ALLIED BORNEO LANDING SOON

Dr. Lee Appeals to People For a Cleaner City

Hot weather is the season of flies and other insects which carry disease germs, Dr. W. P. Lee, city health officer reminded in an appeal to the people of Cisco this week to take every possible precaution in keeping Cisco clear of the breeding places of these insects.

The family garbage can, Dr. Lee said, is the most prolific source of flies. Unless the citizens exercise the greatest precaution during hot weather to keep their wet garbage cans covered and regularly cleaned, the chances of epidemics of serious character are great.

Wet garbage must be separated from the dry, he said. Moreover, the wet garbage can MUST be kept tightly covered. The dry garbage, such as tin cans, paper and so forth, should be burned insofar as possible. But if this is not possible, it must be kept separated from the wet garbage and placed conveniently for pickup by the garbage truck.

The city will pick up wet garbage from the residences twice weekly, and the dry garbage once, provided the two are separated and the wet garbage is kept covered.

"Cisco was at one time recognized as one of the cleanest cities in the state," said the health officer. "Let us do our best to regain and hold that reputation, and let us, above all else, guard against epidemics of disease which are insect-borne and which may originate in the garbage cans in our own alleys. Among the diseases which are believed to be spread by flies is polio, which sometimes gets very bad in the summer months. By keeping garbage in a sanitary condition we can guard against a possible outbreak of this and other diseases."

"We appeal for the cooperation of the people of Cisco in keeping our city free from filth and in a sanitary and healthful condition." A general inspection will be conducted by the city health officer, and those not complying with the regulations will be requested to do so.

AUTO STAMP SALES.

At noon Saturday federal auto stamps had been purchased at Cisco postoffice in the amount of \$4,490, said Postmaster L. H. McCrea, Saturday afternoon. At the same time last year local stamp purchases were about \$8,000. Fewer cars in operation now than a year ago probably has much to do with the smaller total, but it is expected that a large number of the tags will be bought within the next week. It is a violation of law for cars to operate after Saturday without the \$5 federal stamp.

Walter King, Cisco High Graduate, Has A1 Air Record

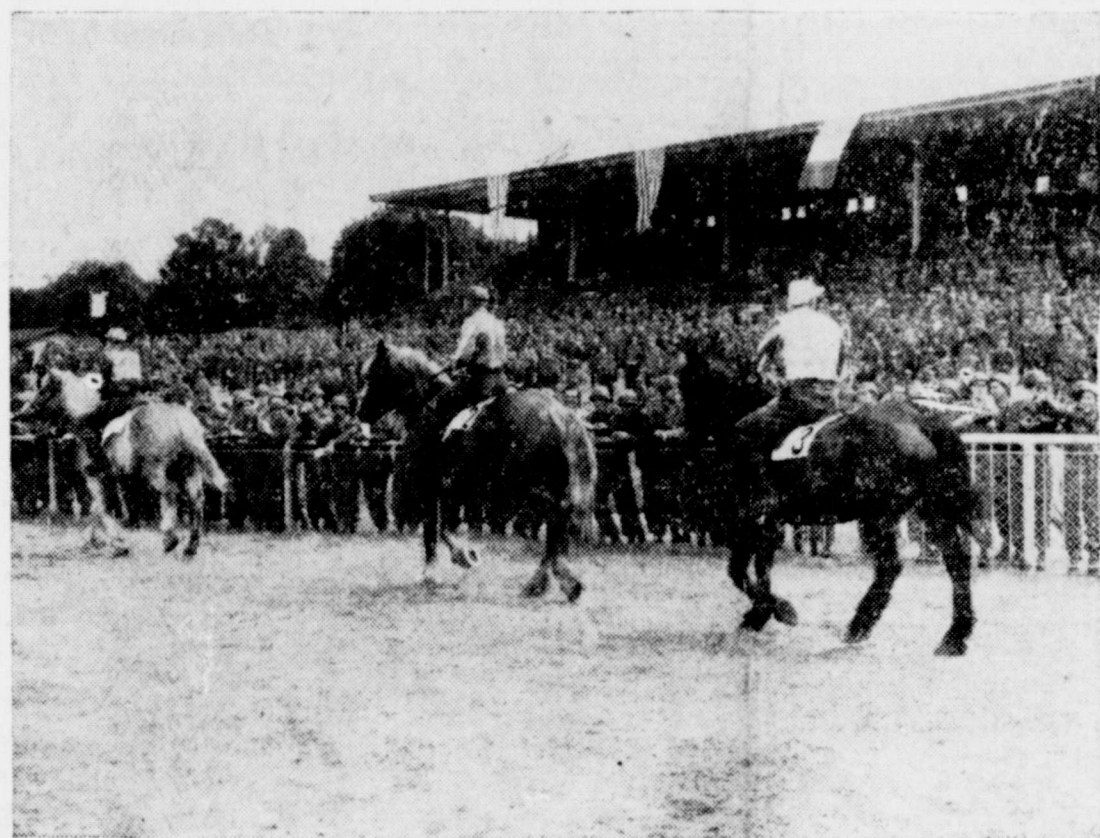

FIFTH AIR FORCE, PHILIPPINE ISLANDS. — Big Butch comes through again. The A-20 attack bomber, named after a Damon Runyon character, has been flown on many low level bombing and strafing missions over jungles of New Guinea and the green fields of the Philippines. The pilot of Big Butch, Capt. Walter S. King, Cisco, Texas, is the commanding officer of the notorious "Characters" squadron of the "Grim Reapers," 3rd attack group. This fifth air force unit is so called because each plane of the squadron is named after a character in Runyon's stories. Big Butch raised all kinds of havoc with the Nips before an ack ack burst got him over Negros Island, but his wounded plane held up nobly and brought the crew safely to base.

This story of Butch started when Captain King made his run over the target and saw several puffs of flak in front of him. He spotted the gun and dove down to strafe it when a medium calibre shell exploded in the tail section of the plane. All the trim tab controls were severed and only one strand of the elevator control cable remained intact, while the rudder controls were frayed and dangerously near the breaking point. Captain King continued his attack as best he could until "Big Butch" suddenly lifted his nose in the air and threatened to fall off on the wing. Immediately salvaging his bombs, Captain King exerted all his strength on the control column and with the added pressure of his knees was able to resume straight and level flight.

He could have ditched Butch in the drink or landed at a nearby emergency landing field, but the first alternative would have endangered his crew. The second choice meant setting the plane down where repairs would be impossible to make. King decided to fly it to his home base and for an hour and thirty minutes he munched along at the slowest speed that would keep Big Butch airborne. Still using his knees to keep the plane in level flight, King skillfully landed at the home base.

Captain King, whose wife Fay resides in Cisco, is a graduate of Cisco high school where he was a familiar figure in sports, excelling in football, basketball and track. He has been overseas since November, 1943, and has 86 combat missions to his credit. He is the son of Mrs. J. G. Stuteville who resides southwest of Cisco. (A photo of the intrepid Ciscoan accompanied the above communication.)

The Mobley Hotel dining room will be closed all day on July 4, says Arthur Lyle, the proprietor.

TRUMAN STADIUM—Yanks crowd rail to see comic race as three buddies lead two work plugs and pony to post. Setting is Truman Stadium in Dusseldorf, Germany, where 94th Division men are starting track meet. GIs at rail are charting horses as though they were bargains back home.

Republican Chief Says Peace Charter Is Best Yet

WASHINGTON, June 30.—The heart and core of humanity's hope for tomorrow lies in the peaceful adjustment of international disputes pledged in the United Nations Charter, Senator Arthur H. Vandenberg (Rep.) Michigan declared in the senate.

As silent, attentive colleagues listened and finally rose with thunderous applause when he concluded, the Michigan Senator put nonpartisan endorsement on the document he helped fashion at San Francisco with the assertion he will support its ratification "with all of the resources at my command."

"I shall do this in the deep conviction that the alternative is physical and moral chaos in many weary places of the earth," he said in a voice made hoarse by the fatigue of nine weeks of conferences at San Francisco.

While crowded spectators in the galleries, many of them in uniform, bent forward to listen, the chairman of the Republican senatorial conference continued:

"I shall do it because this plan, regardless of infirmities, holds great promise that the United Nations may collaborate for peace as effectively as they have made common cause for war. I shall do it because peace must not be cheated out of its only collective chance."

KING NEW CHAIRMAN.

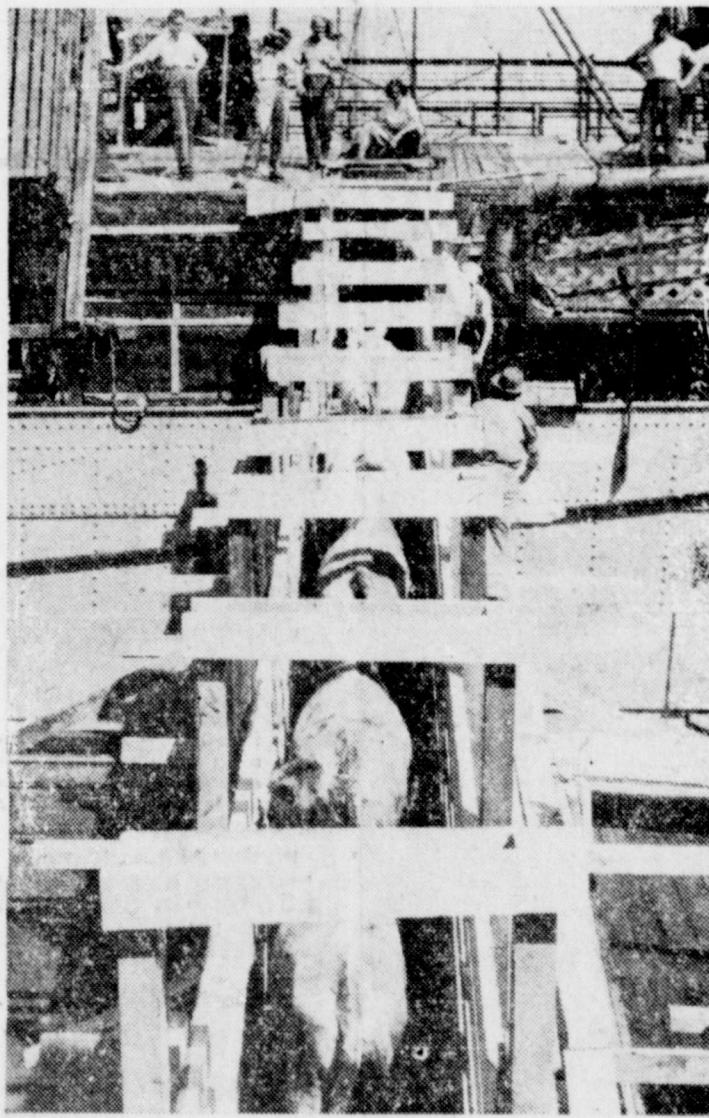

M. L. King of Ranger has been elected chairman of the Eastland county chapter of the National Foundation for Infantile Paralysis. He succeeds Victor Cornelius of Eastland, who had conducted two successful financial drives for the chapter, but who felt he should retire because of pressing business matters, and for the further reason that the chairmanship honor should be passed around.

SIMPSON FUNERAL.

Those from a distance who attended the funeral of Mrs. Cora May Simpson at Nimrod Baptist church Wednesday were Pvt. Paul Phily, Ft. Ord, Calif.; Sgt. Jack Ledbetter, McCook, Neb.; Mr. and Mrs. W. S. Simpson and family and Mr. and Mrs. C. D. Simpson and family, Ft. Worth; Mrs. Fannie Simpson, Breckenridge; Mr. and Mrs. Abe Notgrass, Cisco.

ITALIAN BRUTES.

ROME, June 30.—A Milan dispatch said Saturday 110 persons had been walked up alive by Fascists in cellars of the royal palace at Monza shortly before the liberation of northern Italy.

ON THE HOOF—Headed for Greece, 704 head of cattle go up the gangplank as they board the SS Virginian at Baltimore. They will help relieve food shortage in devastated country. Shipment of livestock to war-torn United Nations is part of agricultural rehabilitation program of UNRRA.

Ciscoan Member Ramey of Cottonwood Jap Prisoner for 3 Years

FORT LEWIS, Wash., June 30. Pfc. Salvatore Vasilio, Cisco, Texas, was chosen to serve as a member of a military guard of honor furnished President Harry S. Truman on his recent visit to Olympia, Wash., where he presented the congressional medal of honor to Sgt. John D. Hawk.

Pfc. Vasilio is a member of Company A of the 393rd Military Police Battalion, stationed at Fort Lewis.

ABILENE ROTARY HEAD.

ABILENE, June 30.—W. A. Stephenson, associate professor of government and assistant dean of Hardin-Simmons university, has assumed the office of president of the Abilene Rotary club.

Mr. and Mrs. John R. Ramey, residents of Cottonwood community, Callahan county, received a message from the provost marshal in Washington on June 23 stating that a broadcast on June 2 from the Tokyo radio had been recorded by American authorities, and this message was supposedly sent by their son, Samuel Norris Ramey, who has been a prisoner of the Japanese since the fall of the Philippines, May 7, 1942. The message said in part:

"Dear Folks: Hope you all are OK. I am doing as well as can be expected. I enjoy all letters and pictures. Am writing Sue a letter. I hope this war ends soon. Love to all."

Connally Idea of Defining Delegate Power Seems Best

WASHINGTON, June 30.—Supporters gathered their forces today to resist any amendment to the United Nations charter as the Senate foreign relations committee met to fix a date for hearings on the treaty.

Senator Taft (R-Ohio) insists that the power of the American delegate on the security council should be defined in the ratification resolution.

Chairman Tom Connally (D-Tex) of the foreign relations committee opposed Taft's suggestion. But he wants the powers of the delegate defined in separate legislation setting up the office, fixing its salary and providing methods of appointment.

Legion Has New Plan for Forced Military Training

WASHINGTON, June 30.—With the special Post-War Military Policy committee of the house ready to recommend universal military training, American Legion defense committee met in Cincinnati and backed down on original army-navy program.

Legion legislative committee originally sponsored the bill for one year of compulsory training for all males, 18 to 24.

Now Legion's defense committee recommends 17 weeks basic training followed by 35 weeks specialized educational or vocational training under military supervision.

Conflict between the two may be ironed out at a meeting of the Legion executive committee in Indianapolis July 25.

Mother's Brutal Treatment of Own Child is Amazing

CHICAGO, June 30.—Two children, one of them ill and the other with a military barracks bag drawn tightly about her body, were found during the night in a hot basement apartment.

Policemen, summoned by neighbors who heard a child screaming, found Joan Leibied, about 2½ years old, lashed in her crib with the cords of the barracks bag pulled tightly about her chest.

The second child, a boy possibly a year old and suffering from a cold, was found later in a small rear room of the apartment. He was not identified immediately.

Joan was able to tell police that her mother, Mrs. Eleanor Leibied, wife of a soldier, left the apartment Friday night after putting her to bed.

The attractive brunet mother, 20 years old, was taken into custody when she returned to the apartment at a late hour. She was taken to the North avenue police station where she told police that she tied Joan in the bag each night in order to keep her in bed and to prevent her from getting into mischief.

The child's body as high as her arm pits was enclosed in the canvas bag. The draw strings were tied to the sides of the crib and as Joan struggled to free herself the bag was pulled tight about her.

Both children were taken to a juvenile home. Records show Joan's small brother, John, 6 months old, died two months ago of pneumonia.

NEW CANAAN, Conn., June 30.—Attractive Mrs. Imogene Stevens, Texas-born wife of a U. S. Army paratrooper major, will be arraigned today on a charge of manslaughter in a slaying committed by coroner's account in "an aura of sex recrimination."

BALIKPAPAN, OIL REFINING CITY POUNDED FOR TWO DAYS BY 50 U. S. SHIPS; JAPS FIRE WELLS

PEARL HARBOR, June 30.—The Chinese invaded French Indo-China today and enemy broadcasts indicated two more Allied invasions were approaching or already underway.

The Chinese High Command announced that its forces had smashed across the border to take the town of Chungchingfu, northeast of Caobang. The Japanese recently took full control of the former French colony because they feared an invasion.

Other Chinese forces, 225 miles to the northeast, captured the burning city of Luichow, former American Air Force base taken by the Japanese last November. The Chinese also captured Linhai in their drive along the China coast which has carried within 130 miles of Shanghai at points.

One Japanese broadcast, heard in London, said that Allied landing operations had started at Balikpapan, the oil center on Borneo's east coast. For several days the enemy has been reporting an Allied naval bombardment of Balikpapan.

A Manila communique reported that over 130 planes of all sizes yesterday dropped 281 tons of explosives on the Balikpapan area, making a total of more than 3000 tons in four days.

The Japanese radio also reported that American destroyers and minesweepers were in waters near Okinoerabu, in the Amami islands north of Okinawa in the invasion lane. The Japanese previously have speculated freely that the Americans would invade the Amami. Okinoerabu is 40 miles north of Okinawa and 250 miles west of the home island of Kyushu.

American forces already held 16 of the island invasion stepping stones in the Ryukyus alone after taking little Kume Island, 50 miles west of Okinawa, and 345 miles from the China coast. A communique from Pacific Fleet Headquarters said that no enemy troops were met on Kume, where Tokyo the other day reported "heavy fighting."

HERO CONVICTED.

MITCHELL FIELD, N. Y., June 30.—Maj. Walter V. Radovich, thrice decorated combat flier, was convicted Friday by court martial of charges that he accepted \$7,000 to keep two enlisted men from being sent overseas. He was sentenced to be dismissed from the service and to three years imprisonment.

PARACHUTE FOR SALE.

WASHINGTON, June 30.—The original and certified copies of the United Nations charter were flown here from San Francisco in a 75-pound fireproof safe equipped with a parachute. Attached to the safe was a label directing any finder to return it unopened to the Department of State.

700 HEARD TEXAN.

WASHINGTON, June 30.—More than 100 Texans in Washington, honoring their state's senior senator, Tom Connally, for his role in the San Francisco conference, heard him tell of work of the conference. The Texans crowded the Statler hotel's presidential ball room last night as they saluted Connally. Connally discussed the charter and its provisions.

WASHINGTON, June 30.—Former Gov. Richard W. Leche of Louisiana, released Thursday from Federal prison at Texarkana, Tex., must now report to the U. S. probation officer at New Orleans, under the terms of his parole. He was released three days in advance of the scheduled effective date of his parole, which was June 30.

But Few States Had Made E-Bond Quotas Saturday

WASHINGTON, June 30.—The record-breaking 7th war loan drive officially closed today with all goals reached except the E-bond quota.

One week remains to count the last-minute rush of bond sales. The huge job must be completed by July 7. Montana was the only state already over the top, with 105 percent of its E-bond quota. Mississippi had 95 percent and Nebraska 91.

Nationally, E-bond sales Friday had reached \$3,126,000,000, or 78 percent of the 4-billion-dollar quota.

Total sales were \$21,200,000,000, a new record and still going up. This was made up of \$7,060,000,000 sales to individuals and \$315,150,000,000 sales to corporations. The individual figure, which includes E-bonds, passed the \$7,000,000,000 quota yesterday.

Some other high-ranking states and their E-bond progress:

Wyoming 90 percent of quota; North Dakota 89; Alabama 85; New Mexico 86; South Dakota 85; Oklahoma and Virginia 81; Arizona, Arkansas, Oregon, and Wisconsin 80; Florida, Indiana, Idaho and Utah 79; Missouri, Nevada and Texas 78.

Maine and New Hampshire were tied for last place with only 62 percent of their E-bond quotas.

Communists Busy While Americans Sleep or Frolic

WASHINGTON, June 30.—The house military affairs committee said today that Communists in America have not changed their ideals and "will stop at nothing" to establish Communism in the United States.

In a preliminary report on its investigation of commissioning of Communists in the army, the committee said that since 1919:

"Communists have been everywhere at work within this country supported and financed liberally from abroad, and if they are able to do so they will penetrate within the armed forces on which we rely for security."

WAR SURGERY.

Next to shooting-power in this war, by air, sea and land, perhaps the most important development is surgery. There is immense progress in this field, most of it credited to Americans. The part that attracts most attention, and probably deserves it, is plastic surgery.

Our surgeons, busy by thousands on the war fronts and in the hospitals to which wounded men are so rapidly transferred, are miracle workers in this field. A newspaper man who has watched the handling of stricken men says: "Every one of us with sons in the service should give thanks morning, noon and night for the progress in plastic surgery, which will give us back our boys in almost normal condition, despite the gravity of facial and extremity wounds and burns."

Within a day of the wounding, he observes, jaws, noses and eyelids are made by the plastic surgeons and placed where they belong. Rolls of skin are removed from chests and planted elsewhere. Of course it is painful, and many of the operations, specially the facial ones, take long to heal. But the men take it all with patient courage, and "there isn't a weak sister in the bunch."

MISGUIDED LOYALTIES.

The fiery leader of a midwest foreign group complains that his city's schools have hired no teachers of his racial origin recently. He seems to think that in choosing a teacher the first question should be "What is your nationality?" and the individual hired

for not according to the proportion of his or her racial group on the teaching staff as a whole. Better, he feels, to hire a poor teacher of the approved stock than a good one of another.

Such a notion needs only to be stated to be condemned. Probably this advocate of nationalism did not think his idea out that far. He was merely appealing to prejudice in the course of some political ax-grinding.

Yet there are more folks like him than is commonly supposed. Some people oppose teachers or public officials merely because they have come from out of town, or belong to different political parties, even though the job has nothing to do with political differences.

All these notions err in putting some other loyalty ahead of the common good. A teacher should be chosen because of his or her good character and superior teaching ability. No other considerations should have weight.

Long hair of the days before the bob became the prevailing style of coiffure proved the salvation of Mrs. W. H. Kittrell in an automobile collision at D avenue and Twenty-first street Wednesday. Mrs. Kittrell was riding with Mrs. Arthur Courtney in a touring car which was struck by another car just as Mrs. Courtney drove upon D avenue. The jar, while it did comparatively small damage to either vehicle was hard enough to jar the doors of the touring car open and to precipitate Mrs. Kittrell from her seat. As fortune would have it she was thrown upward against the top of

the car where her hair caught and held her with her feet projecting from the door through which she would otherwise have been hurled to the pavement.

The Jane Marie, 25-foot motor launch owned by Bob Gilman is the latest addition to the list of large boats at Lake Cisco. The boat, glass enclosed and equipped for cruising on the lake in all sorts of weather with perfect safety and a minimum of comfort to its occupants, arrived this morning from Fort Worth, where it was built for Mr. Gilman by Marian Herring, who built the boat owned by Dr. D. Ball. The cabin extending the full length of the boat is roomy and high enough for people to walk erect. A feature of this cabin is its built-in fixtures and storage places. Sliding glass windows all about the cabin enable it to be opened for the full benefit of lake breezes or completely closed against rain or

inclement weather. The launch is powered by a Gray marine engine, one of the best. Numerous other features contribute to the comfort and utility of the boat which, while handsome to a marked degree, has been constructed upon plans of a more practical than "racy" nature.

R. F. Ball, of the Ball Construction company, contractors on the new telephone building here, is in Cisco looking over the project. Work upon the large structure is being rushed with the probability that the telephone company will begin installation of equipment on the first floor Monday, August 19. According to reports two or three carloads of material to be used in equipping the relay stations for the underground long distance cable from Fort Worth to Cisco are now in storage ready to be put in place. One hundred men in three shifts will be employed in this work at Cisco, it is understood.

Take Off Ugly Fat With This Home Recipe

Here is an inexpensive home recipe for taking off ungainly weight and helping back ailing curves and graceful slenderness. Just get from any druggist, four ounces of liquid Barcol Concentrate. Add enough grapefruit juice to make a pint. Then just take two tablespoonsful twice a day. Wonderful results may be obtained quickly. Now you may slim down your figure and lose pounds of ugly fat without back-breaking exercise or starvation diet. It's easy to make and easy to take. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.

LET'S NOT FORGET OUR COMMON SOLDIERS

We all rejoice that our great leaders are receiving the ovations of a grateful public for the remarkable victories that have been won by the Army, Navy, Marines, Air Corps and all other groups that have had a part in thus far beating our enemies in various parts of the battle grounds. But let's not forget the common warriors who have served with little honors or recognition, playing their humble parts wherever their leaders have sent them. When they return, their acclaim will only be local. There will be little fanfare in many cases, but they are entitled to

know that we at home appreciate their sacrifice and faithfulness to duty. Wonder if we will remember to make it easy for them when they return to their home communities?

Back in the Good Old Days—

... the most of the lawyers compiled their own abstracts. The records were simple and few. But how times have changed! Today, the modern abstract office is a mass of indices, field notes, files, plats, tracings and copy taken from hundreds of records at the Court House — all coordinated, assembled and classified in systematic order by trained personnel with years of experience in title work. The abstract has become absolutely essential in every real estate transaction.
