PROVIDE FLUES FOR VENTING MODERN HEATERS

Proper heating requires that appliances be vented to a flue. It is the healthful, modern way. You vent to prevent wall sweating. You vent to prevent stuffy air. In your modernizing or new home building plans, be sure the heating equipment you install can be vented. And make certain it is vented to a flue. Only in this way can you enjoy America's sought-after fuel—natural gas—at its best.

Types of modern gas heating appliances which are vented to a flue and are recommended by your gas company.

Not all types of vented gas heating equipment are available because of wartime restrictions. But if you are using the old-fashioned open-flame unvented type heating throughout your home be sure you provide plenty of ventilation. It will help some to reduce wall sweating and eliminate stuffy air.

Attractive Woman Stole Babe Three Weeks Old

FT. WORTH, Jan. 10.—Three-week-old Mildred Louise McGill, daughter of Mr. and Mrs. C. A. McGill, of the Strangers Hotel, was abducted at noon Tuesday by a woman visiting the McGills under the pretense of giving the child clothes and money.

The child, swathed in a pink blanket, was taken from the room by the woman who told Mrs. McGill she wanted to show the baby to her mother who was in an automobile outside.

The woman had come to the home to give the baby clothes and money for its education. She left the room about 11:45 a. m. to get the clothes from her automobile outside but returned without them.

The abduction of Mildred Louise, police believe, was the climax of a six-day attempt to take the child. She had come to the McGills Thursday as "a lady from a hospital heading a group of women who were giving child aid in the city."

The woman was described as about 25, tall, attractive, slender build, with blond hair and blue eyes. She has a small mole under her right eye.

The plan for the kidnaping, which detectives believe was well organized, began Thursday when the woman approached Mrs. Bud Williams, 217 N. E. 2nd, at her home. A boy, about 10, came to Mrs. Williams inquiring if she knew anyone who had a small child that needed clothes. Mrs. Williams referred him to Mrs. McGill and accompanied the boy and the woman to the Texas Rail Joint Company, N. E. 4th and N. Commerce, where McGill is employed.

McGill, hearing the plan for the baby's care, sent the woman to his home. Mrs. Williams returned to her home, and when the woman arrived at the Strangers Hotel, she was evidently alone.

After talking to Mrs. McGill, the woman left, saying she would return Friday. She did not come back until Tuesday.

Thursday—the first time the woman came to Mrs. McGill—she was driving a small, black coupe. Tuesday, the automobile was not seen.

The only clew Detectives Howerton, Haire and Brooks have found so far is that the woman may live in Alvarado. While Mrs. Williams was with the boy and the woman, the youth was said to have called the woman "sis" and said she was from Alvarado.

The description of the woman and the baby were broadcast over police and local radio stations. The baby was dressed in white gown, with blue and pink flower near the neck. Her hair is a reddish color and she was wrapped in a pink blanket.

Westbrook Asks Help For Victims of Fire Fiend

Rev. G. S. Westbrook, pastor of the Church of Christ, wishes to inform all members of that organization that gifts for the I. D. Smith family, made homeless when their house was destroyed by fire, are being left at the church, 561 west Eighth street.

The family lost all their clothing and most of their beds, quilts and linens; in fact, all contents of the home excepting a few items of furniture.

Said Mr. Westbrook: "Anything usable, for either the home or the family, will be a big help. Please leave gifts inside the church building by noon Thursday and they will be delivered to this good family Thursday afternoon."

1,000-SHIP ARMADA POURS MEN, GUNS, TANKS INTO LUZON IN WHAT SEEMS ENDLESS STREAM

WITH MACARTHUR ON LUZON, Jan. 10.—An American invasion army—at least 100,000 strong—today drove down the highway toward Manila, 100 miles away, overrunning San Fabian and other Lingayen Gulf towns against feeble Japanese resistance which cost our forces virtually no beachhead casualties.

Light Japanese forces fell back under the impact of the American blow. So far there has been little Japanese air reaction and advancing vanguards found the Japanese had only made half-hearted efforts to wreck bridges as they fell back in confusion.

From a 1000-ship armada—800 of them transports—standing along the curving Lingayen Gulf coast, American troops, artillery, tanks, transports and munitions poured ashore in a continuous stream.

By this morning one thing was apparent—we have come to Luzon to stay. Protected by a screen of heavy naval artillery fire which fingered inland as far as the line of the Agno river, roughly 19 miles inland and only 88 miles from Manila, American troops were advancing rapidly.

They had firm ground to advance across at the northern end of the curving beachhead which is already 15 miles long between San Fabian and Lingayen.

At the southern end of the beachhead the initial obstacle was the sluggish Calmay river, connecting the Agno and Dagupan rivers, running parallel to the beachhead about two miles inland.

But there were no appreciable beach defenses and good roads and paths thread the rice paddies.

Gen. MacArthur, who returned to Luzon with his assault troops soon after H-hour at 9:30 a. m. yesterday, said that the invasion was progressing "better than could be expected" with all units making excellent progress.

San Fabian was captured without opposition in the early hours of the invasion, a dispatch from Vice Admiral Kinkaid's flagship reported. Other towns also have been seized, but their names were withheld temporarily for security reasons.

(A Japanese communique claimed Japanese troops were counter-attacking American forces which landed in the vicinity of San Fabian and Engavon. Other Tokyo broadcasts claimed that a "severe naval and air battle" was under way in the Lingayen Gulf, a hint that Japanese fleet units may have gone into action.

"Special surface attack corps" sank 35 American transports in waters west of Luzon Monday and Japanese planes accounted for four others and a cruiser in Lingayen Bay, Tokyo said.)

Veteran American assault troops already were astride some of the main concrete highways converging on Manila from the north and some were deep inland under personal orders from MacArthur to keep pushing ahead so that the enemy would get no opportunity to dig in.

Swarms of carrier-based planes from the Third and Seventh fleets swarmed overhead, strafing and bombing enemy strong points and other installations ahead of the invasion troops from tree-top height. Army engineers, among the first ashore, were rushing the construction of airstrips for land-based planes.

4 Allied Armies Hammer Continuously at Germans

Four Allied armies hammered relentlessly in icy weather today at the Germans' Ardennes salient and squeezed its waist to nine miles as the Nazis began a retreat from the western tip of the Belgian bulge.

On the southern flank of the salient the U. S. Third army advanced along a 20-mile front from north of Bastogne to east of Wiltz, gaining up to 1 1/2 miles, and the 101st airborne division pushed to within 4 1/2 miles of Houffalize, German hub in the heart of the bulge. At the same time U. S. First army troops on the north beat within three miles of the vital Houffalize-St. Vith road.

Meanwhile, in the southern sector of the western front enemy diversionary attacks probed to within 14 miles south of Strasbourg on the French First army front, while the U. S. Seventh battered back into the Rhine bridgehead town of Gumbshelm, nine miles northeast of Strasbourg. The Seventh held the Germans to a standstill in both sides of Bitch.

Director Vinson Sets Live Cattle Ceiling At \$18

WASHINGTON, Jan. 10.—The government today slapped a flat price ceiling on live cattle.

The action, widely opposed by stockmen, carried with it a move to soothe opposition.

The overall ceiling was set at \$18 a hundredweight instead of \$17.50 as originally proposed. Announced by Stabilization Director Vinson, the measure becomes effective Jan. 29.

The new overall ceiling, covering calves as well as cattle, will be lowered to \$17.50 on July 2. Vinson also directed:

1. The Defense Supplies Corporation to increase subsidy payments on choice beef from \$1 to \$2 a hundredweight, and on good beef from \$1.45 to \$1.95 a hundredweight, Chicago basis. The subsidy payment on choice cattle will be cut by 50 cents July 2.

2. OPA and the War Food Administration to increase the price of the present stabilization range for choice cattle by \$1 and for good cattle by 50 cents a hundred pounds, live weight, over the entire country. On July 2 the maximum and minimum of the stabilization range for choice cattle will be reduced by 50 cents a hundred pounds.

TODAY AND TOMORROW.

It might as well be accepted by everybody in this country, old or young, in public life or private life, that from now on nothing is going to be easy. The road of war victory winds up all the way, and it may be the same with the peace victory to follow. The American people are beginning now to get a real taste of hard facts.

There will be less, for a while, of nearly everything in the way of comforts and conveniences. We shall not go hungry or cold if things are administered wisely by the experts who have authority in such matters. But there will be little in the form of luxury, and that little will grow less.

This is a great and rich country, and it will still be so when the big war is over. It is rich in materials of nearly all kinds, useful for war or peace. It is richest in its men and women, and in its children.

The latter will do much of the work, when necessary, while the war proceeds, and will learn the lessons of patience and skill, courage and suffering that have to be learned, by which they themselves may carry on when the war is over. Bravely faced and intelligently pursued, these stern lessons of today will make a better and wiser tomorrow.

WAR WORK PLEDGES.

It makes millions of Americans uneasy, and probably pleases some of our foreign enemies, when the United Automobile workers' steering committee talks of revoking its war-time no-strike pledge and "restoring the fighting strength of its great union." It talks belligerently of its pledge as a "straightjacket"

which puts the big U. A. W. and C. I. O. unions "at complete mercy of the War Labor Board and the profit-bloated corporations." It suggests restoring these organizations to their fighting strength, so that they will be "able to defend their threatened interests."

Most Americans have felt certain that the aforesaid interests were not only guaranteed, but definitely supported, by the government's War Labor Board. If that body, presumably representing both the unions and the American public, is not doing its duty and giving the unions a fair and honest "break," citizens in general will support a movement to redress their wrongs. But with two great wars threatening the life of this nation, it is no time for any group in this country, especially in the war industries, to endanger the situation by threatening talk. There are better ways to equalize wages and redress grievances.

FIRST BAPTIST WU HAD FINE PROGRAM

"A Century of Progress" was the program topic when members of First Baptist women's missionary union met at the church Tuesday afternoon. Group four was in charge and Mrs. W. W. Fewell, mission program leader, discussed the early Baptist period, which was high-lighted by people like Roger Williams, Adair and Ann Judson and Luther Rice. Mrs. Charles Clark told of the division of Baptist work into northern and southern conventions in 1845 and gave statistics showing the splendid work and growth of the Southern Baptist convention. Mrs. C. S. Surles brought the devotional with scriptures basis from First Corinthians, chapter 3. The meeting closed with special prayer for the men and women of the United States in uniform.

Those present were Mrs. W. W. Fewell, Mrs. Charles Clark, Mrs. C. S. Surles, Mrs. H. B. Hensley, Mrs. C. A. Farquhar, Mrs. A. R. Day, Mrs. G. B. Langston, Mrs. Leon McPherson, Mrs. A. B. Cooper, Mrs. Fred Grist, Mrs. W. Frank Walker, Mrs. Algie Skiles, Mrs. O. G. Lawson, Mrs. W. D. Hazel, Mrs. T. E. House and Mrs. Kate Richardson.

CITY FEDERATION ELECTED OFFICERS.

City Federation of Women's clubs met at the club house Monday afternoon for regular monthly meeting. Mrs. G. B. Langston was afternoon hostess and Mrs. W. D. Hazel presided. Minutes of previous meeting were read by Mrs. Roy Burnam, secretary.

Mrs. Fred Scott, chairman of the committee to name new officers for the next two years, presented names which were voted upon by the body.

Those elected were: President, Mrs. E. Hooks; first vice president, Mrs. L. H. McCrea, Sr.; second vice president, Mrs. J. P. McCantles; corresponding secretary, Mrs. H. H. Davis; recording secretary, Mrs. W. V. Gardenhire; treasurer, Mrs. A. A. Hansen; parliamentarian, Mrs. A. J. Olson.

Mrs. W. V. Gardenhire was leader of the musical program which followed and introduced Misses Jeanne, Jeanette and Dixie Hansen who played piano solos and duets which were well received by the group.

Those present were Mrs. W. D. Hazel, Mrs. Roy Burnam, Mrs. W. V. Gardenhire, Mrs. Fred Scott, Mrs. A. A. Hansen, Mrs. Rex W. Moore, Miss Alice Bacon, Mrs. D. E. Waters, Mrs. Willie Bogan Dunn, Mrs. W. Frank Walker, Mrs. Eugene Lankford, Mrs. J. L. Elmore, Mrs. A. R. Day and Mrs. G. B. Langston.

GROUP THREE MET AT CHURCH TUESDAY.

Group three of First Christian church met Tuesday afternoon at the church for regular meeting. Mrs. H. H. Tompkins presided and opened the meeting with prayer by Mrs. J. R. Wright. Mrs. George Atkins read minutes of previous meeting and Mrs. J. E. Elkins gave the afternoon lesson from World Call magazine. Mrs. C. R. West brought an interesting devotional from the Book of Colossians.

Mrs. H. H. Tompkins and Mrs. George Atkins passed refreshments during the social hour to Mesdames J. E. Elkins, W. R. Winston, C. R. West Glover, J. R. Wright, I. A. Brunkenbofer, H. J. Woodridge, J. S. Mobley and Randolph Lee Clark.

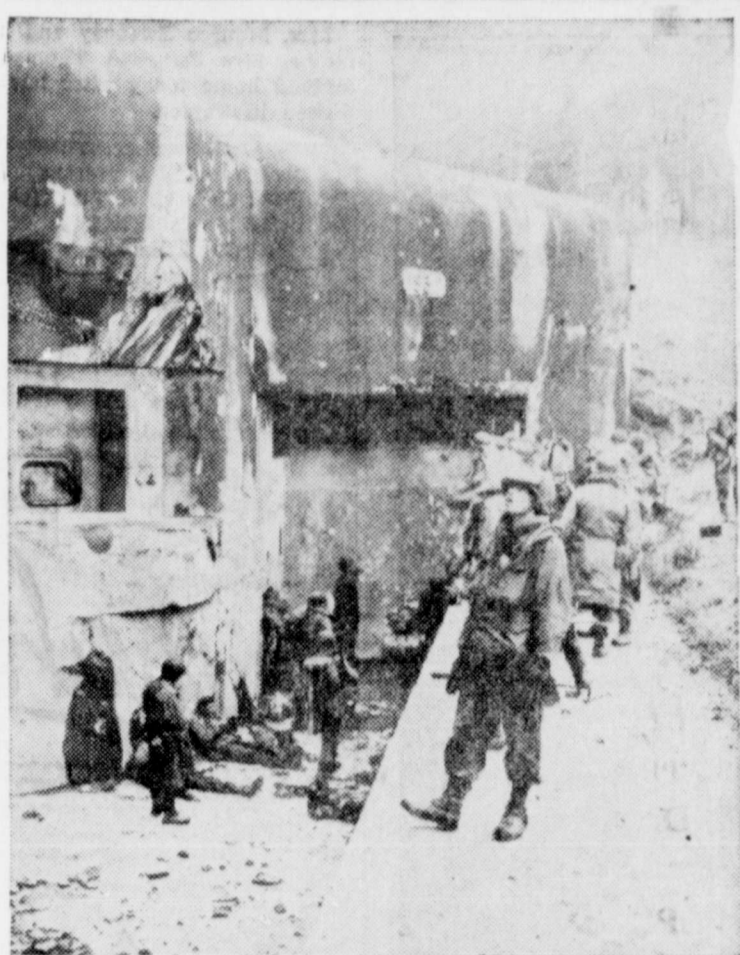

BENNY PIPPEN WAS PARTY HOST SATURDAY.

Benny Pippin entertained a number of his boy friends Saturday night with a party in the day night with a party in the home of his parents Mr. and Mrs. C. C. Pippin. The main diversion of the evening was the game "Monopoly" which was much enjoyed by the group. Mrs. C. C. Pippin, mother of the host, served refreshments of hot chocolate and angel food cake at the close of the evening games.

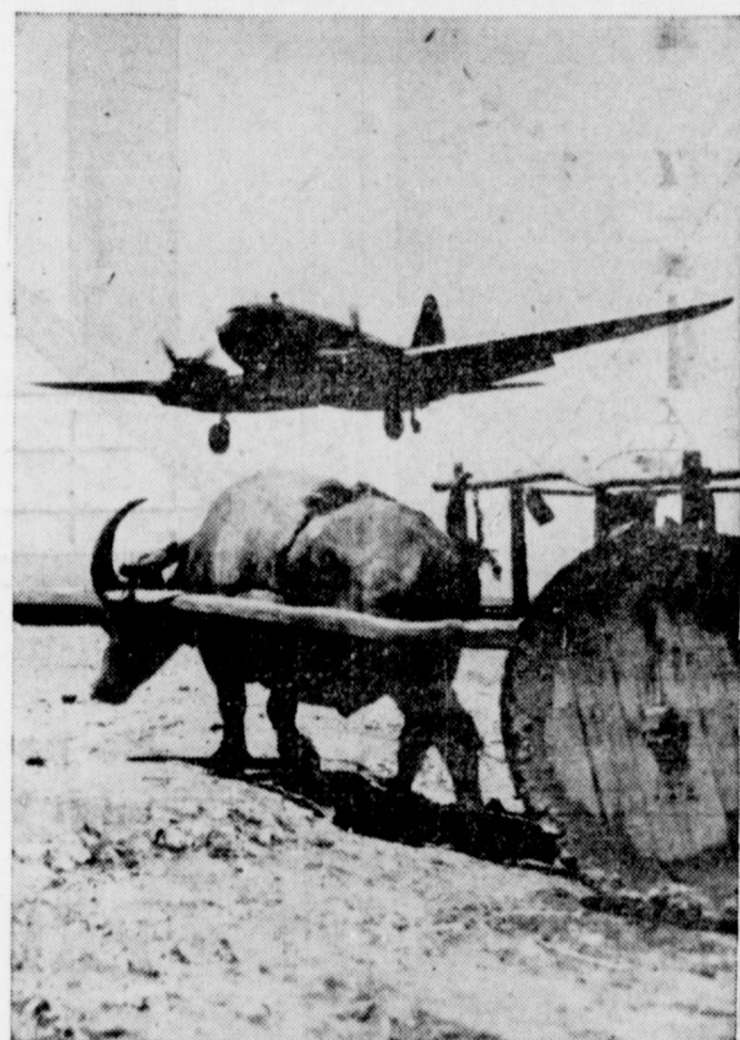

Those present were Philip Porter, Ralph Green, Richard Moore, Joe Stamey, Bill Mitcham, Bob White, Harold and Benny Pippin.

What's the idea? 3 tickets!

SEEMS hard on the man, yet there he is, with practically 3-cars-in-1... First, that's his pre-war car... Second, it became his wartime car... And third—long may it live postwar! For not even record-smashing new car output in 1945 can keep millions from being forced to wait until 1946 or so—most likely including you.

Then go the limit shielding your priceless motor car by having its engine OIL-PLATED. That's your sure gain in switching to Conoco Nth motor oil. Made of finest paraffin-base stock, refined by latest processes, Conoco Nth oil actually tops all that by OIL-PLATING your engine's insides. This extra inner surfacing checks even cruel acid corrosion.

In fact, no straight liquid oil—always wanting to slide off—can ever fight wear like Conoco Nth oil's high-strength liquid film PLUS unprecedented OIL-PLATING. And the less wear, the less carbon and sludge... the more gasoline mileage and battery life, too. There's your whole fistful of reasons for getting patented Nth oil. It costs a mere trifle extra, but how it

WHAT IS OIL-PLATING?

It's the lubricant that becomes almost an actual part of the cylinder walls, piston rings, bearings and shafts. That's how closely OIL-PLATING is attached by Conoco Nth oil's added ingredient—developed by endless far-sighted, costly research. Even after your car stands cold, the OIL-PLATED parts are still ready-lubricated—before any mere liquid oil could circulate. And out goes the worst winter starting wear... another boost for car life!

No need to put up with Wall Sweating . . .

PROVIDE FLUES FOR VENTING MODERN HEATERS

Proper heating requires that appliances be vented to a flue. It is the healthful, modern way. You vent to prevent wall sweating. You vent to prevent stuffy air. In your modernizing or new home building plans, be sure the heating equipment you install can be vented. And make certain it is vented to a flue. Only in this way can you enjoy America's sought-after fuel—natural gas—at its best.

Types of modern gas heating appliances which are vented to a flue and are recommended by your gas company.

Not all types of vented gas heating equipment are available because of wartime restrictions. But if you are using the old-fashioned open-flame unvented type heating throughout your home be sure you provide plenty of ventilation. It will help some to reduce wall sweating and eliminate stuffy air.

Proper heating requires that appliances be vented to a flue. It is the healthful, modern way. You vent to prevent wall sweating. You vent to prevent stuffy air. In your modernizing or new home building plans, be sure the heating equipment you install can be vented. And make certain it is vented to a flue. Only in this way can you enjoy America's sought-after fuel—natural gas—at its best.

Types of modern gas heating appliances which are vented to a flue and are recommended by your gas company.

Not all types of vented gas heating equipment are available because of wartime restrictions. But if you are using the old-fashioned open-flame unvented type heating throughout your home be sure you provide plenty of ventilation. It will help some to reduce wall sweating and eliminate stuffy air.
