REDS CLOSING BALTIC TRAP

Regular Democrats Won't Dicker With The Fourth Termers

AUSTIN, July 11.—Hopes of a compromise between contesting Texas delegations to the Democratic National Convention in Chicago faded further when Roy Sanderford, former state senator from Belton and permanent chairman of the regular State Democratic Convention May 23, asserted there will be no trade or compromise.

Sanderford also asserted that statements that any Texas voter would be denied an opportunity to express his choice of any issue or candidate were untrue and challenged the leaders of the bolters who left the regular convention and organized a rump caucus to certify their electors to the Secretary of State for replacement on the ballot for the general election in November. The electors of the regular convention were certified immediately after the Democratic convention.

Sanderford's statement was particularly in reply to the recent statement of Jesse H. Jones, Secretary of Commerce, as printed in a frontpage editorial in the Houston Chronicle. Sanderford's statement follows:

"The editorial of the Hon. Jesse H. Jones in his Houston Chronicle on July 5 was in error in charging the Democratic State Convention has deprived a majority of Texas voters of a right to vote for their choice for President. No voter in Texas has ever voted directly for any president. Texas voters cast their votes for electors who in turn vote for a president.

"The Democratic State Convention nominated presidential electors in its customary way and the Supreme Court has ruled its action was completely legal.

"Mr. Jones admits the legality of the nominations. To date, two sets of electors have been nominated, Democrats and Republicans, and their names will appear on the November election ballot."

"Any group of voters who are dissatisfied with these electors can write in the names of other electors or nominate other electors and have their names printed on the November ballot, Sanderford said.

"The bolters from the Demo-

cratic convention organized a convention, nominated electors, and can have such electors placed on the ballot if they will take the trouble to certify their names to the Secretary of State as did the Democratic convention. It is the duty of the officers of the bolting convention to make such certification. If this is done, every voter in Texas will have an opportunity to vote as he pleases, and any representation to the contrary is without any foundation. No voter in Texas will or can be denied his right to vote as he pleases on any issue or any candidate," he continued.

"At the time the Democratic State Convention nominated its electors and selected its delegates to the National Democratic Convention it re-dedicated its members to fundamental Democratic principles and adopted a program to make these principles effective. Those responsible for carrying out this program will not trade or compromise on these principles or any other part of the program."

JULY 22 CONVENTIONS IMPORTANT ONES

Oscar Lyerla, county chairman, issues the following statement to Eastland county Democrats:

Each voting precinct (there are two in Cisco) will hold a convention at 2:30 on the day of the election, July 22.

The precinct chairman will call the meeting to order. Those who are present will then elect a chairman and proceed to elect delegates to the county convention, which will convene the following Saturday, July 29, at the court house in Eastland.

The county convention will elect delegates to the state convention, which will meet in Dallas, September 12 and elect a state chairman and thirty-one district chairmen, which makes the membership of our State Democratic Executive Committee.

FARLEY SUCCESSOR

NEW YORK, July 11.—State Democratic leaders yesterday selected Paul E. Fitzpatrick of Buffalo, described as "100 per cent for Roosevelt," to succeed James A. Farley as chairman of the New York Democratic State committee. Farley opposed a fourth term for Mr. Roosevelt.

COTTON ACREAGE

AUSTIN, July 11.—The United States department of agriculture says Texas currently has planted its lowest acreage in cotton since 1899. Acreage in cultivation on July 1 was estimated by the crop reporting board to be 7,326,000 acres, 7 per cent below 1943 acreage and lowest since 1899's 6,950,000 acres. Greatest Texas cotton acreage was 18,443,000 in 1925. Most of the shift from cotton has been to sorghum and other foodstuffs, the USDA said. One reason for the low acreage this year was that part of the state was too dry, part too wet for planting at the correct season.

PORTABLE P.O.—Yanks fighting in France are having mail call as usual, thanks to mobile Army Post Offices. Sorting mail at this one in the vicinity of Cherbourg are from left: Cpl. Henry Ploucaer, Sgt. Alan Braun, PFC. Alexander Civillo and PFC. Herbert Green. (U. S. Signal Corps Photo)

MOVABLE FIELD—Sgt. Russell Butler (left) of Larkhaven, Pa., and Sgt. Paul Cipriano of Altoona, Pa., members of Thunderbolt squadron known as Magon's Maulers walk across field from hangar where they have been working on the P-47s. Airfield, somewhere in England, is constructed so it can be moved with all equipment at a moment's notice.

JULY 29-30 IS DATE OF SALT TANK MEETING

J. M. Shook, route one, box 226, Wichita Falls, writes the Daily Press and asks that the Salt Tank Homecoming to be held July 29-30, be given special publicity because of its interest to so many people. The meeting place is 18 miles south of Cisco and nine miles northwest of Rising Star.

There will be music and games and other entertainment on Saturday night, and on Sunday visiting speakers will address the gathering. Mr. Shook suggests that lunch baskets should be brought by everybody on Sunday, adding that there will be plenty of ice water and shade. The general public is invited.

The Salt Tank meeting is an annual affair and is held for the purpose of rounding up all old-timers and having a good time.

Mrs. Ruth Branton of Eastland and Taylor A. Sherrill of Odessa are program chairmen, Mr. Shook says.

Mrs. Frances Collins has returned from Liberal, Kan., where she has been visiting her husband, Flight Officer Billy Collins.

LASSIE AND FAMILY—Lassie, collie dog star of the films, poses on Hollywood lawn with Laddie, 10-week-old pup who will play with Lassie in new picture. Posing with the two canines is starlet June Lockhart, daughter of Gene and Kathleen Lockhart.

ROOSEVELT TO RUN IF NOMINATED

WASHINGTON, July 11.—President Roosevelt said today he will accept Democratic renomination and serve a fourth term if elected.

The president made his intentions public in a letter to Democratic National Chairman Hannegan, who informed him sufficient delegates were pledged for his renomination at the Democratic convention which opens in Chicago next week.

The president said he would prefer to retire but "I will accept and serve in this office if I am so ordered by the commanders-in-chief of us all—the sovereign people of the United States."

Mr. Roosevelt sprang the news of his political intentions on a news conference this morning when a reporter asked him if he had anything to say about the convention.

Getting quickly to the correspondence before him, the president read Hannegan's letter saying renomination is assured and replied:

"If the convention should nominate me for the presidency, I shall accept. If the people elect me, I will serve."

The President said, however, that he would not "run" for reelection in the accepted political sense "but if the people command me to continue in this office and in this war, I have as little right to withdraw as the soldier has to leave his post in the line."

"For myself, I do not want to run," Roosevelt said. "By next spring I shall have been president and commander-in-chief of the armed forces for 12 years—three times elected by the people of this country under the American constitutional system."

"From the personal point of view, I believe that our economic system is on a sounder, more human basis than it was at the time of my first inauguration."

"After many years of public service, therefore, my personal thoughts have turned to the day when I could return to civil life. All that is within me cries out to go back to my home on the Hudson River, to avoid public responsibilities, and to avoid also the publicity which in our democracy follows every step of the nation's chief executive."

SWEET POTATOES \$1.69.

WASHINGTON, July 11.—The OPA today imposed price ceilings on 1944 crop sweet potatoes intended to result in a national average retail price of about 10 cents a pound, somewhat lower than last year. The regulation provides ceilings, effective July 15, designed to reflect an average farm price of \$1.69 a bushel.

CONGRESSMAN IS 84.

COLUMBUS, July 11.—Judge Joseph Jefferson Mansfield says he is in the peculiar position of a man black-listed by both the CIO political action committee and Senator W. Lee O'Daniel. The 84-year-old veteran of fourteen congresses, who is seeking re-election from the Ninth District, asserts he's attracted the ire of both wings, but still figures he can beat whatever opposition they throw at him.

FURIOUS NEW DRIVE BY YANKS IN NORMANDY GAINED 2 TO 3 MILES ON A FORTY-MILE FRONT

LONDON, July 11.—The isolated and embattled German-held fortress city of Wilno, capital of Soviet Lithuania, was reported by the German radio today to be in flames.

Russian troops streaming deep into Lithuania thrust within striking distance of the East Prussian frontier and moved swiftly toward the Baltic coast in wide enveloping advances which threatened to trap two German armies in the north.

Southward in old Poland, other Red Army groups beat toward the rail center of Bialystok and directly menaced Pinsk. The Germans reported a massive new Soviet offensive in Romania north of the rail center of Iasi—a drive threatening the Galati Gap and the Ploesti oil fields, already extensively damaged by American bombs.

The Moscow report said the Germans suffered "tremendous losses" in a general Russian forward surge all the way from the Latvian border to the middle of the Pripyat Marshes, some 400 miles southward.

A powerful wedge was driven into Lithuania at about the midway point of the 100-mile battlefield between Daugapils, in southeastern Latvia, and the bypassed and doomed German stronghold of Wilno—scene now of bloody street fighting.

AEF HEADQUARTERS.—US troops and tanks advanced to a point within two miles of St. Lo, key road hub forming the Germans' central fortress in Normandy, gaining two to three miles in a furious new offensive spreading the American attack over a 40-mile front.

Spearheads of Lt. Gen. Omar N. Bradley's American 1st Army, jumping off under the screen of a pulverizing artillery barrage, reached the outskirts of Luzerne and Mesnil-Rouxelin, just north of the road junction in the heart of Normandy.

The attack was co-ordinated from the north and northeast of St. Lo. Fall of that city of 15,000 would force a German withdrawal from the remainder of the Cherbourg Peninsula.

British-Canadian forces to the east, meanwhile cleaned out nests of resistance southwest of Caen, running into stiffening opposition.

The German radio asserted that German troops had re-entered La Haye du Puits, strategic road center captured by the American 1st Army Sunday.

The German position west of the Orne appeared hopeless in the long run, but the fanatical Nazi opposition against the drive of both the British and the Canadians was forcing the fighting line back temporarily in some spots and limiting progress to a few hundred yards in others.

SOUTHEAST ASIA HEADQUARTERS, KANDY, Ceylon, July 11.—Japanese forces, apparently abandoning organized operations for the first time in this theater, have withdrawn along a nine-mile stretch from a point southeast of Ukkhul to take up new positions at Ongshim, only 16 miles inside the border of north-eastern India.

The invaders' retreat towards the Burmese border was becoming increasingly disorderly and was taken as a final admission of inability to carry out the Japanese high command's orders to develop the attack on Imphal.

Without precedent in this area, some Japanese troops in the Ukkhul area were abandoning resistance and surrendering.

An Allied communique, however, reported heavy fighting approximately 16 miles northeast of Imphal. A considerable force of Japanese were routed in the same area and several hundred fled in confusion up the flooded Taubal, it was reported.

SAN FRANCISCO.—Guam, first U. S. territory seized by Japan, has been brought under daily attack by an American task force, it was revealed as air blows were struck at a half dozen or more enemy bases through the Central and Southwest Pacific. Admiral Nimitz said that Guam and Rota, by-passed in the southern Marianas when U. S. forces invaded and conquered Saipan and brought Tokyo and the Philippines within bombing range, were hit for the fifth straight day Sunday.

Seventh Army Air Force Liberators again attacked Truk in the Carolines and other Central Pacific airmen made new raids on Paluit, Maloeiap and Wote in the Marshalls.

In the Southwest Pacific, Liberator bombers attacked Sarong on the western tip of Dutch New Guinea, 600 miles from the Philippines Sunday without encountering opposition, a communique said. Sarong, formerly an important enemy air base, is fewer than 300 miles west of American-held Biak and Noemfoor Islands in Geelvink Bay.

STRICTLY INFORMAL.—Dinner is a very informal affair on our fighting fronts where every man is his own cook and butler. Here, during lull in battle, Cpl. John Monck of Brooklyn, N.Y., whips up a meal on the littered ground. Meat and beans in C ration cans and coffee are on menu (U. S. Marine Corps Photo).

ACROSS THE TABLE.

Americans in general feel relieved that De Gaulle's visit passed off so satisfactorily. Gun salutes and formal dinners are alright in their way, but quiet conversation in the president's office was better.

Walter Lippmann remarked about the monetary conference at Bretton Woods, N. H., that the mere fact that these people could get together and discuss monetary difficulties was the most valuable part of the conference.

These two statements may sound irrelevant—but are not. The fact is that after the last war too many difficulties were presented too suddenly to peoples differing greatly in heritage, environment and consequent mental attitudes. They could not get together, and the hope of the world went down into despair.

This time, insofar as humanly possible, that mistake is being avoided. Matters of importance are being discussed beforehand. Representatives of various nations are sitting down together, talking things out quietly. Settlements thus arrived at are based on mutual faith and understanding. They have a chance to stand, where those based on suspicion and lack of knowledge of what the other fellows really want are doomed to fail.

AVOIDING POLIO.

The medical men do not know yet just what causes infantile paralysis to show up in the late summer and early fall. But they do know that most cases usually come in late August or early September. Very few begin in the winter. Some doctors think micro-organisms developing on the skins of fruits may have something to do with it. The peak of cases comes at the time when children are freely eating many kinds of unwashed fruits.

A few pointers put out by a chapter of the National Foundation of Infantile Paralysis are worth noticing and remembering. They are:

Be alert to signs of fever, headache, vomiting, constipation, diarrhea, signs of a cold, during the polio outbreak. Do NOT use sulpha drugs or any home remedies. Call a physician immediately.

Avoid overting, extreme exercise, sudden chilling. And, for many reasons, this is no time to be chasing about the country in crowded buses or otherwise.

In other words, do the sensible things to keep in general health, and at any sign of illness call the doctor quickly. Immediate medical care checks the crippling and disabling effects of the disease.

A final pointer is—do not be afraid, or let the child be afraid. The illness may be only a trifling upset. But call the doctor anyhow.

SEE-SAW.

It is possible, by this time, to get a picture of "the shape of things to come" on continental Europe. The bold thrust of Hitler Germany to dominate Europe, and then the world, has been stopped short. The Russians have done most of the stopping, and we Americans have furnished most of the materials, with Britain and her imperial sisters around the world playing a larger and bolder part than many of us have realized.

The most obvious result in Europe is to enlarge the power and prestige of Russia and correspondingly reduce the role of Germany. The German job is one that should have been finished in the last war. It was allowed to go by default—apparently on the theory that Heine was really a good fellow, who meant well but was misled. That mistake will not be made again.

Americans were probably muddled by the fact that in this country Heine usually IS a good fellow, and makes a good American. But in the environment of the Old World he seems to be still the rough neck, taking naturally to arms and regimentation, arrogant and eager for conquest. So he must be curbed, his territory shrunk and his government policed by his intended victims.

Germany is down and Russia is up. We shall probably be able to get along now with that strong young nation, immense in land and power and future possibilities. Our ideas of government differ, but Russian absolutism seems only a temporary phase.

OPEN FORUM

Answers Jesse Jones. Cisco Daily Press: Mr. Jesse Jones, in his labored editorial in his Houston newspaper overlooks the very material fact that Texas Democrats have already voted in the only manner provided by law, and a majority of them have voted against President Roosevelt for a fourth term and have instructed their electors accordingly. If Roosevelt is renominated for a fourth term and his record is endorsed, the Texas electors are instructed to vote for someone else for president. The effect will likely be to throw the election in congress, and the defeat of both Roosevelt and Dewey WHICH

WILL NOT BE A NATIONAL DISASTER. Our electors are not likely to vote for Dewey, for the Republican party is committed to repeal of the poll tax, and the establishment of the F. E. P. C. as a permanent bureau, which means social equality, the repeal of our segregation laws, and racial degradation. We may not be able to elect a president, but we can defeat this infamous bureau. We should form an independent political party that stands primarily for the repeal of the 14th and 15th amendments and for constitutional government. The Republican platform contains some platitudes for constitutional government but in view of their demand for this infamous and unconstitutional F. E. P. C. Bureau, their pious expressions must be

taken with "a grain of salt." The repeal of these amendments will permanently solve the negro and alien communist and gangster problems.

There is no substantial difference between the Republican platform and the Roosevelt administration. It is the difference between "tweedledum and tweedledee" between a Roosevelt and a Willkie; between a New York Democrat and a New York Republican; between a Democratic internationalist and a Republican deflationist; between a Democratic deflationist and a Republican internationalist; between a Democratic bureau and a Republican bureau.

Whether we wish to do so or not, we must organize an independent political party that stands for America first, last and all the time. It is the only way we can preserve our National Constitution and our republican form of government and the purity of our race.

The politicians may talk compromise and peace, but there can be no compromise between true Democrats and the bolting New Dealers, for there is nothing in common between New Deal Communism and Constitutional Government. Let them stay bolted and may the congressmen who are responsible for this perversion of our government GO WITH THEM. GEO. W. ARMSTRONG, Fort Worth, Texas.

Grisham's Statement.

No one can give in advance an adequate resume of the laws that he may favor in these troublesome times, but some of our friends have requested us to make a further statement in view of the fact that the candidates have by a majority apparently agreed that there will be no public speaking dates. Therefore, briefly we favor:

- 1. A system of public free school education available for every child in Texas with free medical examinations and medical service thereafter periodically as needed for indigents;
2. The trend of laws that encourage individual initiative;
3. Maximum compensation for disabled old people; the enfranchisement of all service men by constitutional amendment if necessary, coordination with the government in aid of the disabled soldiers returning to civilian life;
4. Liberal support of Junior Colleges, favorable to an industrialized curricula, whereby each student may learn to live by the labor of his hands, harking to things manual in art, sciences, agriculture, land and water conservation, livestock and poultry

husbandry—an education beyond the lids of books;

Baseball and football are great games, but the next generation must learn the greater game of "hitting the ball" and surviving without governmental paternalism, and such is the game of life in which all are destined to play their part.

5. This state needs a militant, untrammelled legislature, stronger executive arms, a vastly more workable supreme court.

Rehabilitation and reconstruction days are coming now, and a post war world will bring to us ten thousand problems that demand the mature consideration of serious and experienced men, who are willing to serve The State at a personal sacrifice, and it is our purpose and desire to join such a determined group and work for the common weal, and, if successful in procuring the place, we shall be obligated to all the citizens of Eastland county whom we shall strive to serve with courage and devotion to duty.

Sincerely yours, R. N. GRISHAM, Candidate for Representative of the 106th District.

TEXAS WOMAN OPENS STUDIO IN CALIFORNIA.

The Newport Beach (California) News-Times of recent date carries an article that will be of interest to Cisconians, the subject of the news story being Mrs. Laura S. Coffey, a native Texan, formerly of Sweetwater, and a sister of Dr. G. M. Stephenson of Cisco. Mrs. Coffey has visited in Cisco on a number of occasions. The News-Times, under caption, "Western Cowgirl Sculptress and Artist, Finds New Outlet for Talents," said:

"Mrs. Laura S. Coffey, renowned western cowgirl, has found a new outlet for her love and understanding for horses, in the perfection of form in her models on display at her gift pottery shop, 606 Coast Blvd., Corona del Mar. Her sculptured horses have won recognition in Chicago and New York. Her goal is to make these pottery horses the best in the world. In former years she sculptured in Metelstone, a composition of her own. The careful detail in her work and the action depicted in the statues make them seem real and alive. Visitors to her shop find her gracious, poised and quietly confident.

"Where the water dripped under the old cypress tank and made the loveliest mud, my brothers, sisters and I, in our early years, made crude images of the animal life on our father's ranch."

"The rich southern voice of Mrs. Coffey recounted when asked when the urge for modeling was born in her.

Her life-size paintings of horses and cows can be seen along the highways of Texas, as advertisements for the stockmen. She taught art in public and private schools in Sweetwater, Texas. She has art credits from the International Correspondence School and assisted in the production illustration, at its start, at the Vega Aircraft Corporation in Burbank, California.

The wide open spaces of Texas, where she rode horseback, still call to her. She has not been able to ride for a year after sustaining injuries while vacationing in the mountains of Arizona.

However, she happily recalled recently, after breakfasting with her husband and the other ranch hands of the Irvine cattle ranch, she mounted her buckskin horse,

Bar tender, and rode with the boys until the roundup was completed. She said as she rode she sang "Back in the Saddle Again."

Mrs. Coffey has two sons in the U. S. air force. Her eldest, Lt. William G. Coffey, is at Williams Field, Arizona, while the youngest, Ed Coffey, Jr., is at Lovery Field, Colorado.

CLOTHES MAKE THE VACATION

THERE are vacation days... and just plain backyard days... and just plain bog days. Everybody's agreed this Summer that taking time off to relax is the patriotic thing to do provided you keep your plans simple. The idea is to get a lot of sun and fun and to look cool and pretty while you're doing it. If you travel, you will want to

tion interesting, and the warmest of Summer weather degrees cooler. Many of the most attractive and most versatile costumes are of cotton, which is easy on the budget. Charming, inexpensive prints, and such wraps as the short white coat shown today help keep the total cost of a vacation wardrobe at a figure everyone can afford.

New York's clever and thoughtful designers give us the cotton sundress with a smart little bolero for luncheon and sightseeing, and the tennis playsuit with a skirt to convert an active sports outfit into a picturesque beach or terrace or country costume. Butcher linen in black or brown is smart for travel, and serves beautifully for street or office wear once vacation is over. Gingham swim suits double for sand and water, and many have their matching cotton beach coats which make pretty breakfast and house coats. Whatever your choices this Summer, it's a certainty that you'll get all possible use out of them, after vacation as well as while you are on that precious two weeks' leave.

pack in small space and take clothes you yourself can wash and iron. If you stay at home, you will want some new things to lift your spirits and make backyard sunning and entertaining something to get excited about. At least one dress you select this time of the season might be a dark sheer you can wear into Fall. If you are a single girl and plan to meet some beaux on your vacation, you will want to pick your wardrobe with men in mind—an eye-catching swim suit, a memorable dance dress, a feminine print. The bureau of fashion information of the New York Dress Institute has discovered all these types of clothes for making your vaca-

HAVE YOU A TRUE PICTURE OF YOUR ELECTRIC BILL? MANY folks don't. They're as far from the real facts as this photo in an amusement park mirror! Proof? In a nation-wide survey, 42% of the people sharply overestimated the amount of their last electric bill. 59% didn't realize that rates had been reduced in the last fifteen years — and 95% didn't realize how much! Actually, the average American family gets about twice as much electricity today as it did fifteen years ago for the same money. "For the same money." That's the clue. You don't realize that rates are down, because your bill may be as much as it was fifteen years ago—or perhaps even more. But you have more electric appliances now. You're using more electricity — and you get about twice as much for what you pay. Keeping electric production up and electric prices down is not easy in wartime — when other costs and taxes are soaring. But your electric company has done it — by careful planning, hard work and sound business management. West Texas Utilities Company

Gains Insulation Lays Smooth Saves Labor (Company written 10-year guarantee)

Old American Asphalt Shingles

Made from WEATHERIZED ASPHALT There is no need to remove your old roof. Old American Asphalt Shingles are applied right over old shingles and save labor and material costs. Old roof serves as insulation. Old American Asphalt Shingles are made of the toughest rag-roofing felt and are scientifically treated with Asphalt to resist all weather conditions. Falling sparks are harmless. Available in efficient shapes and pleasing colors to harmonize with any setting. Colors retain freshness under hottest suns.

A VITAL WAR MEASURE

Yes, that's how the WPA looks upon necessary maintenance and repairs to your home. A leaky roof causes water-soaked boards to swell and pull away—plaster falls—wallpaper is ruined. So help conserve needed materials, and save yourself money, by re-roofing NOW before expensive damage occurs.

Gall Bladder Sufferers Told to Avoid CONSTIPATION

Try Hot Water and Kruschen Salts Before Breakfast for 5 Days

In a glass of hot water put one teaspoonful of Kruschen Salts and drink about half an hour before breakfast. 15 to 20 minutes later follow with your usual breakfast cup of hot coffee or tea. Usually within an hour you get prompt and effective relief and should begin to feel bright and refreshed again. Be sure to follow the simple easy directions. Now keep this up for 5 straight days—just see if you too don't discover why thousands have found hot water and Kruschen Salts so beneficial in relieving that "gulf" constipated "out-of-sorts" headachy feeling. Get Kruschen Salts today—all drug stores. Over 245 million bottles sold in the past 100 years—well must be good.

Gas Air Conditioning has transformed each room in our home into a haven of delightful comfort

FROM OWNERS in practically every section of the United States come letters praising the all-year gas air conditioner. They like it, first of all, because it gives their family year-round comfort—no matter what the weather outside. It supplies cooled, dehumidified air in summer... warm, moistened air in winter. They like it because windows can be closed to shut out street noises. And they like it because it circulates clean filtered air, free from dirt, dust, and pollen to make housekeeping easier and bring relief to hay fever and asthma sufferers.

You'll be able to get All-year Gas Air Conditioning for your home at war's end. So start planning now—and start saving. Buy War Bonds.

IN WINTER, the gas air conditioner brings you dependable warmth and correct humidity throughout your home on coldest days.

IN SUMMER, the gas air conditioner brings scientific relief from hot, sticky weather... providing refreshing, invigorating cold air.

IN EVERY SEASON of the year, the gas air conditioner gives you live, clean air without drafts... filtering out dust, dirt and pollen.

A Reality of Today—Tested and Proven

This magic-like system is operated by America's sought-after fuel—Natural Gas. It was developed, before war came, by the makers of the Servel Gas Refrigerators. Systems are now in operation in hundreds of homes throughout America—some of them on Lone Star Lines. So, all-year gas air conditioning is not a dream—it is a reality of today, tested and proven. It is an example of what's in store by the gas industry for tomorrow's home.
