BIG THINGS BREWING IN PACIFIC

Much is Expected of Reorganized C. of C. Committees

A committee organization to serve during the remainder of the fiscal year was announced at the board of directors meeting of the Cisco chamber of commerce Tuesday night. The board also heard reports on a farm survey now being made, and an interesting discussion of peanut possibilities in the Cisco trade area by John Burroughs, San Antonio peanut processor, whose firm will buy peanuts in Cisco this fall. Mr. Burroughs discounted the future value of peanuts as an oil source; due to competing oils, but said that the possibilities for extending the market for the crop as a food were excellent, and that Texas stood in a good competitive position with respect to northern and western markets. Peanut millers, he said, are carrying on a nationwide advertising campaign to promote consumption of the peanut.

Some possibility of a plant in Cisco was discussed, but it was explained that restrictions on machinery due to war needs hampered this. Burroughs was introduced by J. L. Thornton.

Scranton business men and farmers, the board was told, were very cooperative in helping to make a farm survey of their territory looking to dairy promotion and road improvement after the war.

It was pointed out during the meeting that peanut growing and dairying go hand in hand because of the excellent feed source of peanuts and peanut hay. A combination of these crops was indicated as the basis upon which the chamber of commerce would work for the development of farm prosperity in this section.

The great need of farm roads in the eastern part of Callahan county, which is the most important part of the Scranton territory, was emphasized, and Scranton citizens were reported as much interested in having the assistance of the chamber in working out a suitable program of road building there.

The board declined to act upon the request of the Southwestern Greyhound lines for a resolution opposing application of the All-American Bus lines for a permit to operate intrastate.

In the committee organization announced by President Lauderdale, a policy of grouping all related committees under four or five general heads was followed. The committees were notified that each will be expected to function independently on matters within its sphere, so that a great deal of detail could be removed from the board as a whole and its meetings shortened. Many of the associate members of the chamber were named to committees. In spite of the heavy rain which fell during the evening, a creditable attendance of members was noted.

Directors present were J. J. Callaway, R. N. Cluck, E. P. Crawford, J. R. Deen, N. C. Huston, J. D. Lauderdale, A. E. McNeely, R. L. Ponsler and J. L. Thornton. Others present were Mr. Burroughs, M. D. Fox, vocational agriculture teacher, Mayor Edward Lee and B. A. Butler, secretary. Committee organization was announced as follows:

Executive Committee—J. D. Lauderdale, R. L. Ponsler, Nick Miller

Finance and Budget—Nick Miller, chairman; N. C. Huston, J. R. Deen.

Transportation—E. P. Crawford, chairman; L. A. Warren, R. L. Ponsler.

Farm to Market—E. P. Crawford, chairman; R. N. Cluck, W. J. Armstrong

Highways—L. A. Warren, chairman; E. G. Dameron, Albert Hansen.

UNCLE SAM IS ONLY FIFTEEN MINUTES OLD

Amos W. Myers of Breckenridge brought an interesting message to Rotarians Thursday, being well delivered and of a very unique nature, but driving home a moral and a lesson of life very close to the heart of every citizen of America. Other visitors or guests were R. A. McDaniel, Eastland; Glenn Dugan, Abilene; Rev. James R. Wright, Arlin Birt and Charles Clark, Cisco.

Some discussion was made and it was voted to accept the sponsoring of five former inmates of "Boys Town", now in the service, who are orphans, to the end that the club will buy and arrange Christmas packages to be sent them.

J. E. Hayes announced that Cisco club might be losing her long-held place in the "upper ten" attendance contest in the district, on account of constant absentees with no make-up.

Rotarian A. C. Green had charge of the program and he introduced J. R. Wright, who in turn presented the speaker, saying that Mr. Myers, pastor of the Christian church at Breckenridge was too well-known among Rotarians as a speaker, despite the fact that he was a Lion, to need much introduction, so he would merely present him.

The minister announced his subject as "Sam is 15 minutes old", meaning Uncle Sam as the personification of the United States. He began his talk by calling attention to the historical fact that representatives of 70 nations of the world met in Europe in 1937 to discuss two things. These were Faith and Fear. Little about faith was discussed but the subject of fear was of much more interest. Two countries—England and the United States—took little interest, since they had few fears. The speaker then turned his attention to democracies, especially the United States, saying that wise majorities were safe to follow, but unwise men were always unsafe to be sitting in the saddle of command.

Then changing to a discussion of Uncle Sam, he said that really he did not conform to the character of "Uncle" as compared to civilization, since we were just a little over 400 years old, while the oldest nations dated back to more than 5,000 years before Christ, and added that we had developed no culture of our own, all that we have being borrowed, just like religion was borrowed from the Jews who formulated it many centuries before our nation was even thought of. So, compared to others, our Uncle Sam is just a tiny baby only 15 minutes old, he said. Myers then said that one usually inquired about the health and apparent mentality of a new born infant, so he would discuss the health of Young Sam.

The vast resources and the billions in gold buried in safety vaults shows the little fellow is in fine economic health, but there are several things that might mean a weakening soon if the trend is kept up.

As to his I. Q. the speaker declared that line showed a steady decline and went on to discuss disasters that could come to threaten the life and growth of Little Sammie before he ever had time to even reach manhood.

It was a very well organized talk and was provocative of much thought.

Lions Luncheon
Lions enjoyed a United War Chest drive program Wednesday brought by B. A. Butler, secretary of chamber of commerce and publicity chairman for Eastland county, in the form of a motion picture projection, through the courtesy and cooperation of Lion Arlin Birt.

Lion George Downie presented a list of names of former "Boys

250 PRESENT AT COUNTY LIVE STOCK MEETING

EASTLAND, Oct. 7.—Dan Childress of Eastland was re-elected president of Eastland County Livestock association at the second annual meeting and field day of the organization held at Eastland city park, Thursday. Other officers elected included T. L. (Till) Wheat of Morton Valley, vice-president, and Fred Brown of Eastland, secretary-treasurer. Twenty-one directors were also elected.

The program opened with an address at 10:30 a. m. by Dr. J. B. Broughton, director of the Sonora experiment station, who discussed the care and treatment of livestock, stressing the cure and prevention of diseases.

A feature of the afternoon session was an address by E. R. Eudaly of Texas A. & M., extension service on livestock raising, in which he stressed the growing of better grades of animals.

A barbecued luncheon was served at noon to 250 livestock association members and guests.

STRIP TEASE—Flashing roguish smile, Coast Guardsman Robert L. Volten, Seaman 1/C of Bethesda, Md., is ready to go into act with Rising Sun draped about loins and wearing Jap hat and specs. Performance on Saipan might be called "Tokyo Follies."

IN HONOR OF A HERO—Pvt. Bessie L. Tollberg (right) of Peoria, Ill., wears Purple Heart, Navy Cross and Presidential Citation posthumously awarded her husband who died in action on Guadalcanal. Lt. Elfrida Heideman studies decorations at WAC camp in Fort Des Moines, Iowa.

WILLARD MILLER IS KILLED ON PELELIEU

Word has been received in Cisco of the death of Willard Miller, 34, of the Marines, who was killed in action recently on Pelelieu Island in the South Pacific. No details were furnished except that Miller was buried on the island.

The young man, son of W. M. Miller, former Cisco chief of police, who now lives at Morenci, Ariz., as does the Marine's widow, the former Miss Golda Pearl Harrell, who made her home here at one time and attended Randolph College, will be remembered as an outstanding player and member of the almost invincible Fighting Lobos during the late 20's.

Deceased is a brother of Ray Miller of Cisco, who married Miss Journe Armstrong, daughter of Mr. and Mrs. W. J. Armstrong of this city. Ray Miller is also in the service and is serving with the Seventh army in France.

SON ON ROLL
Mr. and Mrs. Charlie Yates of Corpus Christi made a special trip to Cisco last weekend in order to be in the service at First Methodist church honoring the men and women of that congregation who are in the armed forces. Their son, Lt. Charles Yates, now believed to have gone overseas, was one of those on the Service Roll.

CHINA CANNOT WAIT; ALLIES MUST GO AHEAD; EVEN THO EUROPE VICTORY BE DELAYED

WASHINGTON, Oct. 7.—Big developments are brewing in Pacific. War against Japan is no longer considered a secondary affair. China can't wait. Allies can't wait. They must go full steam ahead whether victory comes in Europe this autumn or not. So watch for Jap fleet to come out and fight before winter ends. It can't remain in hiding forever. Today it is where the Nazi air fleet was a year ago. If it refuses to fight it will be blasted sitting still. If it accepts battle, it will be licked. It's an open secret that Allies intend to break through Jap ring and establish a base or bases in East China from which to go to Nippon. And it's up to Jap fleet to prevent the break-through at any cost—if it can. One of the greatest sea battles in all history is in the making.

But don't expect any letdown in Europe. The true significance of the roset bomb is too well understood in Washington and London to warrant taking it easy. Had the buzz-bomb been ready three months earlier, it might have doomed the European invasion. The V-2 is no mere Nazi bugaboo. It exists. Its destructive power is terrific. Our only comfort is that the Nazis haven't yet got it under control. Its operation is erratic. But time can cure that. If Hitler can prolong the war—even until next spring or summer—he may be able to perfect the new engine of destruction, and he counts on it to give him a negotiated peace. Nobody in the know is laughing off this possibility.

While Sen. Ball (Republican, Minnesota), declines to campaign for Dewey, Senator Burton (Republican, Ohio), Ball's teammate, in international collaboration fight, is being booked by Republican national committee for speeches at major rallies. Says Burton: "Election of Dewey is an essential part of the peace."

PARKS GRADUATES FROM FLIER SCHOOL

Lieut. Spurgeon Parks, 23, son of Mr. and Mrs. S. B. Parks, is home for a visit following his graduation from the naval aviation school at Corpus Christi, last Wednesday. Ensign J. H. Robertson of Harlowton, Mont., who graduated with Parks, accompanied him to Cisco for a visit.

Lieut. Parks was born and reared in Cisco and graduated from Cisco high school in 1938. In September 1939 he joined the navy. He was overseas one year and spent six months of that time at Guadalcanal. He is now a fighter pilot and will be stationed at Jacksonville, Fla.

LT. MEGGLASSON OF ARMY HERE FOR FEW DAYS

Lt. George W. Meglasson of the army left Friday for New York after spending a few days with his mother, Mrs. Cora Meglasson. While here the Ciscoan completed his Masonic blue lodge work by taking the two remaining degrees.

Lt. Meglasson is in the transport service and has made two trips across the sea. He was absent from this country five months the last trip. During his brief visit home, Meglasson was visited by his sister, Mrs. Downie Simpson of Ballinger and her son, J. W. Simpson. The latter only recently arrived in the states after serving thirty months in the South Pacific. Another sister, Mrs. M. L. Loudder of Winslow, Ariz., is also visiting in the Meglasson home.

KLEINER MUCH BETTER

Letters from Charles J. Kleiner to Lee Heltzel and Forrest D. Wright stated he was much improved and is gaining strength daily. Mr. Kleiner, who has been at Mayo Bros. clinic, Rochester, Minn., since early August, is now able to be up each day for a brief period and expects to be transferred to the convalescent ward within a short time. It is not known as yet just when Mr. and Mrs. Kleiner will be able to return to Cisco.

SKILLED LABOR SCARCE

The Daily Press comes out this morning after a shut-down of four days, due to lack of mechanical help. Missing four issues was a hard blow to newspaper pride and a keen disappointment to advertisers and those readers who have been receiving their local daily paper since 1919. Today's issue was made possible by the kindness and consideration of Mr. Carl Garner who, after putting in a full day Saturday at the Corneli Printing Plant in Eastland, came to Cisco Saturday night and labored an additional eight hours for the Daily Press and the people of Cisco. There is reason to believe that a machinist-operator from another state will be on the job here by Tuesday and that the

America and Russia

By Robert Quillen: The Pope recently called attention to a new conflict which is older than history, yet only now has become an issue of paramount and urgent and universal importance. In some regions it seems the old conflict between those who have and those who have not, but it is a deeper and more dangerous conflict of ideas and principles.

When peace comes, there will be only two great continental powers, Russia and America, and the issue, in plain and simple words, is whether the world shall go Russian or go American.

The Russian system and the American system have much in common. The first concern of both is the welfare of all the people. Both encourage a spirit of easy democracy. The Russian people are much like ours. They are progressive and eager to get ahead; they think and take for granted man's equality with man. They have our standards of decency and fairness, and even those who have suffered most condemn any abuse of helpless prisoners.

The great and fundamental difference between us is in our reason for doing things. This difference may not appear in many of the Russian people, for numbers of them are still religious, but the official Russian system which forms the character of the nation, differs from ours as black differs from white.

We do right because it is right and we believe it conforms to the will of God. That is, we are idealists and moralists, guided by conscience.

The Russians may do exactly the same thing, but they are not concerned with the right or wrong of it, for the only morality they recognize is expediency. They do the right thing because it will benefit them.

Since they deny God, they have no measure of goodness except the welfare of man. If a thing benefits the people, it is right, if it hurts the people, it is wrong.

That would usually be true in America; but whereas we do the right thing and it proves beneficial, the Russians do the beneficial thing and believe it right. To benefit the whole people, they deliberately starved millions of rich and stubborn farmers. They calmly "liquidate" people who are a detriment rather than a benefit to the state.

They are completely "practical." As they sacrifice themselves for the good of "Holy Russia," so they would sacrifice anything or anybody. Their code is as realistic as that of the bees, who kill useless drones and work themselves to death for the good of the hive.

Though they profess to have the same goal, our system is based on Christian ideals and moral character, and the other, having no god but the state, justifies any evil that has a desired result. The two may live in peace by tolerating one another, but they can never compromise. — (Publishers Syndicate).

Sixty five boys and girls will complete the seventh grade and be promoted to the High School Department of the Cisco Public Schools. After the program to be rendered in the City Hall Auditorium Friday night, May 23, Rev. E. Buford Isaacs will deliver the class address and "certificates of promotion will be delivered by Judge J. H. Bullock on behalf of school board. Miss Fannie Stevens, teacher of this grade, is to be commended for her excellent work. The exercises of the evening will be directed by Miss Stevens assisted by Miss Eunice Gates, expression teacher.

The board of trustees of Cisco Public Schools at their meeting last week elected a superintendent and principal for our school. The man elected superintendent is Prof. J. J. Godbey of Itasca,

Texas. He is a state university graduate and comes highly recommended. The principal elected for the High School is Prof. Spencer Stoker of Jarrell, Texas. He also holds a degree from the State University. These are the only teachers elected to date.

Mrs. W. A. McCall entertained with a children party on Wednesday of last week from 5 to 7 o'clock in honor of the ninth birthday of her little daughter Lucile. A pink and blue color scheme was used in the dining room. A keystone dressed in blue maline centered the table. The birthday cake with nine candles and cut glass compotes of bon bons and mints were placed about the board. Many nice presents were brought to the little honoree. At the close of several hours spent in frolic on the lawn, ice cream and angel food cake was served to Mary Liburn Neel, Tommie Coffman, Waldine Lingle, Elizabeth Webster, Ida Mae Collins, Lucile Pierce, Bessie Olson, Bertha Helen Trippitt, Dorin Balfour, Opal Warren, Florence Palley, Virginia Dabney, Edith Erwin, Leta Ray, Ora Bea Moore, Blanch and Hartman McCall. Mrs. McCall was assisted in caring for the small guests by Mrs. Edwyne Hollingsworth.

Mr. and Mrs. J. C. Swift of Long Branch community were in Cisco Wednesday and called at this office. They were enroute to Ballinger, their old home.

Mrs. C. H. Fee's father, Mr. Pat, terston, died at the family residence at Boyd, Texas, last Tuesday, after a lingering illness. Mrs. Fee has returned home, accompanied by her mother, who will make Cisco her home.

Rev. J. D. Leslie, D. D., left Monday for New Orleans to attend the General Assembly of the Presbyterian Church, having been the stated clerk of the assembly for a number of years.

G. A. Roberts, Fred Michael, Pete Shelton and Vivian Donovan, all employees of the R. W. Man- oill Motor Company, enjoyed a "blow-out" at the lake Wednesday. Two large bass and many other pleasures were the result of their outing.

YOU CAN

now secure priority delivery on gas all-year air conditioners and refrigerators

The magic gas appliances that cool with the wonder flame (air conditioners and refrigerators) are so desired for postwar living that we are having many inquiries about their purchase now so a priority delivery can be secured. In answer to these requests, Lone Star Gas Company is now offering a simple "Priority Purchase Plan" which gives you the opportunity to contract for a priority delivery on either appliance. You simply pay a small amount now, which is applied on purchase price and a priority delivery number is secured. Once the factory is released from important war work and production is resumed on these appliances, delivery will be made according to numbers on priority contracts. Be among the first to enjoy real home comfort and convenience. Get complete details at your gas company office and sign up today!

THE Gas AIR CONDITIONER

In summer, it brings scientific relief from hot, sticky weather... providing refreshing, invigorating, cooled, and dehumidified air. In winter, it provides dependable warmth and correct humidity throughout the home on coldest days. In every season of the year, it supplies clean air without drafts... filtering out dust, dirt and pollen. It is a complete air-conditioning unit for all seasons. It is an amazing and revolutionary development—a startling advance in cooling for the home and smaller business establishments.

THE Gas REFRIGERATOR

Wartime is proving—as never before—the value of the one refrigerator that freezes with no moving parts. For, no moving parts means nothing to wear. Nothing to make noise. Nothing to need fixing. And today, with repair men so hard to get, this is more important than ever to a refrigerator owner. Tomorrow, as well as today, owners will be grateful for this trouble-free operation. Make your next refrigerator a gas refrigerator!

TO AMERICAN WOMEN ASKING— "Will Defeat of Germany Lessen the Need for Saving Used Fats?"

—THE GOVERNMENT ANSWERS "NO!"

LEE MARSHALL

ON THE contrary, Mrs. America, the need for saving used cooking fats will be as great or greater than ever.

Victory over Germany still leaves the Japs in possession of the Dutch East Indies, the Philippines and Malaya—countries from which we formerly imported about one billion pounds of fats and oils each year.

Even victory over Japan will not ease the situation immediately. Not for a year or more can these areas be brought back to pre-war production levels.

In the meantime, the need for your used fats will be as acute as ever for these reasons:

1. Even after European victory, we still have Japan to fear. Vast supplies of ammunition, medicines, parachutes, rubber boots, soaps and other battlefield essentials must keep on going to our fighting men in a steady stream. These all require fats to make.
2. We must help in the rehabilitation of liberated countries, such as Greece, Norway and the Netherlands, with medicines, machinery, etc.
3. Many factories now producing for war will stop manufacturing the civilian goods we need as urgently. These factories will consume vast quantities of industrial fats.

American farmers are doing everything possible to build up domestic production of fats and oils. But during the next 12 months, because of a smaller hog kill and reduced yields of some oilseed crops, we expect that approximately a billion-and-a-third pounds less of fats will be produced.

Need Greater Than Ever

Therefore, more than ever, salvaging used cooking fats is an important resource in which the country must continue to lean in order to tide us over.

Saving used fats is not a glamorous task. It takes effort. But it is one that only you, the American housewife, can perform for the country. We ask you to continue the wonderful job you are doing to help speed final Victory.

For every pound of used fat, your butcher will give you 4¢ and two free red points! Keep on saving every drop.

SOME ROASTERS ARE ADULTERATING THEIR BLENDS

Few people realize what a vital part coffee plays in family harmony. A bitter or flat or weak cup often starts needless breakfast wrangling, induces crankiness - then the whole day is ruined. A delicious, cheering cup of coffee can give, on the other hand, much glowing personal satisfaction. We don't know that Admiration is the coffee you'll want. But we believe it certainly worth a one-week trial. Thousands upon thousands of housewives in the Southwest regularly serve it to their families. Whatever your family prefers in coffee-richness, aroma, full-bodied flavor, strength-you'll find in Admiration. For it has them all-and in abundance. Admiration's overwhelming sale is the best proof of that. Why not buy your pound today?

Preserve Family Harmony

SERVE YOUR HERO ADMIRATION COFFEE

Don't risk family bickering because of coffee flavor. Your brand of coffee has perhaps tasted awfully bitter, even acid. Or it has been weak or flat? This is because of cheap, inferior coffees (to "save" on ceiling prices) where better coffees were

used before. Don't blame the war; blame the roaster. A good blend cannot be made except by blending GOOD coffees. You'll find no such complaint with Admiration. It's the same blend today of choice, expensive coffees as it was 25 years ago.
