## Cisco Basketeers Licked Stephenville, 40 to 37

The basketball game at the school gym Friday night between Cisco and Stephenville, Harrelson of Cisco ran wild, scored 27 points and Cisco by the score of 40 to 37. It was a close shave for the boys and they have the satisfaction of knowing they defeated the fighting aggregation. At the end of the contest Coach of the Yellow Jackets made a brief statement: "My boys played their best game of the season and were beaten." Collins, one of the many fans who never miss a game, said: "That was the best basketball game I have ever seen."

## Sgt. Wm. S. Jobe in Hospital At Ft. Thomas, Ky.

Fort Thomas, Ky., public relations office of the army air forces informs the Daily Press that Staff Sgt. William S. Jobe, 25, son of Mr. and Mrs. William S. Jobe of route four, Cisco, has arrived at the convalescent hospital there for a period of rest, recreation and therapy. Injured while working on a P-47 Thunderbolt fighter in England, he was a patient at Tilton general hospital, Ft. Dix, N. J., before he was transferred to Ft. Thomas. A former student of Putnam high school, Jobe entered the army following his discharge from a CCC camp, August 9, 1941. His wife, Mrs. Louise Jobe, lives in Wenham, Mass.

HAPPY BIRTHDAY—America's youngest all-girl quadruplets smile demurely as they celebrate sixth birthday anniversary at servicemen's recreation center in Galveston, Tex. From left are Joan, Jeraldine, Jeannette, and Joyce Badgett, who are said by their teachers to be above average in school.

## Few Elections This Year, So Poll Taxes Lag

With next Wednesday the last day on which poll taxes may be paid, Clyde Karkalits, county tax assessor-collector, says only 2,957 polls had been paid at the close of business Friday. All men and women under 60 years of age must have a poll tax receipt in order to exercise the voting privilege. Except in cities of 10,000 population or more, all citizens over 60 years of age may vote without securing an exemption certificate if they convince the election judge they have passed the 60-year deadline. However, possession of the certificate makes it easier. Last year Eastland county poll tax payments numbered more than 6,000, it being what is termed "election year." In April of this year Cisco voters will be called upon to choose a mayor and two commissioners. Two school board members are also to be named in April. For the convenience of the public, Collector Karkalits or one of his deputies will be at Cisco city hall all day Monday, Tuesday and Wednesday for the issuance of tax receipts.

## Fire and Water Practically Gut Red Front Drug

A fire that broke out at the Red Front drug store about 11 o'clock Friday night damaged the building considerably and practically destroyed all contents including fixtures. No money estimate has been placed on the loss. Percy McCrea, Jr., turned in an alarm and the entire fighting equipment of the city was used to prevent the blaze from spreading. Four fire trucks laid six hoses, about 1,850 feet, and deluge of water was pumped from the blazing, smoke-filled building, thus confining the conflagration to the structure in which it had originated from some unknown cause. Wightman Moore, owner of the drug store, could not be seen Saturday afternoon for a statement regarding his loss.

## Ward's Seizure Wrong Federal Judge Announces

CHICAGO, Jan. 27.—President Roosevelt's order for Army seizure of 16 Montgomery Ward & Co. properties on Dec. 28 was declared illegal Saturday by Federal Judge Philip L. Sullivan. "I am of the opinion that the president was without authority, either under section 3 of the war Labor Disputes Act, or under the war powers conferred upon him by the Constitution as commander-in-chief of the army and navy to take possession of the plants and facilities of Montgomery Ward & Co.," the court asserted. The decision in the case, which the government said affected the nation's entire wartime labor dispute settlement machinery, dismissed the government petition for judgment to uphold legality of the seizure and for an injunction to retain Ward's officials from interfering with army operations. Judge Sullivan's decision, however, was in the nature of a first round in the legal controversy because Attorney General Biddle had previously that the government would appeal if it lost.

## Rainey Problem Shifts to Texas Senate Now

AUSTIN, Jan. 27.—Interest shifted to the Texas State senate in the University of Texas controversy as three new regents, all of whom have yet to be confirmed by the senate, voted against reinstatement of former President Homer Price Rainey. Yesterday's vote increased the count of regents who have opposed the former director of the American Youth Commission's continued tenure at the head of the State University. Rainey received two votes for retention when he was dismissed last November 1. Yesterday he had one vote for retention. It was cast by Mrs. I. D. Fairchild, Lufkin, whose regency will expire as soon as the senate confirms a successor. LION KEATON PROMOTED. WEATHERFORD, Jan. 27.—R. Roy Keaton, who has been Texas state secretary and traveling representative of International Lions clubs for six years, with headquarters in Austin, has been elected first assistant secretary general of Lions International, with headquarters in Chicago. SUIT FILED. Deliah Farmer vs. Ernest W. Farmer, Martin Farmer, Travis Farmer and his wife, Ruby Farmer; injunction and damages.

## COMMERCE JOB CAUSES JOCKEYING

WASHINGTON, Jan. 27.—If senate votes first on Wallace nomination, he'll be defeated, according to best dope here. (The senate committee already has voted to reject him, 14 to 5).

If George bill becomes law before the vote on Wallace he'll be confirmed for the cabinet post minus loan agencies.

Here are 24 Democrats whose vote is tabulated against Wallace by the nose-counters: Byrd, Hoey, Bailey, George, Russell, Eastland, Connally, O'Daniel, McClellan, McKellar, McCarran, Tydings, Andrews, Scruggs, Gerry, Stewart, Walsh, McFarland, Glass, Radcliffe, Bankhead, Johnson (Colo.), Wheeler Thomas (Okla.) Add nearly all Republicans; sum total, Wallace's overwhelming defeat.

When showdown comes next week, Sen. Pepper won't oppose efforts to take up the George bill first.

This is tip-off that Administration leaders believe Wallace is licked. Early this week, Pepper said the nomination should be considered first.

Administration men are already scouting for second choice man in case Wallace loses. Indications are they'll try to talk Bill Douglas off Supreme Court to take it. Douglas lunched this week with Ickes, Corcoran. Last time these names figured in the news together, story had to do with Ickes-Corcoran scheme to nominate Douglas for Vice President, instead of Wallace. Third possibility: Ickes himself.

George bill presents this strange situation:

Senator George believes Federal Loan Agency is still in existence; that if his bill, as reported by Commerce Committee, becomes law, Jesse Jones would be Federal Loan Administrator, if he hasn't resigned. And the only resignation in existence, apparently, is Jones' letter to the President acceding to Roosevelt's request that he quit as Secretary of Commerce. This fine point undoubtedly will get much senate attention.

General opinion is that Jones, after his tart letter to FDR, is through. If he is, Senate will have to confirm another federal loan administrator, if and when the George bill becomes law.

## Governor Won't Withdraw Sidney Latham's Name

AUSTIN, Jan. 27.—Governor Stevenson said Saturday he had no intention of withdrawing his appointment of Sidney Latham as secretary of state.

The senate this week sent Latham's name back to its committee on governor's nominations without either confirming or rejecting him as a recess appointee of the governor.

"I thought Sidney Latham was an able and efficient man when I put him in office and I still think so," the governor said in response to questions at his press conference. "He is a man of the highest integrity and one every citizen of Texas can have absolute confidence in."

"I have no intention of withdrawing his name."

## COMMERCE SPOKESMAN FOR FREE GERMAN COMMITTEE SAYS "PUT AN END TO THIS CRIMINAL MADNESS"

LONDON, Jan. 27.—Radio Moscow said today the whole Eastern Front, from the Carpathians to the Baltic, has collapsed, laying open the entire Reich to the advancing Red Army, and called on the German people to revolt against Adolf Hitler.

The Oder river Germany's primary defense line in the East, has been crossed at "several points" and communications cut between the industrial area of upper Silesia and the rest of the Reich, the Moscow broadcast said.

The Soviets have sealed off all East Prussia and its garrison of 200,000 Nazi troops with a breakthrough to the Baltic, stormed the last defenses of Königsberg, Danzig, Breslau and Poznan, and pushed to within 90 miles of Berlin, as reported unofficially.

The Breslau, Danzig and Königsberg radios went off the air, indicating their fall may be imminent.

The Moscow broadcast proclaiming the "complete collapse" of the eastern front was made by a spokesman for the Soviet-sponsored Free German National Committee, BBC and American FCC monitors reported.

"The communication line between the industrial area of upper Silesia and the Reich—one of the decisive factors in Hitler's conduct of the war is already cut," Maj. Gen. Martin Lattman, the German spokesman, told his countrymen.

"The military situation demands that a decision should be taken in order to put an end to this criminal madness," he said.

He told the German people they must choose between "perishing" with Hitler or saving their nation by turning against him.

(A late German broadcast recorded in New York said the Brandenburg provincial border was crossed by Soviet units east of Schneidemühl, 50 miles north of Poznan and 90 miles southeast of the Baltic port of Stettin.)

The Germans were throwing in all available reserves all along the 800-mile front, from the Carpathians to the Baltic, but nowhere showed signs of stemming the Russian onslaught.

The Soviets reported that five Red armies in the first 15 days of their offensive have killed 285,000 Germans, captured 86,305 others, and destroyed or captured 590 planes, 3,012 tanks, 7,932 guns and 24,960 trucks.

## Farmer Schaefer Has Plenty of Fox Troubles

Rudolph Schaefer, who owns the former Bettis place on the Rising Star highway, is the champion fox trapper of the Cisco area. Since Christmas, Mr. Schaefer has trapped 21 of the wily animals, whose origin, Webster says, is unknown. However, Mr. Schaefer does know what they will do to poultry and is determined to get rid of them, if possible.

Thursday he brought in for exhibition four of the silver gray variety shortly after they had been removed from his traps. The hides bring about \$2 each.

Schaefer has lived on the 160-acre Bettis tract five years, but has never been able to raise turkeys or chickens because of the destructive fox, though the farm should be ideal for poultry raising. Last year he started out with one gobbler and three turkey hens. Only the fighting gobbler remained at the end of the year.

## US Armies Are Ready to Resume The Final Drive

PARIS, Jan. 27.—The American Third Army struck forward more than three miles on a 20-mile front today, spearheading the German border in the final mop-up of the Ardennes salient as Marshal Rundstedt's forces fell back along a broad stretch between Holland and the Saar.

Lt. Gen. Patton's forces reached the Our river, the boundary between Luxembourg and Germany, four miles northeast of bypassed Ceeravaux in a general close-in through the border area between points seven miles south of St. Vith and five miles north of Diekirch.

Supreme headquarters reports and front dispatches said the Germans now were engaged in a large scale withdrawal before the combined blows of the American Third, First and Ninth Armies and the British Second Army which were wheeling into positions from which they could resume the Allied offensive interrupted on Dec. 16 by the German counter-drive.

## Tokyo Gets Dose of What London Got From Nazis

WASHINGTON, Jan. 27.—B-29 Superfortresses kindled fires that raged uncontrolled for at least four hours in Tokyo business districts today and, 2800 miles to the southwest, bombed the Saigon-Cholon area of French Indo-China for the first time.

Almost simultaneously with War Department announcements that the B-29s had hit the main Japanese island of Honshu and enemy-occupied Indo-China, Tokyo conceded that the targets were the capital itself and the Saigon-Cholon area.

A Japanese Imperial Headquarters communique said 70 Superfortresses dropped demolition and incendiary bombs on Tokyo between 2 and 3 p. m. (Tokyo time), causing fires that were not brought under control until dusk—some four hours later.

## "EXPERTS" NOT NEEDED.

WASHINGTON, Jan. 27.—Senator Lucas (D-Ill.) called upon senate committees today to purge their staffs of "experts" from gov-

## SURPLUS THE EASY WAY.

Government in business in competition with its private citizens is daily becoming an issue of greater national importance from two angles:

First, because government in business, no matter how you try to guild it, is state socialism, fascism, or communism. Whichever name it goes under, it means that the liberties and opportunities of individuals are restricted.

Second, because government in business destroys local control and taxation in the fields it invades; it demands tax exemptions, public subsidies, freedom from state regulatory laws, etc.

To illustrate, the government-owned Bonneville and Grande Coulee power plants in the northwest, show that the gross revenues from their sales of power "passed the \$50,000,000 mark on December 1, 1944." The system claimed an accumulated net surplus in excess of \$12,000,000, after payment of all power costs, operation and maintenance expenses, depreciation and interest on the Federal investment.

It is interesting to note that there is no mention of any taxes paid. On a \$50,000,000 gross income, private electric companies would have paid some 18 to 25 per cent in taxes to local, state and federal governments before they could set aside any "surplus." Therefore, if these tax-exempt federal plants had paid taxes on the same basis as private companies, they would have earned little or no surplus on \$50,000,-

000. Who couldn't show a surplus with such tax-exemption privileges?

## CAFFEIN.

There is good in caffeine. To many people it is an object of dread because it makes it unsafe to drink coffee if they want to sleep. But as a heart stimulant in certain illnesses it is invaluable.

More and more of it is being imported. In 1942, according to Brazilian official figures, 2,205 pounds were sent from that country to the United States. In 1943 the amount jumped to 121,733 pounds. Eight Brazilian factories are engaged in producing caffeine not only from coffee, but from other unexpected sources.

Americans like to think of the United States as self-sufficient. Caffeine, like coffee, is one more proof that no nation can live by itself, without regard to the rest of the world.

## April, 1925

(Files of Cisco Daily News)

Thursday (April 16) was past presidents' day at the Rotary luncheon of the Cisco club. The program was in charge of Rotarian P. W. Campbell, and all past presidents were present except Claud Wild, who lives in California. Twelve minutes were allotted to each of the past presidents to give brief statements of their Rotary experiences. The following are the past presidents of the Cisco club, with their ages at the time of election, and terms of service: P. D. Wright, 31, 1924-25; J. P. Flynn, 42, 1923-24; Claud Wild, 30, 1923; E. L. Gra-

ham, 35, 1922-23; P. W. Campbell, 37, December 1920-22. Besides the local past presidents, J. C. Fanning, past president of Mineral Wells Rotary, was also introduced for a brief sketch of his Rotary experience. At the conclusion of the introduction of the past presidents President-elect J. J. Godbey was introduced and made a short talk. The other speaker at the luncheon was J. M. Williamson. Interesting reports were made by F. E. Harrell, treasurer and E. P. Crawford, retiring secretary. Music was furnished by Mr. and Mrs. Stotts. An interesting feature of the luncheon was the reading of the prize essays of Misses Luella and Juanita Smith of the Colony school, who with their father, C. H. Smith were Rotary guests on this occasion. These young misses personally read their essays to the club, which were awarded first and second prizes by the Cisco chamber of commerce extension department.

A woman's auxiliary of the John William Butts post, American legion, was organized Monday night (April 13) at the armory of the local post by the election of officers, when the following ladies were present and applied for membership: Mesdames M. D. Paschall, J. R. Mason, K. J. Scott, H. A. Bible, P. F. Keelan, H. G. Bailey, R. M. Herron, J. T. Maddox, W. B. Statham, Carl R. Wilson. The temporary officers named were Mrs. P. F. Keelan, president; Mrs. W. B. Statham, secretary; Mrs. Carl Wilson, treasurer. A large number of ex-service men and their ladies were present on this occasion and a most enjoyable social hour was spent after the business was dispensed with.

The annual Easter services of Cisco Commandery No. 47, will be held this morning at the First Christian church at 11 o'clock. Rev. A. C. Miller, pastor of the First Baptist church, will deliver the Easter sermon. Commander Dallas K. Scott requests all Sir Knights to assemble at Masonic Temple at 10 o'clock, in full uniform, as the line of march leaves this asylum promptly at 10:30. All Masons, friends and families are urged to join in this worship. Following are the officers of the Commandery: Sir Knights Dallas K. Scott, commander; J. M. Witten, generalissimo; Herman Patterson, captain-general; W. Frank Walker, senior warden; Fielding E. Lee, junior warden; Frank H. Stedman, prelate; William Reagan, treasurer; John F. Patterson, recorder; E. H. Chaplain, standard bearer; Moses S. Cummins,

warder; Leroy D. Wilson, sentinel. The following past commanders are members of the Commandery: John F. Patterson, Dallas K. Scott, Ransom A. St. John, William S. Michael, Edward E. Kean, William P. Lee, W. Frank Walker, Burette W. Patterson, William Reagan, Goodner Bedford, Leroy D. Wilson.

### DON'T WASTE TIME!

The next time you have an impulse to call Graham Sanitarium on the telephone—stop and think a moment!

Ask yourself: "Is this call necessary?"

Nine times out of ten you will decide that it isn't. For about 90 percent of the calls—and they are often as many as 200 and 300 a day—are time wasters. Most of them are calls merely for information.

Here is what happens in most cases when the telephone rings at the hospital:  
A nurse, hurrying down a corridor to attend one of a dozen or so patients under her care, has to drop whatever she has, let the patient wait and hurry down a corridor to the telephone one hundred feet away. It may be an emergency; she can't tell. Imagine her feelings, overworked as she is, to discover that it is only Mrs. Doc wanting to know if Mrs. Roe's baby has arrived, whether it's a boy or girl and how much it weighed.

Or perhaps it is the business office manager, busy with people in her office or doubling for a nurse, or helping in the kitchen—they all double in brass at the hospital now, even to do the janitoring. She has to lope in from the kitchen or one of the wards, or drop her work with some of the scores of people coming into the office every day, to answer the 'phone and tell Bill that John is doing all right, or answer the inquiry of some thoughtless person who heard there was an accident and wants to know who was hurt.

Again it may be the doctor who has to stop his work with a patient and answer a request for some information of absolutely no value to the hospital or any patient therein.

It is impossible to get nurses—the hospital has to operate on a skeleton staff. It is impossible to get a janitor—the doctors and nurses have to do the mopping and the cleaning. Everybody has to help in the kitchen. This when the hospital is crowded to capacity almost every day and many serious cases need instant attention and constant care.

Your useless telephone call is not only adding to the overburden of work of the hospital staff, but it may be taking from a patient the attention and care essential to his recovery.

So stop and think, before you make a useless call. Get your information somewhere else—from the family of the patient or someone who you know to have the

knowledge you wish. Above all, don't call between 12 noon and 1 p. m. or after 5 p. m.

If the call is essential, the hospital will welcome it—if it isn't essential, it is an imposition and a real burden. Count the time that it takes to answer 90 per cent of 100 or 200 calls daily and you can readily see how many man-hours needed for the treatment of human ills you are helping to waste.

Be reasonable, won't you? Don't waste time!

**BEST THRIFT INVESTMENT**

**Let the Franklin Shadow of Thrift Hover Over You.**

Benjamin Franklin was a man of deeds and words. If we remember him for his discovery of electricity, we also remember him for his "A penny saved is a penny earned."

And now as then, his words still ring true, and the shadow of thrift proves itself a pathway straight and sure to security and peace for those who are guided by his words.

The best thrift and saving is to invest in war bonds; they are safe, they keep the war needs supplied and they build up for you a security for future years. And greater still, it is the patriotic thing to do.
