Marine Corps Has Special Offer to Men of 17 to 32

A new U. S. Marine Corps recruiting station, located in the Abilene postoffice, is now open to the men of Cisco and the Cisco Country, said Staff Sgt. John B. Harmon, of the Dallas headquarters, during a call at the Daily Press office this morning. The station is manned by a native Texan, who is prepared to enlist eligible men between the ages of 17 and 32 for periods of three or four years.

Marine Staff Sgt. John L. Reeder, of Commerce, Tex., a veteran of Marine Corps duty on both land and sea, may be found in room 10 of the postoffice building. Between 8:30 and 4:30 daily he will be on hand to welcome those attracted to the travel, adventure and education offered by the Marine Corps.

Men of 17 to 25 without military experience can be accepted for voluntary enlistment. Another category open is to veterans of armed services who have been discharged less than one year.

Special inducements are offered to former Marines discharged within the past 90 days. These may re-enlist at their former rank within the 90 days and take the balance of the period as a re-enlistment furlough.

Sergeant Reeder, a wounded veteran of bloody Tarawa, served on the USS. Astoria and is qualified to inform interested men in both land and sea duty. He is a former college student who dropped the study of medicine to don the Leatherneck uniform. He encourages men to see him about the educational advantages available to Marines. He has on hand literature explaining these educational advantages and will gladly supply interested men with copies on written or verbal request. Men are advised to write him concerning any question on the U. S. Marine Corps they wish answered. Address all letters to the sergeant at his office in room 10, Abilene postoffice building.

Work will be started immediately on a two-story structure as an extension to the main office building to be located on the site of the courtyard occupying a space 130 feet by 40 feet on the Polk avenue side of the present building. Foundations will be provided so that seven additional stories can be added to the new structure in the future, if desired.

Upon completion of the two-story addition, a ten-story addition to the existing building will be erected at the corner of Main street and Dallas avenue. The lot, approximately 138 feet by 85 feet, is now the site of a three-story apartment building. At the same time, a tenth story will be added to the nine-story Travis street addition, which was completed in 1940.

The entire project is estimated to cost \$2,200,000. Kenneth Franzheim-Staub and Rather, associate architects, are preparing the plans for the additions. The American Construction company is the general contractor.

27 Men to Face Charges of Mass Murder in Mexico

LAREDO, Oct. 12. — A well-educated, neatly-dressed Mexican doctor, Gustavo Leal Morales, flatly denied charges today at Nuevo Laredo, Mexico, that he had been the leader of a gang of smugglers and murderers, who robbed and killed 37 men and one woman on the banks of the Rio Grande recently.

Meanwhile, 26 other men charged in the mass slayings have been divided into two groups in the court building at Nuevo Laredo. Half of the accused men were placed in the court basement and the other half in the bull pen some distance away.

(By United Press)

Hollywood movie making was curtailed, New York port operations were stagnant and mine shutdowns cut into dwindling coal supplies today as the government worked to stem the tide of post-war strikes.

Over the nation more than 453,000 workers were idle because of labor disputes, a United Press survey showed.

President Truman was urged to intervene in a walkout of 187,000 soft coal miners, most serious of more than 200 work stoppages. The Solid Fuels Administration estimated production losses at 1,044,405 tons daily — more than half the national output.

A conference of United Mine Workers representatives with soft coal operators adjourned for the fifth straight day yesterday without agreement. It was reported the meetings might be recessed indefinitely to give government labor officials time to study the situation at greater length.

The coal strike already had shut down several Pittsburgh area steel mills, and SFA spokesmen said fuel shortages would reduce steel operations to 25 per cent of capacity if a settlement were not reached during the week-end.

Film production at Universal Studios in Hollywood was halted temporarily yesterday, as striking AFL painters spread their picket lines from the Warner Bros. lots. Not a foot of film was shot at Warners, where actors and cameramen failed to pass through picket lines for the third consecutive day.

A National Labor Relations Board announcement that the painters had won a bargaining election among set dressers was expected to have no immediate effect. Jurisdiction over the set dressers touched off the original walkout seven months ago.

Although the Motion Picture Producers' Assn., promised to recognize the union as a bargaining agent as soon as it was so certified by the NLRB, strike leader Herbert Sorrell said, "we'll continue to strike until we get everything we want."

WILL STRIKE TUESDAY.

WASHINGTON, Oct. 12 (AP)—A strike involving one thousand CIO workers will shut down three of Texas' largest cotton textile mills at Hillsboro, Mexia and Itasca when members of the Textile Workers Union of America stage a walkout Tuesday.

FORD RESUMES MONDAY.

DETROIT, Oct. 12 (AP)—The Ford Motor Co. will resume full operations in all United States plants on Monday. The company will recall 35,000 workers laid off a month ago when strikes in supplying plants stopped Ford production lines.

PERON ARRESTED.

BUENOS AIRES, Oct. 12 (AP)—The Buenos Aires newspaper Critica reported without confirmation today that President Gen Edelmiro Farrell has resigned and turned over the Argentine government to the supreme court. Naval officers said they had arrested Col. Juan D. Peron and shouts rose in the streets for "immediate judgment" of the fallen strong man.

NIMITZ POPULAR HERO.

DALLAS, Oct. 12 (AP)—Admiral Chester W. Nimitz returned to his native state of Texas today and received a rousing welcome such as it has accorded few others. From the moment the white-haired admiral of the fleet was piped down the ramp of a four-engined naval transport plane, there was no doubt that the state of his birth was proud — lustily, noisily proud — of its outstanding military hero of World War II.

SCHOOL FOR VETS—Veterans finishing high school courses have own classroom in Trenton, N. J., Central High School. Men whose ages range from 19 to 29 years of age feel more at ease with own group. Teacher Angell Mathewson instructs eleven men from all branches of service.

Committee Favors Fifty Superforts Two Abilene Po-Law to Permit U. Carried 284 Tons Licemen Be Tried S. Streamlining to Okinawa Today For Man's Death

WASHINGTON, Oct. 12 (AP)—Legislation authorizing President Truman to reorganize much of the government was approved today by a senate judiciary subcommittee.

The bill now goes to the full committee, where a fight is shaping up over how much of a veto congress should reserve for itself. The dispute, according to Chairman Pat McCarran of Nevada, will be over whether a veto by one — or both — houses should be necessary to turn down a presidential streamlining proposal.

Strikes, Peacetime Reversion, Hurt School Fund

AUSTIN, Oct. 12. — Because of a new law requiring the scholastic census to close Nov. 1 of each year in all salary-aid schools, the first remittance of state available funds will not be made until near Nov. 1.

A further development is that the first warrants will be for \$3 per enumerated child instead of the expected \$4. The loss of \$1 per child is attributed to the drop in gasoline tax income due to strikers closing refineries over Texas.

At this time the school fund has sufficient money in hand to pay the \$3 per capita and also \$500,000 of administration expense of the total of \$1,250,000 to be paid by the state. The balance will be liquidated later. The state has already paid \$1,500,000 for free textbooks and the remaining \$1,000,000 due will be paid off serially.

Tentative census totals call for about 1,475,000 scholastics with a probable 6,000 of emergency allotments later against 10,887 this year.

While the census closes in salary-aid schools on Nov. 1, the figures will be as of Sept. 10. Census reports are being held up by local authorities in the affected districts in order to include every possible enumeration. In other years the census was flexible, additions coming in any month.

That condition will continue in schools which do not receive salary aid, mostly in independent school districts.

With a per capita payment of \$3, the total to be remitted by Nov. 1 will be approximately \$4,425,000 of the total apportionment of \$44,250,000, based on the \$30 per capita allowance voted by the state board of education.

Due to the refinery strike and reversion to peacetime since apportionment was made, the school fund will have to scrape the bottom of the barrel to obtain sufficient funds to pay off the \$30 per capita by Aug. 31, 1946, the end of the school year.

SAN FRANCISCO, Oct. 12. — Okinawa today is a shambles — reminiscent of its recent battle-ravaged litter — reduced by a 132-mile typhoon that killed three American Navy personnel, left 10 sailors missing and more than 100 Yank soldiers injured, and sank, damaged or beached 127 naval vessels.

The typhoon, which struck Okinawa Tuesday after having twisted 150 miles to the southwest for 24 hours, swept northward to kill at least 69 Japanese, flood 8,000 homes, wash away 81 bridges and leave many thousands homeless in central and southern Honshu.

Fifty Superfortresses from the Marianas delivered 284 tons of food to the 150,000 troops on Okinawa today.

Dar's Color Line Rule is Scorched By the President

WASHINGTON, Oct. 12 — President Truman today sharply criticized race discrimination in making public a letter concerning the refusal of the DAR to grant use of Constitution hall here to a negro musician.

The chief executive said, however, he was powerless to interfere with the ban imposed by the Daughters of the American Revolution.

The president sent the letter to negro Rep. Adam C. Powell (D-NY) whose wife, Hazel Scott, pianist, was refused use of the DAR's Constitution hall for a concert Oct. 20.

"Artistic talent is not exclusive property of any one race or group," the president wrote Powell.

The president sent the letter to negro Rep. Adam C. Powell (D-NY) whose wife, Hazel Scott, pianist, was refused use of the DAR's Constitution hall for a concert Oct. 20.

With a per capita payment of \$3, the total to be remitted by Nov. 1 will be approximately \$4,425,000 of the total apportionment of \$44,250,000, based on the \$30 per capita allowance voted by the state board of education.

LONDON, Oct. 12. — The dock strike spread to southern England and Scotland today and for the first time threatened to delay repatriation of American troops from Britain.

ABILENE, Oct. 12. — While the body of Conley Ellis was put aboard the eastbound passenger train here this morning to be taken to his native Tennessee for burial, state's attorneys prepared to present to a grand jury Monday evidence connected with his death.

Ellis, 34, died in Hendrick Memorial hospital Tuesday afternoon from what a physician said were fractures of the skull. He had been taken Saturday night from the city jail to the hospital. He had been in jail two days. He was arrested at a south side hotel Thursday night of last week.

In an inquest verdict filed yesterday afternoon W. J. Cunningham, justice of the peace declared two Abilene policemen — W. J. Caskey and Jimmie Ferguson — caused Ellis' death.

NEW MAYTAG LINES.

John Dunn, 1306 D avenue, Maytag dealer, has had word from the home office of the Maytag company that new additions to the Maytag lines include an automatic type washer, an automatic clothes drier, both gas and electric, a gas range and an electric frozen foods locker. It is thought the new products will be available to the public around the first of the year, particularly the gas range and the frozen foods locker. The Maytag company, Mr. Dunn says, recently purchased a minority interest in the Globe - American Corporation of Kokomo, Ind., which will produce Dutch oven gas ranges exclusively for Maytag.

Proctor Out of Navy and Will Resume Studies

J. E. Proctor, Jr., son of Mr. and Mrs. J. E. Proctor, has returned to Cisco following his discharge from the navy at the Fort Worth naval hospital.

Proctor, seaman first class, entered the service in December, 1942. In December, 1943, he was sent to the South Pacific theater and was stationed for sixteen months at a supply base on the island of Espediano Santo, New Hebrides group. From there he was transferred to New Caledonia, where he contracted tropical fever. He returned to the states in July after spending over two months in a hospital on New Caledonia.

The young man, born in Cisco, is 21 years of age. He was reared here and graduated from Cisco high school with the class of '42. He also attended Cisco Junior college one year and plans to resume his college work.

PEANUT CROP DAMAGED.

RISING STAR, Oct. 12. — The weather gauge at city hall reveals that 3.09 inches of rain fell here the first ten days of this month. Cloudy skies and a gentle rain prevailed for a week. What damage has been done to the peanut crop cannot yet be estimated. Some farmers report nuts sprouting in the ground while others report that peanuts plowed up are sprouting in some cases. Should the weather turn fair and colder it is believed the damage would be halted quickly.

Bobwin D. Posey, Jr., has returned to Cisco after having received honorable discharge from the army.

RAID UP—Aberdeen-Maysville, O., River bridge is toll-free after 14 years of payments which wrote off span's original cost of \$1,362,000. At ribbon cutting from left are Perry T. Ford, Gov. Simon S. Willis, Margaret Church, Mrs. Willis, J. Stephen Watkins and Col. Harold W. Cain

HOW TO GET RID OF A MAN

Well, we're not giving advice to the lovelorn. But we do know that good coffee makes a world of difference in the homelife. A flat, wishy-washy cup can drive a man away just about as quick as a plague. Men like full-flavored, rich-tasting coffee—the kind of coffee you'll find in every pound of Admiration. We know that from experience. If your family gently screams as soon as the coffee is served, better take the danger signal to heart. It's time to change or two other blends. Then compare them all. It's pretty certain Admiration will be the family's choice — and yours too.

AUSTIN, Oct. 12. — Legal services performed even without compensation constitute the practice of law and cannot be done except by a licensed member of the State Bar, the Third Court of Civil Appeals ruled.

The coal strike already had shut down several Pittsburgh area steel mills, and SFA spokesmen said fuel shortages would reduce steel operations to 25 per cent of capacity if a settlement were not reached during the week-end.

Film production at Universal Studios in Hollywood was halted temporarily yesterday, as striking AFL painters spread their picket lines from the Warner Bros. lots. Not a foot of film was shot at Warners, where actors and cameramen failed to pass through picket lines for the third consecutive day.

A National Labor Relations Board announcement that the painters had won a bargaining election among set dressers was expected to have no immediate effect. Jurisdiction over the set dressers touched off the original walkout seven months ago.

Although the Motion Picture Producers' Assn., promised to recognize the union as a bargaining agent as soon as it was so certified by the NLRB, strike leader Herbert Sorrell said, "we'll continue to strike until we get everything we want."

WILL STRIKE TUESDAY.

WASHINGTON, Oct. 12 (AP)—A strike involving one thousand CIO workers will shut down three of Texas' largest cotton textile mills at Hillsboro, Mexia and Itasca when members of the Textile Workers Union of America stage a walkout Tuesday.

FORD RESUMES MONDAY.

DETROIT, Oct. 12 (AP)—The Ford Motor Co. will resume full operations in all United States plants on Monday. The company will recall 35,000 workers laid off a month ago when strikes in supplying plants stopped Ford production lines.

PERON ARRESTED.

BUENOS AIRES, Oct. 12 (AP)—The Buenos Aires newspaper Critica reported without confirmation today that President Gen Edelmiro Farrell has resigned and turned over the Argentine government to the supreme court. Naval officers said they had arrested Col. Juan D. Peron and shouts rose in the streets for "immediate judgment" of the fallen strong man.

NIMITZ POPULAR HERO.

DALLAS, Oct. 12 (AP)—Admiral Chester W. Nimitz returned to his native state of Texas today and received a rousing welcome such as it has accorded few others. From the moment the white-haired admiral of the fleet was piped down the ramp of a four-engined naval transport plane, there was no doubt that the state of his birth was proud — lustily, noisily proud — of its outstanding military hero of World War II.

SCHOOL FOR VETS—Veterans finishing high school courses have own classroom in Trenton, N. J., Central High School. Men whose ages range from 19 to 29 years of age feel more at ease with own group. Teacher Angell Mathewson instructs eleven men from all branches of service.

Committee Favors Fifty Superforts Two Abilene Police Be Tried For Man's Death

WASHINGTON, Oct. 12 (AP)—Legislation authorizing President Truman to reorganize much of the government was approved today by a senate judiciary subcommittee.

The bill now goes to the full committee, where a fight is shaping up over how much of a veto congress should reserve for itself. The dispute, according to Chairman Pat McCarran of Nevada, will be over whether a veto by one — or both — houses should be necessary to turn down a presidential streamlining proposal.

Strikes, Peacetime Reversion, Hurt School Fund

AUSTIN, Oct. 12. — Because of a new law requiring the scholastic census to close Nov. 1 of each year in all salary-aid schools, the first remittance of state available fund will not be made until near Nov. 1.

A further development is that the first warrants will be for \$3 per enumerated child instead of the expected \$4. The loss of \$1 per child is attributed to the drop in gasoline tax income due to strikers closing refineries over Texas.

At this time the school fund has sufficient money in hand to pay the \$3 per capita and also \$500,000 of administration expense of the total of \$1,250,000 to be paid by the state. The balance will be liquidated later. The state has already paid \$1,500,000 for free textbooks and the remaining \$1,000,000 due will be paid off serially.

Tentative census totals call for about 1,475,000 scholastics with a probable 6,000 of emergency allotments later against 10,887 this year.

While the census closes in salary-aid schools on Nov. 1, the figures will be as of Sept. 10. Census reports are being held up by local authorities in the affected districts in order to include every possible enumeration. In other years the census was flexible, additions coming in any month.

That condition will continue in schools which do not receive salary aid, mostly in independent school districts.

With a per capita payment of \$3, the total to be remitted by Nov. 1 will be approximately \$4,425,000 of the total apportionment of \$44,250,000, based on the \$30 per capita allowance voted by the state board of education.

Due to the refinery strike and reversion to peacetime since apportionment was made, the school fund will have to scrape the bottom of the barrel to obtain sufficient funds to pay off the \$30 per capita by Aug. 31, 1946, the end of the school year.

LONDON, Oct. 12. — The dock strike spread to southern England and Scotland today and for the first time threatened to delay repatriation of American troops from Britain.

SAN FRANCISCO, Oct. 12. — Legislation authorizing President Truman to reorganize much of the government was approved today by a senate judiciary subcommittee.

The typhoon, which struck Okinawa Tuesday after having twisted 150 miles to the southwest for 24 hours, swept northward to kill at least 69 Japanese, flood 8,000 houses, wash away 81 bridges and leave many thousands homeless in central and southern Honshu.

Fifty Superfortresses from the Marianas delivered 284 tons of food to the 150,000 troops on Okinawa today.

Dar's Color Line Rule is Scorched By the President

WASHINGTON, Oct. 12—President Truman today sharply criticized race discrimination in making public a letter concerning the refusal of the DAR to grant use of Constitution hall here to a negro musician.

The chief executive said, however, he was powerless to interfere with the ban imposed by the Daughters of the American Revolution.

The president sent the letter to negro Rep. Adam C. Powell (D-NY) whose wife, Hazel Scott, pianist, was refused use of the DAR's Constitution hall for a concert Oct. 20.

"Artistic talent is not exclusive property of any one race or group," the president wrote Powell.

ABILENE, Oct. 12. — While the body of Conley Ellis was put aboard the eastbound passenger train here this morning to be taken to his native Tennessee for burial, state's attorneys prepared to present to a grand jury Monday evidence connected with his death.

Ellis, 34, died in Hendrick Memorial hospital Tuesday afternoon from what a physician said were fractures of the skull. He had been taken Saturday night from the city jail to the hospital. He had been in jail two days. He was arrested at a south side hotel Thursday night of last week.

In an inquest verdict filed yesterday afternoon W. J. Cunningham, justice of the peace declared two Abilene policemen — W. J. Caskey and Jimmie Ferguson — caused Ellis' death.

NEW MAYTAG LINES.

John Dunn, 1306 D avenue, Maytag dealer, has had word from the home office of the Maytag company that new additions to the Maytag lines include an automatic type washer, an automatic clothes drier, both gas and electric, a gas range and an electric frozen foods locker. It is thought the new products will be available to the public around the first of the year, particularly the gas range and the frozen foods locker. The Maytag company, Mr. Dunn says, recently purchased a minority interest in the Globe-American Corporation of Kokomo, Ind., which will produce Dutch oven gas ranges exclusively for Maytag.

Proctor Out of Humble Construction, Houston, to Resume Studies Cost \$2,200,000

J. E. Proctor, Jr., son of Mr. and Mrs. J. E. Proctor, has returned to Cisco following his discharge from the navy at the Fort Worth naval hospital.

Proctor, seaman first class, entered the service in December, 1942. In December, 1943, he was sent to the South Pacific theater and was stationed for sixteen months at a supply base on the island of Espediano Santo, New Hebrides group. From there he was transferred to New Caledonia, where he contracted typhoid fever. He returned to the states in July after spending over two months in a hospital on New Caledonia.

The young man, born in Cisco, is 21 years of age. He was reared here and graduated from Cisco high school with the class of '42. He also attended Cisco Junior college one year and plans to resume college work.

PEANUT CROP DAMAGED.

RISING STAR, Oct. 12. — The weather gauge at city hall reveals that 3.09 inches of rain fell here the first ten days of this month. Cloudy skies and a gentle rain prevailed for a week. What damage has been done to the peanut crop cannot yet be estimated. Some farmers report nuts sprouting in the ground while others report that peanuts plowed up are rotting in some cases. Should the weather turn fair and colder it is believed the damage would be halted quickly.

Atom Bomb May Prove Headache to America Yet

WASHINGTON, Oct. 13. (AP)— Defense against the atom bomb may be worked out by congressmen, administrative officials, not scientists. Latest proposal calls for setting up super-secret, highly trained intelligence corps. Men and women members would live in foreign countries, perhaps do business there. They'd keep watch for large-scale attempts to find the secret or to manufacture the atom bomb. They'd work independently of Army, Navy, State Department; report only to the president. Opinion is that bomb development couldn't be hidden from such observers; that they'd constitute a first line of defense more effective than efforts to ring the United States with detonating devices. If Truman doesn't set up such a service, it'll be pressed in Congress. Note: Industry takes atomic developments seriously. At least one large utility is feeling out regulatory bodies about letting it amortize entire investment in 10 years.

First national labor meeting since V-J Day will be that of AFL executive council opening Monday in Cincinnati. In addition to usual denunciation of CIO friendship with Soviet labor, calls for labor unity, demands for higher wages, the council is expected to draft its own formula for promotion of industrial peace. This will be presented to the national management-labor conference. Death of Edward Flore, president of the hotel and restaurant employes, has produced one council vacancy — which may open the way for return of John L. Lewis and his Mine Workers. Lewis demanded a council seat last winter, as one condition of his return.

Friends say Price Administrator Chester Bowles is willing to go down fighting for price controls on housing. He won't quit, despite weight of Administration pressure against his policies for handling inflation. But he's willing to be fired, having made a record on a program in which he believes.

PAC will go into the 1946 campaign without being wedded to the Democratic party. This has become clear during pilgrimages to Washington of CIO members in interest of their reconversion program. Leaders of the Indiana CIO group declared for Rep. Chas. M. LaFollette, Republican, for the Senate against Senator Willis; said they thought it unlikely Hoover Democrats would nominate anyone so "progressive," since the Democrats are fighting within the party over PAC support.

well-founded that there were six men in the backfield when this play was pulled, but no official appeared to have seen what went on. (By United Press)

WASHINGTON, Oct. 13. (AP)—The administration's stabilization policy tonight appeared to be crystallizing in favor of a 15 to 20 percent basic wage rate boost, with compensating price increases. Just how this sort of "balancing" would aid American workers generally was not explained.

Officials, however, were believed to be delaying any formal statements until the forthcoming national labor-management conference has a chance to deal with the problem.

President Truman's reconversion director, John W. Snyder and Secretary of Labor Lewis B. Schwellenbach, were understood to feel that any advance announcement going beyond existing executive orders and legislation dealing with wages, prices and labor disputes, would have an adverse effect on the conference beginning here Nov. 5.

Secretary of Commerce Henry A. Wallace, however, said the government should help labor to obtain 15 to 20 percent of its 30 percent wage increase demand and allow compensating price increases where necessary to cover the higher labor costs.

Meanwhile, National Labor Relations Board figures revealed that union demands for higher wages are the cause of 68 percent of the record-breaking number of strike vote notices at the board. This was disclosed as the congress of industrial organizations struck back at critics of its demand for a 30 percent wage rate boost to offset the loss of wartime take-home pay.

MacArthur Action May Bring Plenty Silk for US Legs

TOKYO, Oct. 13. (AP)—General MacArthur today moved in on Japanese silk stocks, while the cabinet approved universal suffrage and gave Japanese women the opportunity to swing next January's general elections, after centuries of bondage to their men.

In what may result in a flood of silk for the legs of American women, MacArthur ordered the Japanese to report on both present and future silk stocks, in order to ascertain how much may be exported to pay for the importation of food and other supplies for Japanese civilians facing a disastrous winter.

The cabinet acted on election reforms only 48 hours after MacArthur ordered universal suffrage and other basic constitutional reforms. The cabinet also lowered the general voting age from 25 to 20, and the minimum age for officeholders from 30 to 20.

MacArthur ordered the government to dissolve three organizations controlling the silk industry and to revoke previous orders which would have reduced the production of silk.

U. S. Strikes New All-time Low In Religion, Morals

By W. A. FLYNN,
Pastor First Methodist Church.

"America has struck a new all-time low in religion and morals. All over America the attendance upon religious services is causing alarm. In the city of Washington only 10 percent of the population attend church school. There are eight times as many hours spent in the movies as in the church school. Only one out of 14 Americans attend church regularly. Seven out of eight children quit church school before they are fifteen years old. Why? Mother and Dad do not go with any regularity!

"There was a drop in church school enrollment last year of 12-6 percent and for the period of 1939-1944 the international Sunday school council estimates a loss of 4,000,000 from Sunday schools. In recent years the Methodist church has lost 766,000; other denominations in proportion.

"Since the days of Robert Raikes the Sunday schools have been the means of building up our church membership, but now, with the decline of interest in the Sunday school, is it any wonder that 62 percent of our population are out of touch with the church?"

"When there is a decline in religion and morals, there is always an upsurge in sin and crime. The arrest of girls in the teen-age for drunkenness, vagrancy, disorderly conduct, prostitution and sex crimes in America during the first half of the year was an 89 percent increase over the previous year. Our national crime bill is \$111.10 for every man, woman and child in America. Our liquor bill will run over 7,500,000,000 dollars this year.

"There is a saloon for every 51 families; two saloons for every church and five for every school house. Drinking has increased in the civilian and military life beyond our imagination. Glaring advertisements tell of beer that is consumed by our armed forces and that the only reason you can't get all you want here at home is that every fourth bottle goes overseas.

"In America today barmaids outnumber coeds and criminals are three times more numerous than college students. Is it any wonder we have in our nation sixty suicides every day? One murder every forty minutes? One major crime every twenty-two seconds?

"You, who think it is useless to attend Sunday school with your children, listen to this. J. Edgar Hoover, director of the federal bureau of investigation, recently said, speaking on the youthful crime wave which is sweeping across America: 'Ninety-five percent of the youths in jails and penitentiaries today come from families without church connection. There is a necessary connection between crime and the decline of faith and religion. When men do not know God or His justice,

The final story of the Navy's careful integration of its seair power and landing forces, will go down in history as an epic of military achievement.

ARMY CHIEF OF STAFF.

FRANKFURT, Oct. 13. (AP)—Dwight D. Eisenhower was expected to return to Washington perhaps within a week and almost certainly by Nov. 1, to become U. S. army chief of staff.

COPS UNDER BOND.

ABILENE, Oct. 13. (AP)—Bonds of \$5,000 each were furnished for W. J. Czesney and Jimmie Ferguson, Abilene policemen charged with murder in the death of Conley Ellis. Virgil Waldrop, chief of police, told the board of city commissioners that he had suspended both of the men from the force without pay. The suspensions were approved.

they do not respect His laws. The way to make America safe from crime, the way to make her people moral, is a return to the church and to religion."

"That statement does not come from the pulpit — but from the chief of the F. B. I.

"The very foundation of our moral order is crumbling and, unless something is done, America may be on the way to total destruction. From the light of hard facts, you can do your child no greater injustice than to be careless and indifferent about his religious training."

Negro Buck Says Mrs. Truman Is the "Last Lady"

WASHINGTON, Oct. 13. — Mrs. Harry S. Truman put herself in the middle of a hot controversy over racial discrimination today despite her wish, plain ever since her husband became president, for a back-ground role in public affairs.

In the case of negro pianist Hazel Scott, denied use of Constitution hall because of her color, Mrs. Truman took this stand:

(1) "I deplore any action which denies artistic talent an opportunity to express itself because of prejudice against race or origin." She said this in a telegram made public by the white house.

(2) But she sees no reason why she should boycott the Daughters of the American Revolution, who own Constitution hall. She was honor guest at a DAR tea yesterday. When a reporter asked whether she will accept similar future invitations she replied "why not?"

Negro Rep. Adam C. Powell (D-NY), Miss Scott's husband, promptly declared, "From now on Mrs. Truman is the last lady."

And Miss Scott, in Minneapolis to play a concert, remarked in an interview that Mrs. Truman's presence at the tea seemed to indicate "she gives sanction to the DAR's refusal to let me play in Constitutional hall."

Powell, contending that Constitution hall "is a public institution inasmuch as it is tax exempt," said he would seek to have it placed on the tax rolls.

The District of Columbia tax assessor's office disclosed that a tax is levied against the hall only on the basis of its potential rent receipts. The levy for fiscal 1945 was \$7,387.61.

Class of 18 Will Get Salesman-ship Certificates

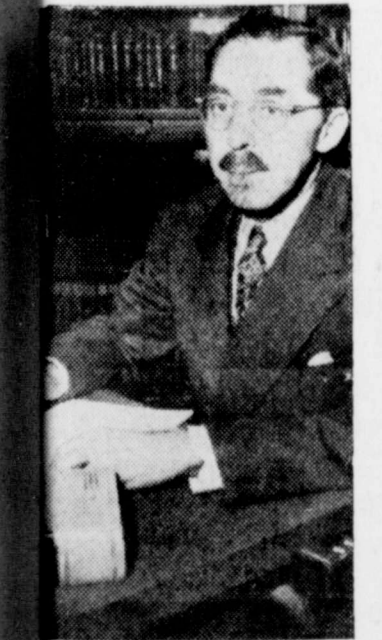

Eighteen members of an enthusiastic class in salesmanship being taught by Miss Fleda Fulmer, University of Texas extension teacher, under the auspices of Cisco Junior college, will receive certificates Monday evening when the class finishes a 10-hour course taught on five evenings. Sessions are held at the Cisco chamber of commerce. The class will meet at 7:45 Monday evening instead of the usual 8 o'clock, Miss Fulmer announced.

Those to receive certificates, and their names as they will appear on the certificates, are Vida Moffett Stephens, Violet Ruth Ewing, Joyce Mae Reece, Gladys W. Hensley, Myrtle H. Anderson, Mrs. Lane F. Gilmore, Ora Kirklin, Melvin Proctor, James S. Haynes, Mrs. Irene Teague Britain, Mrs. Ruth Miles Warren, Mrs. J. Clifford Hall, Bessie I. Padgett, Paul Clements, Dick Thackerston, Fred Hayes, Mrs. Franz Essl, Jr., Mrs. J. D. Hitt.

A class for sales executives conducted by Miss Fulmer was finished Wednesday evening, October 10, when Homer Ferguson, Nick Miller, Austin Flint, Charlie Graham and E. G. Damron received certificates.

FEDERAL COURT RECESSED.

The October term of the United States district court at Abilene was recessed to October 29 last Thursday. Two Cisco men are members of the jury panel serving during the term. They are Garland Nance and B. A. Butler.

ADVISER—Simon H. Rifkind, Federal judge, has been appointed adviser to General Eisenhower on Jewish affairs in Europe. He will help solve problems concerning remnants of Jewish population which survived Nazi terror. He will serve on military staff in U. S. zone in Germany.

Good Meal and a Good Program For Cisco Dads

The Parent-Teacher association, one of Cisco's most valuable civic organizations, has completed plans for a big time Tuesday evening, when Father's Night will be celebrated and a good meal served in the basement of First Christian church.

The hour is to be 7:30 and plates will cost 75 cents each. Mrs. Sutton Crofts, program chairman, points out that PTA will receive no financial return whatsoever from the supper, the plate charge being merely the cost of a meal that will include baked chicken and dressing, with cranberry sauce and all the "fixings," as prepared by famous cooks of the Christian church.

Plate reservations may be made up to 1 p. m., Monday. The program chairman added: "PTA exists to help you help your children attain a better, fuller life — in school and out. Don't miss the chance to share in this important work. You'll find that you will enjoy it, while also benefitting therefrom. And, by all means, bring father with you. We'll be disappointed if he doesn't come."

Order of Program.

Community singing, led by Mrs. R. N. Cluck, accompanied by Mrs. Roy Camfield.

Short business meeting, dispensing with all except the most pressing matters, but including the room count. The two rooms with the highest attendance of parents will receive \$2 each.

Talks by Coach Harold Fischer and B. A. Butler on "Better Recreation for Cisco Children." Solo by Fred Baumgardner. Piano music by Joe Tom Poe. "Womanless Wedding," featuring George W. Downie as the bride, James Haynie as the henpecked groom, R. N. Cluck as the mother-in-law-to-be, who does much of the "pecking." Charles J. Kleiner as the preacher, together with many others in full costume. The script will be read by Mrs. James Moore.

The program committee is composed of Mrs. Sutton Crofts, Mrs. Fred Scott, Mrs. R. N. Cluck, Mrs. Irene Hallmark, Mrs. E. A. Garverick, B. A. Butler and C. E. Midkiff.

The Hospitality committee, headed by Mrs. Lynn Heard, will be at the door to greet guests. This committee is also in charge of the decorations.

Loboes Returned From Resort City Poorer But Wiser

The Cisco Loboes won a football game on paper last week and then went over to Mineral Wells Friday night and watched the Mountaineers win it 12 to 6 on the field. Blame it on the gremlins or simply on the fact that the Loboes were over-confident, and you get the same result: The situation is strictly "snafu," as the boys in the navy say.

It is not to detract from the play of the Mineral Wells team, which was superb, to say that Mineral Wells was cocked and primed while the Loboes were not. Throughout the game a Lobo line that was rated superior to the Mineral Wells front found itself outcharged and out-played in every department. For practically the entire playing time the Cisco zone of the field was in an atmosphere of sluggish depression. It was a psychological handicap that nobody on earth or halfway to heaven could overcome. There was nothing to do but hope for a miracle that never occurred.

Once, when Williams, who struggled against hopeless odds to flash his customary pass-snatching form, took a pass and extended the gain to 62 yards to set up the Cisco touchdown, it seemed that the boys had caught fire. The drive clicked to register the score when Harrelson went the final yard in an irresistible plunge through center, but after that the Lobo offense flickered with but pale effect. Untimely penalties of 20 yards cut short other drives, and still other efforts were nullified by an alert Mountaineer team which shamefully rushed the Cisco passers or intercepted promising heaves.

Coaches Fischer and Overall can be depended upon to impress the lesson of their experience emphatically on the lads during the two weeks before their game with Weatherford, here; but it isn't likely that the boys will need much admonition from their mentors. They are a better team in the opinion of most observers, than they showed to be on the field Friday night and very likely they will prove it later on.

But for all the superiority of the Mineral Wells offense Friday night the Resorters were pushed to the limits of trickery to win, and to be assisted therein by costly penalties against the Cisco boys. The first touchdown, a cleverly executed pass play, was set up by a 15-yard fine against the Loboes, which pushed them under the shadow of their goal. The second and winning touchdown was set up by a ruse play of shady legality, which caught the officials, as well as the Cisco team, looking elsewhere. The Resorters simply sauntered into the semblance of a line without going into the anticipated huddle and, without so much as falling into stance, snapped the ball and took off behind a ten-man interference. Suspicion is

REV. DURWOOD FLEMING CLUB GUEST SPEAKER.

XXth Century club held an open meeting at the Library club room Friday afternoon. The meeting was the first of the club year and Mrs. S. E. Hittson, retiring president, was in charge. Guests were welcomed by Mrs. Hittson and were seated in the auditorium for the afternoon program. Seasonal cut flowers adorned the rooms and gave a festive appearance to the entire Library building.

After the meeting was opened Mrs. Hittson presented Mrs. J. E. Crawford, program chairman, who in turn introduced Rev. Durwood Fleming of Eastland, afternoon guest speaker. His subject, "America as An Ally or Enemy," was a challenge to every one present. The address looked toward the study theme of the club for the coming year, "Know the Nations." Miss Ella Andres closed the program by singing "Ave Maria."

A social hour followed and refreshments were passed to approximately 40 members and guests.

INITIAL MEETING OF CITY FEDERATION.

A splendid meeting was held in the Women's club house Monday afternoon by the City Federation of Women's clubs. Decorations emphasized Federation colors of lavender and white. Mrs. W. D. Hazel, retiring president, was in charge and the meeting was the initial one of the club year. Minutes and roll were read and members from each club responded with a current event. The Federation voted to give \$5 to the War chest, after which Mrs. Hazel requested Mrs. Philip Pettit to act as installing officer and officers for the new year were inducted. Mrs. Pettit giving each officer an outline of her duties. Mrs. Hazel then called Mrs. E. Hooks, incoming president, to the chair and turned the gavel to her.
