NUMBER 229.

# RUSSIA ENTERS THE JAP WAR

PROSIT-Another of Danish photog Herloff's pictures, taken under noses of Gestapo just before Russians entered Berlin, shows team of oxen hitched to beer wagon as Berliners used every available means of transportation. Heinies had to have their beer, war or no war. In making these pictures, Herloff posed as a Nazi, entered Germany and got a job with UFA, big film company in Berlin. Films were smuggled out of Germany in match boxes and other devices, forged "Passed by censors" stamps being used where larger consignments were to be shipped out of the country.

Painter, of Charles Town, W. Va., is as surprised as agronomists at his plant, which grows potatoes and tomatoes on the same vine.

EASTLAND

Talking Is All Right ---

.... if you are running for office or courting your best

girl but when it comes to buying land or town proper-

ties don't let any one talk you out of an abstract. The

fact that the seller has owned the land for many years

doesn't mean that the title is always good. The safest

plan is to get an abstract before you buy. The cheap-

est property on earth is too high if the title is faulty.

carry vital calls for the Pacific war

Right after Pearl Harbor the Bell Sys-

tem began planning and building for the

day when the West Coast would become

the chief base for the all-out war in the

Pacific. The result of that building pro-

gram is an expanded cross-continent

network of long distance telephone

lines, ready now to carry a growing load

of calls to the West by the armed forces

Especially vital in preparing for the in-

creased volume of war calls to the West

Coast was the laying in 1943 of a 1,600-

mile telephone cable from Omaha to

Sacramento. Buried in deserts and

blasted into the solid granite of the

Sierras, it provides the last link in a

practically stormproof cable from the

industrial centers of the East to the

## Finest Petroleum Products

In Texas the name Humble has long stood for top quality petroleum products.

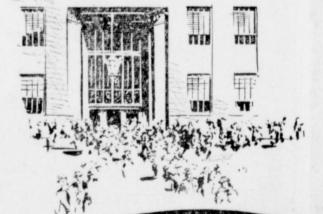

The same skill and resources that produce Humble quality gasolines and motor oils go also into the making of all other Humble products: Industrial, farm, aviation and marine fuels and lubricants, rust preventives, household and automotive specialties.

The urgent needs of war have widened the scope and accelerated the pace of Humble research; out of this will come still finer products for the needs of tomorrow.

Meanwhile, the vast resources built up by Humble in years of peace, are being used by a great organization to continue to make significant war production records.\*

## 14,000 DETERMINED TEXANS

These men and women in every occupation from stenographers to stillmen are working together as a single team toward one goal - supplying Oil for Victory. And the 3000 members of the Humble family serving in the Armed Forces are a constant reminder to these workers that the job isn't over until the last of our soldiers come home.
