## Patman Makes It Clear He Won't Run for Governor

AUSTIN, Sept. 6.—A new flurry in Texas political discussion was kicked up by the addition of Congressman Wright Patman's name to the growing list of possible candidates for governor in 1946. The Texarkana congressman has a promptly spiked the report. "I am not expecting to run for governor," he told Walter C. Hornaday, Washington correspondent, upon his arrival at the capital for the opening of congress. "That is as final as it can be."

Speculation on candidates for governor means little right now. Any public figure who walks north on Congress avenue in Austin is likely to have his name bandied as an aspirant. It is a standing joke in Austin: "For two bits I'll spread a rumor that you're going to run for governor."

But here is the importance of the Patman flurry: It indicates that the liberal element in Texas has not yet agreed on its candidate. The liberals, who now control the party machinery by having an overwhelming majority of members in the State Democratic Executive Committee, are dead set on supporting as a body one strong candidate so that liberal strength won't be divided at the primary polls. They have marked for defeat Lt. Gov. John Lee Smith, already running for governor, and Senator W. Lee O'Daniel, who has hinted he might.

O'Daniel based his reason considering a return to the state political arena on the recently passed state constitutional amendment that sets an over-all ceiling of \$35,000,000 a year on public welfare — including pensions for the aged, aid for needy blind and needy children.

The report that Patman was considering a race for governor was inspired by his statement that the welfare ceiling was unfair and should be repealed as soon as possible. This was interpreted to mean that he was taking some of O'Daniel's own campaign thunder. The congressman's statement that he would not be a candidate for governor doesn't mean that he won't be in the state campaign next year, especially if O'Daniel runs for governor. There is little chance that Patman would pass up an opportunity to take a few cracks at the junior senator.

Patman has had his eye on the junior senatorship for years. It was an open secret last year that he was planning to run for the senate in 1948 — so open that his Dallas friends called him the senator-elect. Patman wanted to run against O'Daniel for the senate before, but stood aside and let Congressman Lyndon Johnson try his luck, which was not good. The liberal element that controls the state party machinery has an ultraliberal satellite. A free reference might classify the liberals as Roosevelt-Truman Democrats and the ultraliberals as Roosevelt-Wallace Democrats, to recall their sentiments of last summer.

Those embracing the Wallace philosophy of government and economics are strong for Dr. Homer Rainey, discharged University of Texas president, as a candidate for governor.

Rainey has been more or less counted out of the governor derby until the recent Jefferson Day picnic-banquet at Austin. The politically wise had put him down as a symbol, a martyr for some candidate to point to with indignation. But even some of those who supported him in the battle with the regents admitted that they did not think Dr. Rainey would be a good campaigner. They cited Dr. Rainey's speech at North Dallas high school when he left himself open to counterattacks on such issues as defense of conscientious objectors — not a popular wartime subject. But Dr. Rainey received a surprising ovation when introduced at the picnic. And he has announced a series of radio addresses on a Texas network. The educator is in the 1946 campaign — but he hasn't stated whether he himself will be the candidate. He has announced that he would work to overthrow politics in Texas as represented by Gov. Coke R. Stevenson and his followers.

## MR. TRUMAN FAVORS THEIR RETENTION DURING CRITICAL PERIOD OF U. S. RECONVERSION

WASHINGTON, Sept. 6.—President Truman called upon Congress today to keep his war powers in force for the reconversion "emergency" as he laid down a 21-point legislative program. It included "limited" tax cuts next year and proposals to achieve full employment.

Mr. Truman told the legislators, assembled for their first peace time session in four years, that the war will not be over on the home front until its economic impacts have been eased.

Hence, he said, proposals to abolish war-time controls by declaring the war officially at an end would lead to "great confusion and chaos in government."

The 16,000-word message, which Mr. Truman sent to Capitol Hill, promised a lifting of controls one by one, as fast as possible. But it cautioned that their overall abandonment would leave the chief executive powerless to prevent "bottlenecks, shortages of material and inflation."

Tempering his warnings with expressions of confidence, Mr. Truman declared that prompt and vigorous congressional and administration teamwork can usher in an era of unprecedented prosperity.

"A vast backlog of orders may soon make possible the greatest peacetime industrial activity that we have ever seen," the President said, adding at another point:

"In this hour of victory over our enemies abroad, let us resolve now to use all our efforts and energies to build a better life here at home and better world for generations to come."

Recommending immediate enactment of a transition revenue bill to provide "limited tax reductions" for the calendar year 1946, Mr. Truman stressed that the reductions should aim principally "at removing barriers to speedy reconversion and to the expansion of our peacetime economy."

He emphasized that the \$66,000,000,000 the government expects to spend during this fiscal year will exceed anticipated revenue by \$30,000,000,000, and added:

"We must reconcile ourselves to the fact that room for tax reduction at this time is limited. A total war effort cannot be liquidated overnight."

Mr. Truman expressed hope Congress would follow the transitional bill with one to modernize the whole federal tax structure. This, he said, would encourage business incentive and expansion and stimulate consumer buying power.

Other provisions of the 21-point program included a request for enactment of a vast public works program, endorsement of the so-called "full employment bill" and a suggestion that senators and representatives raise their own salaries from the present \$10,000 to \$20,000 a year, Mr. Truman said he would have recommendations later for a national health program and an expanded social security program.

The President, who left the reading of the message to congressional clerks, renewed his request for continued drafting of men 18 through 25 for two-year periods. Such inductions are necessary, he said, to supplement the voluntary recruitment program to keep occupation forces up to safe levels.

The chief executive likewise reiterated an appeal for legislation — but he hasn't stated whether he himself will be the candidate. He has announced that he would work to overthrow politics in Texas as represented by Gov. Coke R. Stevenson and his followers.

The catch is this: Governor Stevenson probably won't be standing around waiting to be overthrown. He most probably will be looking at a cow on his ranch.

to extend employment compensation coverage to federal workers and others not now covered and for federal contributions to provide temporary maximum weekly payments up to \$25 a week for 26 weeks in every state.

In appealing for continued war-time powers to resist price and wage increases pressures, Mr. Truman declared: "The American people are entitled to a firm assurance not only on the part of the administration, but from the Congress itself, that rents and the prices of clothing, food and other essentials will be held in line. They are also entitled to buy washing machines, vacuum cleaners, automobiles and other products at prices based on our traditional system of high output and low unit costs."

"The promise of good profits for businessmen must not be based on small initial volume. It must be based on the full all-out production which it is my belief that American industry will rapidly achieve."

In endorsing the so-called "full employment" bill, Mr. Truman said full employment "in human terms," means "opportunity to get a good peace time job for every worker who is ready, able and willing to take one," and not "made work or making people work."

## Thirty-Hour Work Week for U.S. Civilians Be Asked

WASHINGTON, Sept. 6.—Sen. Pat McCarran, (Democrat, Nev.), is drawing up legislation which would place civilian government employees on a 30-hour work week.

He said his bill, which calls for five work days of six hours each, would eliminate the half day of work on Saturday. It is in the form of an amendment to the Federal Employees Pay Act, which was approved June 30.

McCarran proposes to maintain salaries at present levels. He said the prime object of the legislation is to spread all available work among employees who may be dropped from government payrolls during the reconversion period.

In agencies where the volume of work makes it necessary for the present force to work more than 30 hours additional workers would be hired before overtime is granted.

## End of Most Rationing Promised By Close of '45

WASHINGTON, Sept. 6.—OPA has told congressmen that "most rationing will end this year" while rent control will be scrapped in 75 to 100 cities within four or five months.

The forecasts were made in a report sent to senators and representatives recently by Price Administrator Bowles.

It outlined for the guidance of legislators this "present outlook" for the removal of price ceilings and ration rules:

Both meats and shoes will be unrationed by the end of 1945. Fats and oils may be rationed into 1946; at least, the shortage is likely to last that long, and Sugar is "impossible to predict."

On tires, Bowles missed his guess. His report said truck tire rationing might end by Aug. 31. That date has passed, and OPA men now think both truck and passenger tires may be rationed until the first of the year.

## Cisco Loboes to Play But Four Games at Home

A colorful rivalry of almost 20 years ago will be renewed when the Cleburne Yellowjackets come to Cisco the night of Friday, September 14, to open the current football season with the Loboes.

The game will be played on newly lighted Chesley Field, and it will be the first night game to be played in Cisco in many years. Cisco was the first city in this section of the state to install lights for night football, but the lights were discontinued nearly 10 years ago.

The lighting system will be thoroughly modern. Forty 1,500 watt lamps will light the field. The batteries of lamps are being installed on ten steel poles.

Stands at the field have been repaired and repainted and other improvements made to provide the Cisco team with as good a playing field as any other team in the district.

Following the game with the Cleburne eleven here the Loboes go to Big Spring where they will meet the Steers, September 21.

The first conference game will be played with Stephenville at Stephenville. Of the ten games on the Lobo schedule only four will be played at Cisco. They are with Cleburne, Weatherford, Ranger and Eastland. The schedule is:

- September 14—Cleburne at Cisco.
- September 21—Big Spring at Big Spring.
- September 28—Open.
- October 5—Stephenville at Stephenville.
- October 12—Mineral Wells at Mineral Wells.
- October 19—Open.
- October 26—Weatherford at Cisco.
- November 2—Brownwood at Brownwood.
- November 9—Ranger at Cisco.
- November 16—Midland at Midland.
- November 23—Eastland at Cisco.
- November 30—Breckenridge at Breckenridge.

## BETHEL REIVAL

The revival at Bethel church, located between Cisco and Scranton, is progressing nicely, says Dr. R. Ernest Little, Scranton Methodist minister. Rev. John Merritt of Ft. Worth is delivering powerful, practical messages, both morning and evening. The services will continue through Sunday.

FOR HIS CONTRIBUTION TO VICTORY—Gen. Jacob L. Devers, left, Commanding General, Army Ground Forces, starts a new row of ribbons as he presents the Oak Leaf Cluster to Lt. Gen. William H. Simpson, former Commanding General of the U. S. 9th Army.

## President Thinks Yanks Order Dusk \$20,000 a Year to Dawn Curfew, Due Congressmen Tachikawa Area

WASHINGTON, Sept. 6.—President Truman told Congress today it ought to give itself "a straight, out-and-out salary increase."

He suggested a salary of \$20,000 a year. That's exactly twice the present pay.

At the same time Mr. Truman recommended repeal of the legislation by which the House earlier this year gave each of its members an additional expense allowance of \$2,500 a year. (The Senate rejected the proposal).

"There is no doubt in the mind of any thinking American," Mr. Truman said in a message to Congress, "that members of Congress are grossly underpaid and have been for many years."

He recommended also "an adequate retirement system" for members of Congress and said that more pay for them "should be the first step in creating a decent salary scale for all federal government employees — executive, legislative and judicial."

Congress' last raise came in 1925. That year it boosted salaries of its members from \$7,500 to \$10,000. Prior to 1907 the salary was \$5,000.

## YOKOHAMA, Sept. 6.—Gen. Douglas MacArthur will raise the famous American flag that flew from the capitol in Washington on Pearl Harbor Day over Tokyo on his formal entry Saturday.

The flag was also flown at the Big Three conferences and fluttered from the masthead of the American Battleship Missouri during the Japanese surrender ceremonies last Sunday.

American occupation authorities clamped a dusk-to-dawn curfew and other restrictive measures with penalties ranging up to death on the Tachikawa area, eight miles west of Tokyo.

The orders, revealed in a Tokyo radio broadcast, may set a pattern to be followed at least in part in the occupation of Tokyo itself.

No specific reasons were given in the Tokyo broadcast for the imposition of the curfew and other prohibitions at Tachikawa, where Eighth Army units have taken over the big Army air base.

MacArthur was expected to enter Tokyo with the vanguard of the First Cavalry Division troops Saturday morning, but full details of his entry had not yet been worked out.

## Excellent Record Judia Completed of Bill Donohoe 79 Air Missions Won Army Release in Mediterranean

Master Sgt. Bill Donohoe, 25, son of Mr. and Mrs. W. W. Donohoe, is at home and once more a private citizen after five years service with the army air forces.

He was discharged August 22 at Fort MacArthur, Calif., because of his excellent record, accumulated points and long service.

Donohoe, apparently in perfect health and quiet and serene, despite his perilous life with a bombing squadron in Alaska, the Gilbert, Marianna, Marshall and other islands of the central Pacific, was born in Corsicana and came to Cisco with his parents when two months old.

He was active with the Lobo football team and graduated from Cisco high school in 1937.

First Lt. Frank Judia, son of Mr. and Mrs. Ray Judia of Lake Cisco tourist lodge, is at home on thirty-day leave from the air forces following his return from the Mediterranean theater of war, where he completed 79 missions.

Judia, 22, grandson of Mr. and Mrs. G. N. Mahaney, was born and reared in Cisco, is a graduate of Cisco high school and was in his second year of Cisco Junior College when he entered the service in February, 1943. In November, 1944, he went overseas, where he served as a fighter pilot with the Twelfth air force in Italy.

He holds the air medal, two oak leaf clusters, three battle stars and the presidential citation.

## BROTHERHOOD MEETING

East Cisco Baptist church brotherhood will meet tonight at 8:30 at the church in regular semi-monthly meeting. The principal speaker will be Sgt. E. F. Smith of Camp Bowie, who spent two years overseas, seven months of which were spent in a German prison camp. A cordial invitation is extended to the men of Cisco to attend this meeting, said W. L. Lewis, Sergeant Smith will be accompanied to Cisco by Rev. Russell Dennis, former pastor of the church.

## First Draftee Back Home for Keeps

Mrs. Harry S. Bell, of Washington, D. C., whose exclamation of surprise resounded over radio networks when 158—her son's number—was called in the first draft lottery, is happy again. Her son, Sergeant Harry, is "back home for keeps" with an Army discharge in his pocket. He has seven battle stars, soldier's medal, bronze star and the Purple Heart, with oak leaf clusters.

GETTING CLOSE—Eager WACs watch over rail as their ship draws inches closer to the point of debarkation at San Francisco dock. They are some of the 101 Pacific battle-veteran girls with required 44 points for discharge, having served 14 to 16 months in Pacific theaters of war.

## NOW FOR THE TELEPHONE JOB AT HOME

The big war telephone job is nearly done. Now we can turn to the big telephone job here at home — the job of reconverting and constructing for peacetime telephone service.

We have a long way to go to catch up with the demand for telephone service. More than 240,000 people are waiting for us to furnish them telephones. Serving them will require millions of dollars' worth of new equipment. Poles must be set. Wires must be strung. Miles of cables must be laid. Switchboards and dial equipment must be made and installed.

Big jobs—complicated jobs—take time. But telephone factories are turning as rapidly as possible from war to peacetime production. Telephone people are eager for the job of putting new equipment to work. And soon, we hope, other skilled telephone men and women will be returning from the armed forces to help with the task.

Some of the 240,000 who are waiting for telephones will get service soon. For others, especially in cities where telephone facilities must be expanded, the wait may still be many months. As new equipment can be installed those who are waiting will be served in their proper order.

You may be sure that all our efforts are aimed at making the wait just as short as possible. We're working as hard to that end as we worked to supply the armed forces with vital communications equipment.

## CADET NURSES

### Take this opportunity to enlist in this proud profession

In over a thousand hospitals Cadet Nurses are serving while they learn. Their work releases graduate nurses for military duty. And, as Senior Cadets, they may serve in Army, Navy, Veterans Administration or Public Health Service hospitals.

Their work is so important that the U. S. Government provides free, tuition, room, board, uniforms and a monthly allowance. In return, the Cadet Nurses pledge to do military or essential civilian nursing for the duration.

If you want a career with a future, and free education in the proud profession of nursing, check the list below. If you can answer "yes" to these questions, you may be eligible for membership in the U. S. Cadet Nurse Corps.

# QUICK CONVERSION gives you better than Pre-War GASOLINE — NOW!

Today you can fill up with better than pre-war Esso Extra at your Humble station because—in a minimum of time—Humble has already converted to peace-time use the superb manufacturing facilities developed for war-time needs.

The same equipment that produced 100-octane aviation gasoline for war planes now makes Esso Extra for your car—a gasoline you couldn't buy in 1911—a gasoline with a new, higher octane rating.

Esso Extra stands first among the premium gasolines, the finest motor gasoline Humble has ever made. It is an aviation grade gasoline second in

quality only to the fuel used by war planes in combat.

If you used Esso Extra before the war, you'll be startled by today's better than pre-war performance. If you've never used Esso Extra, begin today: stop at the nearest Humble station for better than pre-war Esso Extra.

### COMING SOON!

There's a new, high-octane Humble Motor Fuel on the way. It will march just behind Esso Extra. With Humble Motor Fuel, you can expect smooth, easy starting, quick pick-up performance at regular price. When your Humble station has the new, high-octane Humble Motor Fuel, announcement will be made in this newspaper.

### THANKS!

During the War years, Humble men and women worked 'round the clock to give Allied arms the petroleum products they needed for final victory. Not an hour was lost—Humble people adhered to a soldier's standard of devotion to duty. The Company wants you, the user of Humble products, to know of this, and thus publicly to express its appreciation to Humble workers for their outstanding loyalty...

Now is the fitting time to say "Thanks" to the men and women who stand together under the Humble sign... now, when their skill and Humble's unrivaled manufacturing facilities have been turned to the needs of peace... now, when the Company can keep its wartime promise to Texas motorists to provide them with gasolines of pre-war—or better—quality at the first opportunity... now, when the opportunity is here, and Humble can offer you better than pre-war Esso Extra, the finest gasoline you have ever been able to buy for your car.

#### Have Your Motor Tuned For Better Than Pre-war Driving Performance

You'll notice—instantly—the high-octane performance of BETTER THAN PRE-WAR Esso Extra. Nevertheless, it will pay you to have your motor tuned to take full advantage of it. Some cars will require only a simple mechanical adjustment with a screw-driver; others may need the attention of a good mechanic... But you know what your car needs. After you fill up with better than pre-war Esso Extra, have your motor tuned for better than pre-war performance.
