THE CISCO DAILY PRESS

CISCO—One of the healthiest areas in U.S.A., with a countryside devoted to blooded cattle, hogs, sheep, peanuts, cotton, fruits, feeds, poultry, gas, oil; two railroads; Bankhead highway; huge concrete swimming pool; bass and crappie fishing.

VOLUME XXV.

CISCO, TEXAS, THURSDAY, JUNE 14, 1945.

NUMBER 190

NO HOPE FOR OKINAWA JAPS

CISCO HAS BOUGHT \$86,772 BONDS, WHICH LEAVES QUOTA \$6,377 IN THE RED

Cisco's Seventh War Loan Bond quota of \$156,400, of which \$93,628 must consist of E bonds, is being along very nicely said R. Ponsler, city chairman, this morning.

Herman Terry Is With Engineering Group in France

Mrs. Elizabeth M. Terry has received a letter from her son, Herman Terry, who has recently been transferred to the 885th engineering squadron and now stationed near Paris, France. Excerpts from his letter:

Numerous bond purchases (not bonds) allocated to Cisco have yet been tabulated, hence no attempt is made to present the total of local purchases to date. Nevertheless the chairman feels that the city's overall quota is well in hand.

However, there is still a shortage in E bond sales in the approximate amount of \$6,377.75, which must be in hand before the first day of this month if the city is to maintain its thoroughly excellent War Bond record.

All bond purchases made locally to bank-closing time yesterday are as follows:

First National	\$60,843.75
Postoffice	7,890.99
Palace Theater	7,856.75
Humble Employees	10,181.75
Total	\$86,772.25

Boy Scouts from both Cisco groups are still busily engaged in canvassing the business and residential districts for the sale of E bonds, Mr. Ponsler said, and are meeting with nice success.

BACK IN STATES.

In a telephone conversation with L. Agnew, Clayton Richardson, city radioman, stated that he is in the states and expects to come within the next few days. Richardson, a brother of Mrs. Agnew, joined the navy five years ago and this is his first time home. He is the son of Mrs. R. A. Richardson of Handley formerly of Cisco. Twenty-one years of age, he was born and reared in Cisco and finished high school here.

CLARK APPROVED.

WASHINGTON, June 14.—Sen. confirmation of Tom C. Clark as an attorney general is expected shortly. He was approved unanimously yesterday by the Judiciary committee.

COMES OUT HERE—Pfc. John Di Mauro of Staten Island, N. Y., turns instructor as he shows Filipino dwarf how to play the big bass horn. Native dwarf, former circus performer, wants to be an American-style song and dance man. Di Mauro touts the horn with the American Infantry Division band.

PFC. DUTKO PFC. LINDSTROM SGT. KELLY SGT. SMITH PFC. PETRARCA LT. TOMINAC
Secretary of War Henry L. Stimson, in announcing the award of the Medal of Honor to the 100th Infantryman, paid especial tribute to the American soldier.
"These 100 Infantrymen are more than just a number," declared Mr. Stimson. "They are Kelly, Martinez, Bianchi, Sadowski, Tominac and Baker. They are Wierdorfer, Fournier, Lopez, Thompson, Bjorkland and Smith. They are these United States."
"They're around 24 years of age on the average. Seventy-two are enlisted men—G.I.'s, if you please. The majority call small towns and farms their homes, but the cities are there, too. Two years of high school is their average education. The text book and the rifle weren't far apart. They hadn't worked long before they took up arms. I am proud today to salute these Infantrymen. Let us not forget to salute them and to back them in the bitter days of fighting which lie ahead."
Above are six Medal of Honor men: Pfc. John Dutko, Pennsylvania; Pfc. Floyd Lindstrom, Colorado; Sgt. Charles E. Kelly, Pennsylvania; Sgt. Maynard H. Smith (Air Corps), Michigan; Pfc. Frank J. Petrarca, Ohio; Lt. John J. Tominac, Pennsylvania. Pfc. Dutko, Pfc. Lindstrom and Pfc. Petrarca made the supreme sacrifice and received posthumous awards.
Released by U. S. War Department, Bureau of Public Relations.

TENTH ARMY HURLS REMAINDER OF COCKY 80,000 TROOPS INTO FLAMING 13 SQ. MI. POCKET

GUAM, June 14.—Victory bound 10th Army troops smashed most of the last Japanese line on southern Okinawa today and hurled enemy remnants into a flaming 13-square-mile pocket.

Military Takes Over in Japan; Victory Promised

SAN FRANCISCO, June 14.—Japanese Premier Kantaro Suzuki admitted today the military had taken over the rule of the country and declared he would not resign even with the fall of Okinawa.

Radio Tokyo told the Japanese people that American forces in the Pacific appeared to be preparing for a new offensive, but admitted that it did not know whether it would be directed toward China or Japan proper.

Another broadcast urged the Japanese to make their home islands a fortress and prepare to fight to the last man because there could be no unconditional surrender for Japan.

The Japanese people meanwhile were instructed to make of the home islands "a fortress rivaling Rabaul in impregnability," as the premier indicated the army and navy were depending on one bold strike at the American fleet and on overwhelming manpower to eventually bring victory to the Rising Sun.

The developments were reported by the Tokyo radio and Japanese government-controlled Domei News Agency in broadcasts recorded by the Federal Communications Commission.

Tokyo said the plight of the Okinawa garrison was "truly desperate." Premier Kantaro Suzuki, recognizing the inevitability of defeat on the island, told newsmen in the Japanese capital that he had no intention of resigning when Okinawa falls.

The Americans seized the northeastern, southeastern and western edges of bitterly-defended Yaeyu-Dake Plateau, last Japanese foothold on Okinawa. One column was within three miles of the southern tip of the island.

Massed American artillery, naval guns and planes supported the final assault, spreading death and destruction among the last 10,000 fanatic defenders trapped on the plateau.

Bacon and Cullud Boy Disappear at Very Same Time

FT. WORTH, June 14.—The bacon shortage was a little more intense Thursday.

Victory was at hand for the Americans after the bloodiest campaign in the Pacific war. They already had killed 71,203 of the Japanese garrison of 80,000 troops, an average of nearly 1000 a day for the 74-day campaign.

Sixty pounds of sliced bacon, which would have been meted out to 120 customers of a local food store here, disappeared.

American dead, wounded and missing were believed well over 40,000, but the cost rapidly was being offset by the swift utilization of new air bases for the air offensive against Japan.

Commerce, received the order of five boxes of meat, each containing 12 one-pound packages of bacon, from a Wichita, Kan., packing house.

Smith Jackson, Negro, delivery man, reported he was delivering an order at the G. T. Leonard grocery, 1508 Houston. When he returned to the truck, the bacon was gone.

Jackson said Willie B. Anderson, Negro, was the truck driver, and he, too, was gone.

American reinforcements were riding into battle on the Yaeyu-Dake front atop tanks, front dispatches said. Sherman tanks dashed back and forth between the ridge and rear positions, bringing up reinforcements and supplies. Other supplies were parachuted from planes.

FT. WORTH, June 14.—Cattle and calf prices at Fort Worth today were about steady but trade was somewhat less active than on Wednesday. Hogs sold to an active demand at recent ceiling levels. Good and choice shorn lambs and yearlings were around 50c above Wednesday's prices or about 50c to \$1 or more above last week's closing prices. Other killing classes of sheep and lambs ruled steady.

Marine advanced around the nose of Kunishi Ridge into the strongly defended Mezado village area, less than three miles from the southern tip of Okinawa. Rocket-firing landing craft stood offshore, pouring a blazing barrage into enemy strong points.

BABY Betty Jean looks appreciative of attention from Nurse Ruth Ogden at St. Vincent's Orphanage in Chicago, pending charges against Mr. and Mrs. Andrew Huntsman. Couple abandoned 19-month-old but testified in court that someone else first abandoned her in their keeping.

Miss Woods and Capt. Paschall Entertain Rotary

A musical program, topped by a talk by Capt. J. C. Paschall — all in charge of Rotarian R. L. Ponsler, who was program chairman — featured Rotary luncheon today. A number of visitors and guests were introduced by Secretary Pete Nance, who also announced that the attendance for last week attained the usual perfect figures, as had the past six meetings.

GOOD-BYE, ITALY—Pilots of a night fighter squadron take a farewell ramble to the famous Leaning Tower at Pisa before leaving for more active theaters of war. This unique picture is an Air Forces photo.

Mr. Ponsler introduced Miss Rose Ann Woods, home on vacation from Juilliard School of Music, New York City. She was accompanied at the piano by Barbara Grist.

'Hoppers Damage Army Personnel Feed and Other Crops in County

Miss Woods played a number of violin selections, among them "When Day Is Done" — a number she said was greatly enjoyed by wounded veterans of the hospitals she often visited, where she, among other entertainers, played for their enjoyment.

WASHINGTON, June 14.—The War Department announced today that Army personnel will be thrown into the battle against poultry black marketeers.

Following her performance, Miss Woods told something about the spirit of those fellows, many of whom had returned with an arm or leg missing, but usually in good spirits. She said it was a pleasure to visit these hospitals and see how grandly they still carried on. She was heartily encored on all of her numbers.

The decision to enlist Army personnel in the drive was made after a survey revealed that quantities of poultry, some of which should have gone to the Army, have been trucked to black market outlets in recent weeks.

FARMER A SUICIDE.
VICTORIA, June 14.—The body of Earl Walker, 49, whose father and two uncles died in a triple slaying here in 1943, was found in a pool of dried blood at his farm home near Victoria, Sheriff R. A. Rogan said. Rogan and a deputy broke into the locked house after a tenant farmer told them he had not seen Walker since Saturday.

At the request of Fred M. Vinson, director of War Mobilization and Reconversion, military personnel will be stationed at strategic points and will make spot purchases of any poultry found by OPA or WFA officials to be moving in violation of War Food Adm. orders, the announcement said. Purchases will be made at OPA prices.

Captain Paschall, who has a number of medals including the distinguished flying cross and the president's citation, flew both a P-38 and a P-47. He told much about the bombarding activities of the bomber and fighter planes, explaining their work in destroying German equipment, railroads and motor traffic. The German equipment piled up before the Allies as the Germans retreated ahead of their crowding foes. This gave bombers opportunity to play havoc with the Germans toward the close of the war.

LONDON, June 14.—The British government, in a sweeping "new deal" for India, proposed today a new executive council which would be almost entirely Indian and, in the words of Viceroy Lord Wavell, "represent a definite advance on the road to self-government."

He said in answer to questions that he had flown 76 missions, was wounded and came in to his home field in England safely at another time when only one engine was working — this despite the fire from a number of intercepting planes.

NEW DEAL FOR INDIA.
LONDON, June 14.—The British government, in a sweeping "new deal" for India, proposed today a new executive council which would be almost entirely Indian and, in the words of Viceroy Lord Wavell, "represent a definite advance on the road to self-government."

The captain's talk was live and full of information, facts and thrills. He answered many questions asked by Mr. Ponsler and others concerning the part the air force played in the war.

THOMAS ALVA EDISON.
Thomas Alva Edison, with more than 11,000 patents to his credit, was America's most prolific inventor.

Other visitors and guests were Mesdames Paul Woods, E. L. Graham and R. L. Ponsler; B. L. Altman, Doc Cabanes, Cisco; A. R. Purifoy, Dallas; Pete Olds, J. H. Hughes and J. T. Russell, Abilene.

SCORPION KILLS MAN.
FREDERICKSBURG, June 14.—A bite on the finger by a scorpion proved fatal here to Gould Davis, Gillespie county ranchman, who died yesterday. Davis was bitten while gathering firewood. He applied emergency treatment, but died before a doctor could be reached.

Isaac Merritt Singer of Boston, Mass., in 1851, manufactured the first successful sewing machines in this country.

THE CISCO DAILY PRESS

Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937.

Per year, in advance (Cisco) \$5.00
Per week, by carrier boy 12c

PAPER.

It takes war and scarcity to reveal the value of common things. Paper, for example. Paper of all kinds, including mere wrapping paper and — far greater in bulk and value — the news print stock which serves as a carrier of information and entertainment of limitless variety throughout the world. The finer paper from which books are printed is now almost beyond price.

We Americans are fortunate nevertheless, for even now we are probably better supplied with this great essential of civilization than are any other countries except perhaps Canada and central and south America. We still get the day's news, and accompanying features, on a scale that amazes Europeans.

It goes without saying that Americans should appreciate this blessing and make the best possible use of their paper — while reading what's printed on it, and likewise in the humbler service of countless kinds that it performs afterward.

While reading what's printed on it, and likewise in the humbler service of countless kinds that it performs afterward.

SUMMER CLOTHES

The costumes of Hollywood beauties lately seem to grow more and more suggestive of the South Sea islands. Maybe the presence of American armies in those distant areas has something to do with it; fashions naturally tend to spread around.

One of the surest things, however, in the realm of sartorial style, is that one extreme tends to produce another. Put too many clothes on people, and they'll shed 'em; give 'em too little clothing, and they'll go for all weight and comfortable outfits. It may be interesting to see whether this latter phase develops again.

the department meet twice each month for drill, by which means they are kept informed of the latest and most approved service for successfully fighting fires, with the minimum of damage to personal property. Fire fighting has become a science and education plays a big part in the service.

ORGANIZED IN 1885.

The Cisco Volunteer Fire Department was organized in about 1885, but began to function as such in a very concrete way in 1891, when it had the following membership, with considerable equipment of the kind used in that age:

J. Paul Spencer, Jim Cook, B. W. Patterson, B. F. Allen, Jim Hayes, E. B. Gude, J. T. Wilson, Joe Wilson, Will Wernerberg, E. R. Patterson, J. J. Martin, Ben James, Joe Lovelady, Claude Marchman, R. F. Davis, J. A. Karkalitis, Frank Borisch, Bud Paschall, Frank Snyder, F. E. Aycock, W. P. Pulley, Arthur Boyd, Tom Clegg, Walter Clegg.

Back in those days the fire department was rather an exclusive body. It was the social center for men, since there were no clubs and few lodges. There was always a long waiting list to secure the honor which membership brought. It was at first a body which protected business property only, and heads of firms were the members. A clerk could never aspire to its social register.

A little later, these names are found mixed with those just mentioned: Frank E. Harrell, Bob Weddington, John Sherman, R. W. Mancill, Connie Davis, Frank Walker, Mart Russell, Ed Aycock, Bedford Mashburn, Tom Mashburn, Oscar Eppler, Jonah Eppler and Leonard Eppler. Clarence Tune, by the way, is one of the oldest members in point of continuous service.

FIRST FIRE CHIEF.

There seems to be some doubt as to who was the first fire chief, but B. W. Patterson was chief in 1903, serving until he moved to Oklahoma in about 1910. Then came John Elkins, W. J. Donovan, J. J. Collins, Ernest Gude, then Collins again for a term of four years, Bob Bettis four years, then Collins, C. O. Pass for six years, Collins, followed by Noah Fowler, Bill Sledge, succeeded by Fred Grist. H. O. Anderson is the present chief.

During the past five years there

have been 180 local fires, distributed as follows: 1941, 38; 1942, 30; 1943, 81; 1944, 29; 1945, 11. The largest loss was in 1943, caused, Mr. Weathers said, by the fact that the booster truck was incapacitated for five months, lacking a pump which could not be secured on account of the war.

EARLY-DAY RACES.

J. J. Collins relates many humorous and exciting memoirs of the early day races and conventions which the local group attended. There was always great interest and rivalry in the races

which occurred at those events. He relates a story of one convention when the host town refused to let the competing teams have access to the water supply. Not to be outdone, a small tin tank was erected on upright railroad ties to furnish the water pressure. He said his team mates dashed down to the bonfire and turned on the water, which just seemed to creep along the hose from lack of pressure. It seemed hours, Collins said, before the water finally reached the nozzle, while the crowd watched and cheered. Another incident occurred just

after Cisco had gotten its first fire truck. They built up a fire near the railroad track and gave the alarm. The driver of the truck dashed out, but could never get his truck out of low gear, so drove furiously to the fire at about five or six miles per hour. The fire had burned out long before the truck reached the location.

At another time the Cisco team was at a convention and in a race. The Ciscoans reached the fire plug safely ahead of the others, but the lead man, who was supposed to give the plug a few turns to loosen it for the man with the hose, became excited and in his mad frenzy turned the plug the wrong way, making it so tight that the small wrench used for the pur-

pose would not budge it. They had to send out for a master wrench with a handle a yard long to get it loose. "Of course," said Collins, "we lost."

The firemen's convention has long been a symbol of fun and good times. Cisco has had several district conventions, and one state convention back in 1925, which all Ciscoans of that day well remember. The town was gaily decorated, which extended to many individuals, but they had a good time and forgot for a while the serious sides of their organizations. However they enjoyed themselves and the people of the city enjoyed seeing them doing it. Most Ciscoans would like to see another one just as lively.

The personnel of the present fire department is as follows: Arlin Agnew, assistant chief.

Company No. 1—Howell Sledge, lieutenant; C. L. Tune, driver; Fred Grist, J. T. Waddell, J. J. Collins, C. R. Hightower, A. C. Byrd, H. C. Smith, John Potter, John Sledge, fire police.

Company No. 2—Joe Britton, captain; Clyde Weathers, driver and secretary; W. W. Sledge, J. Garrett, Pete Clements, E. S. Townsend, Don Rupe, Charles Huntington, Ocie Livingston and Dr. C. M. Barnes.

Richard E. Byrd was the one and only explorer to fly over both the North and South poles.

By RUBE GOLDBERG

Volunteer Fire Service Invaluable.

By W. H. LaROQUE.

It is a far cry from the old man drawn hook and ladder and hose reel of the early volunteer fire department of Cisco to the modern truck equipment of the present day when a fire is reached within a few minutes after the alarm has sounded. And this speed and truck equipment often catches the fire in its incipency, thus saving the property owners many thousands of dollars each year. And this efficient organization goes further by reducing the key rate of insurance with a still further saving to citizens of the town.

Often in the early days, some rider hastened operations by tying a rope to the equipment and then, looping it to the horn of his saddle, galloped away, leaving the man power far behind in the race for the blaze. Later, it became the custom for the drayman of the town to hitch on to the hose and reel and speed his team to the fire, thus saving firemen much exertion.

The Cisco fire department now owns the best fire fighting equipment of any city west of College Station at Bryan, according to its size, with a total of more than \$33,500 invested in a hook and ladder truck, pump truck, booster truck and salvage truck.

The Cisco organization is composed of the fire commissioner, Geo. Boyd; fire marshal, Cecil

Lamb; fire chief, H. O. Anderson; assistant fire chief, Arlin Agnew and twenty firemen.

The drivers, who are on duty twelve hours each day, receive full pay, while the chief and assistant are paid for part time, all firemen serving with no salary except \$2 each for every wet fire.

ATTEND SCHOOL YEARLY.

Each year the chief and secretary are sent to A&M College for a six weeks' study course, which they complete in five days, passing rigid examinations on modern fire-fighting methods. For this the city gets a 3 percent reduction on its key rate, amounting to many thousands of dollars in premiums saved to property owners.

The captains, lieutenant and secretary are elected annually, while the chief and assistant are elected for two-year terms. All elections must be okayed by the city commission. For the above information and much that is to follow, we acknowledge the courtesy of R. W. Mancill, Charles Hartman, J. J. Collins (the latter served twenty-one years as fire chief), George Boyd and Secretary Clyde Weathers — the latter seeming to have his information at finger tip to answer any question he was supposed to know and much that he was not supposed to know, off hand.

MRS. A. J. OLSON WAS HOSTESS TO GROUP.

Mrs. A. J. Olson was hostess last Thursday afternoon when the regular meeting of United Daughters of the Confederacy was held in her home on west Ninth street. The meeting was opened by Mrs. D. E. Waters, president, and a short business session was held. Minutes were read by Mrs. Jim Flournoy. Time of meeting was changed to first Wednesday in each month instead of Thursday. A social hour followed and refreshments were passed to Mrs. F. M. Hooks, Mrs. Jim Flournoy, Mrs. R. T. Porter, Mrs. W. F. Watson, Mrs. D. E. Waters and the hostess Mrs. Olson.

COUNCIL GROUP FOUR WITH MRS. POWELL.

Group four of women's council of First Christian church met with Mrs. C. B. Powell Tuesday afternoon. Mrs. Rex Moore, group leader, was in charge and opened the meeting with prayer by Mrs. Ruby Miller.

Mrs. J. F. Benedict brought a splendid devotional which was followed by an article on "Prayer" read by Mrs. Moore. A short business session was held and routine matters transacted.

AUXILIARY HELD GENERAL MEETING.

Presbyterian auxiliary met Tuesday afternoon at the church for an inspirational program and business meeting. Mrs. C. C. Watkins, president, opened the meeting with group singing and prayer. Mrs. F. J. Borman brought the afternoon devotional. Mrs. J. A. Jensen was leader of the mission program, the topic of which was "Many Armies, But One War." She was assisted by other members of the group who took part in the discussion. The meeting closed with the Lord's prayer repeated in unison. Those present were Mrs. C. C. Watkins, Mrs. F. J. Borman, Mrs. Kamon, Mrs. E. P. Crawford, Mrs. A. E. Jamison, Mrs. W. B. Bogan, Mrs. J. A. Jensen, Mrs. W. W. Wallace, Miss Willie Word and Mrs. J. E. Walter.

CIRCLE ONE WSCS MET IN HUMBLETOWN.

Circle one of First Methodist WSCS met Tuesday afternoon with Mrs. J. R. Deen and Mrs. A. B. O'Flaherty as hostesses in the Humbletown home of Mrs. Deen. Mrs. E. O. Elliott presided and opened the meeting with the busi-

ness session. Minutes of previous meeting were read by Mrs. O'Flaherty. It was decided to have a picnic outing at 7 p. m. on July 10 with members of families as invited guests.

Mrs. O'Flaherty was leader of the program on "Christianity and What Constitutes Religion." Articles were given from World Outlook magazine by Mrs. C. E. Paul on the San Francisco conference; Mrs. R. W. Merket on "Bibles for Russia" and Mrs. Rudolph Schaefer presented "Do the Russians Still Pray?" Mrs. Paul closed the program with a special prayer for the "Crusade for Christ."

Refreshments were passed during the social hour to Mrs. D. M. Deen and daughter Carol Ann, McLean, Tex.; Mrs. G. D. Gorr, Mrs. Frank Neely, Mrs. B. E. Morehart, Mrs. C. E. Paul, Mrs. A. T. Gorr, Mrs. E. O. Elliott, Mrs. R. W. Mer-

MAJOR GENERAL Lemuel C. Shepherd, Jr., led the 6th Marine Division that staged the daylight crossing of Naha Harbor on west coast of Orokubi Peninsula. Leathernecks captured half of Naha and its large airport.

MEN! GET PEP.. Do you want to feel young again? Why feel old at 40, 60 or more? Enjoy youthful pleasures again. If added years have slowed down your vim and vitality, just go to your druggist and ask for Casella tablets. Many men are obtaining remarkable results with this amazing formula.

REAL ESTATE SERVICE.

We still have a few homes in Cisco for sale. It looks very much like they will soon all be owned by the occupants. Don't be one of those who are still renters when there are no houses to rent. Buy that home now. Come in and talk it over.

Feast your eyes on these back to the soil opportunities.

Would you like to own a section of the best mesquite land in this area, on paved highway, all modern conveniences highly improved? If you want the best and have \$10,000 or better cash, see us about this place.

160 acres good mesquite land on highway, fair improvements, \$35.

320 acres improved, \$16.

17 acres close in, small house, \$1,900.

145 acres near town, well improved, \$4,500.

80 acres near town, on highway, improved, \$4,500.

160 acres peanut land on paved highway, \$20.

240 acres improved peanut farm 12 miles out, \$16.

181 acres rough mesquite land, improved, on highway, \$25.

273 acres, a good stock farm, \$25.

80 acres improved on good road, \$20.

GOOD NEWS! To All Who Need a Laxative Now-and-Then

When you feel sluggish, stomach upset, low in spirits and somewhat "no account" — because you need a good cleansing out, what you then should try is Kruschen's speedy saline laxative — which the knowing Public the world over has bought to the tune of over 245 MILLION bottles to date.

When you want relief you want it PRONTO — you don't want to wait for hours (Kruschen acts usually within an hour) — and with Kruschen there's a minimum of sudden inconvenient demands and recurrences.

So whenever you feel the need of a laxative, just LET YOURSELF IN FOR THE QUICK RELIEF THAT KRUSCHEN SALTS CAN BRING YOU. Notice how much more alert — more active you feel after your first experience with Kruschen Salts. There are a lot of surprising things we could tell you about Kruschen Salts but we will let you find them out for yourself.

You can obtain KRUSCHEN SALTS from any drug store on the maker's assurance of double your money back if not actually overjoyed with the pleasing results. Caution — use only as directed. Regulate the dose to suit your own requirements. Get KRUSCHEN SALTS today

AT ALL DRUGGISTS

Back in the Good Old Days — ... the most of the lawyers compiled their own abstracts. The records were simple and few. But how times have changed! Today, the modern abstract office is a mass of indices, field notes, files, plats, tracings and copy taken from hundreds of records at the Court House — all co-ordinated, assembled and classified in systematic order by trained personnel with years of experience in title work. The abstract has become absolutely essential in every real estate transaction.

YOU BET I'M A WAR WORKER... 'CAUSE EGGS ARE AMMUNITION

I'M PRODUCING PLENTY ON FIVE STAR EGG MASH

Eggs are vitally needed by our country at war, and flockowners are pushing NOW for top production. But even the best of layers can't reach and hold up to the kind of production you want, on hit-or-miss feeding. For real results, use that old favorite, FIVE STAR Egg Mash. It contains the elements, and feeding values necessary for continued high egg yields — yet so often lacking in grains alone. Start today... the FIVE STAR Way.

BRIEFLY TOLD

Rev. and Mrs. C. S. Moad, Miss Glenna Moad and Mrs. Leonard Bohannon and daughter Jeanne have returned from Clinton, Okla., where they attended the funeral of Pfc. Fred Moad, Jr., of the Marine forces, son of Mr. and Mrs. Fred Moad of Clinton, who died in the government hospital at Camp Pendleton, Calif. Other relatives present were Mr. and Mrs. Emory Moad and children and Mr. and Mrs. Charles Moad, Cisco; Mrs. Roy Moad and daughter, Odessa; Mrs. J. D. Kelley, Dallas.

Mr. and Mrs. Jack Farleigh, Jack Farleigh, Jr., and Mrs. Buster Key have returned from a recreation trip to points in New Mexico.

Mr. and Mrs. Jesse J. Butts and children Jimmy and Vicki have returned to Wichita Falls after a weekend visit here in the home of Mrs. Butts' grandparents Mr. and Mrs. R. D. Vandorf.

Mrs. Ben R. Townley and son Dicky of Gorman are guests here of her grandparents Mr. and Mrs. R. D. Vandorf.

There will be a meeting of Boy Scout Troop 101 Friday morning at 9 o'clock. Members are requested to meet in front of the Tabor sheet metal works to discuss the bond drive.

Pfc. Gorum V. Pollard of the WACS at Kingman, Ariz., arrived Monday for a visit with her parents Mr. and Mrs. R. D. Vandorf. She will go to San Antonio next week to receive honorable discharge from the WAC division of the army air corps.

A group of relatives enjoyed an all-day visit Sunday in the home of Mr. and Mrs. Tom Graves of the Shady Grove community. Those present were Mr. and Mrs. Henry Clements, Kilgore; Mrs. J. J. Clements and daughters Dorothy Mae Clements, Lubbock; Mrs. R. T. Porter and Mr. and Mrs. Joe Clements, Cisco.

Mrs. J. Willie Moore is expected to return Friday from Giblo where she has spent the past two months with relatives. Mrs. Moore makes her home with her daughter and son-in-law Mr. and Mrs. Ted Hale, Humbletown.

Mrs. Callie W. McAfee will go to Stephenville Friday for a visit

with her niece and husband Dr. and Mrs. Malloy and family.

Mr. and Mrs. D. M. Deen and daughter Carol Ann Deen planned to leave this afternoon for their home at McLean after spending several days here with his brother and wife Mr. and Mrs. J. H. Deen.

News has been received by Cisco relatives of the death of W. I. Johnson Wednesday at his home in Lubbock. He was a grandfather of Mrs. Janette Johnson of Cisco, who will attend the funeral. Her mother Mrs. W. F. Johnson, who is here visiting her from California, will accompany her.

Mrs. N. S. New and son Lynn have gone to Brownwood to meet her brother Pfc. W. A. Moore, who has been a prisoner of war in Germany and has now returned home.

Sgt. and Mrs. Ralph C. Smith came in Tuesday from Oklahoma City, where Sergeant Smith is stationed at Will Rogers air field, for a visit with his mother Mrs. Sylvia Watson and his sister Mrs. Margie Boyett.

Mr. and Mrs. E. H. Muller left Wednesday for Houston where

they will make their home, Mr. Muller having been transferred there by Humble Pipeline company.

Mrs. M. M. New, a guest here of her daughter Mrs. R. R. Jones the past week has returned to Brownwood.

Miss Olga Joy Moore of Grapevine, Tex., is a guest here of her

grandmother Mrs. M. W. Oldham, who has been on the sick list for the past two weeks but is now improved.

C. C. Oldham and daughter Nancy of Abilene visited his mother Mrs. M. W. Oldham the first of the week.

The condition of Mrs. E. D. Anderson, ill here in the home of

her parents Mr. and Mrs. O. G. Lawson is reported much improved.

Mr. and Mrs. Henry Clements have returned to Kilgore after a visit here with his brother and wife Mr. and Mrs. Joe Clements.

Mr. and Mrs. Herbert Penley and daughter and his sister, Miss Grace Penley and Alvin Penley of Springfield, Mo., are visiting their aunt Mrs. Edwin Penley and other relatives in Cisco this week.

Mrs. A. R. Day went to Dallas Wednesday where she will visit relatives for several days.

Mr. and Mrs. A. T. Thomas and daughter Wilma Lee plan to go to

Cottonwood to spend Father's Day with Mr. Thomas' father S. H. Thomas and family.

Mrs. R. T. Porter is having some improvements made at her home on west Fourth street. A new porch on the east part of the house will add greatly to the appearance of this splendid property.

Staff Sgt. and Mrs. Rex Pollard and their son Davy have arrived from California for a visit with her parents Mr. and Mrs. J. J. Porter and other relatives in Cisco.

Mrs. Millie Whitehead, who has been visiting her son T. R. Whitehead at Denver City, has returned to Cisco.

PROUD MAMA—Mama Fran looks admiringly at her family of Doberman Pinscher pups without realizing she has set a world's record. Her litter of 15, eight males and seven females (one died soon after birth), is the largest ever produced by this species. Prolific dog is owned by Mr. and Mrs. Charles Sprake of Detroit.

LONE STAR GAS NEWS

VOL. 1 Published frequently by Lone Star Gas Company to bring you news about Gas Industry planning for easier, better living in postwar world. JUNE 1945

GAS HEATING UNITS IN SMALL HOMES SAVE SPACE, CONSTRUCTION COSTS

The flexibility of gas equipment designed for heating the small house is one of the unique attributes of appliances using this fuel. A gas furnace may be located virtually anywhere in the house. Such flexibility coupled with imaginative engineering and new designs of furnaces permit two-way savings—in house space and in construction costs. Gas heating units available for homes after production can be resumed may be located in such various places as the attic, or under the floor, between walls, in the utility room, in a closet, or in the basement, provided there is a basement.

Unusual locations are permissible with specially designed gas heating units by virtue of the fact that gas heats with a low flue temperature. The surface temperature of the equipment also is lower than with other fuels, which means reduced fire hazard and less clearance.

The traditional chimney for the fireplace should be planned with a "thimble" or extra flue for venting floor furnaces.

House heating equipment using gas fuel operates quietly—wherever its location in the house; there are no mechanical noises and few, if any, moving parts to get out of order. Gas heat is truly automatic; it is clean without dust, ashes, soot or smoke. The furnace is lighted in the fall and turned off in the spring, requiring no further attention during the winter.

Ample Hot Water Is Essential Need In Modern Homes

Modern living standards in America demand a supply of hot water at uniformly correct temperatures between 130 and 140 degrees Fahrenheit available at any time of the day or night. At these temperatures, hot water provides the greatest usefulness for the upkeep of the home and the health and physical well-being as well as comfort of the family.

An automatic gas water heater provides the practical means for this standard of hot water service, and is the most popular equipment for the purpose because of its reliability and economy. Other methods of producing hot water require more labor or more service or may be more expensive; the cost of operation of a gas water heater is gauged by the amount of fuel required, depending upon the size of the home, the number of persons and the number of the hot water fixtures.

Vented Gas Heating Prevents Wall Sweating

Vented heating—heating by means of gas appliances connected to a flue—prevents wall sweating and stuffy, unhealthful air. The purpose of connecting appliances to a flue is to carry to the outside air the products of combustion resulting from burning fuel, thus preventing release of these products into the room. When an open flame unvented room heater is used, the burning gas combining with elements in the air, throws off water vapor and other products which are released into the room. This water vapor settles on windows, walls and furniture in cold weather.

The term "vented heaters" does not mean any particular make of appliance, but refers to a method of heating. There are various kinds of vented gas heating equipment, such as the following modern types: Circulating heaters, gasteam radiators, floor furnaces, central furnaces, and the all-year gas air-conditioner.

Since vented heat requires flues, Lone Star Gas Company engineers recommend house heating be planned as part of house construction.

New Freedom Gas Kitchen Saves Labor

The post-war kitchen will literally take the drudgery out of cooking. The "New Freedom Gas Kitchen," which the gas industry is developing with support of Lone Star Gas Company, is a packaged kitchen which will contain a gas range, gas refrigerator, sink and cabinets. It will be ventilated for coolness in summer and warmth in winter, and cooking odors will be removed.

The "New Freedom Gas Kitchen" will occupy a relatively small area, and yet combine a maximum of utility, efficiency and charm. A cozy breakfast nook will easily seat a family of four or five in light and cheery comfort. A modern Certified Performance gas range will do the housewife's bidding quickly and automatically, and a silent gas refrigerator will be the dependable custodian of food and provide interesting frozen delicacies that will make meals an event.

Either within the kitchen or close by will be an automatic water heater which will give ample quantities of hot water almost instantly available.

A colorful floor covering and the just-right combination of colors for walls and ceiling will add a final touch of beauty to an easy-to-work-in kitchen.

Laboratory Seal Is Buyer's Guide

A reliable and authoritative national guide in the purchase of gas appliances and accessories is the seal of approval of the American Gas Association Testing Laboratories, which has distinguished appliances of merit for many years. Lone Star Gas Company is a member of the association contributing to the work of the Laboratories. Seen on superior gas ranges, the seal is a mark of established standards and certifies to the durability, safety and efficiency of the range which has passed more than 329 tests.

PERFECTIONS IN COOKING SERVICES ARE FORECAST FOR NEW GAS RANGES

Many improvements and perfections in cooking services will mark the first gas ranges off the assembly lines after production can be resumed. Six months after steel and other materials are allocated for consumer appliance production, some finished ranges will be on the market, according to manufacturers. Homemakers who have purchased bonds for new gas ranges after the war can look forward to simplified top burner cooking, with speed more than ever an important factor. Multiflame top burners of pre-war ranges were designed in standard size, and in giant size for flame spread in a wider flame spread is needed for large utensils. Since 80 per cent of the cooking is done on top burners, designers of tomorrow's ranges hint that there may be a wider variety of sizes—such as simmering burners and several

other sizes adapted to special cooking needs. One of the achievements in top burners will be more even distribution of heat, due to new burner designs. This will mean the elimination of hot spots, sometimes unavoidable even at simmering temperatures—an improvement which will be welcomed by all cooks. Grates or utensil supports on top burner section will be designed to reduce tipping of utensils. The new style grates also will make for easier cleaning and smarter appearance. Postwar models may be more generally equipped with integral griddles, special cookers and warming ovens; as auxiliary sections these may have thermostatic control of temperature and automatic ignition, thus furthering the simplification of cooking.

Homemakers living in small homes and apartments in urban areas with little need to do home-freezing of foods, will be more interested in the availability of a wide variety of commercially frozen foods in postwar refrigerators. Considerable thought has been given by designers of gas refrigerators, the refrigerators which operate without moving parts, to the storage of frozen foods and plenty of space can be expected. There will also be improved ice-freezing performance as well. Complete new convenience in arrangement of all food storage within the refrigerator will be the result of improved design. Among many features, all shelves will be sliding for location at various positions. Plenty of space will be available for everything in foods requiring refrigeration at healthful, constant low temperature.

Huge Tax Levy Equals \$2.40 for Each Gas Bill
Lone Star Gas Company pays more than 55 different kinds and types of taxes. The tax for 1944 was equal to \$2.40 for each gas bill rendered every month. For the last year the company paid out 29 cents in taxes for every dollar of operating revenue taken in. The government takes, in the form of taxes, more than twice as much as the common stockholders receive. The tax expense for the year amounted to \$1.54 per share of stock. This was equal to about 65 per cent of the net earnings, leaving only 40 per cent for the owners of the company. Lone Star Gas Company must operate for 126 days to pay its taxes. That is, all of the gross operating revenue for more than four months goes to taxes.

BACKACHE, LEG PAINS MAY BE DANGER SIGN
Of Tired Kidneys

If backache and leg pains are making you miserable, don't just resign and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking extra acids and poisons waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes are clogged, don't work well, poisonous waste matter stays in the blood. These poisons may start making backache, rheumatic pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness. If you are of nearly 30 years with smarting and burning sensations in the lower back something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give hourly relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.
