafts with the latest and most complete equipment, gravity-launched life-boats, radio locating devices, have each contributed to saving lives.

By using war-developed improvements the American Merchant Marine will continue in peacetime to be the safest in the world.

Times Are Changing Fast...
... and so are governments, religions, economic principles and even human nature, whether we like it or not. Likewise, revolutionary changes have taken place in the field of land titles. In the old days most titles were simple and good, but today the records are voluminous and the changing times have clouded many titles. So don't buy real estate without knowing something about the title and always insist on a dependable abstract.

NOONTIME SNACK—Not only do "mad dogs and Englishmen go out in the midday sun" but so do wallroos. Shown at the San Francisco zoo, their table manners are exemplary. The wallroos hop to places on each side of the wheelbarrow that serves as a table and stick daintily at dry bread and vegetables.

THE LIVING IS EASY—for these Nazi prisoners basking in the sunshine far away from the horrors of war. On the deck of a Coast Guard transport bringing them to an internment camp, they seem perfectly happy and carefree at being relieved of bearing arms for the Fatherland. (U. S. Coast Guard Photo).

# FLETCHER'S CASTORIA NOW ON SALE!

FLETCHER'S CASTORIA—the laxative made especially for children—is now on sale at your druggist's.

Fletcher's Castoria comes to you in a new package with two distinctive features. Look for these features when you buy:

1. The Green Band. Around each package is a brilliant green band. This band will identify for you the fresh stocks of Fletcher's Castoria now on sale.
2. The Serial Control Number. On each new bottle there is a code number plainly visible through a "window" in the package.

What the Serial Control Number means to you

To give you the utmost assurance of the quality and reliability of Fletcher's Castoria, every batch is given thorough, rigid chemical, bacteriological, and biological tests.

The Serial Control Number on each bottle is your guarantee—positive, visible proof—that all these tests have been made.

We believe that this announcement will be welcome news to you and the millions of other mothers who have long used Fletcher's Castoria as the ideal laxative for their children. We think you'll be glad to know that Fletcher's Castoria—safeguarded by extensive laboratory tests—is again available at your druggist's.

The next time your child needs a laxative, get Fletcher's Castoria, the mild, pleasant-tasting, effective laxative made especially for children. The Centaur Company Division, Sterling Drug Inc., Rahway, N. J.

THE MAKERS OF FLETCHER'S CASTORIA

NOTE: Until sufficient stocks can be made available, it may be that your druggist won't have enough Fletcher's Castoria to meet all demands. If he happens to be out of stock when you ask for Fletcher's Castoria, please be patient. He will have it for you shortly.

### THREE TO GO

Photo courtesy New York Dress Institute. A three-piece outfit to give maximum service on vacation is this Duke cotton ensemble of pink with navy stitching, halter-topped shorts, button-down skirt and bolero. Slender denim slippers are simpler shoes, the all-purpose piece "shorts" and separate shirt and shorts for real country roughing and at six money prices. Cotton dreads for beach and village, and strapped, semi-backless dresses for getting the most sun anywhere outdoors are other vacation ideas.

### Old American Asphalt Shingles

Made from WEATHERIZED ASPHALT

There is no need to remove your old roof. Old American Asphalt Shingles are applied right over old shingles and save labor and material costs. Old roof serves as insulation. Old American Asphalt Shingles are made of the toughest rag-roofing felt and are scientifically treated with Asphalt to resist all weather conditions. Falling sparks are harmless. Available in efficient shapes and pleasing colors to harmonize with any setting. Colors retain freshness under hottest suns.

### A VITAL WAR MEASURE

Yes, that's how the WPB looks upon necessary maintenance and repairs to your home. A leaky roof causes water-soaked boards to swell and pull away—plaster falls—wallpaper is ruined. So help conserve needed materials, and save yourself money, by re-roofing NOW before expensive damage occurs.

## ALL-YEAR GAS AIR CONDITIONING

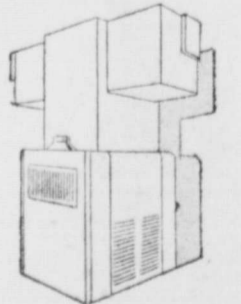

### Summer Cooling . . . Winter Heating with one simple unit

Sounds like a dream—but it's true! In the new world of tomorrow, you'll be able to have the kind of climate you want indoors—year around.

Changing seasons will have no effect on your comfort. Sultry summers and blustery winters won't mean a thing to you and your family. All-year gas air conditioning will keep your home at just the temperature you want—and at the right humidity, too—through every season.

This new and different air conditioning system was developed, before war came, by the makers of the Servel Gas Refrigerators. Systems are now operating in hundreds of homes throughout America—some of them on Lone Star lines . . . and are working fine.

You'll be able to get All-year Gas Air Conditioning for your home at war's end. So start planning now—and start saving. Buy war bonds.

IN WINTER, the gas air conditioner assures you dependable warmth and correct humidity throughout your home on coldest days.

IN SUMMER, the gas air conditioner brings relief from hot, sticky weather . . . providing refreshing, invigorating cold air.

IN EVERY SEASON of the year, the gas air conditioner gives you live, clean air without drafts . . . filtering out dust, dirt and pollen.
