NUMBER 28

## JAP COMMUNISTS DENOUNCE EMPEROR

### REDS AND LONG-TIME PRISONERS MARCH THRU STREETS TOKYO; DEMAND DEMOCRACY

### TIGERS WIN RICHEST SERIES EVER

(By United Press)  
TOKYO, Oct. 10. — Gen Douglas MacArthur tonight banned all imports to Japan above amounts necessary to maintain a minimum living standard, as hundreds of Japanese Communists and sympathizers marched through Tokyo shouting for the removal of Emperor Hirohito.

MacArthur's directive restricted imports to commodities the Japanese "clearly and completely demonstrate" could not be produced in Japan.

It was issued as Minister of Agriculture Kenzo Matsumura said in an interview that food riots would increase and the Japanese be reduced to making grasshoppers and acorns a supplementary part of their diet "to prevent mass starvation."

Meantime hundreds of Japanese Communists, including newly-liberated prisoners who had been jailed for as long as 18 years, marched through downtown Tokyo, waving red banners and shouting for the removal of Emperor Hirohito.

Communist speakers at the party's first rally in 15 years called for the emperor's removal and the setting up of a democratic regime in Japan.

Hundreds marched past MacArthur's headquarters with banners which said "we want work. We want food. Banzai Democracy."

### Boy of 20 Wins the Title of U. S. Star Farmer

KANSAS CITY, Oct. 10 (AP)—Gordon John Eichhorn, 20-year-old Marion, O., farmer, today held the title of star farmer of America.

Announcement of his selection and award for \$500 from the weekly Kansas City Star was made last night at the 18th annual convention of the Future Farmers of America.

Since 1939, the young farmer has built a sow, two steers and 28 sheep into 60 hogs, 90 sheep, 1,500 chickens, 52 acres of wheat, 67 acres of corn, 18 acres of soybeans and more than 100 acres of other crops.

### Texas Dries Will Launch Pro Drive When Vets Return

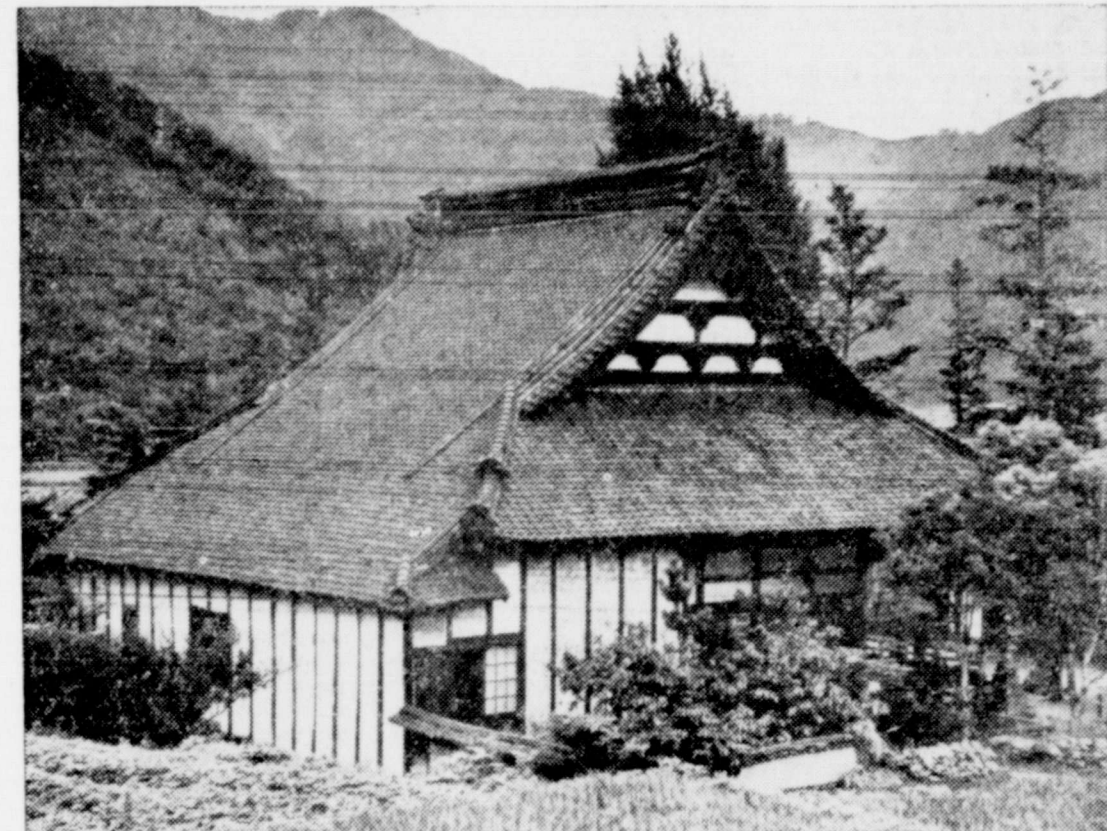

DALLAS, Oct. 10 (AP)—State-wide prohibition and beginning of campaigning for a prohibition referendum in Texas as soon as servicemen return are today agreed goals of the United Texas Dries.

Meeting in annual convention yesterday, the group voted a \$50,000 budget to accomplish their goals. Other aims of the organization are to "inform, arouse, educate the people. Promote total abstinence from the use of all alcoholic beverages. Enforce present laws — enact better ones."

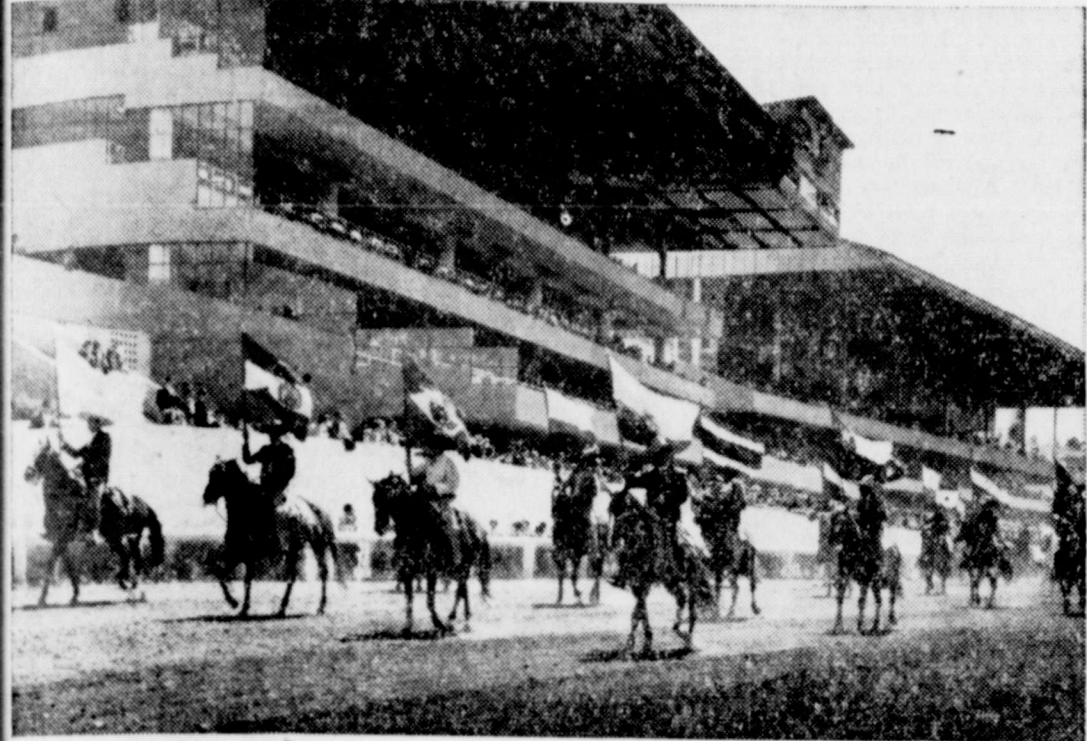

### POLICE CHIEF EXECUTED.

PARIS, Oct. 10 (AP)— Joseph Darnard, police chief in former Premier Pierre Laval's Vichy government, was executed at Fort de Chatillon, today for treason. He was convicted by a French court Oct. 3.

WANT TO RENT — Four, five or six-room house in Cisco, at once. Will take excellent care property and pay year's rent in advance. Lester Agnew, route one, Cisco, 30

JAP FARMHOUSE is quite unlike rural homes in United States. Compact cottages, in area between Hiroshima and Fukuyama, has typical Jap sloped roof and extensive wood panel ornamentation on outside. Farm is evidently closer to Fukuyama for it shows no evidence of atomic bomb.

DOWN MEXICO WAY—Charros promenade before clubhouse audience with banners of the 21 American Republics in preparation for opening of the Hipodromo de las Americas, Oct. 12. Colorful horseracing course will be augmented by the "Chimas Poblanas" señoritas dressed in native riding costumes.

### 13 of 16 Bowlers Business Property Turnover Will Add Improvements

Good average scores predominated at the bowling alleys last night, when West Texas Utilities team copped two out of three games with Cisco Gas Corporation and Firestone accumulated a three-game total of 1872 pins to take two of the three contests with Humble Pipe Line.

Three men exceeded the 500 mark — Curtis 544, McDonald 525 and Burzinski 523. Thirteen of the 16 players topped the 400 score for the three games.

Correction — In yesterday's Press the three-game total of Con Collins in the Monday night match was given as 384. The correct score is 420.

Monday night schedule: Garbhire Petroleum Co. vs. Cisco Gas Corporation; Humble Pipe Line vs. Cisco Lumber Co.

West Texas Utilities—  
C. J. Russell . . . 114 135 118—367  
Guy Ward . . . 132 124 165—421  
L. Burzinski . . . 174 155 194—523  
Lee McDonald . . . 170 181 184—535

Cisco Gas Corporation—  
Leo Mendenhall 152 136 197—395  
Pete Nance . . . 145 154 135—434  
E. Armstrong . . . 117 136 145—398  
R. L. Ponsler . . . 188 119 163—475

Firestone—  
R. Darnon . . . 140 168 140—448  
W. A. Flynn, avg 139 139 139—417  
Henry Curtis . . . 181 193 170—544  
Chas. Burke . . . 186 135 142—463

Humble Pipe Line—  
Les Jenkins . . . 115 169 155—439  
Jim Spoon . . . 149 148 120—417  
Tut Tabor, avg 154 154 154—462  
L. J. Henson . . . 166 173 140—479

J. T. Elliott has purchased the Eighth-street business property formerly occupied by Wilson Cafe and just east of Palace theater, and also the two-story brick building at 709 E avenue occupied by Commercial Printing company. The property was purchased from Walter J. Leach, now a resident of Los Angeles, and the sale was effected through C. S. Surles real estate agency.

When legal transfer has been made to Mr. Elliott, he in turn will transfer the E avenue property to F. E. Shepard of the Commercial Printing company, along with a 20 x 25-foot parcel of land now part of the Eighth-street property acquired from Mr. Leach, upon which Mr. Shepard will erect a tile and brick addition to his printing business.

Mr. Elliott stated today that he would immediately modernize the Eighth-street property he has just acquired, particularly with regard to the front of the building, and move his news stand, candy store and drug stock thereto as soon as possible. The general stock will be enlarged.

Elliott has occupied a part of the Palace theater building for several years, but was compelled to move because of extensive improvements planned by the new owners of the Palace, Messrs. Dunlap and Smith.

### BRITISH LOAN.

WASHINGTON, Oct. 10 (AP)—Congress probably will be asked before the end of the year to establish a \$5,000,000,000 "drawing account" for Britain with a five-year period of grace free from any kind of payments.

Reports received by the Daily Press indicate that Cisco high school will soon have a band that will measure well up to the high standards established by previous bands and bandmasters.

The City-School Board Band committee is composed of W. W. Fewell and J. D. Lauderdale and the band director is Fred D. Baumgardner.

When Mr. Baumgardner took over at the beginning of this school term, he had very little to start with, it is said — probably not more than three students with band experience.

Now the band membership includes 40 enthusiastic boys and girls and it will not be many weeks until the organization will be able to play at football games and on other public occasions.

The fine headway made by the band director is attributed to his ability to weld the group into a cooperative, hardworking unit. Practice is held three or more evenings a week and discipline is strict, but the fact that practically all members are present at each practice session, and apply themselves diligently while there, would seem to indicate that they too are thoroughly pleased with the progress they are making.

It is stated that numbers of band uniforms, several band instruments and a large number of metal emblems for band uniforms caps are still in the hands of former band members. All are badly needed, it is said, and those in possession of this city and school board property, are respectfully urged to leave same with the band director or the band committee, at once.

### 14.7 Inches of Rain Fell Here Past 3 1/2 Months

The rain ceased and the sun came out in Cisco today, bringing to an end cloudy skies and two days and nights of almost continuous rainfall. The precipitation was not heavy at all times during that period, but nevertheless a total of two and three-tenths inches were gauged at city hall since about 7 o'clock Monday morning, says George W. Downie, city secretary.

The rainfall was general over the county and throughout West Texas.

Cisco has had 14 and seven-tenths inches of rain during the past three and a half months, as the following figures furnished by Mr. Downie will attest:

July, 4.5; August, 2.6; September, 2.7; October, 4.9.

### OKAYS TVA.

KENTUCKY DAM, Gilbertsville, Ky., Oct. 10. — President Truman today described the Tennessee Valley Authority as "an important experiment in democracy," called for early development of the other great watersheds of the nation to provide "jobs and better living," and declared that Americans "will not listen to the whispers of the timid."

### TEXAS WHEAT.

COLLEGE STATION, Oct. 10 (AP)—Texas wheat will soon be deep in the heart of Czechoslovakia. A Liberty ship recently left Houston bound for Czechoslovakia loaded with 15,420 bags of Texas wheat seeds and 1166 bags of rye. Other recent relief shipments from this country have included alfalfa seed for Yugoslavia and Greece, barley for Czechoslovakia and Greece and vegetable seeds for China.

BABY BISON nestles close to mama as visitors at zoo in Washington, D.C., gaze admiringly at 30-pound infant. Youngster looks like an albino now but will wear dark coat after he grows up.

### Echoes Midnight Walkout Continue to Reverberate

AUSTIN, Oct. 10 (AP)—Echoes of the midnight unheralded walkout of electrical workers on the Lower Colorado River Administration system continued to be heard long after circuits were restored. Covering a territory that took in most of Central Texas, the shutdown had wide repercussions.

Camp Swift's "Baron" reported that lives were jeopardized there and 30,000 soldiers subjected to hazards. Going into detail the "Baron" told how nurses had to make hurried arrangements for Brenda Joyce Geisenberg, a two-pound, 13-ounce incubator baby, when electric current was cut off from the camp's hospital equipment. Luckily the tiny daughter of Pfc. William A. Geisenberg survived.

There were two appendicitis operations at Camp Swift during the strike blackout. One was on Pfc. Billy R. Dougherty, recently arrived in camp from overseas. The other was on Pvt. Arnold H. Alyea.

LCRA officers said the strike cut off current also from the Veterans' Hospital at Legion, near Kerrville, and from 10 private hospitals.

United States Employment Service declined to furnish applicants for places on the ground that a strike was on. But Raymond Brooks, secretary of the LCRA, said a number of war veterans came to the Austin office of LCRA and offered to man the hydro-electric plants.

One University of Texas instructor in electrical engineering volunteered to serve in the plants until service could be restored to the army camps affected, which included Bergstrom and San Marcos army air fields.

Lampasas had an electric generator shipped from Camp Swift near Bastrop to pump water into its standpipes as a precaution against fire.

Smithville had to stop use of water in many places, and the Katy railroad halted freight trains that usually took on new water supplies there.

### WHATLEY IN 'FRISCO.

Word has been received in Cisco from the war department that Sgt. Joel D. Whatley, chauffeur for General Wainwright and a prisoner of the Japanese for three years and seven months, arrived in San Francisco on October 8. The message stated that the young man's parents, Mr. and Mrs. Henry Whatley of Cisco, would hear from their son within a few days. Sergeant Whatley is a brother of Mrs. Henry Schaefer.

### FEDERAL PROPOSAL AWAITED

(By United Press)

Soft coal operators and United Mine Workers' chief, John L. Lewis, met today to consider a government compromise proposal to end the nation's biggest work stoppage and send 174,069 miners back to the pits.

Secretary of Labor Lewis Schwellenbach promised to submit a proposal after union and management representatives were unable to agree in a long negotiating session last night.

Meantime striking dock workers tightened their stranglehold on New York shipping and a strike of AFL bus drivers went on in seven western states.

Deputy sheriffs ended the strike out of the Warner Brothers studio in Hollywood by arresting pickets today.

### POLL TAX FIGHT.

WASHINGTON, Oct. 10. — The senate's perennial battle over the anti-poll-tax bill is going to be staged again as soon as the upper house reaches a bill in "must" legislation. The bill would outlaw the poll tax as a prerequisite for voting in national elections. Seven states have poll tax laws.

### Slick Pavement Caused Death of Soldier; 4 Hurt

An automobile accident at about 2:30 yesterday afternoon, three miles east of Cisco, resulted in the death of Corp. John J. Seaman of Fort Bliss and minor injuries to four other persons.

The accident occurred when the westbound car, a Chevrolet coach driven by Mrs. Lorraine Miller of Dallas, left the highway due to the slick pavement and, in an effort to return the car to the highway, it swerved across the road and directly in front of an eastbound car, a coupe driven by R. W. Priest of route four, Hico.

Corporal Seaman, whose home was Newcastle, Del., was enroute to Fort Bliss, Texas, and was riding in the car with Mrs. Miller, who was on her way to Abilene to attend a funeral.

Riding with Mr. Priest were Mrs. Estelle Pruitt and daughter Geraldine, 14, also of Hico, who were returning to Hico from Stamford.

The five were brought to Graham Sanitarium immediately, where Seaman died this morning at 12:18 of severe head injuries.

Mrs. Miller was only bruised and was able to continue her trip.

The three Hico people received cuts and bruises and departed for their homes this morning by ambulance.

Capt. F. J. Husband, provost marshal, and Capt. Carl A. Dienst, intelligence officer, from Camp Bowie, were in Cisco this morning to investigate the accident and to arrange for the body of Corporal Seaman to be shipped to his home in Delaware.

YOO HOO! Obviously actress Jane Wyman sees someone she knows. She and her Army captain husband Ronald Reagan are night-clubbing in the Crillon in Hollywood, Calif.

# THE CISCO DAILY PRESS

Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937.

Per week, by carrier boy 12c

## BEAR AND EAGLE.

Russia, receiving less space in United States dailies than local changoer troubles, nevertheless looms as a bear-like shadow. The Council of Foreign Ministers in London from its opening session seemed a remote assemblage of big world names to the man in the American street. However, he who had fought or had given his sons to fight was disquieted that United Nations diplomats waged peace so much less amiably than their soldiers had managed war. Reports filtered out that Russia claimed Eastern Europe as her special preserve; that she reached to the Mediterranean, the Red Sea and even Japan. She demanded an Italian colony, and sharply denied her influence in Bulgaria and Romania in any way "undemocratic." She was prickly to handle, and arbitrary.

News was meager. Was this greed or justice? Was it the start of international friendship, or competition-to-the-death? Walter Lippmann says our state department's representatives were hampered by recent department upheavals, and were unprepared to tackle the tremendous intricacies involved. This is true, but not the whole story. It is likely, also, that it is a distillation of the upwash from war's sudden stoppage. The long-unused machinery of peace can be made to function only creakingly, but it must function.

Fear is the great deterrent. Russia fears what is called Capitalism. The United States fears what is termed Communism. If confidence in a united and peaceful future could be made to cast out fear, negotiations would be easier.

## WHO WAS KING ARTHUR?

Who was King Arthur? Readers of Tennyson know that he was king of England and had a Round Table, at which famous knights and lovely ladies feasted, that among his knights were Lancelot and Gawain and that his wife was Queen Guinevere. But who was he really? Did he exist?

Historians are inclined to think that he did. The early chroniclers speak of him as a Briton chief who won battles against the Saxons, notably the battle of Badon, and that he was killed early in the sixth century.

Now come William and Georgina Buckler, writing in the Classical Journal, to say that Arthur was a Roman. One Lucius Artorius Castus in the second century led an expedition against Brittany. Out of this tradition, the Bucklers think, grew the forest of legend which makes up the Arthurian tales as we know them.

The Romans were a great people, but somehow King Arthur does not seem at home among them. Other historians have known about Lucius Artorius Castus and passed him by. Most people will prefer to think of Arthur as a mighty king whose knights rescued hapless ladies and fought monstrous giants, and not as a prosaic Roman army officer.

## TO MAKE HOGS PAY

W. B. STARR in Progressive Farmer

It was the general belief some 20 years ago that it was impossible in Texas to feed hogs for the market where both feeders and feed had to be bought. At that time it was difficult to make a profit on such an enterprise. The feed usually had to be purchased at a local feed store as most Texas farmers had very little surplus

feed to sell to their neighbors. But in recent years the picture has changed. With large trucks hauling ten to 20,000 pounds or more, farmers can buy feed 100 to 200 miles away and lay it down at a profit on such an enterprise. The feed usually had to be purchased at a local feed store as most Texas farmers had very little surplus

After All's Said and Done--

... there is a feeling of satisfaction following the completion of a task well done. It may be as simple as peeling pears or plowing peanuts. A prominent attorney remarked to us a few days ago that he liked the plats in our abstracts. A plat is a little thing, but important if well done. And if we seem to take more time than necessary on your orders, remember that the very nature of abstracting requires it.

**EARL BENDER & COMPANY, INC.**  
ABSTRACTERS  
EASTLAND 1923-1945 TEXAS

ed to a considerable extent by the amount of waste feed which can be gleaned from the fields. This feed will often be quite a factor in the profits you will make on your hogs. I have found that our winter cover crop of rye when grazed in the late winter and early spring months, reduces the amount of feed purchased. It also tends to keep the hogs in better health. Remember that the hogs will root out (on our farm hunting for peanuts) some of the rye, so plant 10 to 15 pounds more seed to the acre than usual.

**Dip Once a Month.**  
Many of the feeders we buy are lousy. They are usually dipped before they are turned loose. We continue to dip at least once a month during the feeding period. We try not to buy mangy pigs as there is nothing that will stunt pigs more than mange. It is hard to get rid of.

No one should attempt to feed hogs whether home-raised or bought unless preparations have been made to always have plenty of good water before them. They will drink from a mudhole, but they prefer and will do much better if they have access to clean water. In warm weather do not put on feed more hogs than you have good shade for, unless there are plenty of hog wallows. We find that a combination of shade and wallows is best.

About five years ago we had hog cholera develop in a small bunch of recently purchased feeders. We lost 65 out of 66 head. Since that time every hog that has come on the place has been vaccinated. It will pay feeders to do this. Once, in buying feeders, we got necroenteritis among our hogs. It cost us about \$500 before we got rid of it. Watch out for this disease. We seldom buy hogs for feeding purposes that have been sold through auction rings. Better buy them from the farmer who has grown them and have this assurance that they are healthy.

### LUNCHEON SATURDAY HONORED VISITORS.

Mrs. Carl Pratt was hostess Saturday with a luncheon honoring her out-of-town guests from Sweetwater, Mesdames J. C. Stripling, Lloyd Kelsey, R. O. Peters, J. W. Cole, S. L. Glass, Willis Davis and H. C. Neyser.

Luncheon was served buffet style with guests seated at card tables. Decorations of seasonal cut flowers were attractively placed and gave a festive appearance to the rooms. Other guests were Mrs. R. L. Collier of Abilene, Mrs. C. M. Nevill of Eastland, Mrs. Jack Anderson, Mrs. Ralph Glenn, Mrs. Clifford Hall, Mrs. N. C. Huston and Mrs. Pratt.

Following the meal conversation entertained the group during the early afternoon. Mrs. Pratt and her Sweetwater guests spent the night at a cabin at Lake Cisco, returning to the Pratt home Sunday.

### PRESBYTERIAN GROUP AT CHURCH TUESDAY.

Presbyterian auxiliary met at the church Tuesday afternoon for a monthly inspirational program, with Mrs. W. W. Wallace in charge. The meeting was opened with prayer by Mrs. Wallace and nine members responded to roll call, as follows: Mrs. W. W. Wallace, Mrs. W. L. Jones, Mrs. O. L. Savage, Mrs. Alex Spears, Mrs. P. R. Warwick, Mrs. A. J. Olson, Mrs. W. F. Watson, Mrs. A. E. Jamison and Mrs. John E. Walter.

Mrs. Spears was leader of the program at which the topic, "Opportunities Unlimited Now," was discussed. Mrs. Spears was assisted by Mrs. Savage and Mrs. W. L. Jones, who gave interesting parts. The program closed with the hymn "O, For a Closer Walk With God."

Announcement was made of an evening meeting to be held Tuesday, October 23, to which all members of the church will be invited. The meeting closed with the Lord's prayer.

### BAPTIST SEMINARIES DISCUSSED TUESDAY.

First Baptist women's missionary union met in a general meeting at the church Tuesday afternoon for a program on religious education. Circle one was in charge and the meeting was opened by Mrs. W. V. Gardenhire, mission program chairman, with group singing led by Mrs. C. P. Cole.

In absence of Mrs. W. W. Fewell, chairman, Mrs. Kate Richardson, gave the devotional; prayer by Mrs. E. J. Poe followed. Mrs. Gardenhire then presented Mrs. D. D. Lewis, who discussed "The Louisville Seminary;" Mrs. Gardenhire told of the women students and the special needs of the seminary. Prayer was offered by Mrs. Arthur Johnson after which the meeting was turned to Mrs. E. J. Poe, president. Mrs. Poe asked the pastor, Rev. Arthur Johnson for a talk. He complied and at the close of his timely remarks the meeting was adjourned with prayer.

Those present were Mrs. E. J. Poe, Mrs. W. V. Gardenhire, Mrs. D. D. Lewis, Mrs. Roy Morrison, Mrs. F. E. Shepard, Mrs. W. Frank Walker, Mrs. Algie Skiles, Mrs. Arthur Johnson, Mrs. G. B. Langston, Mrs. F. D. Wright, Mrs. C. P. Cole, Mrs. O. J. Russell, Mrs. Ina Pyle Martin, Mrs. W. D. Hazel, Mrs. L. A. Harrison, Kate Richardson and Rev. Arthur Johnson.

### Take Off Ugly Fat With This Home Recipe

Here is an inexpensive home recipe for taking off unguinely weight and help bring back alluring curves and graceful slenderness. Just get from any druggist, four ounces of liquid Barcol Concentrate. Add enough grapefruit juice to make a pint. Then just take two table-spoonful twice a day. Wonderful results may be obtained quickly. Now you may slim down your figure and lose pounds of ugly fat without back breaking exercise or starvation diet. It's easy to make and easy to take. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.

# FIFTY YEARS AGO . . .

At the turn of the century most Americans were kindling their street-lights and kerosene lamps by torch or match. The polishing of lamp chimneys and trimming of wicks were grimy household chores.

In the homes of a few rich people electricity was being installed. Since it was very expensive, very new and extremely hard to obtain, electricity was ultra smart and most fashionable — fashions, you know, are things that are scarce and in keeping with the prevailing customs. Judged by these standards, use of electric service is old fashioned — it hasn't skyrocketed like other necessities, it's readily available to the smallest

home at pre-war levels and there has been an ample supply.

Operating costs, as in other businesses, have advanced progressively in the electrical industry — taxes have been on a tremendous upsurge — only by the most careful direction and private initiative, advancement in methods could the electrical industry continue to supply its service at decreasing costs.

Sound and practical business management under governmental regulation as distinguished from government ownership tax-subsidized political operation are your guarantee that as new electrical comforts are available, adequate power at a reasonable total cost will prevail.

**DEAD CALM IN A HURRICANE ?** YES  NO

In the very midst of a hurricane you'd be safe! Its center is sort of "hollow" . . . calm. All weather packs surprises, you bet—especially Winter weather. Yet you can bet on having your aging car face it safely, with the engine's insides under guard of OIL-PLATING!

Changing to Conoco N<sup>th</sup> motor oil is all it takes for an OIL-PLATED engine—fortified throughout with lubricant bonded to metal direct, by the magnet-like action of Conoco N<sup>th</sup> oil's added ingredient! OIL-PLATED metal defies corrosion and other wear. Surfaces kept OIL-PLATED during long cold waits have protective lubricant ready *in advance* to minimize starting wear. And always—the less wear, the less reason for carbon, sludge, and breakdown. You bet you want Conoco N<sup>th</sup> oil for Winter. Change today.

**CONOCO**

For Station Identification! The big red Conoco triangle identifies Your Mileage Merchant's Conoco station. There's where to get good gasoline today. But look for new hushed power—new high octane—in his NEW-DAY GASOLINE! It's coming quick! —WHERE YOU SEE THAT RED CONOCO TRIANGLE! Continental Oil Company

**CONOCO N<sup>th</sup> MOTOR OIL**

**Only a question of time...**

Telephone factories are already turning out some of the equipment needed to serve the 246,000 persons waiting for telephones in the Southwest at war's end.

That stream will grow mightily in the months ahead. It will move slowly for a while of course. It takes time to manufacture and install new apparatus.

A telephone alone contains 248 precision parts. Switchboards and dial central office equipment for only 10,000 telephones must be designed to handle nearly 50,000,000 possible interconnections.

But we've made a start. We've turned the corner. We're on our way. Every month ahead brings us closer to serving all who want telephones without delay.
