HISTORIC EVENT BE STAGED ON ONE OF ADMIRAL NIMITZ' WARSHIPS; FIGHTING ENDS

SAN FRANCISCO, Aug. 22.—Tokyo has a copy of the surrender document which Emperor Hirohito's warlords will be required to sign on an American warship in Tokyo bay Aug. 31, advices from Manila and Japan reported today.

Tokyo's announcement that the "truce agreement" would be signed aboard one of Admiral Nimitz' warships next week came as peace apparently finally returned to the Pacific for the first time since Dec. 7, 1941.

General MacArthur's headquarters said the mikado's emissaries have been supplied with a copy of the surrender document and informed that it would be signed on the spot jointly by representatives of the Big Four (with Nimitz representing the United States), Australia, Canada, France and the Netherlands.

The closest approach to war news from the Pacific today was a Soviet Russian report that four Japanese generals have surrendered to the Red Army and 450,000 soldiers of Nippon's crack Kwantung army were taken prisoner in Manchuria and Sakhalin island.

There were no reports of actual fighting.

From Tokyo, which furnished all announced details of the forthcoming Allied occupation, came a demand for an extraordinary session of the diet (parliament) and revival of political parties representing various shades of opinion which were absorbed by a single totalitarian party during the war-time years.

General MacArthur, who made no comment on Tokyo-reported details of the occupation and formal surrender, ordered all Japanese planes grounded in preparation for Allied warplanes taking over peacetime patrol of Nippon Saturday.

Airborne troops will follow Sunday, landing at Atsugi airdrome, 20 miles southwest of Tokyo, while two great fleets move into Sagami bay below Tokyo and possibly Tokyo bay itself.

MacArthur himself will fly to Atsugi airdrome Tuesday, simultaneous with general landings of occupation forces from transports and warships south of Tokyo.

All of these reports came from the Japanese who reported 20,000 troops would be in the original occupation force. Taking over territory around the Tokyo metropolitan area, but not the capital itself.

Only American confirmation was that the peaceful invasion would be supported by the greatest display of military power yet shown on foreign territory. Military men said aid and naval cover for occupation forces would be on the same scale as an invasion.

Democrats Bury Hatchet—All Except the Handle

By W. M. THORNTON.

AUSTIN, Aug. 22.—State Capitol political circles were uncertain today as to whether the results of last Saturday's combined Democratic festivities will tend to hurt or heal the wounds within the party growing out of last summer's series of bitter battles.

The sharp criticism of Texas Regulars and their tactics made before the state committee and at the monster night gathering at Barton Springs would hardly be soothing to any target of critical tongues. In addition, the jibes at Gov. Coke R. Stevenson and Junior Senator W. Lee O'Daniel are not going to set well with their friends, to add further feuding in next summer's gubernatorial election.

It is said that some Texas Regulars who accepted an olive branch and gave their money to the \$90,000 Democratic congressional election fund are not happy about Saturday's action and scathing denunciations. Their money was accepted and then they were denounced.

Chairman Harry Seay said to the committee that the Democrats are not afraid of honest elections, but that they want none of recent attempts to steal elections by misleading and deceptive words. There was more of the same, even a resolution to invoke a four-year probation against those who voted against the party last summer or even gave comfort and aid to the enemy. It was postponed, but showed the temper of the assembly.

Outstanding was the resolution adopted making ineligible for appointment or consultation any person who remained silent last summer or opposed the national nominee. This removed Governor Stevenson from the list of eligibles for the western district federal judgeship and it slapped at Senator O'Daniel to remove his recommendations for any public office. This undoubtedly will alienate many of Stevenson and O'Daniel friends when it comes to selecting candidates for Governor and other state offices in next summer's campaign.

As a result of Saturday's fore-gathering of Democrats, a whole host of gubernatorial candidates are being proposed. Prominently among those suggested were Congressman Lyndon Johnson of Austin, mentioned publicly at the barbecue; Ex-Gov. James V. Allred of Houston, former Speaker R. W. Calvert of Hillsboro, Congressman Wright Patman of Texarkana, Railroad Commissioner Beauford H. Jester of Corsicana and Lt. Gov. John LeLe Smith of Throckmorton.

Much comment is occasioned by the fact that neither Jester nor Smith was introduced to Saturday's throng, though other state officials were presented. Jester was present, as was Chairman Olin Culberson, also ignored, while their colleague, Ernest O. Thompson, was called for introduction. It is generally believed that Smith was intentionally omitted, but speculation has started as to whether Jester was purposely slighted. To call on Thompson and not Jester is regarded as having been pointed and some of Jester's friends don't like it.

There are those who expect a hard battle between the left and right wingers of Texas Democrats which might give the scorned Texas Regulars and other off-ends a chance to be the balance of power and elect a candi-

WHOOPEE! President Truman's announcement that the Japanese government has accepted unconditional surrender terms of the Allied nations started frenzied celebration for these New Yorkers. Servicemen and girl friends zoom down Broadway in hilarious merrymaking.

J. W. Slaughter Buys Interest in Home Supply Co.

J. W. Slaughter, who came to Cisco from Tulsa, Okla., in 1931, and has served as assistant manager of the Rockwell Bros. & Co. lumber business for the past four and a half years, has resigned that connection as of August 31 and purchased an interest in the Home Supply company with Max Peck.

He is well known in Cisco and stands high as a man and as a business executive.

The Home Supply company, now handling hardware and furniture principally, will add several other lines soon, among these being paint, wallpaper, electric appliances and stoves.

The partners have just returned from Fort Worth and Dallas, where extensive purchases were made.

SAYS WACS SNOOTY.

BAD TOLZ, Germany, Aug. 22.—The only Wac detachment in this area was up in arms today against an unidentified wac sergeant who asked the Army newspaper Stars and Stripes if it was permissible for Wacs to fraternize with German men. Her query provoked a storm of bitter letters from GIs, who charged that Wacs in general had been "snooty" particularly that they habitually ignored American enlisted men whenever the companionship of officers was available. Acrimonious GI letters still were appearing in Stars and Stripes today.

"Voters! Read the article headed: 'The Supreme Court Amendment,' on page 4."

Martin Cleveland Serving Aboard Mighty Alabama

ABOARD USS ALABAMA, Pacific.—Martin D. Cleveland, seaman of the first class and son of Mr. and Mrs. G. S. Cleveland, of near Cisco, Tex., is serving aboard this battleship, which in one month raided the Japanese mainland twice, bombarded a Jap-held island north of Okinawa and rode unscathed through a violent typhoon.

One of the raids against the Nip homeland was uneventful, but during the other operation the "Mighty A," as the man-o-war is known to her crewmen, ran into a hornet's nest of Jap suicide pilots.

During her bombardment assignment, the Alabama turned loose her 5-and-16-inch guns to pulverize Jap shore installations.

REDS ACT PROMPTLY.

CHUNGKING, Aug. 22.—Japanese red tape delaying Lieutenant General Wainwright's departure from Manchuria, where he has been a prisoner of war, apparently was cut today by Soviet authorities. A message from an American airborne humanitarian team at Mukden quoted Russian officers as saying Tuesday night that a B-24 was en route to Hsian, 100 miles to the northeast, to fetch Wainwright, who has been a prisoner there with seven Americans and 26 other Allied nationals.

Eastland Banker Commend Farmers of the Star Area

Some of the farmers in Eastland county, particularly in the Rising Star area, are creating much interest in their program of winter cover crops.

Benefits already demonstrated by farmers of vision in that area, cooperating with the soil conservation program, show beyond a doubt that financial returns from this conservation work are exceedingly good.

Fred Brown, vice president of Eastland National bank, announced today that livestock men are becoming interested in this area and hope to pasture cattle through the winter months on farms having cover crops such as rye and vetch, and it is believed this will begin a new industry in the area.

Tests have shown rapid gains by calves, grown cows or steers when pastured on rye and vetch during winter months.

RICE WILL GET IT.

WASHINGTON, Aug. 22.—Attorney General Clark has recommended to President Truman the appointment of Judge Ben H. Rice of Waco as federal judge for the Western Texas District. Rice, chief justice of the Court of Civil Appeals at Waco since 1940, would succeed the late Judge W. A. Keeling. Senator Connally of Texas also has recommended the appointment of Rice. The Western District Court sits at Waco, Austin, San Antonio and El Paso. Senator O'Daniel of Texas has announced he endorsed Governor Stevenson for the post.

POTATO QUEUE IN BERLIN—Ever present line forms outside a food store on Argentina Strasse in Berlin when word got around the shop had potatoes and bread for sale. To help alleviate scarcity of food in German city, Allied trucks have been bringing potatoes and other hard-to-get commodities in. Bad to relate some of the stuff is hijacked before it reaches destination.

Cisco Tenpinners Won 5 of 6 Games With Brownwood

Two 4-man bowling teams from Brownwood visited Cisco last night and competed with two local teams.

The visitors found the local alleys much "faster" than the Brownwood alleys, and while one of them, W. A. Joiner, acquired the high total of 566 for the three sessions, as a whole the Brownwood keglers were unable to control their curved balls and five of the six games went to Cisco.

However, the visitors were good sports and the contest was thoroughly enjoyed by all participants, as well as by the well-filled galleries of onlookers.

Cisco is scheduled to go to Brownwood next week for a return match, at which time there may be an entirely different finale.

McDonald and Henson were the high men for Cisco.

The team headed by John Farleigh took two of its three games, while the Ciscoans headed by R. L. Ponsler made a clean sweep.

SAN FRANCISCO, Aug. 22.—Six women were criminally assaulted and 1,059 people treated for injuries during the three-night San Francisco peace riots last week, District Attorney Edmund G. Brown told a grand jury Tuesday night.

FULL EMPLOYMENT.

WASHINGTON, Aug. 22.—Sen. Charles W. Tobey (Republican, New Hampshire) declared today that Congress would be "very weak and very blameworthy" if it failed to pass the Administration's full-employment bill.

date for governor more to their own liking in spite of last summer's defeat in the Dallas convention and later at the polls. Next summer's campaign already promises to equal if not exceed the 1944 bitterness.

Lions Heard Miss Slicker in Organ Program at Lunch

Miss Betty Slicker, former Lion sweetheart, gave an organ musical program at the Lions luncheon today, noting a number of changes, she said, in the personnel of the club since she has been away studying in New York City. Members gave her a hearty encore.

Former President Turner presided in the absence of the president and vice president, who are away on vacation.

Lion Hugh Chief Brown reported on the Grammar school football grounds, saying they are ready except setting in grass. He suggested that equipment be checked with an eye to getting the team fitted out for the season.

Coach Harold Fisher reported on the high school football field and prospects for a team. He said that since he had not been with them in practice he could only judge by appearance and attitude of the boys, which he feels is very favorable.

It was announced that Jack Anderson would have a very special program next week. Visitors and guests were Rev. R. H. Boyd of Cleburne, Coaches Fisher and Buck Overall and Gene Dameron, returned veteran.

Ray to Give Masonic Degree on 100th Birthday

FORT WORTH, Aug. 22.—Known as the Grand Old Man of Masonry, John J. Ray of Fort Worth, believed to be the oldest living member of the Masonic lodge in the United States, will be honored by the Grand Royal Arch Chapter of Texas and local Royal Arch Masons in special ceremonies Sept. 1. The celebration will be on the eve of his 100th birthday.

The ceremonies will begin at 3 p. m. when Ray will confer the Royal Arch degree on three candidates. All Master Masons have been invited to attend a barbecue at 6 p. m. on the Masonic Temple grounds.

In 1868 at Gravel Hill, Tenn., Ray received his master degree. He received his Royal Arch degree in 1870 in Arkansas. He then moved to Dublin, and became a charter member of the Dublic Masonic lodge and served this organization as worshipful master for sixteen years. He is the only surviving charter member of the Dublin lodge.

In 1917 Ray was elected grand master of the Grand Council of Texas Royal and Select Masons. He is a life and charter member of Moslah Shrine Temple.

Japs Say Atomic Bomb Casualties Number 480,000

NEW YORK, Aug. 22.—The Tokyo radio said today the latest checkup on damage done by atomic bombs dropped on Hiroshima and Nagasaki showed that 480,000 persons were killed, injured or made homeless in the two Japanese cities.

The broadcast, recorded here, said the bomb which fell on Hiroshima on Aug. 6 killed or injured 160,000 persons and left 200,000 homeless. The bomb which hit Nagasaki on Aug. 9 left 120,000 casualties, the radio report said.

The broadcast said "furthermore many persons are dying daily from burns sustained during the course of the raids. Since the raid on Hiroshima took place during working hours in the morning and the atomic bomb hit the central part of the city, casualties were tremendous, with more than 60,000 killed according to latest figures available.

"The number of dead is mounting, as many of those who received burns cannot survive their wounds because of the uncanny effects the atomic bomb produces on the human body. Even those who received minor burns looked quite healthy at first only to weaken after a few days from some unknown reason and frequently died.

REDS NAB AN EMPEROR.

LONDON, Aug. 22.—BBC in a broadcast asserted today that Henry Pu Yi, whom the Japanese established as puppet emperor of Manchuria, now "is in Russian hands." The source of the information was not given.

MEATS COME LATER.

WASHINGTON, Aug. 22.—Red point values on beef will be reduced "substantially" on Sept. 3 but it will be "at least 30 days" before any meats can be made ration-free, it was learned today.

SUGAR QUOTA UNCHANGED.

WASHINGTON, Aug. 22.—The new sugar stamp valid Sept. 1 will maintain the current ration—five pounds for four months. OPA, it was learned today plans to announce this shortly. The household ration has to stay tight because sugar supplies are so short. The total is about 25 per cent less than was available before the war.

TO CUT TEXAS FLOW.

AUSTIN, Aug. 22.—The first postwar cutback in Texas crude oil production is scheduled for September, based on plans of the Railroad Commission and a revised certification of the Petroleum Administration for War for 1,978,000 barrels daily of Texas crude next month.

MUSICAL REFUGE.

"From harmony, from heavenly harmony, this universal frame began. From harmony to harmony Through all the compass of its notes it ran, The diapason closing full in man."

It is pleasant to think of such a delightful situation, at a time when human disharmony seems to extend through the world more completely than ever before. The poet Dryden, who wrote the lines, describes a moment of appreciation for having left such a beautiful and imperishable thought in this troubled world. But right now, about the only harmony that seems to exist is such "music of the spheres," which is highly imaginative.

And yet, the birds and bees still produce harmony for us in their suitable times and places. There is harmony in countless thousands of human homes, in spite of this human and racial disharmony. If we could only attain it more generally in spirit, as we do in music, what a beautiful world this would be! As matters stand, music is a great refuge, available almost everywhere.

"Don't forget to vote on the twenty-fifth."

PERILOUS TOYS.

It is as natural for boys to play with war weapons and materials now as it is for them to play with fireworks on the Fourth of July. So far do some boys carry it that it almost seems to be the Fourth with its attendant casualties. Some cases recently reported are tragic.

A sixteen-year-old boy started experimenting with rockets. He and a young friend, both interested in explosive chemicals, obtained a carbon dioxide cartridge case and filled it with potassium chlorate, sulphur and powdered charcoal. It was small, but far more dangerous than it looked. Stuck into a bottleneck and ignited by a paper fuse, in a basement workshop, it exploded prematurely with disastrous results; one boy killed and the other injured.

"Ever since jet propulsion and rockets became so prominent in the war," says a neighbor, "the boys and their friends have been crazy about building rocket motors. We have told them to be careful, but you know how boys are."

But surely the boys in that neighborhood, and in many others, should learn a lesson from this tragedy, and stop fooling with such perilous playthings.

"THAT LITTLE GAME" — GONE, BUT IN SIGHT

LOOKING AHEAD

by GEORGE S. BENSON
President—Harding College

Vinson. Shortly after Fred Vinson was named Secretary of the Treasury he was quoted in the press as saying "The American people are in the pleasant predicament of having to learn to live 50% better than they have ever lived before." When he made this remark he was talking about a future day, one that had not come then and has not come yet, but a completely possible future day.

Hitler was no longer a menace, when the new Secretary spoke of a 50% higher living standard in America, but Japan still clouded the Pacific. Now that has cleared up also and today's national problem is economic rather than

"Let the people vote for all nine members of the Supreme Court."

strategic. The strain is no less, but in a different place. Ease felt in America as firing ceased was like the relief of changing hands with a heavy burden.

Load is on Vinson About a month ago this column carried an outline of Mr. Vinson's tax policies which I frankly consider sound. Now, in view of the changed international picture, it is high time everybody knew more about this generalissimo of post-war finances, czar of economics in the world's most important country. He is a key man on the team that has to win if liberty, civilization and enlightenment survive.

Fred Vinson is 55 years old. Half a century ago he was playing in the yard of the jailhouse in Louisa, Ky. His father was county jailer. The next year he started to school. . . . His coarse hair is half gray now and he has some loose skin under his chin but

he's recognized as the "best in his line" and on a job where everybody wishes him well, if that's success.

A Serious Student. Louisa, with some 2,000 inhabitants, is across the Big Sandy river from West Virginia. There young Vinson entered school, there was elected district attorney and from there went to Congress in 1922. At Center College, Danville, Ky., he worked in the library to help pay expenses, took a leading part in athletics and averaged above 95 in grades all through college and law school.

Mr. Vinson is a penetrating thinker. He has years of experience in government and he knows taxes. He is a recognized fiscal expert. That's what put him on the Ways and Means committee and here his ability is still respected. He has been a Federal judge, the successful economic stabilizer of this country, also director of

war mobilization and reconversion—the job that's known as "assistant president."

To Make More Jobs. Vinson has many prime qualifications for his present job. Aneht his thoroughness, it came out a time or two in connection with his work as chairman of the tax section of the Ways and Means committee that he knew more than his witnesses themselves about testimony they submitted. Recollection of these incidents naturally tends to keep alive Vinson's influence among congressmen which is a big asset.

It is told that he studied beforehand the financial statements of big corporations whose officials were to testify, and his questioning them proved repeatedly that he knew more about certain aspects of a corporation's business than did its president. This is the man who planned a tax program to create the most jobs, instead of merely raising revenue for the government, something I have been shouting from the housetops for four years.

"Vote for the Supreme Court Amendment."

TO THE VOTERS OF EASTLAND COUNTY

Of four constitutional amendments to be voted upon in the special election on August 25, 1945, the importance of one of them, which happily involves no increase in the number of public officers, is quite naturally best known to and appreciated by lawyers and judges. This amendment is the one to convert the present Supreme Court of Texas, consisting of three Judges elected by the people and six Commissioners appointed by the three Judges, into a Supreme Court of nine Judges of equal authority and responsibility and all elected by the people.

Many good reasons could be given to show the importance and desirability of this proposed change, and any of the undersigned will be glad to explain such reasons to interested inquiries. But for those who may be willing to back our judgment that this amendment is in the interest of the general welfare of our State, we take this means of urging you to vote and use your influence in behalf of its adoption.

Respectfully,

Talking Is All Right ---
... if you are running for office or courting your best girl but when it comes to buying land or town properties don't let any one talk you out of an abstract. The fact that the seller has owned the land for many years doesn't mean that the title is always good. The safest plan is to get an abstract before you buy. The cheapest property on earth is too high if the title is faulty.

NO REPAIRS

(From breakdown of machinery because it has none!)

The Gas Refrigerator has no machinery to wear and need repairing or replacing. This means exclusive operating advantages:

- LONG LIFE**
Parts that do not move do not wear
- CONSTANT COLD**
No starting and stopping of cooling cycle
- LOWEST OPERATING COST**
Takes little Lone Star Gas to run

Basically different in operating principle, the gas refrigerator has no machinery to wear, to need replacing, to make noise. A gas flame does all the work, making it the refrigerator costing the least to own. So it is little wonder that many are saying, "My next refrigerator will be a gas refrigerator." Save for one with war bonds. Trouble-free gas refrigerators will be back in the stores when the factory is released from important war work.
