

THE CISCO DAILY PRESS

COMBINED WITH CISCO DAILY NEWS AND CISCO AMERICAN AND ROUND-UP, NOVEMBER 1, 1937

CISCO—One of the healthiest areas in U.S.A., with a countryside devoted to blooded cattle, hogs, sheep, peanuts, cotton, fruits, feeds, poultry, gas, oil; two railroads; Bankhead highway; huge concrete swimming pool; bass and crappie fishing.

VOLUME XXIV.

CISCO, TEXAS, SUNDAY, AUGUST 6, 1944.

NUMBER 237

REDS ON EAST PRUSSIA SOIL

BURIAL HERE TODAY OF FORMER CISCOAN

Mrs. Argie Howard McCandies, 55, wife of Hiram A. McCandies, died at 5:30 o'clock Friday afternoon at their home in Breckenridge. Heart trouble was the cause of death.

Mrs. McCandies, a most excellent Christian woman and a native of Cisco, is survived by her husband, two daughters, a son, three sisters and a brother and five grandchildren.

The son, H. A. McCandies, Jr., is with the American forces in England. The daughters are Mrs. P. P. Briggs, Bartlesville, Ok.; Mrs. Joe T. Cook, Mission, Tex. The sisters and brothers are Mrs. J. S. Yeager, Putnam; Mrs. J. R. Burnett and Mrs. Kate Richardson, Cisco, and Edgar L. Howard of San Antonio.

Funeral will be held at 3 o'clock this afternoon at the First Baptist church in Breckenridge, with burial following in Oakwood cemetery, Cisco, beside her parents, the late Mr. and Mrs. J. M. Howard. The officiating minister will be Rev. Roger Hebard of Breckenridge and Green funeral home of Cisco will assist in caring for the remains.

Mrs. McCandies was born July 13, 1889, attended the local schools and grew to womanhood here. She was married to Mr. McCandies in September, 1907. They lived at Eastland for a number of years and reared their children there, moving to Breckenridge only a few years ago.

She joined the Baptist church in early childhood and family and close friends termed her "a happy Christian," recalling also that she firmly believed in and often recited the quotation which says "All things work together for the good of those who love God, and for those who are called according to His purpose."

STIFF SENTENCE GIVEN BRADY FLIER

ELLINGTON FIELD, Aug. 5.—A general court martial last night found Lt. Allen D. Reed, of Brady, Tex., guilty of violating Air Force flight regulation and sentenced him to dismissal from the service, confinement at hard labor for one year and forfeiture of all pay and allowances.

The 25-year-old lieutenant, a pilot in the advanced navigation school at Ellington Field, was found guilty of the charge of involuntary manslaughter.

In an air collision over Puntcheville, La., June 5 one airplane crashed and killed the crew of five men. Reed, piloting the second plane flew back to Ellington.

Reed was also charged with flying closer than 500 feet to another craft while not in authorized formation.

DISTINGUISHED VISITOR—Maj. Gen. Gustavo Sainas, commander of Mexican Air Force, shows intense interest in American paratroop jumping display held in his honor.

RED CROSS OFFICERS EASTLAND COUNTY

Eastland County Red Cross chapter elected officers and chairman August 3, as follows:

Executive Committee — Chairman, Mrs. Joseph E. Perkins; vice chairman, Victor Cornelius; secretary, Mrs. Jack Frost; treasurer, Earl Woody; auditor, Don Parker; home service, H. J. Tanner, all of Eastland.

Civilian War Relief — Prisoners of War, W. N. Taylor, Eastland; disaster, J. E. Matthews, Ranger; home nursing, Mrs. E. Roy Townsend, Eastland; first aid, Mrs. Edward Lee, Cisco; water safety, Henry Pullman, Eastland; accident prevention, Mrs. George Blackwell, Gorman; nutrition, Miss Helen Knowles, Rising Star; Junior Red Cross, Mrs. Willie Mae Carswell, Cisco; public information, Mrs. Ruth Docker, Ranger; war fund, Homey Smith, Eastland; finance, Earl Woody, Eastland; blood donor, Mrs. Art Johnson, Eastland; volunteer special services, Mrs. Arthur Murrell, Eastland; production, Mrs. Curtis Kimbrell, Eastland; surgical dressings, Mrs. Curtis Hartig, Eastland; knitting, Mrs. Guy Parker, Eastland; sewing, Mrs. E. E. Layton, Eastland; canteen, Mrs. Stanley McAnelly, Ranger; staff assistant, Mrs. E. C. Satterwhite, Eastland.

The following branch chairmen are members of the board of directors by authority of chapter by-laws: Cisco, Edward Lee, Ranger; Dr. G. C. Boswell, Gorman; J. E. Walker, Rising Star; J. Frank Robertson, Carbon; Frank Stubbfield.

STRIKERS DO NOT HEED THE CALL TO WORK

PHILADELPHIA, Aug. 5.—A strike of Transit employees stopped virtually all of the city's subway, elevated, trolley car and bus lines today as additional workers remained away from their jobs in defiance of the Federal Government which began bringing in troops to force resumption of service to this city's hundreds of vital war industries.

The strike, called Tuesday in a controversy over the upgrading of Negro employees to the position of operators, was even more critical today than yesterday—the first day of government operation.

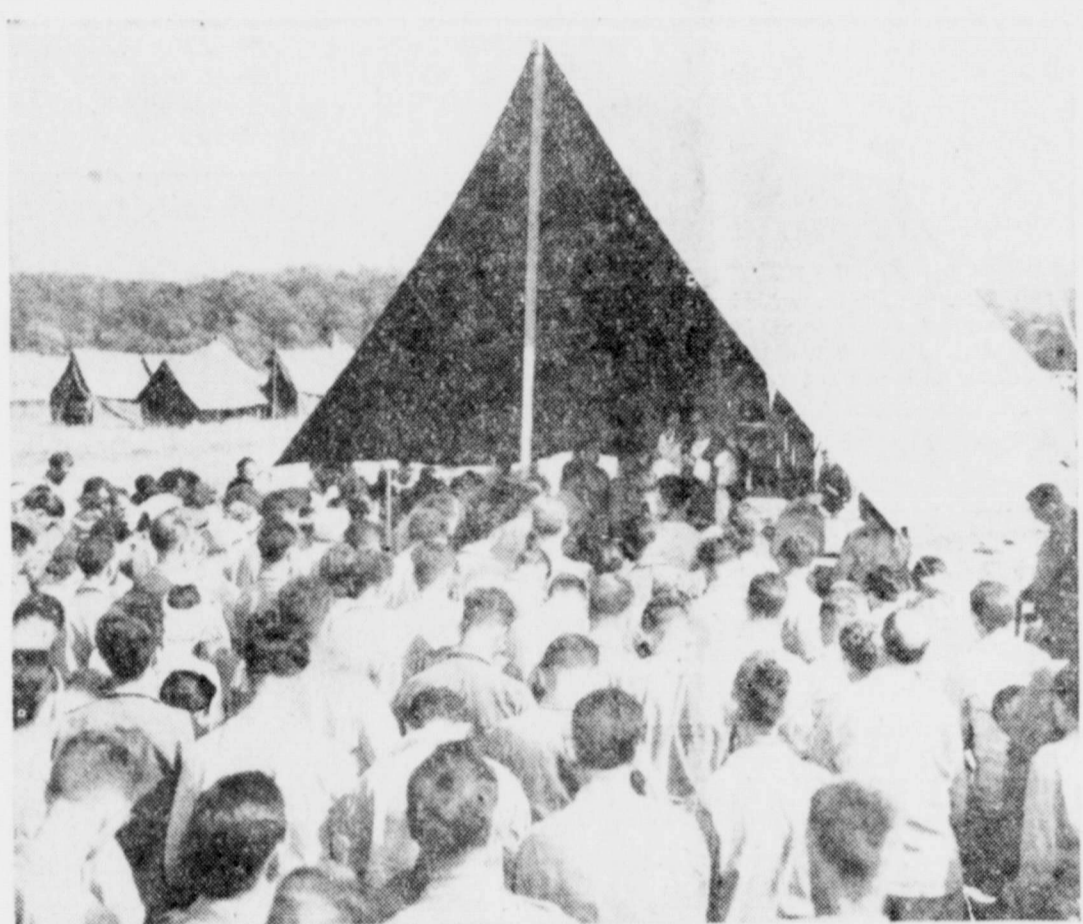

Yesterday, some loyal workers reported for duty at the request of the government and some elevated and subway lines operated on a skimpy schedule.

Today, only seven trains on the Market Street subway — elevated line were operating by mid-morning. Few passengers were being carried. The fifth day of the strike found war production sagging in many industries because of absenteeism of employees who were unable to get to their work.

Army officials had "no comment" on the troop movement. It was reliably reported, however, that Regular Army units, with full battle regalia, were enroute here.

A HOT CORNETIST.

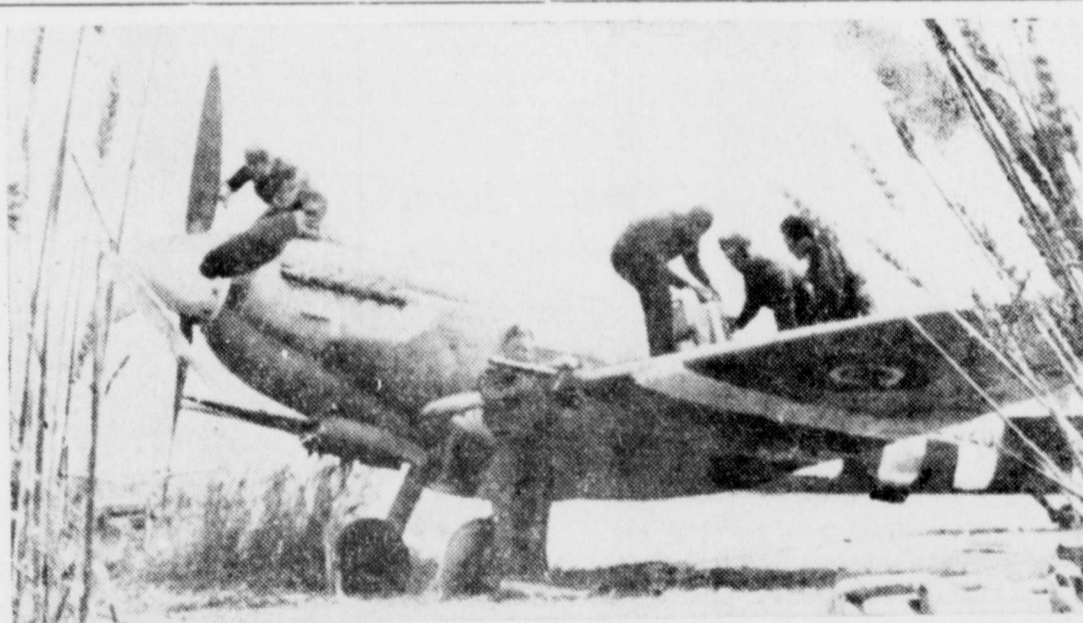

The La Crosse (Wis.) Daily Tribune recently carried a picture of Corp. John J. Haynie, son of Mr. and Mrs. James Haynie of Cisco. The two-column picture shows the 19-year-old Cisco boy as he rendered a cornet solo before a vast La Crosse audience during a bond sale rally. The Tribune said: "A hot cornetist from the Lone Star state is Corp. John J. Haynie, who appeared Monday with the 'Spirit of '76' revue at the Wisconsin theater. Now on its second tour of Wisconsin, the show will give two performances here and admission will be by war bond only. Haynie is winner of 16 state contests and has received many regional ratings."

CHURCH OF CANVAS—That there are no atheists in foxholes seems true, for on all battle fronts service men and women gather in front of hastily erected altars. Here soldiers cluster around small tent shielding impromptu altar as Archbishop Francis J. Spellman presides at Mass at forward hospital in Italy.

CHAMELEONS—New camouflaged uniforms make Yanks blend right into background. These inspect German tiger tank which turned turtle when hit by Allied bomb during great American offensive in Normandy.

IN A WHEATFIELD—A study in photography is this Spitfire framed by graceful stalks of wheat. RAF ground crewmen work on plane at its dispersal point in Normandy wheatfield.

BROTHERHOOD HAD PROGRAM; NEW OFFICERS

The Brotherhood of East Cisco Baptist church met Friday night at the church for election of officers and a spiritual program. The program subject, "The Life of Christ," was discussed by Shobal Houston, J. W. Thomason and Rev. Evan Holmes. The following officers were elected and committees appointed: Shobal Hous-

ton, president; John Whisenant, secretary-treasurer; Don Rupe, program chairman; J. O. Warren, membership chairman; Robert C. Smith and Orville Nance, refreshment committee.

Those present were Rev. Evan Holmes, Shobal Houston, Con Gilmore, Robert C. Smith, Omar Fenley, Guy Abbott, J. O. Warren, Arlin Agnew, Lane Gilmore, Orville Nance, J. W. Thomason, Harry Bosworth and W. T. Stephens.

GILCHRIST IGNORED.

AUSTIN, Aug. 5.—Dr. Gibb Gilchrist, president of A&M College, Saturday broke his Friday

morning's silence with a statement that he and the board of directors of the Texas Home Demonstration association with whom he conferred Friday, "did not agree about the dismissal of Miss Maurine Hearn." The board had requested Miss Hearn's dismissal as state home demonstration agent in a report read by Mrs. Leon Sullivan, president, at Wednesday's THDA session. President Gilchrist told the women that he felt it their duty to accept the appointment of Miss Hearn. Mrs. Sullivan said that the directors would continue their fight and that they would seek reorganization of the A&M board.

JAP WAR BE PLAYED UP SOON

WASHINGTON, Aug. 5.—You'll hear more and more about the Pacific war. It's part of the Roosevelt campaign strategy. Regardless of what happens to Germany, the Pacific war will still be going on in November. From now on its importance will be underlined, intricacies of its problems will be hammered home repeatedly, all designed to indicate the need of an experienced hand at the helm. Look for the Administration to frown on wild celebrations of victory over the Germans, now being planned in many cities. Official line will be that job is far from finished, that toughest enemy is still to be subdued. Families with men in the Pacific will respond.

Another Pacific angle: Observers here point out that we're playing for even bigger stakes in the war against Japan than on the other side. Just as Russia may dominate reorganization of Europe if she reaches Berlin first, so may the United States have more power in the Pacific if she continues to contribute most to the victory. The stakes: Trade in the world's biggest potential market, trade routes, defense bases.

Wind-up of war in Europe may find German air force and ground equipment almost immobilized for lack of fuel. Authorities estimate German gasoline and lubricant production has been cut 50 per cent by systematic bombings since April.

Story persists here that Chester Bowles has been promised reconversion job, that he'll take over when OPA duties lessen. Donald Nelson will bow out. Bowles talked of resigning a little while ago, no longer does. His selection would be popular in congress.

Political manifestations on the labor front: The CIO-sponsored National Citizens' Political Action Committee, outgrowth of CIO-PAC, is reorganizing today (Saturday) in New York. Meanwhile, publications of the AFL, Railway Brotherhoods, United Mine Workers, and miscellaneous independent unions continue to hammer at the Cio-PAC, charging it is Communist dominated, that its political prominence may harm all organized labor. Some of the labor paper attacks are bitter, giving Republicans more hope of getting a pronounced split in the labor vote. John L. Lewis will hold off his 1944 political pronouncement until the SMW convention, opening Sept. 12 in Cincinnati — with Dewey managers nervous about whether an outright endorsement from him would help or hurt their cause. He may confine himself to his familiar theme — denunciation of the Roosevelt administration. CIO United Automobile Workers will be meeting in Grand Rapids then, and their pro-Roosevelt demonstrations will be intended to counteract any anti-Roosevelt effect from Cincinnati.

INFANTILE PARALYSIS.

NEW YORK, Aug. 5.—Infantile paralysis was revealed Saturday to have gained rapidly in the United States thus far this year, with nearly 1,000 additional cases up to August 1. The National Foundation disclosed that 3,315 cases have been reported in the first seven months of 1944 in comparison with 2,322 cases in the comparable period last year.

BATTLE FOR WARSAW RAGES INSIDE AND OUT OF THAT CITY; KRAKOW THREATENED

LONDON, Aug. 5.—The Russians have carried the ground war to German soil for the first time since the conflict started by penetrating the northeastern part of East Prussia. Berlin reports indicated Saturday, and Moscow dispatches said "fires are raging in East Prussian towns which now are objectives of Red Army infantry attacks."

The German high command statement said there was fighting in the "Sudauen-Schaken district." Sudauen is the old name for the eastern part of East Prussia between the rivers Inster and Angerapp and the Masurian Lakes.

While the battle for Warsaw to the south raged inside and out of the old Polish capital, the Red Army flung strong cavalry forces across two water barriers in a smashing drive to within 30 miles of Krakow, the last big city stronghold of the Germans barring invasion of German Silesia.

A Transoceanic broadcast from Berlin said "heavy fighting is going on against Soviet formations which have broken through on the East Prussian border north of Wirballen (Virbalis)."

Virbalis is a frontier post about a mile from the East Prussian frontier. The village itself is two or three miles from the station on the main railway between Kaunas, former capital of Lithuania, and Konigsberg, largest city of East Prussia. It is in this area that the Russians have been reported shelling East Prussian territory for several days.

SUPREME HEADQUARTERS, AEF.—American armored vanguards, fanning out through Brittany at the record pace of a mile and a quarter an hour, probed to within 150 approaches to St. Nazaire and Nantes on the south coast and pushed to within 80 miles or less of Brest at the western tip of the peninsula today.

Supreme headquarters said the Americans were leaping ahead in speedy advances the length and breadth of the Brittany peninsula without encountering organized resistance.

Approximately one half the peninsula already was in American hands and word was expected almost momentarily that Lt. Gen Omar N. Bradley's forces have reached the south coast, sealing the fate of the remainder.

With reports reaching headquarters trailing anywhere from 12 to 24 hours behind the fighting, the exact whereabouts today of the half dozen or more American spearheads carving up Brittany were not known definitely.

GENERAL HEADQUARTERS, New Guinea.—The Japanese 2nd Army, comprised of several thousand troops, fled south and west through the Vogelkop Peninsula of western Dutch New Guinea in "full retreat" Saturday in a frantic effort to escape American assault forces.

The fear-stricken enemy abandoned all strongholds on Geelvink Bay and the upper part of the Vogelkop Peninsula, leaving to U. S. forces three major airfields and a good harbor.

As the Japanese retreat began, American forces on Sansapor beachhead expanded their positions at the cost of minor losses, while attack planes bombed and strafed the Nabire airdrome and barracks area, setting off many fires.

General MacArthur said the Japanese apparently hoped to evacuate western New Guinea after the Americans seized a 10-mile strip on the Vogelkop Peninsula, but pointed out that the natural difficulties of the movement were great.

"With the added hazards of our ground, naval and air activities Japanese losses at best can not fail to be calamitous," the report added.

MONROE CITY VISITORS.

Mr. and Mrs. W. E. Harris and five children are here from Monroe City, Tex., to visit relatives. Mr. Harris is a son of Mrs. Pearl Harris, 1307 A avenue, and Mrs. Harris is a daughter of Mr. and Mrs. J. W. Kilgore, who reside three miles west of Cisco. Mr. Harris is an employe of the Humble Oil company, has been with that organization nineteen years and is a member of the school board in his home town. He made his home in Cisco for about eight years.

FT. STOCKTON VISITORS.

Mrs. Carl Smith and three daughters, Misses Shirley, Carla Jean and George Ann, have returned to their home in Ft. Stockton after a pleasant visit here in the homes of Mrs. Smith's mother, Mrs. L. H. Qualls and her sister, Mrs. Roy Hoffmyer. The girls had spent five weeks with their grandmother and aunt. Sue Smith from San Angelo, another grand-daughter, is now a guest of Mrs. Qualls.

FOR SALE—Triple-A Rhode Island Reds, pullets and cockrels; Gold Seals. 1300 M avenue. 259

Per week, by carrier boy 12c

CHANCE FOR LASTING PEACE.

The two most pressing domestic problems after the war will be jobs and taxes. And they both hinge on the profitable operation of private industry. That raises the question, Where will our industries find their markets?

In the future, with air transportation shrinking the globe to little more than a 24-hour trip to any point, our markets must be worldwide. Therefore, we must have a foreign trade policy that will enable us to sell, as well as buy from our neighbors. Recognizing this condition, the statement of the newly organized Committee on International and Economic Policy of which Winthrop W. Aldrich is chairman, calls for a multilateral trade agreement for the United Nations, creating an international economic charter to define the rights of traders and investors in foreign countries. It endorses unconditional most-favored-nation treatment, rejects regional preferential agreements and exchange restrictions, and states that if governments strengthen their policies of production and restriction to achieve security "in a contracting world economy . . . the end of that road is a third world war."

On this statement of fundamentals, Harry D. Gideonse, president of Brooklyn College, says: "This is an excellent doctrine, elementary free enterprise economics and sound political thinking. The repudiation of the trade agreements program at this juncture would be a national tragedy. After the war, there will be a crying demand for America's mass production goods and farm products from every country in the world. If we maintain a liberal policy regarding imports, this demand can create thousands of postwar jobs in this country, utilizing industrial and agricultural capacity which otherwise would be idle."

"But to export, we must be willing to import. Hence, the renewal of the trade agreements program is essential for maintenance of employment and business activity at a high level after the war. Moreover, in the Atlantic Charter, the United States is pledged to the long-run principle that all nations, great and small, should have access on equal terms to the trade and raw materials of the world."

"Every country, therefore, if it wishes to promote the expansion of world trade, which is a fundamental condition for the establishment of a durable peace, must show greater willingness to accept the goods of other countries. In other words, the lowering of tariffs under the leadership of the great trading nations, is an essential means of realizing the program of economic and political cooperation endorsed by the United Nations."

A PROGRESSIVE OIL INDUSTRY.

In concluding successfully three years of a partnership with the Federal government in supplying petroleum products for the Allied forces, the Chairman of the Petroleum Industry War Council pledged the determination of America's oil industry to achieve any goal set for it by the needs of Uncle Sam's fighting men, until D-Day becomes V-Day.

The petroleum industry of the United States produces almost 90 per cent of the petroleum products used by the Allied forces, according to William R. Boyd, Jr., chairman of the Petroleum Industry War Council. This petroleum is produced by hundreds of oil companies, large and small, financed, owned and operated by hundreds of thousands of private citizens of the United States.

Our oil production is not government owned or controlled, as is the case in many countries in the world with rich oil resources. In such countries, there has never been any progress in oil development such as in the United States—there has been no incentive.

In our own country, development of government oil lands was held up until there was an "emergency," and then they were not ready to produce oil when war came. The operating private companies were the ones that had oil when it was needed.

Therefore, the oil industry is proud of the fact that it "was ready" to successfully cooperate with government to provide the many petroleum products indispensable to the war effort. But this result would have been impossible, says Mr. Boyd, "without the full cooperation of an indulgent public that willingly surrendered the one thing that in many cases is most dear to the average American—the gasoline for his automobile."

Good Tools.

Men used to harvest wheat with a thing called a cradle. A cradle is a wooden piece now, most able-bodied farmers never saw one. It is a scythe (blade like Father Time carries) with a wooden frame attached to catch the straws as they fall, so the workman can lay them straight for bundling. Even I can remember seeing farmers cradle patches too small for maneuvering a reaper.

Swinging a cradle is hard work. There is almost none of it done these days. But farmers didn't quit using the device for that reason. They still find plenty of hard work to do. The cradle was cast aside because it was inefficient, extravagant. It used to take the profit out of a wheat crop to pay enough men \$1 a day to harvest it. But Mr. McCormick's reaper changed all that.

Mechanized Farming.

Some people complained for a while about farm machinery putting men out of work but that's not what happened. No machine can do a man's work. Machines serve men, help them earn more by helping them do a bigger day's work. Today one farmer with good tools produces as much as 30 farmers did 100 years ago. In those days two-thirds of America's labor worked on farms; now only 18%, and these can over-produce.

Machinery, American inventiveness, helps working people. There is no hocus-pocus about it. No straight-thinking person needs any high-brow economist to help him read these three sign-posts: (1) In the long run, people get paid for what they produce. (2) With good tools, which call for investment, they can produce more. (3) Investments in machinery raise the workers' wages.

Men vs. Machines.

It's a fact that employers who work men on purely mechanical jobs are always faced with a three-cornered problem — men, money and machinery. They can hire a man's body for wages or buy machines that will do the same work without getting tired. If interest and depreciation for the machine is less per year than the man's wages, the employer is likely to buy the machine. Being replaced by a machine may sting some satisfied laborer's pride but he is soon benefitted by learning to manage cold steel rather than compete with it. This is the very first lesson, the A-B-C of American prosperity built on intelligent work: volume production, low in cost and good. No-where else on earth can the man who swings a sledge enjoy his own automobile and bathtub.

What Volume Does.

Wages for men are figured by the hour; depreciation on machines by the year. The result is interesting: If two men work eight

hours apiece and keep one machine running 16 hours a day, the owner thus doubles his output but does not double his cost. So the owner's margin per unit of sale is wider and he can lower his price

MUST HAVE GONE TO DIFFERENT SCHOOLS—Told to give German Army salute, these Nazi prisoners seem a bit confused. Smiling Jerry at right snapped into a Reichswehr, center prisoner heeled and third man just didn't know what to do. Cpl. Ernest Pokel of New York watches German Army training demonstration.

JOAN EWELL HONORED BY BIRTHDAY PARTY.

Mrs. Hugh Ewell entertained a group of girls with a lawn party at her home Wednesday night honoring her daughter Joan on her thirteenth birthday. A pretty birthday cake, baked by a neighbor, Mrs. Fred Grist, was admired by the girls.

Games played on the lawn entertained the group until a late hour. Refreshments of birthday cake and cold drinks were served to the group by the hostess, assisted by her mother, Mrs. J. W. Babb of Abilene.

Those present were Joan Ewell, Jeanette Hansen, Betty Rowe Wilcox, Mary Philpott, Lovell Paul, Lenora Rendall, Eleana Moad, Patricia Grist, Mary Prudence Harris and her guest, Lyla Ruth Legarde of Shreveport, La.

YWA GROUP WITH MISS DOROTHY JACKSON.

Miss Dorothy Jackson was hostess in her home on west Nineteenth street Tuesday evening when members of the young women's auxiliary of First Baptist W.M.U. met for regular meeting with Miss Bonnie Jean Wilson, president, in charge.

Minutes of previous meeting were read by Miss Louise Norris. Cards of thanks from sick people were read. Miss Billie Jean Hall was elected reporter to fill the vacancy caused by a member moving away.

The evening program on "Our Indian Neighbors" was brought

by Miss Dorothy Nell Pugh. Miss Pugh illustrated her talk with pictures and presented a hand-painted gift to those assisting with the program. The meeting closed with prayer by Mrs. E. L. Pugh, assistant sponsor.

WAR FUND. Your RED CROSS is at his side. A black and white illustration of a soldier in uniform, holding a rifle, with a large red cross symbol in the background.

RED CROSS WORKS AT HOME and ABROAD. The Cisco Red Cross has cooperated with the county and national organization by doing thousands of pieces of work to be sent to soldiers on the field of battle or wherever bandages might be needed. These women of Cisco and Eastland county have entered enthusiastically and energetically into this work and have found pleasure in doing these deeds of mercy. They will continue to carry on -- like the women of America have always carried on -- like the women of the revolution who continued to fire her husbands gun after he had been slain. We congratulate these women of Cisco and trust that their sons and sons' friends may return safely to their homes in America. CISCO GAS CORPORATION

COOL COSTUME — Hauled into court by New York policeman for causing a disturbance in her hot weather garb, Margaret Russell looks cool and comfortable despite soaring temperature after case was dismissed by magistrate.

CHAMP — Ann Curtis, San Francisco swimmer, broke world record in Pacific Association AAU championships, bettering time for 44, 890 and 1,000 yards in women's freestyle.

DALLAS OSTEO-PATH LAUDS BARUCH GIFT

SAN ANGELO, Aug. 4.—The recent gift of \$1,000,000 by Bern-

ard M. Baruch for research in physical medicine is a great boost for mechanical treatment used in the practice of osteopathy as well as methods for treatment of infantile paralysis as advanced by Sister Kenney. Dr. Sam Scothorn of Dallas told members of the West Texas district of the State Association of Osteopathic Physicians and Surgeons. He was a featured speaker at a luncheon marking the district meeting at Hotel Cactus. Dr. Scothorn quoted Baruch as saying "that returning men and

women now in the armed services will need the advantages of physical medicine." The lecturer reported the Baruch committee had recommended research in osteopathy. "This pleases our profession,"

the exponent of physical medicine said, "because our colleges give a four-year course, our graduates pass examinations given by the Texas State Board of Medical Examiners and we know osteopathy can stand an investigation."

this mansion

all get the same

electric service!

WAR has moved many American families into new living quarters. But, whatever the size of their homes, they all get exactly the same dependable electric service.

Oh, sure, some folks may light more rooms and use more appliances than you do. But the service and the quality of the electricity you receive remain the same. You can't buy an "exclusive" grade.

Electricity is also the one service whose cost has remained low — while the cost of living in general has been going up. Whoa, you say? Your bill's been more over the years? Well, that's because you're now using electricity to keep food, wash clothes, clean rugs, tell time and make music—where once you used it only for light.

The truth is, the average American family today gets about twice as much electricity for its money as it did 15 years ago! And we, your friends and neighbors, are proud to be one of the many electric companies under business management, bringing you this bargain.

West Texas Utilities Company

Thrill your family with these delightfully refreshing summer Desserts and Drinks made with...

VANDERVOORT'S Sherbets

- * RASPBERRY
- * ORANGE
- * PINEAPPLE

- No. 1 Pineapple Petite**
Place round slices of fresh pineapple on plates... a mound of Vandervoort's Pineapple Sherbet in the center of each slice... and top with a green maraschino cherry. One pint of sherbet serves four.
- No. 2 Orange Cooler**
Put one tablespoonful of light cream in a tall tea glass... a scoopful of Vandervoort's Orange Sherbet and fill glass with ice cold orange soda pop. Serve at once. One pint of sherbet makes five servings.
- No. 3 Raspberry Half and Half**
Mix one pint of Vandervoort's Sweet Cream Ice Cream with one pint of Vandervoort's Raspberry Sherbet. Place in freezing tray and re-freeze. Quart mixture makes six generous marble effect slices.
- No. 4 Sherbet Sandwich**
Cut one-inch-thick wedges of plain angel food cake and place a slice of Vandervoort's Orange, Pineapple or Raspberry Sherbet between two segments and serve on small cake plates. One pint of sherbet serves four.
- No. 5 Refreshing Sherbet Drinks**
Put a generous scoopful of Vandervoort's Pineapple Sherbet in a tall glass... fill with sparkling water, ginger ale or 7-Up... ice cold... garnish with a wedge of fresh sliced pineapple. You can make up many delightful drinks by combining any flavor of Vandervoort's Sherbet... with your favorite soft drink flavor.

THANKS, CAR OWNERS

For Helping Us With a Big Job

Our Service Shop has been a busy place this past year. Many car owners depended on us to help keep their cars rolling, and with their help we've done the job.

Ford Protective Service has been adopted by most of our customers. They bring their cars to our shop regularly for expert inspection and maintenance work, preventing small repair jobs from becoming major overhauls.
