OCCUPATION OF JAPAN BEGINS

GOOD START—Capt. Horton Smith, director of the golf championship tournament for United States forces in the ETO, marks off players as they start off on opening day of tourney at St. Cloud course in France.

Pfc. Jesse Reynolds Is on Way Home from France

WITH THE 35TH INFANTRY DIVISION, ASSEMBLY AREA COMMAND, France. — Pfc. Jesse H. Reynolds is enroute home from Europe with the 5-star "Santa Fe" Division, which in ten months battled across the Elbe river to within 42 miles from Berlin.

The 35th ended its occupational duties in Germany during the second week of July and moved to Camp Norfolk, one of the Assembly Area Command's 17 redeployment camps near Reims. Elements of the division served as honor guard for President Truman when he arrived at Antwerp.

Hitting Omaha Beach, July 7, 1944, the 35th fought the Germans from St. Lo, broke the counter-offensive at Mortain, swept across France, cracked into Germany's Saar Valley on December 12 and then whipped into Belgium and Luxembourg to gither Von Rundstedt's Ardennes bulge.

Following a shift to the Vosges Mountains, the division dashed 300 miles north through Holland to jump the Roer and Rhine rivers, crush the Siegfried Line defenses, and scoop up more than 30,000 PW's by V-E Day, to mark the end of more than 1,600 combat miles in the ETO.

Reynolds is the son of Mr. and Mrs. J. H. Reynolds, 904 W. Eighth street, Cisco, Texas.

He holds the following decorations: Presidential unit citation, 5 battle stars and the purple heart.

AT THE POST—Chubby babies line up at post encouraged by doting mammas at start of annual diaper derby at Palisades Park, N. J. Youngsters waddled over 25-foot course in no time flat, but ten-year-old Kathleen Eckstein, Brooklyn, N. Y., crawled over finish line first.

ADVANCE PARTY OF 150 TECHNICIANS THE FIRST OF INVADING FORCES TO MAKE LANDING

MANILA, Aug. 28. — The occupation of Japan began smoothly today with the establishment of American advance headquarters 20 miles from Tokyo and the anchoring in Tokyo Bay of a nine-ship task force with 10,000 Marines and bluejackets.

An advance party of 150 technicians — the first occupation troops to land on Japan — radioed back from Atsugi airfield tonight that all 48 planes in the initial air-borne force had landed safely this morning.

Radio communications were set up and preparations begun to ready the airfield for the mass air-borne landings scheduled to begin Thursday morning. Gen. Douglas MacArthur, supreme occupation commander, will be among the early arrivals Thursday.

An NBC correspondent on Okinawa quoted the Atsugi party as saying that the Japanese garrison served some of the Americans a six-course dinner on a white tablecloth while other pilots guarded the planes. Curious Japanese soldiers and civilians had to be pushed away from the planes.

The main communications plane for the advance party crashed on its takeoff from Okinawa airfield early this morning and all 19 occupants were killed. Some valuable equipment was lost, but a substitute plane was sent immediately to Atsugi in its place.

Rear Admiral Oscar C. Badger's flagship, the cruiser San Diego, led a troop-laden transport, four destroyers and three seaplane tenders through narrow Uruga Strait into Tokyo Bay without incident. The armada dropped anchor at 2:30 p. m. (12:30 a. m. E.W.T.) 300 yards off Yokosuka naval base, 20 miles south of Tokyo and 20 miles southeast of Atsugi.

American naval commanders handed the Japanese a final memorandum directing them to keep the Yokosuka base operating un-

til American forces land there Thursday.

The Japanese were told to keep skeleton crews guarding all installations. Word reached fleet units offshore that the Japanese were stripping shore defenses, disarming guns and sweeping mined channels.

A ranking American officer said:

"The Japanese are completely cooperative and it looks like the Marines and bluejackets will simply march ashore."

Some 10,000 American Marines and bluejackets and British marines were poised aboard the transport Gosselin in Tokyo Bay to go ashore Thursday at three points around Yokosuka simultaneously with the air-borne landings at Atsugi.

An NBC broadcast from the fleet said a Japanese mine exploded in Tokyo Bay a few points off the port side of the transport Gosselin, but caused neither damage nor casualties.

At Guam, Admiral Chester W. Nimitz announced the Fifth and Seventh Fleets and North Pacific Force — comprising together virtually all the rest of the U. S. Pacific Fleet — would join the Third Fleet in occupying and controlling waters formerly held by Japan.

The Seventh Fleet was assigned waters from the Chinese coastal city of Hainan north to the west coast of Korea. Assignments of the Fifth Fleet and North Pacific Force will be announced later.

STUART ENROUTE HOME.

An army bulletin received by the Daily Press says Pfc. Henry E. Stuart, 208 east Seventh street, Cisco, a rifleman with the 85th Custer division of the Fifth army, is enroute home from Italy, along with many other Texans. Upon arrival in this country the men will undergo a final screening to determine whether they will return to civilian life, the communication stated.

Mrs. Ida Fricke Mr. and Mrs. Bolinger Buried Today in Gregg Cemetery Return to Cisco

Mrs. Ida Fricke, 78, a resident of Cisco and Eastland county for the past 30 years, died at 2:45 p. m. Sunday at her home on Franklin street. She had been ill about ten days. Deceased was born in St. Louis, Mo., August 21, 1867, and had been a consistent member of the Lutheran church for many years. Henry Fricke, the husband, died in 1921.

Funeral was held at Grace Lutheran church, Cisco, at 4 o'clock this afternoon, with burial in Gregg cemetery, near Romney. Rev. G. T. Naumann, pastor of Grace church, was the officiating minister and Thomas Funeral Home had charge of the body. Pallbearers were Mike Miller, R. H. Dunning, O. J. Weiser, Frank Zehr, Carl Strobel, Johnnie Gerhart.

Survivors are a daughter, Miss Emma Fricke, Cisco, and three sons—A. C. Fricke, Olden; Ernest Fricke, Cisco; Walter Fricke, Morrisville, Ill. There are five grandchildren.

Mr. and Mrs. Richard Bolinger of Waco are spending a few days in Cisco, guests of his sister, Mrs. D. R. Harper.

Mr. Bolinger, son of the late well known Henry Bolinger, left Cisco September 1, 1930, but has retained his home place here and hopes to return for permanent residence within the next year. He is now in the cafe business at Baylor University, Waco, but will not be active in business of any kind after his return to Cisco. (Says he is getting old, but he doesn't look it.)

Eleven children were born to Mr. and Mrs. Henry Bolinger and eight are still living, as follows: Richard Bolinger, Waco; Reagan Bolinger, Big Spring; Clinton Bolinger, Monrovia, Calif.; Mrs. Feta Long, Hollis, Okla.; Mrs. Joe York, Patillo, Tex.; Mrs. Ruby Scarborough, Waco; Mrs. Beatrice McClish, Beverly Hills, Calif.; Mrs. D. R. Harper, Cisco.

Henry Bolinger, it is interesting to recall, came to Cisco in 1883 from Charleston, Ark., and lived here until his death in the early twenties. He is probably best remembered as a fair and square but fearless peace officer and good citizen.

3 of 4 Amendments to Texas Constitution Are Adopted

DALLAS, Aug. 28. — Final tabulations by the Texas election Bureau today showed that both the supreme court and welfare amendments to the state constitution had leads of around 20,000 votes.

The amendment to increase the Supreme court membership from three to nine men was leading 79,775 to 60,595, while the welfare amendment was ahead more than 20,000 votes — 82,123 for and 61,991 against.

Tabulations on the one-year non-poll tax soldier vote measure, showed an overwhelming majority in its favor, but the salary increase for legislators was defeated decisively.

BUTTER POINTS BE CUT. WASHINGTON, Aug. 28. — Butter will be reduced from 16 to 12 red points a pound beginning September 2. OPA officials revealed today. The reduction in point value will apply to institutional users, as well as home users.

Behamas Sour on Houston Missed Health Officer Negroes After Worst of Hurricane Warns Against Life in States cane; Heavy Rain Deadly Diabetes

STUART, Fla., Aug. 28. — Sheriff Richard Hancock said today that about 2,200 imported negro farm laborers from the Bahamas and Jamaica awaiting shipment home rioted at Camp Murphy yesterday and law enforcement officers from three counties were required to restore order.

Hancock reported that 27 negro workers were removed to hospitals, two with fractured skulls and another with a broken back, and six men were lodged in the Martin county jail at Stuart.

The sheriff said the rioting negroes took over the former Army camp now used by the War Food administration, swept through barracks wading clubs and destroying racks and furnishings, and defied camp authorities.

Capt. R. G. Ray, Army officer at the Camp, said the cause of the trouble had not been determined.

Labor experts said however that the probable cause was the negroes' unwillingness to return to their comparatively drab former existence after sampling the high wages and luxury goods during their employment in the United States.

DEEP WILDCAT TEST.

ABILENE, Aug. 28. — The Strawn section which showed in the Rotan pool will be tested in the Fisher county deep wildcat. Sohio Petroleum Company No. 1 Newman, three miles northwest of Sylvester. The test was plugged back from the Ellenburger to test a show in the Strawn from 5,540 to 5,700 feet, with casing being perforated. However, the formation proved too sandy for acid treatment and instead the well was shot with 40 quarts.

MORE CHICKENS NOW.

WASHINGTON, Aug. 28. — The agriculture department today had halted all government chicken procurement programs. The programs, effective in 18 states, have made civilian supplies in these areas virtually non-existent for many months.

AUGUST INDUCTEES.

The Eastland county draft board furnished the following list of young men inducted into the service from this county during August: Thomas Edison Stamey, Cisco; George Elton Beskow, Harold Joe Smith, Eastland; Leroy Allen Denton, Gorman; Edwin Bell Moroney, Olden.

HOUSTON, Aug. 28. — The latest U. S. weather bureau's advisory reported the terrific tropical hurricane now has struck Sealy, Tex., 50 miles west-northwest of Houston but had decreased in intensity.

With the course the hurricane has taken, it was believed Houston might miss the full force of the gales. However, 15 inches of rain in two days flooded many sections of the city.

From behind the storm's center, reports of damage running into millions of dollars trickled over crippled communication lines. Pleas for medical aid, food and shelter filtered through from countless fishing towns which wallowed helplessly in the storm's fury before it moved on.

From others, there came only an ominous silence.

Wainwright Now at Chungking, in Free China

CHUNGKING, Aug. 28. — Lt. Gen. Jonathan Wainwright, American commander at Bataan and Corregidor, and a group of senior British and Dutch officers liberated from a Manchurian prison camp arrived by plane today.

Lt. Gen. A. E. Percival, British commander at Singapore, was among the officers who accompanied Wainwright back to free China. Both Wainwright and Percival will tell their stories to the press later today.

They were liberated from a Japanese prison camp at Sian, 100 miles north of Mukden, by American paratroops and Red army forces last week.

TARRANT'S SMALL VOTE.

FT. WORTH, Aug. 28. — Final returns from Tarrant county in the constitutional amendment election showed that 5094 votes were cast and that this county approved giving voting privileges to soldiers and creation of a supreme court of nine members. Tarrant went against increasing the pay of members of the legislature and the old-age pension proposal.

STRIKERS INCREASE.

WASHINGTON, Aug. 28. — The nation's strike total, including many idle in long standing disputes, touched around the 50,000 mark today, a new high for the last several days.

AUSTIN, Aug. 28. — Diabetes, a disease for which modern medicine can do so much, took a toll of several hundred lives in Texas the past year, says Dr. Geo. W. Cox, state health officer.

"While the communicable diseases such as typhoid fever, malaria, diphtheria and smallpox are causing a decreasing number of deaths each year in this country, diabetes is now taking an appalling number of human lives, especially in the middle aged group," Cox said.

"Until recent years diabetes was not noted as a major health problem, but became accepted as such in direct ratio to the development of medical laboratory procedures, which made the disease more easily diagnosed."

Dr. Cox said that diabetes is generally recognized as a class disease. It seems to attack the white-collar class of indoor men and women much more frequently than it does the outdoor person whose work is more vigorous and calls for more exercise. Whatever the actual cause of the disease may be, vocational and economic conditions are factors, since it seems that those who do not indulge in luxurious living and whose occupations call for manual labor are not frequently affected. Cox said simple living, wholesome diets, sufficient exercise and sleep are factors in the prevention of diabetes.

CARR ON SANGAMON.

The Daily Press is indebted to the navy public relations department, Chicago, for a photo of Otis R. Carr, 19, son of Mr. and Mrs. R. T. Carr, route one, Cisco. Carr, seaman of the second class, was serving as a gunner on the USS Sangamon when that vessel was hit by a Japanese suicide plane. He attended Cisco grammar school and worked on the farm before entering the navy. The young man has two brothers in the service — one in the army and the other with the Seabees.

ST. MARK REVIVAL.

A revival that will continue through ten nights will begin at St. Mark's Baptist church, colored, the night of September 4, says Rev. L. Pruitt, pastor. "Our purpose," the pastor added, "is the greatest soul-saving campaign ever held by the colored people of Cisco and we ask the help of our white friends." Rev. I. M. Woodward of Midland will do the preaching and Mrs. Ina Harris of Odessa will lead the singing.

LASTING TRIBUTE—Gen. Walter Krueger, San Antonio, Tex., commanding general of the 6th Army on Luzon, unveils a monument at the peak of Balete Pass. Tribute is dedicated in honor of 25th "Tropic Lightning" Division that fought for 123 days with 2,265 casualties.

RIVALRY—Ann Curtiss gets in diving form during workouts in Los Angeles Olympic pool for women's national senior A. A. U. swimming and diving championships. Brender Hesler, in background, three-time 100 meter winner, will challenge. Ann's title for 100 meter free style championship.

U. S. - SOVIET PEACE.

Declaring a "root cause" of increasing American distrust of the Soviet Union to be our practice of the "Great Power" theory of peace, leading to spheres of influence, thence to a clash of the spheres and ultimately to war, William Hard, in the leading article in The Reader's Digest for September, presents an 8-point policy of mutual U. S. - Soviet trust. As proof of the urgent need of such a policy, Mr. Hard cites in detail the frictions already evident between America and the Soviet, stemming from events in Rumania, Bulgaria, Poland, Iran, and elsewhere. These growing

discords, he warns, constitute no advance toward the world promised by the San Francisco Charter, but a relapse into the old world of "new divisions and spoils and thereupon (as we already see) of new great conscript armies and navies in preparation for new impending wars."

The first of the author's proposed remedial actions is to invite the Soviet Union to all international conferences in which it could have "even the remotest interest." "Stop negotiating only with Britain about world oil," he says. While the Dardanelles problem is international, bearing the signatures of nine nations to the Montreux Convention of 1936, Mr. Hard states that Russia is putting "its own sole pressure"

"THAT LITTLE GAME" - POOR SALESMAN

cadres — more than the inhabitants of all English-speaking countries combined — and with its Suvorov Military Academies training eight-year-old boys for the officer corps, Mr. Hard asks, "Does Britain want, to enter this kind of competition?" Prospective conscript preparations of the Great Powers, he says, directed not against Germany and Japan, who will be totally disarmed, but only against one another, "make a hypocritical mockery of the whole San Francisco Charter."

Provided the problems of spheres and armaments can be solved, Mr. Hard proposes, as his seventh point, "to give the Soviet Union what it most sorely needs: American help in repairing the frightful devastations visited upon

TO MY FRIENDS

I have sold my battery and auto service business at 112 west Sixth street to James M. Latimer and E. S. Martin, two of my oldest and most capable employes, and the business is now closed for a few days for remodeling by the new owners. Reopening date is September 3.

It would be impossible for me to fully express my deep appreciation to long-time personal friends and business acquaintances for the generous support they have given Elkins Battery and Auto Service through the years; suffice it to say that I am very, very grateful to each and all, and that you will ever be remembered.

Sincerely yours,

upon Turkey on that problem, and urges "a broad international conference regarding the vital Dardanelles" with the Soviet Union invited.

His second point is to appoint for all liberated Europe "a commission of authoritative representatives of the Soviet Union, Britain, France, and the United States to organize and execute a policy of breaking down all barriers to complete informational enlightenment in every European liberated region." The author emphasizes that while we cannot ask the Soviet government to stop controlling its own press, "we can and should demand that it stop suppressing the freedom of the press in regions it has liberated only with Allied assistance."

Free elections in all liberated countries is the third point of the program. Recalling that the Yalta conference decided jointly to assist the people of every liberated country to have free elections, the author urges such freedom not only in Soviet-occupied countries but in American- and British-occupied Italy and in British-occupied Greece.

Citing indications of Soviet intentions to add Manchuria to its sphere, "just as it has added Mongolia, at China's expense," Mr. Hard, in his fourth point, calls upon our government to invite the Soviet Union to sign the treaty adopted at the Washington Conference of 1922, by which eleven signatory nations are bound to

respect the territorial integrity of China. At the same time, the author hinds, our government should act with the other nations, including China, to give Russia "full transit for its trade across Manchuria to warm water ports."

In his fifth point Mr. Hard urges the United States, in all East Asian affairs, to imitate "the two most effective characteristics of the Soviet Union in dealing with

Asiatic peoples:" a non-racial broadmindedness and a passion for raising Asiatics to a modern level of living.

Declaring that an armament race with Russia would be ruinous, the author's sixth proposal is "to approach the Soviet Union immediately on the problem of disarmament." With 400,000,000 people within the Soviet's "military domain" in the next few de-

Talking Is All Right —

... if you are running for office or courting your best girl but when it comes to buying land or town properties don't let any one talk you out of an abstract. The fact that the seller has owned the land for many years doesn't mean that the title is always good. The safest plan is to get an abstract before you buy. The cheapest property on earth is too high if the title is faulty.

...WITH Victory

come the problems of readjustment and preparation for a return to peace and normal business.

We on the Texas and Pacific look forward to peace with all its blessings—and problems—but with the realization that our mission is not yet complete. Millions of gallant men and women who made this victory possible must be returned safely to their homes—and that's part of our job.

But while doing the job at hand, preparations are going forward to meet the demands of the future. Already the Texas and Pacific has begun the task of straightening curves, reducing grades—preparing for the day when the luxurious streamliners will speed over the rails of the Texas and Pacific.

In the peaceful postwar future, the Texas and Pacific dedicates itself to the task of providing you with the finest and safest in transportation.

Your constructive criticisms and suggestions are earnestly solicited.
