HUGE INDUSTRIAL AREA TAKEN

Cisco Presbyterians Had Successful Year

The annual church banquet of Cisco First Presbyterian church, held last night, was a thoroughly satisfactory affair and was attended by more than 100 people. The banquet was served by ladies of the church and was truly delightful.

A business session at which pastor O. L. Savage presided was held following the banquet, when reports were heard from the various church agencies. The reports, said Mr. Savage, revealed an unusually successful year in all departments of the church. Twenty-nine new members were added to the rolls during the year and 14 of these were by professions of faith.

Dr. W. P. Lee, clerk of the session for 33 years, was unanimously elected clerk emeritus and George W. Downie was elected clerk in his stead. Dr. Lee was presented with a gift by E. P. Crawford in appreciation of his long, conscientious service.

Mrs. E. P. Crawford, who made an excellent report for the women's auxiliary, presented Mrs. C. H. Fee with an auxiliary life membership. Accompanying the certificate was a beautiful gold pin. Mrs. Fee has been an unusually ardent worker in all activities of the church for many years.

The treasurer's report by Miss Tina Belle Simmons showed the church to be in excellent financial condition; there is no debt, all obligations have been met and needed repairs to church property have been made and paid for. H. C. Henderson, retiring president of the board of deacons, presented Miss Simmons with a gift in appreciation of her excellent service.

The new budget report was made by W. F. Watson, who succeeds Mr. Henderson as board chairman. The budget was adopted as presented.

The young people's report by Mrs. Clifford Hall, Boy Scouts by Ernest Hittson and the choir report by Mrs. Ernest Hittson were very satisfactory, as was the Sunday school report by Kent Word.

Miss Dorothy Abernathy, religious educational director for the Port Worth presbytery, with headquarters in Cisco, assisted in the installation of teachers in the Sunday school and officers in the auxiliary.

CHOSEN typical canteen hostesses throughout the country, Alice Marie Casey of Parsons, Kan., holds platter of doughnuts for the boys. War correspondents named girls who serve coffee and doughnuts to servicemen in canteens here and abroad "Donuteers." She is hostess at USO canteen sponsored by YMCA in Parsons.

Dave Hart Died Very Suddenly Late Yesterday

Dave Hart, 63-year-old farmer, who came to Eastland county from Lampasas 43 years ago, died suddenly from a heart attack at 5 o'clock yesterday afternoon at his home on the Eastland highway.

Mr. Hart fell dead in the presence of his wife a few minutes after he walked into their home on his return from Lampasas, where he had visited his aged mother. He was born in Nolaville, Ark., April 4, 1883, and was a son of the late S. L. Hart.

Deceased was married to Miss Mary Evaline Eppler Jan. 27, 1904, at Twelfth-st. Methodist church, Cisco. Survivors are the wife and two daughters, Mrs. O. L. Wilson and Mrs. Nora Wilson, Woodville, Calif.; a son Marcus Hart, Lamesa, Tex., and nine grandchildren.

Time of funeral had not been set this morning, pending word from the daughters. However, the funeral will be held at Twelfth-st. Methodist church, with burial in Oakwood cemetery. Officiating ministers will be Rev. C. A. Warden and Rev. C. S. Moad. Thomas funeral home is in charge of the body.

Marvin Snoddy of Famous 90th Division Honored

NINTH INFANTRY DIVISION, GERMANY.—Staff Sgt. Marvin R. Snoddy, 27, son of Mr. and Mrs. E. M. Snoddy of route two, Cisco, Texas, has been awarded the Bronze Star Medal for meritorious service in connection with military operations against the enemy. He is a member of the 60th infantry, a regiment of the famous 90th division.

Sergeant Snoddy's citation reads: "Marvin R. Snoddy, staff sergeant 60th infantry, who distinguished himself by meritorious service in connection with military operations against the enemy during the period 5 July 1944 to 30 September 1944 in the European theater of operations."

"Throughout this period Snoddy performed his assigned duties in an exceptionally meritorious manner. With complete disregard for personal safety, he frequently exposed himself to heavy enemy artillery and small arms fire in order to evacuate the wounded from forward combat areas and at other times to carry hot meals to front line troops.

"Snoddy's courageous actions and devotion to duty were, at all times, a credit to himself and to the armed forces of the United States."

The Eastland countian participated in the landing and invasion of French Morocco on November 8, 1942, the Tunisian campaign in North Africa, the Sicilian campaign, and most recently the campaigns of Normandy France, Northern France, and Germany. He has been awarded the combat infantry badge, for exemplary conduct in action against the enemy in a major operation and the good conduct medal.

Overseas since 8 November 1942, Sergeant Snoddy has been in the Army since 23 January 1942. Prior to induction he was a farmer.

BAILEY RETURNS HOME.

John W. Bailey of 103 Liggett avenue, is at home from the army air base at Pyote, Tex., where he has been employed for the past 30 months in a sub-depot wood mill. He has a 30-day sick leave and will probably return to his defense job after a good rest.

AFTER 116 MISSIONS, crew of USAAF Liberator "Witchcraft" decide it's time for celebration in London. From left are Lt. J. W. Rice, Marshall, N. C.; S/Sgt. G. V. Dong, Coronada, Calif.; Clp. W. L. Elliott, St. Louis; Sgt. R. A. Detcher, Mt. Clemens, Mich.; M/Sgt. Joe R. Ramirez; Cpl. J. J. Vetter.

APPROPRIATE SETTING—Fighting ends for these German soldiers who raise their arms in surrender to an American patrol. In the background rises the famous cathedral of Cologne. With surrounding territory in ruins after severe attacks on city, fourth largest in Germany, the cathedral remains structurally undamaged—a tribute to accuracy of Allied bombers.

PRETTY BUSY—S/Sgt. Alexander Walegir of Brooklyn says being squad leader kept him too busy to think of victorious action. He is a member of famous "Fighting 69th" which drove Germans from deeply entrenched positions in the heart of Siegfried line. (Signal Corps photo.)

Red Threat to Berlin Steadily Increasing

MOSCOW, March 21.—The First White Russian army, now in possession of virtually the entire east bank of the Oder from the Baltic to its confluence with the Neisse, crowded siege artillery to the very edge of Stettin today after wiping out the enemy's Aladamm bridgehead.

The menace to Berlin grew hourly as Marshal Zhukov probed many places along the river, seeking springboards for its next big attack and northeast of ruined Berlin.

Marshal Ivan S. Konev still is engaged in liquidating trapped garrisons in Breslau and Glogau on the upper Oder, but has moved additional units of his first Ukrainian army group to the Neisse line southeast of Berlin.

In East Prussia, Marshal Vasilevsky was staging the final kill in a dwindling German pocket along the coast southwest of Koeningberg.

Dowda of Cisco Makes Rapid Advance in a Year

EIGHTH AIR FORCE LIBERATOR STATION, England.—In one year of active military duty overseas with the 453rd bombardment group, Van D. Dowda of Cisco, Tex., has risen in rank from first lieutenant to lieutenant colonel and from squadron operations officer to group operations officer, his most recent advancement.

An adept combat flyer of two theaters of operations, Colonel Dowda launched his flying career by enlisting as an air-cadet in 1941. His training began at Phoenix, Ariz., and upon winning his silver wings in April, of 1942, he was commissioned a second lieutenant.

Soon after graduation Dowda was serving in the Aleutians, piloting the now-obsolete B-18, primarily hauling freight to outlying airfields in the far north. His next assignment found him dumping bombs on installations in Japanese-held Kiska island.

Participating in 75 bombing operations against all types of enemy defensive action and adverse weather, Dowda, then a first lieutenant, was presented with the Air Medal, Distinguished Flying Cross, and a "return ticket" to the United States.

After a well-earned rest leave the young airman was reassigned to Roswell, N. M., where he completed the four-engine transition school in record time.

When this heavy bombardment group was activated for overseas duty, Dowda became one of its squadrons operations officers, arriving in England in January of 1944. Later he was promoted to captain. Following an early advancement to squadron commander he received a major's gold leaves, and in November of 1944, he was promoted to the rank of lieutenant colonel.

In his present position as operations officer for the group, Dowda spends tedious hours planning operational and practice missions. When higher headquarters forwards information relative to scheduled bombing attacks, he, with his staff of officers and enlisted men, decodes and prepares the tactical data that is to be presented to participating airmen at briefing. Col. Dowda supervises the essential training of all combat men, readying them for their bombing missions over enemy territory. He is further charged with the coordination of base engineering, armament and ordnance sections.

In the European Theatre of operations the Texas flyer while serving as air commander on 25 high altitude precision attacks has successfully destroyed enemy installations in key German cities, some of which include Berlin, Munich, Brunswick, and Saarbrücken. For his excellent leadership he was recently awarded an Oak Leaf cluster to his Distinguished Flying Cross.

LACK OF GERMAN PUNCHING POWER EAST OF RHINE MOST APPARENT; CAPTIVES GLOOMY

PARIS, March 21.—Columns of General Patton's Third army are fighting within a few short miles of the huge chemical center of Ludwigshafen-Mannheim and in the Hessian capital of Mainz today in the whirlwind conquest of the Saarland and Palatinate which already has cost the Germans 90,000 or more casualties.

The rich Saar valley, with its steel mills and vast coal deposits, was won, taking from Germany her third largest industrial sector.

Important cities such as Saarbrücken (population 135,000), Kaiserslautern (61,000), Worms (50,000), the Saarland steel center of Voelklingen (31,000) and Zweibrücken (16,000) were captured by the surging American Third and Seventh armies.

Some divisions advanced 15 miles or more a day. The destruction of the German forces was so complete it seemed doubtful that Hitler's army could rally for a stand in strength east of the Rhine—where great offensives currently were in the making.

Extension of the First army's east Rhine bridgehead to a deployment area at least 25 miles long and up to nine wide underscored the clearest threat to the Ruhr, invaded on the west and threatened by Lt. Gen. Courtney H. Hodges' troops which captured Beuel, Bonn suburbs 14 miles south of the Ruhr. Gen. Eisenhower warned that the Ruhr, the source of 75 percent of all German war production in 1942, was next in line of conquest.

Already the lack of punching power east of the Rhine was apparent in German ranks. Prisoners plodded dejectedly to the rear in uncounted thousands. The enemy had thrown the best troops saved from the First parachute and Sixth panzer armies at the Remagen bridgehead and failed to check its expansion.

The enemy was falling back upon the narrow Sieg and Wied rivers, plainly despairing of driving the Americans from the east bank of the Rhine.

To the north, the American Ninth, British Second and Canadian First stood in strength opposite the cities of Dueseldorf and Duisburg and engaged in vigorous patrolling over the wide reaches of the lower Rhine. Weather was favorable and improving daily.

Lt. Gen. Alexander M. Patch's Seventh army captured at least nine cities and towns after forging the trap around the Saarland in conjunction with Patton's Third army 12 miles west of Kaiserslautern. The two armies were squeezing German stragglers in a double pincer.

Among places captured were Neidervuebach, Hassel, Kirkel, the steel producing city of St. Ingbert (23,000) and Homburg (26,000), on the eastern boundary of the Saarland.

The 103d (Cactus) division of Maj. Gen. Anthony C. McAuliffe, hero of Bastogne, moved seven miles north of Wissembourg and captured 1,000 prisoners, 14 of whom asked the honor of surrendering personally to the Washington general.

Scores upon scores of lesser villages fell to both armies. At least three pockets of Germans lay behind Allied lines awaiting death or capture.

HIGHEST IN 8 YEARS.

MEMPHIS, March 21.—Spring rains forced the swollen Mississippi river to an 8-year high here today and threatened to prolong weeks-old flood battles in Arkansas and west Tennessee. The Mississippi reached 38 feet, four above flood stage, Tuesday, and the weather bureau said it would continue to rise slowly for the next few days.

Eden Absent on What May Be Important Mission

LONDON, March 21.—Indications that Foreign Secretary Anthony Eden may be absent from Britain on a mysterious mission were seen in commons today when a colleague answered questions addressed to Eden.

Mr. Churchill failed to answer questions addressed to him in commons yesterday. King George received him at Buckingham palace yesterday morning.

Richard K. Law, minister of state, took over questions addressed to Eden in Commons today.

17 Jap Warships Wrecked and 475 Planes Destroyed

SAN FRANCISCO, March 21.—One thousand or more American carrier planes trapped the elusive Japanese fleet in the inland sea, crippling 17 warships, sank or damaged 13 merchant vessels and destroyed 475 aircraft in a two-day foray that jolted the enemy into excited preparations today for the inevitable battle of Japan.

A jubilant communique from Adm. Chester W. Nimitz announced "crippling damage was inflicted on the Japanese fleet" without loss of a single American warship.

Not one American warship was sunk, although one was damaged seriously and others sustained minor blows as the Japanese home-based airforce sent wave on wave against Mitscher's armada. All ships moved away under their own power.

Two Nazis Escape Camp Wolters and May Be Close By

FBI agents are on the lookout for two English-speaking German prisoners of war who escaped Tuesday from Camp Wolters. The pair was reported missing at the 5:30 p. m. checkup.

One is Alfred Runge, 30, weighing 143 pounds and measuring 5 feet, 9 inches tall. He has brown eyes, medium blond hair, is partly bald in front, and is built stockily. He speaks English with a German accent.

His companion is Karl Heinz Huth, 22, measuring 6 feet 2 inches tall and weighing 151 pounds. He has brown hair, brown eyes, and heavy meeting eyebrows. He speaks English well.

British to Give Their Best In Final Jap Bout

OKLAHOMA CITY, March 21.—British Ambassador Lord Halifax, who participated in a gigantic wolf hunt in Oklahoma Tuesday, said in a later address to the nation that "we are together in the greatest wolf hunt ever undertaken—Hitler and Tojo."

The ambassador, broadcasting from Elk City, Okla., declared: "Make no mistake about it. As soon as we are through with Germany we shall move every ship, every plane and tank, every piece of equipment for which there is room, into the Pacific."

TOO BUSY.

The greatest obstacle to an all-out drive to make Cisco physically fit, as well as reasonably immune from diseases born and bred from unclean spots here and there, is the rapidly growing American alibi—"I'm too busy."

UNIQUE TEXAS.

The 100th anniversary of the admission of Texas into the Union came near being overlooked in

Congress. Even Texas congressmen, it seems, had to be reminded.

Yet the Lone Star state, apart from her own merits, deserves note as the only independent nation that ever joined the United States. All other annexations were purchases, like Louisiana and Alaska, or gains from war, like the territory won from Mexico and Spain.

Americans are proud of Texas, her size, her resources and her crop of men. They should be especially proud of the fact that Texas is part of the United States from her own free choice.

HURLING AN ARMY.

This is a rough war, and such a fight will naturally produce

some rough talk. But sometimes it seems as if the correspondents, in their zeal to describe the conflict adequately, get a little too rough with the English language.

It was doubtless a good fighting job, but it is well to caution writers occasionally against what Theodore Roosevelt once called "wild and whirling words."

It is no secret that understatement, when well done, is more effective than overstatement.

Who May Think?

Stopped by a traffic signal while driving in a narrow, busy street a few days ago, my ear caught a familiar, musical note. Just beyond the sidewalk, through a big open door, a blacksmith was shaping shoes for a farmer's heavy team.

Moving-picture blacksmiths are elderly gentlemen with droopy mustaches, but not this man. He was about 30, clean shaven and active. The tempo of his hammer was lively. The hopeful picture he unwittingly posed of post-war America has come to mind since, several times.

Various people speak often today about shaping public opinion, like the young blacksmith shapes and fits iron shoes for horses and

mules. Those trying to shape public opinion do not all have the same ideas, but all agree that popular sentiment can be moulded. No informed person will deny it.

You have heard the old saying, "Knowledge is Power." It is supposed to have flowed from the pen of Francis Bacon about 300 years ago, but I think Bacon lifted this choice bit of wisdom from Solomon: Proverbs 24-5. It has stood the test of time.

For eleven years in China I watched selfish local war lords exercise their power over a patient toiling peasantry. That can be done easily where the great mass of the people are unlearned, as in China, where 80 per cent could neither read nor write.

For 156 years the United States has prospered and grown as a Republic. This is superior to a democracy in that it provides for the safety and protection of the minority, whereas a democracy places the minority at the mercy of the majority, sometimes just as heartlessly as a dictatorship.

It is impossible to get a corner on a nation's ideas. Every man and woman has a brain and there is only one way to keep them from utilizing these assets to enrich themselves and the whole race, namely, keep 'em ignorant.

A country, whose leaders want the benefit of the best thinking of the whole nation, is on its way up. A nation that confines its thinking and planning to bureaus and bureaucrats is on its way down.

SECRETS KEEP BETTER IN SUMMER. Watch what you say! Up where the heat doesn't jumble the sound waves, say polar explorers, you could be overheard for a mile! Well, just let climate play tricks, but not on your car. Winter oil in its crankcase today is a threat. MORE ABOUT THE SAME THING
The abstract, contrary to a rather general opinion, does not cure the title, but rather reveals its condition, good or bad. Three things are strived for in the abstract. (1) To locate the property by field notes and plats. (2) To discover the true ownership as the records may reveal it. (3) To detect the liens and encumbrances, if any. The abstract serves many other useful purposes, but these three are most important.

One of five million reasons why you are waiting for a telephone

- More than 5,000,000 military telephones have been made by Western Electric, our peacetime supplier of telephone equipment. Each one adds to the reasons why 200,000 people in the Southwest are waiting for telephone service.

Besides telephones, Western Electric is making for the armed forces thousands of switchboards, millions of miles of wire and cable, hundreds of thousands of combat radios, radar equipment and automatic gun directors. Little time and few skilled hands are left to make "civilian" telephone equipment.

That's why it's hard to say when everyone now waiting for new telephone service will get it. At best, it will not be soon. Thanks for your continued understanding.

POINT-FREE MEAT

Some confusion and misunderstanding exists concerning point requirements for meat processed through our locker plant. To clear up this misunderstanding we wish to explain how federal regulations work concerning the processing of meat at the locker.

- (1) If you owned an animal at least 60 days prior to its slaughter and will sign a statement to that effect we will kill it and put in your locker, point-free.
- (2) If you have put on 35 per cent of the weight of the animal at the time it is killed, regardless of the length of time you owned it, and will sign a statement to that effect, we will kill it and put it in your locker, point free.
- (3) If you have owned an animal from birth, if it is less than 60 days old, we can slaughter it and put it in your locker, point-free.
- (4) Animals killed and dressed before they are brought to us can be delivered to you or your locker, point-free.

We Can No Longer Supply Local Markets

Due to wholesale ceiling prices and the present price of live animals and also to the elimination of a portion of the subsidy, we will no longer be able to supply local markets with beef and with only a small amount of pork.

It is our recommendation that if you do not own a meat animal and wish to secure point-free meat, you buy either a hog or a calf, feed it for 60 days, after which we can process it for you, point-free.

All of our present lockers have been rented. We have room for 48 more small lockers that will rent for \$10 per year, and we are now accepting deposits on these lockers. If and when they are all rented, and provided the manufacturers will supply them, these new lockers will be available. These deposits are taken with the specific understanding that we do not guarantee that we will have these lockers. At the end of 90 days if we see that we will not be able to secure them, all deposits will be refunded. If you are interested in one of these lockers, it is our advice to contact us at once. There is no more available space in this locker vault and we do not expect to ever enlarge after installation of these 48 lockers.
