VOLUME XXV.

CISCO, TEXAS, SUNDAY, FEBRUARY 4, 1945.

NUMBER 97

MANILA LIBERATION IS NEAR

Rev. S. C. Farrior Will Speak at Hi School Here Monday at 8 Monday at 3 P. M.

Rev. S. C. Farrior, who went to China as a missionary from the Presbyterian church in 1912, remaining there continuously until he and Mrs. Farrior returned to this country on the Gripsholm, December 1, 1943, will speak at Cisco First Presbyterian church

REV. S. C. FARRIOR.

Monday night at 8 o'clock. The public is invited to hear him. At 7 p. m. the Presbyterian ladies' auxiliary will serve supper to the visitor and members of the church, in the church basement.

Mr. Farrior was engaged in church educational work the first part of his missionary life, while the latter years of his stay in China were devoted principally to evangelistic efforts. His last station was at Chinkiang, where they lived for more than twenty years. They were interned by the Japanese at Shanghai from February until September, 1943.

Cisco Lightweight Kayoed Opponent in First Round

The Brownwood Golden Gloves Tournament, sponsored by the Junior chamber of commerce of that city, ended last night with three Cisco high school boys participating in the finals.

Melvin Noble of Cisco, lightweight, won a knockout decision over John Hellums of John Tarleton college. The Ciscoan's terminating punch was delivered in the first round.

In the welterweight contest Wesley Isenhower of Cisco won second place by going the full three rounds with Charlie Mills of Brownwood.

Don Johnson of Cisco, flyweight, won on points from a 24-year-old soldier from Camp Bowie. The Cisco lad weighed 109 pounds and the soldier weighed in at 112.

Noble and Johnson each received handsome \$70 watches and Isenhower was presented with a \$40 timepiece. All entrants received a set of boxing gloves and nice robes.

In addition, the three Cisco boys will have their expenses paid to the state tournament in Fort Worth, February 14-19, in which they have been entered.

CISCOAN WITH PATTON.

Mrs. Willie Penn of route four, Cisco, has been notified that her son, Tech, Sgt. James Penn of the infantry, was wounded January 15 near Luxembourg, Germany. The young man has been overseas since last April and in June he received a serious shoulder wound. The recent injury is not considered serious, the report said. Sergeant Penn was born and reared in Cisco and joined the army in March, 1942. He is a member of General Patton's Third army.

Film on Television at Hi School Monday at 3 P. M.

A peep into the mysteries of what will undoubtedly be one of the greatest developments of the immediate future will be afforded in a public program to be given at high school auditorium Monday afternoon at 3 o'clock. There will be no charge.

"Sight-Seeing at Home" is the subject of a film on television, prepared by the General Electric company and made available here through the efforts of the Cisco chamber of commerce. This film, which carries the spectators through the company's pioneer television station at Schenectady, N. Y., and reveals some of the equipment, including the cathode ray tube, the methods and technique of television broadcasting, will be shown in conjunction with a talk on the new science by A. P. Clayton of Southwestern Bell Telephone company, here. What television will mean to the home after the war is aptly suggested by the picture.

Since Cisco is the western terminus of the long distance toll cable of the Bell telephone system and because television programs will in large part be distributed to "relay" stations through a coaxial cable of the company, this program should be of considerable interest to the people of this area. This is so not only because of the probability that initial networks will follow the route of the big underground cables, but for the reason also that there will be a likelihood that one of the many big broadcasting relay units may be set up somewhere in this area.

The film is in such demand that it was possible to obtain it for only one day in Cisco. The chamber of commerce therefore arranged with Principal O. L. Stamey of the high school to present the television program at the school and to invite all Cisco business men and citizens who are interested to view the picture and hear Mr. Clayton's explanation of many of the interesting technical and mechanical features of this almost magical radio development. Speaking at the Rotary club on one occasion, Mr. Clayton gave a very interesting picture of television, presenting many generally unknown facts about it. He will be able to present more interesting facts in conjunction with the showing of the film.

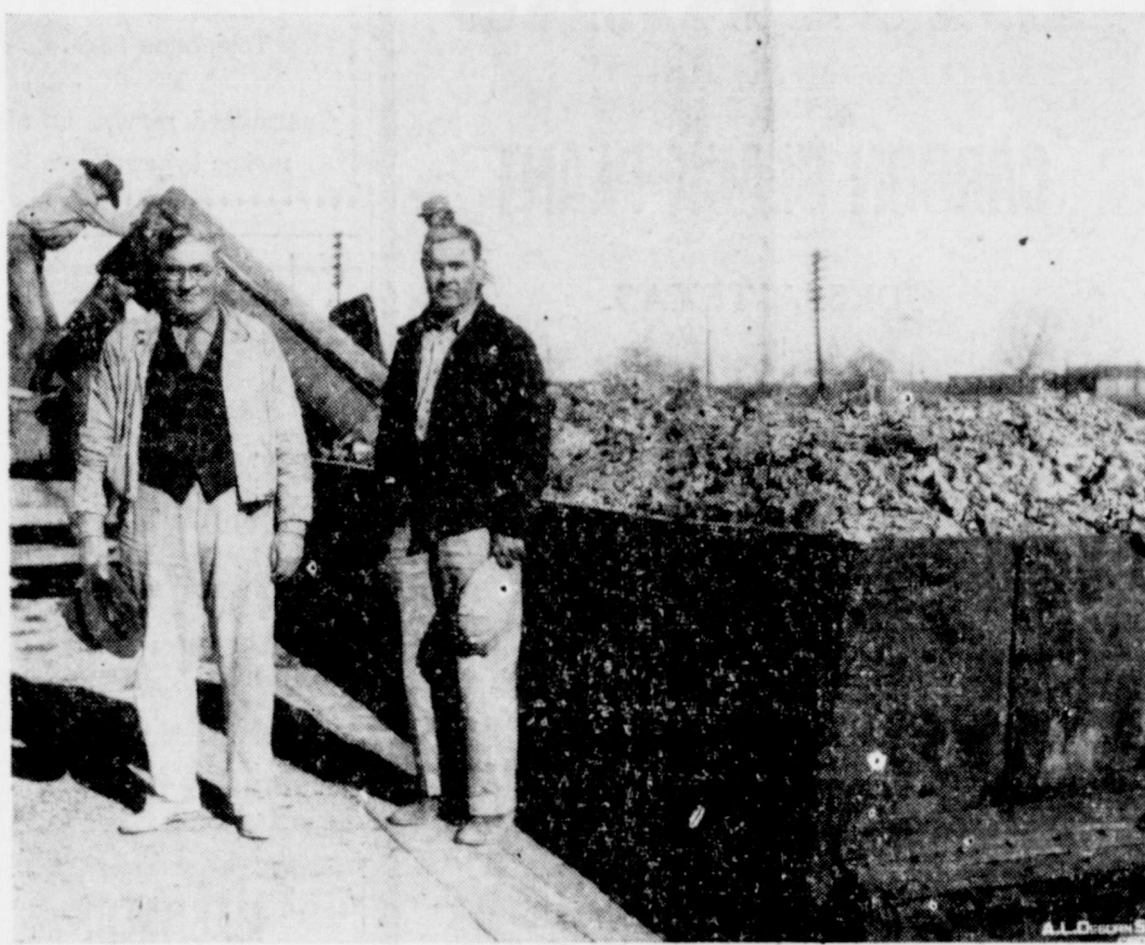

Don Burger, Former Ciscoan, Now Heads Hotel Co.

Ciscoans who remember Don Burger as manager of Leguna hotel a number of years ago, will be interested in news of the purchase of the Hilton hotel in Abilene by a company known as the Burger-Yard Management, organized recently in Abilene, of which Mr. Burger is the head. The hotel will now be known as the Windsor Hotel.

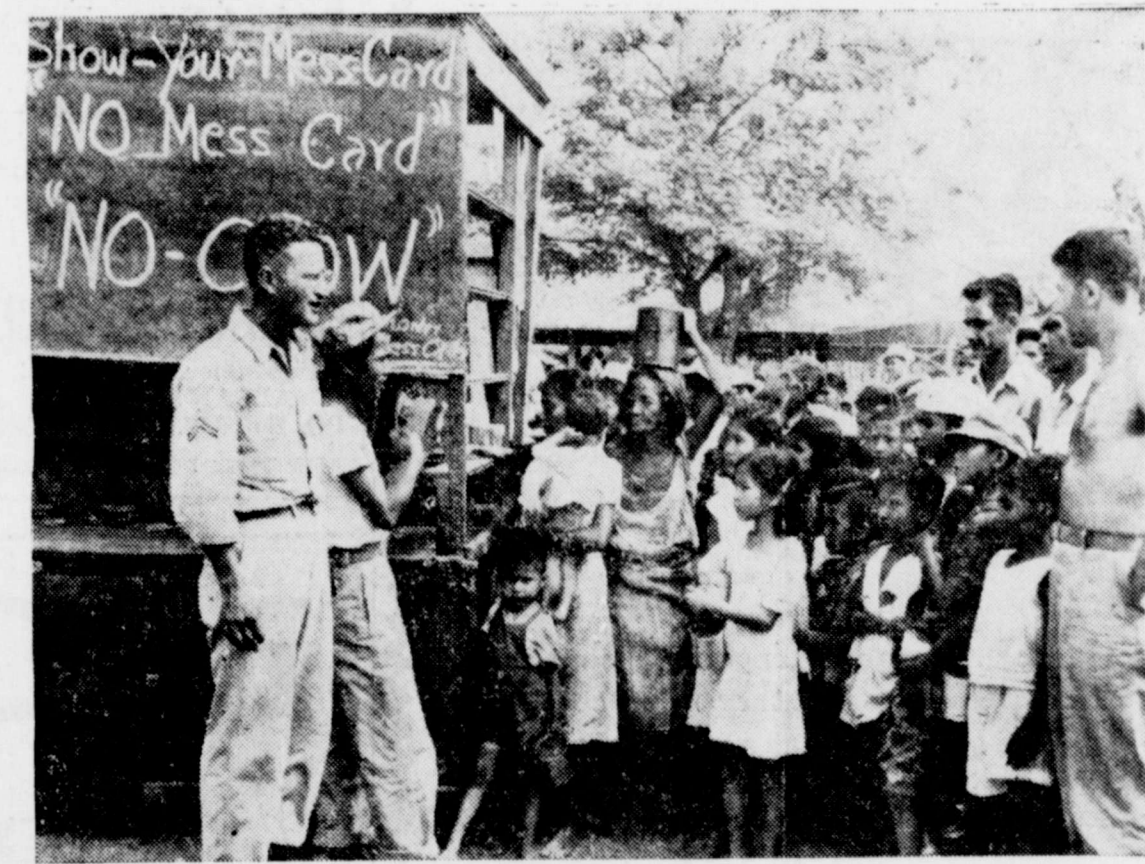

Others interested in the project are Earl Guitart, vice president; C. M. Caldwell, director; Dudley Yard, new manager; W. G. Swenson, corporation president, and W. J. Fullwiler, secretary-treasurer.

The rise of Mr. Burger has been rather phenomenal, beginning as clerk in the Hilton 17 years ago, and then growing steadily in his business to become manager of the Sir Francis Drake in San Francisco in 1938, assuming the management of the Savoy Plaza, New York City, in 1940. Many Cisco friends of Mr. Burger will remember his frequently expressed ambition to become a hotel man in New York.

Second 50-Ton Car of Cisco Clay Shipped.

S. Clark, left, mining engineer with Harbison - Walker Refractories Co., Pittsburg, Pa., and Guy Quinn, Eastland ceramics manufacturer, stand beside Katy railroad car loaded with 50-tons of Cisco clay shipped for testing in Harbison - Walker plants.

KEEPING ORDER—With empty pails in hand Filipinos of Dagupan wait for surplus chow at soldiers' mess. Cpl. Joseph W. Kristian (left) of Cedar Rapids, Ia., and Pvt. Herman Scherer of Brooklyn, N. Y., (right) try to keep order among hungry children.

Ramon McBride, a Former Cisco Boy Wins Honor, India

Ramon L. B. McBride, son of Mrs. Charles B. McBride of Houston, both former Cisco residents, has been commissioned second lieutenant in the army engineering corps, it has been announced from his base in India.

McBride was in the first group of army pipe line men in the India-Burma theater. Since his arrival there in July, 1943, he has been actively engaged in directing construction of the world's longest military pipe line and was instrumental in constructing the first pipe line warehouse in the Calcutta area.

He was formerly associated with his father, the late Charlie McBride, and an older brother, Paul McBride, in an independent oil concern. At the time he

entered the army he was connected with the Crown Central Petroleum Corporation of Houston as a specialist in the field of crude oil production and transportation in the Texas gulf coast region. He is a graduate of Cisco high school.

NORMAN SMITH DIES.

Word has been received by Cisco friends of the sudden death of Norman M. Smith, 47, at his home in Tulsa, Okla., Wednesday. He was buried Saturday at Holden, Mo. Mr. Smith had been production superintendent of the T. K. Simmons oil interests for 25 years. Mr. and Mrs. Smith were residents of Cisco in the twenties.

CISCO DEFEATED.

Friday night's basketball game between Mineral Wells and Cisco, which was played in Mineral Wells, was won by the home team, 32 to 10.

VINSON MAY SUCCEED MR. JONES

WASHINGTON, Feb. 3.—Who'll head the loan agencies? Henry J. Kaiser says no one has ever proposed or suggested to him that he do it; all he knows is what he reads in the papers. Rumors about Joe Kennedy, Higgins, Blandford, all seem to be equally thin. Economic Stabilizer Vinson still seems to be the best bet, and he'd please congress. If he gets it, his present post probably will not be filled; duties along with everything else, would go to Byrnes.

Friends of Wallace disagree about whether he should take the emasculated commerce post. Arguments against: Commerce will have little more left in it than the stripped labor department, its head could do little toward insuring 50,000,000 jobs in post-war America. In the cabinet he'd be subject once more to the Roosevelt rule against quarrels within the official family, will be unable to take exception to acts of party's right-wing administrators. Even the statistical information Roosevelt has asked the Commerce Department to compile on business activities and markets, employment and unemployment, incomes, expenditures and savings could be stopped by a hostile Congress — as it was last year — through refusal to provide funds. Arguments for: Liberal wing of the party thinks Wallace could find ways to exert leadership in cabinet post; points out it would give him a sounding board for frequent speeches keeping his points of view before the country, and building up his 1948 candidacy.

Government accounting office audit of RFC affairs will be no token matter if the George bill passes. GAO has assured senators that work will start on a thorough job as soon as it is given authority. Meanwhile House Republicans plan amendments which would forbid the President to transfer Commodity Credit and other agencies back to commerce, as well as forbidding transfer of RFC. It means another free-for-all if it reaches House floor. But Banking and Currency Committee membership is more friendly to the Administration now, and New Dealers on it point out congress can veto any transfers within 90 days, in any case.

Big Three Said To Be Together In South Russia

LONDON, Feb. 3. — President Roosevelt, Premier Minister Churchill and Premier Stalin were believed studying armistice terms for Germany today at their "Big Three" conference.

There were a number of signs that the long awaited confab finally had begun, with the approval of terms for a defeated Reich the most urgent item on the agenda.

Though official secrecy cloaked the site of the meeting, unfirmed reports placed it somewhere in Southern Russia.

The European Advisory Commission was understood to have drafted armistice terms for Germany for final approval of Mr. Roosevelt, Churchill and Stalin. Washington sources said the terms were put in textual form and initiated by the commission some weeks ago.

JAPAN'S THREE-YEAR REIGN OF TERROR AND STARVATION ENTERING ITS LAST HOURS

MAC ARTHUR HEADQUARTERS, LUZON, Feb. 3.—Vanguards of two American divisions sped down parallel highways less than 20 miles north of Manila today. Liberation of the Philippines capital appeared imminent.

Japan's three-year reign of terror and starvation in Manila is entering its last hours.

(The advance on Manila shook the puppet Philippines government into a frantic appeal for more planes, tanks and guns to bolster Gen. Yamashita's forces on Luzon.)

(A Domei News Agency dispatch recorded by FCC monitors in New York said Jose Vargas, president of the executive commission in the puppet regime, told a mass meeting in Tokyo that Japan's own fate is at stake in the battle for Luzon.)

Caught off balance by the multiple American attacks and with their main forces pinned down impotently in the northern hills around Baguio, the Japanese apparently had little or nothing to oppose the armored columns sweeping down on the capital.

Motorized outriders of the U. S. 37th Infantry and First Cavalry Division were meeting only scattered resistance in their parallel advance through the northern approaches to Manila, and there was every prospect that their battle flags would be raised over the city before the close of the weekend.

Official headquarters reports, admittedly lagging more than 36 hours behind the event, said the 37th had finally worked out of the swampy bottleneck at Calumpit and pushed on more than five miles down Highway 3 to the Malolos area, 17 1-2 miles north of Manila, by Thursday night.

A few miles to the east, veteran troopers of the First Cavalry were pushing down Highway 5 below Sabang, 23 miles north of Manila, after a breakneck 57-mile advance in 24 hours.

The First Cavalry, entering the battle of Luzon for the first time Wednesday night, struck eastward along the Manila north road from Guimban and then south into Highway 5. Cabanatuan, Santa Rosa and Gapan all fell in swift succession, completely severing communication between the Japanese forces in North and South Luzon. Strong armored patrols raced 24 miles past Gapan to reach Sabang by nightfall Thursday.

The stiffest Japanese resistance was met at the Pampanga river crossings just above Cabanatuan, where some 300 enemy troops supported by light tankettes put up a short, sharp battle that ended in their destruction almost to a man. American losses in the fight were described officially as small.

The Manila-bound Yanks pushed past Cabanatuan without entering the prison camp six miles to the northeast from which 510 American and British captives were rescued last Tuesday.

Field dispatches said the terrific impetus attained by the First Cavalry was expected to carry them into Manila before the 37th, which had been hampered by the difficult terrain around Clumpit.

REEVES HONORED.

Mrs. Robert H. Reeves of 506 west Seventh street, has been notified that her husband, Lieutenant Reeves, has been awarded the air medal, oak leaf cluster and three campaign stars for his part in the liberation of the Philippines. He is now serving in New Guinea as a combat bombardier instructor.

Two US Divisions Crashed Through First Pillbox Belt

PARIS, Feb. 3.—Two American divisions burst completely through the first pillbox belt of the double Siegfried line today and surged across open country two-thirds of the way through the whole defense system. Some troops gained as much as three miles.

The German high command reported lively air activity and increasing artillery fire in Holland and on the front along the Roer river in Germany, amid rising indications of an impending Allied offensive.

Field Marshal von Rundstedt gave this cryptic command to his troops: "Orders for what we have to do have been given. Comrades, now more than ever we must be watchful."

The Americans along a 40-mile front have run into stiffening resistance.

One front dispatch declared Germans were springing to the counterattack at points from concrete bunkers, and termed the fighting the heaviest since the height of the Germans' December breakthrough into Belgium.

Germans Say Russ Attacks on Oder Were Repulsed

LONDON, Feb. 3.—Russian attacks on the Oder river have been repulsed, the German high command declared today as American air fleets rocked Berlin with 3,000 tons of bombs in aid to Soviet troops massing along the river 40 miles east of the capital.

One Berlin broadcast said Marshal Gregory Zhukov's troops had won but later lost a bridgehead over the Oder near Kustrin.

The Moscow radio declared one of Zhukov's columns had spearheaded to within 11 1-4 miles of Stettin on the Baltic. A plunge to Stettin would lop off 13,500 square miles of northeastern Germany, the Polish corridor, and the Danzig area.

Kustrin is on the Oder 40 miles east of Berlin. A huge battle was reported raging farther south, four miles east of Frankfurt on the historic Kundersdorf battlefield, first bloodied in the era of Frederick the Great.

The rain of bombs from more than 1,000 U. S. Flying Fortresses crashed on the refugee-choked capital, which is within sound of Soviet guns shelling Nazi defenses on the western side of the Oder.

Zhukov's drive on Stettin, 74 miles northeast of Berlin, threatened to cut off great German forces, and to open Berlin for an attack from the north.

HAD GREAT TIME.

DALLAS, Feb. 3.—A glorious spending spree was at an end today for Pvt. Robert A. Atkins of Abilene, accused by the FBI of cashing thousands of dollars in worthless checks since he went AWOL from Camp Livingston, La., two days after Christmas. Atkins, arrested in a Dallas hotel yesterday, was lodged in jail in default of \$1,500 bond.

Fort Worth Fire Loss Estimated As One Million

FT. WORTH, Feb. 3.—Flames which broke out at 1:07 a. m. today gutted the Worth Bldg., at Seventh and Main, causing an estimated \$1,000,000 loss.

Four alarms brought approximately 150 city firemen to fight the blaze, which threatened Hotel Texas in the same block. The fire was brought under control by 8 a. m. but was still burning.

It was Fort Worth's largest fire since 1909 when approximately 34 blocks on the South Side burned.

Five firemen suffered back injuries, but none were considered to be in serious condition.

THE CISCO DAILY PRESS

Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937.

Entered as Second Class Matter December 11, 1934, at the post office at Cisco, Texas, under Act of March 8, 1879.

A. B. O'FLAHERTY, Publisher and General Manager.

National advertising representative: Texas Daily Press League, Dallas, Texas.

SUBSCRIPTION RATES: \$2 per year (six months \$1.50) by mail (outside Cisco) in Eastland, Stephens, Shackelford and Callahan counties, Texas; outside above-mentioned counties \$3.50; \$5.00 in U. S. outside of Texas.

Per year, in advance (Cisco) \$5.00
Per week, by carrier boy 12c

BEHIND THE GLAMOR.

Government agencies by the score are planning how the people of the United States are to live when peace returns. The inference is that the people are incapable of planning on their own hook. Whole industries are threatened with having their future laid out for them by public officials who, like Henry Wallace, strive to create the impression that they are endowed with a degree of competence not possessed by the ordinary citizen.

Behind this official glamor there is nothing to inspire the belief that government officials are super-beings. For instance, they did not make it possible for this country to produce five times as much coal per man per day as do the miners of Britain. They did not make it possible for the coal industry to turn out a record 625,000,000 tons of coal during 1944 with 200,000 fewer workers than in 1918. Machinery made this record possible, machinery installed by the coal mining industry over a period of many years.

It would be hard to find a politician who encouraged the mechanized mining that has saved the United States from a tragic coal famine. And yet these same politicians who know nothing about coal mining, and a few years ago were far too busy with other matters to suggest ways of stimulating coal production, today presume to know more about its future than the coal mine operators. They sit in Washington and compile figures based on current industrial performance while out in the field industry is relentlessly searching for new methods, for shortcuts, for greater efficiency; things that make hash of statistics. The history of the coal industry is typical of American initiative.

The only way central government authority can blueprint the future is to freeze industry to present standards and prohibit further invention. This could work providing the people can be convinced that government planning is more important than production.

But God help us if we ever get into another war!

WATCH THE LEADERS.

In a very human article on the labor question, the Reverend Norman Vincent Peale, D. D., pastor of Marble Collegiate church, Fifth avenue, New York City, says:

"This writer favors labor unionism. As a Christian minister, I am, of course, a champion of the rights of man. (I refuse to use the term, 'common man,' for I do not believe that any man is 'common.') . . . It is a good thing for labor that there is an institution like the Church that plays no favorites, that stands for justice to all men. And justice demands that one support unionism, the right of workingmen to organize and bargain and advance their economic interests. Labor is fortunate that there is an institution like the Church that fears neither labor leaders nor capitalists. . . ."

"America gave one original principle to the world: The idea that the citizen and not the state is master. Today, forces are in motion which would reverse this American principle and again make big government supreme. Those espousing this reversal call themselves 'Liberals,' but really they are 'Reactionaries' of the worst sort, for they would take us back to a system where the individual is the serf of the state or of overlords. . . ."

"Union members ought to watch carefully lest they permit leaders to arise who assume that the union is merely a vehicle to advance them to personal power. . . . If, as has been charged, some capitalists have at times crushed men in their upward rise, so can individual union members be crushed by ruthless men who are imbued with the same selfish desires, but who merely take the labor-leader route instead of the capitalist route. Both are pre-

datory egotists under the skin. "Greater democracy is needed among union members, a democracy that will say to the leaders: 'Leadership is based on service—leadership is not a special privilege—it is not to build up arrogant super-men, drunk with power.' The rank and file should demand and elect leaders who are happy in the distinction of being servants, not masters. . . ."

"If the labor movement should become a transmission belt of the master state concept, it will contribute to the ultimate destruction of free unionism. It will help destroy the most sacred principle in human life, the sacredness and supreme value of the individual man. Workmen, hold to your dignity—you are masters, not servants."

April, 1925

(Flies of Cisco Daily News)

Charles H. Fee, president of the First State Bank of Cisco and prominent in Cisco business and civic circles since 1883, will be 65 years old tomorrow. When seen at his place of business this morning, Mr. Fee was all smiles and as chipper as a golf player who has just made a "birdie." A little bit reluctant to tell his age, Mr. Fee finally divulged the information that he was born in Oxford, Miss., April 18, 1860, and that he first breathed the air of Cisco in July, 1883. In 1887 Mr. Fee was married to Miss Frances Lillian Patterson, daughter of William Patterson, of Cisco. Five children were born to this union, three of whom are living. Shortly after their marriage, Mr. and Mrs. Fee built a home on the site where they now reside, but the cyclone of April 28, 1893, swept this building away, which was immediately replaced by the present home.

Looking back down the years, Mr. Fee says he feels he has a great deal to be thankful for, notwithstanding the fact his health has been poor for a number of years, and that he often wishes he could be a boy "some more" and live it all over again. The Daily News and a large circle of friends wish Mr. Fee a happy birthday tomorrow, with many returns of the event.

High School Gusher page: For the year 1924-25, the total enrollment has exceeded any previous year—325 is the number up to date—a number to be proud of. Of course, all of these are not in regular attendance, as some have dropped out and others have moved away. But the daily average is more than 400.

A message from Coach W. B. Chapman Saturday night stated that the Lobo entry in the Rice Institute field and track athletic events at Houston, acquitted himself with credit and covered the name of Loboes with glory. Cecil Couch, who won the championship of the Oil Belt for being the best all round athlete, loomed up big in the fast company at the Houston event when he won first place in shot put and discus throw, and took fourth place in the javelin throw. Couch was not allowed to enter the 100-yard dash on account of not participating in the preliminaries.

The regular spring convention of the Abilene district of Christian Endeavor will be held in Cisco, May 1, 2 and 3. The convention will be led by E. F. Huppertz of Dallas, Texas, field secretary. A wonderful program has been arranged for the three days by the program committee, with Miss Ala Gene Holmes, as chairman. The social features of the convention have also been worked out by a live committee, including a trip to Lake Cisco, that will be of interest to the visitors, with plenty of eats for all. An invitation is extended to all young people of Cisco to attend this convention. The first Christian Endeavor society was organized in Portland, Me., in 1841, in a Presbyterian church. Now there are 81 different denominations in the United States who have Christian endeavor societies.

CHURCHES

First Presbyterian.
Sunday school at 9:45. Kent Word, Supt. Morning sermon subject, "Giving Out Our Gains." Time of the evening worship has been changed from 6 o'clock to 7:30. Sermon subject, "The Song of a Shepherd." O. L. SAVAGE, Pastor.

Church of Christ.
"Some Bible Fools" is the subject for discussion at 10:50 a. m. At 7:30 p. m. the pastor will discuss "The Second Coming of Christ." Bible classes start at 10 a. m. Young people's class at 6:45 p. m. Women's Bible class at 3:30 Tuesday afternoon. Mid-week Bible study at 8 p. m., Wednesday. G. S. WESTBROOK, Minister.

First Methodist.
Sunday school at 9:45. G. P. Mitcham, Supt. Sermon subject at 10:55, "A Consistent Christian." At 7:45 p. m. the sermon subject will be "A Reason for Optimism." Methodist Youth Fellowship, 6:30 p. m. W. A. FLYNN, Minister.

Grace Lutheran.
Sunday school at 10 with Junior Bible class. Service with Holy Communion at 11. "Take Heed How Ye Hear" will be the sermon topic this morning. Men under 21 must have minor's release signed by parents which can be obtained at employment office.

ABRAHAM LINCOLN

BORN FEB. 12th

Perseverance Will Win!

A study of the life of Abraham Lincoln teaches us this great truth as does, perhaps, no other character in American history. Failure and doubt, as a part of human achievements fade, and a certainty looms whenever this trait is dominant in any man's or nation's life.

Lincoln as a youth, had a yearning for knowledge, and with him it was not idle wishing. He worked for it by the side of a pine knot fire after the end of a hard day of labor.

This is a part of the character of Americans today, woven into the fibers of our beings by the hard pioneer school through which we have passed.

If we are to emerge a great nation, this same determination to achieve must be in our determination to win this world struggle in a way that will guarantee to us that freedom of living for which this great emancipator gave his best efforts and his life.

Lincoln never quit; we must not falter.

WOLFE'S ROSSBERRY — The new berry sensation. Free: Write and get Wolfe's new Berry Catalogue in natural colors. Contains complete facts, color pictures and prices of the Rossberry. Ross R. Wolfe, Texas Horticulturist who has introduced a number of new fruits and nuts, discovered and introduced this sensational berry that you have been reading about or have heard about over the radio. Rossberry was created by the famous Luther Burbank and has broken all records for production and outstanding merits. It is the greatest berry ever discovered. Grows like a Boysenberry, loaded with giant-size, 2 x 1 inch, wine-colored, delicious berries. Has the combined flavor of Boysenberry and raspberry with some sweet added. Those who have tried it are re-setting their whole patch with Rossberry. Rossberry is really the dream berry — the ideal that we have all wanted for so long. Grows anywhere. Every home can and should have some Rossberries growing in the back yard. Now is the time to PLANT, so get your copy of WOLFE'S BERRY SPECIAL. Write today to WOLFE'S NURSERY, Dept. W., Stephenville, Texas, and your catalogue will be mailed immediately. Get yours while the supply lasts! WOLFE'S NURSERY, South's Finest Fruit Trees and Berries. Dept. W., Stephenville, Texas.

BY Joyce Hubrite

SANFORIZED CHECK GINGHAM, WASHABLE

It'll be a sure-fire hit with you the moment you see it, this popular number on JOYCE HUBRITE'S HIT PARADE. You'll agree there's nothing more flattering or youthful than a low-U neckline, given added charm by accordion-pleated wide ruffling that's edged with white cording. A long strip of bias material takes it from there to bring out the smartness of the coat-dress style. All the way down the front march two-color scooped-out plastic buttons that accentuate the beauty of the check. The bodice is softly gathered at the waistline and smartly accented with a self-fabric belt that ties in a bow in front. The generously made skirt is pleated in front and widely gored in back, designed for YOL! in action this summer. And how will you look in it? Simply adorable! Sizes 10 to 20 in Blue, Red, Brown and Green.

IN SANFORIZED NOVELTY SHADOW CHECK GINGHAMS, WASHABLE

Born for action, and dashing as your favorite officer's uniform this youthful Stormmaker Classic, with crisp, clean, easy-to-wear lines that are carefully Hubrite-tailored in to stay. There's a world of charm in the convertible V-necked collar that tops off the steamed-in semi-coat front, smartly crossed by the neat stitched set-in belt. A smooth pleat takes over where the coat-front ends. There's a gay parade of cut-out square-on-circle buttons down the front of this pert number. Extra little details are less shoulder-straps of self-material that drop from the shoulders and double stitching that picks up the vibrant color of the plaid. Sizes 10 to 20 in Royal and Wine, Brown and Gold, Grey and Wine.

with **VALSPAR PAINT**

Because of the limited amount of Lead Metal available for military and civilian requirements, the War Production Board has found it necessary to place restrictions on the amount of lead in the manufacture of paint.

We have a big stock of Paint on hand. If you intend to paint this year at all, BUY NOW, while you can still get quality paint, pre-war formula, and while you can still get it without priorities. This only holds good until our present stock is exhausted.

Our VALSPAR PAINTS are of the same superior quality as before the war.
