## Cisco Man Helped Win a Basketball Tournament, Italy

The Daily Press today received a communication and photo from the public relations office of the Fifteenth Air Service Command in Italy, the photo showing a quintet of Americans dressed in basketball attire. A Ciscoan, Capt. Coleman Williams, who plays center, was one of the quintet.

Said the communication: "Whether it is in a college gymnasium or a bombed-out hangar, Americans are going to play ball. War, with all its disruption, can not alter this American tradition—it can only change the setting for the game."

"Playing in a rebuilt hangar court, a group composed of mechanics, truck drivers and engineers won the American League Basketball championship in a local tournament here. The winning team was composed of men from a depot repair squadron. These men have been overseas for 20 months. Here are their names: Master Sgt. Noble F. Hunt, Evansville, Ind.; Capt. Thomas C. Williams, Cisco, Tex.; Corp. Keith C. Brown, Clearfield, Utah; Corp. Franklin S. Drake, Fairbanks, Ind.; Pfc. Don McCoy, Casper, Wyo.; Pfc. Anthony Richiella, New Orleans; Sgt. Howard Green, Kaysville, Utah."

## Lions Give Soft Ball Bleacher Stands to School

Dispatch of business matters and presentation of a picture on United China Relief were highlights of Wednesday's Lion luncheon program, with decision to pick up used clothing and scrap paper at 5 p. m. each Thursday instead of Friday and thus avoid the regular weekly rains, which seem to come on Fridays.

President Carlos Turner announced that the soft ball bleacher stands, donated to Grammar school by the Lions, had been moved and set up on Grammar school grounds. He added that the former soft ball field should be sodded immediately. It was voted to authorize Charles S. Sandier to sell the 13 lots comprising the soft ball field for \$500.

Emphasizing the lack of attendance during the past few meetings, the president appointed certain members to contact absentees and see that they attend next week.

President Turner also read an announcement from D. A. Skein, president of Lions International, to the effect that the association would have a consultant at the San Francisco conference and requested that Lions everywhere direct their prayers for God's guidance for those who are to participate in the momentous council for peace.

The educational picture, shown by Lion Arlin Bint, emphasized customs of the people of China and conditions under which they lived. It also showed antiquated machines existing in that backward land.

### REAL PIONEER DIES.

SWEETWATER, April 26.—Judge H. C. Hord, 89, one of the few remaining bonifide "pioneers" of West Texas, died in the Sweetwater hospital at 7:30 a. m. today after a long period of ill health. Born in Kentucky, Feb. 17, 1856, Judge Hord literally grew up in West Texas. He voted in the election which organized Nolan county, 64 years ago and was on a train held up by the Sam Bass gang, north of Dallas in 1878.

## Grantham Heads Cisco Veterans of Foreign Wars

In ceremonies conducted by officers of Abilene Post No. 2012 and witnessed by an attendance of 41, Cisco Post No. 3359, Veterans of Foreign Wars, Thursday night installed a new slate of officers, headed by R. E. Grantham as commander.

The services were held in the roof garden of Laguna hotel, where a dinner was served consisting of barbecued chicken, coffee, buns, salad, pickles and fresh onions.

E. L. Daffern, retiring commander, called the meeting to order and turned the gavel over to Past Commander John Owens of the Abilene post, who presided at the initiation of two new members of the Cisco post, Ben F. Bird of Abilene serving as officer of the day. The new members are Herman Boggs and C. A. Thacker.

C. H. Credico, Bert E. Booth and Clifford L. Thomas, new overseas with the armed forces, were made members by proxy. Past Commander Owens explained that any service man of the present war wishing to join a VFW post can do so by sending in his request or by having some one present his application by proxy. Cisco post has several members overseas who joined VFW and designated Cisco as their home post.

T. C. Anderson of Abilene, as installing officer, directed the Abilene officers in installing Mr. Grantham and the following other officers: Roy Pippen, senior vice commander; A. L. Gattis, junior vice commander; A. L. Clark, quartermaster-adjutant; J. T. Eggen, service officer.

Joe Bryan, a representative of the Veterans' administration, with officers in the Alexander building, Abilene, was present and cordially offered his services to all service men.

Other VFW members were present from Moran, DeLeon, Eastland, Carbon and Abilene.

## World-Wide Monroe Doctrine Is Best Peace Plan

AUSTIN, April 26.—Adoption of a Monroe Doctrine of world-wide application backed up by large armed forces is the only way peace will be maintained, no matter what agreement is reached by delegates at the security conference in San Francisco, Senator Allan Shivers declared Wednesday in a personal privilege speech before the state senate.

"We and our allies must maintain our navies and armies so that we can say to any aggressor nation that we will join in conflict with them immediately should they attempt to violate the peace," Shivers declared.

The senator, who only recently doffed the uniform of a major, spoke for adoption of a world-wide Monroe Doctrine or a series of them.

"I do not know on what basis the San Francisco conference delegates will attempt to solve the problem, but I do say they must apply something like the Monroe Doctrine to the entire world."

"Let England be responsible for a certain area of the world, Russia another and the United States look after our responsibilities in the Pacific and elsewhere. And if we maintain sufficient force we can all say to any nation that they dare not even take the first step toward repudiating agreements or waging war."

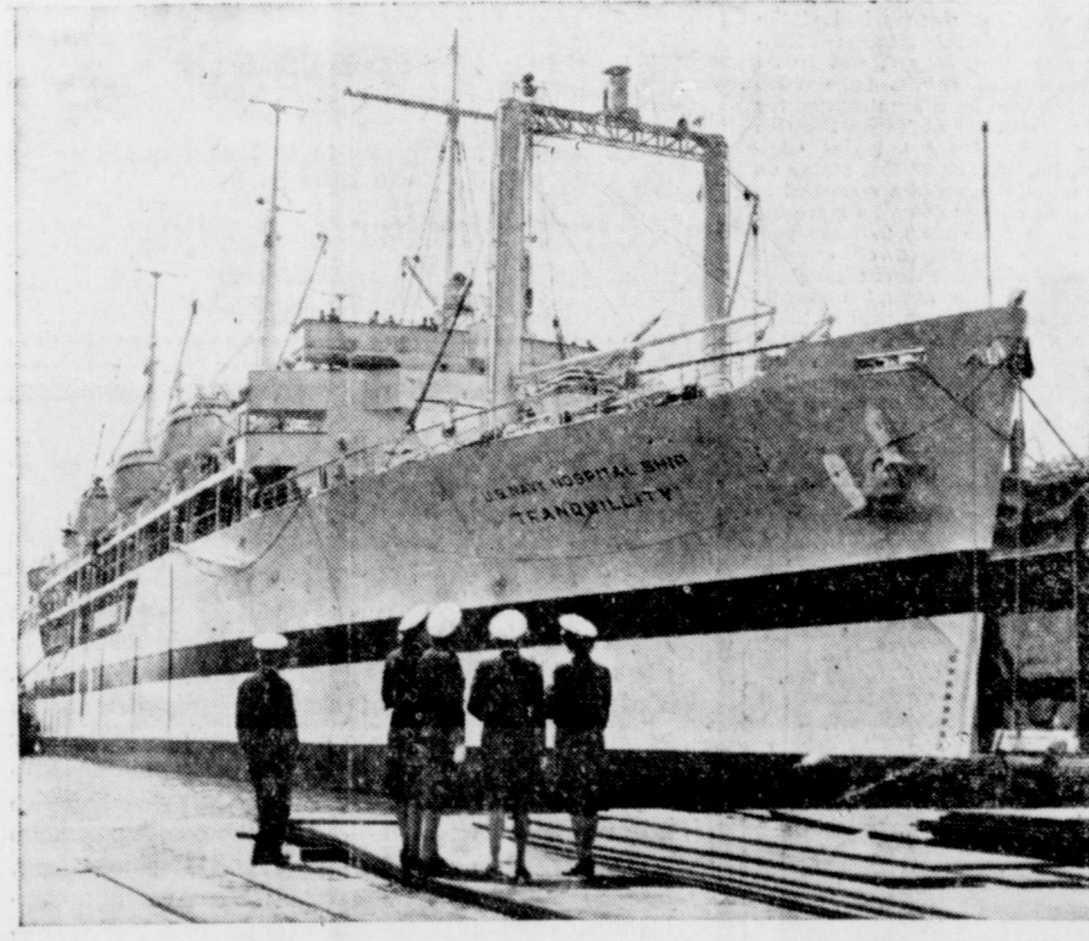

"Recognizing our Monroe Doctrine, no nation has ever attempted to infringe upon our rights. They knew we would go to war as soon as they did."

OKINAWA SAFARI—Native pony is used as pack horse to carry vital radio equipment for Marine communications crews on Okinawa. Men are crossing Ryukyus Island to establish telephone lines for contact with rear areas. Operation goes on as assault troops enlarge their beachhead.

HITLER'S YOUTH—Still arrogant in belief that der Fuehrer will win the war, these Nazis ranging in age from 14 to 15, raise their arms indifferently. Bad boys were brought in and are guarded by Pvt. Herbert Norman, Farmville, N. C., with 194th Glider Regiment, U. S. 1st Army.

USS TRANQUILITY, first of six air-conditioned Navy hospital ships, is ready to join the mercy fleet. The 15,000-ton vessel, with speed of 17 1/2 knots is docked at the Atlantic Basin in New York. In the foreground nurses and officer assigned to the ship look her over.

### READY TO RUN.

LONDON, April 26.—Russian forces overrunning Tempelhof airfield in encircled Berlin today captured planes with warmed-up motors, Moscow reported, apparently nipping plans for a last minute flight of Nazi leaders

and dooming them to death or capture.

### FOUR FLIERS KILLED.

BIG SPRING, April 26.—Four fliers were killed and another injured in the crash of a training plane from the Big Spring bombardier school Tuesday night.

None of the fliers was from Texas.

Ten-in-one, the best liked ration in the army is now made in Dallas. Not a gadget, but field rations that provide food for ten men for a day in one handy package.

## GERMAN TROOPS AND MACHINES MASSING AT PASSAU, 11 MILES FROM GENERAL PATTON'S TANKS

PARIS, April 26.—American armies closed within 36 miles of Munich on the north and north-west today and sent tanks thundering down the Danube valley within 11 miles of Austria and 90 of a junction with the Russians which would encircle Czechoslovakia.

On the Elbe to the north, a meeting of the Ninth army and the Russians who encircled Berlin appeared very close for Red army shells were falling near that river in the Arneburg area, 48 miles northwest of the dying capital of Nazidom. The First army and the Russians were last reported 18 miles apart in the center.

The British have captured Bremen, largest German submarine center.

Gen. Patton's Third army was closest to Austria and across the Danube at a point 38 miles north of Munich beyond hopelessly outflanked and bypassed Regensburg. Lt. Gen. Patch's Seventh army threatening Augsburg was the same distance to the northwest.

Hitler's ruined roost at Berchtesgaden was barely 70 miles from Third army troops in the Danube valley. The three-army assault upon the Nazis' Alpine redoubt in the south was up to or across the Danube on a 180-mile front.

German resistance, however, was stiffening. Pilots saw German troops and machines massing at Passau on the Austrian border for a supreme defense of that Danubian road center, 11 miles from Patton's tanks.

## Two Mighty Red Armies Encircle German Capital

LONDON, April 26.—Victorious Red army troops, driving from all sides battled Germans at the center of flaming Berlin today, Soviet front dispatches said.

"Men of the Red army today are fighting in the heart of the German capital," said a Tass story datelined "Berlin."

The dispatches gave no details, but probably referred to the vicinity of the Alexanderplatz, the center of the capital's business district. Earlier Nazi broadcasts said the Russians were storming the Alexanderplatz police and gestapo headquarters, about a half-mile from the eastern end of Unter Den Linden.

Two mighty Soviet armies had completed the encirclement of the city and Russian elements were closing in from the west, in the rear of the hard pressed defenders.

Continuing to promise reinforcements, Nazi propagandists still had not admitted to Berliners that their city was completely ringed.

## Woman Says Clear Closets of All Castoff Clothing

J. W. Slaughter, Rotary president, has received a circular letter from Rotary International emphasizing the need of all-out efforts to secure every pound of used clothing possible for needy Europeans. The drive ends April 30.

The circular quotes from a California woman, who wrote to Henry J. Kaiser, national chairman of the campaign, as follows:

"You must extract, by force of public opinion, all those pet white elephants that are gathering moths in the nation's closets. Make them sweep their cupboards clean. There will be tears and lamentations, it is true, but women love to shed tears and cry out in agony if everybody else is doing it too."

"Imagine the delight of a clothes closet positively clean of everything but today's clothes! Imagine sudden release from all that grubby altering and fixing that's been hanging over one's head like a dead fish. Gone, gone in one fell swoop!"

### CONNALLY PROMINENT.

SAN FRANCISCO, April 26.—Senator Tom Connally, a Texan who believes in force against outlaws, emerged today as America's spokesman in shaping powers of the proposed world security council. The veteran Democrat, who is chairman of the Senate foreign relations committee, was chosen as American representative on the group which will pass on powers of the 11-member council.

### COMPETENT OFFICER.

CHICAGO, April 26.—When Policeman Charles Kallender, patrolling his beat along east 43rd street heard a woman calling "police" from an apartment window, he tapped his service pistol and a few minutes later delivered a seven pound boy to Mrs. Theodora Pedroza, 22. Dr. Sol A. Sugar later said the condition of both mother and child was excellent.

## Two Ranger High School Students Make AI Records

Ronald Pruet, son of Mr. and Mrs. C. B. Pruet and Carolyn Ducker, daughter of Mr. and Mrs. John Ducker, have been named top honor students in the 1945 graduating class of Ranger high school, says the Ranger Times.

Pruet is valedictorian with an average of 97 for the four years work and Miss Ducker is salutatorian with an average of 95 plus for the four years work. Each will speak at commencement exercises, Pruet speaking on Tomorrow's America and Miss Ducker speaking on Everybody's World.

Aside from their studies the two have taken an active part in student activity. Pruet was one of the outstanding football players, vice-president of the student body, business manager of the school annual and in the cast of the senior play. Miss Ducker was secretary of the student body, assistant business manager of the annual, a member of the senior play cast and winner of second place in the district extemporaneous speaking contest held recently.

Miss Ducker is a granddaughter of Mrs. J. M. Williamson of Cisco.

### LESS MEAT IN MAY.

WASHINGTON, April 26.—Civilians will get even less meat next month—and they'll have to give up red points for all kinds except mutton. In addition, margarine and most cheeses will cost more points, as will some meats. Announcing new point values today, OPA estimated that 99 1-2 percent of the available meat supply will require ration points. This compares with 94 1-2 percent now.

## DIRECTNESS.

The most engaging thing about President Truman, perhaps, is his directness. He seems to know what he wants, and goes after it and gets it.

His little bout with Premier Stalin the other day was a good example. When he had been inaugurated, a call came from Moscow asking what Stalin could do for him. The prompt reply was, "Send Molotov to San Francisco." That was a little more than the Russian dictator had figured on. He stalled a little while, but the president persisted, and Stalin finally gave up. "All right," he said. "Molotov will go."

It would be just too bad, though, if this custom were to spread, and everybody would start making demands on everybody else, and being stubborn about it.

## BROKEN CZECHS.

A story almost as terrible as those of the German prison camps, where allied soldiers were starved and mistreated, has come from men of the U. S. Ninth Division pushing their way into Czechoslovakia. They found a brave and gallant people so broken by six years of oppression that, as one soldier said, "It's a terrible thing to see how these Czechs are afraid to be seen talking to us in front of Kraut prisoners."

It was all the more saddening to the Americans because they had crossed the border gleefully, their jackets laden with candy and cigarettes, happy to be in "frut-

ernizing country" once more. They all felt, as a Texas rifleman expressed it, that "It'll be good to be nice again." And then they couldn't be. They couldn't even get rid of the candy, unless they left it before closed doors.

They understood what the trouble was, that the Czechs were apparently afraid of German or Soviet reprisals, but it grieved them. And if made them more enraged than ever at the Nazis, whose "culture" could so destroy the spirit of a country so peace-loving, yet so sturdy and independent as that of the Czechs.

## CONAN DOYLE.

Colleges are supposed to be highbrow, and detective stories to be lowbrow. Yet the library of Haverford College, Pa., is exhibiting a collection of books and manuscripts about Sherlock Holmes.

Although Conan Doyle, creator of the famous detective, has been dead for many years, his work lingers on. The United States has several Sherlock Holmes societies, which go over the stories almost line by line and publish astonishing discoveries. One was that Dr. Watson, Holmes' always astonished chronicler, was a woman, another that Holmes himself had an unrequited passion for Irene Adler, the one woman who foiled his professional investigations.

Few persons living or dead are so well known as Sherlock Holmes. So much has been written about him that future students may decide that he really lived. Some believe it now.

If added years have slowed down your vim, vitality and youthful pleasures, here is a simple, inexpensive method that may change your whole outlook on life. Why not try and regain the pleasures of living you once enjoyed. Why be discouraged—why not regain the verve and zest of a much younger man?

**FIRST DAY OF SCHOOL**

When the San Francisco Conference ends, the delegates will have experienced their "first day of school" for the study of the complex problems of world peace, and for the development of a curriculum for a permanent school.

Everyone everywhere should clearly understand that this Conference is the most important international meeting in history.

We can be thankful that our nation is represented by wise and experienced statesmen with a sincere desire for peace, and we are sure the other nations have the same type of representation.

The Conference will furnish the leadership and the plan, but peace depends upon the peoples of the United Nations—upon their will to peace, upon their sacrifice for peace, upon their works of peace.

The difficulties are enormous, some of the problems cannot be solved immediately, and compromises will be made by all nations in order to arrive at conclusions that will be fair to all countries.

The Conference cannot create an enduring peace. But it will lay the foundations for a plan for peace to be put into effect as soon as possible, and which we and future generations of the world must maintain.

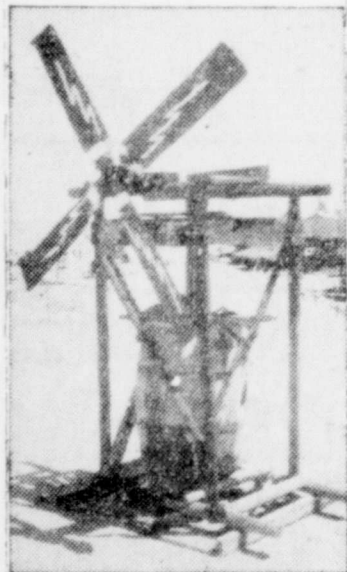

Let us be sparing in our criticism and generous with our encouragement and constructive suggestions.

And above all let us pray that the thinking people of the world will take advantage of the opportunity afforded by the "first day of school" and build continuously toward an enduring peace.

**THEY'VE GIVEN ALL BUT LIFE ITSELF!**

**WHAT CAN YOU SPARE THAT THEY CAN WEAR?**

Over the ravaged ground of war-torn Europe, trudge 125 million men, women, and children who have given all but life itself toward the same permanent peace we all are striving for.

Their need for clothing is as great as that for food—in some areas deaths from exposure equal those from starvation.

These people need something you don't. They need your spare clothing.

150 million pounds must be collected this month. Will you give your share?

**What YOU Can Do!**

1. Get together all the serviceable used summer and winter clothing you can spare. This includes: Men's, women's, children's, and infants' wear, and shoes. Overcoats, topcoats, suits, dresses, shirts, jackets, pants, skirts, work clothes, gloves, underwear, sleeping garments, robes, sweaters, shawls, and all knit goods. Also blankets, bedclothes.
2. Take your contribution to your local COLLECTIONS DEPT. now or arrange to have your LOCAL COMMITTEE collect it before April 30th.
3. Support your Local Committee not only with your clothing contribution but also with your time, effort, and energy.
