TACLOBAN IN HANDS OF YANKS

Social Gains The Property Of the People

PITTSBURGH, Pa., Oct. 21.—Losing a new barrage of what he calls "one-man government," Thomas E. Dewey declared that President Roosevelt is trying to make political capital out of social gains which, he said, were initiated by Republican administration.

The New York governor promised to expand and broaden these gains if elected.

After declaring that Democrats represent "the Communists and the Political Action Committee," the Republican presidential nominee said in a prepared broadcast:

"It is time to face the fact that the new deal is a bankrupt organization, living only to extend its powers over the daily lives of our people."

He conceded the new deal "did some good things in its youth," but declared that "now it seeks to live on its past."

"In this great national campaign," he said, "my opponent has not offered to the people of this country even the pretense of a program for the future. He tells the working men and women of America to trust him, to do as they are told and ask no questions. That is the end result under one-man government, always."

"It is the inevitable end of a philosophy which sees no real future for America. It is the result of a viewpoint that can see nothing ahead but a repetition of its own peacetime failures—a return after the war to unemployment, with loaf raking and doles."

"I am sure America will never submit to that dreary prospect," he continued. "We are going forward to swift, total victory over our enemies abroad. We are going to take the lead in building a world organization for lasting peace, and here at home we are going to establish a government which will make possible a vigorous productive economy with jobs and opportunity for all."

Dewey asserted the slogan of the new deal is: "Back to normalcy with 10,000,000 unemployed."

He said improved labor relations began under Republican administration with the railway law, the anti-child labor laws, the antitrust bill of rights, and other measures, adding:

"This program was a part of the social trend which has continued since in the social security law, the wage-and-hour law and the national labor relations act."

"There is no reason why our social trend should not continue. The new deal—tired out and too long in office, it distrusts the people. It treats the social gains of the 1930's as its private property."

"I say," Dewey declared, "that social gains are not the property of any party. They are the property of the people of the United States and no party can exploit them for its political profit."

Asserting the new deal has "posed for years as the friend of labor," he said:

"But today it has turned collective bargaining into political bargaining."

Citing a case in which he said "political cash" as well as political power was the profit, Mr. Dewey said the railway brotherhoods "had to hire" Edward J. Flynn, Mr. Roosevelt's third-term national chairman, last year in their wage increase negotiations.

Describing Flynn, who is New York Democratic national committeeman, as "that eminent authority on Belgian paving blocks," Dewey said "the price of his services to the railroad-workers was \$25,000."

Ken Pilcher Is In New Guinea and Doing Well

Pvt. Kenneth Pilcher, 29, son of Mrs. G. Pilcher of west Second street, who is with the army in New Guinea, writes his mother that he is in good health and getting along nicely. He wrote on October 4 and said he had received five copies of Cisco Daily Press the day before.

Pilcher was born in Cisco and is a graduate of Cisco high school. He has been in the service a year and left the states for overseas about August 1. He worked at the Matt Stores before entering the service.

War Chest Total Now Tops Two Thousand

Reports from other teams in the United War Chest campaign in Cisco Saturday morning had raised the total of Cisco's reported contributions to \$2,154. Local Chairman Austin Flint reported. The city's quota is \$2,700.

"If the remainder of the campaign is carried through in comparison with results so far reported," Mr. Flint said, "we will be certain of reaching our quota."

He urged again that all teams not reported make a report to Treasurer N. C. Huston at once. And he also urged that workers see those not yet contacted at the earliest, so the campaign may be pushed to its conclusion without waste of time. "We should like to complete this drive not later than the first part of next week. It is almost in the bag. Let's wrap up another score for Cisco in the war effort; have the satisfaction of a job well and promptly done."

He praised the fine spirit of the workers and the liberal response of the donors. "It has been splendid," he said.

PERSONAL

Mrs. W. K. Graham and son Ken of Waco are visiting Mrs. Graham's mother-in-law Mrs. D. J. McCallum.

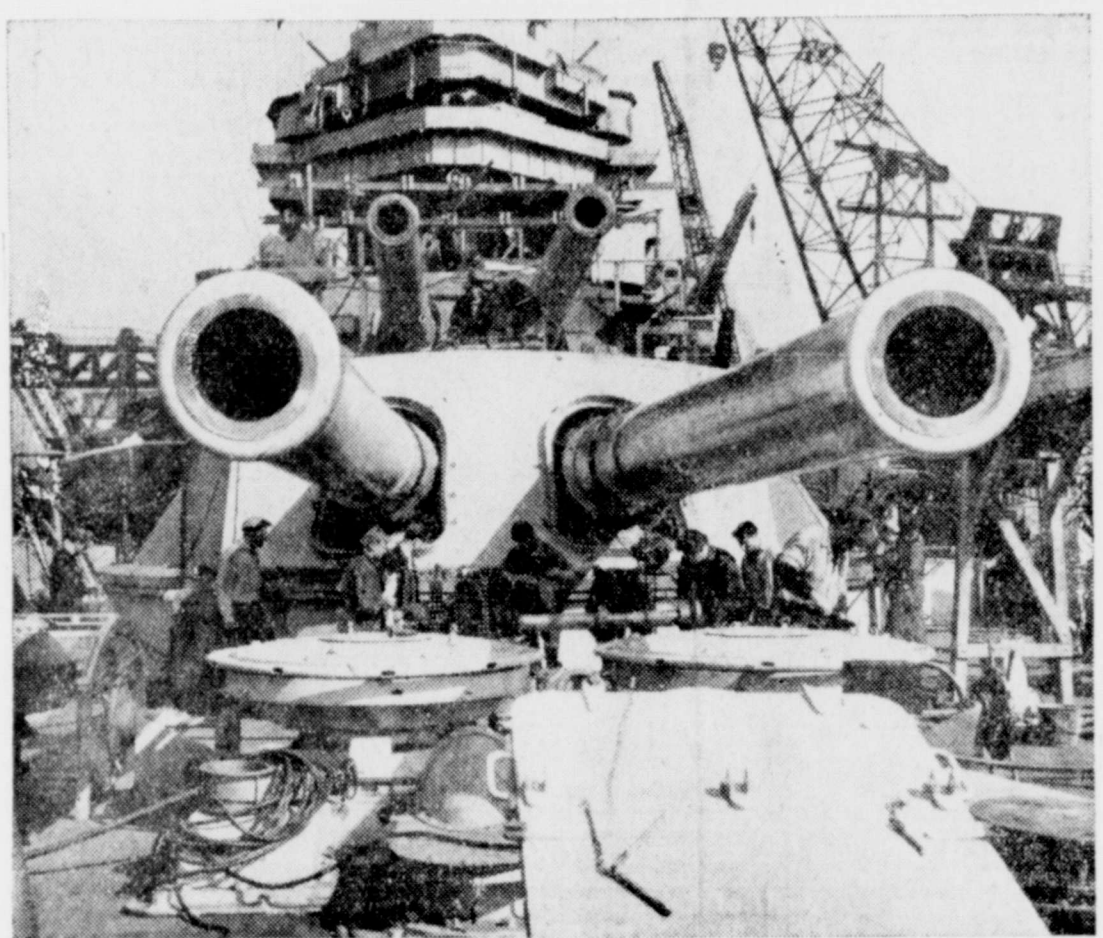

Pvt. Lela Latch of Kingman, Ariz., is expected home Monday. Mrs. W. Z. Latch and son Leonard joined her today in Lubbock.

Staff Sgt. Howard Graham, son of Mrs. D. J. McCallum, who has been serving with the air forces in the southwest Pacific, is returning from the Marianna Islands to attend officer's candidate school at Fort Belvoir, Va. Sgt. Graham was present at the invasion of the Marshall Islands.

Mrs. Ethel Cameron has been critically ill at her home on I avenue suffering from appendicitis and heart ailment. She is now reported improved.

BURIED AT STAR

Mrs. Herschell Ware of Long Beach, Calif., died here at the home of her parents, Mr. and Mrs. Luther Culpepper, October 11. She had arrived in Cisco earlier the same morning. Funeral services were held at the Baptist church in Rising Star, with burial in the cemetery there. Mrs. Fronie Blackwell of Cisco assisted in the services. Survivors include the husband, a four-year-old son, her parents, two sisters and six brothers. The sisters are Mrs. Kline Ware, New Mexico, and Margie Culpepper, Cisco; the brothers, Pvt. Gerald Culpepper, Camp Shelby, Miss.; Jimmie, L. B., Frank, John and Farrell Culpepper, Cisco.

VETERAN VESSEL WILL FIGHT AGAIN—Battle-scarred battleship U. S. S. Texas is in New York Navy yard for refitting as workmen repair damage caused to ship's conning tower of Cherbourg during Allied invasion. The 30-year-old vessel is veteran of World War I surrender of German fleet. Big guns pointing out show powerful armament.

SMOKEY GETS HER STRIPES—After three years in South Pacific as mascot of company in 32nd Division Infantry, Smokey returns to home in Milwaukee and gets down to business of getting deserved stripes. Here Master S/Sgt. Warren Johnson holds dog while tailor attaches coveted bars.

ROMNEY FARMERS GRATEFUL

Farmers of the Romney area, south of Cisco, hard-pressed for labor with which to gather a large peanut crop in the face of an uncertain weather condition, greeted the news that Cisco merchants had agreed to leave their businesses when needed and help with the west with genuine appreciation.

Their gratitude was expressed by Bruce Webb and other farmers who were visited by a representative of the Cisco chamber of commerce Saturday morning while the group was busy threshing on the Tarver farm near the Romney store.

Arrangements were made whereby the farmers would telephone their need of workers to the Cisco chamber during the morning and arrange to meet the Ciscoans at the Romney store at 1 o'clock in the afternoon and direct them to the localities where work is being done.

Mr. Bruce suggested that the business men bring as many pitchforks as possible. There is a shortage of these tools.

It was suggested that business men who have agreed to furnish cars take groups of older high school boys willing to work and stay with them in the fields. Most of the harvesting, Romney farmers said, is done in the afternoon because of the morning dampness and dew.

Business men who had signed up Friday are N. C. Huston, E. G. Dameron, A. D. Anderson, S. H. Nance, J. W. Slaughter, J. E. Proctor, D. W. Diserens, Shy O'born, Austin Flint, Charlie Burke, E. P. Crawford, Edward Lee, Homer Ferguson, J. J. Callaway, J. B. Pratt, Arlin Bunt, R. F. Walton, P. R. Warwick, J. H. Reynolds, J. W. Gilliam, Tom Stark, E. J. Russell, R. E. Grantham, George Boyd, Jim Collins, O. J. Tillinham, M. B. Osborn, E. E. Lennon, M. D. Fox, Henry Drumright, Alex Spears, Nick Miller, L. B. Norvell, H. T. Tompkins, McCandlies Brothers, W. R. Hues, Henry Schaefer, Paul Poe, Charlie Sandier, John L. Black, B. A. Butler and J. L. Thornton.

The yield of peanuts in the Romney area is between 20 and 30 bushels per acre in most instances, Mr. Bruce said.

HUGE TACLOBAN AIRFIELD IS ALSO IN POSSESSION OF MACARTHUR'S DOUGHTY FIGHTERS

LONDON, Oct. 21.—The London Evening Standard quoted the New Delhi radio today as reporting that the Americans had captured Tacloban, capital of Leyte Island.

MACARTHUR HEADQUARTERS, LYTE, Oct. 21.—The biggest American invasion army of the Pacific war, attacking behind tanks and flame throwers with the cry of "Remember Bataan," seized the road junction of Daling and possibly two airfields on the east coast of Leyte today against stiffening Japanese resistance.

At the northern end of Leyte, 6th Army forces were storming the defenses of Tacloban, capital of Leyte and 350 miles southeast of Manila. Unconfirmed reports filtering through from the front said troops had captured Tacloban airfield on a peninsula three miles across a bay from the city.

(A mutual broadcast from Leyte said Tacloban airfield was in American hands.)

Doughboys thrusting inland from the central beachhead seized Duling, 20 miles south of Tacloban. There was no word on the fate of Duling airfield, which was bombed heavily by American carrier planes on invasion day, but the lightness of initial opposition in the area indicated that it, too, may have been overrun.

Occupation of the two airfields in the Central Philippines would enable land-based fighters to support carrier-borne planes in constant patrols over the fighting area and would bring the entire Philippines within easy range of army bombers. Tacloban airfield has several 6,000-foot runways.

The attacking doughboys were digging the Japanese out of their foxholes with bayonets and blasting their strong points with fire, shells, bullets and grenades, spurred by the knowledge that their opponents were from the hated 13th Japanese Division which tortured their buddies of Bataan during the notorious March of Death two and a half years ago.

Swarms of carrier bombers and fighters roared out ahead of the advancing troops, strafing every possible target, while the big guns of the American battleships California and Pennsylvania—damaged in the Japanese sneak attack on Pearl Harbor—and other warships hurled thousands of tons of shells deep inland.

Japanese resistance was increasing as the enemy recovered from the initial shock of the assault, but nowhere was it sufficient to stem the tidal wave of American troops and machines enveloping the island.

Gen. MacArthur, personally commanding the attack, estimated the enemy garrison at little more than a division—15,000 men—whereas the invading force was placed at 100,000 to 250,000.

Reinforcements of men and supplies continued to flow ashore in a steady stream. American casualties have been "exceedingly light," MacArthur's second command said. Shore fire damaged some landing craft, however, and one vessel in the 600-ship invasion armada was damaged by an aerial torpedo.

German forces moved swiftly on the Aachen front in an effort to prevent the American First Army from exploiting the capture of the city. They laid down an intense artillery bombardment northeast of the city, where brisk movements behind their front indicated they were deploying into the Cologne plain.

Early today the Nazis fired propaganda leaflets into the American lines east of Aachen, boasting of Germany's strength and the rigors of the oncoming winter.

(The Paris Radio, usually unreliable, broadcast an unconfirmed report that Allied troops were nine and a third miles from Cologne.)

FD Braved Rain and Cold Wind, New York City

NEW YORK—President Roosevelt threw off the cloak of wartime secrecy Saturday, launching a fighting campaign for a fourth term with a 36-mile motor trip through the nation's largest city.

The presidential party included Mrs. Roosevelt, Secretary of the Treasury Henry Morgenthau, Vice Admiral Ross T. McIntire, the president's personal physician, Lt. Comdr. George Fox and Presidential Secretaries Stephen E. Early, and William D. Hassett.

The party began its tour of New York shortly before 10 a. m. The first stop was at the Brooklyn navy yard where 1,000 spectators braved cold rain to greet the chief executive.

Approximately 800 persons stood in the rain opposite the entrance to the yard and cheered as the president drove up. He was riding in an open touring car, top down.

Another estimated 200 persons filled the windows of factories across the street from the yard's entrance. Inside the naval establishment, 200 navy personnel saluted as the car entered the gates.

At the same time an estimated 5,000 persons were seated in Elbeths Field, Brooklyn, the next stop on the presidential tour. A rally for the re-election of U. S. Senator Wagner already was under way.

WATERS TRANSFERRED

Lt. James H. Waters of Dallas, son of Mr. and Mrs. D. E. Waters of Cisco, has been transferred to Snyrna army air field, Tennessee, where he will be given an AAF training command course to qualify him as an instructor for B-24 Liberator bomber pilots. Lt. Waters served overseas as pilot of a B-24 bomber and holds the distinguished flying cross, the air medal, three oak leaf clusters and the European theater campaign ribbon, with one bronze star.

PATTON PULLS TRICK

HEADQUARTERS AEF, Paris, Oct. 21.—Lt. Gen. George S. Patton pulled a new trick out of the bag to smack the Germans through the air where it would hurt the worst—at Dieuze, collection point for Nazi equipment and probable nerve center for any possible counter-attack toward Nancy.

Twenty-four Thunderbolts, each carrying a one-ton bomb, swooped down on the Lake Etang

WOODMAN CIRCLE

Woodman circle No. 356 met Friday evening with Janie B. McCandlies, guardian, presiding. The grove opened in form and the pledge of allegiance to the flag was given. Mrs. Effie Mayhew, secretary, read a letter of invitation from Mrs. Laura Krebs, northwest Texas state manager, to the Cisco grove to attend a district meeting in Comanche, October 24. Mrs. R. M. Jones of Sacramento, Calif., daughter of Mrs. McCandlies, was introduced as a visitor.

GRADUATES AT KINGMAN

Pfc. Claud H. Yeager, 18, son of Walter L. Yeager of route one, Cisco, is a recent graduate from the Kingman (Ariz.) flexible gunnery school. At Kingman the Eastland county boy was taught the principles of ballistics, sighting, turret maintenance, range estimation and aircraft machine guns. He was given two weeks of air firing before being presented with his gunnery wings. Yeager attended Cisco high school and entered the army at Dallas on November 28, 1943.

SANTA ON THE JOB

The annual Christmas overseas mailing frenzy is over for the American public. The postoffice may put back into their places he scales brought forward on September 15 and the shears kept here for the use of patrons who would rather unpack an over-weight package on the spot than make two trips. But the transportation headache still has some time to run.

Before October 15, army and navy postoffices in San Francisco and already cleared more than 7,000,000 packages for Pacific areas. New York postal authorities had delivered to their army postoffice 10,000,000 items for the European sector. And although the army unit had hired 2,300 women to help the 1,300 soldiers here, more men were needed to do the heavy handling. They have not been able to unload the mail cars as fast as they come in, and his makes a problem for the rail roads which need the cars. Shipping space is the final hurdle. For 1 takes only 400 five-pound packages to equal one ton of cargo.

In spite of all, our men will have their Christmas in time, or before. It is a stupendous job well and willingly done.

THE TIME FACTOR

Americans who have been blithely prophesying an early end of the European war are not so confident lately. Here we are getting on toward the end of October, without much indication of an early German collapse such as people have been led to expect. The important border city of Aachen has been captured, but only after such a terrific fight that it had to be destroyed in the process. Such operations take many men and much material, and also use up time. What if Germany proved to be dozens of Aachens, to be reduced slowly, with great effort?

There is no reason to be pessimistic about the war, but it may be wise to make a larger allowance for the essential element of time. The Germans might hold out strongly enough to drag weeks into months. General Eisenhower himself has hinted at such a possibility. The enemy may be all the more inclined to fight longer than the expected limit, because of the punishment assured and in the hope that "something may turn up."

OPEN FORUM

Record Is Clear

Cisco Daily Press: Assistant Secretary of State, Adolph Berle, says that Governor Dewey misquoted him in saying that he advocated the Government's taking over our industries and telling "each of us where we could work, at what, and for how much." Whether he said it or not, that is precisely what this New Deal administration stands for as to our principal industry, agriculture.

Congress appointed an investigating committee to investigate the FSA agriculture program, with Harold D. Cooley of North Carolina as chairman. This committee, after more than a year's painstaking investigation, filed a 101-page report in which it stated that the FSA colonists, or "colonists" as they are called, "Have been told what crops to plant and how they must be cultivated. They have been told from whom they must purchase and to whom they must sell. Their bank accounts have been completely controlled and kept under joint ownership by the government, and they have not even been permitted to select their own work stock and other equipment. The heads of families have been given gratuitous advice as to the number of children they should have."

This is from an official report of a responsible, unbiased, congressional committee. When this FSA project was under consideration in the senate, Senator Russell of Georgia, in a speech against it charged that it was designed to communize agriculture. Evidence of that charge he sent from a circular published and distributed by communistic new leaders in which it was proposed that the government take over all of the lands of the white people of the southern states, including Texas, and give them to the Negroes. "Believe it or not," it is the plan of the communists, and the FSA program is only a step in that direction.

ATTENTION

Want some building contractor to investigate where I want three rooms built on I avenue and Third street, at my home.

Each room 20 feet each way. First room to be a storeroom, facing east on I avenue. Second and third rooms to be used for living quarters for the storekeeper. Must have 6-foot ice vault to keep frozen meats, such as freshly butchered chickens, for those who want one for Sunday dinner; butcher a nice, fat calf occasionally, and a sheep if we want it, that Cisco people may eat home-grown meat—not sear meat, butchered a year ago. Yes, eat bread, bread pies and cakes baked in Cisco—not mouldy bread and sour pies baked last month, miles and miles away.

Live at home and patronize home people. That is me, Jesse Penn, I avenue and Third street. This building must be strictly fireproof; brick preferred.

UNITED CHARITIES

The fact of United Nations naturally leads in to the value of unity and cooperation on every front, so the Home Front takes a page out of the book of success and places the charities of the communities, counties and nation in one big budget so that we may attend the matter all at one time.

Eastland county has organized its charities and Cisco fits into the program, with a budget of \$12,898 for the entire county. For a whole month the campaign will be in process of formation so that those who wish to work out their budget will have some leeway in forming plans.

American people have been blessed in their activities at home, and many will want to aid those less fortunate in various capacities of life. UNITED WAR CHEST DRIVES PUT YOUR DONATION ALL IN ONE. Cisco, as usual, will do its part.
