25 JAP HIGHUPS NOW IN JAIL

MILITARY SERVICE—Officers lead the caisson carrying the body of Adm. John S. McCain to Arlington National Cemetery. The 64-year-old commander who won his wings at the age of 51, led his Navy unit to the gates of Japan and witnessed her defeat before his death.

GENERAL M'ARTHUR'S DRAGNET STILL YAWNS FOR TWENTY-TWO OTHER BRUTAL YELLOW DEVILS

TOKYO, Sept. 15. — Shigenori Togo, foreign minister at the time of Pearl Harbor and No. 2 on Gen. Douglas MacArthur's list of Japanese war criminals, surrendered today to the U. S. Eighth Army. Eleven other war criminals also surrendered or had been taken into custody in the last 24 hours, bringing to 25 the number accounted for of MacArthur's two lists totaling 47.

The haul included the two top Filipino quislings arrested by 8th Army men — Jose P. Laurel, president of the Japanese-sponsored Philippines Republic, and Benigno S. Aquino, president of the Japanese-sponsored Philippine National Assembly.

Surrendering with Togo were Vice Admiral Yoshitake Ueda, former chief of naval aviation and No. 24 on the list, and Col Kingoro Hashimoto, Nationalist leader of the pre-war young officers' clique, which had demanded war with the U. S. for a decade before they got it.

Hashimoto, who ordered the attack on the gunboat USS. Panay in China in 1937, was not on the original list of 40. He was among seven leaders of the terroristic Black Dragon Society who were ordered arrested later.

GOP Looks With Favor on Eisenhower for 1948

WASHINGTON, Sept. 15.—Republicans have picked their man for 1948 some insiders believe. He's General Eisenhower. Politicians who watched him coordinate diverse elements in Europe say he's one of few generals with talent for that sort of thing. Key to how Eisenhower feels about it will come if and when he's offered chief of staff job. It's four-year appointment would bring him into the administration of his probable rival, meanwhile Admiral Butcher, Eisenhower's naval aide, is writing a book about him. It will be out before long.

Lack of generalship threatens government reconversion program. Close Truman advisers worry at his failure to follow through on his message; he's taking one vacation now, plans others soon. Congress, called back, as Truman said "in line of great emergency," talks, recesses, considers small routine matters, shows no signs of passing urgent measures. Meanwhile War Mobilizer Snyder, boss of administration reconversion set-up, has gone to Europe. So has Surplus Property Director Symington. Disposal of government-owned war plants, major phase of reconversion, waits formulation of policy by someone, somewhere.

Mother Informed That Her Son Is on His Way Home

Pfc. Herbert Ray Morris, 26, who was mentioned in this paper a few days ago as having been liberated from a Jap prison at Singapore, is now enroute home according to a war department telegram to his mother, Mrs. Fannie M. Agnew, 506 Jefferson street, Cisco.

The government message said the young man was in good physical condition.

Morris was born in Ft. Worth, but the family moved to Eastland county when he was two years of age. He attended school in Cisco and at Rising Star, entering the army in January, 1941.

The Ciscoan was captured at Java, along with the group now known as the Lost Battalion.

20 Battle-starred Men Burn as They Near Their Homes

KANSAS CITY, Mo., Sept. 15.—The bodies of 20 battle-starred veterans of action against the Germans, and those of three crewmen, were recovered today from the splintered and smoking wreckage of a C-47 ATC plane which crashed as it carried them on the last lap of their flight home from Europe to the west coast.

The plane took off from Fairfax Airport in Kansas City, Kans., at 12:15 a. m. today and within minutes was a furious blazing funeral pyre for all but three of the 24 men aboard it. Two of them died at the General Hospital and the sole remaining survivor was...

DRAFT OLDER MEN.

WASHINGTON, Sept. 15.—Senator Johnson, of Colo., urged Saturday that Selective Service draft older men — even up to 60 — for occupation duty in enemy lands, and leave younger men in school.

"We've been using future scientists for cannon-fodder," the blunt Colorado senator, ranking majority member of the Senate military affairs committee, declared.

Loboes Lost---But Furnished Thrills, Pleased Huge Crowd

The Cisco Loboes spotted the Cleburne Yellow Jackets 14 points in the first quarter of their game here Friday night and then rallied spectacularly to tie the score at 27-all in the final quarter — before losing 34 to 27 in the last two minutes of play.

It was drawn against passing legend, and the result was one of the most thrilling contests that has ever been seen on Chesley Field. Both teams played in mid-season form. There was only one fumble from scrimmage, Cleburne making it on the final play of the game. Penalties were frequent however, most of them due to clipping and holding.

Cleburne brought a fast, heavy team, well set up for the T-formation style which Coach H. H. Yearly used. The sheer power of its 180-pound line was too much for the comparatively light Cisco line in running plays featuring the powerful driving of Weldon, Cleburne backs. This accounted for the 17 first downs which Cleburne amassed in registering five touchdowns.

Loboes Furnished Thrills.

The Loboes, however, furnished the thrills of the game in swift-striding passes and broken field running, starring Tipton and Harrelson to Williams and Pence, ends, and Sauls, wingback. Cisco registered six first downs.

The Six line, over-matched by weight, performed nobly, with Noddes, Hill, Penn, Randall and Ted Fields, the latter two substitutes at guard and center respectively, doing yeoman work. King, regular center was forced from the game by injury after a sterling performance and Baum, although he has been out only a week, did well at guard.

The offensive character of the game is indicated by the fact that there were only three punts throughout, two by Cisco and one by Cleburne.

Cleburne scored first when Weldon went over from the seven yard line after a drive upfield from kick-off. Stevens converted. The Yellow Jackets, in what looked like a gathering riot, quickly added another score when they held, took over from the Loboes, and rushed the ball to the 10 from which Brown slip-punched for the score as the first quarter closed. Stevens again converted.

Like Old Times.

With a deficit of 14 points starting at them, the Loboes brought the biggest Cisco crowd of years to its collective feet when Tipton threw a long pass to Sauls who

Republicans May Force President To End the Draft

WASHINGTON, Sept. 15. — House Republicans were reported to be nearly unanimous tonight behind a move to force the administration to end the draft and speed demobilization.

Dissatisfied with the army program and the administration's policy, Republicans have agreed to force the issue into the open.

Some Democrats admitted that the demobilization policy was so hot that the Republican move probably would result in a majority of that party in both houses of congress next year unless the Democrats take action—and quickly.

Sailor Laird of Cisco Writes from the USS. Catskill

James L. Laird of the USS. Catskill, native Ciscoan, writing to his parents, Mr. and Mrs. E. L. Laird, said he was okay and that it appeared he would soon head for home. The letter, written at Manila, Sept. 4, said:

Dear Folks: Just a few lines to let you know that things are still okay with me. Now that all censorship has been canceled, maybe I can tell you a little more. At present I am at Manila. We have been in the Philippines for the past sixty days, except for a few outside runs. We will lead guys from the Eighth army to Tokyo Friday. We will pick up war prisoners there and take them to the states; so it looks as if I will be home before long.

We have had a few run-ins with the Japs, but not enough to hurt. We got one plane. We shot at many more, but I can't say that we got any. No one on our ship has been killed. One died in Frisco and one died on Guam. We have been to the Philippines, Mandora, Corregidor, Leyte, Manila, Bataan, Guam and other places I can't think of. I have a few souvenirs and am getting some more before I leave here. This place is so torn up it looks like Charlie's junk yard.

We saw the Jap peace officials and General MacArthur. At present we have five captains and two admirals aboard, using us as a hotel. Also there are some soldiers aboard.

Goodbye for now. Wish me luck on the last leg of my journey. JIM.

CHILD OF 11 KILLED.

AUSTIN, Sept. 15. — Ola Bell Sprouse, 11, was killed here Friday when the automobile in which she was riding was struck by a train.

Time Has Come to Prosecute Cisco Vandals

Acts of vandalism committed by Cisco youth against public and private property is becoming a serious threat and may develop into a wave of juvenile delinquency of serious proportions unless immediately curbed. It was declared here this week following instances in which damage was done to the newly improved high school football stadium.

Demands were being heard for a firm hand in dealing with uncontrolled youngsters who roam the streets and residential areas in daytime and night time, committing what some term "mischievous acts."

The need for better parental control or strict enforcement of law on the part of the police department is very apparent.

Unless something is done to impress upon these boys and their parents that public and private property must be respected, fears

Furious, 143 Mile Winds Hit Miami and Florida Keys

MIAMI, Fla., Sept. 15.—A giant hurricane, with winds up to 143 miles an hour, slammed across the Florida Keys and the southern tip of Florida today, knocking down power and telephone lines in Miami and causing one death.

At 3:30 p. m. the weather bureau placed nearly half of Florida under a hurricane alert as the center of the storm showed signs of curving straight toward the mainland.

COOLING THEIR HEELS—Stephen Rawson, left, and William Lindsay said it was just too hot on their block in New York so they wandered off to Coney Island. Here they bathe weary feet at home after sleeping in the open for two nights. Boys' new opening of school had nothing to do with yachting.

KIDNAPED, ROBBED.

ALTON, Ill., Sept. 15. — Four men early Saturday kidnaped and robbed Gus Maggos, millionaire liquor distributing company executive and night club owner of \$15,000 in cash and jewelry. Maggos was tossed out of the bandits' car four miles north of Alton where three teen-aged couples found him. He was blindfolded and gagged and lay at the side of the highway.

REAGAN TO WASHINGTON.

William Reagan left Saturday morning for Norman, Okla., where he will be joined by his daughter, Mrs. Gladys Berry, for a trip to Washington, D. C., to see their son and brother, Capt. Harrell Reagan, who recently returned to his home in the capital from Iran, where he served with the Persian command. Captain Reagan sustained a broken leg in an auto accident shortly before his departure for the United States.

Three-county Fox Hunt, Barbecue at May Wednesday

RISING STAR, Sept. 16. — According to officers of the Brown County Fox Hunters association, plans have been completed for the fall meeting of the association, which is to be held on the O. T. Jarvis place, two miles northeast of the May cemetery, Wednesday, Sept. 19.

Mills and Comanche counties will participate in the festivities it was said.

A big barbecue dinner will be one of the main features. Supper will also be served on the grounds. A bench show is scheduled for the afternoon and a big hunt will be conducted at night for all who love to follow the hounds.

Preparations are being made to feed a large crowd, as it is believed that both Mills and Comanche counties will send large delegations.

WANT THEIR IDEAS.

LONDON, Sept. 15. — Poland, the Ukraine and White Russia have been invited to Monday's meeting of the Big Five Foreign Ministers' Council to express their views on the Italian peace treaty, a communique said today.

AFTER A VIGIL of over four years, Mrs. Jonathan Wainwright looks tenderly at her gallant husband who just arrived from Japan. Cheering crowds paid tribute to hero in Washington and the President awarded him Congressional Medal of Honor; later he was honored in New York.

MOST IMPORTANT.

With this last war scarcely finished, a lot of experts are beginning to think and work along the lines for the next war.

As far as technology is concerned, it may be an engrossing and fascinating task. Science is now so far advanced, and new discoveries and possibilities are piling up so fast, that we glimpse the frame of a new world almost as different from the present period as this period itself is from that of the early American Indians.

And right here, along this line, is probably the place where we ultra-moderns are likely to make our biggest mistake.

For we tend more and more to estimate human progress in terms of mechanical gadgets, rather than human development and evolution.

We may go a long way in this direction before we wake up, turn around and try to make a real job of developing the things inside of us, instead of the things outside of us.

USE OF POWER.

Yes, "it is the little things of life that count." And this fact is now found to be true in a sense that the people of former generations could never have imagined.

Recent revelations of atoms, whose units are invisible to the eye, or even the microscope, are now revealed as literally the most powerful units of force in the world.

Man so far has been able to grasp and control only a little of this vast and all-pervading force. But in the recent "breaking down" of the atom the scope of human power expands enormously.

And so the greatest problem of the present and future seems to be what man is going to do with his atomic power.

Will he use it for good or evil, for unselfish or selfish purposes? If the former should prevail, another generation or two might see more progress in development and

improvement of human life, knowledge and achievement than has been accomplished since the beginning of the modern era. But if the moral and social factors are ignored, what is probably the greatest and most promising experiment in the universe may end in destruction.

Constitution Day

THERE is no greater testimonial to the wisdom of those men who framed our nation's constitution than the spirit with which all of us at home and overseas have fought on to Victory.

That Constitution was aimed at securing government for, by and of the people. In its treasured, simple phrases is embraced the right to and the means of enjoying that quality of freedom which is the universal aspiration of all men and women. Now that final Victory is here, we need no stronger urge to continue to buy Bonds, than a re-reading of our Constitution will inspire. Don't delay: affix your signature to another Victory Bond purchase this Constitution Day, September 17.
