## Hull Visits Crypt Beneath Ancient English Church

Mrs. Carrie Hull of the Dan Horn community has just received an interesting letter from her son, Corp. George B. Hull, in England, who has been in service since Sept. 26, 1942, and overseas for the past 16 months.

The Eastland county woman wrote that he and a group of friends had visited the Church of England, which is more than one thousand years old. The verger took the party on a subterranean trip beneath the great church building and to a crypt where the bones of 700 people were stacked.

The verger's story was that some 250 years ago a grave digger was excavating beneath the church to put in a tomb for a rich man, when the iron bar he was using penetrated the hidden crypt, and that was how the bones were discovered. The verger told Corporal Hull and his friends that it was presumed the bones were those of men killed in some big battle in the dim, distant past.

## Abuses Bring Further Tightening OPA Regulations

The Office of Price Administration, Eastland, makes the following announcement: "Widespread violations of Used Car Regulations have made another amendment to the original regulation necessary. Amendment No. 5 requires that effective March 1, 1945, only the dealer need sign the Certificate of Transfer form. Heretofore, both dealer and purchaser signed it."

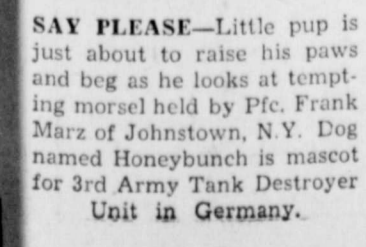

**DAVIS SUCCEEDS VINSON.** WASHINGTON, March 7.—The white house announced today that President Roosevelt is appointing William M. Davis, chairman of the WLB, to succeed Fred M. Vinson as economic stabilization director. Vinson has been named federal loan administrator, taking the position held by Jesse Jones before Roosevelt ousted Jones to make way for Henry Wallace as secretary of commerce.

## Long Branch Fire Victim Interred There Yesterday

Funeral for the 10-year-old son of Mr. and Mrs. Ace Lane, fatally burned when the Lane home in Long Branch community was destroyed by fire, was held at Mountain Top Pentecostal church yesterday afternoon.

Sermon was preached by Mrs. Clifford Reed, pastor of the church, and a former pastor of the family, Rev. Mr. Berry, also spoke to a large crowd of friends and sympathizers assembled for the last rites of the youthful victim. Burial was in Long Branch cemetery.

Mrs. Lane, mother of the boy, who was painfully burned while trying to save her son, was able to attend the funeral. Paul Poe, for whom Mr. Lane worked, has provided other quarters for the family and Mr. Lane will continue in his employ.

**HE FINISHED THE JOB.** WITH THE U. S. 9TH ARMY, March 7.—The Congressional Medal of honor was bestowed upon Staff Sgt. Junior Spurrier, 22, Biggs, Ky., Tuesday for his "one-man army" liberation of the town of Achen in Lorraine last November. Spurrier, working through the town alone from house to house, killed 25 Germans and captured 20 more in eight hours.

**FIVE TEXANS NAMED.** NEW ORLEANS, March 7.—Five Texans were named on the board of directors of the Southern Gas association which met in executive session here Tuesday. They are Jack M. Little, Carl L. Trevitt and Seward Abbott, Dallas; R. E. Wertz, Amarillo, and Dean Strickland, Houston. Frank S. Kelly, Shreveport, was re-elected president of the organization.

**NAB COUPON THIEVES.** DALLAS, March 7.—Gasoline coupons good for 15,000 gallons were seized here Tuesday after the arrest of two persons. Arrested were Loron Seay, 40, whom the Oklahoma City FBI office reported a fugitive on a narcotic charge, and Ruby Whitlock.

## Looks Like White Russian Army In Big Berlin Push

LONDON, March 7.—The Germans said today that the Red Army had started a powerful offensive aimed at Berlin and was storming the Oder river defense line 30-odd miles east of the capital on both sides of Kustrin and north of Frankfurt.

Both German and Russian reports indicated that Marshal Gregory Zhukov's First White Russian Army was showing off on the big push to Berlin.

DALLAS, March 7.—Members of the American Veterans of World War II stood ready today to march on Detroit and take over the production of war materials tied up by 13,000 striking members of the CIO-affiliated United Automobile Workers plants.

## Capable Texan Is Pleased at Mexico City Action

MEXICO CITY, March 7.—Big, ruddy-faced Tom Connally, senior U. S. senator from Texas and chairman of the senate's foreign relations committee, considers the Act of Chapultepec with his hemispheric solidarity agreement, evolved here at the inter-American conference on problems of war and peace, a most important step toward the proposed world security organization.

Connally, whose long service, political know-how, huge bulk and curly graying hair have contributed to making his figure a commanding one in the corridors of Chapultepec Castle, where statesmen of the Americas have been designing the hemisphere's future during the last two weeks, had a major hand in the final drafting and in the adoption of the declaration.

McGowen is with the Ninth army, somewhere on the western front. The citation reads: "Capt. Harold E. McGowen, Jr., 207th Field Artillery Battalion, U. S. Army, for distinguishing himself by heroic achievement in connection with military operations against the enemy in Germany on 21st of November, 1944. Braving direct fire from enemy tanks at a range of about 800 yards he succeeded in establishing an observation post and placing an artillery barrage on the tanks. Despite the fact he was constantly confronted by intense fire from the tanks, he continued to adjust artillery fire on them until they withdrew; thereby releasing the infantry under fire in that area. His heroic actions in the face of intense enemy fire and determination to complete his assignment reflect great credit on the military service of the United States."

**ITALIANS RUN WILD.** ROME, March 7.—A mob attack on Regina Coeli prison, two more bombings and other scattered violence heightened the political crisis threatening to overthrow the Bonomi government today.

## MILE AN HOUR FLANKING SWEEP MAY PLACE CITY UNDER SIEGE BY NIGHTFALL, REPORT SAYS

PARIS, March 7.—Tanks and armored troop carriers of Lt. Gen. George Patton's American Third Army raced through disorganized German resistance less than 10 miles from the middle Rhine today in a mile-an-hour flanking sweep that threatened to bring Coblenz under siege by nightfall.

Patton's spectacular end run through the rugged Eifel mountains covering Coblenz momentarily overshadowed the great Allied victory to the north, where the Rhineland capital of Cologne fell almost without a struggle and three Allied armies were massing for a plunge across the Rhine into the industrial heart of Germany.

Late field dispatches said armored outriders of the American Third Army were in the Monreal area, 17 miles west-southwest of Coblenz and less than 10 miles southwest of the Rhine city of Andernach, nine miles northwest of Coblenz.

Patton's tanks already had covered more than 37 miles since they kicked off from their Kyll river bridgeheads east of Bitburg 48 hours ago and the Germans showed no signs of halting them short of the Rhine.

The speed of the advance left little doubt that the German collapse in the north had forced the Nazi High Command to order a general retreat behind the Rhine all the way from Coblenz to the Dutch border, a distance of more than 110 miles.

Remnants of the Cologne garrison already were scurrying for the Bonn crossings 12 miles to the south under a terrible rain of fire from the pursuing American First Army, and the plight of the Nazi First Paratroop and 15th Armies farther north appeared even more desperate.

Survivors of those two armies were funnelling back to the east bank of the Rhine by barges and across two battered bridges in the Wesel area, 50 miles north of Cologne.

The Germans held a roughly semi-circular arc radiating out about five miles to the west, southwest and south from the Wesel crossing, and armored and infantry forces of the American 9th and Canadian 1st Armies were squeezing them slowly back into the Rhine.

Swarms of British Mosquito bombers blasted the jam-packed Nazi salient with 4000-pound bombs for seven hours beginning at eight o'clock last night, and the RAF's giant Lancasters followed through with another heavy attack before dawn.

Tank and motorized infantry task forces of the U. S. 4th Armored Division were out in front of Patton's march on Coblenz. The 4th Armored jumped off from a narrow sector on the east bank of the Kyll river east and northeast of Bitburg Monday morning and by nightfall Monday had carried 18 miles northeast to Daun, almost 35 miles southwest of Coblenz.

At Daun the Yanks wheeled sharply eastward and plunged ahead another nine miles Tuesday. They piled up another gain of at least five miles overnight to the Monreal area. Front dispatches said German resistance was sporadic and that mud and difficult terrain were proving bigger obstacles than the Nazis to the 4th Armored.

**ENGLISH TRAITORS.** LONDON, March 7.—London's dock strike is growing. Ten thousand dock workers are idle as 3000 more workers left their jobs yesterday. Soldiers are helping move shipping.

## Wise Old Senate Tears Down the Fishing Fences

The Daily Press is indebted to our friend, Virgil Love, county clerk, for a copy of senate bill 93 pertaining to fishing in Texas fresh waters, which became effective February 27, 1944. Here it is:

Section 1. There shall be no closed season or period of time when it shall be unlawful to take, catch or retain fresh water fish by the use of ordinary hook and line or artificial lures. Other devices the use of which is permitted by law, may be used for the purpose of taking fresh water fish at any time of the year, but only in compliance with such other restrictions as are placed on their use by the laws of Texas.

Section 2. It shall be unlawful for any person to take from public fresh waters and retain, or place in any container, boat, creel, live-box or on any fish-stringer any large-mouth black bass, or any sub-species of large-mouth black bass, small-mouth black bass, spotted bass, that is less than seven inches in length.

Section 3. It shall be unlawful for any person in any one day to catch and retain, or to place on or in any device or container for holding same while he is fishing, any fish that is taken from the public fresh waters of this state in excess of the following limits: Large-mouth black bass, small-mouth black bass, spotted bass, or any sub-species of the same, singly or in the aggregate, fifteen (15), of which not more than ten (10) shall be of greater length than eleven (11) inches; white bass, twenty-five (25); blue catfish, channel catfish and yellow catfish singly or in the aggregate, twenty-five (25); crappie or white perch, twenty-five (25).

Section 4. Any person who violates any provision of this Act, upon conviction shall be fined in a sum not less than \$5, nor more than \$50.

Section 5. All laws or parts of laws, local, general or special, insofar as they provide a closed season or period of time when it is unlawful to take or catch or to use artificial lures, or insofar as they provide a size limit, possession limit or daily catch limit, or otherwise conflict with any provision of this Act, shall be and the same are hereby repealed.

## CAN'T BE DONE, PERMANENTLY.

Almost every day some politician brazenly tells the nation there must be 60 million jobs after the war—or else. Those who make such assertions have no more idea than a jackass how to create and maintain that many jobs. They say if industry doesn't do it, government will.

Government CAN'T DO IT — except by wartime spending — which is maintained by wartime taxation and bond selling. Such a policy cannot continue indefinitely without destroying all savings, all competition, and all industry.

Permanent jobs and earnings, which maintain government, come only from industry that can operate at a profit. Therefore, instead of peddling hot air and promises to the effect that government will maintain some

mythical number of jobs, which the people themselves would have to be taxed to death to pay for, the politicians should be humping themselves to see that private enterprise is given every possible encouragement to go ahead and expand and employ the greatest number of men at the best wages, in order to roll up production and employment to the highest possible level.

Government should not invade the province of industry, as is

now contemplated by many of the political planners. If our lawmakers really want to create jobs instead of a totalitarian form of government, let them concentrate on the American idea of encouraging private enterprise to do its utmost under fair and reasonable public regulation and taxation. Let them quit doubting the American system which has broken all production, employment and taxpaying records in history.

to furtherance of musical education, and is of no benefit financially to the musicians.

How long, Oh Lord, how long before congress and the courts will curb a monopoly which today has total power over the right of an individual to earn his living, even to the extent of assessing him for political purposes contrary to his beliefs, and even to the extent of shutting children off the air in a musical program? Why call this free America, when we tolerate such destruction of individual liberty? If this move goes unchallenged by our lawmakers, what will be the next step? It takes no wild stretch of imagination to see Mussolini-like labor dictators controlling government as completely as they now control the individual.

## HOW LONG, OH LORD?

Now comes the crowning insult to American intelligence. The National Music Camp at Interlochen, Mich., has been placed on the "unfair list" of the American Federation of Musicians. Pettilo's organization. The move is designed to strip the school of its faculty who, should they attempt to work at the school, face suspension from the union, which would prevent them from securing commercial employment in their profession.

Dr. Joseph E. Maddy, professor of music at the University of Michigan, who is head of the Camp, holds that the union's position constitutes a serious threat

## MORE ABOUT THE SAME THING

The abstract, contrary to a rather general opinion, does not cure the title, but rather reveals its condition, good or bad. Three things are strived for in the abstract. (1) To locate the property by field notes and plats. (2) To discover the true ownership as the records may reveal it. (3) To detect the liens and encumbrances, if any. The abstract serves many other useful purposes, but these three are most important.

# FLUES FOR VENTING MODERN GAS HEATING

Only when heating is vented are stuffy air and wall sweating eliminated. Since flues are required, heating should be planned as part of house and flues installed when remodeling or building.

Types of modern gas heating appliances which are vented to a flue and are recommended by your gas company.

Not all types of vented gas heating equipment are available because of wartime restrictions. But if you are using the old-fashioned open-flame unvented type heating throughout your home be sure you provide plenty of ventilation. It will help some to reduce wall sweating and eliminate stuffy air.

## One of five million reasons why you are waiting for a telephone

More than 5,000,000 military telephones have been made by Western Electric, our peacetime supplier of telephone equipment. Each one adds to the reasons why 200,000 people in the Southwest are waiting for telephone service.

Besides telephones, Western Electric is making for the armed forces thousands of switchboards, millions of miles of wire and cable, hundreds of thousands of combat radios, radar equipment and automatic gun directors. Little time and few skilled hands are left to make "civilian" telephone equipment.

That's why it's hard to say when everyone now waiting for new telephone service will get it. At best, it will not be soon. Thanks for your continued understanding.
