First Baptists to Start Revival on Sunday Morning

A summer revival will begin Sunday morning at First Baptist church, says the pastor, Rev. Arthur Johnson. Mr. Johnson will be preaching and Houston Walker, educational director of the Baptist church at Birdville, Tex., will direct the music. All week-day services will be held at 10 a. m. and 8:30 p. m.

REV. ARTHUR JOHNSON.

There will be no Saturday morning service. Mr. Walker will be present for the opening service but will be here Monday night. The meeting will close July 8. Pastor Johnson also made the following statement: "Everybody,

HOUSTON WALKER.

Regardless of church affiliation, or of no church affiliation, is cordially invited to attend. It is the hope of the church to contribute some spiritual influences to the community in this time of stress and sorrow."

Lt. Qualls to Address His Church Folk Sunday Morn

Lt. James Qualls, native Cisco, about 22 years of age and a veteran of the battles for Iwo Jima, is here from Corpus Christi naval hospital for a sojourn with friends and family. He has had three operations following a serious wound received at Iwo Jima and will return to the Corpus Christi hospital early next month. Lieutenant Qualls is visiting in the home of his parents, Mr. and Mrs. L. H. Qualls and also in the home of his sister, Mrs. Roy Burman. The distinguished young man, who was a leader among the young people of the Church of Christ before he went to war, has been prevailed upon to speak Sunday at the 11 o'clock morning worship hour of that church.

Scout Troop 49 Issued Awards at Court of Honor

Boy Scout Troop No. 49, which is sponsored by First Baptist church, held a Court of Honor at the church Thursday night. The event, the final Court of Honor prior to the summer camp, was very interesting. Charles M. Burke presided and Court of Honor awards were given as follows:

Second-class awards, presented by Charles M. Burke, went to Arthur Edwards, Johnny Smith, Donald Kent and Ronald Smith.

First-class awards were presented to Robert Rendall and Raymond Galvin by Rev. J. R. Wright. Special awards were presented by Rev. Arthur Johnson to the following scouts: Perfect attendance for a year, Charles Beene, Earl Butler, Jim Ewell; organizer award, Jim Ewell.

Merit badge awards, presented by Dr. C. M. Barnes, were issued as follows: Carlton E. Russell for handicraft and woodwork; Lee Kinard, swimming; Wayne Rupe, public health and cement work; Jim Ewell, pathfinding, landscape gardening and civics; Edwin Jackson, weather, chemistry, corn farming, horsemanship, astronomy.

Thirty-two people were present. One of the highest awards in scouting, the gold palm award, was presented to Edwin Jackson by Edward Lee.

At the conclusion of the Court of Honor refreshments were served to the boys and the meeting adjourned with the singing of taps, honoring all former scouts of Troop 49 who are now fighting on foreign battle fields.

Cisco Gets Nice E Bond Credit From War Fronts

EASTLAND, June 19. — Mr. R. L. Ponsler, Chairman War Finance Committee, Cisco, Texas.

Dear Chairman: Eastland county has been allotted \$23,600 of Series E Bonds which have been purchased by the boys and girls in the armed services throughout the world. Your city is entitled to 23 percent of such amount, or \$5,428. You can therefore credit your Series E sales with the last named amount.

This should act as a stimulus to all towns in the county. Our boys and girls are not only doing the fighting and taking the hard jobs and the great risks in all parts of the world, but they are pausing long enough to purchase a substantial part of this loan. I know this will cause us to double our efforts looking toward the over-subscription of the part allotted to each of our communities. Very kindly yours, CYRUS B. FROST, County Chairman.

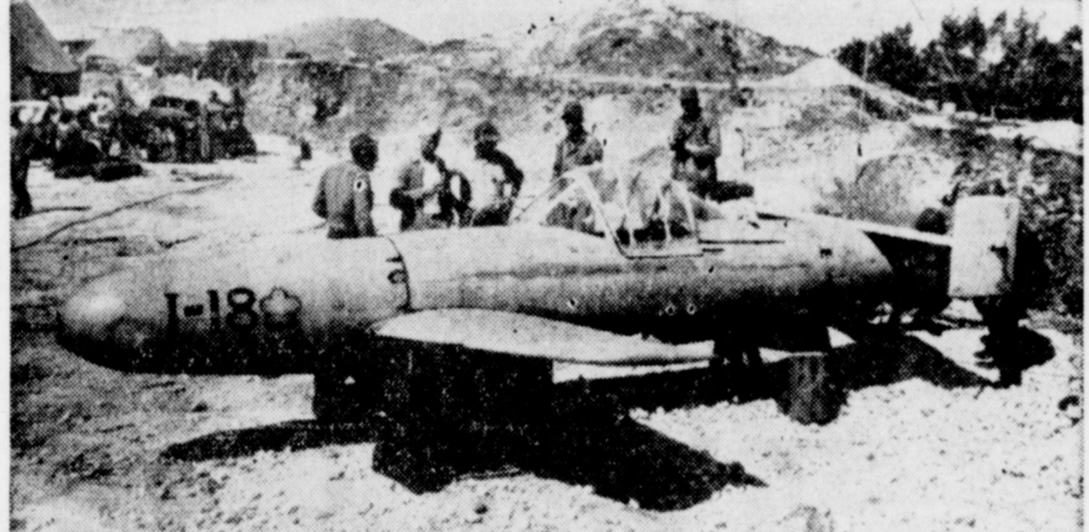

Will Draft Board Have Courage to Carry Out Threat

SHREVEPORT, La., June 22.—Local draft boards in cities affected by the strike of Tri-State Transit Co. bus drivers and mechanics in a nine-state area today began reclassifying defiant workers and ordering them to report for pre-induction physical examinations. Twenty-one strikers reportedly have been summoned for examinations prior to draft into the armed forces.

Meanwhile, settlement of the dispute between AFL union drivers and mechanics and the Tri-State Company managers still moved slowly—if at all.

NOT FORGOTTEN—Before moving on with his 10th Army on Okinawa, Lt. Gen. Buckner pauses to place flowers at the grave of one of his men slain in combat. General Buckner offered Jap general commanding beaten units a chance to surrender but he refused.

SUICIDE rocket-propelled bomb is examined by U.S. Marines at Yontan airfield on Okinawa. After the lone pilot is locked in, Jap weapon plane is launched on flight of death. Equipped with wings, fins and tail assembly, craft is similar to German V-bombs. (Marine Corps Photo.)

HELP FROM AMERICA—Mrs. Jefferson Caffery, wife of United States Ambassador to France, gives dress to recently repatriated French woman. Clothing from American Relief for France included several thousand articles. Several hundred more crates will reach Paris shortly for distribution among French deportees.

Final Exercises Bible School at E. Cisco Church

Rev. Evan Holmes, pastor of East Cisco Baptist church, says commencement exercises for the Vacation Bible school will be held at the church tonight at 8:30 and he extends an invitation to the general public to be present. Mr. Holmes added: "We have 74 enrolled pupils and the average attendance was 55. There will be a display of hand work and Bible work tonight and parents are urged to be present and see what the children have done during the past two weeks."

US. WANTS MASS TRIAL FOR GUILTY

LONDON, June 22. — Justice Robert H. Jackson announced today a United States plan to prosecute Germany's arch war criminals in one collective trial and expressed the hope that it might start "before the end of the summer."

Justice Jackson, chief United States prosecutor, emphasized at a press conference that he could not speak for the three other major western powers, but said no objection to the proposal had yet been lodged by Britain, Russia or France.

The British foreign office announced that representatives of the United States, Britain, France and Russia would open discussions in London next week to draw up a list of the major criminals and settle plans for their trial.

Jackson elaborated upon information of the collective trial plan obtained earlier in the day from a responsible American source.

The United States plan envisions trial by a military tribunal with each of the four major powers represented by "one or two judges," Jackson said.

Jackson emphasized that "no man will be given immunity because he has held a high military position if there is evidence to prove that he is a war criminal."

In the first exposition of plans for the trial of war criminals given to newspapermen here, the Supreme court justice said the trials would start "at the earliest possible moment — just as soon as we have a reasonably complete case."

The British foreign office commentator said the purpose of the four-power discussion would be that of drafting a list of the major war criminals, and settling questions involving "the procedure of the court which is to try them."

The American source reported U. S. authorities were ready, if necessary, to go ahead with the prosecution unless an agreement is reached soon among the big powers on the method to be adopted.

But the United States possesses a potent argument for obtaining a quick agreement — it has the custody of a great majority of the archcriminals.

The United States delegation, it was said, was relying heavily on the Kellogg-Briand pact, outlawing aggressive war, to support its charge of mass conspiracy.

The American plan for a mass trial unprecedented in history would bring together as defendants under a blanket conspiracy charge those accused of being responsible for starting World War II, including Nazi government leaders, top Nazi military chiefs, German industrialists and diplomats, SS and Gestapo leaders. Lesser Nazis would be brought in as witnesses.

No place has been designated as yet for the trial.

LEGION TO MEET.

Leon McPherson, adjutant of John William Butts Post, American Legion, announces that there will be an important meeting of the post at 8 o'clock Monday night, in the roof garden of Laguna hotel. The adjutant says it is highly essential that all members be present.

450 B-29S TODAY STRUCK LAST LARGE NAVAL ARSENAL OF NIPS AND FIVE AIRCRAFT FACTORIES

GUAM, June 22. — Four hundred and fifty B-29s today struck Japan's last large naval arsenal and five big aircraft factories with 3,000 tons of demolition bombs in a precision raid made visually from medium altitude in clear weather. Seven other small industrial targets were fire-raided Monday and Wednesday.

A Japanese communique claimed 26 of the giant raiders were shot down or damaged. Japan's two largest arsenals, Osaka and Hiro, previously were virtually destroyed. The Kure plant blasted today, manufactured guns up to 16 inches projectiles, fuses, propellants and torpedoes. It covered approximately 11,000,000 square feet.

The other five targets were the Mitsubishi and Kawasaki aircraft plants at Kagamigahara, 20 miles north of Nagoya; Kawasaki aircraft plant at Himeji and the Kawasaki aircraft plant at Akashi, both in the Kobe area, and the Mitsubishi-Mishima aircraft factory at Tamashima, 90 miles west of Kobe.

B-29s already have destroyed or damaged 112 square miles of Japanese urban industrial areas, 1st Bomber command headquarters announced while today's raids were in progress.

Three smaller cities — Shizuoka, Yokkaichi and Toyohashi — each was more than 50 percent destroyed in incendiary raids Monday and Wednesday. Reconnaissance photographs revealed the damage was Shizuoka 2.28 square miles, Yokkaichi, 1.23 and Toyohashi, 1.72. They further showed 1.28 square miles burned out in Hamamatsu.

Today's six-target demolition strikes were the first with high explosives in the B-29s new program of destroying secondary industrial areas — a program necessitated by the virtual elimination of all original primary targets in Tokyo, Yokohama, Osaka, Nagoya and Kobe.

They were the third this week on such targets. Monday, B-29s fire-raided Omuta and Kagoshima on Kyushu and Hamamatsu and Yokkaichi on Honshu. Wednesday they poured incendiaries on three small industrial cities Shizuoka, and Toyohashi on Honshu and Fukuoka on Kyushu.

POPE SEES SINATRA.

VATICAN CITY, June 22.—Pope Pius XII today received Frank Sinatra, American radio crooner.

REUNION—Coxswain William Hults has tender meeting with daughters Linda Lee, four, and Ida May, seven, in their home in St. Louis, Mo. When sailor returned from the Pacific he found children and wife, Virginia, had disappeared. After a five-day search they were discovered in a movie.

MYSTERIOUS RUSSIA.

The Rockefeller Foundation, in its annual report, points out that the resources of our universities and colleges for teaching about Russia are pitifully meager. "Only one university accepts Russian as a language with which undergraduates may satisfy the usual language requirements."

In a recent editorial the New York Herald Tribune commented: "In the world of tomorrow it seems likely that 140,000,000 Americans will find themselves living with 200,000,000 Soviet citizens. Thrice armed is the man who understands his neighbor's past, his present way of life, and something about his hopes for the future."

All of this makes a good point, but many Americans wish that Russia were more open about letting us learn about her. The correspondents who cover Moscow are given only limited opportunity to get around the country. Very few indeed were permitted to visit the battlefield while the war with Germany was still on. Now there is a black-out of news from the conquered territory occupied by Russia.

Courses in how to make our point of view understood and trusted by the Russians might be a helpful part of any new education on Soviet affairs. So far,

that has proved a difficult branch of learning.

INDEMNITY.

The problem of getting recompense from a defeated enemy is not exactly like getting blood out of a turnip, but the ultimate effect seems rather turnipy. After the last war we Allies thought we could recover a lot of our war costs by making the Germans work for us. It seemed all right at first; but the net result was that the Germans maintained their factories, renewed competition with us and armed themselves for another war.

Now most of the talk is for dismantling the present German war plants. Our bombs have done this rather well; but the Germans still have, and will continue to have, a lot of factories hidden away. Money payments can usually be avoided by some hook or crook. It is hard to enforce a boycott to keep the Germans from selling profitably to other nations.

This quest for a method of practical restitution is good exercise for New Deal master minds.

NEW ARAB LEAGUE.

The newest force in the Middle East is the Pan-Arab league,

formed recently by Syria, Lebanon and five other Arab states. Iraq, Saudi Arabia, Egypt, Trans-Jordan and Yemen. Of these Lebanon is largely Christian and the others Mohammedan, but just now race is being felt more keenly in the Eastern Mediterranean than in religion.

As yet the League is not a union of separate states like the United States. It is more like our colonies under the Articles of Confederation out of which our present government grew, or the League of Nations. It is hardly more than an agreement of mutual help in time of war.

The presence of a delegate from Palestine, not a member of the league, may have significance for the future. The Arabs of Syria and Egypt evidently do not mean to surrender Palestine to the Zionists, and that may mean a conflict.

The league's first chance to start something was offered by the troubles in Syria and Lebanon. So far its members have only expressed interest, but before long they may be more active. That will concern not only France but also Great Britain, said to be sponsor of the Pan-Arab League.

LOOKING AHEAD

Fear This.

Political developments in England this summer have made a show, profitable for Americans to watch. Peace in Europe is really felt in England; terror and bloodshed ceased for a time — for a long time we hope. Britain's post-war problems are upon her and they are almost exactly like ours will be when our war is over in the Pacific. There is however one big difference.

The difference lies in what the working people think. British labor is socialistic, in large part; American labor is not. The British workers don't think they fared very well under the system in which private capital owned the factories and private management operated them in so-called competition. English laborers figure they would be better off if the government owned everything.

Workers Prosper

Workers in America still favor the system of free enterprise. Dominantly, our labor is in favor of open competition. The reason is that working people in America see how they have fared all right with private enterprise. Labor leaders express themselves freely in favor of capitalism. Our workers probably will not turn against the American system since it has not turned against them.

Nobody has the working people of either country fooled. They have the truth in both cases. In England, labor has had a pretty shabby deal; in America the worker has lived well. The important question is this: British workers oppose capitalism and American workers favor it — can it be possible that they are talking about the same thing?

Have Same Name

Prior to world War II, the economic system in Britain was called private enterprise — same as in America. Moreover the two were quite a little alike, at first glance, except that wages on this side of the ocean were high and American workers lived more than twice as well as the British workers, trade for trade. The dif-

ference was that private enterprise in Britain was not free. Private enterprise in England was hog-tied. Competition there was not actually open. Wasteful monopolies operated within the law. Private business concerns were fenced in with legal restraints on this and government restrictions on that. What they had was government-bossed private enterprise. Business men couldn't make money and therefore couldn't pay their workers.

Socialistic Labor.

Working as hard as they could, British workers couldn't earn enough to live well. They needed new tools and modern methods so they could produce more; so their employers could pay better wages, but the employers couldn't buy better tools. They were so restricted that they couldn't make any money. Result: Labor unions formed a socialist party and grabbed the government.

The same thing can happen here. America can keep free private enterprise and the pros-

perity that goes with it. With prosperity and progress, American firms can pay their workers well. But silly restrictions and heavy taxes can choke out profits. Without profits there will be no new tools, no progress, no better wages. Unhappy workers bring socialism. Socialism, nowhere in the world, has brought wages half as high as America now enjoys.
