Nance Hi Bowler With 233; Ponsler High For 3 Games

Some exceptionally good scores featured the league games at the bowling alleys last night, when The Man's Store and Cisco Gas Corporation took two games each from White's Tire Shop and West Texas Utilities.

Pete Nance moved to the top with the high score of 233 in one game and a total of 540 for the three; R. L. Ponsler acquired 221 in his first game and the high total of the evening, 542; James Moore bowled consistently in all three games and piled up a total of 505 for the session; M. M. Tabor came within six pins of the 500-mark. An enthusiastic, friendly spirit of rivalry was manifested by all participants.

Four teams of the women's Bowling league will compete tonight, as follows: Blue Blazers vs. Dean Drug; A-G. Motor vs. Firestone.

Vivian Jacobs Be Discharged From U. S. Army Soon

Vivian Jacobs, 25, son of Mr. and Mrs. W. H. Jacobs of Cisco, an inmate of a government hospital at El Paso since February, will be given an honorable discharge some time soon, it is said.

The Ciscoan joined the army more than three years ago and saw action in North Africa, Sicily, Italy, Belgium, Holland and Germany. He has been wounded twice and is a sufferer from shock and strain. He is said to be improving, but will probably remain in hospital for some time after his official discharge.

L. D. Wyatt Buys Business Home at 521 D Avenue

L. D. Wyatt, owner of the Wyatt plumbing business, has purchased from the city of Cisco the property at 521 D avenue and will move to his new business home as soon as the building has been remodeled and made ready. Wendie drygoods store occupied the building at one time, but it has been vacant for several years. The remodeling contract has been awarded to J. L. Black, general contractor. J. R. Kilgore, C. Funderburk and G. E. Black will do the concrete, brick and carpentry work, respectively.

R. N. Cluck, Supt. of Schools, Named For 2 More Years

At a special meeting of Cisco school trustees yesterday afternoon Supt. R. N. Cluck was re-elected for a term of two years. Mr. Cluck had asked a new contract for three years.

The two-year contract renewal, a member of the board stated, was made to fit in with school system plans inaugurated by the board some time ago and which will require that period of time for full development.

L. A. Warren, president of the board, tendered his resignation as a member of the board and it was accepted. Mr. Warren's resignation at the special meeting was in protest of Mr. Cluck's re-election for two years, the former president being on record as opposed to the re-election of any faculty member for more than one year.

Charlie Clark of Menard New Manager Hotel Laguna

Ned Starkey, manager of the Laguna Hotel until recently, has left Cisco temporarily and has been succeeded by Charlie Clark, who has been with the National Hotels for several years. Mr. Clark comes to Cisco from Menard, where he managed the Bevan Hotel. He will continue to manage the Menard hotel along with the local property. Mrs. Clark is here with him.

The Laguna Coffee Shop, closed for some time account labor shortage, will be opened soon by C. L. Richardson, former Ciscoan and recently released from the army. Richardson has successfully managed several outstanding hotel restaurants in Texas. Aside from regular restaurant trade, the Coffee Shop will also cater to special parties and banquets. Mr. Richardson has a wife and family.

Cecil Roberts, on Saipan, Finds Time For Needed Shave

Mr. and Mrs. M. H. Roberts of Seranton have just had word from their son, Cecil Truett Roberts, 35, who has been overseas a year and a half and is now stationed on Saipan island in the Pacific war sector.

Roberts joined the Marines in 1942 and his work on Saipan had to do with the construction of the modern air base from which Super 29s now make daily visits to the Japanese homeland.

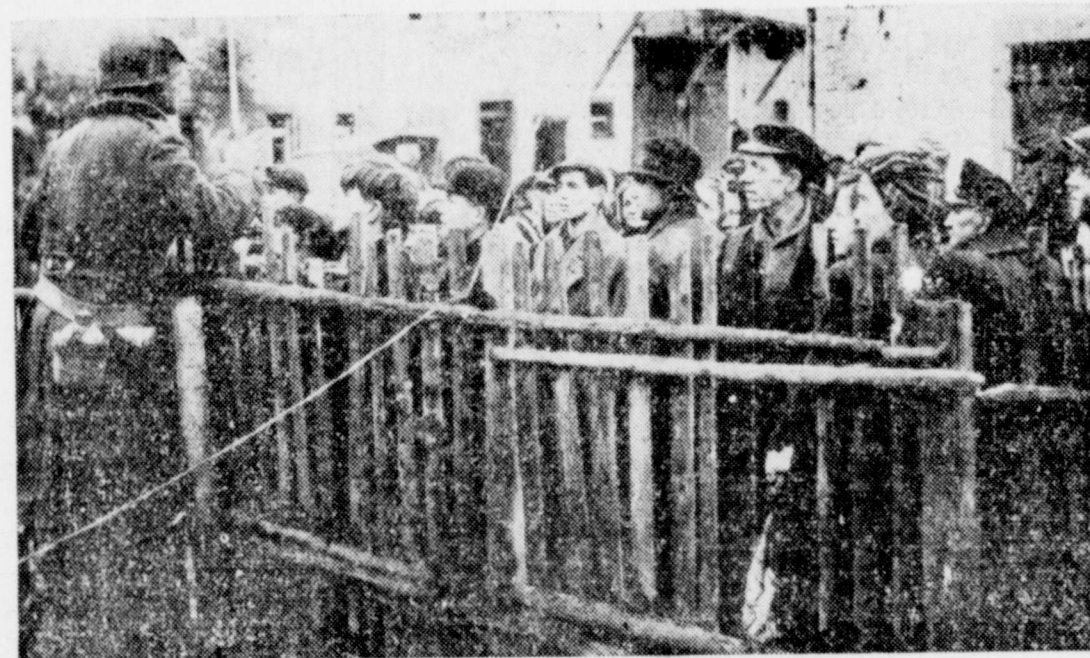

The Eastland countian, who is quite an artist with his pen, sent his parents a pen picture of himself while standing beneath a coconut tree, shaving. It is very true to life, being a good likeness of Roberts who, razor in hand, is shown peering into a small mirror that hung from a limb of the tree.

NOTED WOMAN DEAD.

DALLAS, March 28.—Another bit of southern aristocracy has passed on into history with the death of 84-year-old Mrs. Maggie Christina Fooshee, mother of a well-known Dallas architect, who died at her son's home yesterday. Born in Mobile, Ala., Mrs. Fooshee lived on a plantation against a "Gone With the Wind" background until she came to Texas. Her father, J. F. Fresenius, was chief engineer for the Gulf, Colorado & Santa Fe railroad.

THEY SACRIFICED—Rows of white crosses mark graves of men who gave their lives to gain possession of Iwo Jima. Here buddies smooth the volcanic sands of 5th Marine Division cemetery.

THE GENERAL'S ORDERS—Yank emphatically explains orders of Supreme Allied Commander Gen. Dwight Eisenhower to civilians in newly-captured town of Budesheim. Townspeople listen intently to infantryman of 4th Division, U. S. 3rd Army.

HAVE YOU ANY WOOL?—These three little lambs are one of two sets of triplets which arrived on a Cheyenne, Wyo., ranch on same day. Here Sue Smith offers bottle to awkward youngster who doesn't seem to know where his mouth is. Other two close in.

Nazi Crime Heads Are Expected To Flee to Japan

MOSCOW, March 28.—A Romanian diplomat en route home from Tokyo asserted today that the Japanese firmly expect Adolf Hitler, Heinrich Himmler and Benito Mussolini to seek refuge in Japan "almost any time" now that Germany's cause seems hopeless. "The fact is, they've been expecting them for a long time," declared the diplomat, Victor Gutulesco, a former member of the Romanian embassy staff in Tokyo who has just arrived in Moscow.

He said the Japanese did not appear particularly pleased about the prospect of giving shelter to Nazi or Fascist leaders, fearing that it may only make life harder for them than it already is.

Gutulesco, who travelled through Manchuria on his way here, said he had found an unmistakable spirit of defeat prevailing everywhere among the Japanese. Although the press and radio are carrying on an intensive campaign to convince the people they will win the war, Gutulesco said no single average Japanese with whom he had talked — including some army officers — really believe this.

He added emphatically, however, that anyone who thinks the Japanese are going to quit is gravely mistaken.

Iwo Jima Hotter Than Hades and Never Cooled Off

SAN FRANCISCO, March 28.—Battle-torn and weary, between 600 and 700 Marines have arrived in San Francisco, from the bitter fighting on Iwo Jima, the Marine corps said today.

All described the savage struggle as the worst they had ever seen. Many are veterans of several Pacific campaigns. "Other campaigns were like maneuvers compared to Iwo," said Sgt. Clinton E. Canning, 30, whose mother lives at Los Angeles.

Pfc. Norman Redding, 25, whose home is at Waco, Texas, said, "it was rougher than hell, and furthermore it never cooled off."

Japanese snipers deliberately shot at the legs of stretcherbearers so that both they and the men they were attending would be helpless, the returned veterans said.

A FORWARD STEP.

AUSTIN, March 28.—The house public health committee has approved unanimously a bill by Representative Hoyo of San Antonio designed to set up a modern sanitary code for Texas. The bill provides for the regulation and periodic inspection of drinking water, septic tanks, tourist courts, camping grounds, privies and sewage plants, to see that they come up to standards. No such sanitary code now exists in Texas. The state board of health is to enforce the law.

GAS CODE IN SIGHT.

AUSTIN, March 28.—Final form of the proposed new gas conservation laws for Texas was being drawn here with support for its passage assured from all sections of the oil and natural gas industries leaders said today.

DAILY TEXAN REFORMS.

AUSTIN, March 28.—Discussions of race relations which have been carried by the Daily Texan, University of Texas campus newspaper, in a letter-to-editor section, are to be discontinued. Directors voted unanimously that the discussions accomplished nothing, and served only to injure the university.

7TH ARMY ADVANCED 26 MILES WHILE PATTON'S THIRD NOW 218 MILES SOUTHWEST BERLIN

U. S. SEVENTH ARMY HEADQUARTERS, WESTERN FRONT, March 28.—The American Seventh Army advanced 26 miles beyond its Rhine bridgehead today to reach the Main river at a point 35 miles east of the Rhine.

PARIS — The battle of the Rhine broke into a wide-open chase today as American and British armored forces spilled through the broken German lines and raced eastward at top speed along the central and northern roads to Berlin.

The American First Army exploded one of the war's greatest armored assaults squarely through a 40-mile breach in the enemy defenses 230 miles southwest of Berlin.

The speeding American tanks swept almost 60 miles beyond the middle Rhine to the outskirts of Giessen, threatening to split the remaining enemy lines in central Germany and cut off the beleaguered Nazi garrison 30 miles to the south of Frankfurt.

Far to the north, hundreds of British Second Army tanks streamed through a 15-mile hole in the German front along the edge of the Westphalian plains 20 miles and more beyond the Rhine.

The Tommies were advancing within 30 miles of Muenster and 270 miles of Berlin across open country dotted with wrecked and burning equipment abandoned by the beaten Nazi First Paratroop Army.

On the British right flank, the American Ninth Army peured strong armored and infantry reinforcements into its 15-mile-deep bridgehead on the northern edge of the Ruhr Basin, and another great breakthrough appeared imminent there.

The German high command said today that U. S. 3rd Army tanks had crashed into Gemunden, 218 miles southwest of Berlin but had been driven out.

The Third Army's Sixth Armored Division, shifted from the U. S. Seventh Army Command during the Saar-Palatinate battle, stormed across the Main river into the heart of Frankfurt last night and began a street-to-street mop-up of die-hard Nazi troops inside the city.

Patton's men cleared the suburban area of Frankfurt lying south of the Main and won their hold in the city proper with a reckless infantry charge across a

Red Pincers Reach Out For Czechoslovakia, Vienna

LONDON, March 28.—Four Russian armies hammered in a huge pincer on Czechoslovakia and Vienna today, and Berlin declared one thrust through western Hungary within 58 miles of Vienna now had rolled up to the central Raba river, guarding Austria.

A German broadcast declared the Soviets had forced a new crossing of the Oder river northwest of Kuestrin, 38 miles from Berlin. A Moscow dispatch reported the Russian supply system was "working all-out to prepare a spring offensive" on this front closest to the Nazi capital.

Other Russian units were cleaning out Danzig, where the opening shots of this war were fired, and fighting into nearby Gdynia. The German high command reported fierce street combat in both cities.

Giles Proposes Public Lands For Veterans of War 2

AUSTIN, March 28.—General Land Commissioner Bascom Giles in an address before the House of Representatives today proposed creation of a \$25,000,000 revolving fund to purchase of land for distribution exclusively among Texas veterans of World War II.

Giles suggested submission of a constitutional amendment that would permit use of public free school fund money for his plan and creation of a public board to administer it.

Patton's men cleared the suburban area of Frankfurt lying south of the Main and won their hold in the city proper with a reckless infantry charge across a

damaged railway bridge. A small force of doughboys raced across the bridge under heavy rifle fire Monday night and hung on all night against a terrible storm of fire from hidden German mortars and field guns.

Everywhere the Germans were abandoning towns and villages, with vast quantities of arms and ammunition, to the advancing Allies.

HOME IN WYOMING—T/Sgt. Leonard Alwert, with English-born wife and 11-month-old son, David Frederick, have just arrived at his home in Cheyenne, Wyo. Looking happy at the prospect of raising son in western United States, Mrs. Alwert is first military man's wife brought home to Cheyenne from foreign soil.

NO SAFE NAZI REFUGE.

The Nazis are threatening to retreat to the hills and carry on guerilla warfare there. This was Churchill's famous threat if the Nazis ever succeeded in invading Britain.

The hills from of old have been the refuge of beaten peoples and fading cultures. The early Britons fled there to escape the invading Anglo-Saxons. The Albanian mountaineers kept their freedom when the lowlands were conquered by the Turks. The pagan religion of the ancient Romans continued in the hills long after Christianity became the empire's official religion. In the United States the Appalachian mountain folk preserve words of Elizabethan English, and the customs of their forefathers. It is not impossible that after lowland Germany has been purified, Nazi barbarism should linger in the hills.

Yet even in the hills it can be rooted out. There is a new civilizing agent today: the airplane. Just as the hilly jungles of New Guinea were conquered from the air, so will be the Black Forest and Bavarian Alps. Against the plane the most mountainous Nazi retreat will be unsafe. Eventually even Berchtesgaden itself will be forced open by the armies of the United Nations. Nazism can no more be allowed to breed in out-of-the-way retreats than can the bubonic plague.

THE SLAIN DANCER.

A tragic end to a tragic career is indicated by the report that, in their efforts to conserve food in besieged Budapest, the Nazis killed the city's insane, and among them was the dancer Nijinsky.

Russia is preeminently the land of the ballet, and among all Russian dancers Nijinsky was probably the greatest. In his prime, he was physically almost a demigod. Russian doctors said that not a single undeveloped muscle was visible in his body. His mastery of pantomime and impersonation was superb. His skill in devising new dances amazed the most experienced ballet masters.

About 1917 signs of mental disturbance appeared, and ever since 1919 he has been in a sanatorium, forgetful of himself and his past. The great artist has been dead for a quarter of a century; what the Nazis destroyed was a shell.

Gratitude.

The average American's most vivid impression of the Orient was acquired in less than an hour and came to him free with a bowl of chicken chow-mein. This is no discredit to the average American. He can't help it if Asia is mysterious. It is only an accident that we know a great deal more about Europe. Our ancestors came from that way, so we heard about it.

It is high time now however for every soul in the United States, who loves his happy home and peaceful surroundings, to learn more of the character of our straw-colored allies beyond the Pacific. We owe our national safety to them. If it were not for their native honesty we would be held in a nutcracker between Germany and Japan at this hour, if we were yet able to fight at all.

We Admire Britain.

Americans are a tender-hearted folk. We sympathize with other peoples and half-way try to understand them, but we don't usually admire them very much. We felt sorry for the Poles when the Nazis took them in 18 days. Our hearts went out to the Norwegians because they didn't last three weeks. We wept with our British relatives over Dunkirk, but we did more. We admired the British.

Late in 1937 the city of Nanking, China, fell to the Japanese. Far away over the sea, strategists

thought that was about the end. If China had folded up the next day, few people would have blamed her. We Americans would have turned the spigot in our sympathy tank again and drawn out a generous sprinkling of tears for dear old China, and then tried to forget it. But forgetting it would have been impossible.

Must Admire China.

If China had fallen in 1937, four years before the Pearl Harbor raid, any child can guess why we Americans would still be remembering it. But China did not fall. It would not be amiss for devout people to give thanks at the table three times a day that China did not fall. If China had fallen Japan could have knifed Russia on the unguarded side, right through Manchuria; surely would have done so.

Back in those early months of the present war when the Germans were all but knocking at the doors of Moscow, our big old globe, as now arranged, was coming unglued. If Japan could have drawn close enough to attack Russia from behind, the Germans would have marched into Moscow. Then, with no Russia to annoy him, Hitler would have paraded London to a cinder.

Thanks to China.

China stayed in and fought, so London remains. China stood the

gaff, so we still have San Francisco. China could take privation and punishment; her share and ours too. As a consequence no bomb has struck an American city. Moreover China's young men have made their fight as nearly bare-fisted as any army, large or small, taking part in this war on either side.

In recent weeks there have been frequent criticisms of China; of Chinese fortitude, of China's disunity, of Chiang Kai-Shek's generalship. Let me close with this admonition: Criticism of China in America today, true or false, has one purpose and one only. It is to break up unity among our allies. Our enemies can hope to survive by no other means. Don't listen to it.

The Earth Turns.

Dallas News: Give us a vernal sun, a warm March wind, and we can almost feel the earth turn. This is the season when an exotic change strikes us. Walk through a greening meadow, lift a stone along a creek bank, watch a flower in a crannied wall conjuring with a sunbeam—the whole earth is seething and oozing with new life.

Humble though it is, the hackberry indicates the scheme of things. A few days ago it was still a winter skeleton. Then came the change that any man can see but no man can fathom. A bud swelled and fattened. Soon there will be leaves and twigs. The sun has crossed the line and we know the earth is turning, the season progressing.

The countryman knows it is spring in a lot of homey, nontechnical ways. When he picks up a handful of corn land that has "wintered out" and it smells of life, he knows spring is here. The bacteria are at work; an earthworm creeps across the furrow. In early morning he notes with pleasure the song sparrow and cardinal greeting the sun and at dusk he likes to listen to the Hyla in the marshes of the woodland. This is a sure sign. A jumble of noise the Hyla make, without rhythm or theme, but a noise of spring.

"The year's at the spring," sang Browning. There is a fullness of hope in the season, a pungency and promise. By astronomical calculation, the vernal equinox is that point in the celestial sphere where equator and ecliptic cross each other in the sign of Aries. Day equals night, and no man can resist the beauty of either. Spring is not only delightful; there is the glory of the Creator in it.

MANDALAY.

"Burma's second city" has fallen again—this time to the British. It seems as if that city is always being taken by somebody or other. This time the fight was bitter.

But there is an odd thing about it. Whatever the military men may say, the significance of Mandalay is not its strategic position in a great international war. Its permanent importance is that a British poet who loved the Far East, musing one day on that remote place with its melodious name, wrote a little song with the haunting refrain:

"On the road to Mandalay,
Where the flyin' fishes play,
And the dawn comes up like
thunder
Outer China crosst the bay."

That poem may still be living when the wars that have raged around it are forgotten.

MORE ABOUT THE SAME THING

The abstract, contrary to a rather general opinion, does not cure the title, but rather reveals its condition, good or bad. Three things are strived for in the abstract. (1) To locate the property by field notes and plats. (2) To discover the true ownership as the records may reveal it. (3) To detect the liens and encumbrances, if any. The abstract serves many other useful purposes, but these three are most important.

SUNBEAMS ENJOY EASTER EGG HUNT.
The Sunbeam class of First Baptist WMU met at the church Tuesday afternoon for an Easter Egg hunt and regular meeting. Mrs. Cecil Adams, Mrs. W. C. Clements and Miss Willie Frank Walker were in charge.

The meeting opened with group singing by the children with Miss Walker at the piano. Billie Daniels, president; Mary Sue O'Flaherty, secretary and Yeil Leader Lona Ann Anderson, were at their stations. Mrs. Adams told the Easter message of the Resurrection of Jesus, which was followed by the motto watch word repeated in unison. The hunt for Easter eggs was then enjoyed. Refreshments were served and favors of Easter rabbit cookies were presented the group. A special favor, given by Mrs. Clements, was an Easter rabbit with a tiny bag of miniature eggs on his back. Adult guests present were Mrs. Fay Stalcup, Mrs. J. T. Richardson, Jr., Mrs. Jesse Jones and Mrs. Jesse Lenz and the following children: Lona Anderson, Brenda Daniel, Billie Daniel, Mallianna Prickett, Wanda Wyatt, John Adams, Rita Jane Webb, Bobby Snodgrass, Betty Ann Westerman, Blair Paul, Joe Starkey, Dorothy Clayton, Jeanette Clark, Myrtle Alma Brown, Kay Stalcup, Melba Ray Harrelson, Teddy Anderson, Wilma Lee Thomas, Anna Jane Jones, Jimmie Posey, Richard Stalcup, Johnnie Turner, Jerry Don Strickland, Mary Jane Rendall, Mary Sue O'Flaherty, J. W. Wyatt, George Page, Johnny Bob Richardson, LaVear Adams, Burl Adams, Tommy Lenz, Betty Jean Michael, Evazell Parker, William Parker, Leland Harper, Edward Bernice and Wilbur Lee Westerman.

FIRST BAPTIST WMU IN GENERAL MEETING.
Women's missionary union of First Baptist church met at the church Tuesday afternoon for monthly business meeting with Mrs. E. J. Poe, president, in charge. The meeting opened with group singing led by Mrs. W. W. Fewell, with Mrs. Arthur Johnson at the piano. Mrs. C. A. Farquhar offered prayer.

Circle two was in charge of the devotional and Mrs. J. R. Burnett was presented in a splendid devotional, "Heaven," with scripture reading from the two last chapters of Revelations. The business session was then held and minutes were read by Mrs. F. B. Clampitt.

Vote was made to entertain high school seniors with a banquet some time during April; reports were made by general officers and committee chairmen and it was decided to sponsor an Easter egg hunt for children of the mission.

Reports were also made by Mrs. Wm. Isenhower on box sent to Buckner orphan home; Mrs. F. D. Wright on gifts of cakes taken to Browwood government hospital. Mrs. A. F. Ashenbust read assignments for the circles during April. The meeting closed with prayer by Mrs. Arthur Johnson.

Those present were Mrs. E. J. Poe, Mrs. A. F. Ashenbust, Mrs. J. R. Burnett, Mrs. F. B. Clampitt,

IS LIGHTNING? ZIG-ZAG

YES NO

Old Jupiter's lightning was Z-shaped. Today's lightning-fast cameras prove that it really flashes beautiful curves. Shows how weather bears watching, and now in Spring, so does the car that must last you! It's time to drain unfit Winter oil, and you'll get far more than an oil change by having your engine's insides OIL-PLATED.

All you need is Conoco Nth motor oil to bond OIL-PLATING direct to working parts—really a built-on layer of lubricant. This special wear protection—a great research achievement—is surfaced to metal by Conoco Nth oil's strong "power of attraction." And Nth oil provides tough liquid film, too.

OIL-PLATING and oil film are both fighting wear every mile.

Then after stopping, when acids want to gnaw any engine, they're curbed by OIL-PLATING—the foe of corrosive wear!

What a big lot of safety from wear!... to stretch engine life... to make oil and gasoline last you... to minimize carbon and sludge... to help power! Yet Conoco Nth oil costs little more. Fast as lightning, change for Spring. Continental Oil Co.
