## Easter Sunrise Service Sunday Morning at 7

Weather permitting, Cisco's annual Easter sunrise meeting to be held on College Hill Sunday morning bids fair to eclipse those of preceding years, both in quality of program and city-wide interest.

The service will be sponsored by Cisco Pastors' association and Cisco Knights Templar and the hour will be 7 a. m., war-time.

Rev. L. H. Clegg will preside and the program will be as follows:

Song by choir composed of singers from all Cisco churches and directed by S. E. Hittson.

Scripture Reading—Rev. Arthur Johnson.

Song by choir.

Prayer—Rev. W. A. Warden.

Song by choir.

Address—Rev. Evan Holmes.

Benediction—Rev. O. L. Savage.

## West Ward PTA to Sponsor Salvage of Waste Paper

West Ward Parent-Teacher association met Wednesday afternoon at the school building with Mrs. J. J. Porter presiding. The business session was held first and minutes were read by Mrs. Bill Mitcham.

Rev. W. A. Flynn, representing Cisco Lions club, presented an offer from the club whereby the schools of Cisco will receive all money received from the sale of waste paper during April and May.

PTA agreed to sponsor the city-wide plan and that organization will receive half of the waste paper proceeds, although the Lions will furnish the trucks and make the actual pickup each Friday afternoon, as usual.

Committees have been named by PTA from each of the four local school groups and as an added incentive the particular school group responsible for the largest amount of paper collected each month will receive half of the money received from all sales.

A committee composed of C. B. Midkiff, Mrs. Cecil Adams and Mrs. Lynn Heard was appointed to supervise the general drive and seek to develop interest on the part of all students in making April and May the outstanding months in this important war effort.

The PTA sponsored drive will begin the first Friday in April.

## Uniform Not Necessary to Truly Patriotic Service

A double-header program consisting of songs by Junior college girls and a talk by Rev. Arthur Johnson of First Baptist church, was presented at the Rotary club Thursday by A. C. Green, program chairman for the day.

At the business session it was announced that the club had been in the district upper-ten attendance bracket seven times, with a percentage this month of 98.15, while failing to make the high group one time.

President J. W. Slaughter announced that the club lacked \$10 of coming out even on the Rotary Institute during March.

The college girls appeared in their cowgirl suits, since it was Ranch Week for the school group. Their renditions were encored, ending in "Don't Fence Me In."

Singers were Dorothy Jean Anderson, Billie Jean Hall, Bonnie Jean Wilson, Patsy Lois McCrea, Cathryn Shepard, Yvonne Hazelwood, Billye Beal, Barbara Grist was at the piano.

Mr. Johnson quoted from scriptures to show that those who stay at home and serve their country to the fullest are entitled to as large a share of honor as those who go to the field of battle. "The service may differ in kind, but all is important," he said. "A sincere all-out service is what counts," he added.

We must not neglect the spirit of service and forget God in our fight for victory, he stated, because, as he said, Rome fought and fell; Greece became great in learning, but also passed away, while the great Hebrew state lost its greatness and was engulfed in the dark ages that lasted for a thousand years.

Other guests were Mrs. A. C. Green, Ray Lehman of Fort Worth, Dr. J. H. Caton and Jack Frost of Eastland.

## Presbyterians to Have Easter Cantata at 11 Sunday

The choir of First Presbyterian church, under direction of Mrs. S. E. Hittson, choir director and organist, will present an Easter cantata at the 11 o'clock hour Sunday morning.

Title of the cantata is "The Story of Easter" by Lorenz, according to St. Matthew. The program will consist of choruses, solos, duets, trios and quartets, interspersed with scripture readings.

The choir will be composed of Mrs. A. E. Jamison, Mrs. J. J. Tableman, Mrs. P. R. Warwick, Mrs. F. J. Borman, Mrs. W. F. Watson, Mrs. H. H. Monk, Mrs. George Fee, Mrs. J. E. Walter, Mrs. W. W. Wallace, Miss Patsy Lois McCrea and Messrs. O. L. Savage, E. P. Crawford, W. E. Watson and S. E. Hittson.

## Flynn to Speak at 8 Tonight at Christian Church

Rev. L. H. Clegg of the Nazarene church delivered the pre-Easter sermon at last night's union service held at First Methodist church. Mr. Clegg's subject was "Jesus the Way, the Truth and the Life." The sermon was well delivered and the attendance was excellent, notwithstanding the heavy rainfall.

The final service, preparatory to the union sunrise service on College Hill at 7 o'clock Sunday morning (war-time), will be held at First Christian church at 8 o'clock tonight, with Rev. W. A. Flynn of First Methodist church as the speaker.

It was announced that the proposed union service following victory of our troops in Europe will be held at First Christian church.

## NICE RAINFALL

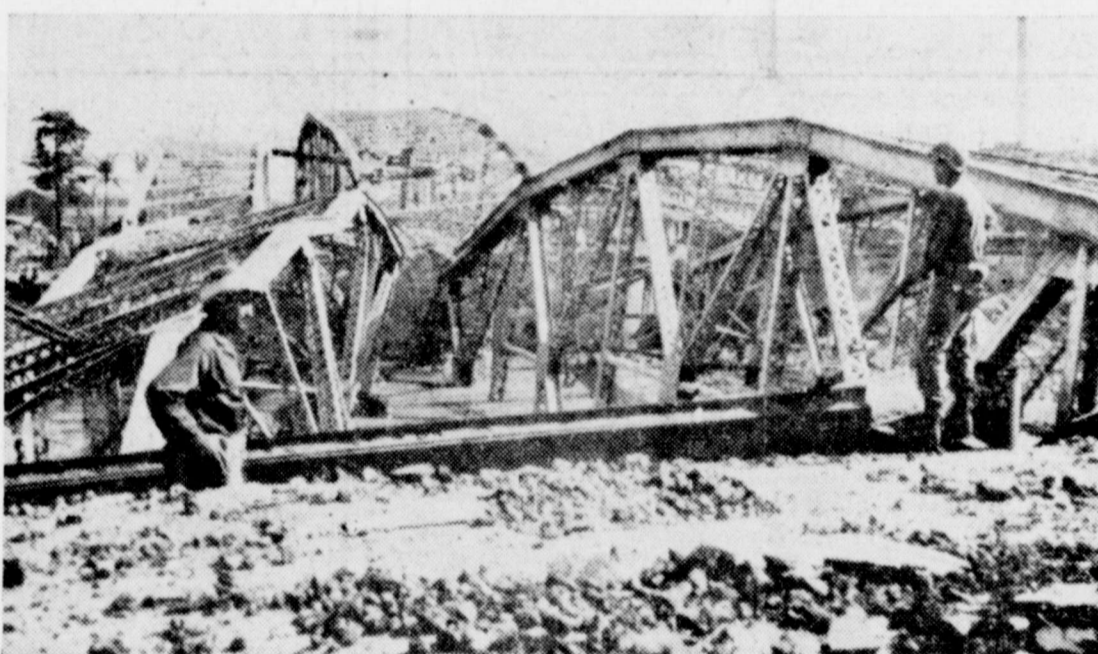

According to the gauge at city hall, Cisco received one and nine-tenths inches of rain during the 24-hour period ending at 2 o'clock this afternoon. Lake Cisco was stepped up about five inches. City Secretary George W. Downie said. Considerable thunder and lightning accompanied the steady downpour of last night, but there was little or no wind.

## MRS. WARWICK RESIGNED

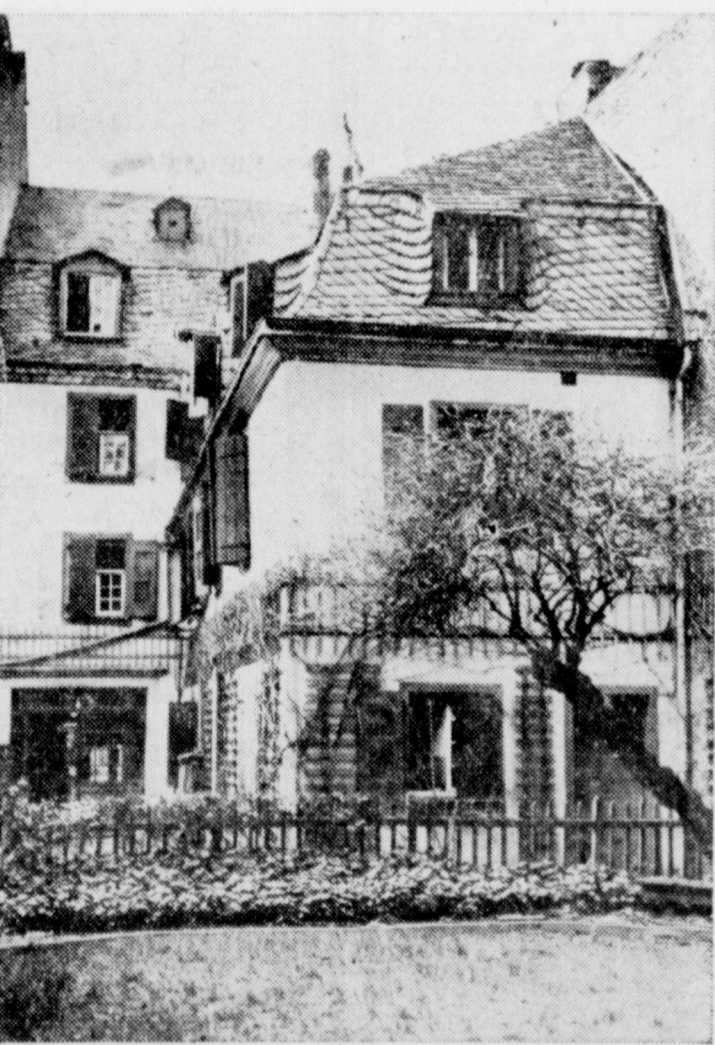

Mrs. P. R. Warwick, who has been a member of Cisco school board for the past nine years, told the Daily Press today that she would like to make public the fact that she resigned from the board as of March 23.

SWISS HOLIDAY—Belgian children lean from train window for a last minute hand-squeeze with mothers. Youngsters are headed for a three-month stay in Switzerland to recuperate from bomb-nerves and under-nourishment. Train leaving Brussels is under auspices of Belgian Red Cross.

STAND GUARD—Pfc. Salvatore Martelli of Denver, Colo., (left) and Pfc. Cecil Potter of Detroit stand guard over wrecked bridge across the Pasig River which runs through Manila.

BEETHOVEN'S BIRTHPLACE—Left almost completely undamaged by battle for Bonn, the birthplace of the great composer, Beethoven, is shown after the U. S. 1st Army troops had taken the city. Accurate Allied bombers take special precaution of places of culture and reverence in the pre-invasion raids on German towns. (Signal Corps Photo.)

## Corinth Baptist Church To Have a Big Day Sunday

Members of Corinth Baptist church—just off the highway between Cisco and Eastland—are all set for a big day Sunday with an Easter and general church celebration that starts at 10:30 in the morning, continues through the day and winds up with a night service at 8 o'clock.

Probably the most outstanding feature of the day will come at 4:55 in the afternoon with ground-breaking ceremonies preparatory to starting the erection of a handsome new church near the present church building, which is approximately 50 years old. Corinth church was organized about 1893 and has been a popular gathering place for Baptists and other Christians of the Cisco Country from that time until now.

Following Sunday school at 10:30 and the preaching service at 11:30, dinner will be served on the grounds to church members and visiting friends.

The afternoon services will begin promptly at 3 o'clock, with an invocation by John Hart and words of welcome to visitors by the pastor, Rev. J. P. Baker. Greetings from the Baptist association and a short history of the church will be given by Rev. H. D. Blair, missionary from the Cisco association.

Songs and special music will intersperse the program and at 4 o'clock the principal address of the day will be made by Dr. Rupert N. Richardson, newly elected president of Hardin-Simmons University, Abilene.

At 4:35 the speaker will be Rev. Elbert Galloway, a former pastor, and his talk will be followed by the ground-breaking ceremonies and the benediction by Rev. Arthur Johnson of Cisco.

Later in the afternoon there will be an egg hunt for the children and an hour of fellowship for the elders.

## Oil Industry Can Achieve Wonders Minus Handicaps

LOS ANGELES, March 30.—If the world is to reap the benefits of petroleum after the war, the way must be cleared and kept clear to produce, process, transport and distribute it, William R. Boyd, Jr., says.

"Artificial barriers must not be erected by governments to prevent men from seeking petroleum wherever it may be found and from profiting from their discoveries," Boyd, president of the American Petroleum Institute and chairman of the Petroleum Industry War Council, told West Coast oil men.

He termed hydrocarbon chemistry "the outstanding achievement of modern science" from which many new industries will spring up in this country after the war.

"The various processes which take petroleum apart and put it back together in new and vastly improved forms literally have leaped from the laboratory to fullscale operations overnight," Boyd added.

"Science is reshaping the petroleum molecule, one of nature's greatest sources of mobile energy. The petroleum scientist insists he is merely standing on the threshold of what he believes is capable of accomplishment and the ultimate place in our lives of this new science is beyond the comprehension of any of us."

WASHINGTON, March 30.—Approximately 500,000 electric irons will be produced in the second quarter of this year, the WPB estimated today. This compares with a 1944 production of 800,000 irons.

## Legislature May Force State Into Deficit Column

AUSTIN, March 30.—By a vote of 112 to 5 the house yesterday afternoon tabled a resolution to adjourn sine die on May 1, amid shouts and laughter.

But in Governor Stevenson's office there was a serious discussion over the impending appropriations of millions of dollars.

It was the opinion of Rep. Joe Humphreys, Abilene, that the longer the legislature remains in session the greater will be the spending spree, and so he introduced the adjournment resolution.

May 8 marks the end of the 120-day regular session, after which members drop down to a \$5 a day basis.

The governor, for the first time this session, expressed alarm over the financial route the legislature is taking, saying it already had passed appropriations of \$20,000,000 in excess of the record two years ago, with five major appropriation measures still to be passed.

If the present stride is continued, Stevenson said, the state will soon be forced to go on a deficit again, even before adjournment.

HOLLYWOOD, Cal., March 30. Barney Oldfield, the bicycle racer who graduated to automobiles and became "the world's speed king," has reached his 67th birthday.

## FIRST ARMY TANKS TRAVELED NORTH SO FAST THAT CONTACT WAS LOST WITH HEADQUARTERS

PARIS, March 30.—First Army tanks shearing the Ruhr from Germany streaked northward so fast today that contact was lost with headquarters in the rear, but the broadcast enemy communique said some armor had reached Bad Wildungen, 20 miles southeast of Kassel and 186 from Berlin. It was the swiftest advance of the war.

Lt. Gen. Hodges' powerful forces were driving past the headquarters of the Ruhr toward a junction with the 21st army group, swinging across Westphalia on the open roads of north Germany.

The last definitely pinpointed position reached by the First army in the rush northward was ten miles south of Paderborn. Here the First was 65 miles from the British and also 186 miles from Berlin. Both distances have been reduced appreciably in intervening hours.

Disintegration accelerated in German ranks. At least 34,666 Nazis surrendered yesterday, 22,400 to the Third army, 11,266 to the First and 1,000 to the British.

Two great cities of Germany—Frankfurt on the Main and Mannheim fell.

The British Second and U. S. Ninth armies, driving rapidly ahead in the north in a continuing security blackout, advanced at least ten more miles overnight on roads to the northeast that might lead to or cut off such great north German port cities as Hamburg, Bremen and Wilhelmshaven.

Gen. Eisenhower has said the loss of the Ruhr would leave Germany incapable of continuing organized resistance long. The greatest mass of German troops left in western Europe was being swiftly encircled in the trap fashioned by the First army and the 21st army group on the north.

Third army tanks captured Lauterbach and entered Bersteln, both 30 miles east of Giessen and within 237 miles of Russian lines, 135 of Leipzig and less than 100 of Czechoslovakia.

Radio Luxembourg said Patton's men were racing into the Thuringian Forests on the road to Eisenach, 155 miles southwest of Berlin and 90 miles west of Leipzig.

First army infantry was moving in swiftly behind the armored spearheads and cleaning up bypassed pockets of small groups, which either put up only feeble resistance or gave up without a fight.

The German air force yesterday made its first appearance over the First army front since the attack opened. The planes strafed and bombed.

In driving north, Hodges' men have captured two German trains, a plane factory, 12 planes and great quantities of material and other equipment which the Germans were unable to salvage before the tide engulfed them. Huge stores of ammunition are being found in woods along roads.

## Former Principal of Cisco Schools Wins Nice Honor

Rupert N. Richardson, principal of Cisco public schools about 1916, who has been acting president of Hardin-Simmons university, Abilene, since June, 1943, was elected president of Hardin-Simmons yesterday.

Mr. Richardson, who was a popular school principal here, and who has addressed Cisco First Baptist church audiences on several occasions in more recent years, is pleasantly remembered by W. Frank Walker, who was a member of Cisco school board during Richardson's service as principal. Mr. Richardson, by the way, will speak at Corinth church Easter and anniversary services, near Cisco, Sunday afternoon.

## JAP PEACE RUMORS

PARIS, March 30.—Japan has started putting forth peace feelers through European channels, according to information today which under censorship regulations can be described only as "rumors."

FAVORITES of the crowd at New York figure skating tournament are H. A. Jenkins and sister Nancy Sue of Akron, O., who get most applause as they go into their fancy paces. They are youngest contestants to enter Junior Pairs event.

### BREAD AND FINGERPRINTS.

It is not only interesting, but highly satisfying, for Americans these days to read the w. news from Cologne and adjacent regions. Instead of the supermen who were lately rejoicing in the seemingly successful crime of the Hitler gangsters, there are only thousands of Germans standing patiently in the lines of the American-occupied area, "waiting to sign registration blanks and be fingerprinted."

So have the mighty fallen. And their greatest fear, says a correspondent, is that Hitler and his outfit will turn military weapons against them, as punishment for yielding to the Allies.

Doubtless there will still be

bitter fighting and delay in many areas. The Nazi leaders, like McBeth, are now "sunk so deep in crime" that apparently they must now continue their evil war as long as they have power to fight.

But the rank and file of the German armies will hardly continue a hopeless fight. Most of them may fall away as soon as they can safely do so, and find their way home to see how their families have fared, and seek jobs or tackle their spring plowing.

Lucky will they be if, after all their great adventures and visions of world power, they can find food to eat, or grain to sow, or tools for working. The Nazi new deal plague has stripped their country bare, and they must start all over again with only what they can beg from their conquerors.

### OLD DAYS RETURNING?

In 1895, writes Ray Stannard Baker in his new volume, "American Chronicle," six automobiles entered a 53 and one-half mile endurance test at Chicago. Only two finished, and the winning car averaged only five and one-fourth miles an hour.

With cars wearing out fast and no replacements in sight, those days may yet return. Motorists need to take care of their cars.

### SPORTS FOR HUNS.

As the Allies overrun the territory of our enemies, the personal attitude of our troops becomes very important. The military commanders will doubtless have the situation pretty well in hand, but there is no harm in putting in our two cents' worth of advice about fraternizing.

The natural tendency of Americans, who are a sporting race, is not only to let up when the other fellow is licked, but to treat him as if we thought the whole operation, including his part in it, was just nice, clean fun. But the German Hun doesn't fight that way, and seldom understands sportsmanship, especially in the Nazi regime. Again and again in this war, British and American fighters have yielded to their natural instincts of decency and been sadly disillusioned.

The difference comes to a large extent from the fact that the Germans in general have seldom been brought up in athletic games which teach sportsmanship, as is the case in England and America. Perhaps the best thing that could be done for their salvation would be to teach them, all baseball and football.

**MORE ABOUT THE SAME THING**

The abstract, contrary to a rather general opinion, does not cure the title, but rather reveals its condition, good or bad. Three things are strived for in the abstract. (1) To locate the property by field notes and plats. (2) To discover the true ownership as the records may reveal it. (3) To detect the liens and encumbrances, if any. The abstract serves many other useful purposes, but these three are most important.

IT'S ALL IN THE WAY YOU LOOK AT IT!

(The lines above may look like a mystic maze. But if you close one eye and tilt this page to the position shown, you can easily read four familiar words.)

Maybe you won't thank us for reminding you of the H C of L. But it doesn't seem nearly so high when you look at it in the light of your electric bill!

Almost alone among household necessities, the price of electricity has not spiraled upward with war. In fact, official government figures show that the average price of electricity has actually dropped 3.2% since 1939!

That's especially good news now, but it continues a long-time trend. Electric prices have been coming down so steadily that the average American family gets about twice

as much electricity for its money as it did 15 years ago.

If your bill is no smaller, it's because you're using more electricity to do more than you did then. But the saving is there.

It has been accomplished by American and power companies in spite of risks and taxes—on top of tremendous demands for electric service that wait without delay, shortage or rationing.

It was done by efficiency of expert and sound business management—the same American enterprise which built our nation and on which its future depends.
