## Lake Cisco Swimming Pools Open at Noon Friday

After a period of thorough cleaning, washing and repairs, Lake Cisco Amusement company will open its big swimming pools at Lake Cisco Friday afternoon for the summer season, says W. J. Foxworth, manager.

Through the generous cooperation of the Cisco volunteer fire department, the big concrete pools have been completely cleaned and are now being filled with fresh water in preparation for the opening Friday. For the time being, and until hot weather arrives, the pools will be open only during afternoons and evenings. Later they will also be open mornings.

The city, meanwhile, is putting the large picnic parks adjoining the pools in good condition, cleaning the grounds, whitewashing the trees, repairing tables, benches and barbecue pits. These grounds are free to the public use. The seats at the swimming pool are also being repaired.

Concessions at the lake include skating, where lovers of this sport may follow it in the big pavilion rink upstairs, cold drinks and hamburgers. Ice cream will be added later.

## Junior Dairy Herd Improvement Association Formed

A Junior Dairy Herd Improvement association has been formed among Eastland county 4-H club boys, with 21 charter members, William Brigham, emergency war food assistant, said today.

The function of the new organization is to weigh the milk twice daily, and in turn run a butterfat test once a month on each cow in production. This record is to be kept during all months of the lactation period.

The total of each cow's monthly butterfat record will be summed at the end of each lactation period to get the amount of butterfat produced. And in turn each club boy in this organization will learn to operate a butterfat testing machine. Also to run test on butterfat. The club boy who has the highest producing cow in butterfat during the lactation period will receive a registered Jersey bull calf for his achievement.

This organization, said Mr. Brigham, is for the purpose of encouraging better methods of feeding and to improve the methods of dairying in Eastland county.

## McDonnell of Cisco Makes Record as Pilot of a C-47

SANTA MONICA, Calif., May 2.—The "blood and thunder" exploits of cinema's "Cisco Kid" has nothing on the real life thrills of Capt. Charles McDonnell, husband of Mrs. Charles McDonnell, Cisco, Texas.

Capt. McDonnell, a C-47 pilot in the CBI theater, is now at AAF redistribution station No. 3, Santa Monica, for processing and re-assignment.

One day while letting down on instruments going through a mountain pass another C-47 let down on the plane McDonnell was piloting, cutting a deep hole in the top of the fuselage and knocking off the rudder.

The plane was still able to fly, so he immediately started for his home base while the radio operator and co-pilot gave first aid to those of the 29 passengers injured by flying bits of metal in the cabin.

Upon arriving at the base they found they had no radio contact, so they sent up a red flare to designate an emergency landing. Before landing, all excess weight was thrown overboard and, lacking rudder control, McDonnell made a long approach. As soon as his wheels touched the runway he used his brakes to keep the plane straight. McDonnell says: "I believe that was the best landing I ever made. By the will of God no one was seriously hurt, but I lost plenty of weight 'sweating it out'."

McDonnell has been awarded the DFC with three oak leaf clusters, the air medal with five oak leaf clusters and the Burma campaign star on the Asiatic Pacific ribbon in recognition of his 25 combat missions.

### WEENDE PROMOTED.

**FORT SAM HOUSTON, Tex.**—The promotion of Bernard W. C. Wende to the grade of sergeant has been announced by his commanding officer. His home is in Cisco, Tex., and he is the son of Mrs. Ida Wende, route two, Cisco. Sergeant Wende is with the prisoner camp here.

### SOVIETS MOPPING UP.

**LONDON, May 2.**—Soviet shock troops closed in on Hitler's reich chancellery and other final nests of resistance in Berlin today and a Paris broadcast said without confirmation that the Red Army flag already flew from the chancellery — by Nazi account the deathplace of the infamous Fuehrer.

Face powder may catch a man but it takes baking powder to hold him.

## Johnnie Courtney Was Bitten By a Rattler Tuesday

Johnnie Courtney, 17-year-old son of Mr. and Mrs. J. H. Courtney, was bitten by a rattlesnake Tuesday morning while at work on the Glenn Callaway farm, twelve miles north of Cisco.

The father of the boy, using his pocket knife, gave first aid by lancing the right ankle where the reptile's fangs had entered, after which the victim was rushed to Cisco for medical treatment. He is recovering nicely and will suffer no ill effects from the incident, the father told the Daily Press this morning.

Mr. Courtney, Glenn Callaway, Johnnie Courtney and a younger brother were repairing a fence where grass and weeds growth was heavy. It is thought they had stepped over and very near the rattler several times while at their work. However, the snake made no attempt to strike until the boy stepped on it, but acted instantly then.

After the reptile had been killed it was found to have eight rattles and a button and measured three feet in length.

## Lynn Foreman, 74 Who Left Here 25 Years Ago, Dies

Lynn Foreman, 74, brother of Mrs. Lula Paschall, died in Crescent City, Calif., Monday.

The former Ciscoan, who left here about 25 years ago, sustained a broken hip from a fall more than a year ago and had been confined to a hospital since that time.

Deceased was the father of Mrs. Ruby Pearl Ghormley of Austin and a son, Luther Foreman, lives in Odessa. A brother, W. C. Foreman, lives in Fort Worth. The news was received here by Mrs. Paschall.

## Texas House Asks Premarital Test For All Women

**AUSTIN, May 2.**—Women as well as men would have to be declared free of syphilis by a doctor before they obtain a marriage license in Texas under a bill approved in the house.

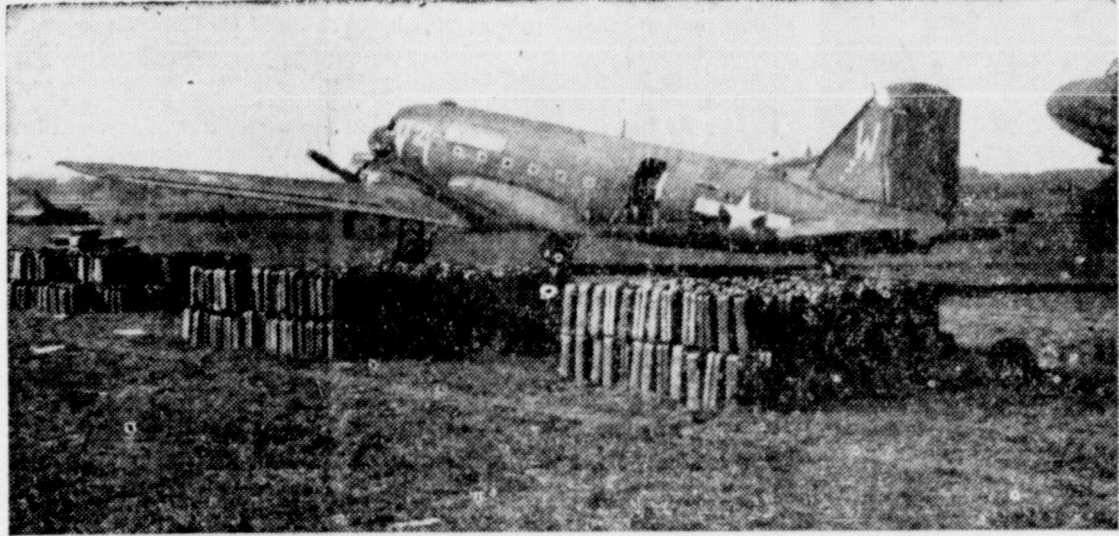

The bill was engrossed 89 to 32 but it failed to muster the necessary four-fifths vote to suspend rules for immediate final passage. Representative George Parkhouse of Dallas and Houston McMurray of Henrietta are its cosponsors. They also have a bill for prenatal examination of expectant mothers.

Before engrossing the bill, the house deleted a section which Parkhouse said was designed to exempt Christian Science Church members from the requirement for serologic tests.

Parkhouse said examinations can be made either by private doctors or public health doctors. A fine of \$200 to \$500 could be assessed against anyone who violates the law, including the county clerk issuing a license or the person performing the marriage ceremony.

### GOT THE WORKS.

**FT. WORTH, May 2.**—In 10 cases in county and district courts, Nelson Harris, operator of Nelson's Place, 2238 Northwest Highway, was fined \$1,000 for liquor law violations, had his liquor license suspended for 30 days and was enjoined permanently from selling alcoholic beverages unless operating under \$1,000 bond.

**DOUBLE DUTY**—After delivering large loads of gasoline to U.S. 3rd Army forces, C-47 transport is in position for another take-off. On return trip, plane will carry either casualties or Allies liberated from German prisoner-of-war camps. Piles of "Jerricans" are in foreground.

**THE MORNING AFTER**—War has passed over Hannover and citizens have emerged from their hiding places. They are salvaging whatever goods they can find from damaged homes. Until American authorities enforced order, there was much looting. Here people use bicycles for traveling.

## Ranger Jr. College Coronation Friday at 8 P. M.

**RANGER, May 2.**—Highlighting the social life of Ranger Junior college for 1944-1945 will be the crowning of the queen Friday evening at 8 o'clock in the Recreation building.

Many high schools, colleges and universities are sending a duke and duchess for the coronation. An orchestra from Camp Wolters will furnish the music and a number of service men will participate in the coronation.

No one knows who the queen is except the class sponsor, Virginia Williams, and this will be kept a secret until Friday night, when the crown will be placed on the queen by Dr. G. C. Boswell, president.

After the coronation ceremony the college and visiting schools will participate in a dance.

## 25 Divisions of Northern Italy Nazis Surrender

**ROME, May 2.**—The German armies in northern Italy surrendered unconditionally today.

Some 25 divisions — or remnants thereof of the German Tenth and 14th armies — were involved. Of these, more than 120,000 had surrendered in the campaign in northern Italy during the last week or so.

(The captured Italian marshal, Rodolfo Graziani, ordered the surrender of the Ligurian army of Mussolini's Fascist Italy yesterday).

### SCHOOL FUND PAYMENT.

**AUSTIN, May 2.**—With the release of warrants representing payment of \$2 per capita on apportionment of the state available school fund on 1,498,491 scholastics, \$21 has been applied to the current \$25 apportionment. Another \$2 will be paid on or about June 15.

### WANT MORE WELLS.

**WASHINGTON, May 2.**—The Petroleum Administration for war has asked the drilling of 7,200 oil wells in the third quarter of the year.

## IF HITLER IS ACTUALLY DEAD THEN FANATICAL ADMIRAL WAS PROBABLY CHOSEN BY FUEHRER

**LONDON, May 2.**—Grand Admiral Karl Doenitz, ruthless fanatic who has assumed command of the blasted German army's ragtag remnants, loomed today as a possible monkey wrench in the reported peace maneuvers of Heinrich Himmler.

Some statesmen looked upon his assumption of power as evidence of a split among the remaining top-ranking Nazis but it was admitted that the development was a puzzling one.

It apparently came as a distinct surprise to members of the British cabinet, who were reported to have conferred with Prime Minister Churchill until the early hours of this morning.

Speculation centered on the possibility that within what remains of Germany there may have two distinct parties — a war group as represented by Doenitz and a peace group as represented by Himmler.

But the consensus was that nothing Doenitz could do would materially affect the course of the war, and in some quarters the belief was expressed that Doenitz' rise to leadership might even indirectly hasten the peace.

If Hitler actually is dead, then Doenitz probably is the leader of the die-hard Nazis who have nothing to lose by continuing the hopeless battle. It was Doenitz, when things looked black for Germany, who preached the doctrine that "no situation is ever hopeless."

There was some feeling here that he might now attempt a last-ditch U-boat blitz against the British Isles with whatever strength he could muster from dying Germany.

The Nazis have centered devotion on Hitler. Whether Doenitz can command the same following is doubtful. But Doenitz is murderous enough to satisfy the most homicidal of Hitler's followers. It was the 53-year-old admiral who told his wolf-pack U-boat crews that their duty to the fatherland was to "kill, kill, kill!"

## Allies Swarming Into The Last German Pockets

**PARIS, May 2.**—Allied armies raced south and north Wednesday into the last German pockets in the closing campaign for victory.

General Patton's U.S. 3rd Army drove down the last 30 miles toward Salzburg and the last 44 toward Berchtesgaden after capturing Hitler's Austrian birthplace of Braunau. Other of his troops advanced at least 25 miles into Austria to within 18 miles of Linz and about 40 from the Russians west of Vienna in a maneuver to encircle Czechoslovakia.

In the north, the British bypassed Hamburg, broke German lines northeast of the Elbe and advanced to within 14 miles of Luebeck, whose capture, would split the north German pocket and seal off Denmark and Schleswig-Holstein. The tommy captured Stade, just west of besieged Hamburg and 78 miles south of the border of Denmark, which reports said the Germans were abandoning.

The nearest British approach to Luebeck was at Sandesneben, 46 miles south of Kiel and 19 northeast of outflanked Hamburg. The Elbe bridgehead was expanded westward to within 12 miles of Hamburg. The bridgehead was 30 miles wide and 22 deep at its extremes.

Supreme headquarters announced the capture in April of a million and a half Germans, including 150 generals and admirals.

## Eisenhower Says Stroke May Have Killed Hitler

**LONDON, May 2.**—Gen Dwight Eisenhower said today there was some evidence that Adolf Hitler had died of a brain hemorrhage instead of a hero's death in battle as the Nazis claimed.

The statement by Eisenhower was the first from any Allied official to shed light on the mystery of Hitler's reported death.

Eisenhower said the enemy claim that Hitler died fighting the Russians in Berlin was "in contradiction of facts" given by Heinrich Himmler at a conference with Count Folke Bernadotte of Sweden at Luebeck eight days ago.

The text of the statement authorized by Gen. Eisenhower:

"Admiral Doenitz has stated in his broadcast on the night of May 1 that Hitler met a hero's death and that he, Admiral Doenitz, was nominated by Hitler before his death as his successor both as Reich chancellor and as supreme commander of the Wehrmacht.

"In virtue of this Admiral Doenitz claims that the allegiance of the German army is now transferred from Adolf Hitler to him. "In view of these assertions by Doenitz the following information is made public:

"A meeting took place at Luebeck at 1 o'clock on the morning of April 24 between Count Bernadotte of the International Red Cross and Heinrich Himmler. At this meeting Himmler admitted Hitler was so ill that he might already be dead."

## Texas Senate Favors University Allies Swarming Into The Last German Pockets

**AUSTIN, May 2.**—By a vote of 28 to 0, the senate enacted legislation which if concurred in by the house will establish a state university for Negroes in which all subjects now offered at the University of Texas can be taught when there is a demand for such classes.

Action of the senate is in recognition of the certainty that trouble would result should Negroes seek to enter state-supported schools such as the university. Senator L. J. Sulak, author of the bill, in urging its passage, said that there are already a few applications of Negro students pending for entrance in the University of Texas.

The bill changes the name of Prairie View Normal College to Prairie View University. It first provided that courses in medicine, dentistry, pharmacy and law should be taught when there is a demand for them. The measure was amended by Senator Penrose Metcalf to provide for the teaching of all recognized courses now available by the university.

### JAPS MELT AWAY.

**GUAM, May 2.**—Lt. Gen. Simon Bolivar Buckner, Jr., whose 10th Army troops today fought within rifle range of southern Okinawa's three main cities, estimates that more than half of the island's original Japanese garrison have been killed, wounded or captured. The original Japanese garrison was believed to total about 60,000.

## A NEW LEAGUE.

Many people are not clear in their minds regarding the nature and purpose of the big conference at San Francisco. It is so important that every American should understand it. Here is a good, short explanation, from an editorial in the New York Times.

"The conference has been called for one purpose, and only one, and it will be well if we all have this fact clearly in mind at the outset, and keep it clearly in mind as events develop.

"This is not a peace conference. It will draw no boundary lines. It will consider no problem of minorities. It will weigh no claims for reparations. Its purpose is simply and exclusively to create the machinery of a new league of nations.

"This is a task great enough for any conference. The problems involved are many and complex. The rewards of success will be enormous."

## FIT PEOPLE.

Our wartime selective service, says Edward A. Pool, industrial welfare director, has found 5,000,000 of our working men handicapped mentally or physically.

He emphasizes the great need of "creating in people's minds and hearts the desire to achieve better mental and physical fitness."

It isn't as if such a situation were necessary or inevitable. Our people generally have enough to put them ahead in these respects. But they spend dollars on "vanities and superficial things" and only pennies for "personal advancement and prevention."

It might be possible, by a proper approach, to wake up millions of Americans to the greater possibilities they have in them. This is not a job for costly government agencies, as some profess to think, but one for parents, aided by the public schools of the land, through health clinics and otherwise.

## THE TRUTH.

Speaking in general, barbed wire is useful only to keep in horses and cattle and keep out enemies on the war front. But now it proves useful also to teach captive Nazis some of the facts of present-day life. Young German internees in Sweden are wisely being subjected to a course of history in which the truth is told them about the world in general, including their own race and its achievements and failures.

At first the young Nazi students

are inclined to jeer at their instruction, as propaganda and bunk. But gradually, as the instruction proceeds, they begin to learn that the bunk has been on the other side, and they are at last hearing the truth about their country and its adventures and crimes.

This procedure is obviously better than shooting or starving prisoners in the Nazi style, for eventually the enlightened ones themselves may become missionaries and convince others, and thus an incredibly ignorant generation of German youths may be civilized.

RETURNING from 11-week tour of Pacific, Martha O'Driscoll had little left in the way of clothing. GI souvenir hunters snatched the actress' garments. Here she models hand-painted bathing suit presented by sailor in Honolulu.

## June, 1925.

(Cisco Daily News Files)

R. F. Weddington of the Flying V-Bar ranch north of Cisco, shipped to Fort Worth markets Monday night twenty-eight head of four and five-year-old steers that will undoubtedly command a premium on that market today. These steers were rolling fat and most uniform in size, and Mr. Weddington stated would average around 1,300 pounds each. They were fed on cake and Johnson grass, and presented a pretty sight, as they were picked to conform as near as possible in size and weight. Most of the steers were Durham cattle and as pretty and sleek a bunch as was ever shipped to the Fort Worth market. In fact it is doubtful if that market has ever received a better shipment of fat steers than these two cars which went out last night. Mr. Weddington stated that this will make three cars of this class of steers that he has shipped to Fort Worth, and he still has two more cars ready for market in as good condition. All were grown and fattened on the Flying V-Bar ranch north of Cisco.

The plans for the bridge over Williamson dam have been completed and will be delivered to Division Highway Engineer Franklin at Eastland tomorrow, who will check these plans and deliver to the highway commission for the approval of that body. All things are being rushed for a speedy commencement of the

work on the bridge just as soon as the work on the highway No. 23 north out of Cisco advances sufficiently.

"Highland Beauty sweet potatoes will be grown in Brown and Stephens counties," said W. B. Starr while shipping out a batch of 5,000 potato plants to Brown county people. Mr. Starr stated that he had also received an order for 8,000 plants to parties living in Stephens county, and these were going forward at once. The Highland Beauty has gained quite a reputation among those who like and grow the yam. They are uniform in size and have a delicious flavor, and grow well in this section. They are the potatoes that have made the name of Starr famous in this part of Texas, as he grows them and cures the tubers in large quantities which find a ready market every year.

WASHINGTON, June 23. — President Coolidge was invited to attend the annual meeting of the West Texas chamber of commerce at Amarillo, next May. The invitation was extended by R. Q. Lee of Cisco, president of the organization, who called on Mr. Coolidge yesterday afternoon. He was accompanied to the white house by Representative Blanton of Texas. While the president expressed his appreciation of the invitation, he told Mr. Lee it was impossible to say at this time whether he would be able to attend.

**CIRCLE ONE MET IN HOWARD HOME TUESDAY.**

Circle one of First Baptist women's missionary union met Tuesday afternoon with Mrs. Kate Richardson. Mrs. Paul Poe, chairman, opened the meeting with prayer and minutes of previous meeting were read and approved. Assignments for the month was read by Mrs. Poe and an offering was made to accomplish same. Mention was made of food needed for a banquet to be given the last week in May and assignment to various members was made by the chairman.

Parts for the mission program to be presented at the church next week were passed by Mrs. E. L. Jackson.

The Bible lesson, "Paul's Second Missionary Tour," was then brought by Mrs. Richardson, as-

sisted by Mrs. Poe, Mrs. E. L. Jackson and Mrs. Ada Wheeler. The meeting closed with a chain of prayer for all in uniform of the government, the president and the San Francisco conference.

During the social hour light refreshments were passed by the hostess.

afternoon with Mrs. A. E. Jamison presiding. After the meeting had been called to order by the chairman the short business session was held, following which the afternoon program was presented. Miss Dorothy Abernathy, Mrs. P. R. Warwick and other members assisted with program parts. Eleven members were present.

# "When can I get a telephone?"

That's a frequent question from the 200,000 people who are waiting for us to give them telephone service. The best general answer we know is that it won't be soon.

As long as telephone factories must meet the demand for communications equipment in the war overseas, little equipment can be made for use here at home. Right now the telephone system is serving thousands more telephones than it was designed to serve.

And without a lot of additional equipment, there just isn't room in many telephone cables and central offices to add more telephones.

Even if the war stopped tomorrow, it would still be months before everyone now waiting could get telephone service. For it takes time to make and install telephones, wire, cable, and central office equipment, despite every effort to speed up the job. Thanks for your continued understanding.

# Billion Gallon Refinery

Humble's Baytown Refinery completed its billionth gallon of finished 100-octane aviation gasoline late in 1944, thus becoming the first plant in the world to achieve such a record. Total production of 100-octane gasoline and components at Humble's three refineries is now well over two billion gallons.

This record had its beginnings back in 1938 when Humble built the first commercial alkylation plant in the world, which process has since become the very backbone of 100-octane aviation gasoline production by the entire oil industry. And to go back even further this record is a magnificent climax to more

than a quarter of a century of development, cooperation and teamwork by Humble men and women.

This significant FIRST is one of four great wartime records accomplished by the 14,000 Humble men and women.

**FIRST** in U. S. crude oil production

**FIRST** in production of toluene for TNT

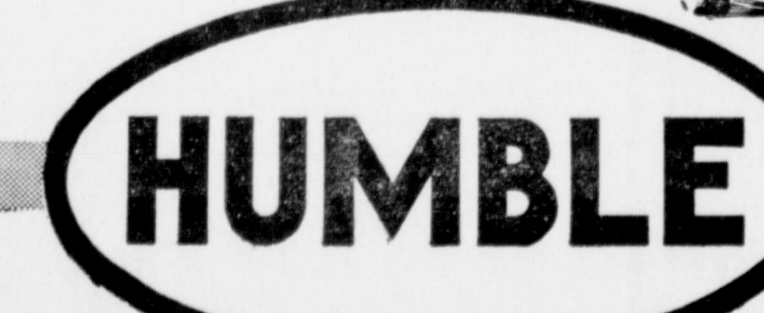

**FIRST** in transportation of oil by pipe line

From the same combination of resources, know-how and teamwork that has made these accomplishments possible come top quality Humble products for your car.

## TEXAS' QUALITY MOTOR FUELS

Into Esso-Extra and Humble Motor Fuel is built all the quality which wartime restrictions will permit. When it is again possible, these gasolines will become once more the superb fuels which have so long met with the popular approval of Texas motorists.

Look for the Humble sign whenever you buy gasoline. Behind that familiar red, white and blue oval lies the experience of a great name and a great organization.
