Proprietary Spirit Curse of Universities Today, Says Dr. Eby

AUSTIN, Aug. 10. — The entire educational structure must be freed of politics and the deadly hand of amateur lay control and there must be a new conception of education to prevent the temptations which have raged around state universities, including Texas, a University of Texas professor declares.

Dr. Frederick Eby, professor of history and philosophy of education, told the opening session of the University Institute of Professional Relations of Teachers that too many groups have no clear conception of what a university is and have tried to wrest it from its high purpose to their own personal interest.

"There exists at present the utmost confusion as to the real functions of the school in human society," Dr. Eby said. "Some think of education as a function belonging to the family, others to the church, and the popular conception these hundred years is that education belongs to the state.

"It is impossible to overestimate the fact that education does not belong to the state as to any one group, nor to any wolf pack or movement."

"This is the key to the tempests that from time to time raged around state universities, such as Mississippi, Louisiana, Georgia, and Texas. It has many angles, both within and without. The faculty, individuals, economic groups, politicians, state authorities, playboys who have no clear conception of what a university really is have tried to wrest it from its high purpose to their own personal interests.

"A university does not belong exclusively or at all to the state; no institution of learning or school can be properly conceived as belonging to any particular group of people, religious denomination. This conception that universities belong to the state, or to a wolf pack has just received a death blow in the utter defeat, humiliation and destruction of German totalitarianism."

Ignorant people imagine the Southern Association of Colleges and Secondary Schools is asserting illegal authority over the conduct of Texas institutions, and that other organizations whose headquarters are as far removed as New York City do the same, Dr. Eby asserted.

"They conceive all this to be gratuitous meddling of outsiders," he declared. "These poor souls simply do not know what a university is, nor yet what a school

is. If you will reflect upon the term university you will soon appreciate that a university is an institution that has some universal reference about it, as the word implies. Universities have always been above popes, emperors, kings, states and all other authority whatsoever. These potentates have established, supported and fostered schools and universities from Ptolemy down to today; but they were all merely patrons, not owners, trustees but not masters, regents but not bosses.

The curse of universities is the proprietary spirit, whether this is exerted by alumni interested in athletics, or by politically-minded professors and deans ambitious to rule over scholars, rather than to be scholars themselves.

Pointing to the lack of qualifications for appointment to any sort of educational board in Texas, the veteran professor cited qualifications required of members of the State Board of Medical Examiners, Board of Pharmacy, Board of Optometry and others.

By comparison with these, which require persons of education and experience for the positions, the requirements for education boards state simply that "each member shall be a citizen of at least 30 years of age, and otherwise qualified to vote," Dr. Eby pointed out.

Rotary Governor Be Here Wednesday, August 22

W. W. Fewell, president of the Cisco Rotary club, received word today that Charles S. Peyton of Cleburne, Rotary governor for this district, will arrive here Wednesday, August 22, for a special meeting at Laguna Hotel that night with all club officers and committeemen.

Governor Peyton, who is well known and popular here, though this will be his first visit as governor, will be in charge of the program at the luncheon next day, Mr. Fewell stated. Program previously arranged for August 23 will be advanced one week, the president added.

Walther Leaguers Expect Big Time at Lake Sunday

The Walther League Camp at Lake Cisco, which is being attended by Lutheran young people from a wide area, is thoroughly enjoying its second day at the camp grounds, Rev. G. T. Naumann stated this morning.

There will be no Sunday school or other services at Grace Lutheran church Sunday, in order that the congregation may attend the big Bible class and other services at the camp. Rev. H. Wiederanders of Abilene will speak on the theme, "Is It Well With Thee?" Campers and other worshippers will join in eating dinner at the camp dining hall.

Today's program includes a hike at sun down, which will end at a scenic point near the lake, where vesper services will be conducted by Rev. K. Keller of Lubbock. Subject of Mr. Keller's lecture today will be "Onward, Fellow Lutherans." Tomorrow he will conclude his lectures with "Onward, Walther Leaguers."

Mother of Eastland Lawyer Dies at Clovis, N. M.

Mrs. J. E. Sparks, mother of Atty. Frak Sparks of Eastland, died at the home of her daughter in Clovis, New Mexico, Sunday. Funeral services were conducted from the Presbyterian church in Clovis Monday afternoon.

Deceased was 76 years of age and spent a great part of the past two years in Eastland in the home of her son and his family.

Mr. Sparks flew to Clovis Saturday and was with his mother at the time of her death. Mrs. Sparks and children went Monday in time for the funeral.

THE RISING STAR, Aug. 10. — The school board announces September 3 as the date for opening the fall school term. It was also stated that Wilburn Scott has accepted the principalship and that teachers have been secured for all places.

NO FURTHER STATEMENT FROM WHITE HOUSE TODAY OR TONIGHT, SECRETARY ANNOUNCES

By UNITED PRESS

WASHINGTON, Aug. 10. — Bomb-blasted and beleaguered Japan today offered officially to surrender to the Allies.

The White House announced that this government is consulting on the offer with Russia, Great Britain and China.

White House Press Secretary Charles G. Ross confirmed the Japanese bid, which had been broadcast earlier over Tokyo radio, in a statement at 2:38 p. m. CWT.

His statement followed shortly on receipt of dispatches from Berne and Stockholm reporting that Japan had submitted messages for delivery to the Allied governments by Switzerland and Sweden.

Ross told reporters that "our government, through its regular diplomatic channels, is in communication with Great Britain, Russia and China regarding the Japanese surrender offer."

He added that "this is all that can be announced at this time."

He said no further White House statements would be forthcoming today or tonight — meanwhile the war was not over.

It was pointed out that even if the Allies find the Japanese surrender offer acceptable, the mechanics of implementing it may take some time.

Abilene Prepares Campbell of Katy to Take Day Off is Now Assistant For Victory Day General Manager

ABILENE, Aug. 10. — A very simple, easy-to-understand program of Abilene's celebration of V-J Day was adopted this morning by members of the retail trade committee of the chamber of commerce in a called session in the office of the organization.

The program calls for all business concerns to be closed on the day officially designated as Victory Day by President Truman. However, the entire town is asked to close immediately after the official announcement that peace has been declared. If that day happens to be named by the president as official Victory Day, stores will remain closed that day only.

This means that if the news of surrender should be received late in the day, and if the president proclaims the next day as the official time for celebration, all stores will close immediately after the first announcement and remain closed that afternoon and V-J Day, too.

PREMATURE JOY.

OKINAWA, 9:30 P. M., Aug. 10. American troops went wild on this island they conquered less than two months ago today when they heard radio reports that Tokyo had said Japan would accept the Potsdam surrender ultimatum. They fired off guns and flares. Tracers criss-crossed the sky. Men yelled and beat on buckets. They hammered one another's backs shouting: "The war's over."

TO RESTOCK RANGES.

AUSTIN, Aug. 10. — The game department will begin its annual deer and turkey trapping operations Oct. 1, to restock ranges.

BIG BIRDS—Four noted World War II Boeing planes are shown on display at municipal airport in Wichita, Kans. From left to right are the C-97, its double-decked fuselage dwarfing the others; its sister ship the B-29 Superfortress; the B-17 Flying Fortress and the sturdy P-17 Kevlar trainer.

Gallup Poll Says 75 Pct. Against the Closed Shop

PRINCETON, N. J., Aug. 10. — One of the great tasks which union leaders have long faced is winning support of the American people for the "Closed Shop," which requires that a man belong to a union before he can be hired for a job.

The unions have gained little if any ground in winning public support for the closed shop during three and a half years of war. But the American public remains nearly 6 to 1 opposed to the idea.

In October, 1941, just before Pearl Harbor, 77 percent of the people questioned by the Institute across the country said they did not favor the closed shop.

Today, a similar survey finds 75 percent saying they do not favor the closed shop.

The question was identical in both surveys: "Are you in favor of the closed shop — that is, requiring every worker in a company to belong to a union before he can be hired?"

WAR COMES TO THE WAR OFFICE—Sight-seeing American soldiers pass the shattered ruins of Berlin's War Office and Admiralty Building.

Somebody Is Tapping Houston's Natural Gas Tank

HOUSTON, Aug. 10. — Investigations were underway today in Houston to ascertain why nearly half of the gas in the city's own Magnolia Park distributing plant is missing.

The natural gas is purchased by the city and sold to some 6000 customers in the Magnolia Park section.

However, an examination of the July operating report showed that 47 per cent of the 29,762,000 cubic feet of gas which the city bought for the month was "unaccountably lost" before it reached customers' meters.

Investigators are convinced that leaks in mains were not large enough to account for the unusually heavy losses.

V-J DAY SERVICES.

Rev. J. R. Wright, pastor of First Christian church, announces that when the war with Japan has been officially declared at an end, special services will be held at his church as follows: If in the morning, a service will be held at 11 a. m. If in the afternoon, the meeting will be held at 8:30 that night.

Tokyo Is Still Silent on Fate of Nagasaki Nips Field Necessary

GUAM, Aug. 10. — A 20,000 foot pillar of smoke and dust, fringed at its base by fires, told with eloquent silence the fate of Nagasaki but prevented accurate assessment of the damage done by the second atomic bomb dropped on Japan.

General Spaatz, chief of the U. S. Army Strategic Air Forces, said today that results of the bombing were undoubtedly "good" but that three and a half hours after the mighty atom was dropped at noon yesterday, smoke still obscured damage from a photo reconnaissance plane.

With radio Tokyo totally silent on the atomizing of Nagasaki, there was no other information on the awful fate of the western Kyushu seaport of 255,000 population.

First reports from Hiroshima, which later was shown to be 60 percent destroyed, also were merely that that military city of 343,000 was blanketed by smoke and dust. The world's first atom bomb smashed 4.1 of Hiroshima's 6.9 square miles Monday. Radio Tokyo added that "practically every living thing" there was destroyed.

Every Cisco man who will assist in repairing the stands at Chesley Field, prior to their painting, is requested to report to the field at 8 p. m. Monday, with a saw, hammer and square, if he has such tools.

Decayed boards in the stands have been marked and lumber has been purchased by the Athletic association for replacements.

The association, which has raised funds for lighting the field and improving the stands, and it is hoped, for building a field house, must depend upon voluntary labor for this carpentry work. Joe Edly Hayes, president, explained. He said he hoped that there will be a good response to his appeal, so the work may be completed quickly.

The gridiron, recently rid of the heavy grass which grew during the summer, is greening up beautifully, Mr. Hayes said. The turf is among the best in this section. Lights for the field should arrive within the next two or three weeks.

NAVY LOSSES UP.

WASHINGTON, Aug. 10. — A sharp rise in Navy losses has boosted combat casualties of the armed forces to 1,068,216. This figure, reported last night by the Army and Navy was 7,489 higher than reported last week.

DRAFT ENDS WITH WAR.

WASHINGTON, Aug. 10. — A Japanese surrender will find Congress ready to put an immediate end to the draft. Congressional leaders made this known today.

MODEST QUANTITY OF OIL.

WASHINGTON, Aug. 10. — Russia has only been receiving a "modest quantity" of petroleum from this country by way of the Pacific Petroleum Administration for War reported Friday.

Fancy Potatoes
With meat scarce, why not let potatoes take a leading role on the dinner menu?
Dressed up with Scallion Sauce and delicately browned in garlic-flavored salad oil, new potatoes will earn well-deserved applause as a gourmet's delight.
This potato recipe would be particularly appropriate with cold cuts, and is good with any kind of fish.

New Potatoes with Scallion Sauce
(Serves 6)
12 medium-sized new potatoes
1/2 cup bottled salad oil
1 clove garlic
1 cup scallions or green onions, sliced
2 tablespoons vinegar
1/2 teaspoon salt

Scrub potatoes, do not peel. Cook in salted water until tender, then remove skins if desired. Heat oil in skillet. Add garlic and potatoes and cook until potatoes are lightly browned. Remove potatoes to heated dish and keep warm. Discard garlic, then simmer scallions in oil for about five minutes or until tender. Add vinegar and salt and heat until mixture bubbles. Pour sauce over potatoes and serve at once.
