Worth Ford Gets Legion of Merit Account of Skill

WITH ADVANCE SUPPLY FORCES, Germany. — Corp. Worth H. Ford, Cisco, Texas, was recently awarded the Legion of Merit for exceptionally meritorious conduct in the performance of his duties as a mechanic. The presentation was made by Major Leonard Shaw, executive officer of the 346th engineer general service regiment.

The citation read: "Through his untiring efforts, sound judgment and ability, he devised many implements and devices which made possible the successful operation of motor vehicles and equipment. In many instances when it was almost impossible to secure necessary parts for equipment that was in use day and night, Corporal Ford made these parts from cast-off material on hand, thereby making it possible to complete many priority work projects on time. As well as contributing highly to the efficiency of the regimental motor pool, Ford assisted the dental department of the organization by devising a dental casting machine."

Ford, a mechanic in civilian life, entered the army May 26, 1942 at Dallas, Texas, and received his basic training at Camp Claiborne, La. He has served in the European theater of operations for 33 months.

He is the husband of Mrs. Mary M. Ford and the son of Mrs. Eugenia Ford, both of Cisco. (Three photos of the young man accompanied the communication).

Gayle Bailey and Billye Jean Dean Wedding on June 6

First Lt. Gayle Bailey arrived in Cisco Friday night for a visit in the home of his parents Mr. and Mrs. M. D. Bailey. Lt. Bailey, a B-24 bomber pilot, has been serving with the Fifteenth air force in Italy for the past five months.

Bailey, 22 years of age, was reared in Cisco and is a graduate of the Cisco high school and attended Cisco Junior college and A. & M. college.

While here Lieutenant Bailey will be married to Billye Jean Dean, daughter of Mr. and Mrs. W. E. Dean. The wedding will take place Wednesday night, June 6, at the Church of Christ, 8 o'clock.

Civilians to Get More Meat in July Mr. Bowles Thinks

WASHINGTON, June 2. — Food price and rationing controls can be lifted quickly after the Japanese war is won — within a year if victory comes that soon, Price Chief Chester Bowles said.

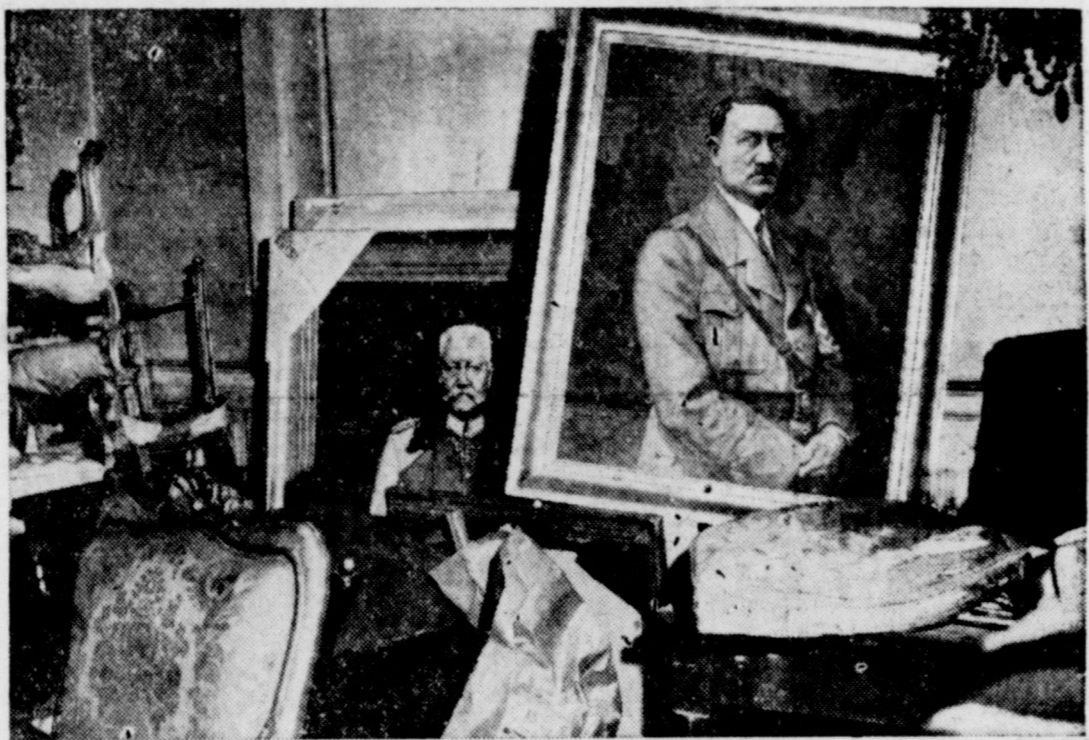

Bowles also said gasoline rationing would end with the end of the Japanese war. The Price Administrator told a congressional committee he expected civilians to get more meat beginning in July as a result of new OPA measures.

Referring to the possibility of lifting food controls soon after V-J Day, he said he meant all controls on all food except sugar. The sugar situation is tight and generally expected to get tighter. "But food controls must be kept this year — if they're not, things will blow up," Bowles declared.

SUMMER ENROLLMENT. Enrollment for summer school will begin Monday morning at the high school says Supt. R. N. Chuck. The enrollment will cover Junior College, high and elementary schools.

President's Firm War Message Bids For Jap Showdown

WASHINGTON, June 2. — Truman war message is intended to bring showdown in Asia.

It ends any hope Japs may have had since Roosevelt's death that we'll take less than unconditional surrender; outlines or ability to lick them if they insist; invites Jap industrialists to save their properties from destruction; warns Jap people they'll be killed if bombings continue; promises they won't be destroyed or enslaved if they quit. Read it with these things in mind:

1. Premier Suzuki told his people Okinawa would decide the war, and he said this when Japanese defeat was certain.
2. Prince Konoye in Moscow, maybe to smell out Russian intentions, maybe to make peace bids.
3. End of Chiang Kai-Shek's regime as premier foreshadows unification of China, possible basis for Allied co-operation there.
4. Chinese army successes plus our air blockade will soon deprive Japan of entire southern empire and its resources, including essential oil.
5. New suicide policy just announced for Japanese navy may be final banzai attack, planned for face-saving surrender.

Little Joe Stands Firm on Big Five Veto Principle

SAN FRANCISCO, June 2. — Russia is standing firm on a rigid interpretation of Big-Five veto controls over United Nations machinery designed to keep world peace.

Ambassador Andrei Gromyko, Soviet delegation chief, handed a new note on the Russian attitude last night to Secretary of State Stettinius and the chiefs of the British, French and Chinese delegations at the United Nations conference.

Contents of the note were not immediately made known outside the official circle of the Big-Five. It was learned today that when Gromyko rapidly summarized its contents, others present gathered that Moscow firmly opposes and relaxation of the veto power and may be objecting even to receipt of a complaint by the security council of the projected world organization except when there is unanimous agreement among the big powers.

The veto power stands as an overriding right of any of the Big Five nations to forbid any decisive step it may disapprove.

Japs Are Getting at Least 4 Types of Calling Cards

WASHINGTON, June 2. — The chemical warfare service disclosed today superfortresses are dropping at least four different types of incendiary bombs on Japan and that research is under way to develop more fiery calling cards.

Two of the bombs spread flaming synthetic lava formed by jellied gasoline, powdered magnesium, liquid asphalt and other ingredients.

One is the M-6 or "goop" bomb, a 500 pounder, which scatters lava into corners and other out-of-the-way places. The other is the 10 pound M-74 equipped with a mechanism which throws gobs of burning lava for distances of 25 yards.

The two other types of bombs are the 100 pound M-47 and the six pound M-69 cluster. The M-47 packed with jellied gasoline in a thin wall, is capable of scattering chunks of fire for distances of 40 yards.

DARING BUT CANNY SEA FIGHTER TAKES OVER THE WORLD'S MOST POWERFUL ARRAY NAVAL MIGHT

PEARL HARBOR, June 2. — Efficient Bull Halsey is hammering the Japanese yellow devils again.

The navy announced Saturday afternoon that Adm. Wm. F. Halsey's Third Fleet had taken over from the Fifth Fleet around the Ryukyu Islands south of Japan.

Adm. Raymond A. Spruance, Fifth fleet commander, yielding direction of the vast American armada to Halsey, disclosed that the "greatest naval casualties in any of our operations" have been suffered in the Okinawa campaign, during which U. S. ships have been harried almost daily by suicide planes.

But as a result of the Fifth fleet's work, Halsey confidently announced "we can go where we want to—from the north pole to the south pole."

Halsey's command comprises the world's most powerful array of naval might. His return to action in the Okinawa sector was accompanied by a number of command changes in what looked to be the first Pacific re-deployment preliminary to the grand assault on Japan.

Already the battle of Okinawa was drawing toward a close. U. S. Seventh Division forces battled within sight of the south shore of Okinawa. Japanese resistance was dwindling. Front reports said that within two weeks the big island might be in American hands and ready for conversion into a prime base for the storming of Japan.

The aerial bombardment of Japan now had mounted to almost daily blows. Tokyo said 200 carrier planes, escorted by flying boats bombed and gunned Japanese suicide plane bases on the main home island of Kyushu for two hours today.

Only yesterday American Super Fortresses poured 3200 tons of fire bombs into the heart of Osaka. Scouting indicated today that the raid burned out the core of the city, rated Japan's biggest war production center.

The Japanese were in dire straits at sea as well as at home. Allied air forces were revealed to have sunk more than 2,000,000 tons of Japanese shipping in five months. A submarine commander said the Japanese had lost "practically all" of their shipping, and U. S. submarines had about worked themselves out of a job in the Southwest Pacific for lack of other targets.

In the Philippines, the U. S. 38th Division mopped up around Wawa Dam east of Manila. The 32nd and 37th Divisions joined forces in northern Luzon, and the

southwest approach to the rich Cagayan Valley now was open to traffic.

A Japanese broadcast reported that an American submarine shelled Marcus Island, about 1100 miles northeast of Guam, just before midnight Thursday, Japanese time.

In China, Maj. Gen. Claire L. Chenault said that for all practical purposes the Japanese corridor across Asia had been cut. Chinese forces were pushing their drive in the southeast part of the country, where all signs indicated the Japanese were pulling out to devote their attention to problems closer home.

Army Will Draft 25,000 Men For Duty in States

WASHINGTON, June 2. — Selective Service is preparing to draft into the Army 25,000 men between 18 and 25 who are slightly below the normal physical requirements for induction.

These inductions, scheduled for June and July, are expected to make possible the early release of veterans with more than 85 discharge points who have been assigned to non-combat duties in the United States because of physical disabilities suffered overseas.

It was expected that many of the 25,000 will be men with slightly substandard eyesight. Men with hernia or afflictions of the feet and joints will not be taken.

Pope, Defining State Rights, Hits Red Rule

ROME, June 2. — Pope Pius XII, in an implied slap at Communist influence in Europe, said today that small nations have a right to reject a government imposed upon them against their will.

They have suffered long in the past and are entitled to refuse the "imposition on their national life of a new political and cultural system" opposed by a majority of their people, he said in a world-wide broadcast.

The Pope called for the punishment of Nazi war criminals and said the "sudden end" of Adolf Hitler had ended the persecution of the Catholic Church by Nazism.

Hiring Negro Labor and Non-union Men Brings Strike

BEAUMONT, June 2. — Construction work at the Pennsylvania shipyards was at a virtual stand-still today as more than 3,000 employees remained away from their jobs at the giant cargo-vessel plant.

Some 900 AFL affiliated pipefitters who walked out Thursday, were joined last night by an additional 2100 union and non-union workers. The dispute was believed to center around so-called "working conditions" at the plant as well as the hiring of Negro labor and the placing of non-union men on union jobs.

STATE - WIDE HUNT FOR NEGRO KILLER

FT. WORTH, June 2. — Search for a Negro man and woman, 24 and 22, wanted in connection with the fatal shooting of James White, 27, rental agent, today spread to all parts of the state as funeral arrangements were being made for the slain man.

The body of White, medically-discharged veteran of the Italian campaign, was sent to Monroe, La., for funeral and burial. He died in a local hospital after he was shot with a .22 caliber rifle at a servant's house at 821 St. Louis where he had gone with the owner, Mrs. J. E. James, to evict the Negro tenants.

FEPC Legislation Certain to Cause Senatorial Hubbub

WASHINGTON, June 2. — For the second time this week, southerners hurled the threat of a Senate filibuster today at legislation which they vehemently oppose.

Newest object of their disaffection is the Fair Employment practices committee, created by the late President Roosevelt to prevent employment discrimination because of race, creed or color.

Now operating as an executive agency, the FEPC faces dissolution. The House appropriations committee yesterday denied it funds in the war agencies supply bill for the 1946 fiscal year.

Others are Pat Linkenhogger, Charles Collins, John Ginn, Jack Chamberlain, Joe Stephens, Jimmy Martin, Jack Turner, Robert Martin, and Richard Martin. The always popular Harmony Girls will be heard in three numbers.

SATURDAY, NOT FRIDAY.

The chamber of commerce announcement Friday of sugar rationing days at the chamber of offices contained an error. The announcement said Miss Winston would be at the chamber office each Tuesday, Thursday and Friday. The statement should have read Tuesday, Thursday and Saturday. The error was made in the announcement furnished the Daily Press. Those wishing canning sugar rations are asked to take notice of this correction.

BLOOPER.

Latest arrival in baseball is the blooper or balloon ball, answer to a pitcher's prayer and possible savior of aging hurriers. The blooper is the invention of Rip Sewell, the 36-year-old pitching star of the Pittsburgh Pirates. It has gained him 42 victories in two years, perhaps has kept him in the big leagues.

The blooper, as Sewell throws it, consists of an all-out arm movement, in which the ball slips off the extended three fingers with an extreme back spin. From a height of 20 feet it drifts down at an angle over the plate, and no batter can get a really good cut at it. It is the most effective addition to a pitcher's repertoire since Carl Hubbell's screw ball. Baseball, like war, is a constant see-saw between the offensive and the defensive. Ever since Babe Ruth the batters have had it all their own way, just when the spit ball, emery ball and other freak deliveries were banned. If other pitchers can copy the blooper, today's sluggers may see their averages shrink.

PRISONERS' RIGHTS.

It was rather tough on Private Joe McGee of Worcester, Mass., to be sentenced to two years at hard labor for punching some German war prisoners that looted on the job and cursed him when he tried to hold them to it. Anybody would have been exasperated by such impudence. But in Uncle Sam's army no violence is used on prisoners, no matter

how much they deserve it. Instead, there are mild deprivations for misconduct. This is in accordance with international rules of warfare.

Everybody knows the brutalities inflicted by the Germans on their prisoners. It does no good, however, to repay them in kind. Thus, little by little, even war's rigors are softened. They were softened for McGee, too. He's home now, enjoying life while waiting for reassignment.

If life apparently has lost its zest, you again may be able to enjoy life as you did in your youth. If added years have slowed down your vim, vitality and youthful pleasures, here is an inexpensive method that may change your whole outlook on life. Just ask your druggist for Casella stimulating tablets (either 48 or 200, the 200 size costs much less per dose). Take as directed on label and feel the thrill of living again. Don't feel old and worn out at 40, 60 or more. Take these tablets regularly until you feel that you have regained the pleasure of living you once enjoyed. Why be discouraged? Why not try Casella tablets and regain the verve and zest of a much younger man? Women too, will find Casella tablets beneficial.

about **SUBSTITUTES**

We do a lot of horn-blowing, we'll admit. That's because we're rightfully proud of our branded, nationally-advertised line of merchandise. Today, more and more people are buying this recognized quality. That's why we don't always have the size or pattern or color or style you want. Frankly, we'd rather say "Sorry, we don't have it" than try to sell you an inferior substitute. We're sure you'd rather have it that way.

- On May 30 of this week, sorrowing kindred all over the nation mourned over those who have fallen in conflict on foreign fields. They have spread flowers on the graves of loved ones near at hand and have prayed that some distant angel of mercy will remember the graves in those distant battle fields.
- All America has bowed in sorrow for men who have given their lives for freedom for others. May we remember them in honor through the coming years.
