## House Okays \$250,000 Appropriation For Vicious FEPC

WASHINGTON, July 12.—(AP)—The House today approved \$250,000 appropriation for the Fair Employment Practice Committee. The money could be used either to terminate its functions or to continue operations, pending approval of additional funds. Approval of the appropriation was by voice vote. A motion to specify that the money be used for liquidation only was defeated by a roll call vote 188 to 116, after an hour of heated debate. The House action indicated fair-  
prompt passage of the \$752,000 (M) War Agencies bill that has been tied up for several weeks as the Senate and House tangled over FEPC. The Senate voted \$250,000 to continue FEPC functions, which the House ignored until today, and the Senate had refused to take any further action on the War Agencies bill until the House acted on FEPC. The House vote on FEPC followed a plea by Chairman Clarence Cannon (D., Mo.) of the appropriations committee, to pass the bill giving funds to "Essential" war industries.

## Shepard of FBI Talked to Rotarians at Lunch

An unusually interesting talk by a native Ciscoan, J. W. Shepard, member of the FBI, and here on a short vacation, highlighted the Rotary program today, with Lt. Cecil Halbert, Lt. Charles Spears, Lt. Kenneth Hilburn, T. J. McCarty and W. B. Blair as guests. J. E. Hays announced the tenth consecutive perfect attendance meeting and said the membership had been divided into two sections for a contest. He stated that any person absent three times would subject his side to a meal of cornbread, beans and water, while the others would eat their usual good meal. Two members were absent today — R. L. Ponsler and Lonnie Shockley — and Doris Jamison was asked to be responsible for Mr. Ponsler's make up, while W. H. LaRoque was asked to see that Mr. Shockley made up his attendance. Mr. Shepard was introduced by his father, F. E. Shepard, who had the program for today. The speaker sketched some of the activities of his organization through the past four or five years in which they had rendered valuable aid in unearthing spy rings over the country, and especially the attempts of the Germans to sabotage the war effort, with South American countries as the base of information. Shepard told of the German effort to plan for the attack of Brazil and other Latin American countries, including the Panama canal zone. He also told of the manner of tracing many of these spy organizations and breaking them up by various means, such as getting FBI men into the rings. Other means of catching them were tracing them through letters and code information. Many were caught carrying dynamite and explosives with which to sabotage munition plants and department stores. They were also found to be inciting strikes to delay the war effort. Trailing men across the country was a slow means of catching them and getting information, but an effective one, Shepard said. American-born Germans were a great help. Hitler had planned to send 1,000 submarines to the Caribbean theater to subdue countries in that sector. This plan was uncovered and broken up before serious damage could be done, the speaker explained. Shepard told of catching the eight men sent to America for sabotage work. Six were captured in New York and the other two in Chicago. Looking for so few men in such large cities was a real job, he said.

## Taft Hits Bretton Woods Monetary Proposal

WASHINGTON, July 12.—Senator Taft of Ohio today assailed the Bretton Woods monetary fund and bank proposal in a senate speech as "a camouflaged method" of lending billions of dollars of American money abroad. Taft asked the Senate to delay action on the bill until after the summer recess instead of taking it up Monday. He called the bank for rehabilitation and development "a device for draining our savings out of the United States for the benefit of the rest of the world." The monetary fund, to stabilize the world's currencies, was termed by Taft as "another device for transferring two and three-fourths billions of American dollars into the hands of foreigners." The Ohio senator advocated instead that the American government make loans directly to help foreign nations buy machinery and rebuild their economies. "It should be recognized that they may never be paid," he said. "However, I believe such assistance can be held to five or six billion dollars during the next two or three years provided the problem of each country is carefully studied and money advanced only for essential purposes," Taft said. The bank, he said, will serve principally to guarantee private loans and investments abroad, and embark the country on what he termed a dangerous policy. Taft announced that he intends to support the San Francisco charter for co-operation in the political field. But Bretton Woods is not essential as a supplement, he declared.

## HARRIED ENEMY FEARS LANDING BY ALLIES ON CARNICOBAR ISLANDS IN THE INDIAN OCEAN

MANILA, July 12.—Radio Tokyo speculated today on the possibility of imminent Allied landing operations on the Carnicobar Islands, in the Indian Ocean following a reported British carrier-based assault against the Sumatra naval base at Sabang. Japanese broadcasters said that Allied naval units had recently laid buoys in the waters adjacent to the Carnicobar group, which are located north of Sumatra and west of Malaya, while only yesterday morning a British carrier task force had launched some 200 planes against Sabang. Injecting a dramatic tone into the broadcast, the Japanese Domei Agency said that a group of "enemy secret agents" had landed on Tanah Masa Island, off the southern coast of Sumatra, early last month. Domei said a Japanese "mopping-up" unit had "immediately spotted the enemy's base of operations and by carrying out a surprise attack had eliminated them." This dispatch also claimed that a second "enemy" base, lying two and a half miles north of the first on Tanah Masa, had been "wiped out" several days later by a Japanese raiding party which was aided by local constabulary corps. According to Domei, as recorded by the FCC, a "search" boat operated by puppet native forces attacked an enemy destroyer in nearby waters the following day and caused it to flee. Domei said the British used two carriers in the attack on Sabang. On the Borneo front Japanese counterattacks have failed to stem Australian troops driving toward the east Borneo oil fields, it was announced today, and enemy defenses have been cracked at three different points in the Balikpapan area. Gen. MacArthur's communique revealed that soldiers of the Seventh Australian Division, hitting the center of the Japanese line have pushed inland three miles from the coastal village of Sepinggan-Ketjil, three miles east of Balikpapan.

## Texas Sugar Situation Looking Much Better Now

DALLAS, July 12.—Early improvement in the sugar situation in Texas is in prospect, B. E. Trigg of regional OPA, announced today. For the first time Texas will receive sugar shipments from Puerto Rico and Cuba, since two shipments totaling 80,469 100-pound bags, have reached Gulf ports. Of that amount 11,860 bags of the sugar has been allocated to the Dallas area. Brokers said the sugar was in about equal proportion for industrial users and for household and institutional users, and the householders' share should be on store shelves in three weeks.

## FBI Nat. Academy to Observe 10th Birthday July 21

The FBI National Academy, which serves as the West Point of Law Enforcement, will observe its Tenth Anniversary with the graduation of the twenty-ninth session at Washington, D. C., July 21, according to announcement by A. P. Kitchin, special agent in charge of the Dallas office of the federal bureau of investigation. Mr. Kitchin stated that numbered among those police officers who will receive diplomas are M. E. Cantrell, sheriff, Randall county, Canyon, Texas, and Samuel B. Gandy, chief of police, Lufkin, Texas. Those to be graduated at the coming session of the academy were selected from seventy-eight law enforcement agencies in thirty states and the Panama Canal Zone. The new graduates will bring to 1,125 the number of police officers trained in the Academy since its inception by Mr. Hoover. Inaugurated in July, 1935, by Director J. Edgar Hoover, the Academy has been attended by many of the nation's outstanding investigators as well as representatives from police departments located in the eastern and western hemispheres. During the early 1930's the need for efficient police officers was highlighted by the nationwide criminal activity of hoodlums. Mr. Hoover, anxious to advance the cause of law enforcement, made arrangements whereby the facilities previously restricted for training special agents of the FBI were opened to the police of the United States and its possessions. Since that time officials from foreign police departments also have been granted the privilege of attending the fourteen-week courses. The roster of graduates includes law enforcement men from the 48 states, Alaska, the Philippines, Puerto Rico, the Panama Canal Zone, Canada, Newfoundland, England and China. A GASOLINE COUPONS. DALLAS, July 12. — H. F. Carmichael, district OPA director, said here that there is a possibility the value of A gasoline coupons may be reduced due to what he called over-issuance of gasoline to C card holders. CATTLE PRICES STEADY. FT. WORTH, July 12.—Cattle and calves were very active here today with prices fully steady. Hogs were unchanged. Killing classes of sheep and lambs were fully steady.

LUBBOCK ARMY AIR FIELD. Capt. Charles E. McDonell, son of W. F. McDonell of Glendale, Tex., and Mrs. Grady Coats of Cisco, has completed the post-graduate course of advanced instruction in instrument pilot training here and is now at his base station at San Angelo, training other fliers. Captain McDonell is a graduate of Cisco high school and was a flying man in civilian life. He returned in March from a tour of combat duty in the CBI theater as a C-47 pilot. He flew 250 missions, for which he was awarded a distinguished flying cross with oak leaf clusters and the medal with five oak leaf clusters; also three battle stars on Asiatic-Pacific theater ribbons.

## Army to Cut Off Free Food to Europe August 31

WASHINGTON, July 12.—The U. S. Army will stop supplying food to civilians in liberated Europe on Aug. 31, it was learned today. The action will save millions of dollars for American taxpayers. But it is not expected to mean more food for civilians because purchase and distribution at about the same level will be handled by the liberated government themselves. At the same time it was disclosed that the United States, contrary to earlier announcements, would continue lend-lease shipments of meat to Russia during July, August and September. The newly approved allocations for the Soviet include 25,000,000 pounds of meat in the form of Tushonka, a canned pork and beef combination. No other U. S. meat will go abroad during the three-month period except to the armed forces. The scheduled Russian shipments are 25,000,000 pounds of flour, 5,000,000 pounds of butter or other oils, 2,000,000 pounds of cheese, 4,000,000 pounds of dry peas, 2,500,000 pounds of dehydrated vegetables and 2,000,000 pounds of dried milk. HIGH SCHOOL SPORTS. HOUSTON, July 12.—Houston high school sports earned \$130,781.16 during the past year, according to the annual report of J. D. Oakes, director of extramural athletics. Expenses were \$93,828.23, leaving a profit of \$36,952.93. Football receipts were \$75,214.37. ALCOHOL INCOME. WASHINGTON, July 12.—The Distilled Spirits Institute said today public revenue from alcoholic beverages last year hit a record total of \$2,703,500,000. This was \$708,000,000 higher than the 1943 figure, the institute said, and largely reflected the \$6 to \$9 a gallon liquor tax increase which went into effect April 1, 1944.

## Fort Worth War Plants Are In Need of Workers

FT. WORTH, July 12.—Asserting that many Fort Worth war plants are still "going begging" for personnel, despite production cut-backs that have displaced an estimated 11,000 persons here in the past two months, Area War Manpower Commission officials today recommended that all manpower controls in Tarrant county remain in force indefinitely. Committee members, headed by James R. Ellis, chairman, declared that most workers thrown out of jobs through cut-backs have already been absorbed in work-starved industries; that many others refuse to accept available jobs, and that many jobs are being offered for which qualified workers still are not available.

They are S. L. Myrick, Moran; Amos Myrick, Cisco; Mrs. John O'Bryan, Oklahoma City; Porter Myrick, Beaumont.

HERO WINS CMH — Lieut. Donald Pucket, Boulder, Colo., above, sacrificed his life just a year ago in the famous attack on the Ploesti oil refinery in Rumania. He attempted to land his flaming plane to save the lives of three hysterical crewmen who refused to obey his order to abandon ship. The plane crashed on a mountainside, killing Lieut. Pucket. For his courage he has been posthumously awarded the Congressional Medal of Honor. His wife, Mrs. Lorene J. Pucket, is pictured below as she received the news in Los Angeles.

# BRIEFLY TOLD

Pfc. Eugene Klinefelter, 19, and Pfc. Earl Gardner, patients at McCloskey General Hospital, Temple, guests here in the home of Mr. and Mrs. R. L. Ponsler for four days, have returned to Temple. Pfc. Klinefelter's home is in Rensselaer, Ind., and he is a second cousin of Mr. Ponsler, though the two had never met until Mr. and Mrs. Ponsler visited McCloskey hospital last week and prevailed upon their relative and his buddy to visit Cisco. Gardner's home is in Alabama. The young men soldiered together in France, where each lost a leg. Though still on crutches, these typically American youngsters are seemingly as cheerful as they might have been had they returned from the battle fronts uninjured, and both look forward to the time when modern artificial limbs will permit them to discard their crutches. While here they visited the bowling alleys and joined their host in the vigorous game of tennis.

Mr. and Mrs. Edward Downing of Lampasas are Cisco visitors, guests in the home of Mr. and Mrs. Allen C. Jones. Mr. Downing deals in cattle and will move here if a suitable house can be found. They are members of the Methodist church.

Also a guest in the Hanks home was a son Sterling Hanks, seaman of the first class, who recently arrived from overseas. Another son, Corp. Jack Hanks, is expected home from the European theater soon.

## PAPA COMES HOME FROM WORK

Won't it be a happy day for America when young fathers can get into citizens clothes and at a civil job once more?

Then when he comes home from work in the afternoon the little tots who have had no father for so long, can come screaming to meet him with shouts of joy and welcome.

Now how can we make it come true --- and soon?

By buying all the war bonds possible so that millions of bombs can be poured on the Japs to make their surrender all the sooner. It's just a matter of keeping it terrible enough so that the enemy, who insists on being annihilated, can be cleared out as rapidly as possible.

Then help the American Legion in its paper drives. Scrap paper is needed and Cisco should --- and will --- do its part.
