SHIRT SUNLAMP—Ultraviolet rays from the same type sunlamp used to produce indoor suntan on humans, new process developed by Westinghouse Lamp Division engineers removes a scorch in 10 minutes by forcing moisture back into the parched fibres, restoring scorched shirts to their original whiteness. Speeds production, also.

54 PLEDGE AID TO CITY FATHERS

Fifty-four men and women of Cisco have signed a statement in which all citizens are asked to lend a hand in making Cisco what it once was — one of the cleanest towns in Texas.

Recognizing that to be successful the sanitary movement must be fathered by the city commission and its health department, the signers pledge their personal cooperation to these two bodies in every way possible. The statement:

"We, as loyal, interested citizens, herewith ask the help of all Cisco people in making our town what it once was — one of the cleanest towns in Texas.

"We recognize the shortage of labor, the difficulty of finding the right person for the right work, but having all patience with such conditions, we know that much should and could be done that is now left undone.

"We want to see Cisco clean of weeds — all unsightly lots cleaned; we want our town clean from a health standpoint, with all eating places operated according to state laws; where cows, horses or pigs are kept within the city limits, all such places carefully and regularly inspected; that all public buildings be maintained in strictly sanitary manner.

"This being our earnest desire, and the goal we hope to attain, we respectfully ask our city government, cooperating with the health department, to see that all sanitary laws are fully enforced — that the health of the citizens of Cisco be at all times conscientiously guarded.

"To this desirable end we, the undersigned, sincerely pledge to the city commission and its health department our best efforts, collectively and individually." Signed:

DEMOBILIZATION PLAN.
WASHINGTON, Aug. 11. — The Army has a V-J plan for demobilization, it was learned today. Details are top secret but informed sources figure on a reduction to 3,000,000 men a year after surrender.

DESTROYER ESCORT LOST.
WASHINGTON, Aug. 11. — The destroyer escort Underhill has been lost to enemy action off the Philippines with loss of 112 officers and men. The Navy listed 14 dead and 98 missing including the vessel's commander.

AND PEOPLE LATER BE GIVEN CHANCE TO FORM OWN GOVERNMENT, IS ANSWER OF ALLIES

Superforts Continue Pounding Treacherous Nips

WASHINGTON, Aug. 11. — The Pacific War Allies today replied to Japan's surrender plea that Hirohito retain his sovereign prerogatives, with a brusque statement that the emperor and the Japanese government will be subject, on surrender, to the supreme commander of the victorious occupying powers. Also that a government be ultimately established in accordance with "the freely expressed will of the people."

The emperor will be required immediately to order all Japanese armed forces to cease active operations and to give up their arms.

This reply to Japan's plea that Hirohito retain his position after the empire's surrender was delivered by the United States in behalf of the other Allies to the Swiss legation here at 9:30 a. m. (CWT).

The note was expected here to bring V-J Day to victorious realization within a matter of days.

Chairman Tom Connally of the Senate Foreign Relations Committee predicted flatly today that "Japan will accept the terms demanded" for her surrender.

Connally told reporters: "Japan had her neck under the raised guillotine. It was surrender or death. She will accept the terms demanded."

Connally said that the peace terms were agreed upon by the Big Four Nations because "no single power can dictate all the terms of surrender. They must act in unity."

Connally said that President Truman "has rendered a monumental service in bringing about the end of the war."

"It will save the lives of many thousands of gallant American soldiers and sailors," Connally said. "It will bring boys out of fox holes and jungles and off dangerous seas and restore them to their homes."

Communist Chief Acts.
SAN FRANCISCO. — The Yanan radio reported today that Gen. Chu Teh, Chinese Communist Commander-in-chief, has ordered his forces to arrange for the disarming of Japanese and puppet troops in the Communist zones of operations. Gen. Chu interpreted the Japanese government's peace offer as "unconditional surrender," the Yanan report said.

O'Connor Names Abilene Man as Texas Polio Aid

NEW YORK, Aug. 11. — The appointment of Wilmer Sims, of Abilene, Texas, as assistant to the state representative for The National Foundation for Infantile Paralysis was announced by Basil O'Connor, president of the organization from national headquarters, 120 Broadway.

Mr. Sims will assist Mrs. George Pittman, state representative of the National Foundation for Infantile Paralysis, and will work out of Texas state headquarters in the Stoneleigh Hotel, Dallas.

A native of Hillsboro, Texas, Sims attended Hillsboro Junior College, Baylor University and received his BA degree from the University of Colorado in 1931.

Prior to his appointment as assistant to the state representative, Sims served as chairman of the Taylor county chapter of the National Foundation. He also served several terms as Taylor county chairman of the Red Cross and has been active in war bond drives and Lions club activities.

V-J DAY TO BRING HECTIC PERIOD

WASHINGTON, Aug. 11. — End of the war is going to be more hectic than the start. It took years to build the world's greatest war machine. Taking it apart — fast — without wrecking the economy — is ticklish job we've done yet. Decisions of next few days and weeks, manner in which they are carried out, may determine whether a prosperous peace or a postwar depression comes next. Some government plans are ready. You'll hear them, in detail, as soon as it's all signed and sealed. Few are already operation. Meanwhile, here's a preview.

Your Men: The killing will be over, but don't expect to see them soon. It's three months since V-E day, but only 750,000 of 3,000,000 American soldiers in the ETO are home. Shipping is the bottleneck. It takes three times as long to cross Pacific as Atlantic. Able-bodied men who have not had overseas duty probably will be shipped. Army has not altered policy of marking these for replacements. No figures yet on size of our Pacific army of occupation. It's 400,000 to 500,000 in Europe. Best guess here is it will be smaller in Pacific.

The draft? Congress probably will have to decide. Question is whether occupation armies are to be made up of men already in uniform or of newly drafted eligibles who haven't had a taste of it yet. Selective Service says it will keep on drafting men, as the Army and Navy asks for them, until President proclaims end of hostilities, or until Congress stops it. Present mood of congressmen now in Washington is to stop drafting — but it hasn't heard from families of servicemen long overseas.

Your Job: You may be out of work this week, depending on the sort of job you have. Wires cancelling munitions contracts will go out on V-J Day, from Army and Navy. Ordnance, chemical warfare, Signal Corps and other technical services were writing the wires Friday. Cancellations will hit makers of ammunition, guns, tanks, first. Ninety per cent of Army Service Forces' munitions orders will be killed within 48 hours of V-J proclamation. War mobilization and reconversion act passed last winter forbids continuation of war contracts "merely for the purpose of providing business and employment." Ship repair is likely to go on. So will construction of vessels now on the ways. Some Navy vessels now in blueprint stage may be built to fill gaps in our sea-going force. Best guess is that most airplane contracts will be cancelled, except possibly for passenger planes like the C-54. They'll probably be needed to help shift men across oceans.

Your Food: Rationing will end almost immediately on canned goods, on most other things within a few months. There should be beef and butter for civilians soon. Sugar shortage will run through 1946, though rationing may be dropped earlier. Our government owns practically all the sugar in the world; we're under obligation to give some to others.

Army won't finish taking inventory of its food stocks till Sept. 1. Look for a general loosening up about that time.

Abilene Mother's View is Held By Most Americans

ABILENE, Aug. 11. — "There must be no condition to Japan's surrender," Mrs. E. V. Smith of Abilene, who has learned her son died more than two years ago in a Japanese prison camp, declared emphatically this morning.

"The Japs have proved they have no respect for human life. They must be absolutely conquered and if we let them make conditions they will not be completely whipped.

"Let us stay in and finish the job," she begged. "The atomic bomb is terrible, but thank the Lord we have it. Let's give it to the Japanese hot and heavy."

"And I know my son who is gone would agree with me—he would want to finish the war and the Japanese."

56 POLIO CASES.
FT. WORTH, Aug. 11. — Diagnosis of three patients as having positive polio brought the total number of cases here to 56 today, with 39 patients undergoing treatment at City-County Hospital, and 17 continuing treatment at their homes. Three other patients were at the hospital today awaiting diagnosis.

THEY ARE BLUFFING.
LONDON, Aug. 11. — The Swiss radio said today that Tokio broadcasts heard in China said "a party has appeared to oppose Japan's capitulation." The Swiss broadcast, recorded by the Associated Press, said the opposition was headed by the Japanese war minister.

DEATH OF CISCOAN.
A casualty list issued Saturday by the office of war administration carried the name of Marine Pfc. John Cefus Day as among the dead. The communication said he was the husband of Mrs. Virginia M. Day of Cisco.

HOLIDAY WITH PAY.
DALLAS, Aug. 11. — Clifford W. Potter, regional vice-chairman of the War Labor board, announced that the WLB has approved a V-J Day holiday for workers, with pay.

LUCKIEST UNLUCKY PILOT—Lt. (jg) Alvin E. Levenson (right), of Brooklyn, N.Y., who eight weeks ago survived a 1500 foot fall without a parachute from Heildelberg after collision-explosion in mid-air, returns from Kure Naval Base raid with 14 flak holes in plane. He is congratulated by RM2/G Richard E. Savner.

Lutherans Will Conduct All-day Services at Lake

Lutherans and their friends will gather at the camp at Lake Cisco this morning for Sunday school, Bible class and general services. The public, says Rev. G. T. Naumann, pastor of Grace Lutheran church, is cordially invited to attend and join in the worship.

Those who can't bring their own lunch may buy their dinner on the grounds for 50 cents.

Social hours of recreation have been planned for the afternoon, though many of the campers from a distance will start the homeward trek soon after luncheon. Supper will be served to those who can stay and after supper the camp will close.

Saturday morning Pastor Keller of Lubbock brought out in his lecture that the Lutheran organization of the Walthers League is international in scope. This league had its beginning in Buffalo, N. Y., 42 years ago, and has grown from 12 societies to 2,700, with a membership of 7,000, being the second largest youth organization in the world. The Boy Scouts of America occupy first place.

The Walthers League has established and is maintaining by means of the sale of Christmas seals a large sanatorium at Wheatridge, Colo. During the past years this organization has collected \$500,000,000 to provide service men with suitable religious literature.

"The enthusiasm with which the campers supported this first attempt of a Walthers League camp at Cisco gives us high hopes the undertaking will become an annual local affair," said Mr. Naumann.

Seaman Eudy Will Rejoin Ship After 9 Days at Home

J. M. Eudy, Jr., seaman of first class, will leave today to rejoin his ship after an unexpected nine-day visit in Cisco with his parents, Mr. and Mrs. J. M. Eudy, 1006 West Ninth street.

Seaman Eudy joined the navy August 25, 1942, and has seen service in practically all areas of the South Pacific. His first Christmas was spent in New Caledonia and he has been in the Solomons, at Leyte, Luzon, New Guinea, Fiji and Gilbert Islands.

The Ciscoan was in one battle that lasted nine days and nights. His ship barely missed being torpedoed twice during that battle

ADMIRAL FIT—Aware that the Navy does not issue saddles, Junior Chamber of Commerce of Reno, Nev., will send this masterpiece of leather and silver work to Admiral Halsey for his ride down Tokyo main street on fancy white horse of the Mikado. Nevada silver was used by local silversmiths for the Mikado. Silverwork was used by local saddle makers tooled the 110 pieces of silverwork, old-time saddle makers tooled the leather. Saddle is valued at \$2000.

Scallion Sauce makes a gourmet's dish of ordinary boiled potatoes.

will earn well-deserved applause as a gourmet's delight.

This potato recipe would be particularly appropriate with cold cuts, and is good with any kind of fish.

New Potatoes with Scallion Sauce
(Serves 6)

12 medium-sized new potatoes
1/2 cup bottled salad oil
1 clove garlic
1 cup scallions or green onions, sliced
2 tablespoons vinegar
1/2 teaspoon salt

Scrub potatoes, do not peel. Cook in salted water until tender, then remove skins if desired. Heat oil in skillet. Add garlic and potatoes and cook until potatoes are lightly browned. Remove potatoes to heated dish and keep warm. Discard garlic, then simmer scallions in oil for about five minutes or until tender. Add vinegar and salt and heat until mixture bubbles. Pour sauce over potatoes and serve at once.

WASHINGTON, Aug. 11. — End of the war is going to be more hectic than the start. It took years to build the world's greatest war machine. Taking it apart — fast — without wrecking the economy — is ticklish job we've done yet.

Decisions of next few days and weeks, manner in which they are carried out, may determine whether a prosperous peace or a postwar depression comes next. Some government plans are ready. You'll hear them, in detail, as soon as it's all signed and sealed. Few are already operation. Meanwhile, here's a preview.

Your Men: The killing will be over, but don't expect to see them soon. It's three months since V-E day, but only 750,000 of 3,000,000 American soldiers in the ETO are home. Shipping is the bottleneck. It takes three times as long to cross Pacific as Atlantic.

Able-bodied men who have not had overseas duty probably will be shipped. Army has not altered policy of marking these for replacements. No figures yet on size of our Pacific army of occupation. It's 400,000 to 500,000 in Europe. Best guess here is it will be smaller in Pacific.

The draft? Congress probably will have to decide. Question is whether occupation armies are to be made up of men already in uniform or of newly drafted eligibles who haven't had a taste of it yet.

Selective Service says it will keep on drafting men, as the Army and Navy asks for them, until President proclaims end of hostilities, or until Congress stops it. Present mood of congressmen now in Washington is to stop drafting — but it hasn't heard from families of servicemen long overseas.

Your Job: You may be out of work this week, depending on the sort of job you have. Wires cancelling munitions contracts will go out on V-J Day, from Army and Navy. Ordnance, chemical warfare, Signal Corps and other technical services were writing the wires Friday. Cancellations will hit makers of ammunition, guns, tanks, first. Ninety per cent of Army Service Forces' munitions orders will be killed within 48 hours of V-J proclamation. War mobilization and reconversion act passed last winter forbids continuation of war contracts "merely for the purpose of providing business and employment."

Ship repair is likely to go on. So will construction of vessels now on the ways. Some Navy vessels now in blueprint stage may be built to fill gaps in our sea-going force. Best guess is that most airplane contracts will be cancelled, except possibly for passenger planes like the C-54. They'll probably be needed to help shift men across oceans.

Your Food: Rationing will end almost immediately on canned goods, on most other things within a few months. There should be beef and butter for civilians soon. Sugar shortage will run through 1946, though rationing may be dropped earlier. Our government owns practically all the sugar in the world; we're under obligation to give some to others.

Army won't finish taking inventory of its food stocks till Sept. 1. Look for a general loosening up about that time.

SHIRT SUNLAMP—Ultraviolet rays from the same type sunlamp used to produce indoor suntan on humans, new process developed by Westinghouse Lamp Division engineers removes a scorch in 10 minutes by forcing moisture back into the parched fibres, restoring scorched shirts to their original whiteness. Speeds production, also.

Seaman Eudy Will Rejoin Ship After 9 Days at Home

J. M. Eudy, Jr., seaman of first class, will leave today to rejoin his ship after an unexpected nine-day visit in Cisco with his parents, Mr. and Mrs. J. M. Eudy, 1006 West Ninth street. Seaman Eudy joined the navy August 25, 1942, and has seen service in practically all areas of the South Pacific. His first Christmas was spent in New Caledonia and he has been in the Solomons, at Leyte, Luzon, New Guinea, Fiji and Gilbert Islands.

The Ciscoan was in one battle that lasted nine days and nights. His ship barely missed being torpedoed twice during that battle

ADMIRAL FIT—Aware that the Navy does not issue saddles, Junior Chamber of Commerce of Reno, Nev., will send this masterpiece of leather and silver work to Admiral Halsey for his ride down Tokyo main street on fancy white horse of the Mikado. Nevada silver was used by local silversmiths for the 110 pieces of silverwork, old-time saddle makers toolled the leather. Saddle is valued at \$2000.

LUCKIEST UNLUCKY PILOT—Lt. (jg) Alvin E. Levenson (right), of Brooklyn, N.Y., who eight weeks ago survived a 1600-foot fall without a parachute from Heister after collision-explosion in mid-air, returns from Kure Naval Base raid with 14 flak holes in platoon. He is congratulated by RM2/G Richard E. Saver.

Lutherans Will Conduct All-day Services at Lake

Lutherans and their friends will gather at the camp at Lake Cisco this morning for Sunday school, Bible class and general services.

The public, says Rev. G. T. Naumann, pastor of Grace Lutheran church, is cordially invited to attend and join in the worship. Those who can't bring their own lunch may buy their dinner on the grounds for 50 cents.

Social hours of recreation have been planned for the afternoon, though many of the campers from a distance will start the homeward trek soon after luncheon. Supper will be served to those who can stay and after supper the camp will close.

Saturday morning Pastor Keller of Lubbock brought out in his lecture that the Lutheran organization of the Walther League is international in scope. This league had its beginning in Buffalo, N. Y., 42 years ago, and has grown from 12 societies to 2,700, with a membership of 7,000, being the second largest youth organization in the world. The Boy Scouts of America occupy first place.

The Walther League has established and is maintaining by means of the sale of Christmas seals a large sanatorium at Wheatridge, Colo. During the past years this organization has collected \$50,000,000 to provide service men with suitable religious literature.

"The enthusiasm with which the campers supported this first attempt of the Walther League camp at Cisco gives us high hopes the undertaking will become an annual local affair," said Mr. Naumann.

COOLING SYSTEM—With the aid of Mamma's dishpan and Papa's garden hose, 5-year-old Ann Doherty, of Rochester, N.Y., devises her own cooling system. And when pup Judy comes nosing around, generous Ann obliges with a squirt on nose.

AUGUST, 1945.

August is usually a curiously still month. Nothing seems to happen. It has not the heart-lifting promise of early summer nor the rich fruition of fall. Summer flowers glow, but droop a little. Fall blossoms are in bud. Offices close for vacation and this year a lot of stores are closing, too. Nothing dire happens to their businesses. Customers, also, are on vacation.

Silly stories crop up about pink skunks and sea serpents and elephants that won't eat peanuts. People seem to have time to listen and laugh. They are not in a hurry as usual.

The cicadas and their cousins begin to sound shrilly in the twilight, warning of autumn not so far away. Clothing ads are for going-away to college clothes, and getting ready for school. But nobody hurries, for it's summer yet, and hot, and it's hard to believe anything will ever change, even the war, or rationing, or reconversion. New refrigerators — who cares? New cars? But not for another year or more. More bombs on Honshu? Yes, but it's so far away. Peace feelers? They don't mean much. Let's get a swim at Lake Cisco tonight.

But under cover of the heat and lassitude the world do move, the sun and stars keep on their appointed courses. War draws to an end. Reconversion is at hand. School will begin all too soon. Cool days will come. It's just as well to keep the mind alert and to look ahead a little, even in August.

Even as these quiet words were written an atomic bomb fell on Japan and rocked the minds of the world.

And now the Nipponese war lords want to quit the war they started if we'll preserve their empire.

Can the Big Four afford to compromise with them?

Is Hirohito less dangerous than Hitler?

The burden of decision rests upon our leaders.

First Methodist.
Church school at 9:45. You are invited to study with us. Preaching service 10:55. You are welcome to worship with us at this hour. We hold that Jesus is the interpreter of spiritual life. In this world with its cynicism, its disillusionment, its disheartenments, how men and women are needed to stand for Him with the intellectual, personal and social implications of His gospel! There are too many people in this community who are perfectly willing to enjoy the blessings of the church, but unwilling to do anything to help the church maintain its program of social betterment. We hope that none of you who read this are living and enjoying the moral atmosphere created by the labor of some one else, without the common decency to at least express your gratitude for same. We hope that none of you will be enjoying the moral benefits of the community without giving your best self to help maintain the high standards that we have.

TRAINED VOICE — John Brooks McCormack, former animal trainer, turned to voice training and now will make his debut as Duke in Rigoletto with Chicago Opera Company. Ought to make swell wolf call.

You can best give of yourself through the churches of our community, which are organized to promote the spiritual interests of our town.

Church of the Nazarene.
Revival services will begin August 14, and continue through 26th. The evangelist, Rev. Lee Upton of Okmulgee, Okla., will do the preaching. The young people of the church will furnish the special music. Prayer services each evening at 8. Preaching services at 8:30. You are invited to come and worship with us. L. H. CLEGG, Pastor.

Grace Lutheran.
Sunday school and Bible class at 10 and service at 11 to be conducted at the chapel at Presbyter-

dian encampment grounds, Lake Cisco. Rev. H. L. Wiederanders will conduct the service and will speak on "Is It Well With Thee?" Next Sunday Mr. Naumann will speak on "Our Glorious Savior as He Reveals Himself in the Healing of the Deaf Man." G. T. NAUMANN, Pastor.

First Christian.
Sunday school, Lonnie Shockley, Supt., meets at 10 a. m. with classes for all age groups and a welcome for all. Morning worship at 11 o'clock. Miss Rose Ann Woods will play a violin solo, accompanied by Mrs. H. B. Dierdorff. The evening union service will be held at 8 o'clock tonight on the lawn of the Methodist church. JAMES R. WRIGHT, Minister.

Christ Lutheran.
No services at the church today, nor next Sunday. The next service will be on August 26 which will be the mission festival. G. T. NAUMANN, Vacancy Pastor.

LET'S CLEAN-UP OUR CITY AND HOMES!

If fighting the war on two battle fronts and carrying on at home has caused us to neglect the appearance and sanitation of our city and homes, let's do so no longer. Our traditions as the cleanest town in Texas, beside the dangers of lack of proper sanitation, demand that we join our forces to make Cisco the city we have always been proud to show our visitors.

The Chamber of Commerce and Civic Organizations are joining in a campaign to get rid of all weeds and rubbish. Let every family in Cisco start with their own premises, and there will be little left to do.

Flies, the germ carriers of many diseases, develop in filth and harboring weeds and trash piles. If we join the campaign, few disease carriers will survive in Cisco.
