## Cisco Girl Completes War Department Course

BY BENJAMIN HARRISON.  
Betty Sue McCaules, daughter of Mr. and Mrs. S. H. McCaules, 908 H avenue, Cisco, Texas, recently completed the civilian pay roll administration course at the army finance school, Fort Benning, Ga. This school is under the direction of Col. L. N. Smith, commanding officer of the army service forces training center. The civilian pay roll administration course just completed by Betty Sue McCaules is a three-week intensive program designed to train key personnel in the pay roll offices of the war department. Upon completion of this course, these students have learned to interpret new regulations, studied the solution to technical problems and reviewed the basic functions of their individual positions. Mrs. McCaules is a civilian employee of the war department and works in the Mabry Ordnance Shop, Austin, Texas.

## Mutual Understanding Best Way to Peace

A talk on choosing the god whom we will serve, by Rev. James R. Wright, following by a business meeting during which the Lions club voted to sponsor the gathering of old clothes for European relief, and eleven members signified they would go to Stephenville Monday night, March 26, to hear International President Stein speak, composed the program for the club Wednesday. Johnny Allen was a guest. Methodist ladies fed the club and received a hearty vote of thanks for the splendid meal. Mr. Wright began his talk with a fund of humorous stories of which some of the Lions were the butts, but shifted to the serious, saying there must necessarily be very sober thoughts occupying men's minds during these times. "Success does not happen; it is the result of thinking out to the end the problems necessary to be solved for that success," the speaker said. "We must find things that bring lasting happiness and success, instead of worshipping the many gods that might be set up in the minds of men called ambition," he added. Later in his talk Mr. Wright emphasized that we cannot worship the god of isolation, because the world has grown too small for such ideas to be possible. The interests of nations are now so interlocking that one cannot ignore the solution of problems sure to arise from seemingly conflicting sources. This was proven to our sorrow after the last war. World-wide suffering, entailing financial cost staggering to the human mind, was the answer to that failure to realize this fact. "Then, what is the result? What can we do?" Wright asked. Mutual understanding must be the answer he thought, if we are to obtain earthly or eternal peace.

## John F. Waters Gets His Third Oak Leaf Cluster

AN EIGHTH AIR BOMBER STATION, England. — Tech. Sgt. John F. Waters, son of Mr. and Mrs. D. E. Waters, of 307 West Fourth street, Cisco, Texas, has been awarded a third Oak Leaf Cluster to his air medal, it was recently announced at this flying fortress base. The citation accompanying the decoration read in part: "For meritorious achievement while participating in sustained combat operations over Germany and German occupied countries." Sgt. Waters, a B-17 flying fortress top turret-gunner, has completed more than twenty heavy bombardment combat missions with the pioneer 379th bomb group. He took part in recent attacks against vitally important targets in Mannheim, Leipzig, Merseburg and against tactical objectives in advance of troops on the western front. A member of the army air school since December, 1942, he completed basic training and was selected for attendance at Sheppard Field (Tex.) AAF mechanics school. Waters also graduated from the AAF gunnery school at Fort Yers, Florida. After finishing overseas phase training he arrived in the European theater of operations in October, 1944.

## Ranger in the Dark For Two Hours Last Night

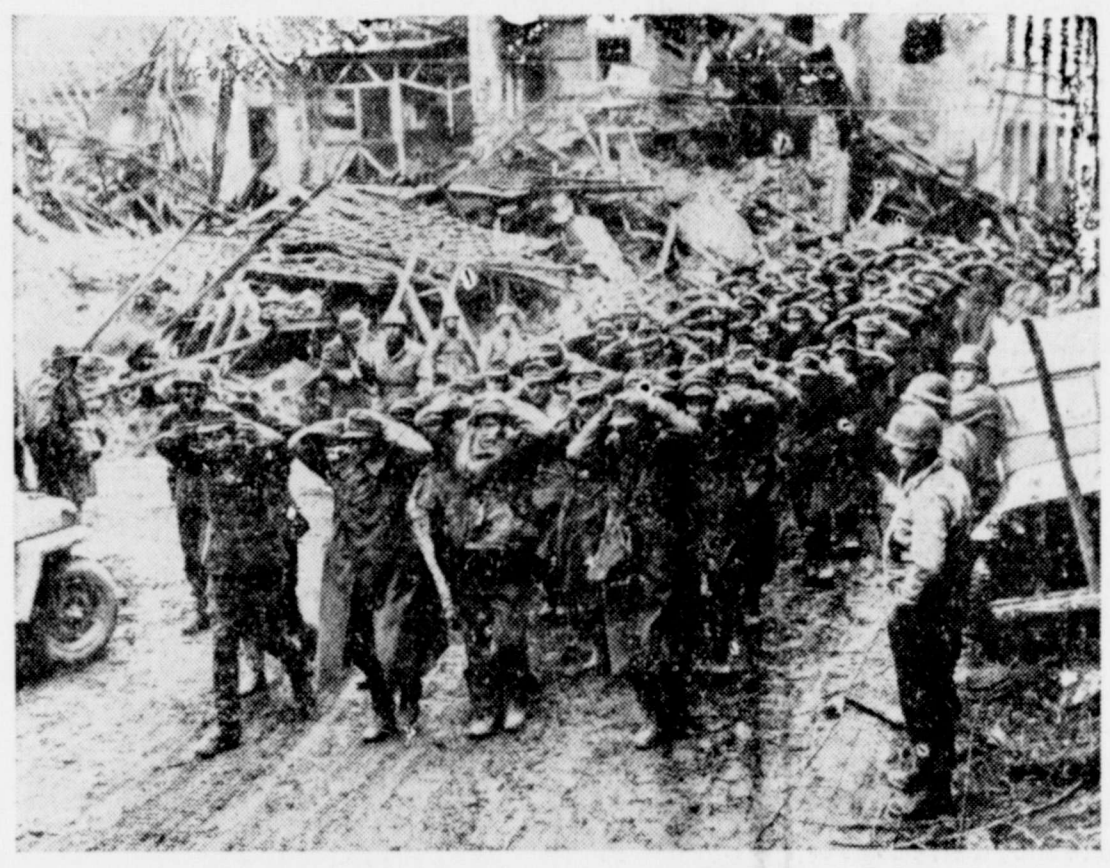

Half an inch of rain, accompanied by thunder, lightning and hail, fell in Cisco between 7:30 and 9 o'clock last night. The wind was not strong in Cisco, but in some sections of the county poultry houses and other small buildings are said to have been unroofed. Probably the hardest wind was felt at Ranger, where considerable damage was done to roofs, out-buildings and electric light and telephone lines. All lights in the city were off for about two and a half hours. At Curtis, 15 miles southwest of Cisco, there was a heavy wind and something less than an inch of rainfall.

## KILLS LIQUOR BILL

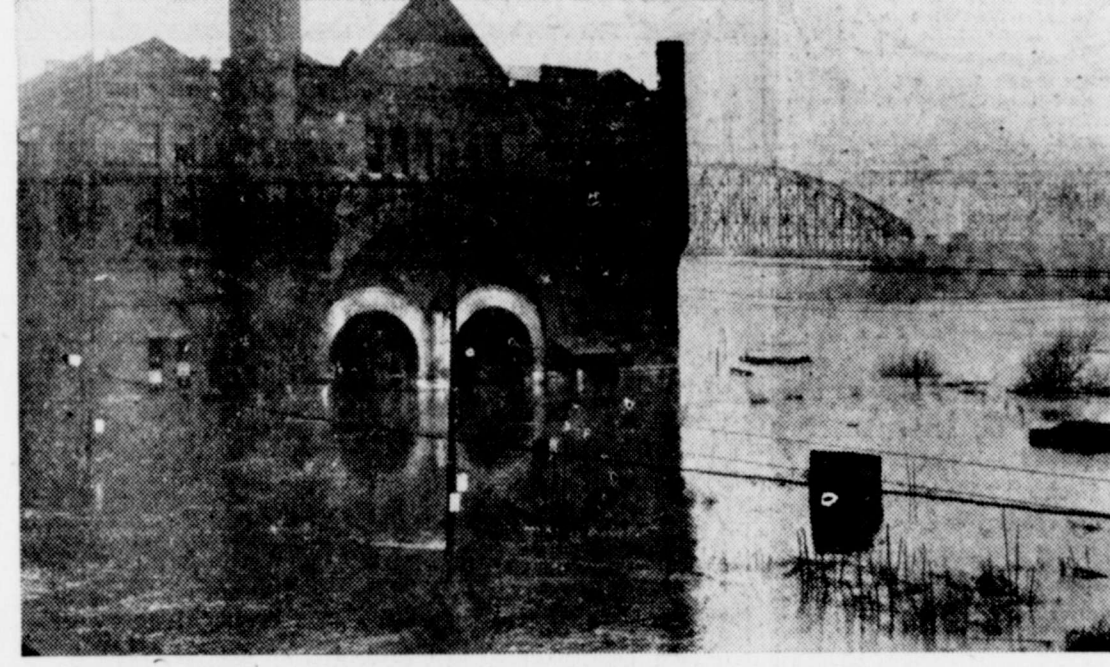

AUSTIN, March 15.—The first bill of the session attempting to throttle what the author said was the crux of a liquor black market was dead Thursday. It was killed last night by the House State Affairs Committee by unanimous vote. The bill, by Rep. Jack Love of Fort Worth, would have compelled state liquor authorities to cancel the license of any permittee who sold at prices in excess of OPA ceilings.

## SALARY INCREASES

AUSTIN, March 15.—The senate this morning passed unanimously the Love bill to increase salaries of Tarrant County officials.

QUOTE A BAG—With background of wrecked buildings and massed debris, German prisoners clasp hands over head and march to the rear under watchful eyes of 9th Army guards. These dejected Germans were taken as a result of successful crossing of the Roer River. Other American troops have spanned the Rhine into heart of the Reich in spectacular crossing.

UNDER WATER—With rivers running on a rampage, the old exposition building in Pittsburgh, Pa., is inundated at the junction of the Allegheny, Ohio and Monongahela Rivers. As waters continue to rise, areas bordering on swollen rivers are threatened with worst flood since 1937.

ARCTIC VIGIL—Lt. Col. Norman D. Vaughan of Hamilton, Mass., head of the Arctic Search and Rescue Section of the ATC's North Atlantic Division, receives Special Congressional Medal and Legion of Merit Citation of Arctic exploits. Since February, 1943, he rescued more than 100 stranded fliers and civilians from frozen waters of Canada, Greenland, Iceland and Labrador.

## SCRANTON SERVICES

Dr. R. Ernest Little, pastor of the Scranton Methodist church, was in Cisco today and called at the Daily Press office. Dr. Little will preach Sunday morning and evening at the Scranton church. His 11 a. m. topic will be "A Royal Proclamation." At 7:30 p. m., "How to Know the Will of God."

## Nearly 9 Billion Bbls. Oil Produced in Texas

DALLAS, March 15.—Producers of crude oil in Texas have invested \$1.124 for every dollar's worth of oil taken out of the ground during the period between 1889 when oil was first discovered in commercial quantities and January 1, 1945, says Texas Mid-Continent Oil and Gas association. "The money spent by the producers in the fifty-five-year period totals \$11,513,636,604 (billions), against a total of \$10,247,138,250 (billions) received for the oil or an excess on the expenditure side of \$1,266,498,354 (billion)," the association said. "The producers continually plow back increasingly larger sums every year in the search for new oil and in developing new pools. Reinvestments of profits as well as borrowed capital are necessary to maintain production. "Up to the first of this year, the producers drilled a total of 212,398 oil wells and dry holes at a cost of \$3,850,563,342. The oil produced totaled 8,910,550,000 barrels. "The cost of operating and maintaining the wells totaled \$2,673,165,055. Money paid for lease rentals and bonuses amounted to \$1,536,582,510. Royalty payments to farmers and ranchers totaled \$1,425,688,171. Overhead expenses, including taxes, amounted to \$2,227,637,526. "Considered on a per barrel basis, the total expenditures, \$11,513,636,604, represents a cost of \$1.29 for the 8,910,550,000 barrels produced. Money received, \$10,247,138,250, is at the rate of \$1.15 per barrel, or 14c per barrel less than the cost."

## Private Page Is Third Ciscoan at Iwo Jima Battle

Mrs. W. A. Page received a letter yesterday from her husband, a private of the first class, saying he had been on Iwo Jima island twelve days. The letter bore date of March 2. Private Page said the battle had been a tough one, but that he was all right; that he had been praying he would be home soon with his wife and children. Private Page is the third Ciscoan known to have been present at the battle of Iwo Jima, Lt. James L. Qualls and Pfc. Lavon Huddleston being the other two. Mrs. Ida Page, mother of Private Page, makes her home here with the Marine's wife and five children.

## Firestone, Blue Blazers Won 2 of Three Games

Firestone and Blue Blazers each won two of three games with Dean Drug and A-G. Motor at the bowling alleys last night. Betty Lasater of Firestone again took the high honors. March 21 schedule: Blue Blazers vs. Firestone; A-G. Motor Co. vs. Dean Drug.

## JUDGE SAVED HIM

SAN ANTONIO, March 15.—The execution of Fred Hulse, Negro soldier, originally set for today at Camp Bowie, has been postponed indefinitely by the War Department. Hulse was convicted of slaying Pvt. Eugene Pinckney at Camp Berkeley March 22, 1944. Federal Judge Atwell held Tuesday in a habeas corpus hearing brought by Hulse at Dallas that he could not interfere with the execution, but he suggested the army postpone it pending the outcome of a similar case before the Supreme Court.

## CALF ROPING RECORD

FORT WORTH, March 15.—Toots Mansfield, Big Spring, last night shattered existing calf roping records at the Southwestern Exposition and Fat Stock show when he roped and tied his animal in 14.2 seconds.

## DEUTSCHLAND SUNK

LONDON, March 15.—The Paris radio reported today that the German battleship Deutschland was sunk in the Baltic by a mine.

## AMERICANS HAVE VIRTUALLY CUT THE SUPERHIGHWAY EAST OF THE GREAT RIVER RHINE

PARIS, March 15.—Americans virtually cut the Ruhr-Frankfurt superhighway east of the Rhine today and established a nine-mile bridgehead across the Moselle river within eight miles of besieged Coblenz. First army infantrymen edging into the heavily wooded hills east of the expanding Remagen bridgehead were within a half mile of the superhighway at 9:35 a. m. (battlefront time) and an unconfirmed Brussels radio broadcast 40 minutes later said the road had been cut. Infantry advanced to Bruenesberg, five and a half miles east of the Rhine and nine and a half southeast of the superhighway junction city of Siegburg. Other First army assault forces pushed north of Honnet and still others were fighting in Notscheid, six miles east of the Rhine. The Germans were building up their strength due east of Remagen and made the wholly unconfirmed assertion that their bombers had destroyed the Ludendorff bridge and nearby pontoon bridge supplying upwards of 70,000 foot and tank troops the enemy said were in the 50 or more square miles of the German heartland. The Third army bridged the wide Moselle southwest of Coblenz and deepened their east bank foothold to three miles. The crossing was made yesterday against light resistance of the German Seventh army, which had lost more than 64,000 prisoners to Lt. Gen. George S. Patton's army since Jan. 30. The Moselle crossings extended from eight to 17 miles southwest of Coblenz but across the Moselle for five days. Further south, the resurgent American Seventh army invaded Germany's Saar district anew and captured at least six towns, including Furstenhausen, a suburb of Voelklingen where the largest steel mill in the Saar is located. Voelklingen was menaced immediately, as was Saarbruecken. The Seventh army advanced up to four miles on a seven-mile front west of Saarbruecken, crossing the frontier and reaching the Saar river at several points. Shaffhausen, Wehrden, Geislauren, Clarenthal and Schoencken all toppled. Skies were clear for a second day, presaging further heavy Allied air attacks. With the Ruhr already smoking as much from bombing and shelling as from production, the heightening question was how much longer its factories and forces could continue to feed steel for German war needs.

## British Leader Says Nazi Defeat Close at Hand

LONDON, March 15.—Winston Churchill held out hope today of victory over Germany this spring, pledged his dominant conservative party to promotion of free enterprise in the postwar period, and served notice that he intended to guide Britain in the trials of peace. "Victory lies before us, certain and perhaps near," he told the conservative party conference. He said the war in Europe might conclude "before the summer ends or even sooner." The 2,000 delegates gave their leader a tumultuous ovation as he concluded his 45-minute address. He cautioned the Conservative party against "humbly and blandishment" and against bidding for votes and party popularity "by promising what we cannot perform."

## Jesse Jones Gave \$5,000 to Roosevelt's Election

WASHINGTON, March 15.—The senate campaign expenditures committee says Jesse Jones contributed \$5,000 to help elect the man who later ousted him from his job as commerce secretary and federal loan administrator. A tabulation of family contributions released by the committee showed contributions of \$5,000 each by Jones and Mrs. Jones to the Democratic national committee. The list of prominent family group contributions showed the Du Ponts of Delaware giving \$109,832.83 and the Pews of Pennsylvania \$96,995.96 to the Republican national committee and various groups supporting the Republican ticket. On the Democratic side, Marshall Field, Chicago publisher and department store owner, gave \$14,000; Mrs. Field \$8,000.

## GOOD CONDUCT MEDAL

WITH THE FIFTH ARMY. Italy.—Private First-class Herbert L. Francis, whose wife, Mrs. Alma I. Francis, lives at 905 West Eighth street, Cisco, Texas, has been awarded the good conduct medal for fidelity, efficiency and exemplary behavior. He is a member of the 757th tank battalion, now fighting with the Fifth Army in the Appennine Mountains of northern Italy.

## SUNDAY SINGING

There will be a singing convention at East Cisco Baptist church at 2 o'clock Sunday afternoon, to which the public is invited. Singers are expected from other communities, including a quartet from Abilene. Also present will be Stanley Webb, well known singer, home from overseas on sick leave. The plan is to effect a permanent singing organization at this convention, with monthly singings on third Sundays.

## STORM CAUSED DEATH

FT. WORTH, March 15.—Tarrant county's toll of traffic fatalities for 1945 today stood at 13 after the death of Will M. Payton, 61-year-old wealthy Mexia oil man. Mr. Payton died en route to a local hospital last night from injuries sustained when the auto which he was driving to Fort Worth collided with a Texas Motorcoach bus one-half mile east of Handley on Highway 80 (to Dallas). The accident occurred during the heavy rainstorm.

## BIG SPENDING.

It is worth stopping a moment in whatever anybody is doing, and giving a little thought to the fact that Congress has just raised the national debt limit to \$300,000,000,000. In case anybody's eyes get blurred, it's Three Hundred Billion Dollars. Uncle Sam doesn't really owe all that money yet. The actual debt right now is about \$250,000,000,000. But the extra Fifty Billions are allowed for pocket money while the war goes on.

It means an awful lot of debt, present and prospective, with much more to come before both wars are won. And inevitably our dollars will not buy so much as usual—that is, things will cost more—for a long time to come.

## Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up nights. Frequent uric acid attacks with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

## THE NAZI SURPRISE.

Though the Russians have conquered a large part of Eastern Germany, and the Americans, British and Canadians a smaller portion of the west, one remarkable fact emerges. In all the Nazi propaganda there is no complaint of the treatment of the German people by their conquerors. The much-abused Russians have had enough provocation to justify almost anything they might do to their enemies, yet Goebbels makes no criticism of them. Normally he would not overlook the propaganda value of atrocity stories that might steel the Germans to even sterner resistance.

Evidently there have been no

atrocities, certainly none on a large scale; yet ordinarily that would not trouble the Nazi lie-factory. A conceivable explanation is that the Nazi propagandists are saying to themselves, "What's the use?"

## MORE ABOUT THE SAME THING

The abstract, contrary to a rather general opinion, does not cure the title, but rather reveals its condition, good or bad. Three things are strived for in the abstract. (1) To locate the property by field notes and plats. (2) To discover the true ownership as the records may reveal it. (3) To detect the liens and encumbrances, if any. The abstract serves many other useful purposes, but these three are most important.
