# MACARTHUR AGAIN WARNS JAPS

## ATTACK ON B-32 PHOTO PLANES OVER TOKYO BROUGHT U. S. DEMAND THAT MIKADO ACT QUICK

Gen. Douglas MacArthur issued his second warning to Emperor Hirohito as Japanese airmen attacked United States photographic planes over Tokyo today.

In the newest of a series of Japanese "postwar" attacks, four B-32s photographing the Tokyo area were met by antiaircraft fire and ten interceptors. Two Japanese fighters were sent down smoking.

MacArthur flatly told the Mikado to comply with U. S. directives "without further delay." His order interrupted a series of messages from Tokyo, now in their second day.

Because of Tokyo's delays the scheduled surrender meeting in Manila has already been postponed.

**New Premier Named.**  
SAN FRANCISCO, Aug. 17. — Gen. Prince Naruhiko Hagiwara was sworn in as Japan's new premier today and in his first official act as premier-war minister ordered the army to "strictly observe" an imperial rescript to lay down their arms.

"The decision has been taken to cease fire and return to peace," he declared.

The new postwar cabinet, in which the royal premier who may himself be tried as a war criminal retained the war portfolio, went into session immediately after it was sworn in.

The first meeting of the cabinet lasted an hour and a half, Domei reported, and was taken up principally with the premier's plea for full cooperation from his ministers.

Private Posey is a member of the ground echelon supporting the hitherto almost daily Superfort assaults against the Japanese mainland. Throughout the period of sustained bombing attacks, Posey and the ground staff worked night and day, virtually without rest, to keep the army bombers in the air and striking at the enemy.

His mother, Mrs. Lillian Posey, lives at 1105 Sixth street, Cisco.

**JUVENILES RUN WILD.**

FT. WORTH, Aug. 17. — Arrested on an automobile theft charge, a 16-year-old girl was in quarantine on orders of city health officials. The girl told detectives that she and a 13-year-old companion took the automobile of A. W. Darden, night watchman at the CAA reservation on Hasslet Road early Sunday. She said that she and the younger girl had been told to "get out and walk" by two youths and that they were unable to flag a ride to town. The automobile was recovered on N. Main in the possession of five youths who said that the girl had loaned the car to them.

**DIDN'T MEAN CONSCRIPTION.**

WASHINGTON, Aug. 17. — President Truman breathed a spark of life yesterday into the faint hopes of congressional advocates of universal military training. But he knocked down flat any idea of a regular peacetime draft. The president told his news conference, in response to a question, that he will have a recommendation on universal military training. However, he emphasized that he did not mean conscription. What he actually will propose, he did not say.

**GREEN FUNERAL TODAY.**

The funeral and burial of John W. Green, 85, a former Cisco resident, was held at Scranton this afternoon. The aged man, father of Mrs. Earl Edwards of Cisco, died in a Ranger hospital Wednesday. For a number of years he had made his home with his daughter, Mrs. Milton Newman, at Odessa.

## Japs Thought to Be Seeking Conditional Surrender

SAN FRANCISCO, Aug. 17. — NBC's Merrill Mueller, in a broadcast from Manila today, stated that Japan's request for General MacArthur to control Russian armies in Manchuria is "a stall for conditional surrender."

Mueller declared that under the accepted unconditional surrender, the Russians "have every right to proceed with their advance for the purpose of occupying Manchuria — just as we should move forward to occupy Japan without unnecessary delay."

## Firearms Roar In Argentine Political Riot

BUENOS AIRES, Aug. 17. — Twenty persons were injured in a series of gun fights between Democrats and Nationalists last night and early today.

The most serious incident occurred when Democrats attacked the Alianza Nacionalists building only 85 yards from the United Press offices.

The assault began shortly after midnight when a small group of democratic sympathizers set off a powerful bomb at the door of the Alianza Nacionalista.

They fired one hundred or more shots at the windows. The fire was returned from inside the building. Several demonstrators were wounded. Shooting continued for more than an hour. Rifles, automatic pistols and revolvers flared in the darkness.

Under the United Press office windows, a man with a Winchester rifle fired repeatedly toward the Alianza while another demanded that the Nationalists come out.

Another bomb exploded suddenly and filled the area with smoke. Under heavy fire from the Alianza windows, demonstrators retreated to cover at the street corners but continued sniping.

Police trucks rumbled up later and drove the demonstrators away from the Alianza. Then they forced the occupants to emerge with their hands raised.

## CIO Launches a Drive For U. S. Wage Increases

WASHINGTON, Aug. 17. — The Congress of Industrial Organizations today opened labor's drive to obtain pay boosts under the government's newly liberalized wage policy.

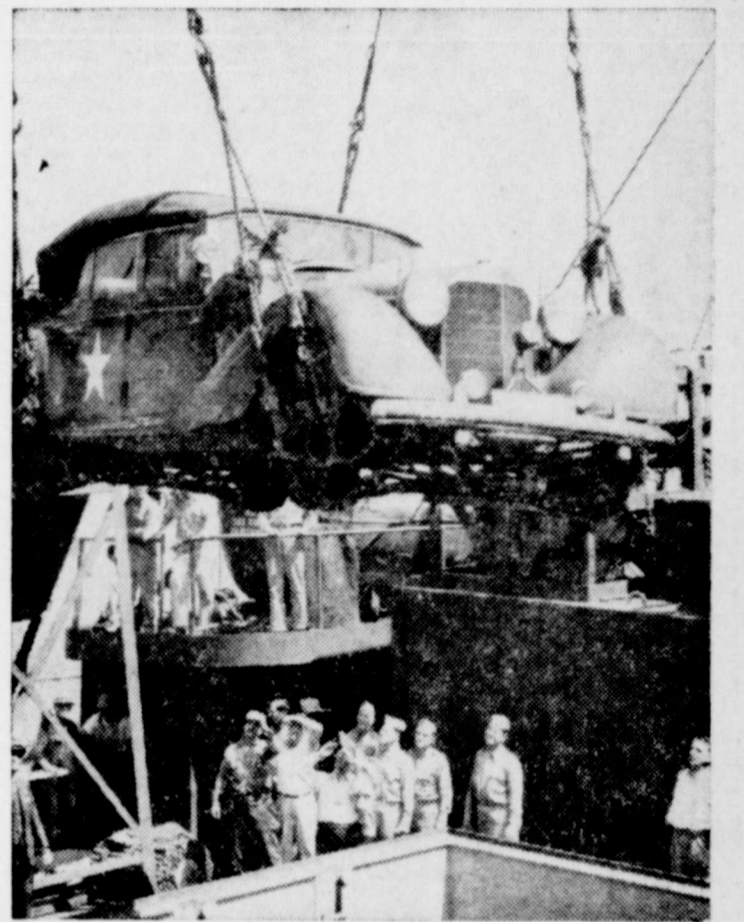

President Truman announced yesterday that the War Labor Board will be allowed during the reconversion period to permit all voluntary wage increases which are not destabilizing and to order such raises as are necessary to "effective" reconversion.

The president is now drafting an executive order to this effect. It will clear the way for the WLB to break, discard or ignore the little steel formula, which held wartime wage increases to 15 per cent above January, 1941, levels.

CIO president Philip Murray disclosed that all CIO unions will ask employers for collective bargaining conferences to negotiate higher wages in the light of the president's new policy.

**SANITATION SURVEY.**

AUSTIN, Aug. 17. — Claude Hall, Jr., 17-year-old University of Texas student of Austin is under treatment for infantile paralysis. Hall is a civilian student. Polio incidence among navy V-12 trainees at the university, resulting in two deaths this summer, has prompted a health and sanitation survey in Austin by a navy epidemiological crew.

GOERING'S CAR ARRIVES—De luxe Mercedes-Benz auto which formerly belonged to Hermann Goering is delivered in Boston on consignment to 20th Armored Division.

## Soviets Give Japs Until Monday to Surrender Arms

LONDON, Aug. 17. — The Russians, charging that the Japanese had launched a widespread counter-offensive in Manchuria at the same time its headquarters asked Soviet troops to cease hostilities, today gave the Japanese until noon Monday to disarm and surrender.

Marshal Alexander Vassilevsky said in a broadcast order "as soon as the Japanese troops begin surrendering their arms, Soviet troops will discontinue war operations, but not until that is done."

**WANTS FACTS.**

WASHINGTON, Aug. 17. — Senator Walsh of Massachusetts, chairman of the Senate Naval Affairs Committee, today called upon the Navy Department for a complete record of its investigation into the Japanese sneak attack on Pearl Harbor.

**TEXAS BOARD BALKS.**

VERNON, Aug. 17. — The Wilbarger county Selective Service Board said today it had notified Governor Stevenson it will not draft 18-year-olds or those who are in college or high school. The board said that under existing regulations drafting of such boys is required, but that it would not abide by the requirements.

**ETAIN GETS LIFE.**

PARIS, Aug. 17. — Gen. De Gaulle today commuted aged Marshal Petain's death sentence to life imprisonment. The action consisted of approving a statement the court wrote into its verdict which expressed the wish that the execution not be carried out.

SEABEE OPERATION—Pontoon barges are carried by LST to combat areas, unloaded and placed into service for lighterage operations by Seabees of the Naval Construction Battalion off Okinawa. Barge shown here is almost raised to carrying position. Four are loaded on one LST.

ATOMIC BOMB CHIEF AND FAMILY—Maj. Gen. Leslie Richards Groves spends one of his rare free evenings with his family. Left to right: General and his wife, seated; daughter Gwen, 16, and son, Lt. Richard H., stationed at Ft. Belvoir, standing.

## McCord Brothers Home For a Visit with Their Mother

Coxswain John McCord and Pfc. Hancel McCord, sons of Mrs. R. E. McCord of 701 east Thirteenth street, are at home for brief stays.

John McCord, a member of the coast guard and attached to the attack transport for two years, has really seen action, but luckily came home looking as fit as a fiddle. His ship carried the initial troops into Salerno, Italy, Normandy on D-Day, southern France and Sicily. The latter assignment, he said, was probably the toughest.

Pfc. Hancel McCord, who is stationed in this country, is the youngest of the two brothers and is well remembered by this writer as a carrier boy for the Daily News when that paper was published by the late B. S. Huey. He was a thoroughly reliable employee and a go-getter even then, winning prizes and top honors in at least two lively contests staged between the carriers.

## Air Unit of L. R. Posey at Guam Is Highly Praised

TWENTIETH AIR FORCE HEADQUARTERS, Guam. — For the part played in the historic series of five low level incendiary attacks on Japan during an all-out offensive, Pfc. Libbon R. Posey of Cisco, Texas, and other enlisted men at B-29 bases in the Marianas have been commended by the commanding general of the twentieth air force.

Private Posey is a member of the ground echelon supporting the hitherto almost daily Superfort assaults against the Japanese mainland. Throughout the period of sustained bombing attacks, Posey and the ground staff worked night and day, virtually without rest, to keep the army bombers in the air and striking at the enemy.

## Mrs. Townsend, a Christian Woman, Passes On

Mrs. Mary E. Townsend, 90, a Christian woman and resident of Moran for more than 40 years, died at her home there at 6 o'clock yesterday afternoon. The funeral will be held at 9 o'clock Saturday morning, with Rev. J. R. Wright of Cisco officiating. Burial will be at Dublin beside her husband.

Mrs. Townsend was born at Owagiac, Mich., and together with her husband came to Texas more than 65 years ago, first settling at Dublin. They drove from Fort Worth to Dublin in an ox team.

The only immediate survivor of deceased is her brother, A. C. Miller, who resides at Edinburg, Texas.

Mrs. D. G. Alford has returned from Fort Worth, where she has been in a hospital. She reported improved and was accompanied home by her son Davy, who has been ill with flu, and her husband Lt. Col. Alford.

## DESIRABLE NEIGHBORS.

Canadian servicemen are coming home. American families may think they know what that means, but they can't quite. For there are few of our own soldiers who have been away from their homes for five consecutive years, yet that is a common story in the Dominion.

Little Canada, with a population of 11,000,000, put into the field nearly a million men, most of whom had enlisted and all of whom had volunteered for service overseas. Of those few who, whether enlisted or drafted, refused to leave the country, as was their right under Dominion law, she is fiercely ashamed. But she is proud beyond words of those hundreds of thousands who fought.

There were Canadians at Dunkirk, many of whom later defended the hot, weary backward road across Africa to El Alamein, then went forward to Italy, France and Holland. The tragic cost of the first Dieppe raid, from which so much was learned to make later invasion possible, fell largely upon Canadian homes. Many thousands have been volunteering once more for the Pacific. After five long and homesick years, they are

still more than willing to finish the job, under new and equally arduous conditions. They are neighbors worthy of all possible honor.

## PROGRESS.

While there seems no reason to doubt that civilized nations, especially our own country, are now coming into an age of unparalleled energy, it may be well not to put too much emphasis on this form of human progress. Material things are necessary, but immaterial things—human character, progress in the development of art, learning, human friendliness and cooperation in the finer aspects of life—these are the things that count.

Man will be really civilized when people have forgotten that there ever was such a thing as war, strife and all the petty distractions that keep him from realizing his highest aims.

Even in our greatest victories, military and material, it may well be kept in mind that these are not the ultimate goal of human effort. The most important things are learned in the quiet church, rather than in the noisy market place.

## ANTI-NAZI GERMANY.

The death of Adolf Cardinal Bertram, the anti-Nazi archbishop of Breslau, is a reminder that not every German approved Hitler and his work. Cardinal Bertram was an enemy of Nazism from its rise, and denounced it vigorously as late as 1936.

Since then nothing has been heard from him, for which his age (he was 86 when he died) may be partly responsible. He may also have been in captivity. But his was a voice which even Hitler had to heed. It is safe to say that his influence has survived him.

## PUBLIC OPINION.

### Parents Responsible.

Citizenship, good or bad, begins in the home. And for it in our children, we parents are primarily responsible. The school is doing a fair job at teaching citizenship, but it could do much better if we parents did as well—if we gave teachers better citizens to begin with.

The basic attitude and habits of citizenship in our children have

been pretty well established before they enter school.

Even when our children are at school, these basic attitudes and habits are more dependent on the home than on the school. A grave problem of the school, indeed, is to so cultivate citizenship there that it will continue to function after the child leaves the school grounds each day or graduates, finally, from school. Not nearly all, alas, who are good citizens at school are good citizens in their

home or community, even while attending school.

Among the ABC's of citizenship are regard for the rights of others, respect for authority, and readiness to share and bear responsibility among those with whom one mingles, especially at home and in the home neighborhood. These virtues presuppose

inculcating some basic inhibitions early in the mind, care of property, respect for things that belong to others, self-reliance and sharing in the common chores and duties about the home.

We educate the child in good citizenship at home as we train him early in the unambiguous meaning of No, rarely heard; train him from the time that he begins to toddle that there are a few things he must not do; as we train him to be very careful, within reason, of his playthings and of the furniture; train him neither to mar nor destroy things belonging to others nor to use them without permission of the owner.

We see that he gets discomfort from violating these principles and comfort from observing them.

Worth she was a guest of Mr. and Mrs. Charles Renaud, also former Ciscoans. It will be recalled that Mrs. Moyer was a prisoner of the Japanese for more than a year, or until freed by American forces. Broken in health from lack of food and mistreatment, the Cisco woman arrived in Los Angeles, Calif., May 2, for a visit with her sister, Mrs. Mary O'Neill. She was later visited there by her brother J. D. Stotler of Camden, Mo., and accompanied him home. While in the Stotler home she became very sick and was dangerously ill for sometime. Cisco friends who have not called at the Roberts home since Mrs. Moyer's arrival here will be glad to know that she has partially regained her weight and that her general health is much improved.

*It's Easy If You Know How*

People used to say there were only two things certain in this funny old world of ours—death and taxes. We would like to nominate a third. And that is that a dollar buys a lot less today than it did fifteen years ago. That's certain, isn't it? Every time you go to a store to buy anything, you can't help realizing it. But—unlike the other two—there is one exception. It's electricity! Believe it or not, a dollar today buys more electricity than ever before.

You may not have noticed it—because with everything else going up in price, you'd likely assume your electricity costs more too. Actually, however, electricity has been coming down in price for years—and has even been reduced since the war. Of course, you've probably added a lot of electrical conveniences to your home in the last few years, and that's another reason you may not have noticed how much the price of electricity has come down. So much, in fact, that if you're an average user of household electricity, you're getting about twice as much for your money today as you did fifteen years ago.

And that's quite a trick! Because the business-managed electric light and power companies that supply over eighty percent of our electric needs, have had enormous tax bills—and a lot of other problems to meet since the war. Nevertheless it has been accomplished... through efficient business management on the part of the experienced men and women who operate America's electric light and power companies.
