BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just ignore them and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's chief way of taking excess acids and poisons waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisons waste matter stays in the blood. These poisons may start nagging backache, frequent urination, leg pain, loss of appetite, getting up at night, swelling, puffiness under the eyes, headlache and dizziness. If you're an active person with something wrong with your kidneys or bladder, don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

LIEUT. MILES WRITES FROM MONROE, LA.

Writing from the AAF Navigation School at Selman Field, Monroe, La., Lt. Ted Miles, pilot-instructor, who received a nice vote in Cisco but was defeated for state senator by Sen. Pat Bullock in the first primary, had the following to say:

"Thanks for your prompt service in sending me the Cisco Daily Press. The paper is well arranged and well printed and I enjoyed it very much.

Even though my home town is Stamford, I have always liked Cisco and have many friends there. I took pilot training with Lt. McDonald and one of my students here, Cadet Taylor, is a Cisco boy.

I am looking forward to meeting you when this war is over. With kindest regards,

Your friend, TED MILES."

LESLIE HILL WRITES MOTHER FROM OVERSEA

Mrs. Lizzie Hill, 1906 C Avenue, has just received a letter from her son, Leslie Hill, 24, who serving overseas with the naval signal corps. It was the first word from him since March. The Cisco boy enlisted in the coast guard on August 29, 1942, and went across last December. Excerpts from the letter:

Dear Mother: Have received several letters from you since I have written, having been delayed in answering for various reasons.

I ran into Danny Love out here about two months ago. He said he thought he would go back to the states soon. I doubt if I can come back for quite a while. The worst complaint I have over here is the heat. Heat rash breaks out on us pretty bad at times.

I am glad you liked the pillow; will try to get you something else when I get where there is something to buy. Will close now and write Ted. Love, Your son,

LESLIE L. HILL.

PUBLIC EATING PLACES MUST TOE THE LINE

Eastland County War Price and Rationing Board requests the Daily Press to remind operators of public eating and drinking places that August 9 is the dead line for filing their base period prices with the county board.

The regulation provides, says the board, that proprietors or operators who have not filed this information with the board by the aforesaid date can be prohibited from doing business.

It is also announced that the Eastland county board has not yet received complete instructions as to procedure in securing new A books. However, auto operators are advised to keep in their possession the back of their present A book. According to present information, new books cannot be issued unless the back of the previous A book is surrendered, together with the tire inspection record.

ROBT. M'GOWEN COMPLETES AIR SCHOOL TERM

The Amarillo Army Air Field informs the Daily Press that Robert E. McGowen, son of Mr. and Mrs. H. E. McGowen, Humboldt, has completed his course of studies as an aviation mechanic with the air forces technical training school.

McGowen's graduation now fits him for airplane maintenance, the report says, and he will be sent to an air base and assist in keeping our flying fortresses in the air for Allied victory. In addition to finishing the schedule of academic and practical studies as an aviation mechanic, the Ciscoan has been thoroughly drilled in military tactics and defense and a course of physical training that has conditioned him to meet all requirements of an American soldier.

McGowen, 18 years of age, was born in Breckenridge, but has lived in Cisco since he was a year old. Following the graduation exercises, tentatively set for August 18, he is expected to return home for a brief visit.

MUSIC PROGRAM A RARE TREAT TO ROTARIANS

Rotarians received a rare treat today when Rotarian R. L. Ponsler introduced Miss Gloria Graham, at home from school in New York City, in a program of violin music which elicited applause and hearty insistent encores.

Miss Graham was accompanied at the piano by Miss Martha Jean Morehart, whose performance added materially to the program.

A feature of the program was a number written for only the G string of the violin, but the rendition was so varied that had she not so announced it, the audience wouldn't have noticed that it did not encompass the whole field of potentiality of the entire four strings.

At the close of the program Miss Graham was prevailed upon to play an extra number as a violin solo. Both she and Miss Morehart were congratulated for their splendid performances.

Other visitors and guests were W. A. Stephenson, assistant dean of Hardin-Simmons University, Abilene, and Mrs. E. L. Graham.

16 MORE JAP SHIPS SUNK BY OUR SUBS

WASHINGTON, Aug. 10.—American submarines operating in Japanese waters, have destroyed another 16 enemy vessels including one warship, the navy announced today.

The latest bag of the far-ranging subs, which may have operated in coastal waters of the Japanese homeland, brings to 839 the number of Japanese ships of all types sunk, probably sunk or damaged by submarines alone.

Included in that total are 54 warships definitely sent to the bottom, 11 probably sunk and 14 damaged. The damage to the enemy merchant fleet includes 633 ships sunk, 26 probably sunk and 101 damaged.

A medium-sized tanker was included in the latest announcement, thus cutting deeper into the enemy's swiftly dwindling fuel transportation facilities.

Other craft in the latest total were an escort vessel which may have been comparable to the American destroyer-escort used in convoy duty, a large cargo transport, seven medium cargo vessels, four medium-sized cargo transports and two small cargo vessels.

BARKELEY BATTALION AT LAKE

Approximately 600 men of the 134th maintenance battalion, Camp Barkeley, together with their wives, will spend Saturday at Lake Cisco in celebration of the organization's second anniversary.

The day will be spent in swimming, skating and other diversions at the lake and at 7:30 Saturday night the 12th armored band will give a concert, to which the Cisco public has been extended a cordial invitation.

J. Monroe Sweeney, Lake Cisco amusement pavilion, the music to Mayor and Mrs. Edward Lee, Mrs. Philip Pettit and others worked together in making special arrangements for the entertainment of the visitors.

Following the band concert the battalion will give a dance at the amusement pavilion, the music to be furnished by the battalion orchestra. This will be the final event of the day.

The battalion's personnel was recruited from employees of the International Harvester Co. during July, 1942. It was activated a month later at Camp Perry, O., and joined the 12th armored division at Camp Campbell, Ky., in September of that year. In November of last year the battalion moved with the 12th division to Camp Barkeley, Tex., where they are now stationed.

Approximately a third of the original personnel remains in the battalion, many having been promoted out of the group. There are a number of Texans among them.

Charles P. Brock, chief warrant officer, is the band leader and Vincent E. Delio, technical sergeant, is his assistant.

The Day's Program.

MEXICO OIL PROPERTIES.

MEXICO CITY, Aug. 10.—All private oil production properties in Mexico must be expropriated under the law of 1941 nationalizing the industry, the Supreme Court ruled Wednesday. Most private companies operating here were dispossessed in 1938, but a few remain.

NEW YORK, Aug. 10.—Reports by the British radio today said "French patriots are in control of Bordeaux." "The city," said reports from the Spanish frontier, "is in a state of siege and flags of Great Britain, the United States and Free France wave from its buildings."

RUSSIANS SAY GERMANS HAVE SHIFTED SIXTEEN DIVISIONS TO THEIR EASTERN FRONTIERS

MOSCOW, Aug. 10.—The Red Army, announced today that the Germans have shifted more than 16 additional divisions—160,000 to 240,000 men—from central Germany and occupied countries in the past few weeks for a do-or-die, gamble-all stand on the Reich's eastern frontiers.

The Germans were counter-attacking with increasing ferocity on the borders of East Prussia and on the approaches to Karkow, key to the southeastern invasion route to Berlin, and apparently had stemmed the Soviet onslaught temporarily.

Russian sources were confident, however, that the Soviet commanders would resume their pincers march into Germany after absorbing the full shock of the enemy's counter-thrusts and re-grouping their own forces.

Russian reconnaissance pilots said the Germans were feverishly fortifying East Prussia towns and rushing supplies and reinforcements into the province under cover of the almost constant counter-attacks, centered principally between the Lithuanian town of Mariampole and the border.

German troops and supplies appeared to be pouring into East Prussia as fast as they can move and German fighter and bomber squadrons were massing on airfields throughout the province for showdown battles, the reconnaissance pilots said.

SUPREME HEADQUARTERS, AEF.—American forces surrounded Nantes, Angers and the big submarine base of Lorient today and, far to the east, fanned out beyond liberated Le Mans within 100 miles or less of Paris in a drive that may outflank the French capital from the south.

In Normandy, British forces struck out in a new attack down the main highway and railway from Caen to Paris and in the first few hours advanced two miles to the approaches of Vimont, seven miles southeast of Caen and 112 miles west of Paris.

Other British troops broke out of their bridgehead on the east bank of the Arne river near Thury-Harcourt, 14 miles south southwest of Caen, and swept through several villages in an advance toward a junction with the Canadian 1st Army, driving southeastward within sight of Falaise, 20 miles southeast of Caen.

Though the Canadians had smashed completely through the enemy's first two lines of defense along the Caen-Falaise highway, a front dispatch said the Germans had recovered from their initial shock of the assault and now were contesting the advance with a gun screen along the left flank.

SAN FRANCISCO.—American forces were mopping up enemy remnants on Guam today to complete the reconquest of first American territory seized by the Japanese while jungle troops under Gen. MacArthur began the systematic annihilation of the trapped Japanese 18th Army on British New Guinea.

Admiral Nimitz announced that the Americans had crushed all important resistance on Guam Tuesday after three weeks of fighting. Only a handful of the island's original garrison of 15,000 remained and they were surrounded in a small inland pocket.

About 12,000 enemy dead have been counted but there was no estimate of the number killed by the steady air and naval bombardment which supported the ground forces. Few if any Japanese were believed to have escaped from Guam.

The conquest virtually completed the campaign in the southern Marianas to give the Allies a firm foothold within Japan's inner defenses. Only by-passed Rota, between Guam and Tinian remained in Japanese hands.

STOCKHOLM.—A group of enterprising Paris spectators has cornered and already sold out all available window seats along the expected route of the Allies' triumphal march through the city. Windows around the Etoile and Arc de Triomphe, particularly in demand, sold for as high as 10,000 francs.

A traveler reaching Sweden from Paris Thursday brought this information, adding that "everything else already has been arranged for Allied entry. United Nations flags and bunting are being prepared more or less openly and inventory taken of carefully husbanded champagne which has been saved for Liberation Day."
