## CHINA SEEKS RUSSIAN HELP

### Chas. A. Spears Is New Head of First Nat. Bank

Tuesday, July 3, at the regular monthly meeting of the directors of Cisco First National Bank, Charles A. Spears, lieutenant in the United States navy and home on leave, was elected president to fill the position made vacant by the death of his father, Alex Spears. Mrs. Lucile Huffmeyer was elected to the board of directors at the same meeting.

The election of Mr. Spears to succeed his father will undoubtedly meet with the full approval of those familiar with his banking experience, general business aptitude and personal character. He was born and reared in Cisco, served in the bank under his able father and has the respect and trust of all who know him.

The following resolution was adopted by the directors and recorded in the permanent records of the bank:

"It is with deep sorrow and regret that we are called upon to record the passing of our earnest and zealous friend and business associate Alex Spears, who fell asleep June 7, 1945, to rest from his cares and labors.

"We, the board of directors of the First National Bank, desire to express our sense of personal loss and the sincere love and affection we bore for him.

"In his business relations, and especially as president of this bank and chairman of this board of directors, he was ever true and always ready to advance the usefulness of this institution. His high conception of the duty and responsibilities of the mission of the bank in serving humanity and safeguarding the welfare of the community was not only felt by this community, but through his association with bankers throughout the country became of far-reaching influence. He was not only a fine business man, he was a fine friend and a fine citizen.

"Be it therefore resolved that a copy of this resolution be sent to his family and that it be permanently recorded in the minutes of the bank."

### CISCOAN RETURNS.

Tech. Sgt. Herbert L. Francis, 28, of Cisco, has arrived at Miami, Fla., army air field, after 28 months in Africa and Italy. The Ciscoan has four battle stars, says the public relations office at Miami.

### ASSIGNED TO DUTY.

Ensign George H. Linton, son of Mrs. Theo. I. Wooten, has completed instruction at the Atlantic fleet's training center, Miami, Fla., and has been assigned to duty aboard a naval cargo ship. He graduated from Cisco high school in 1942 and enlisted in the naval officers' training corps in July, 1943. He was commissioned in March of this year.

**THREE'S A CROWD**—Motley mob of over 300 captured Japs enclosed in prisoner-of-war stockade on Okinawa presents unusual sight in this war—a crowd of Nip prisoners. Dress of sullen men looking through barbed wire ranges from G-strings to kimonos. They were bagged by Marines of 6th Infantry Division during final hours of battle for Okinawa. ### Cole Spoke to Rotary on "The Oneness of Life"

"The Oneness of Life" was the subject of Rev. W. H. Cole at Rotary luncheon today. He was introduced by J. W. Slaughter, program chairman. J. E. Hays announced that today would most surely be another perfect meeting, making ten straight 100 percent attendance luncheons for the local club, which lead the upper-ten group for the district last month.

The district assembly of Rotary will convene at Mineral Wells tomorrow and volunteers to attend as delegates were asked for. R. N. Cluck responded.

Other guests and visitors today were R. M. Randerson, Frank Pruett, Emmett Chandler and J. T. Russell, Abilene; Edwin Posey and Corp Roy Westfall, furloughed service men, and Houston Walker, song director for the revival at First Baptist church.

Mr. Cole said that the different experiences of life — business, church, social, cultural or political — were inter-related. That is, the success or failure in one of these would leave its imprint on all others.

He cited as an example the instance of where the Methodists of this district had recently sold a church building in a community nearby. With its decay in usefulness went the postoffice, stores, schools and other activities of the community. Even agriculture had declined from the position it once held in this section of the state.

A businessman may think he has a different mental attitude on Monday from that of Sunday, but when he enters his store or place of business he carries with him all that he is and this will be reflected in all of his business dealings throughout the week, the speaker said.

Mr. Cole then reviewed briefly some of the church organizations of other countries of the world, showing how they were influenced by the political thought of the ruling power.

A cemetery is a guide to the land of that community. One can read on the tombstones whether the soil will sustain long or short lives if one notes the ages to which citizens have lived.

So everything is inter-related, the speaker decided. Everything that goes into the activities of a community will react and have its influence on other experiences. The flush business conditions of the present are reflected in the prosperity of the churches and schools. In all relations of life, then, there is a oneness of life.

### Free Enterprise Gives the World Amazing Example

WASHINGTON, July 5. — America managed to keep its citizens better fed, housed and clothed than any other nation last year despite the fact that it turned out nearly half the world's munitions. War Production Chairman J. A. Krug reported to President Truman today on what he termed "a year of brilliant achievement on the production front."

Total world arms output in 1944 was valued at \$101,500,000,000, Krug reported, with the U. S. share put at \$43,500,000,000. The United Nations, he added, outproduced the Axis three to one.

Overall U. S. production for 1944 reached \$199,000,000,000. Total war production, including construction and other items not directly of a combat nature, amounted to \$61,300,000,000.

By 1944, synthetic rubber production had risen to 753,000 long tons compared to 8000 in 1941.

### U. S. Soldiers Charge Railway Coaches Filthy

CAMP BEALE, Cal., July 5. — Eight hundred veterans of the European and North African campaigns today prepared for pre-Pacific furloughs after trips across the continent in two commuter-type trains they said were filthy and infested with vermin.

Meanwhile army officials here and in Washington began an investigation of the trips and of reports that eastbound German war prisoners had passed one of the trains in Pullmans.

### 5,727 Men Needed at Once by Western Rail Roads

FT. WORTH, July 5. — Recruiting railroad workers today was the top priority item on the U. S. Employment Service docket as the Army sought to move vast quantities of men and equipment westward across the U. S.

Texas, Louisiana and New Mexico have been asked to supply 5,727 workers for western railroads. Local applicants should go to the U. S. Employment Service Office, 921 Lamar, or the Railroad Retirement Board office, 1018 Jennings.

Experienced men between 16 and 65 will be hired. Inexperienced men, between 18 and 40 and physically fit, may qualify in from one to 10 days, and will be paid while training.

Main need is for switchmen, firemen, brakemen and mechanics.

### McCauley, Popular Citizen, is Back from Pacific

R. W. McCauley, electrician third class, U. S. navy, arrived in Cisco Tuesday noon to spend a 30-day leave with his family after 18 months in the service. Attached to amphibious personnel attack craft, McCauley saw action at Iwo Jima and in other Pacific offensives. He did not go to Okinawa, however.

"I can hardly believe that I am at home," he declared. "Cisco sure looks good to me." Shortly after reaching Cisco he left for Little Rock, Ark., to visit a brother who was wounded in Italy a year ago, and who is in army hospital at Little Rock. He planned to return here Sunday.

### JAPS MORE NERVOUS; SAY TWO POWERFUL AIR FLEETS STRUCK THE TOKYO AREA AGAIN TODAY

PEARL HARBOR, July 5. — Tokyo looked nervously to the north today as it reported an American task force ranging the coast of Sakhalin Island and the Soviet government in Moscow, opened talks with Chinese and Mongolian leaders.

The Japanese reported that American warships, on the prow in the sea of Okhotsk, had bombarded Shikoku, only 55 miles south of the boundary splitting Sakhalin, owned jointly by Japan and Russia.

The prime minister of the Mongolian people's republic arrived in Moscow and was given a very cordial reception by the Russians. V. M. Molotov, foreign affairs commissar, was at the airport to meet him. Chinese Premier T. V. Soong already was in the Soviet capital was approved by 16 of the 22 members.

The Japanese radio said two powerful American air fleets totaling some 300 Superforts, Liberators and fighters attacked the Tokyo area, the port of Nagasaki and other targets on Honshu today.

The raiding forces were reported ranging widely over the main Japanese islands in what had become virtually a non-stop offensive by daylight.

The first enemy accounts of today's attacks said nine Superforts and about 100 long range Mustang fighters hit Honshu. They concentrated on the Chiba, Ibaraki and Tokigi prefectures in the Tokyo area.

A few hours later about 200 Liberators and fighters attacked objectives in Kyushu. The heaviest blow was struck at Nagasaki and nearby Omura, the Japanese said. Other targets in Miyazaki, Oita, Saga and Nagasaki prefectures were attacked.

In the blockade of Japan, which again forced the Japanese to cut their food supplies recently, American planes sank or damaged 32 enemy ships. The bag included two destroyers hit in a convoy attacked off the mouth of the Yangtze river.

### PEACETIME DRAFT.

WASHINGTON, July 5. — The House Postwar Military Police Committee today endorsed the "broad principle" of universal military training in peacetime. The committee recommended that Congress enact legislation to put the program into effect, and that the action be taken during the present session. The recommendation to plead for help from the Russians.

### SOUTHERNERS FIRM.

WASHINGTON, July 5. — Congressional delay over the Fair Employment Practices Committee today threatened to tie up paychecks of thousands of employees in nearly a score of government agencies. Administration leaders abandoned hope of completing action this week on the \$750,000,000 war agencies appropriation bill for 1946 as southern Democrats refused to give in to demands to include funds for FEPC.

### YANKS AND REDS DANCE.

MOSCOW, July 5. — Foreign Commissar Molotov and other prominent Soviet officials attended a huge Fourth of July dance Wednesday evening in Spassko House, residence of U. S. Ambassador W. Averell Harriman.

### REPORTERS NOT WANTED.

WASHINGTON, July 5. — The White House announced today that newspaper men will not be permitted to cover actual sessions of the forthcoming Big Three conference in the Berlin area.

### Texans Cling to Ripped Airplane Like Trapezemen

FT. WORTH, July 5. — O. O. Osborn, a navy enlisted man who formerly lived in Mineral Wells and Fort Worth, was aboard a big Privateer search plane when it landed on Okinawa recently with its entire belly ripped out and its crew hanging from its sides like trapeze artists.

Osborn and other enlisted men, including M. R. Stacy, Kileen and J. E. Ivie, Tyler, owed much to the ship's fighting pilot, Lt. G. E. Miller, of Long Beach, Calif., who brought back the plane — plus a three-foot chunk of a Japanese freighter's mast picked up after the plane attacked the vessel in the Tsushima Straits.

### Ernest Reich, 26 Home on Furlough From Europe Area

Second Lt. Ernest H. Reich, 26, son of Mrs. Anna Reich of route two, Cisco, arrived home yesterday for a thirty-day visit. He has just returned from the European theater.

The Cisco young man, a graduate of Cisco high school in 1938, followed the occupation of farming prior to joining the army in May of 1942. He received military police training at Camp Hood, Texas, and later received infantry training at Fort Sam Houston. In August, 1944, he was sent overseas with the rating of staff sergeant and later received a battlefield commission. A member of the 95th infantry division, he was attached to several armies while overseas, the American ninth, third and fifteenth and the British second. He took part in the campaign of northern France and central and western Germany.

Lt. Reich stated that he was very glad to be home and hopes that the war in the Pacific will end soon. Following his visit here he will report to Fort Sam Houston for reassignment.

**MANY NEVER SUSPECT CAUSE OF BACKACHES**

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 2 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, peeing up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Every piece of baggage, whether it is checked or carried with you, should be carefully tagged—with the full name and complete address of the owner. Help us to protect your belongings from being picked up by mistake by other travelers.

If you have baggage to check, please be at the station early, so proper records may be made, avoiding mistakes in "rush" handling.

Please use only receptacles which are strong and can take war-time handling—frail packages damage easily.

Please do not put money, jewelry, valuable papers, liquids, groceries, household goods or merchandise in baggage to be checked. Send these articles by parcel post, mail, express, etc. They are non-checkable as baggage.
