NAZI WAR ENTERS FINAL ROUND

Cisco Plays at Paper Salvaging It Is Claimed

Lions enjoyed a double-header program Wednesday following luncheon served by a group of Methodist ladies and voted by members to be unusually appetizing. Three Lion cubs were inducted by ceremonies led by W. H. LaRoque, followed by a belated St. Patrick's Day program with fish and Ireland as the theme.

Six college girls, including one from the high school, made up a group of singers who rendered Irish songs, forming the setting for the program concerning Ireland and the Irish saint, brought by Rev. W. A. Flynn. The girls were introduced by President Curtis J. Turner, as follows: Cathryn Shepard, Dorothy Jean Anderson, Billie Jean Hall, Yvonne Hazewood, Billye Beal and Bonnie Jean Wilson from Cisco Junior college, and Patsy Lois McCrea from high school.

Mr. Flynn told some good Irish jokes, followed by a glance at the country, its size, population and products.

E. B. McGlamery of Eastland, in charge of crippled children aid in this sector, was introduced and made a brief announcement regarding his work.

President Turner quoted Lion Charles Sandler regarding a recent visit of a high official in scrap paper collections, saying the people of Cisco were "playing" at the job of saving paper since our last monthly collection was only about 6,600 pounds whereas it should have been 60,000 pounds, according to records of other towns of like size.

Cubs inducted into the club were Tommy Henry, Mason Pee and J. T. Richardson.

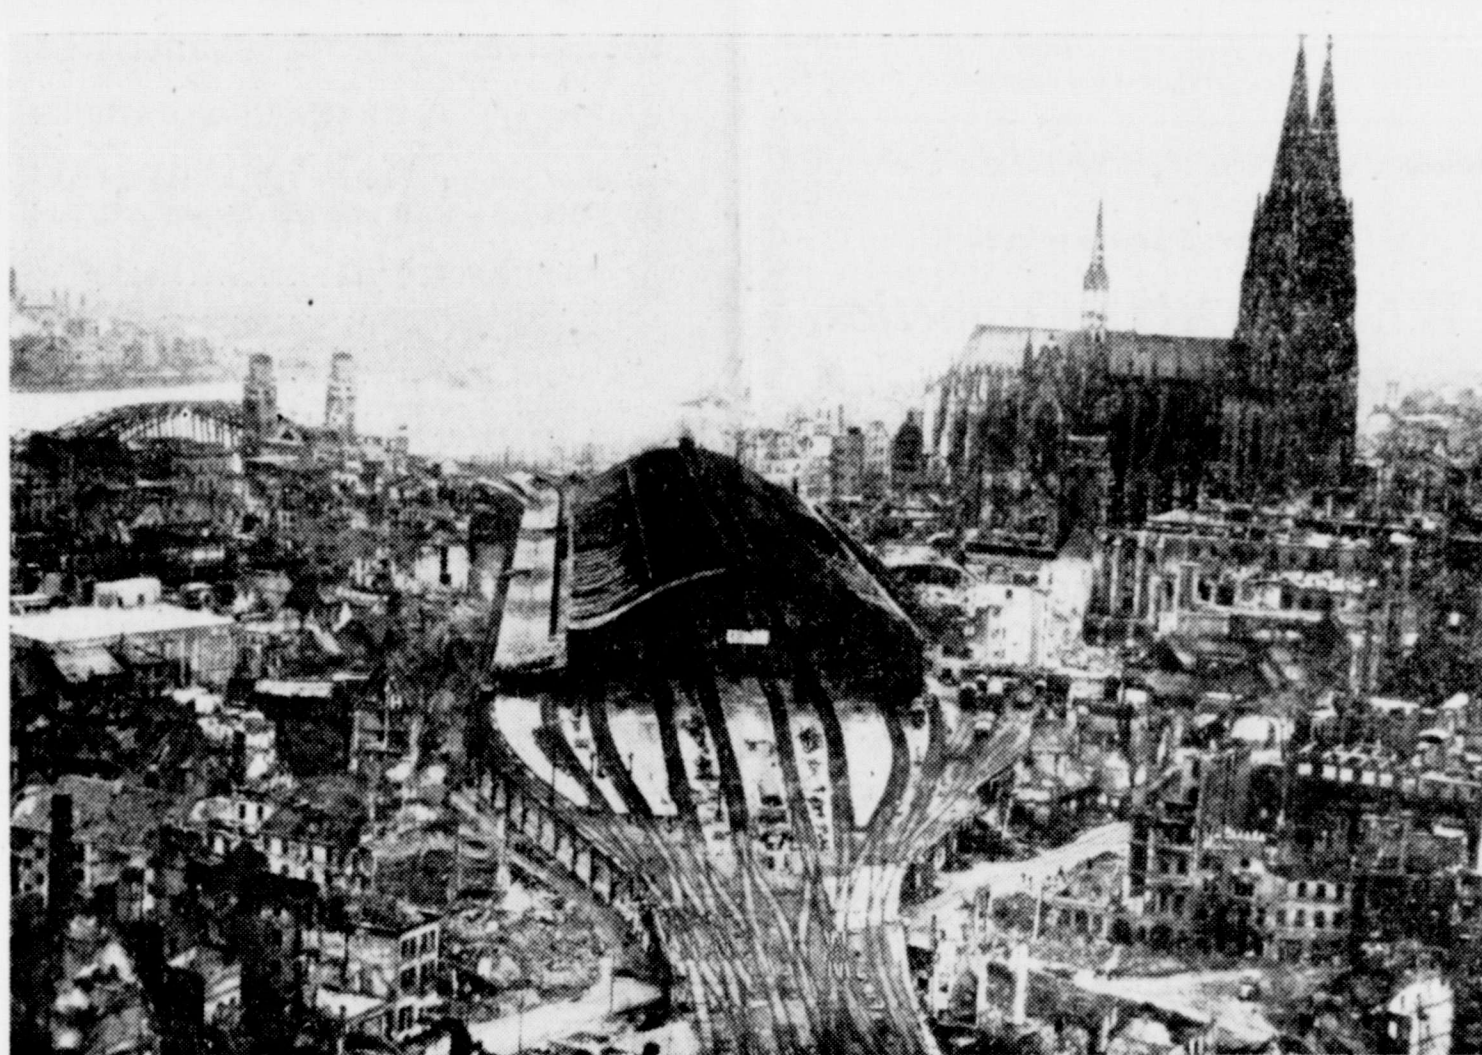

Cisco Soldier's Death Confirmed By Major Bolling

G. R. Gordon, 600 I avenue, has just received a letter from A. R. Bolling, major general, U. S. army, confirming the death of his son, Pfc. James A. Gordon, 22 years of age and a native son of Cisco, who was killed in action on the western front, February 23. Excerpts from the letter:

"The mission of your son's company in the assault over the Roer river was to move the spearheading elements of the division across the water barrier near Linnich, Germany. James was returning to the boat assembly area after padding an assault boat across the stream when he was struck and killed instantly by enemy fire. His body was recovered immediately and prepared for burial in an American military cemetery in Holland.

"A Protestant service in keeping with your boy's faith was conducted by a United States army chaplain and the cross over his grave is marked permanently with his name and serial number.

"In recognition of your son's excellent record, he was promoted to private of the first class January 2, 1945. Since his assignment to the engineering combat unit he had made many friends and was well liked by both officers and enlisted men."

DEVASTATED COLOGNE—Portraying damage done by Allies to the once-proud city of Cologne, aerial view shows ruins of Rhineland capital. Only building structurally undamaged is cathedral at top right. In center can be seen blasted Houthbahnhof Railway Station and at extreme left (background) is shattered Hangbrücke. Wrecked Hangbrücke is almost submerged.

FOR RUHR ON A BROAD FRONT AMERICANS OPENED BATTLE EAST OF RHINE RIVER TODAY

PARIS, March 22.—American First army troops opened the battle for the Ruhr on a broad front east of the Rhine today. Late field dispatches said the Yanks were storming the Sieg river line 10 miles from the southern entrance to the Ruhr.

As the First army struck for the Ruhr, the American Third and Seventh armies to the south closed with a rush against the last 30-odd miles of the Rhine's west bank held by the Nazis between Ludwigshafen and the Karlsruhe corner.

Lt. Gen. George Patton's Third army veterans mopped up isolated German pockets of resistance inside Ludwigshafen and lashed out to the north and south to wipe out a few thousand survivors of the Nazi First and Seventh armies pinned against the bridgeless Rhine.

The battle of the Saar-Palatinate was all but ended after seven days of swift and overwhelming advance, except for two bitter-end struggles raging in the streets of Mainz on the Rhine and in a narrow stretch of the Siegfried line west of Karlsruhe.

With their southern flank cleared by Patton's sensational breakthrough, Lt. Gen. Courtney Hodges' First army troop east of the Rhine immediately charged northward in a power drive that threatened momentarily to spill across the narrow Sieg river into the southern flank of the Ruhr—Germany's last great military arsenal.

Damnably Brutalities on Little Girls

ABILENE, March 22.—Eye-witness account of Japanese atrocity in the Philippines was given in a letter received recently by Tony Brockling, 1042 South 14th, from his son, Pfc. Bernard A. Brockling, 20, of the 12th cavalry.

In a letter dated Feb. 28, the young Marine wrote, "I'm still in combat and you should know where because in every paper I've read, our division has had plenty of writeups.

"The Japs have burned this city all up. As far as I can see any direction are burned down buildings, a few tall ones here and there are still standing but they are black and fire-gutted.

"I got to see some of the Jap cruelty here. I had read about it and thought it was exaggerated but it wasn't. The Japs bayoneted the civilians by the hundreds. I saw one little girl about four years old walking in our aid station, holding both hands out in front of her. She had a bayonet stuck through both wrists. Some had five or six bayonet wounds in them and were still walking; how they do it, I don't know."

Firestone, Dean Drug Women Were 10-Pin Winners

Four teams of the Women's Bowling league competed at the local alleys last night, Firestone winning three straights from Blue Blazers and Dean Drug taking two of the three played with A-G. Motor.

Manager C. C. Cutting commented that "it looks like the ladies are paying more and more attention to the finer details of this scientific game, with the result that their averages are steadily mounting."

Miss Betty Lasater stepped out again last night for the top total of the evening, 495. Betty Surlis was next with 431 and Catherine Abbott was third with 426.

PALESTINE THEIR HOPE.

FORT WORTH, March 22.—Logical site of refuge for the homeless Jews of Europe—numbering more than 1,500,000—is Palestine, it was pointed out here Wednesday night by James G. McDonald, New York, chairman of President Roosevelt's advisory committee on political refugees. McDonald, speaking at Temple Beth-El under the sponsorship of the Jewish Federation of Fort Worth, said that probably fewer than 50,000 Jewish refugees of Europe would be admitted annually by other nations than Palestine.

U. of T. Regents May Yet Decide to Handle Mr. Dobie

AUSTIN, March 22.—J. Frank Dobie, professor of English at the University of Texas, was the target for criticism in both legislative branches because of his statement at Fort Worth that he would have no objection to seeing Negro students attend the University of Texas. Dobie said he does not advocate abolishing the color line in the educational system at present.

On the senate side Dobie was flayed in a prepared statement by Lt. Gov. John Lee Smith, while on the house floor two members assailed him in vehement language, and other critical members were discussing the advisability of offering a resolution of vigorous condemnation.

Most indignant was Representative J. E. Wintree, Houston, who gave voice to vitriolic language. He said Dobie had been quoted as saying he had no objection to Negroes attending the state university and then observed:

"The scoundrels, which were worse than the carpetbaggers, and the renegades are gone from Texas, but we still have Dobies."

J. B. Sallas, Crockett, was immediately on his feet to observe that "if Mr. Dobie has such desires as indicated in the newspaper articles, the university's board of regents should sever his connection with the university and allow Dobie to become connected with Prairie View Normal."

Observers speculated freely that the final round of the war was on. Berlin said all German troops had been alerted against an airborne assault on the Rhine in conjunction with the general offensive by the American Ninth and 15th and the Canadian First and British Second armies.

Doughboys of the 78th infantry division sparked the assault on the Sieg river, charging northward from the east bank suburbs of Bonn against weakening resistance.

They swept up seven towns and villages in a three-mile advance to the river and hurled weak German rear guards back across the stream.

The bridgehead now measured about 26 miles in width along the Rhine bank and about eight miles inland from the river.

UP War Correspondent John McDermitt reported that the collapse of the Ludendorff bridge at Remagen already had been compensated for by the construction of "several" emergency bridges, one capable of carrying up to 42 tons.

In the Saar-Palatinate, meanwhile, the American Third and Seventh armies were racing in to seal their victory with the complete destruction of the 100,000 or more Germans who held the huge triangular pocket at the start of the drive a week ago.

ALLEN AT FT. BENNING. Mr. and Mrs. C. L. Allen, route three, Cisco, have just received a phonograph record from their son, Chester L. Allen, 19, who is in the officers' training camp at Fort Benning, Ga. The young man, a grandson of B. J. Camp of Cisco, expects to finish his army infantry training course at Fort Benning in June. He wrote that he was well and that while he found the course plenty hard, he expected to make the grade.

JAPS MOVING OUT. LONDON, March 22.—Nearly 3,000,000 Japanese already have been evacuated from Tokyo and steps are being taken to speed up removal of others, the Tokyo radio said today.

PROMINENT WOMAN DEAD. SWEETWATER, March 22.—Services this afternoon at 4 o'clock were to have been conducted in the First Methodist church for Mrs. Jefferson Davis Dulaney, Sr., charter member of the Sweetwater Eastern Star chapter and for more than 15 years president of the Priscilla club. She died Tuesday.

12 RABIES SUSPECTS. ABILENE, March 22.—Some 12 persons in Abilene are under observation for rabies after three dogs here showed symptoms of dumb rabies, Dr. C. M. Lindley and Dr. Ries R. Lindley, veterinarians, said today.

Music Study Club County Exceeds Church of Christ Will Offer Tags Red Cross Quota Revival Drawing Here Saturday By Over \$3,000 Numerous Visitors

Cisco Music Study club will sponsor a tag day here Saturday, says Mrs. S. E. Hittson, local chairman of the state-wide movement to raise funds for the purchase of musical equipment for Texas army camps and hospitals, as well as for the national music federation's depot at six ports of embarkation, whence Red Cross special service officers and chaplains may get it to take with their outfits overseas.

Three mite boxes will be located in the business district and all day Saturday young ladies, under the supervision of Mrs. Ben Krauskopf, will be on the streets of the city to offer the tags to those who desire to help the worthy project. There is no set price for the tags—pay whatever you wish.

Eastland county Red Cross drive for its assigned quota of \$18,000 has been completed and the announcement is made that the total amount secured was \$21,754.

Of this amount, Eastland city contributed \$5,158.24, Ranger, \$4,909.16 and Cisco, \$5,512.08.

Included in Cisco's total was \$300.42 collected by K. N. Greer at Palace theater and \$171 obtained from the sale of a pig donated by George Wilcox, Sr., and Everett Wood. The pig was sold at auction at the Johnny Trig sales barn.

Mrs. George P. Fee, who directed the Cisco campaign, extends thanks to all those who contributed thereto in cash or aided the cause in any manner.

The nightly revival services at Church of Christ, 501 west Eighth street, which started Monday night and are to continue through Friday night, have proved a nice success says G. S. Westbrook, pastor, with many visitors from the various towns and communities adjacent to Cisco being present each evening.

There have been two addresses each night by different visiting ministers, hence the program has been interesting and varied. Tonight's speakers both come from Abilene—Cecil N. Wright and Earl E. Smith.

WASHINGTON, March 20.—The comptroller of the currency today issued a call for a statement of the condition of all national banks at the close of business Tuesday, March 20.

IN THE AIR.

More and more are men in industry and agriculture voicing a fear that the stage is being set for total government domination of basic production activity in the United States.

The farmer senses it just as he senses changes in the weather. The industrialist senses it, banking senses it, the electric industry has definitely felt it, transportation sees it growing in various branches of that industry, and many lines of business are aware of pressure that makes private operation constantly more difficult.

When bureaucratic demands are finally made that industry cannot comply with, those who would have government become all powerful, will say: "Private enterprise has failed—government must take over."

No one has more to lose before the onward march of all-powerful government, than the workman.

Wherever government dominates, the individual becomes slave to an official aristocracy. He finally loses his liberty when a "benevolent" despotism feeds him with a gilded spoon for which he has to pay."

WHO'S NEXT?

The stark tragedy that accidental fire can bring is vividly revealed in a brief news report from a small West Coast community. According to the report, four little girls were trapped asleep in an upstairs bedroom while their parents were out. A neighbor saw flames licking the roof of the dwelling and turned in an alarm. The volunteer fire department arrived in two minutes, but the fire had already cut off any chance of rescue.

The account went on to state that "The fire was caused by a defective flue in the kitchen chimney. The bodies of two girls were found at the head of the stairs, where they had been overcome by smoke and fire; another body was under a bed, and the fourth girl collapsed on the bedroom floor. The body of the family dog was found in another bedroom."

This is typical of the fire tragedies that fire prevention authorities are doing their level best to teach the public how to avoid. In this case, a defective flue, a common hazard that could have been repaired quickly and cheaply, produced the fatal spark, shutting a family and the lives of four children. Tomorrow a defective wire, an oily rag, an over-

heated stove, a misplaced cigarette or one of countless other simple menaces will reach out to destroy another family, a hundred families. The columns of the press are filled with these "minor" items day after day.

PAPER PACKS A WAR PUNCH

Ciscoans Are Winning On the Home Front

Well, that is a comforting thought. We have put our bond drives over and with much to spare each time. We have put over that most worthy Red Cross drive and we are putting over the waste paper drives each week, although we may not be doing our full share of that. We may be lacking in saving our waste fats. We save some but is that enough?

Just now we are saving waste paper each week with a town-wide drive each third Friday of every month. Men are leaving their work to make the collection, while women are tying up the bundles and placing them on the curbs.

Let's keep on doing what we can for final victory. Will our soldier boys reproach us for our lack of cooperation, or will we be able to look them square in the face and say: "While you fought across the seas, we did what we could at home?"

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backaches quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess waste and waste out of the blood. They help most people pass about a pint a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

MORE ABOUT THE SAME THING

The abstract, contrary to a rather general opinion, does not cure the title, but rather reveals its condition, good or bad. Three things are strived for in the abstract. (1) To locate the property by field notes and plats. (2) To discover the true ownership as the records may reveal it. (3) To detect the liens and encumbrances, if any. The abstract serves many other useful purposes, but these three are most important.
