142 Eastland Co. Men Killed During Present War

RANGER, July 14. — From the beginning of selective service in 1940 to date, approximately 3,900 men and women from Eastland county have been called into the service of their country.

From this number there have been 142 deaths, 125 wounded and 50 missing in action. Of these losses Ranger has lost more than any other one town or community.

Of those killed 32 were from Eastland, 23 from Cisco, 44 from Ranger, 15 from Rising Star, 11 from Gorman, four from Olden and 13 from the various rural communities.

Of those wounded 25 were from Eastland, 13 from Cisco, 56 from Ranger, 1 from Rising Star, five from Gorman, three from Olden and seven from the rural communities of the county.

Of the 50 reported missing in action (some of whom may have recently been accounted for) five were from Eastland, 18 from Ranger, 12 from Cisco, four from Rising Star, five from Gorman, one from Olden and five from the rural sections.

Out of 260 Votes Only 50 Reneged on College Tax

Two hundred and sixty people participated in the election of Saturday to decide whether or not a tax of 20 cents on the \$100 valuation would be voted to insure the perpetuation and expansion of Cisco Junior College.

Of the total number of people voting, 210 favored the 20 cent tax, while 50 voted against it. In other words the vote was more than four to one in favor of the tax and Junior College.

While the vote was smaller than it should have been, members of the school board and friends of the college feel that it was a substantial victory for Junior College and the city in general.

School Tax Upped From 10 to 35c In Three Years

AUSTIN, July 14. — It is now evident that the total taxable values of Texas will have increased approximately \$100,000,000 over last year's assessments and that the state automatic tax board will face a grand total of \$4,132,554,143 in valuations when it meets to fix the state tax rate on July 20.

The board's work is already cut out for it to adopt the constitutional maximum of 72c to meet demands upon the state's revenues. The rate will be divided 35c for general fund, 35c to the public schools and 2c for Confederate pensions.

Record-breaking legislative appropriations call for the full 35c general fund assessment to pay off while the State Board of Education, under a new legislative permissive law, adopted a per capita apportionment of \$30 which requires the limit of 35c to meet it and the 2c pension tax is at statutory top. The board has no discretion in fixing the rate, the law prescribing the formula to be used, the income to pay the appropriations.

It is the new scholastic apportionment law that will force the total state tax rate upward. Compared to the coming 72c the last total state rate was 55c and 47c in 1943, increases of 17c and 25c, respectively.

The school tax was 10c in 1943 and 18c last year contrasted to the coming 35c this year.

The new law authorizes a per capita apportionment up to \$36, but not to call for a state school tax above the maximum of 35c which is calculated to pay off the new \$30 allowance per pupil, a record breaker in itself. Total assessed valuations were \$3,911,517,820 in 1943 and \$4,032,554,147 in 1944. With heavily increased valuations due to war industry and expansion the assessments this year will increase by \$100,000,000.

J. H. BURKETT PASSES.
J. H. Burkett, well known in Eastland county and father of the widely known Burkett pecan, died Monday in a Baird hospital and was laid to rest Tuesday in the cemetery at Clyde, his home for many years. He was born near Nashville, Tenn., May 7, 1861, and settled in Burnett county when the family came to Texas in his early youth. Survivors include two sons, Messrs. Joe and Omar Burkett; a daughter, Dr. Kay Grubbs, El Paso; twelve grandchildren and seven great grandchildren.

THREE DROWN IN WEEK
BROWNWOOD, July 14. — Don Robinett, 10, was drowned in five feet of water in a 15-acre take on the H. G. Lucas pecan orchard near here yesterday. The boy, son of Mr. and Mrs. Clarence Robinett, Brownwood, was playing on a raft. His death marks the third by drowning in Brown county within a week.

GETTING THE DETAILS—An Australian officer gives Gen. Douglas MacArthur detailed account of invasion of Balikpapan. At the same time that Aussie troops completed capture of oil refineries, Netherlands East Indies troops made two new amphibious landings above Pandansari oil area.

HOLY WATERS—In far off lands American fighting men pause in battle to follow the creed of their faith. Here Pfc. William G. Poll (left) of Adrian, Mich., is baptized in the Sulu Sea off Zamboanga in the Philippines by Chaplain Frank Trayler of Dallas, Tex. Men of 8th Army look on.

Two More War Prisoners Die on the Gallows

FORT LEAVENWORTH, Kan., July 14. — Two Nazi prisoners of war paid with their lives on the gallows of the U. S. disciplinary barracks here today for the murder of a fellow countryman whom they accused of dividing food "unfairly" between Americans and German prisoners at Aiken, S. C.

Supported by two chaplains and flanked by eight soldiers, the condemned men, Sgt. Erich Gauss, 32, and Pvt. Rudolf Straub, 39, walked about 200 yards from their cells to the same warehouse gallows where five other Nazis died Tuesday in the Army's first execution of enemy prisoners in this country.

The two Germans were convicted of slaying Horst Guenther, a fellow prisoner at Aiken, on April 5, 1944.

33 TRAFFIC DEATHS.

FT. WORTH, July 14. — Tarrant county counted its 33rd traffic fatality for the year today as funeral arrangements were being made in Crosbyton for a 60-year-old Primitive Baptist minister, fatally injured here while en route to a Baptist conference in Dallas. Rev. Alvin Walker Pyron died in a local hospital from injuries sustained when a big trailer truck, on which he was riding, collided with an auto.

NATURE STRIKES—A jagged streak of lightning crackles down on the dome of New York's Empire State Building. Photo was made split second after lightning hit world's tallest skyscraper.

INFANTRY MUST FINISH TASK

WASHINGTON, July 14. — Supplies are piling up in the Philippines, "warehouse" for our invasion of Japan. Congressional sources believe our forces in Pacific will be at their peak this fall. Some think Russia may move in on continent of Asia before then. They believe if we send invaders to the China coast, these operations will be only "diversionary." Congressmen with Navy sources say the Navy's lost all hope of Japan folding up from our air bombings. They look now for a fight to the death that might end in a year. Some say two. Apparently it adds up to this: Once more the doughfoot will have to administer the death blow.

There'll be changes in the Department of Labor — and in other Federal agencies dealing with labor — but not next week. Secretary Schweilenbach knows he has a ticklish job on his hands, is tackling it with caution. Meanwhile, John L. Lewis was among those labor leaders with whom Schweilenbach consulted since taking office. It was the first cordial visit the Mine Workers' leader has had with a high government official since before Pearl Harbor.

Sources close to President Truman say he will appoint John W. Snyder, now Federal Loan Administrator, to the job of War Mobilizer. Secretary of the Treasury Vinson kept that title when he moved over to the Treasury, but when Mr. Truman returns Vinson will relinquish it. Snyder is from St. Louis, a banker, close friend of the President.

Sandefur Thinks Big Bend Park to Surpass Others

FT. WORTH, July 14. — The belief that future crowds drawn by Big Bend Park will equal and surpass those of other national parks was expressed here by J. D. Sandefur, Breckenridge, member of the Texas State Parks board, in an address before members of the Optimist club.

Sandefur said that 150 cabins could have been used to accommodate this summer's vacationers, but that wartime shortages restricted the number of such accommodations to six. He added that the first cabin was rented by an out-of-state tourist.

FARMS FEWER, LARGER.

AUSTIN, July 14. — Wartime wages took many Texas sharecroppers to industrial jobs and were noted today as one of the causes for a reduced number of farms as shown in the county's 1945 census of agriculture. The incomplete report cites 65 Texas counties. In it was a decrease from 96,200 farms in 1940 to 93,848 this year. The farm acreage in 1945 was 42,202,512 compared with 40,433,966 in the same counties in 1940.

EASTUS REINSTATED.

WASHINGTON, July 14. — Clyde O. Eastus of Fort Worth, under suspension as U. S. district attorney for the Northern Texas District since April 7, will be reinstated effective Monday for the period remaining of his term, or until Aug. 4. Eastus has said he will not seek reappointment at the end of his term.

KAMAISHI, SEAPORT AND STEEL MILL CITY, SUFFERED HEAVY DAMAGE FROM 16-INCH SHELLS

PEARL HARBOR, July 14. — The American Navy's surface ships struck their most daring blow of the Pacific war today, subjecting the Japanese mainland to a two-hour bombardment, and leaving the Honshu port of Kamaishi in flames.

While at least nine battleships, cruisers and destroyers sent their great shells roaring ashore, a massive carrier force raced through the northern fogs to loose its planes against Northern Honshu and Southern Hokkaido.

The air strike began at dawn, and might well be continuing. The ships closed in to ranges of 5 to 18 miles to open fire on Kamaishi at noon.

Fragmentary reports from the Third Fleet, commanded by Admiral William F. Halsey, indicated there was no initial opposition from sea or air. Returning pilots, however, reported the ack-ack was heavy but inaccurate.

With the attacking force were some of the most powerful fighting ships afloat, including the 35,000-ton battleships Massachusetts, Indiana and South Dakota.

Added to the plunging fire of their 16-inch guns were the eight-inch shells of the 13,000-ton heavy cruisers Chicago and Quincy and the lighter fire of the destroyers Black, Erben, Heerman and Sutherland.

Kamaishi is an important seaport and steel mill city on the northern coast of Honshu, 275 miles north of Tokyo with a population before the war of 42,000.

Halsey's planes and carriers travelled almost 200 miles to the north to hit the chain of air-fields studding the northern tip of Honshu and the Hakodate section of Southern Hokkaido.

The blow against Hokkaido was especially hard to take because only last week it was considered a safe refuge for the bombed-out residents of Tokyo and other areas of Japan.

Enemy airfields on Formosa and on the southern home island of Kyushu were also heavily pounded.

From Manila came the report that Australian troops of the Seventh Division had hammered closer to the Sambodja refinery in East Borneo after completely cracking Japanese defenses northeast of the Manggar airfield.

Units of the British East Indies Fleet bombarded the Nicobar Islands, in the Indian Ocean north of Sumatra, heavily damaging radar installations and rendering most boats in the harbor unseaworthy.

U. T. Professor Agrees to Get Out, Stay Out

AUSTIN, July 14. — Dr. John Leo Abernathy, former assistant professor of chemistry at the University of Texas, was free from custody Saturday and court proceedings against him were in suspense conditioned on his observing an out-of-court agreement.

The agreement, made Friday with Acting University President T. S. Painter, was that Abernathy would absent himself from the campus and not attempt to teach.

It was made with Dr. Painter in private conference before Dr. Abernathy was scheduled to appear in 126th district court for a contempt motion hearing. In the conference the acting president served the former teacher with a certified copy of his dismissal from the faculty.

Truman to Leave Antwerp Today Enroute Potsdam

LONDON, July 14. — Advisors to the Big Three moved toward Potsdam Saturday for the opening of the conference next week of President Truman, Prime Minister Churchill and Premier Stalin.

Adm. Ernest J. King, en route to Potsdam by plane, passed through Paris, where he conferred with Vice Adm. Robert Lee Ghoramley, naval chief of the American occupation forces. U. S. Ambassador W. Averell Harriman was enroute to Potsdam from Moscow.

President Truman is scheduled to land at Antwerp Sunday and proceed by plane to Potsdam. Churchill will end his vacation at Hendaye over the weekend. Premier Stalin suspended two-week-old talks with Chinese Premier T. V. Soong to prepare for the conference.

Work Stoppage Is at New High Over Wide Area

WASHINGTON, July 14. — Work stoppages, fanned by labor disputes, spread over a wide section of the country Saturday, hitting a new high for the past several weeks.

There was trouble along the labor fronts in at least 27 cities, from Minnesota to the Atlantic Coast and south into Florida and Alabama. The number of idle touched around 50,000, an increase over a week ago.

There were several new disputes reported during the last 24 hours. Settlements were reported in three stoppages, but the number of workers removed from the strike lines totaled only about 1,000.

Of the approximately 50,020 men and women away from their jobs over labor controversies, more than 9,000 were coal miners in Illinois, Pennsylvania, Ohio and Kentucky.

The latest trouble between newspapers and the International Typographical Union closed three papers in Birmingham, Ala.

THREE MORE SUSPECTS.

FT. WORTH, July 14. — Polio cases here remained at 17 Saturday, while three children with possible cases of polio were placed under observation at City-County hospital. Meanwhile, hospital attendants reported they were gratified at the response to an appeal made Friday for wool blankets to be used in treating polio victims.

THE STRAITS AGAIN.

The Dardanelles are hobbing up again as a diplomatic problem. These straits from the Black Sea are Russia's only outlet to the Mediterranean. They are vital to Turkey on the south shore.

By a 1938 agreement signed at Montreux, Switzerland, Russia and two other Black Sea powers, Romania and Bulgaria, may use the Dardanelles freely in peace time but may not send warships through during a war. Now Russia would like to abolish this restriction.

Other nations, besides those bordering on the Black Sea, are concerned. Great Britain, Greece, Australia, France and Japan all signed the Montreux agreement. Japan's wishes will not be considered, and France's are unknown. The other countries are expected to stand together.

How will they stand? In 1878 Great Britain risked war with Russia to keep the Dardanelles closed. In 1915 the British suffered a great defeat at Gallipoli when attempting to open the straits and send the Russians war supplies. This time they will probably yield to Russian wishes, but for a price. The price is yet to be revealed.

Ultimate Costs, Seen and Unseen... are all paid for by the consumer. The farmer sells his bale of cotton for \$100.00, and we buy it back in suits of clothes for \$1,000.00. Same old cotton except the looks, design, color, wage, transportation, rent, storage, interest, commission, profits and taxes—many kinds of them. Like the bale of cotton, the abstract, too, must bear its myriad of operating costs but well worth it as it is the basis of your title security and your protection against fraud. PAPA COMES HOME FROM WORK
Won't it be a happy day for America when young fathers can get into citizens clothes and at a civil job once more?
Then when he comes home from work in the afternoon the little tots who have had no father for so long, can come screaming to meet him with shouts of joy and welcome.
Now how can we make it come true --- and soon?
By buying all the war bonds possible so that millions of bombs can be poured on the Japs to make their surrender all the sooner. It's just a matter of keeping it terrible enough so that the enemy, who insists on being annihilated, can be cleared out as rapidly as possible.

Then help the American Legion in its paper drives. Scrap paper is needed and Cisco should --- and will --- do its part.

COUPLE HONORED WITH MISCELLANEOUS SHOWER.

Mrs. W. W. Fewell, Mrs. E. J. Poe and Mrs. F. E. Shepard were hostesses Friday evening with a miscellaneous surprise shower honoring Mr. and Mrs. Clifford Thomas. Mr. Thomas had been told of the shower as the couple had made plans to be away, but the event came as a complete surprise to the wife. She had been requested by her sister to go to the Fewell home for some peaches and upon arriving observed a number of her friends were there, but was told by Mrs. Fewell to come back later for the peaches. Mrs. Thomas returned home and confided to her mother that she believed they were having some kind of party, but as she knew nothing of it she hesitated to return.

The spacious rooms of the Fewell home were gay with decorations of seasonal cut flowers. Guests were greeted informally by Mrs. Fewell and were directed to the table where Miss Doris Thomas was in charge of the guest book and refreshments were served in the dining room. The dining table, overlaid with hand made lace cloth, held a centerpiece of yard flowers. Punch was served by Mrs. Jimmie Jean Johnson and refreshment plates of cookies and mints were passed by Mrs. Martha Roark and Miss Norma Johnson.

When the guests were seated after the serving a program of music was presented, as follows: Piano solo, Miss Cathryn Shepard; vocal solo, Miss Bonnie Jean Wilson, accompanied at the piano by Miss Betty Slicker; violin solo, Miss Dorothy Nell Pugh. A vocal number by the girls' trio, composed of Misses Bonnie Jean Wilson, Dorothy Anderson and Cathryn Shepard, closed the program.

Several peppy games were directed by Mrs. E. J. Poe, the last one being for couples, who were given strings which they were to follow. The strings were held by the honored couple and led to the adjoining room where a lovely array of gifts were displayed. The couple was told that the gifts were brought for them and Mr. and Mrs. Thomas were indeed surprised at the turn of affairs and thanked their friends very heartily for their kindness in tendering the shower.

Those present were Mr. and Mrs. Clifford Thomas, Mrs. Dick Thomas, Miss Doris Thomas, Mrs. Mitford Johnson, Mrs. W. C. Clements, Rev. and Mrs. Arthur
