## BURKETT LED AUTOS VANISH-PEARSON 555 ING FROM U. IN 2 COUNTIES S. HIGHWAYS

Final official figures in the Eastland-Callahun county legislative race show that Omar Burkett is leading L. R. Pearson, the next high man, by 555 votes. The combined vote of the two counties is as follows:

Burkett	2,964
Pearson	2,409
Star	2,264

The three-pronged race was a very close affair and the August 8 runoff between Pearson and Burkett will be a real battle in both counties. In the first race Pearson was charged with having made some money in the oil business and Starr, in an anonymous communication, was alleged to have flirted with Texas socialists about 13 years ago.

What the supporters of Mr. Starr will do when it comes to switching to another man remains to be seen.

Starr conducted a clean, above-board campaign and he and his friends have nothing to regret from that angle.

Here in Cisco Starr received a majority of 36 votes over both of his opponents.

At Stanton, his home consolidated school district, the outstanding farmer of Eastland county received 34 votes and together his opponents received seven.

### LAKE CISCO VISITORS.

Redman Hume, football coach at SMU, Dallas, will arrive Friday to spend the weekend fishing at Lake Cisco. He will be the guest of J. Monroe Sweeney. Mr. Sweeney has also been informed that Sgt. Wm. (Dub) King and Mrs. King will occupy a cottage at the lake over the weekend. Sergeant King, former sports editor of the Star-Telegram and now editor of the Longhorn at Camp Wolters, where he is stationed, will try his hand at bass fishing while here.

### HOLDS ESSENTIAL JOB.

KANSAS CITY, Mo., July 27.—Senator Harry S. Truman of Missouri, Democratic nominee for vice president, says "it is no secret" that his wife is on the senate pay roll as a clerk in his office at \$4,500 a year. "She's a clerk in my office and does much of my clerical work," he said. "I need her there and that's the reason I've got her there. I never make a report or deliver a speech without her editing it. There's nothing secret about it." His comment followed published reports that Mrs. Truman was on the pay roll as a \$4,500-a-year clerk in his office.

Dr. Robert S. Barrett Newly elected grand exalted ruler of the Benevolent and Protective Order of Elks, has also served as president of the Virginia Press association and grand master of the grand lodge of Masons of Virginia.

## BRICKER: KEEP ARMY UNDER U.S. COMMAND

ALBANY, N. Y., July 27.—Gov. John W. Bricker, GOP candidate for vice president, predicts a Republican victory in November and termed the party's chances "very good" in what he said would be "a battle" for a number of North-South border states. The Ohio governor expressed his views at a press conference preceding a meeting with Gov. Thomas E. Dewey, Republican presidential nominee, to discuss campaign plans. Dewey attended the press conference but left the answering of questions almost entirely to his running mate.

Asked what he expected the labor vote to do, Bricker replied that "they have been coming rapidly over to our side, and I expect they will continue. We will get a good labor vote, I know."

A reporter then asked if he thought the Democratic convention activities of the CIO Political Action Committee, headed by Sidney Hillman, "would have any effect."

"I think Hillman's extreme activity on the other side may force many of labor's ranks into the Republican party," Bricker replied.

Bricker said he did not know how many speeches he would make or where he would make them, and Dewey said it had not been determined when the campaign would get under way.

The vice presidential nominee said, however, that under the direction of Dewey and the national committee he was prepared to carry to the country in the general election campaign "the same message" he employed when he spoke in about 25 states while seeking the party's presidential nomination.

Bricker reiterated his opposition to the formation of a joint world police force, asserting that in any postwar co-operative efforts to maintain peace "our own forces should be under our own command at all times."

### RICE FUNERAL TOMORROW.

The body of Joe Ben Rice, 17-year-old Cisco lad killed in a gas explosion near Fort Stockton, arrived here this afternoon. The funeral will be held at Green funeral chapel at 4 o'clock tomorrow afternoon, with burial in Oakwood cemetery. Rev. Leeman Anderson will be the officiating minister. Pallbearers will be J. T. Waddell, Jr., Ernest Fricke, Dick Thackerson, G. W. Wilcox, Jr., Wightman Moore and E. S. Townsend.

### FISH ARE BITING.

A. L. Thetford and E. L. Clay of Cisco, accompanied by J. R. Spencer of Odessa, made a fine catch of fish at Lake Bernie last night. Four large bass, total weight 30 pounds, and eight large catfish were caught on a trot line. Ray Judia, keeper at Lake Cisco, says bass and other varieties of fish are also biting well at the latter lake this week and that fishermen are numerous.

CRASH LANDING—After careening over high tension wires toward a vacant lot, this Douglas Dauntless crashed in Minneapolis city street. Although ship was almost entirely wrecked, instructor and airman from World Chamberlain air base escaped death.

INTO THE SEA—Hitler's vaunted Atlantic Wall is getting a pushing around as bulldozer begins cleaning up operations at Port-En-Bessin, France. Huge masses of cement and barbed wire, which Nazis hoped to halt invasion, are thrown into the sea by the stubby tractor.

VICTORY COMES HIGH—There aren't any cheap victories on the French front. American soldiers who paid the price lie on the soil they died for, while buddies dig graves. (U. S. Navy Photo)

SUICIDE CHARGE—The position of these dead Japs shows that Allies had forced them right out into the sea. They are among the 1,500 Nips who died for Tojo in futile effort to regain lost ground when our troops held almost the whole of Saipan. (U. S. Marine Corps Photo)

## MAURY HUGHES AFTER GERMAN'S SCALP

DALLAS, July 27.—E. B. Germany says the anti-Roosevelt group will have a majority in the county Democratic convention Saturday.

His statement followed a promise from Maury Hughes, one of the regular state convention's delegates to the national convention, that he would fight to remove Germany and Mrs. F. R. Carlton as nominees for Democratic presidential electors because of their refusal to support party nominees.

Germany said his information showing the anti-Roosevelt Democrats in the lead is the result of a tabulation from about 50 precincts made by Mrs. Carlton and Neth L. Leachman, both members of the state Democratic executive committee. Germany said their tabulation showed 582 anti-Roosevelt votes to 243 administration votes in the fifty precincts.

## WILD, TREETOP FLYING BRINGS DEATH TO 3

KANSAS CITY, July 27.—A Liberator bomber moved through five residences, an unoccupied small confectionary and several outbuildings in suburban Merriam, Kan., before it crashed and burned, killing three crewmen and injuring three other fliers and three civilians.

Residents said the plane had been flying at rooftop level for a half hour before it struck a treetop and went out of control. The bomber narrowly missed crashing into the home of the wife of the pilot, 2nd Lt. K. H. Keech, who was injured critically. Mrs. Keech lives with her parents, Mr. and Mrs. A. V. Skeens. Their yard was littered with wreckage.

One of the homes struck by the bomber burned; others had the tops of their porches sliced off.

Robert Gorham, 14, had one of the closest calls. He dropped his bicycle and scurried up a tree for a better view. "All of a sudden here it came," he said. "It looked like it was headed right for me, but it hit another tree first and came in sideways."

His bicycle wasn't so lucky. One wing scraped the ground and demolished the wheel at the foot of the tree.

## CORDELL HULL PUTS ARGENTINA ON SPOT

WASHINGTON, July 27.—The United States last night denounced Argentina for deserting the Allied cause and decisively rejected all suggestions that it negotiate with President Edelmiro Farrell's regime on reopening diplomatic relations. Instead it recommended to all united and associated nations the diplomatic isolation of Argentina.

The denunciation apparently was without precedent for bluntness and strong language. It was issued by the state department after Secretary of State Cordell Hull had consulted for several weeks with other American governments except Argentina.

### GAS STOCKS DROP.

HOUSTON, July 27.—Stocks of all grades of gasoline held by the 11 members operating plants of the Gulf Coast Refiners association decreased 107,463 barrels during the first half of July to 1,164,421 barrels. Executive Secretary George Reid reports.

## RED WARRIORS CROSS WISLA RIVER AND ARE NOW WITHIN THIRTY MILES OF THE CAPITAL

LONDON, July 27.—The British Radio quoted a Moscow report today as saying Russian forces had stormed across the Wisla (Vistula) river, and Berlin acknowledged that the "battle for crossings" of the historic water barrier 140 miles east of Germany has begun.

The Russian government organ Izvestia said "fighting is raging on the banks of the Vistula and Warsaw is listening greedily to the distant rumble of artillery and is awaiting the hour of liberation."

(A London broadcast said that the Russians have advanced along the east bank of the Wisla river to within 30 miles of Warsaw.)

A Moscow broadcast by Robert Magidoff of NBC said the Red Army probably had crossed the Wisla southeast of Warsaw, where the river was reached on a broad front yesterday, and that "more victory salutes are probable tonight, since the fall of Daugavpils, Brest, Litovsk and Stanislawow is expected."

The Moscow report of the crossing as broadcast by the BBC lacked official confirmation, but gained currency in view of the massing of the Soviet forces on the east bank of the river and agreement by both Berlin and Moscow that the battle for the crossing was on.

The Exchange Telegraph News Agency said Warsaw was in a state of acute tension. German troops were preparing for the "last battle" for the city, it said, and the inhabitants had opened large scale guerrilla attacks inside it, with explosions and gunfire sounding daily in the streets.

Nazi spokesmen hinted that Warsaw and Lwow must go the way of Kharkov, Kiev and Smolensk, and that "great new reserves" will not be thrown into the defense of Poland but saved for guarding the Reich itself.

SUPREME HEADQUARTERS, AEF—American armored forces, widening and deepening their breach in the enemy's Normandy defense line, captured Canisy, three miles southeast of Marigny, in a two-mile advance early today, and pressed on to the south.

The fall of Canisy, reported in a dispatch from UP Correspondent McGlincy, sent the most powerful tank drive ever mounted in any war theater, into its third day on a rising note of success. Twenty-four towns and villages were captured in the first two days of the offensive.

"Good progress is now reported a short distance south of Canisy," McGlincy said.

New gains were reported elsewhere along the 35-mile American offensive front, from Caumont to the West Coast, with resistance weak in some sectors, McGlincy said, but the British and Canadians were forced to yield some ground both south and southwest of Caen in the face of increasingly heavy enemy counter-attacks.

The British and Canadians withdrew completely from Tilly-La-Campagne, four and a half miles southeast of Caen, and also abandoned Es-quay, six and a half miles southwest of Caen, and nearby Hill 112 on the bank of the Orne river. Both the Exchange Telegraph Agency and the London Daily Sketch said the withdrawals constituted a "serious setback" for Lt. Gen. Sir Miles C. Dempsey's 2nd Army.

SOUTHEAST ASIA HEADQUARTERS, KANDY, Ceylon.—An Allied Eastern fleet task force shelled and bombed the Japanese base at Sabang, off Northwest Sumatra, Tuesday, destroying harbor installations, silencing shore batteries sinking one medium merchant ship, and wrecking two jetties, a special communique revealed today.

Moving in at sunrise, the task force achieved complete surprise, and for 35 minutes subjected the strategically important enemy base to an intense naval gun and aerial bombardment. Battleships, carriers, cruisers and destroyers participated.

BLUE CROSS A SUCCESS.

American participation in non-profit, voluntary Blue Cross plans for prepaying hospital bills numbered close to 15,000,000 persons as all membership increase records for any six month's period were shattered during the first half of 1944. Of the 1,754,000 additional Americans who decided to relieve themselves of financial worry when hospitalized, 961,000 enrolled during the second quarter of this year as contrasted with 793,000 the first quarter.

The 14,760,000 men, women, and children who are now protected against the unexpected and unpredictable costs of hospitalized illness or injury are exclusive of 750,000 deferred members serving in the Armed Forces. Although the Army and Navy provides hospitalization for those in active service, many servicemen continue protecting their family dependents through Blue Cross plans.

In the Texas Blue Cross plan, W. R. McBee, executive director, Dallas, reports that 10,000 additional persons enrolled during the first six months of 1944. This brings to over 100,000 the number of Texas residents who can enter any one of Blue Cross' 3,000 participating hospitals and leave with their bill for services provided by their plan marked "Paid."

Group Hospital Service, Inc., of Texas is one of 30 community-sponsored Blue Cross plans providing prepaid hospital care in 42 states and 7 provinces of Canada. Blue Cross plans were recently established in the states of Indiana, Florida and South Dakota and budgeting of hospital bills is now available on a voluntary basis to 95 per cent of the American people.

More than 1,011,000 Americans, as of July 1, were also members of medical service plans co-ordinated with Blue Cross plans. Dr. C. Rufus Rowen, director of the Hospital Service Plan Commission, Chicago, which is the national co-ordinating office for Blue Cross plans, reported in releasing national growth figures. These medical plans pay the doctor's or surgeon's bill for any person hospitalized by illness, injury, or need for maternity care. Medical plans are set up by the medical profession and operate according to the same non-profit community service and public welfare principles as do Blue Cross plans.
