Scrap Paper Be Gathered Weekly In Business Area

Talks on the paper drive and the appointment of some committees, featured the Lions club meeting Wednesday. Discussions as to whether Lions were too giddy and lacking in dignified and serious poise during meals and business sessions occupied some of the time.

President Turner frequently asked for attention to speakers who were discussing matters in hand, saying that he was not a killjoy but thought that men should observe usual rules and regulations as to parliamentary procedure. Free discussions of the subject inclined to the idea that Lions should indulge rather freely in fun during the meal, and especially if there were no visitors present.

A committee composed of Charles Burk, W. A. Flynn and E. R. Damron will be in charge of menu, while Charles Clark, Norman Huston and Austin Flint were appointed to notify business men of the shopping district of the purpose of the Lions to gather their scrap paper each Friday.

The third Thursday of each month was set to make city-wide gatherings. It was again emphasized that all kinds of paper was acceptable but cardboard, newspaper and magazine paper should be tied in separate bundles, since each command a different price rate.

349 Discharged Vets Recorded In One County

ANSON, Jan. 11.—County Clerk Oma Sprayberry has recorded discharge papers of 349 returned soldiers of World War II, her books show.

"They are coming in at the rate of about three a day," Mrs. Sprayberry said.

Discharged World War II soldiers are being brought into the fold of the American Legion, Anson Jones Post, here, according to William B. Teague, post service officer, himself a discharged pilot who lost a leg early in the Jap war.

The local post now enrolls about 70, a number expected to be augmented greatly as old members solicit new ones.

Anson is home of A. L. Stell, district commander, American Legion, 17th District.

House Extends Warm Thanks to General Patton

WASHINGTON, Jan. 11.—Gen. George S. Patton, Jr., won glowing words of praise in the house where a year ago he was being denounced for slapping a hysterical soldier.

"Today we thank God we have General Patton at the head of the Third Army," declared Representative Rankin (D-Miss.), "and the American people thank God that the smear bund wasn't successful in its attempt to destroy him."

"Heaven only knows what they'd have done without his fighting courage," echoed Representative Rogers (R-Mass.). "He is feared by Hitler and rejoiced in by all the peace-loving peoples of the world."

County To Raise \$17,000 for Red Cross in March

Eastland county will have a quota of \$17,000 in the annual Red Cross War Fund drive which opens March 1, and Homer Smith of Eastland will again head the drive as county chairman.

This announcement has just been made by Mrs. Joseph M. Perkins of Eastland, chairman of the Eastland county chapter, who also stated that the exact quotas for each of the communities in the county have not been assessed, with the exception of Cisco, Ranger and Eastland, each of which will have a \$4,200 quota.

Mrs. Perkins and County Chairman Smith will attend an area meeting of the Red Cross in Waco next Wednesday, when plans for the drive will be discussed.

It is the plan of Chairman Smith to have the county so well organized before the opening date of the campaign that the quotas can be raised with the greatest possible speed. The fact that the county has always oversubscribed its quota is the basis for belief that it will be done again this year. In 1944 the total subscribed was \$22,076.19 and in 1943 the fund reached \$19,431.31.

Community chairman wishing information as to the drive can contact the Red Cross at the new headquarters in rooms three and four, Prairie building, South Seaman street, Eastland.

Dog Slasher Drew Fines of \$63 For Using His Knife

DALLAS, Jan. 11.—A bemused jury in a tiny, overheated Oak Cliff justice court found Jim Horton guilty of cruelty to animals and assessed him \$63 in fines for slashing two of his neighbor's dogs.

Horton pleaded self-defense before Justice Richburg, in the complaint filed by Mr. and Mrs. E. B. Owens, owners of three Boston terriers.

Two of the dogs were claimed to have been slashed by Horton—Bootsie, five-month-old male puppy, whose throat was cut, and Patsy, his mother, a 7-year-old, who suffered head slashes. Tootsie, sister of Bootsie, was taken by Horton to his home.

G. H. Crane, attorney for the defendant, whose drawing sarcasm provoked more than one "Order in the court" from Judge Richburg, in questioning Owens, who manages Blue Top Tourist Lodge, asked: "Can the dogs bite?"

"I don't know—I guess so."

"You wouldn't object to a man trying to protect himself if he knew he was in danger from dogs biting him, would you, Mr. Owens?"

"But I know the dogs are too small to hurt anyone—they never have."

"You'd just let a dog eat you up without protecting yourself?" Crane interposed. Owens retorted that he wouldn't slash the dog with a pocket knife.

Addie Alexander, employed by the Sylvan Cafe was called to the stand twice. The second time she revealed Horton had told her on Dec. 29, day of the slaying, that: "The dogs got after me and I called for help and then I squatted down and I said, 'Come on, dogs,' and lashed out at them."

When the defendant was called to the stand he testified he believed his life was in danger else he would never have hurt the dogs.

"They can carry rabies and hydrophobia as well as the big ones," he said.

Fort Worth Babe Was Found at San Antonio Bus Depot

FORT WORTH, Jan. 11.—A 3-week-old baby reported by the parents to have been taken from their room in the Strangers hotel here yesterday was recovered in San Antonio after a woman posing as its mother abandoned the child at a bus station, city detectives announced.

The parents, Mr. and Mrs. C. A. McGill, left immediately for San Antonio with city detectives G. W. Haire and A. C. Howerton to take charge of the child.

The baby was turned over to the USO Travelers Aid Society in San Antonio after the woman who left it with a bus station attendant failed to return.

Miss Carrie Hamburg, attendant at the San Antonio bus station, said the baby was left with her about 11 a. m., Wednesday by a blond young woman who said she had just arrived by bus from California. The woman asked her, Miss Hamburg said, to care for the child while she went across the street to lunch.

When the woman had failed to return at 3 p. m., the bus station manager informed Mrs. Katherine Sheehan, on duty at the station as USO representative, who took charge of the child.

In a paper sack which the woman had left with the baby were found several diapers, a bottle of milk, a bottle of water, two blankets and a slip of paper on which had been penciled: "Mrs. McGill, 1408 Calhoun, Fort Worth, Texas."

Mrs. McGill said the woman asked permission to take the baby downstairs to a waiting automobile to show her mother. When she failed to return, Mrs. McGill notified police.

Governor Submits University Regent Names

AUSTIN, Jan. 11.—Governor Coke R. Stevenson today submitted to the senate as appointees to the board of regents of the University of Texas, Dr. C. O. Terrell of Fort Worth, Ed B. Tucker of Nacogdoches, Ernest E. Kirkpatrick of Brownwood and Dr. Walter H. Scherer of Houston.

Dr. Terrell was reappointed for a six-year term ending Jan. 10, 1951. Tucker and Kirkpatrick, new members, were appointed for similar terms. Dr. Scherer was named to fill a vacancy for a term ending Jan. 10, 1947.

The long awaited announcement places before the senate a subject which may stir a controversy.

A special senate committee of the last legislature investigated the university administrative situation which resulted last year in discharge of Dr. Homer P. Rainey as president and resignation of three regents. The committee has not as yet made its report.

The appointments gave the board of regents full membership for the first time since Nov. 1, when three members resigned following the Houston meeting at which Dr. Rainey was discharged.

WASHINGTON, Jan. 11.—The industry today was asked to repeat its record-breaking 1945 arms production job while yielding up some 200,000 to 250,000 more young men to meet climbing draft calls this spring.

MACARTHUR HEADQUARTERS, Luzon, Jan. 11.—Manila-bound American infantrymen stretched their beachhead over 22 miles of Lingayen gulf and drove inland from four key towns today toward impending major battles with Japanese reinforcements struggling north over bomb-cut roads.

Only damaging opposition came at sea where night-attacking Japanese planes and torpedo boats hit several ships in a convoy bringing up 14th corps reinforcements.

On land, the Yanks seized 20 towns and villages, captured Lingayen airfield and pushed their advanced spearheads to a little more than 100 miles north of Manila. Nowhere was serious resistance reported.

Today's report said the Doughboys overran the towns of San Fabian, Lingayen, Mangaldan and Dagupan in the first 24 hours and pressed inland for an average advance of four miles. Patrols were well ahead of this average penetration.

A field dispatch from Fred Hampson, Associated Press war correspondent, disclosed units of the 14th Army corps pushing west along the coast from Lingayen, were within two miles of Port Sual. This broadened the base of the American drive to cover 22 miles of the southern Lingayen coastline.

He said the 14th corps had overrun about 20 towns and villages, including Lingayen, capital of Pangasinan province. Port Sual is a fair ship anchorage.

Hampson said reconstruction of bridges to facilitate the drive toward Manila already is under way. The enemy appears to have pulled well back to inland bases.

While scores of thousands of U. S. Sixth army troops and hundreds of thousands of deadweight tons of equipment continued to land, Lt. Gen. Tomoyuki Yamashita essayed a frantic about-face of his warriors defending Manila.

At some point on the central Luzon plains between the opposing forces, the biggest tank and ground battle of the Pacific war soon may be waged.

Yamashita obviously was decoyed into mashing his strength between Manila and Batangas by the Yank invasions of Mindoro and Marinduque islands.

"He is now feverishly bringing up troops from his prepared positions in the south," MacArthur said.

Overwhelming American air power lashed out in continuous night and day attacks. In contrast, headquarters said "enemy air activity over Luzon has now been reduced to a negligible scale."

There was no official word of any move by Japan's navy against the battleships, cruisers and destroyers which escorted troop-laden transports in a hazardous voyage from Leyte of more than 800 miles. The ships threaded among enemy-held islands, passed within 40 miles of Manila and even closer to Bataan, reported Spencer Davis, Associated Press war correspondent aboard Vice Adm. Thomas Kinkaid's flagship.

Land-based and carrier-based planes are keeping the Japanese off balance throughout Luzon, today's communique made clear.

WAR AND POPULATION.

It is a familiar fact that just about everybody capable of working is busy these days, but the busiest factor in the whole system seems to be the stork. It is re-assuring to observe how Mother Nature, with all her difficulties, seems to rise to the occasion and settle down to her main job, which is the preservation of the species. There is a well established tradition that "more babies are born in war time." And indeed it seems so, in spite of all the handicaps that impede the normal progress of the human race in a time like this. It cannot be true of all countries, because some nations have been subject to far more than their share of wartime losses from slaughter, disease and the breaking up of families. Unquestionably some must be falling behind now in replenishment of the race, and it seems as if, in such widespread wars and deprivation of the means of civilized life, the total population of the world must be lowered. But it may be hard to tell until the returns come in, after the war.

GOOD CUSTOM.

A British custom which Americans might yet imitate is illustrated by making a peer of the premier in the first world war, David Lloyd George. He had announced that he would not run for reelection to the house of commons because, as a man over 80, he found it too hard to campaign and to attend to his constituents' requests. In the house of lords he can take as much or as little part in public affairs as he pleases. American congressmen or senators of long service find no such honorary and useful post open. Were there such, the country need not have lost the services of Sen. George W. Norris when, after 30 years in the senate, Nebraska saw fit to defeat him for reelection. British elder statesmen often end their days in the house of lords. Herbert H. Asquith, premier for eight years, became Earl of Oxford and Asquith when he was defeated for reelection to the house of commons. Only Gladstone refused an earldom, and remained to the end "The Great Commoner." Incidentally Lloyd George de-

serves praise for taking his title from the river Dwyfor which runs near his home. He might have selected the name of his village, and become Earl of Te Newydd Llanystumdwy.

APPRECIATION.

Rationing boards lead a hard life. Their members, hard-working citizens of their local communities, labor long and mightily over a just apportioning of the materials available for their citizens, too often coming out at the end with a good job done and abuse instead of praise as their pay. Human nature is like that. That is why it is so satisfactory to be able to report that Dr. Raymond M. Sloan, of Huntington, W. Va., is today driving a new car. It is a gift from 100 anonymous donors, purchased under regulations, in appreciation of his work as head of the Cabell County Ration Board, in whose service he wore out his old machine. Congratulations to Dr. Sloan, and to his friendly benefactors.

As a New Year Dawns--

... let us again say that it has been a genuine pleasure to have served you these many years. Since Pearl Harbor our services have been somewhat disrupted by necessary war-time restrictions, but you have been patient with us and along with that, grand customers and true friends. If you have not already made that new year's resolution, resolve now never to buy real estate without an abstract.

Constitution Day

The Years Serve to Strengthen the Worth of This Great Document--

It's Our Job to Keep it Living Forever

Our nation's constitution means as much, or more, to the people of this generation as it did over a century and a half ago when it was drawn up. Millions of American lives have been given to perpetuate the liberties it guarantees to us so long as we keep its principles intact. Countless words have been spoken to impress all the people of this country and those liberty-loving peoples of the earth who dream of such an instrument for themselves, but who have not yet attained that goal.

Today, we are fighting in foreign land that despotism may not steal to our shores and rob us of its guarantees.

Our leaders have called upon the American people to carry on in our homefront as never before, to the end that our soldiers may win the battle which seemingly grows stronger against us as the snows of winter descend in blasting fury on the Allied Armies on the German front.

We must not let the softening influence of more wealth and luxuries blind us to the stern facts that confront this nation. We must forget selfishness and mortal greed if we would perpetuate the liberties granted by this great document.

It is ours to enjoy so long as we guard its provisions with our earnest efforts at home as well as at the fighting fronts. Let's ask ourselves seriously just what we can do, and then do it.

Director Byrnes Makes a Strong Appeal to Public

WASHINGTON, Jan. 11. — In drastic steps to meet an impending coal shortage, James F. Byrnes calls for a reduction in temperatures in all homes and public buildings to a maximum of 68 degrees.

In addition, the war mobilization director asked the War Production Board to prohibit all outdoor advertising, ornamental and display lighting except in those areas where flush gas and hydroelectric power can be shown to be available without drawing on the coal supply.

portation was requested to take steps to eliminate special and excursion trains and any increase in passenger schedules to resort areas.

Declaring that a 10 per cent reduction in space heating would save about 14,000,000 tons of fuel annually, Byrnes asserted:

"Therefore, the managements of all office buildings, hotels, apartments, stores and other establishments are urged to take immediate measures to maintain a maximum temperature of 68 degrees in their buildings."

"In addition, all residents of homes are urged to take similar action to minimize a temperature

not to exceed 68 degrees during that period of the day that the home is occupied, with greater reduction during the day if the home is not occupied."

This, he said, should save enough to keep the war effort going full blast.

WPB and ODT are expected to issue orders on advertising and train travel. Meanwhile, Byrnes said he anticipated immediate voluntary compliance.

Byrnes acted with the approval of the advisory board of the Office of War Mobilization. Back of his action was an estimate by Interior Secretary Harold L. Ickes, who also is solid fuels administrator,

that it will be necessary to reduce coal consumption by 25,000,000 tons this year.

The saving from curtailing outdoor advertising is estimated at about 2,000,000 tons. Byrnes provided no calculation on the savings from holding down special train transportation.

Ickes has reported to President Roosevelt that 1945 bituminous coal requirements will be 620,000,000 tons, against a production of only 580,000,000 tons.

Complicating the situation has been a substantial loss in the mine labor. The force has been cut from 435,000 men employed in soft coal mines in 1943 to an estimated 390,000 this year.
