YANKS CAPTURE SAMAR ISLAND

Eminent Rotarian to Visit Class Formed Cisco Thursday At Jr. College

Past District Governor Hal McNutt of Stillwater, Okla., will be the guest of Cisco Rotarians at luncheon at 12:15 Thursday in the basement of First Christian church. Arrangements for Mr. McNutt's visit to Cisco were made through correspondence between Garland Nance, secretary of the Cisco club and Spencer Hagan, executive assistant in the office of Rotary International, Chicago. Rotarian Ernest Hittson

A class in home economics will start immediately in the evening school at Cisco Junior College to consist of studies in interior decoration, home beautification, reupholstering of furniture and other subjects, it was announced by R. N. Cluck, president of the college. He requested that all interested in joining this class meet at high school Wednesday evening at 7:30.

The class will meet one night each week under present plans. Students may take credit or non-credit college course, as they desire.

"This is an excellent opportunity for the women of Cisco to learn more about the home making subjects in their spare time," said Mr. Cluck.

Those who wish to take the course but will be unable to attend the Wednesday evening meeting may call the college, No. 418 and leave their names, he said.

Allred Followers To Ignore Sen. O'Daniel

DALLAS, Oct. 24.—Senator W. Lee O'Daniel's political tour of Texas will be ignored by the state Democratic organization, Tom Tyson, Roosevelt-Truman speakers bureau chairman, announces.

"No act of the state organization will lend popular interest to the dying campaign of the Texas Regulars," said Tyson, who came here from Corsicana to complete arrangements for the Saturday night rally at Fair Park Auditorium when Senator Tom Connally will speak.

"We had anticipated all along that they'd use Pappy. Some of them have called him their secret campaign weapon—their robot kowboy."

"But there's nothing secret. We have long suspected the advent of Pappy and thought we had recognized his technique in enemy political propaganda weeks and weeks ago."

"The secret weapon is a dud and undeserving of our notice."

If any city, town or community, on its own initiative, wants to put someone on the stump to reply to Senator O'Daniel, they are free to do so, Tyson said. He added that the speakers bureau would be glad to furnish "any one of a hundred top speakers" for community rallies to answer O'Daniel.

"But we of the state organization just aren't interested."

Senator O'Daniel will make the first of twenty-four projected campaign speeches for the Texas Regulars (anti-Roosevelt Democrats) at Wichita Falls tonight.

"We don't believe O'Daniel owns the voters of Texas," Harry Seay, Dallas, state Democratic chairman, told a rally at Bangs near Brownwood, Saturday night.

Said a companion speaker, Congressman Wright Patman, at the same rally: "All isolationists and Fascists and Fascist puppets are doing their best to destroy this administration."

Tyson said next week's big rally would be Tuesday night at Fort Worth, and he is lining up two or three speakers for that occasion.

Guests in the home of Mr. and Mrs. Paul Poe Sunday were her sister and husband Mr. and Mrs. Ben Blacklock and son Winston Blacklock of Munday and their sons Coxswain LaMoine Blacklock with the coast guards at Everett, Wash., and Wayne Blacklock, student of the V-12 naval school at Maryville, Mo. They were also accompanied by Mrs. Doyle Williamson of Haskell, sister of Mmes. Poe and Blacklock.

DIME A DOZEN—Lt. Raymond Moss (center) promised to hand out a dime for every dozen Nips killed. Group shown receiving dimes and membership certificates racked up 47 kills. They're members of the American and fought at Guadalcanal and Bougainville.

ACHING AACHEN—Guttered houses, broken masonry and concrete litter streets of Aachen-Fort, about 150 yards from Nazi stronghold of Aachen. Surbur already in American hands and GI's are continuing battle for the city proper with fierce assaults. Already they hold half of it.

H. V. O'Brien Killed in Car Wreck Sunday

Houston V. O'Brien of Carbon, 56, was fatally injured Sunday afternoon when the car driven by his son, J. C. O'Brien, turned over near Abilene. The accident occurred at Elmdale and the injured man was rushed to an Abilene hospital but died shortly after reaching the institution. When the car upset, the unfortunate man fell out and the heavy vehicle rolled over him.

Besides Mr. O'Brien and his son, other occupants of the car were Mrs. J. C. O'Brien and Mrs. H. L. Thompson of Sundown, the latter a daughter of deceased, and her two small children. Mrs. O'Brien and Mrs. Thompson suffered minor bruises.

Funeral will be held at 10 o'clock Wednesday morning at Carbon First Baptist church, with burial in Pleasant Hill cemetery at 11:30. Rev. A. A. Davis of Baird will officiate.

Immediate survivors of deceased are his wife, four sons and two daughters, as follows: Otis O'Brien, New Guinea; Willard O'Brien, South Pacific; J. C. O'Brien of the Marines and home on furlough; H. V. O'Brien, Jr., Carbon; Mrs. H. L. Thompson, Sundown, Tex.; Mrs. Vernell Edwards, Abilene. There are also six brothers and two sisters—Rev. Dick and L. R. O'Brien, Big Spring; J. B. Artesia Wells, Tex.; E. N. Corpus Christi; J. F. and N. T. Lamesa; C. A. California; Mrs. W. B. Bennett and Mrs. J. L. Bisbee, Eastland.

Deceased was a man of excellent character, a devout member of the Carbon Baptist church and well known in Cisco and throughout the county.

W. S. Adamson Critically Ill Ranger Hospital

W. S. Adamson, county judge of Eastland county since 1937, is in a serious condition in a Ranger hospital as the result of a fall while entering his office the morning of October 14. Judge Adamson regarded the fall lightly at the time, but later an X-ray examination revealed that he had broken a hip and he was conveyed to the hospital. He has been a sick man for several years and his recovery is said to be very doubtful.

Judge Adamson, about 65, came to Eastland county from Snyder in the early twenties and located at Ranger for the practice of law. He was elected county judge and took office Jan. 1, 1937, holding that position continuously until the present time. He did not offer for reelection this year and will be succeeded by Lewis Crossley on January 1, 1945. Mrs. Adamson and their daughter, Mrs. Jimmy Campbell of Fort Worth, are at his bedside.

Cisco Tops War Chest Quota By A Nice Margin

Cisco was over the top in the United War Chest drive in a big way today—but there were still teams which had not reported and still citizens who have not been given the opportunity to share in this great cause of relief in war.

Tabulation of reports at the office of N. C. Huston, treasurer, showed at noon today that Cisco had given \$2,850 to the cause—\$250 more than its quota. Local Drive Chairman Austin Flint was confident that the subscriptions would exceed the \$3,000 mark by a good margin.

He urged that all teams which have not reported do so at once and also that those which have not completed their canvasses make an immediate effort to do so.

"Let's wind this thing up in the old Cisco spirit and get a big job successfully and proudly behind us," he said.

LONDON, Oct. 24.—The German DND news agency today broadcast a Manila report that Japanese army and navy air forces have opened an attack against the American invasion fleet in Leyte bay and against another U. S. battle fleet whose location was not immediately disclosed.

MELBOURNE, Australia.—The Melbourne Herald's war correspondent in a field dispatch from Tacloban reported today American forces had crossed San Juanico strand and established a bridgehead on Samar island.

Blaine Fielder, the correspondent, said the bridgehead was established on the second major Philippine island to be invaded on Monday (Philippine Time).

He reported that a tank column drove up the highway to a point from which it ferried across to Samar.

His dispatch said MacArthur, capitalizing on the brilliant successes in the Tacloban area, pushed the force across the strait.

This was not reported by other correspondents nor was it contained in MacArthur's communique today.

Samar is the only big link between Leyte and Luzon island on which Manila is situated.

MACARTHUR'S HEADQUARTERS

—Pace-setting American tanks hammered seven miles inland along the southern edge of Leyte valley in the deepest penetration reported today against outnumbered Japanese stubbornly resisting the U. S. re-invasion of the Philippines.

Despite vicious Japanese counterattacks and strong defensive positions elsewhere, Gen. Douglas MacArthur announced American forces have liberated 11 towns on Leyte island and completed conquest of three small islands guarding the entrance to Leyte gulf where they landed a week ago.

Land-based bombers hammered airdromes and ports of Leyte while Japanese-controlled radios reported carrier planes were continuing their attacks on airdromes in the Manila area, blocking the possibility of aerial aid to the 20,000 Japanese on the invaded island. In support of the Philippines action, a Tokyo broadcast said, the 14th U. S. airfield has intensified its activity in China, adopting mass bombing tactics.

Dewey Speaks Tonight Over NBC and Blue

WITH DEWEY PARTY, Oct. 24.—A biting, sarcastic speech in which Governor Dewey will haul the history books up to the microphones to propound some of the 84 questions left untouched by President Roosevelt in his Saturday night foreign policy address is set for tonight in Minneapolis.

The Republican presidential nominee tucked away in his suitcase the farm speech he had prepared for his Minnesota audience and announced he will "fill in the gaps" in certain large areas of recent history where, he said, Mr. Roosevelt's memory "seems to fail him."

The speech will be broadcast over the NBC and Blue network at 9:30 to 10, CWT.

Calvert Would Stop O'Daniel If He Could

DALLAS, Oct. 24.—Sen. W. Lee O'Daniel's supply of gasoline for his tour in behalf of the Texas Regulars was injected into the campaign Monday by R. W. Calvert of Hillsboro, who was temporary chairman of the Roosevelt-controlled state Democratic convention here in September.

A copy of a telegram sent by Calvert to J. H. Kullgen, district director of the Office of Price Administration at Fort Worth, was received at Roosevelt-Truman state headquarters here.

"Will appreciate your advising me under what provision OPA regulations gasoline for truck and accompanying automobiles is to be allowed Senator W. Lee O'Daniel for speaking tour of Texas covering some 3,000 miles which is confessedly nonpolitical," Calvert's wire read. "As chairman of local community service panel this information needed to explain to A-book holders who are able to get only sufficient gasoline for 20 miles of travel a month."

Mrs. Gregg Simpson is in receipt of word from her husband technician Gregg Simpson with the armed forces. He stated that he was well and had arrived safely somewhere in France. His letter, which expressed good wishes for her birthday, arrived one day late.

This Looks Bad

Dallas News: A news release from the University of Texas, telling of a new bulletin on the Texas State Administrative Agencies by Dr. Dick Smith of the Bureau of Municipal Research, states that the Texas State Government includes 178 agencies, departments and institutions supervised by 122 administrative bodies. It also states that there have been discovered one inactive office, three inactive institutions and nineteen inactive boards, and that there are "many examples of duplication and overlapping functions."

A primary reason for the decline in state sovereignty is the failure of state governments to live up to their responsibilities. No better evidence of this can be administrative system Office after found than in the Texas state administrative system. Office after office, commission after commission, bureau after bureau, board after board have been added, always with the single purpose of meeting a single need and with little thought of relationship of the state administrative body as a whole.

In addition to being piecemeal, the statutes are often poorly written. It is a fact that only with the greatest difficulty can the Secretary of State keep up to date his catalogue of state officials. In some instances there is no definite provision for the beginning or ending of official terms. Several years ago the Secretary of State asked the Attorney General for rulings in a number of instances in order to keep his records straight.

In some degree our present lengthy and detailed State Constitution is responsible for the structure of our state government and there needs to be constitutional revision for this and other reasons. But, in very large measure, the state government could be reorganized and integrated by statutory procedure alone. And it ought to be done by the State Legislature as one of its earliest postwar jobs. A committee to survey our state government and make recommendations in the form of tentative legislation should be appointed during the session which begins in January.

Mrs. Dewey, Mrs. Bricker

Country Gentlewoman for November: Frances Hutt Dewey and Harriet Day Bricker stepped into the national limelight beside their candidate husbands early last summer. Since then they have steadily gained the right to spotlight of their own. They have shared the burdens of the campaign with good humor and accepted the bouquets with grace. And they have calmly left the discussion of issues to their husbands with serene and utter confidence that it couldn't be in better hands.

I saw Mrs. Dewey at the end of her first long day of picture-posting and interviews. She had come through looking crisp and immaculate and with a glow in her eye that had something in common with the triumphant air of a housewife contemplating a double dozen jars of peaches cooling on her kitchen table. She had no relish for this publicity business, but it was a necessary part of her job at the moment. The nearest she came to a lament was when I happened to ask her whether she was a collector. "Not now! Once when I was a girl I collected elephants — and look what happened!"

She's not pretty and sweet, like her pictures—she's vividly beautiful. Her manner is friendly and forthright. She is, in fact, the brisk, sure woman you'd expect Frances Hutt to grow up to be if you'd known her back in Sherman, Texas, when she was ten and the only girl on the neighborhood baseball team—or in Sapulpa, Oklahoma, high-school days when she was studying voice, giving piano lessons, playing the church organ and coaching the choir—or in New York when she was studying music and holding down a job that paid her way.

Her animation when she talks

about her husband and children, and her very great attachment to all the homes they've had, from the first New York apartment to the Pawling farm, leaves no doubt that when she married at the start of a promising career as a singer she got herself a much more engrossing job. She has that certain look and manner which only completely happy and successful women possess.

I caught up with Mrs. Bricker at the governor's mansion in Columbus where six years of her ministrations are evident in subtle colors and tranquil use of space. We had lunch with her husky fourteen-year old son, Jack, and her mother, who has a twinkle in her eye that exactly matches her grandson's.

Since I was with a farm magazine, Mrs. Bricker had invited, also, Mrs. Lottie M. Randolph, Ohio's farm woman Assistant Director of Agriculture. Before long Mrs. Randolph was ruefully admitting she never spent any time with Mrs. Bricker that she didn't have to "go flying back to my sources" to repair some significant gap in her own special field of knowledge. A gap she hadn't suspected until Mrs. Bricker put a gentle question. It's a pretty special kind of intelligence—though Mrs. Bricker claims it's just plain curiosity about things in general.

Mrs. Bricker's pride in Ohio began when she did. She was born, went to school and college and has lived all her married life in Columbus. Her six years as the governor's wife have added a broad knowledge of the affairs of her state to an already deep understanding of its needs. But her attitude hasn't the least trace of the "official" about it. It remains that of any homemaker who knows her home is no sounder than the community, state and nation in which it stands.

How We Can Lick The New Deal IN TEXAS

There are 550,000—or More—anti-Roosevelt Voters in Texas—Enough to WIN!
How Can We Make Our Votes Count?

THE WRONG WAY-

Some say, "Let's all vote Republican." But all will not vote Republican. Here's what happens then:

- 40,000 "Died-in-the-wool" Republicans
- 100,000 Independents, no party label
- 150,000 Fightin' mad Democrats
- 290,000 TOTAL—NOT ENOUGH!

Too many of us were born and reared Democrats. If you were a state or county official, elected by the Democratic Party, you certainly wouldn't vote Republican. Neither would your family or friends. But plenty of them WILL vote for the Texas Regulars (Democrats) November 7.

THE RIGHT WAY!

The better way—join the Texas Regulars! (The real Democrats.) Here's what happens then:

- 40,000 "Died-in-the-wool" Republicans
- 100,000 Independents, no party label
- 150,000 Fightin' mad Democrats
- 240,000 Anti-New Dealers who won't vote Republican
- 550,000 TOTAL—ENOUGH TO WIN!

Good Republicans who study these figures will agree and join the TEXAS REGULARS on election day.

No Collar on the Regulars!

Let's face the facts—what are you really for? Are you really anxious to elect Dewey? Or to stop Roosevelt and the New Deal?

The Texas Regulars are not pledged to ANY candidate. Their electors are free agents—and they are able and respected citizens of Texas. Let's trust our Texas Regular electors to cast Texas' 23 electoral votes the best way possible to STOP ROOSEVELT AND THE NEW DEAL!

The Texas Regulars are against the Communistic, anti-Christian doctrines of the New Deal. Against attempts of the federal enforcement to mix negroes and whites in the South. Against centralization of government in boards and bureaus not elected by, nor responsible to the people. Against outsiders running Texas.

The Texas Regulars are for Constitutional Government. For the right of each state to govern its own internal affairs. The Texas Regulars are for a house-cleaning in the Democratic

Party. For throwing out Sidney Hillman—who never was a Democrat. For throwing out ex-convict Earl Browder—ex-head of the Communist party. For throwing out the big-city political bosses—all the political racketeers who have moved in to take over the Democratic Party.

The New Deal MUST BE STOPPED! It CAN be stopped—IN TEXAS! By voting Republican? No. Look at the figures above. And remember, all the votes all over the U. S. don't go into one big pot—we vote BY STATES! Every Republican vote in Texas November 7th will be a wasted vote! Thinking Republicans will see this—ask them. And—it will be a close election. The electoral votes of Texas may decide it!

United, we win! Divided, we fail. Every last vote will be needed. But we CAN win! The New Deal CAN BE STOPPED—IN TEXAS!

And if you wish to contribute to this great cause, get it to your county chairman TODAY! There's not an hour to lose!

Work for — Vote for — Be for —

Wartime motorists from coast to coast say...

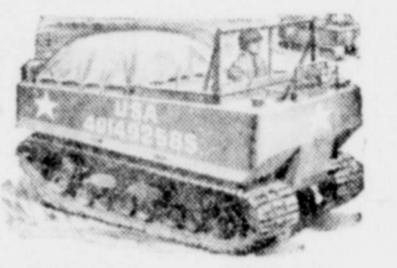

"No car like a Studebaker!"

"Not for sale," says county official "Twice I've had attractive money offers for my Champion," says J. Stanley Howard of Liberty, Kentucky. "I won't sell because Studebaker economy and stamina in wartime mean too much."

LETTERS from owners have been streaming in to Studebaker headquarters from all sections of America—outspoken, fact-packed, impressive letters praising the remarkable reliability and low-cost performance of Studebaker Champion, Commander and President cars.

We publish a few of those comments here. They tell you better than we could why Studebaker owners these war days appreciate Studebaker engineering and craftsmanship and prudently hold on to their cars.

STUDEBAKER WEASEL
Nicknamed the Weasel because of its sleek and swiftness, its sun-foated front end virtually any kind of terrain, this new vehicle is powered by a Studebaker Champion engine and built by Studebaker under contract with the Ordnance Department, Army Service Forces. A water-borne Weasel, the M-29C, is also now in service.
