Garrett and Paul Will Head Cisco Lions on July 1

The election of officers for the new year beginning July 1, a piano program by Ray Judia and a talk by D. G. Streater, of Lake Charles, La., featured the Lions luncheon program today, during which the club was served a plate lunch topped with chocolate pie, by Carlos J. Turner's food emporium. Delegates to the Lions district convention, June 28, at Abilene, were also selected.

The club voted to meet on July 3, at which time new officers will be installed. Guests were Homer Tompkins, Camp Howze, Texas; D. G. Streater, Lake Charles; Maurice N. Smith and P. E. Bell, Fort Worth.

This was followed by Lion D. G. Streater, a guest of Charles Sandler, in a talk about the big 100 octane aviation gasoline and butadiene plant at Lake Charles, which is the largest of its kind in the world.

Lion Streater, who is a master key member of Lions International, showed pictures of the vast plant and told of the building and operation of the plant which covers more than a section of land and has feeder lines from Louisiana and adjoining states, connecting directly with the famous big-inch pipe line which leads to the eastern section of the United States.

Cisco WAC Passes in Review Before Gen. Carl Spaatz

ST. GERMAIN - EN - LAYE, France — In the shadow of a picturesque 11th century chateau once occupied by Louis the Fourteenth, Pfc. John Ila Clark of Cisco, Texas, and hundreds of her sister WAC soldiers passed in review to climax an impressive ceremony celebrating the third anniversary of the Women's Army Corps.

Passing the reviewing stand, Pfc. Clark turned "eyes right" to Gen. Carl Spaatz, commanding general of the U. S. strategic air forces in Europe, who took the salute. Ranged in the background were hundreds of French civilians, who were seeing American women soldiers on parade for the first time. Flags of the United Nations snapped in the afternoon sun, and American aircraft wheeled overhead to round out the colorful scene.

Pfc. Clark is a telephone operator here at air technical service command headquarters. She is the daughter of Mr. and Mrs. R. E. Clark of Cisco, Texas.

"Let's Rededicate America to Christian Principles"

The largest week-day crowd which has attended the revival series current at First Methodist church heard Evangelist Stanley L. Williams of Dublin preach one of his best sermons last night. The services were held inside the church, since the weather was cool.

"Have we won the peace if we adopt the gods of the enemy?" was the theme of the minister's challenging sermon. He pointed out instances in history where victorious nations, in subduing their enemies, had lost their ideals in adopting the gods and vices of the conquered.

We shall have lost the peace for which we are now fighting if, in conquering our own enemies, we take over their gods—the god of hate, the god of pride, etc., he declared.

Quoting a statement by President Roosevelt the minister said that with our industrialization, our natural resources and the vigor of our youth we could win the war, but it is up to the Christian people to win the peace.

He called for a rededication of America to Christian principles and Christian living in order that we may not lose the great cause for which we are fighting. "Let us remain faithful to the God who already has helped us to win half the war and who is still with us in this struggle."

Services will continue to be held each evening at 8:30, either on the lawn of the church or in the auditorium, depending upon the weather. Singing is under the direction of D. W. Diserens. The public is invited.

DALLAS, June 13.—The toll in yesterday's wind and rain storms which swept most of east and central Texas today stood at three dead, a number of injured and property and crop losses running into thousands of dollars. Rail and highway traffic in some sections continued blocked by flood waters. Hardest hit were areas around Mr. Pleasant, Mexia, Waco and Brady. All crops in bottomlands around Mt. Pleasant were ruined after 7.14 inches of rain in 18 hours. A wind storm at Mexia caused damage estimated at \$500,000.

PRESIDENT TRUMAN MADE THAT STATEMENT IN ANNOUNCEMENT THAT MEETING DATE BEEN SET

WASHINGTON, June 13.—President Truman announced today that a Big Three meeting has been set, but he said he could not announce the time or place until his arrival there.

The President also told a news conference that he expected the meeting at Moscow this Friday to work out a unified Polish government on a broad base to produce results.

In obvious good humor following an earlier conference with Harry Hopkins and Joseph E. Davies, his representatives to Moscow and London, the President told the reporters the results they had obtained have been completely satisfactory and gratifying.

He said he would take Secretary of State Edward R. Stettinius, Jr., James F. Byrnes, former war mobilizer, Hopkins and Davies to the Big Three meeting with him, the latter two if their health permits.

The President said the all important thing was that London, Washington and Moscow continue the unity, confidence and respect which brought results in the military picture to make sure a lasting peace.

He, Marshal Stalin and Prime Minister Churchill, he said, must trust each other.

Discussing last night's announcement regarding the forthcoming meeting of American, Russian and British representatives with three groups of Polish representatives, the President said he thought we are on the way to a complete settlement of that issue.

He said that while no members of the present Polish government in London were invited to the meeting, the United States still recognizes the London-Polish government.

He expressed some concern when reporters sought to pin him down on detail as to the position of the London government.

The President reminded his questioners that Russia had done some very pleasant yielding on this and some other questions and that all should keep their heads.

The Russians, he said, are just as anxious to get along with us as we are with them.

Lt. Andrews Now in States; Will Reach Cisco Soon

Mrs. W. C. Andrews received word today that her husband Lt. William C. Andrews has returned to the states and expects to be in Cisco soon. Lieutenant Andrews, a bombardier in the air forces, was taken prisoner by the Germans March 9 and was liberated from Moosburg, Germany, April 29. After reporting to El Paso, Texas, the lieutenant will be granted a sixty-day leave at which time he and Mrs. Andrews plan to visit his parents, Mr. and Mrs. H. C. Andrews, at Reading, Penn.

Andrews has been in the air forces approximately three years and has been overseas since December of last year. Mrs. Andrews, the former Rivers Greenhaw, has been making her home here with her parents, Mr. and Mrs. N. H. Greenhaw.

HE LIKES CHILDREN.

As everybody knows, this is a difficult time for service men and their families. But a landlord in Cleveland seems to have solved the problem.

His name is Solomon; and like his namesake, he is a great lover of children. Instead of shooing prospective tenants away when they have children or indications thereof, he encourages them to come and live in his apartments. Not only that, but he actually pays a bonus for children born on his property.

Solomon has a standard rate for such procedure, paying \$5 in war stamps for the first child, \$10 for the second, \$20 for the third, and so on, in the quaint doubling game he has invented, until a tenant reaches a maximum of 16 children. That, as most people will probably agree, is a reasonable place to stop. Just the other day a joyful alarm bell rang in the birth of the 56th child in those blessed apartments.

It must be rather noisy around there; but the residents have shown that they can take it, and enjoy it.

POULTRY BOOM.

It is just too bad for the chickens, and still worse for the people who want to eat them. Egg ceiling prices are suspended, and there's a greater demand for heavy weight poultry, and wherever a harrassed hen or rooster looks in the war days, he or she glimpses an ax. Not only laying hens, are counted to save the world for farmers and democracy, are warnings of a "seepage" of eggs and a liquid of the nation's egg-laying

naturally black markets are needed for most of this depletion poultry supplies. There is also the fact that, as an expert sadly observes, "it takes less time to convert feed into chickens than it does into hoes or cattle." Something will have to be done about it, without much delay.

thousands of fighting men and headquarters troops."

In other words Okinawa, largest of the Ryukus, with its 921 square miles, its harbors and airfields, may be the chief springboard of attack upon Japan. The Pacific, with its immense distances, has no base so convenient for us as were the British Isles, only twenty miles from the invasion beaches. But Okinawa lies at the western edge of the East China Sea, less than 400 miles from Formosa, the China coast and the home islands of Japan. The Japanese realize full well the significance of our assault upon it, and are defending it in proportion to its importance to them. For once it is ours, their final defeat will be much easier.

OKINAWA.

Controversy has been rife, lately, concerning the battle for Okinawa. Armchair strategists of all kinds seem to feel that the casualties have been much too high in relation to its probable value. It is sadly true that the cost in American lives, navy and coast guard as well as army and marines, has been very great. But that the need was just as great is shown by Gordon Cobbledick, an American correspondent on the island. In an interview with Col. W. B. Higgins, AMG officer in charge of feeding the native population of some 135,000 Okinawans, he says:

"The time is in sight when virtually every square foot of the land now planted to rice, sugar cane, sweet potatoes and green vegetables will be occupied by American air fields, supply dumps, roads and camps for hundreds of

Scientifically Developed Products

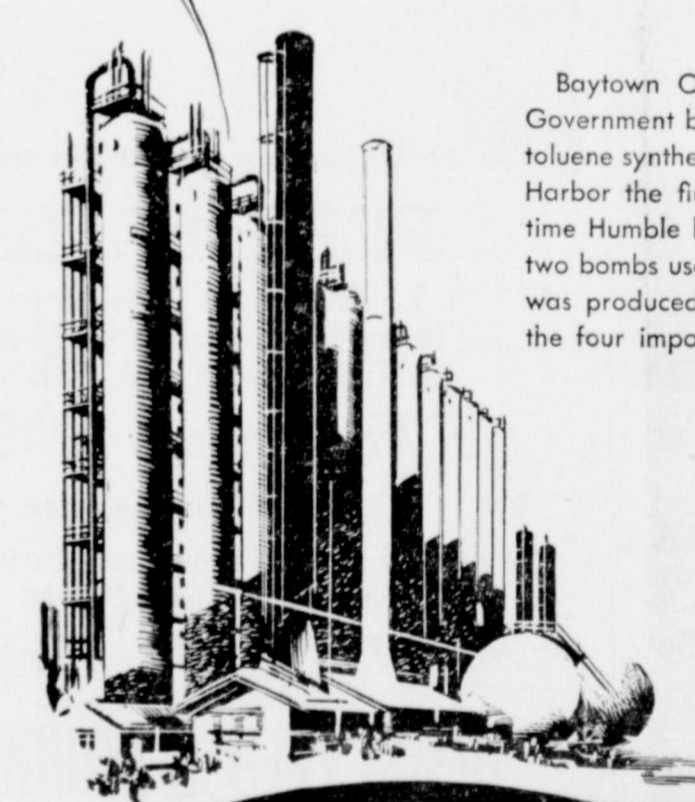

Esso-Extra and Humble 997 Motor Oil are two examples of a long list of quality Humble products which are the result of years of intensive research backed by the resources of a company that produces and transports by pipe line more oil than any other company in the United States.

Into every Humble product go all the skill and resources of one of the world's great research organizations. Humble's long years of developing fine petroleum products for you made possible its phenomenal wartime production record.

DEVELOPER AND TOP PRODUCER of SYNTHETIC TOLUENE

Baytown Ordnance Works, designed and operated for the Government by Humble, was the first plant in the world to make toluene synthetically from petroleum. Forty-five days before Pearl Harbor the first shipment of toluene was made; and since that time Humble has produced toluene for at least one out of every two bombs used by the United Nations. This is more toluene than was produced from all sources in World War I. This is one of the four important FIRSTS* in Humble's war production record.

- * FIRST to produce a billion gallons of finished 100-octane aviation gasoline at one refinery
- FIRST in U. S. crude oil production
- FIRST in production of toluene for TNT
- FIRST in transportation of oil by pipe line
