## Captain Reagan Awarded Legion of Merit, Iran

HEADQUARTERS PERSIAN GULF COMMAND, Iran. — By direction of the president, and under provisions of an act of Congress, the Legion of Merit is awarded to Capt. Harrell Reagan, first lieutenant of the Military Police Corps, U. S. Army, for exceptionally meritorious conduct in the performance of outstanding service from April 1, 1944, to February 1, 1945, in the Persian Gulf command.

## Much Sugar Used For Alcohol Can Save Fruit Crop

In response to a protest which the Cisco chamber of commerce, joined by the city, filed with Senators Tom Connally and W. Lee O'Daniel and Cong. Sam Russell, urging their efforts to secure special allotments of canning sugar for the peach growing districts, each of these legislators has sent assurances of their efforts to remedy a situation which threatens the loss of a great proportion of the current big fruit crop.

## Ciscoan, Tennessee, a Body and Soul Combination

FIFTH AIR FORCE, Philippines. — There is a Body and Soul combination in the Fifth Air Force fighter command headquarters, with the head of each component upholding the tradition established before the headquarters moved to the Philippines last October. Lt. Col. James E. Hall, command flight surgeon and Chaplain Byron L. Lovelady, chief spiritual guide, have plenty of opportunity to talk over their professional duties since their offices are located right next to each other.

## Sgt. Gene Throop is at Great Bend Army Air Field

GREAT BEND ARMY AIR FIELD, June 18. — Tech. Sgt. Gene B. Throop, son of Mr. and Mrs. Ben B. Throop, Cisco, Texas, is now located at the Great Bend (Kansas) army air field, where he is a flight engineer on a combat crew in a bombardment group stationed at that B-29 operational training base of the Second air force. Upon completion of his training, he will proceed overseas to a combat area.

## Chas. Yates, Jr. Has Been Awarded Many Decorations

CHARLESTON, S. C., PORT OF EMBARKATION, June 20. — First Lt. Charles E. Yates, 22, formerly of Cisco, Texas, bombardier of a heavy bomber crew with the 15th army force in Italy, arrived here today by transport plane en route home for 30 days.

## Rogers, Overseas Vet, Is Now At Bryan Air Field

BRYAN ARMY AIR FIELD, BRYAN, Tex. — Staff Sgt. Warren G. Rogers, son of Mr. and Mrs. A. N. Rogers of route three, Cisco, Texas, has been recently assigned to duty at the Bryan army air field—the original AAF instructors' school for instrument flying training.

**IMMEDIATE RECONSTRUCTION**—Even before fighting on island is over, Aussie engineers build Victoria, main settlement on Labuan, Borneo. Town was practically destroyed by U. Navy gunfire which preceded landings. Here Bulldozers clear rubble from streets

**JOB HUNTER**—Deciding that Mars Hill, N. C., held no future for her, 17-year-old Myrtle Fonder sold bicycle, bought 11-year-old mare and headed for Knoxville, Tenn. She rode 111 miles to city in three days and two nights without sleep. Here she is shown astride horse starting out to find job

## 'WE LEAGUED OUR ARMED MIGHT FOR WAR; NOW LET US LEAGUE OUR MORAL MIGHT FOR PEACE'

—TOM CONNALLY.

WASHINGTON, June 28. — "We leagued our armed might for war," Tom Connally told the senate today. "Now let us league our moral and material might for peace."

remain united, they shall be able to preserve the peace of the world," Connally said. "If the great powers should be divided—if discord should arise—they could not successfully preserve international peace."

Thus the tall Texas Democrat, chairman of the foreign relations committee and a delegate at the San Francisco conference, opened the campaign for speedy ratification of the United Nations charter by a highly receptive senate.

As chairman, Connally will call the foreign relations committee into session Saturday to map out the course of the hearings. Until the matter is discussed by the 23-member group, he declined to estimate how long the hearings would last.

"We shall not turn it away." Admittedly worn by nearly nine weeks of day and night deliberations at the conference, the broad-shouldered Texan strapped on his legislative spurs and called for a speedy, favorable decision in his committee and the senate itself.

**RANGER LACKS \$8,000.** RANGER, June 27. — According to figures released yesterday by W. F. Creager, Ranger war finance chairman, Ranger still lacks \$8,000 of having enough Series E bond sales to meet the quota for the 7th war loan drive.

"Early ratification here will stimulate and encourage ratification by other nations," he declared. "The eyes of the entire world are centered on what we do here."

Slightly over \$85,000 has been subscribed so far.

"Foreign nations know that the United Nations organization for peace and security will face failure and futility unless the United States is a member. The fate of world peace may depend upon our decision."

**BROWN ENROUTE HOME.** Mrs. J. O. Brown of 702 east Twelfth street received a telephone call Wednesday from her son Pfc. Bobby Brown.

Connally seemingly had no doubt what that decision would be. Before he spoke, he estimated to reporters that no more than ten senators would oppose ratification.

He had just arrived in New York after having been in the European theater of war for the past fourteen months. Pfc. Brown expects to arrive in Cisco some time Monday. His wife and small son are here to meet him.

Describing the charter as "a monumental performance," Connally told his colleagues:

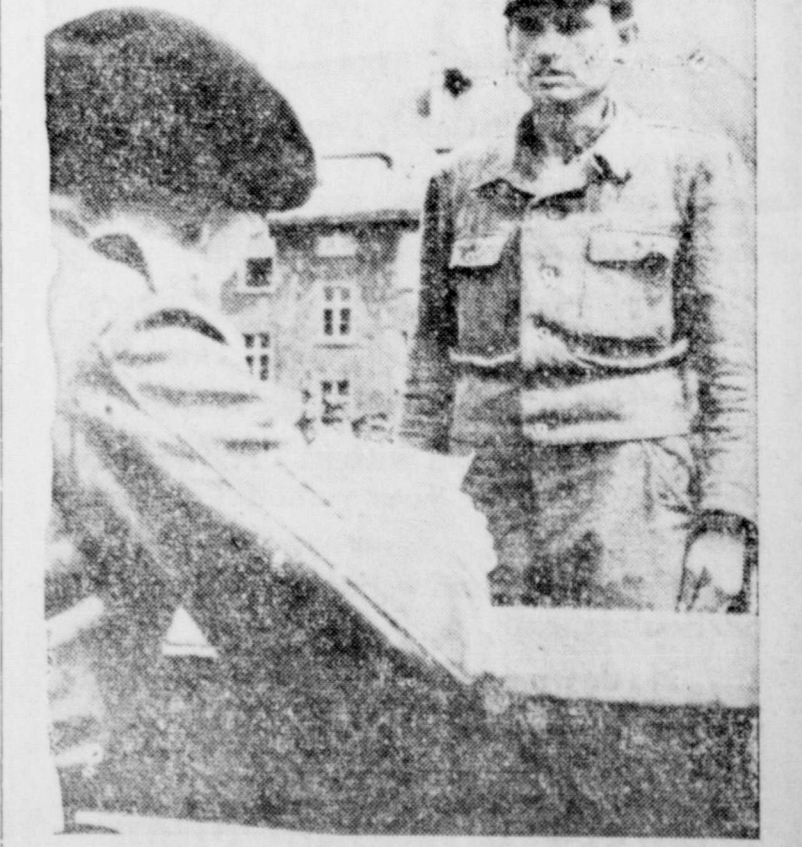

**AUTO TAX STAMPS.** For some reason the sale of federal motor vehicle tax stamps are proceeding slowly at Cisco postoffice. Postmaster Luther McCrea said this morning that sales to date approximated \$1,200, whereas the figure should be around \$8,000 by July 1.

"Mere documents and language and phrases cannot themselves prevent war and preserve peace. They must rest upon the will and the purposes and the desires of the peoples and nations of the world."

Stamps may be bought and affixed to cars after that date, but the law says that after July 1 all cars must bear the stamp if they are used for any purpose. Cost of the stamp is \$5.

Sketching a broad outline of the developing organization, he devoted particular attention to the widely discussed veto power vested in the Big Five nations, permanent members of the 11-nation security council.

"The basis thesis of the rule of unanimity of the five permanent members of the security council is that as long as the great powers

**ONE OF THE FIRST** members of defeated German Army to be released for farm work is questioned by British sergeant. Some 30,000 were among demobilized group. Men were carefully searched for Nazi emblems as no party or SS members were released. They were sent to farms near homes.

**EVACUATING THE WOUNDED**—Undaunted when Higgins boats are unable to run up on beach, Aussie soldiers carry wounded comrades through water on litters to meet craft. Boats later carried casualties to the hospital ship in harbor. (Acme Photo by Andrew Lopez for War Picture Pool.)

## D. T. Wrinkle of Texas Pip Crop Rt. 4 is Released From U. S. Navy

NEW ORLEANS, La. — "D. T." Wrinkle, 19, seaman second class, has received his honorable discharge from the navy. After 15 months overseas duty in the Pacific, he is the wearer of the Purple Heart and five campaign ribbons with seven stars. His ship, the U. S. S. Birmingham, won a presidential unit citation. All 15 months overseas were spent on the Birmingham.

## Texas Pip Crop 19 Percent Less Than a Year Ago

AUSTIN, June 28. — Fewer hams, pork chops and slabs of bacon are in the offing, a U. S. Department of Agriculture report here today indicated. The spring pig crop for Texas was estimated at 1,122,000 head. This number of pigs saved from Dec. 1, 1944, to June 1, represents a decrease of 19 per cent from the period a year ago, a 48 per cent drop from the 1943 crop and nine per cent less than the 10-year average.

## OPA Juggling of Points Bothers Buying Public

WASHINGTON, June 28. — There'll be a little more meat on the nation's dinner tables in July, but not enough to cut ration values. OPA announced today that the supply will be 5 per cent greater than this month, but at the same time handed out this gloomy news: From next Sunday through July 28 margarine will cost 14 points a pound instead of 12, while canned fish will require two to three more points a pound.

## SCRANTON METHODISTS.

Dr. Ernest Little, pastor of the Methodist church at Scranton, will occupy the pulpit of that church both morning and evening Sunday. His D. A. M. subject will be "Revivals" and at 8 in the evening the minister will speak on "Life's Redemption."

#### LOOK AND LISTEN.

There are conflicting views as to the fitness of some phases of American policy in Argentina. It was announced the other day, for instance, that the United States had agreed to supply that country with 500,000 tons of oil, thus raising its quota to pre-war levels. Just why this is done at a time when our own people are in such great need of oil, is not clear. Presumably there is a reason for it, but North Americans would like to know.

Obviously the whole Latin-American system lately has been rather upset by war conditions and the struggle of European powers to gain prestige and repair their shattered fortunes in this hemisphere. We North Americans cannot and do not presume to tell our Latin brethren down below what they must do; but it should be evident that their own future welfare, and much of our own, depends on their barring of predatory European groups from our western world.

Beaten Germany particularly will be looking, just now, for a soft place to land and recoup her fortunes. And if we North Amer-

icans are not careful, we may have a lot of very bad neighbors next door.

#### A POEM THAT SOLD.

"Do not be deterred from reading this book by the fact that it is in verse." This sign, erected by a Toronto bookseller, stood on top of a pile of copies of Alice Duer Miller's "White Cliffs of Dover." It reflected his natural misgivings about the selling qualities of poetry. Yet in the four years since its publication this poem has sold over 700,000 copies, according to the author's husband and biographer, who has been working on her biography since her death a year or two after the publication of the poem.

Mrs. Miller's reputation as a novelist may have had something to do with this popularity. Yet the haunting quality of the verses and the music to which they are set make it one of the outstanding poems of the war. The author's surprise at its reception was another proof that fame comes oftenest to those who seek it not.

#### ZENOBIA'S CITY.

After nearly 2,000 years of silence a once-famous city returns to the news with the announcement that French troops in Syria have a base at Palmyra.

Palmyra was once a city formed by the conjunction of two caravan routes, as a modern one might rise around a railroad junction. Under the gifted Prince Odenathus and his wife Zenobia, one of the brilliant women of history, it sought to maintain a balance between the Roman empire and the rising kingdom of Persia. Eventually this balance became too precarious to keep up, and Zenobia's city fell to the Roman emperor Aurelian, who led its prince captive in his triumphant train. Now largely a group of hovels, its ancient ruins, seen across the desert, are impressive even today.

The French use of Palmyra suggests that better days may be coming. It is on a good road and has a comfortable hotel. There even is some indication that an independent Syria, under pressure from the United Nations, might suppress the local sheiks who, like the bandits of our own early days, make traveling difficult.

new Freedom Gas Kitchens are beautiful without useless frills and gadgets

Sketch by Detroit-Michigan State Company.

Beautiful WITH DOWN-TO-EARTH EFFICIENCY

Natural gas—the accepted kitchen fuel—does wonders in a kitchen designed around its distinct qualities of speed, cleanliness, accuracy and economy. Such a kitchen is the "New Freedom Gas Kitchen" now coming off the designing boards. As you can see from the above sketch, such a kitchen combines a maximum of efficiency and utility with beauty. One of its outstanding features is ventilation so that greasy vapors, cooking odors and heat are drawn from the room. Plan now for the postwar convenience of a New Freedom Gas Kitchen. . . . **LET'S NOT FORGET OUR COMMON SOLDIERS**

We all rejoice that our great leaders are receiving the ovations of a grateful public for the remarkable victories that have been won by the Army, Navy, Marines, Air Corps and all other groups that have had a part in thus far beating our enemies in various parts of the battle grounds.

But let's not forget the common warriors who have served with little honors or recognition, playing their humble parts wherever their leaders have sent them. When they return, their acclaim will only be local. There will be little fanfare in many cases, but they are entitled to know that we at home appreciate their sacrifice and faithfulness to duty. Wonder if we will remember to make it easy for them when they return to their home communi-ties?
