# U. S. TROOPS STILL POUR IN

**REPEAT PERFORMANCE**—Ben Chapman, right, manager of the Phillies, looks pleased as he signs up for another year of guiding the Philadelphia ball club. Herb Pennock, left, team's general manager, predicts boys will improve on last year's score of winning 18 out of 48 games.

## LaRoques Go to Donna After 26 Years in Cisco

Mr. and Mrs. W. H. LaRoque have sold their home at 500 H avenue to H. T. Huffman and will depart tomorrow for Donna, Tex., where Mr. LaRoque will teach chemistry, physics and biology at Donna high school.

The LaRoques came to Cisco from Moran, 26 years ago, and they have been active in business, church and civic affairs during their residence here. Their removal to the Rio Grande Valley is regretted by many friends.

Mr. LaRoque's work while in Cisco has alternated between the Cisco schools and local newspapers.

He was advertising manager for the former Cisco American in 1921 and taught science in Cisco high school in 1922-23 and at Cisco Christian college in 1923-24.

When Cisco American and Cisco Daily News were consolidated, LaRoque again joined the publisher as advertising manager and continued in that capacity until the paper was acquired by a newspaper chain in 1929, when he became general manager on recommendation of the retiring publisher, who herewith testifies that he has never met W. H. LaRoque's equal as an advertising salesman and dependable, congenial newspaper co-worker.

Three years ago Mr. LaRoque returned to Cisco high school as science teacher and continued in that capacity until close of last school term. During that period and since he has covered the

weekly luncheon meetings of the Lions and Rotary clubs for the Daily Press.

A charter member of Cisco Lions club and one of the liveliest members of that always up and doing something organization, LaRoque also served as district governor in 1939-40, his term being recognized as one of distinction through growth of club membership and constructive accomplishment, as well as a large increase in the number of clubs throughout the district.

## Former Scranton Lady Dies at Her California Home

Word has been received here of the death of Mrs. Lola Richardson, former resident of Scranton, who died at her home in North Sacramento, Calif., August 25, after a lingering illness.

Survivors are four sons — LeRoy Richardson, Rev. T. Richardson, Sacramento; Duke Richardson, Mesa, Ariz.; Leo Richardson, Lincoln, Calif.; three daughters — Mrs. Ethel Cameron, Cisco; Mrs. Margie Kimbrough, Richmond, Calif.; Mrs. Nellie Fite, Mercedes, Calif.

There are also 32 grandchildren and 25 great grandchildren.

L. D. Richardson, the husband, died thirteen years ago.

Five grandsons and four grandsons-in-law are with the armed forces.

Mrs. Cameron was present for the funeral and burial of her mother.

## Cisco Tenpinners Trowned Brownwood Five to One

In a return engagement, eight Cisco bowlers traveled to Brownwood Wednesday night for a tenpin clash with two teams of that city.

The Cisco keggers had a good time, although the anticipated contest proved anything but a contest, the Ciscoans taking five of the six games — as they did when Brownwood came to Cisco recently.

In fact, it looked like six straights for the Eastland countians until the last game, when a Brownwood man named Redner bowed his neck and ripped out seven consecutive strikes for an overall score of 540.

However, F. Urban of Cisco was also feeling his oats and by consistent bowling acquired a total of 545 for the three games. Another Ciscoan, Lee McDonald, topped the 500 mark by nineteen pins. John Farleigh of Cisco, rolling a straight ball with a puzzling reverse at point of contact, squeezed out 498.

Scores in Detail.

## DISEASE.

(By DR. W. P. LEE, City Health Officer).

If you are troubled with flies or mosquitoes or unpleasant odors, before complaining of your neighbors, look carefully about your own premises. The cause may be there.

The fly and mosquito are two of our most troublesome pests and both carry disease.

The fly is one of the filthiest and most disgusting pests. It breeds in filth and feeds on filth. If you are troubled with flies, there is near you some insanitary condition. It may be a cow or horse lot — or garbage which has not been properly cared for.

If you have a horse or cow lot, the refuse should be gathered every day, put in a certain place and sprinkled with a few handfuls of lime.

Your garbage should be kept in a tightly-covered can.

If you will do these things you will, so far as your own premises are concerned, destroy the breeding place of the fly.

The male mosquito is vegetarian and does not sting or bite. It is the female which feeds on blood.

The mosquito breeds and stays about stagnant water, and does not travel far from its breeding place except as carried by the wind.

If there are no containers of stagnant water on your or your neighbors' premises, you should not be bothered by mosquitoes. Knowing these facts, our desire should be to get rid of the breeding places.

It behooves every citizen to examine his own premises FIRST.

**WANTED** — Men and women to work in broom factory. Only able and willing workers considered. Permanent work if you can qualify. Apply to Mr. Hogue, superintendent, at factory only; do not phone. Tompkins Broom & Mop Factory.

## HAVE FANNED OUT OVER A 200-SQ. MILE SECTION OF THE TOKYO PLAIN; WAINWRIGHT THERE

MacARTHUR HEADQUARTERS, Yokohama, Aug. 31. — American air and sea-borne occupation forces linked up and fanned out over a 200-square mile section of the Tokyo plain today. (A Japanese government announcement broadcast by Radio Tokyo said the main strength of the American Eighth Army will land Sunday at Yokohama and Monday at Tateyama, on the Chiba Peninsula at the southeast entrance to Tokyo Bay. The announcement said the landings had been postponed from Saturday).

(Lt. Gen. Jonathan M. Wainwright has arrived in Yokohama and has met Gen. Douglas MacArthur at the Grand Hotel).

Fifteen to 20 towns and villages south of Tokyo had been overrun by American air-borne troops, Marines and bluejackets as the occupation of Japan entered its second day without untoward incident.

Reinforcements still were pouring into Atsugi airfield, 18 miles south of the center of Tokyo, by plane from O kinawa and into Yokohama and the Yokosuka naval base by landing craft from a huge fleet in Tokyo Bay. More than 40,000 Americans already were ashore.

More than 100 Superfortresses from Tinian and as escort of 60 fighters from Iowa circled over the Tokyo area on watch for any sign of Japanese treachery. All guns were loaded and manned.

But there still were no reports of any shots having been fired since the large-scale landings began shortly after 6 a. m. (5 p. m. Wednesday, EWT). Japanese soldiers and civilians alike were passive.

Patrols of American air-borne troops from Atsugi and seaborne units from Yokosuka, 20 miles to the southeast, linked up in the vicinity of Yokohama and quickly consolidated their hold on the triangle bound by the three cities.

Gen. Douglas MacArthur was hard at work on details of the occupation in his new headquarters in the new Grand Hotel at Yokohama, one of the few buildings in the city to escape destruction or heavy damage from American American bombs. Some 1500 troops guarded the hotel.

(Radio Tokyo said MacArthur will move his headquarters tomorrow to the former residence of the manager of the Rising Sun Petroleum Company).

American newsmen already have ventured from Yokohama into rubble-heaped Tokyo, just to the north, but MacArthur was waiting to build up a larger and more impressive force before formally occupying the capital. He may enter Tokyo within the next few days, however.

He already was giving orders to the Japanese general headquarters, the Japanese government and presumably Emperor Hirohito through liaison staffs rather than by radio as formerly.

Admiral William F. Halsey, whose Third Fleet flagship, the Missouri, will be the scene of Japan's formal surrender on Sunday, raised his four-star flag over the surrendered Yokosuka naval base headquarters.

Admiral Chester W. Nimitz, commander-in-chief of the Pacific fleet, and Halsey made a two-hour inspection tour of the base and reported that it was "only in fair shape, with much equipment in a poor or wrecked condition."

**PONSLEER RECOVERING.**

R. L. Ponsler, president of Cisco Gas Corporation, who has been confined to his home for the past three days, is recovering and was able to be at his place of business for a short while today.

## Prisoners of Japs Will Always Damn the Yellow Devils

WITH THE MERCY FLEET, Tokyo Bay, Aug. 31.—Warhardened men listened with blank amazement Friday as half-starved American airmen rescued from prison camps in the Tokyo area related incredible stories of Japanese cruelty.

The liberated Americans charged the Japanese with brutality and sadistic practices that challenged the imagination.

Harry E. McGrath, 25-year-old Super Fort gunner, who was aboard the first B-29 shot down over Tokyo, grimly declared he wanted "no easy peace for Japan" after relating the unspeakable treatment he received at the hands of his captors.

"On Mother's Day," McGrath declared with bitter irony, "a kindly Jap officer at my camp allowed the prisoners to go to the beach. While we were there, a hungry American boy ate a raw clam. A guard saw him, beat him for 15 minutes then forced him to stand in the incoming tide until the water reached his mouth."

McGrath asserted he saw a Jap guard remove birds from a nest and roast their feet over hot coals, laughing fiendishly.

"Once I saw an American boy steal a carrot," he continued. "The guard made him open his mouth and then he slugged him three times, knocking him unconscious. The boy's teeth spilled out and one of his eardrums was broken."

So-called "special" prisoners, according to McGrath, fared worst of all. He said they were forced to grow their own scrubby vegetables, fertilizing them with human manure from nearby Jap homes.

McGrath, whose home is in Melrose Park, Ill., said he saw one American boy starve to death because he just couldn't eat a steady diet of rice. The boy ate nothing in the last 45 days of his life.

When McGrath bailed out over Tokyo he landed in a residential district where, he said, civilians beat him with clubs and threw rocks at him. Then he was seized by soldiers who beat him with swords and bayonets. Taken to military police headquarters, he was roughed about and slapped some more — despite the fact he had six shrapnel wounds in the leg.

"Ironically, on the day the war ended, the Japs gave each of us 2,000 vitamin pills and told us to sun ourselves."

## Plenty of Choice Turkey Meat For Texans This Year

AUSTIN, Aug. 31. — Texas isn't leading in turkey production this year but it appears from U. S. department of agriculture reports there will be a bountiful supply for holiday tables.

The state's 1945 crop, USDA estimated today, is 4,710,000 birds — 25 per cent more than the 1945 crop, 16.5 per cent more than the five-year average and 28 per cent higher than 1942-43 production.

Growers intend to market 4.9 per cent of their birds before November, compared to 2.6 per cent last year.

California, with 4,942,000 birds, leads turkey production.

**WE GOTCHA**—Yanks on Luzon shake clenched fists at caricature of Hirohito on white horse. Infantrymen with 38th Division from left to right are Privates James W. Fricker, Philadelphia; Joseph W. Watkins, Mt. Carmel, Pa., and George F. Moore, Mobile, Ala.

## Peanut Plant Will St. John Still in Begin Installing Temple Hospital Machin'ry Monday from Car Accident

The Cisco Peanut company will start installation of machinery in its plant in the Foxworth building Monday, Ray O. Hill, manager of the company, announced today.

The plant is expected to be in operation by October 1, but purchasing of peanuts will begin immediately.

Buying points will be at the plant on East Seventh street and at the Thornton Feed Mill. Additional buying points will be established later.

The mill will employ about 25 workers to start, of which 10 or 12 will be women. It will operate nine months of the year, purchasing and storing for this operation.

The Foxworth building, large fireproof structure with a basement, is well arranged and located for the plant, Mr. Hill said, and the company expects a very successful business.

Peanut growers were notified that the company will be actively in the market for their product and were asked to keep the Cisco market in mind when they sell this fall.

## NO ABILENE PAPERS.

ABILENE, Aug. 31.—The Abilene Reporter-News, both morning and afternoon, failed to appear today because of a strike of the printers. Negotiations for a new wage scale have been under way since Monday.

## MORE POLIO CASES.

AUSTIN, Aug. 31. — Seventy-three new cases of infantile paralysis were reported to the state department of health by county health officials for the week ending Aug. 25, the department announced today.

## St. John Still in Temple Hospital

Will F. St. John of Dallas, former Cisco resident, who was seriously injured in an automobile wreck while he was enroute home from the recent Jackson Day dinner in Austin, is still a patient at Scott & White hospital, Temple.

In a telephone conversation today Mrs. St. John, who is with her husband at Temple, stated that while Mr. St. John is suffering from very painful injuries, he seems better now that the left arm—broken in two places—has been set. He was on the operating table four hours, she said.

His left hip and legs are badly swollen and there is a possibility that the hip sustained a fracture. This will be more accurately determined after the patient has recovered from the shock sustained from the arm operation.

## ALL IN THE FAMILY.

KANSAS CITY, Aug. 31.—Only 12 days after she had married an uncle of the husband she thought dead, pretty 19-year-old Mrs. Ann Ross Birdwell received the stunning news that her soldier husband was alive and safe — one of the hundreds liberated in the last few days from Japanese prison camps.

## HOME AGENT ASSISTANT

EASTLAND, Aug. 31. — Judge P. L. Crossley and Texas A. & M. College Extension Service announce the appointment of Miss Frances Barton of Littlefield as assistant home demonstration agent for Eastland county.

**SWING IT**—Cpl. Lloyd Mangrum, former golf pro, tees off in golf tournament in St. Cloud, France, for U. S. Forces in the European theater. Included in the roster of players are many former professional and amateur golf stars.

**TURN-COAT**—Lt. Minoru Wada, captured Jap officer, guided American planes in attack on long-sought Nip headquarters. Harsh treatment by superior officers in Philippines led to his revenge action. Back at base he expressed satisfaction in aiding Allies and in results of atomic bombing. He says he hopes to live in the United States some day.

**DANGEROUS SPORT**—Youngsters playing in Berlin canal appear to have fun but may suffer later. Water is filled with filth and disease. Due to damage incurred during battle, water does not flow freely and many canals are stagnant and filled with germs.

### THE CISCO DAILY PRESS

Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937.

Per week, by carrier boy..... 12c

#### BACK TO SCHOOL.

Too many students, and far too many of their parents, in the last twenty or thirty years, have been taking school for granted. The youngsters went through the motions of getting education, but without much interest in it, without much effort or determination, without half enough appreciation for the priceless opportunity at their command.

This easy-going attitude toward school by parents and students should stop—RIGHT NOW.

Every boy and girl in all this broad land should be encouraged to start out on his or her new term with deep gratitude for the good school in his neighborhood, and with the firm purpose to make the most of his schooling.

Think of the horrible teaching the young Germans have had for the last dozen years—how hard it will be to undo it. Think of the unreal attitude to life which much of the Japanese education inculcates. And think of the children in the now liberated countries who hadn't enough food or clothing for years, not to mention warm and comfortable schools to learn in.

American children are rich beyond dreams to have their good homes and food and warm clothes and their warm, bright, pleasant school rooms with good teachers doing their best for them.

The new America will be YOUR America, young folks.

You can begin now to make it a good America by doing your very best with every school day.

Great buildings are built of separate little bricks.

Great lives are made up of well-lived days and minutes.

One of the great artists of all time said: "Trifles make perfection, but perfection is no trifle."

Every lesson well learned is a brick in the building of the beautiful new America.

#### PEOPLE ARE FUNNY.

Bill Fewell: "Why does a minister always say: 'Dearly beloved brethren,' and not refer to the sisters?" Arthur Johnson: "Because the brethren embrace the sisters."

Nurse: "Whom are we operating on today?" Dr. Graham: "A fellow who had a golf ball knocked down his throat at the links." Nurse: "And who is the man waiting so nervously in the hall, a relative?" Dr. Graham: "No, that's the golfer. He's waiting for his ball."

The Rotary Rig of the Berger club says in the current issue: 38,072 people died of gas last year: 41 inhaled it, 31 lighted it by touching a match to it, 38,000 stepped on it.

Bill Hogue crawled over Ernest Hittson's fence, only to find himself in a pasture with a vicious looking bull. "Hey, Ernest," Bill called. "Is this bull safe?" "He sure is," answered Ernest. "A lot safer than you are."—Cisco Ro-Ta-Tor.

## PLANNING AHEAD

Planning now for your post-war home is essential. Of one thing you'll want to be certain—you'll want to be sure that the wiring will be adequate to take care of all the new miracles of better living which post-war America will have. Electricity is now being translated into super weapons of the battle-fronts—tomorrow it will bring to your home a better way of life.

Plans and preparations made long before the war, by business-managed electric companies such as ours, have made it possible to meet the wartime demand for more and more electric power. There has never been a shortage of ample electricity for war production and civilian needs.

Sound business-management makes us keenly conscious of our post-war obligation to serve, and when this generation comes back from war we will continue to supply dependable, low-priced electric service.

## COWBOY BOOTS

Handmade to order and guaranteed to fit. Made from any kind of leather desired - any style. Prompt delivery.

## MARTIN'S BOOT & SHOE SHOP

Rising Star, Texas.

Talking Is All Right - If you are running for office or courting your best girl but when it comes to buying land or town property don't let any one talk you out of an abstract. The fact that the seller has owned the land for many years doesn't mean that the title is always good. The safest plan is to get an abstract before you buy. The cheapest property on earth is too high if the title is faulty.

*Now, it's here*  
**BETTER THAN PRE-WAR**

Today you can drive into the Humble station nearest your home or office and fill up with *better than pre-war* Esso Extra!

Always first among the premium gasolines, Esso Extra is—today—a gasoline of unprecedented quality. Never before have you been able to get so fine a gasoline for your car, a gasoline of aviation grade exceeded in quality only by fuels used by war planes in combat.

Esso Extra has everything it had before the war—easy starting, matchless pick-up, knockless performance—with a *higher octane* rating than was economically possible in 1941.

Don't wait longer for *better than pre-war performance* from your car—stop, today, at

the nearest Humble sign for *better than pre-war* Esso Extra—fill up with the finest gasoline you've ever used.

**COMING SOON!**

There's a new, high-octane Humble Motor Fuel on the way. It will march just behind Esso Extra. With Humble Motor Fuel, you can expect smooth, easy starting, quick pick-up performance at regular price. When your Humble station has the new, high-octane Humble Motor Fuel, announcement will be made in this newspaper.

**THANKS!**

During the war years, Humble men and women worked 'round the clock to give Allied arms the petroleum products they needed for final victory. *Not an hour was lost!*—Humble people adhered to a soldier's standard of devotion to duty. The Company wants you, the user of Humble products, to know of this, and thus publicly to express its appreciation to Humble workers for their outstanding loyalty . . .

Now is the fitting time to say "Thanks" to the men and women who stand together under the Humble sign . . . *now*, when their skill and Humble's unrivaled manufacturing facilities have been turned to the needs of peace . . . *now*, when the Company can keep its wartime promise to Texas motorists to provide them with gasolines of pre-war—or better—quality at the first opportunity . . . *now*, when the opportunity is here, and Humble can offer you better than pre-war Esso Extra, the finest gasoline you have ever been able to buy for your car.

**HAVE YOUR MOTOR TUNED FOR BETTER THAN PRE-WAR DRIVING PERFORMANCE**

You'll notice—instantly—the high-octane performance of BETTER THAN PRE-WAR Esso Extra. Nevertheless, it will pay you to have your motor tuned to take full advantage of it. Some cars will require only a simple mechanical

adjustment with a screw-driver; others may need the attention of a good mechanic . . . But you know what your car needs. After you fill up with better than pre-war Esso Extra, have your motor tuned for better than pre-war performance.

**HUMBLE OIL & REFINING COMPANY**

FOR BETTER THAN PRE-WAR GASOLINE—FILL UP TODAY WITH HUMBLE
