DELUGE OF BOMBS HIT TOKIO

Lt. Ernest Reich of Cisco Praised For Leadership

WITH 95TH INFANTRY DIVISION, Germany. — Ernest H. Reich, son of Mrs. Oscar Reich, of route two, Cisco, Texas, has been one of the first members of the 95th (Victory) Division to be appointed second lieutenant with a battlefield commission as the result of outstanding performance during the campaigns for Metz and Saarlautern.

At the outset of the 95th's historic attack on Metz the then Sergeant Reich's machine gun platoon of Company H 377th Infantry regiment and platoon sergeant, Reich's immediate assumption of command, his reorganization of the platoon and his leadership in the ensuing operations and his consistently superior conduct in combat qualified him for the battlefield commission.

DR. R. N. RICHARDSON (above) president of Howard-Simmons University, Abilene, will be the principal speaker at Cisco Junior College commencement exercises, Friday evening, 8:30 o'clock, First Presbyterian church.

Eminent Texan Is New United States Attorney General

DALLAS, May 24.—Tall, taciturn Tom C. Clark, who will replace Francis Biddle as U. S. attorney general on June 30, is the type of lawyer to which Texas bar associations like to point with pride. He is 45 years of age and native of this city.

Totally unlike the movie version of the fire-eating trust-busting prosecutor and innocent of the trial lawyer's bombast, Clark in his quiet way has an enviable record for himself in Dallas.

As an assistant district attorney under Dist. Atty. William McCraw, Clark was in charge of all civil suits to which the county of Dallas was a party and during that time, it is said he never lost a case. His professional philosophy was contained in the frequently quoted statement:

"A good lawyer doesn't file a suit unless he's sure he'll win."

Clark was an army sergeant in the first world war but never got over seas.

He is the second Texan of modern times to serve as U. S. attorney general.

The late Thomas Watt Gregory of Austin and Houston, was appointed attorney general by Woodrow Wilson in his last term and served with distinction.

John N. Preston in Cisco After 2 Years Overseas

John Newton Preston, 29, accompanied by his wife, arrived in Cisco Monday from Crane, Tex., for a short vacation after having been discharged from the army. They are guests of his parents, Mr. and Mrs. W. G. Preston, 408 east Eighteenth street. He may locate in Cisco, but has not decided positively. Before entering the service he was an employee of Glenn Furniture company.

Preston, a native of Cisco, spent two and a half years overseas and was twice wounded. He saw service with the infantry in Africa, Sicily, Italy, France and Germany and was awarded the Purple Heart.

Two sisters of Private Prescott and their families are also guests in the Preston home here — Mr. and Mrs. Ray Clements, Crane; Mr. and Mrs. Tony Johnson, Wichita Falls.

Senate Plays Politics on Highly Important Bill

AUSTIN, May 24. — Two attempts to eliminate the possibility that a bill outlawing closed union shops might be declared unconstitutional were beaten down by the senate when it refused to accept a pair of amendments.

The measure makes it unlawful for any employer to discriminate against an employee because he is not a member of a labor union. It also forbids employers retaining part of an employee's pay for labor union dues.

Provisions of the bill do not, however, apply to members of the Railway Brotherhood of America. It was said they were covered by federal legislation.

Senator Weimer, in offering an amendment, declared the measure was plainly unconstitutional and that the first court it came before would declare it such on the grounds that it is class legislation.

Weimer offered an amendment which would have made provisions of the bill apply to railroadmen if it is later found by the courts that they could not legally be barred from it.

Senator Stone, remarking that many senators and representatives would not favor the bill were railroadmen included in it, moved to table the amendment. It was tabled, 15 to 11.

A vote was then taken on a senate committee amendment which was merely a saving clause providing that should a section pertaining to elimination of the railway brotherhood membership from the bill be ruled unconstitutional, the remainder of the measure would not be invalid.

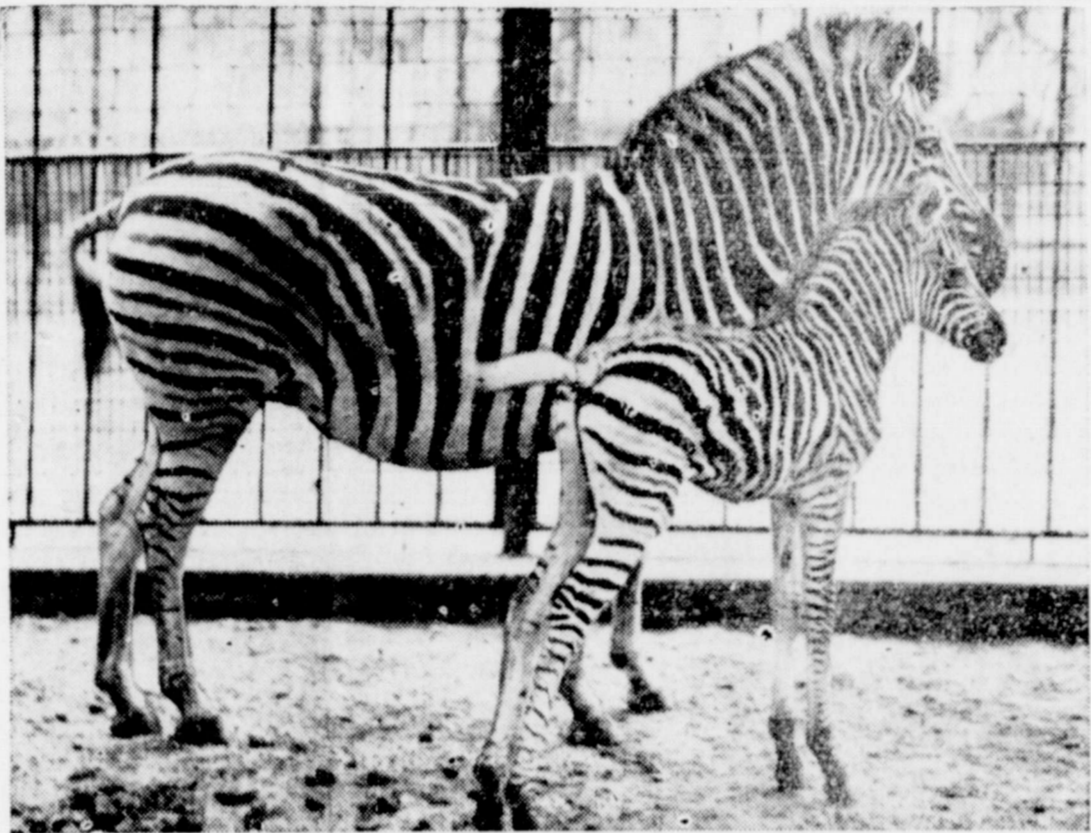

The amendment was rejected by a vote of thirteen ayes and fourteen noes. Voting down a saving clause is almost an unheard-of procedure.

The senate did adopt an amendment by James E. Taylor which prohibits discrimination against honorably discharged disabled servicemen providing they can perform the work to be done.

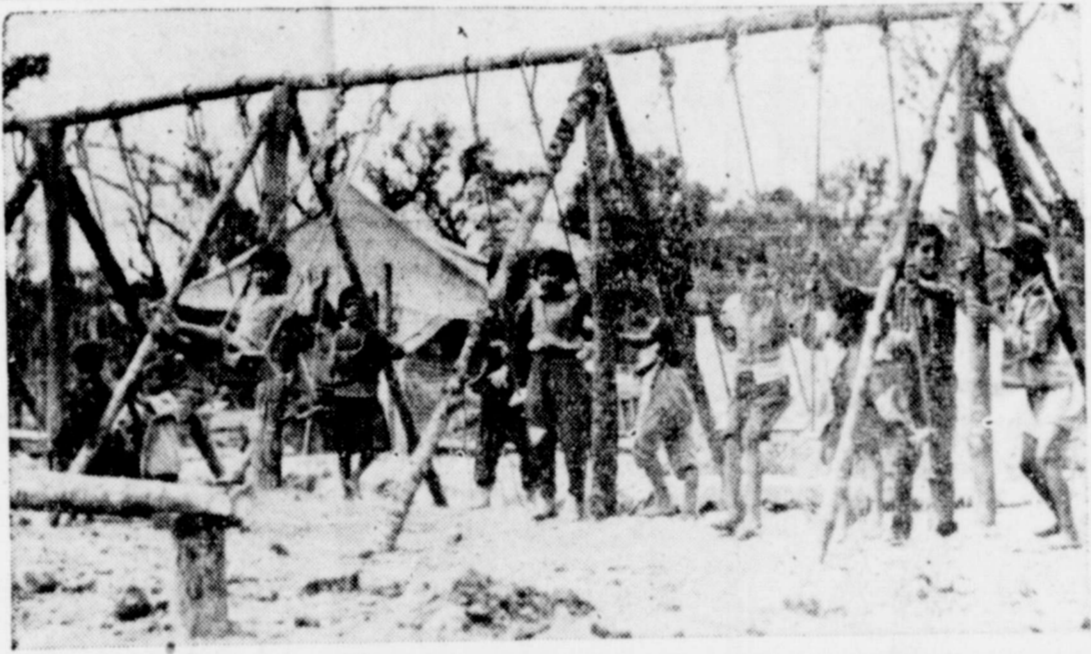

MANY DELINQUENT.

DALLAS, May 24. — Twenty-eight hundred employers of the Dallas district are delinquent to the government of income taxes withheld from salaries of employees, S. L. Mayo, assistant collector of internal revenue, said. The delinquencies are for the first quarter of the year, Mayo said. The cases are being turned over to deputy collectors for investigation and collection.

Few Men Over 30 Will Now Be Accepted by Army

DALLAS, May 24.—This city's 13 draft boards have begun reclassification under the new selective service plan to defer most men over 30 and rush induction of those 18 through 29.

The new draft policy is designed to supply the army with young men the army thinks best fitted for military service. With military operations confined to one war front the draft call will be cut about 25 per cent to 90,000 men.

Word from Director Hershey in Washington instructed boards to cancel induction orders of men 30 to 37 even if they had already been called. This will permit their reclassification under the liberalized plan. Draft boards estimate that the reclassification will take about two weeks.

Complete instructions on the reclassification of men 30 to 37 have been received by the boards. This will be the first job. Reclassification of men 18 through 29 cannot begin until detailed information is mapped by selective service and distributed to the local boards.

Principle change in the draft regulations is that men 30 to 37 now need merely be engaged in activities in support of the national health, safety or interest, in war production, agricultural occupations or any endeavor essential to the war effort. Formerly the men had to be essential to the operation of such activities to merit deferment.

Miss Doris Jamison in Charge of Rotary Program

Rotarians had a double-header picture program today in charge of Miss Doris Jamison. At the business session the club voted to name the incoming district governor — Charles Peyton of Cleburne — as the proxy for the international convention which is to meet in Chicago.

Visitors and guests were Robby Jo McNeely of Cisco, Pete Olds of Abilene, J. L. Cottingham of Eastland and Cisco and Arlin Birt and M. M. Tabor of Cisco.

The program consisted of "B-39 Over Dixie" and film on the Seventh War Loan.

The showings were through the courtesy of Arlin Birt and Bill Hogue. These gentlemen were thanked by club members at the close of the session, who said they enjoyed Miss Jamison's program.

HEREFORD SALE

GRAND PRAIRIE, May 24.—In a dispersal sale at the Blue-Bonnet Hereford Farms here yesterday, twenty-seven cattle brought a total of \$8394, an average of \$347 per head. Brook Domino 54th, the top bull sold on a bid of \$1000 to Wayne Acklin of Wheel-er, Ill.

SHURI BITTERLY DEFENDED BUT YANKEE ENCIRCLING MOVEMENT IS MAKING STEADY PROGRESS

PEARL HARBOR, May 24. — Tenth Army forces on Okinawa drove beyond the Asato river to within 1200 yards of the heart of Naha today and gained more than a mile in a powerful new drive to encircle bitterly-defended Shuri.

To the northeast, Radio Tokyo said 180 American carrier planes began an attack on suicide-plane bases on the Japanese home island of Kyushu at 3 p. m. Japanese time today. Tokyo said "relatively light" damage resulted.

The industrial waterfront of Tokyo itself was blazing from a record 4500-ton pre-dawn Superfortress raid. The fires were visible 200 miles at sea.

The battle of the Philippines flickered on in Mindanao, southernmost of the archipelago, where two converging American columns were only eight miles from a junction that would split the island lengthwise and doom its scattered defenders.

A Japanese Domei dispatch said 23 American B-24 Liberator raided Japanese installations on Singapore yesterday for the first time. It gave no clue as to the possible base of the Liberators. Singapore is beyond the range of known Liberator bases.

On Okinawa, the Sixth Marine Division in the west and the Seventh Army Division in the east were forging a new trap around the inland citadel of Shuri and probably the bulk of the island's 30,000 remaining defenders.

The Sixth sent one column across the Asato river deep into the ruins of the capital city of Naha and another knifing southeast toward the rear approaches to Shuri. The Seventh drove 2000 yards into the Japanese flank from the captured east coast port of Yonabaru and may reach a point due south of Shuri today.

Three other American divisions virtually were stalemated in their frontal assault on Shuri's powerful defenses. One division hurled back 1000 counter-attacking Japanese after an all-day battle in which the enemy penetrated the American lines up to 600 yards. Some 150 Japanese were killed.

NATIONAL BANKS

WASHINGTON, May 24.—Total assets of the 5,025 national banks on March 20 amounted to more than \$76,000,000,000. This was reported by Comptroller of the Currency Preston Delano in giving the results of a bank call on that date. Assets were \$789,000,000 less than on December 30, 1944, but an increase of nearly \$10,000,000,000 over April 13, 1944 the date of the corresponding call a year ago. Demand deposits of individuals partnerships and corporations were \$38,386,000,000 on March 20 an increase of \$2,065,000,000 since December.

TEXAS HATCHERIES

AUSTIN, May 24. — Texas commercial hatcheries produced 13,200,000 baby chicks in April, topping the previous April output by 1,000,000, the United States Department of Agriculture reported today. The demand continues strong with hatching eggs and labor shortages limiting the output of some hatcheries, indicating operations will continue on a relatively high level through May and June.

WAREHOUSE ROLLED

HOUSTON, May 24.—The United Distributing company reported to police here that someone entered its warehouse last night and rolled out 80 barrels of beer.

Will Stettinius and Morgenthau Be Next to Go?

WASHINGTON, May 24. — Washington caught its breath today after the swish of President Truman's cabinet housecleaning; and bureaucracy's bigwigs sat on the edge of their chairs wondering: who's next?

That other important changes were ahead was accepted widely. Harry S. Truman was showing who was boss. He was plain spoken yesterday in saying he had received the resignation of just about everybody in the Government who could resign.

Bluntly the President remarked that he could accept them or not as he chooses.

Mr. Truman's disavowal of early retirement for Secretary of State Stettinius and Secretary of Treasury Morgenthau didn't altogether lay the dust of rumors.

His remark about having got resignations of everybody, who could resign was a sweeping one. Few knew for sure but that it meant other cabinet members, of course, and perhaps still others such as heads of temporary war agencies or top ambassadors.

Appointment of Judge Lewis B. Schwellenbach to be Secretary of Labor, Tom Clark to be attorney general and Clinton Anderson to be secretary of agriculture meant a re-emergence of the cabinet as a stronger part of the government that it has been for a long time.

CHARGES DENIED

AMARILLO, May 24. — Charges of aggravated assault against a white woman and three Negro women were denied today by Paul Grobe 21, of Fredericksburg. The alleged attacks occurred late Monday night in an Amarillo residential sector.

ASKS STATE CONTROL

AUSTIN, May 24. — Gov. Coke R. Stevenson today had telegraphed Gov. Herbert B. Maw, Utah, chairman of the executive committee, suggesting that the committee appeal to President Truman for return of employment service control to the states on July 1, 1945.

DISEASED MEAT.

The incentive to disastrous inflation, and the criminal disregard of cooperative effort shown by unpunished black market operators and patrons, are not the only bad features. There is also a health menace.

Dr. Edwin P. Jordan, associate editor of the Journal of the American Medical Association, points out that many serious illnesses can be transmitted to the unsuspecting eaters of meat from diseased cattle.

First and worst of these is undulant fever, whose victims suffer from fever and severe pain which renders them inactive for long periods. It is, so far, incurable.

And second is tuberculosis, whose dangers most Americans know. If caught in time it can be halted and the patient returned to active life, but only after a long, depressing and expensive period of complete rest and treatment.

Government inspection of meat isn't just another bureaucratic idea. It was set up long ago to protect Americans from such menaces to their health. Those who choose to eat meat which has not passed inspection are endangering life and health.

IGNORANCE IN SCHOOLS.

A grammar school student writing a composition on the difference between public and private ownership said: "A public utility is something usually owned and run by the government that is for all the people's convenience, as street cars, buses, postoffice, electric company, etc. All different classes of people are allowed to use them. Public ownership is when the whole city or county has charge of the utilities but private ownership is when a person controls it and gets rich on something the whole population needs. The money in public ownership goes to the city while in private just a chosen few get rich."

author of this essay received a high mark.

Apparently many parents and teachers are disgracefully uninformed on the simplest fundamentals of American life. Public utilities in the United States are not "usually" owned by government. Over 80 per cent of our electric industry is privately owned — but instead of a chosen few who reap tremendous profits at the expense of the people, it is owned by hundreds of thousands of persons and institutions, such as life insurance companies, who have invested individual savings in electric company stocks and bonds to the tune of twelve or fifteen billion dollars. These billions have given the United States the cheapest and best electric service in the world. As far as profits are concerned, that is a laugh! When the tax collector and regulatory authorities get through with the average private electric company, the so-called "chosen few" are left wondering whether the reward is worth the effort — they haul the sack while government gets the gravy in taxes.

It's Not So Bad . . .

. . . to make the first mistake, nor the second, perhaps, but he who keeps it up is doomed to sad failure. The man who buys property for the first time without an abstract has made an honest mistake. What he should then do is to charge off his loss to experience but resolve not to err again in the same way. All wise men make errors but only the foolish repeat them.

Primer of Prosperity

AGRICULTURE IS THE FOUNDATION OF OUR ECONOMY, FOR IT DETERMINES HOW WE LIVE.

"FUNNY, WE LIVE BETTER ON THE SAME DAY."

"LIVING COSTS" ARE LARGELY COSTS OF FOOD, CLOTHING, AND OTHER FARM PRODUCTS. THE CHEAPER THESE CAN BE PRODUCED, THE HIGHER THE FARM PROFIT, THE MORE WE CAN BUY—AND THE BETTER WE AND THE FARMER CAN LIVE.

"WE CAN CUT SELLING PRICES—RAW MATERIALS COST AS MUCH."

AGRICULTURE SUPPLIES 65% OF INDUSTRY'S RAW MATERIALS. REDUCING THEIR COST REDUCES THE COST OF MANUFACTURED GOODS.

PEOPLE WHO PUT YOU TO SLEEP—NUMBER TWENTY-SIX

You have no idea what I've gone through with servants — the last maid I had was a Finn named Blunka — she wasn't a bad cook, but she was so extravagant — a loaf of bread wouldn't last more than a week — the one before that was a Swiss — I had to let her go because she wanted me to raise her to \$30 a month and all she had to do was the washing, ironing, cooking, cleaning, marketing and sewing and she had a whole evening to herself every month — they're so ungrateful — the only infuriating part of the world is the trouble she has with her maids.

I'm so good to my help, too — I let them do what they want with the fish bones after we're through dinner on Friday night — it's getting so dreadful I may have to do a little work myself.

DO YOU WANT TO HELP THE JAPS?

You are aiding them if you fail to support the 7th War Loan in a big way.

Already the Japs are depending on a break of interest and morale on the home front of America and in England. They think we may soon lose interest in the Pacific war and be willing to agree to a compromise peace. They are fighting on, depending on the possibility of that reaction.

And is there danger of that? Already people over the nation are not listening to the war news as eagerly as they did before Germany fell. We are turning our minds to reconversion and postwar activities. The Japs know this just as well as we do and perhaps discovered it even before we did.

A letup on the homefront will encourage them in their hopes, and will serve to prolong the struggle, resulting in more and more deaths every hour it continues.

Let's let them know we are determined to go on to the end with no letup until Japan makes an unconditional surrender.

Dou your best in this 7th War Loan drive.
